SEC. 7. (a) The provisions of the Acts listed in paragraph (b) of this section shall continue to apply to lands and waters specified in such Acts notwithstanding the inclusion of any such lands and waters in the wilderness or mining protection area designated under this Act. For lands and waters to which such Acts listed in paragraph (b) apply which are also within the wilderness or mining protection area designated under this Act, any withdrawal, prohibition, or restriction contained in such Acts listed in paragraph (b) shall be in addition to any withdrawal, prohibition, or restriction otherwise applicable to such wilderness or mining protection area under any other law.

(b) The Acts referred to in paragraph (a) are as follows:

(1) The Act of July 10, 1930 (46 Stat. 1020; 16 U.S.C. 577a, 577b), herein referred to as the "Shipstead-Nolan Act".

(2) The Act of June 22, 1948 (62 Stat. 568, as amended, 16 U.S.C. 577c–577b), herein referred to as the "Thye-Blatnik Act".

(c) The provisions of the Shipstead-Nolan Act are hereby extended and made applicable to all lands and waters not otherwise subject to such Act which are within the wilderness designated under this Act.

(d)(1) The authorities contained in the Thye-Blatnik are hereby extended and made applicable to all lands and waters not otherwise subject to such Act which are within the wilderness designated under this Act.

(2) In applying the second proviso of section 5 of such Thye-Blatnik Act to the areas to which such Act is extended and made applicable under this subsection, the phrase "fiscal year 1980" shall be substituted for the phrase "the first full fiscal year after the approval of this Act" in such proviso.

(3) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of the Thye-Blatnik Act with respect to the lands and waters within the wilderness designated under this Act. Such sums may be used for the payment of court judgments in condemnation actions brought under the terms of the Thye-Blatnik Act without regard to the date such condemnation actions were initially instituted. Funds appropriated from the Land and Water Conservation Fund may be used for the acquisition of any lands and waters, or interests therein within such wilderness.

EXISTING AIRSPACE RESERVATION

SEC. 8. The provisions of Executive Order 10092 as made applicable to the Boundary Waters Canoe Area established by the Wilderness Act of 1964 shall be deemed incorporated into this Act.

MINING PROTECTION AREA ESTABLISHMENT

SEC. 9. In order to protect existing natural values and high standards of environmental quality from the adverse impacts associated with mineral development, there is hereby established the Boundary Waters Canoe Area Mining Protection Area (hereinafter in this Act referred to as the "mining protection area"), comprising approximately two hundred and twenty-two thousand acres.

MAP AND BOUNDARIES

SEC. 10. The mining protection area shall comprise the area generally depicted as a mining protection area on the map entitled "Boundary Waters Canoe Area Wilderness and Boundary Waters Canoe Area Mining Protection Area" dated September 1978, which shall be on file and available for public inspection in the offices of the Supervisor of the Superior National Forest and of the Chief, United States Forest Service. As soon as practicable after this Act takes effect, the Secretary shall file a map and a legal description of the mining protection area with the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the United States Senate. Such map and description shall have the same force and effect as if included in this Act. Correction of clerical and typographical errors in such description may be made.

MINING AND MINERAL LEASING IN THE WILDERNESS AND MINING PROTECTION AREA

SEC. 11. (a) In addition to any other applicable prohibition or withdrawal from entry or appropriation under any provision of the Wilderness Act or under any other provision of law, no permit, lease, or other authorization may be issued by any agency or authority of the United States for—

(1) exploration for, or mining of, minerals owned by the United States within the Boundary Waters Canoe Area Wilderness and Boundary Waters Canoe Area Mining Protection Area; or

(2) exploration for, or mining of minerals within such areas if such activities may affect navigable waters or

(3) the use of property owned by the United States in relation to any mining of or exploration for minerals in such areas which may materially impair the wilderness qualities of the wilderness area or which may materially impair the natural value and environmental quality of the mining protection area.

The prohibitions contained in this subsection and any withdrawal from entry or appropriation for mining of or exploration for minerals applicable to the Boundary Waters Canoe Area Wilderness and Boundary Waters Canoe Area Mining Protection Area shall not apply to the extent specifically provided in legislation enacted by the United States after the date of enactment of this Act pursuant to a national emergency declared by the President.

(b)(1) Consistent with the prohibitions and other requirements in subsection (a) of this section, no permit, lease, or other authorization shall be issued unless and until—

(A) the Secretary shall have approved a plan that details how mining will be conducted consistent with this Act and with other Federal, State, and local requirements, and that details how the area will be restored to its original condition or to a substantially equivalent condition, including the estimated cost thereof:

(B) the applicant has posted a bond for performance payable to the United States in an amount determined by the Secretary to be sufficient to assure completion of the reclamation plan if the work had to be performed by the United States;

(C) the applicant shall have obtained all the area incapable of reverting to its original als required by Federal, State, or local laws; and (iv) the Secretary has determined that no permanent facility will be constructed nor alteration will occur that could render the area incapable of reverting to its original condition or to a substantially equivalent condition.

(2) The provisions of paragraphs (2) and (3) of section 4(d) of the Wilderness Act (78 Stat. 890; 16 U.S.C. 1133(d)(2) and 16 U.S.C. 1133(d)(3)) shall not apply to the area designated herein as the Boundary Waters Canoe Area Wilderness.

(c) The Secretary is authorized to acquire any minerals or mineral rights within the wilderness and mining protection area alleged to be owned by persons other than the Federal or State governments in the following manner:

(1) The Secretary first may seek to acquire these minerals or mineral rights by donation. In seeking a donation, the Secretary shall inform the person alleging the ownership by purchase as set forth in paragraph (2) below.

(2) If the person alleging the ownership interest does not donate his minerals or mineral rights to either the Federal or State Governments, the Secretary is authorized to acquire the rights by purchase, within the limits of funds appropriated for property acquisition in the Superior National Forest, and in an amount appropriately discounted for the following factors if existent in relation to the particular mineral interest:

(A) The original patenting from the Federal public domain was fraudulent. The patenting of lands in the Boundary Waters Canoe Area Wilderness and Boundary Waters Canoe Area Mining Protection Area is prima facie fraudulent if (1) the Act under which the patent was issued was one of the Acts intended to put settlers on the land, such as, but without limitation, the Cash Purchase Act of 1820 (chapter LI, Act of April 24, 1820, 3 U.S. Stat. 566, 567, as amended); the Preemption Act of 1830 (chapter CCVIII, Act of May 29, 1830, 4 U.S. Stat. 420, 421, as amended); the Homestead Act of 1862 (chapter LXXV, Act of May 20, 1862, 12 U.S. Stat. 392–394, as amended); and the Timber and Stone Act (chapter 150, Act of June 3, 1878, 20 U.S. Stat. 88, 89, as amended, particularly by chapter 375, Act of August 4, 1892, 27 U.S. Stat. 348); and (2) the land was patented after 1875 and before the establishment of the Superior National Forest by proclamation on February 13, 1909. The Secretary also shall consider any other evidence of fraud when determining the value of the minerals such as (1) the transfer by the entryman or patentee of whole or partial interests in the property during the patenting process or soon thereafter, (2) the appearance in the chain of title of persons known to have

participated in land speculation as land brokers, entrymen, or in other capacities.

(B) The date of separation of the mineral or mineral rights from the surface interest, if the separation occurred after 1927, the year when the courts have determined that the roadless policy was established by the Secretary for the area.

(C) Any other factor, such as restrictions on mining within the area imposed by State or local government, or by operation of treaty.

(d) In the event any legal action or proceeding is instituted by or against the United States in relation to minerals or mineral rights where the patenting is prima facie fraudulent as described in subsection (c) of this section, the Attorney General of the United States shall assert the public's equitable right to constructive or public trusts, or to recover or offset damages including but not limited to those based on the value of land fraudulently acquired plus interest at 6 percentum per annum.

(e) Notwithstanding any requirement of this section, the Secretary shall have authority to acquire within the wilderness or mining protection area designated by this Act, existing mineral interests by donation, purchase, exchange, or through exercise of the power of eminent domain.

(f) There is authorized to be appropriated to the Secretary such sums as may be required to carry out the purposes of this section, to be available until expended.

SEVERABILITY

SEC. 12. If any provision of this Act is declared to be invalid, such declaration shall not affect the validity of any other provision hereof.

EXISTING STRUCTURES

SEC. 13. Nothing in this Act or the Wilderness Act shall be constructed to prohibit the maintenance of the Prairie Portage Dam (on the international boundary chain between Birch and Basswood Lakes), and the Secretary is authorized to perform such maintenance work as may be required to keep that dam functional at its present height and width. The Secretary is authorized to maintain other existing water control structures only where such structures are necessary to protect wilderness values or public safety.

JURISDICTION OVER FISH AND WILDLIFE

SEC. 14. Nothing in this Act shall be construed as affecting the jurisdiction or responsibilities of the State with respect to fish and wildlife in the wilderness and the mining protection area.

JURISDICTION OVER WATERS

SEC. 15. The Secretary is authorized to promulgate and enforce regulations that limit or prohibit the use of motorized equipment on or relating to waters located within the wilderness in accordance with the provisions of this Act: *Provided*, That nothing in this Act shall be construed as affecting the jurisdiction or responsibilities of the State with respect to such waters except to the extent that the exercise of such jurisdiction is less stringent than the Secretary's regulations promulgated pursuant to this section: *Provided further*, That any regulations adopted pursuant to this Act shall be complementary to, and not in derogation of regulations issued by the United States Coast Guard.

The Secretary is authorized to enter into cooperative agreements with the State of Minnesota with respect to enforcement of Federal and State regulations affecting the wilderness and the mining protection area.

COOPERATION WITH STATE

SEC. 16. (a) The Secretary shall cooperate with the State of Minnesota and any political subdivision thereof in the administration of the mining protection area and in the administration and protection of lands within or adjacent to the mining protection area owned or controlled by the State or any political subdivision thereof. Nothing in this title shall deprive the State of Minnesota or any political subdivision thereof of its right to exercise civil and criminal jurisdiction within the wilderness and the mining protection area and impose land use controls and environmental health standards on non-Federal areas within the wilderness and the mining protection area, or of its right to tax persons, corporations, franchises, or other non-Federal property, including mineral or other interests, in or on lands or waters within the wilderness and the mining protection area.

(b) The Secretary is authorized to enter into cooperative agreements with the State of Minnesota with respect to enforcement of Federal and State regulations affecting the wilderness and the mining protection and shall consult with the State of Minnesota in an effort to enhance the multiple-use benefits to be derived from both State and national forest lands.

TREATIES

SEC. 17. Nothing in this Act shall affect the provisions of any treaty now applicable to lands and waters which are included in the mining protection area and the wilderness.

EXPANSION OF RECREATION PROGRAMS

SEC. 18. (a) The Secretary is authorized and directed to expedite and intensify the program of dispersed outdoor recreation development on the Superior National Forest outside the Boundary Waters Canoe Area Wilderness, as designated by this Act. The Secretary shall consider in such new program development the need for the following: additional snowmobile trails, particularly those now planned or under construction; remote campsites on lightly developed lakes; and lake access sites and parking facilities to provide motorized recreation experiences similar to those previously available in the Boundary Waters Canoe Area.

(b) The Secretary, consistent with the Wilderness Act of 1964 and with this Act, is authorized to construct a system of new hiking, backpacking and cross-country ski trails within the Boundary Waters Canoe Area Wilderness as designated by this Act, and on appropriate adjacent federal lands outside the wilderness. In constructing such a trail system, consideration should be given to locating portions of the system near existing resorts on the perimeter of the wilderness to provide additional outdoor recreation opportunities for resort guests.

(c) The Secretary is authorized and directed to develop an educational program for the recreational users of the wilderness which will assist them to understand the purpose, value, and appropriate use of wilderness lands and the functioning of natural ecosystems in wilderness.

(d) The Secretary in cooperation with the State of Minnesota and other appropriate groups, consistent with the purposes of this Act, is authorized and directed to develop a program providing opportunities for a wide range of outdoor experiences for disabled persons.

(e) There are authorized to be appropriated such sums as may be necessary for the Secretary to carry out the purposes of this section.

SEC. 19. (a) The Secretary, in cooperation with other appropriate executive agencies, is authorized and directed to develop a cooperative program of technical and financial assistance to resorts in commercial operation in 1975, 1976, and 1977, and outfitters in commercial operation in 1977 which are located within the mining protection area or which are located on land adjacent to any of the lakes listed in section 5 of this Act. There are authorized to be appropriated such sums as may be necessary for the purposes of this subsection.

(b) There are authorized to be appropriated to the Secretary funds to be made available as grants to the Agricultural Extension Service, University of Minnesota, to provide over a three-year period educational and technical assistance to businesses and communities adjacent to the Boundary Waters Canoe Area Wilderness in order to improve economic opportunities for tourism and recreation-related businesses in a manner which is complementary to the management of the wilderness.

MANAGEMENT STUDY

SEC. 20. The Secretary, acting through the Chief, United States Forest Service, shall, not later than October 1, 1981, submit to the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate, a comprehensive management plan setting forth the specific management procedures to implement the objectives of this Act. An interim report setting forth public involvement procedures, management alternatives, and a timetable for the remaining study actions, shall be submitted within one year from the date of enactment of this Act.

LIMITATION OF AUTHORIZATIONS

SEC. 21. All authorizations for any funds to be appropriated under the terms of this Act shall not be effective until October 1, 1979. Notwithstanding any other provision of this Act, authority to enter into agreements or to make payments under this Act shall be effective only to the extent or in such amounts as are provided in advance in appropriation Acts.

And the Senate agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two houses on the amendment of the Senate to the bill (H.R. 12250) to designate the Boundary Waters Canoe Area Wilderness, to establish the Boundary Waters Canoe Area Mining Protection Area, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

GENERAL EXPLANATION

The Senate and the House of Representatives have enacted companion measures with respect to the Boundary Waters Canoe Area in northeastern Minnesota. In each case, the central thrust of the legislation is to provide further protection to this existing unit of the national wilderness preservation system. Many of the provisions of the two measures are identical. In each case, the existing Boundary Waters Canoe Area is redesignated as the Boundary Waters Canoe Area Wilderness. The three units of the wilderness are linked by a Mining Protection Area which sets a consistent standard of protection from the possible adverse effects of mining activity throughout the area. The United States Forest Service is to undertake a program of

complementary recreation development in the contiguous areas of the Superior National Forest. The agency is also to develop a program of intensive forest management on national forest lands within Minnesota, and is to cooperate with state and local agencies to develop the renewable resources of their lands. The two measures also contain similar extensions of various existing authorities to the additional lands designated as wilderness, and define the ways in which the federal agency is to cooperate with the state throughout the area.

While the two measures are therefore generally similar, the House, in receding to the Senate amendment, does agree to certain changes, the more substantive of which are discussed below.

MAJOR PROVISIONS

1. Motorized use

The major area of difference between the two measures is in the area of motorboat and snowmobile use. In terms of usage, the Senate amendment allows more than half of all existing motorboat use to continue whereas the House bill permitted only 25 percent to continue. In terms of lake surface open to motor use, the Senate amendment allows motorboat use on a third of the water area of the BWCA whereas the House bill would have permitted permanent motor use on only 5 percent of the water area. Regarding snowmobiles, the Senate amendment lifts the snowmobile ban by giving the Secretary of Agriculture the authority to permit snowmobile use on three designated trails for five years. The House measure contained the ban on use of snowmobiles except along two corridors to permit access to Canada, which also will remain open under the provisions of the Senate amendment. Although the managers on the part of the House had intended to provide stronger provisions restricting motorized use in the measure, the conferees agreed that the motorized use provisions of the Senate amendment represent a fair and workable compromise which all parties can accept as a reasonable solution which will afford increased protection of the area's wilderness character while allowing the continuation of the most heavily used and long established motorized routes.

2. Wilderness boundary

The Senate amendment makes several changes to the House-passed wilderness boundary which have the cumulative effect of decreasing the proposed additions to the area by approximately 1,500 acres as opposed to the House measure. The most substantial of these changes is to delete an area southwest of Eagle Mountain which contained an active timber sale. Other minor changes were made, after consultation with the United States Forest Service, in order to allow for existing facilities or to enhance the ability of the agency to manage the area as wilderness.

3. Voluntary resort sales

The Senate amendment extends by two years the period within which a qualifying resort owner may require purchase of his property. This is intended to permit resort owners to assess the effects of the five-year phaseout of certain motorized use provided by the Senate amendment. The right of first refusal of the Secretary to acquire properties on the lakes which qualify for directed resort purchases is restricted to only those lakes where such a directed purchase has occurred. This is consistent with the conferees views that this authority should only be available to the Secretary in those cases in which the federal government has been required to purchase a resort property.

4. Timber harvesting

The House and Senate measures are generally identical with regard to the phaseout of timber harvesting within the Boundary Waters area and with respect to the management of other national forest lands in the state of Minnesota. The Senate language does add a specific provision for the Secretary of Agriculture to make a review of progress and a forecast of planned achievements for the intensive management program which the amendment requires. The Secretary, consistent with existing applicable statutes, is also directed to engage in various management actions to improve this program in the Superior National Forest. The funding period for this program and for a program of matching grants to the state for forest purposes is also extended and the authorization increased.

5. Miscellaneous

The Senate amendment also makes several changes to improve the text of the mining provisions in the bill. The Senate language also modifies the House provision on existing structures within the wilderness to make clear that the Secretary may maintain existing small dams in the area if necessary to protect wilderness values or public safety.

CONFERENCE REPORT ON H.R. 12929, LABOR-HEW APPROPRIATIONS

AMENDMENTS IN DISAGREEMENT

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Mr. FLOOD. Mr. Speaker, in order to expedite the disposition of these amendments, I would like to suggest that all such amendments on which we are asking that the House recede and concur be considered en bloc.

Accordingly, Mr. Speaker, I ask unanimous consent that Senate amendments numbered 18, 20, 22, 27, 35, 45, 60, 66, 77, 81, 83, 90, 100, 104, and 106 be considered en bloc.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The amendments in disagreement above referred to are as follows:

Senate amendment No. 18: Page 13, line 16, after "$63,841,000" insert ", including and not to exceed 287 full-time permanent positions".

Senate amendment No. 20: Page 13, line 23, after "869,000" insert ", including 642 full-time permanent positions".

Senate amendment No. 22: Page 14, line 7, after "$188,910,000" insert ", including 567 full-time permanent positions".

Senate amendment No. 27: Page 14, line 24, after "$119,005,000" insert ", including 400 full-time permanent positions".

Senate amendment No. 35: Page 15, line 22, after "$152,899,000" insert ", including 80 full-time permanent positions".

Senate amendment No. 45: Page 19, line 18, after "$52,518,000" insert ", including 1,921 full-time permanent positions".

Senate amendment No. 60: Page 26, line 11, after "$327,000,000" insert ": *Provided*, That the Assistant Secretary, in awarding funds under this program, shall not give less favorable consideration to the application of a local educational agency which has voluntarily adopted a plan qualified for assistance under this title than to the application of a local educational agency which has been legally required to adopt such a plan".

Senate amendment No. 66: Page 27, line 11, after "herein" insert ": *Provided further*, That not to exceed $112,317,000 shall be for carrying out part A, subpart 3 of the Vocational Education Act".

Senate amendment No. 77: Page 28, line 23, after "$390,000,000" insert ": *Provided*, That funds contained in Public Law 95-205 for carrying out section 525 of the Education Amendments of 1976 shall remain available for obligation until September 30, 1980".

Senate amendment No. 81: Page 29, line 21, after "535,000" insert ", of which not to exceed $1,840,000 shall be for carrying out section 403 of the Special Projects Act".

Senate amendment No. 83: Page 30, line 15, after "$126,830,000" insert ": *Provided*, That during the current fiscal year up to $10,000,000 in collections on Federally insured defaulted loans may be transferred to the Salaries and Expenses account for the payment of related collection activities".

Senate amendment No. 90: Page 35, after line 12, insert:

NATIONAL COMMISSION ON SOCIAL SECURITY

For carrying out the purposes of the National Commission on Social Security established pursuant to section 361 of Public Law 95-216, $500,000 to remain available until expended.

Senate amendment No. 100: Page 41, line 14, after "therein" insert ": *Provided*, That funds, appropriated under this head in Public Law 95-240 for compensating the State of Washington for expenses related to the Tacoma Indian Hospital, shall remain available until expended".

Senate amendment No. 104: Page 47, after line 9 insert:

SEC. 212. Funds appropriated under this title may not be used to pay the compensation of experts or consultants (other than full-time employees) or organizations thereof, or to procure by contract the services of experts or consultants or organizations thereof, in excess of $194,000,000 during fiscal year 1979.

For the purposes of this section, consultant costs are defined by chapter 815 of the General Administration Manual of the Department of Health, Education, and Welfare.

Senate amendment No. 106: Page 53, after line 11, insert:

No part of any appropriation contained in this Act shall be used to pay the salary or expenses of any grant or contract recipient or agent acting for such recipient to engage in any activity designed to influence legislation or appropriations pending before the Congress.

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendments of the Senate numbered 18, 20, 22, 27, 35, 45, 60, 66, 77, 81, 83, 90, 100, 104, and 106 and concur therein.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 23 is as follows. Page 14, line 12, after "$183,198,000" insert

", including and not to exceed 651 full-time permanent positions".

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 23 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: ", including and not to exceed 649 full-time permanent positions".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 24 is as follows: Page 14, line 17, strike out "$225,092,000" and insert "$230,000,000".

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 24 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment insert the following: "$231,058,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 25 is as follows: Page 14, line 18, after "$225,092,000" insert ", including 180 full-time permanent positions".

MOTION OFFERED BY MR. FLOOD

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 25 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: ", including 179 full-time permanent positions".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 29 is as follows: Page 15, line 4, after "526,000" insert ", including 263 full-time permanent positions".

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 29 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: ", including 258 full-time permanent positions".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 29 is as follows: Page 15, line 10, after "$100,549,000" insert ", including 191 full-time permanent positions".

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion. The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 31 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: ", including 186 full-time permanent positions".

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 32 is as follows: Page 15, line 16, strike out "$73,227,000" and insert "$70,000,000".

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 32 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment insert the following: "$73,512,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 33 is as follows: Page 15, line 17, after "$73,227,000" insert ", including 401 full-time permanent positions".

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 33 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: ", including 405 full-time permanent positions".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 38 is as follows: Page 16, line 15, after "$31,887,000" insert ", including 505 full-time permanent positions."

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 38 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: ", including 503 full-time permanent positions".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 39 is as follows: Page 15, line 24, after "$19,673,000," insert "including 4,770 full-time permanent positions and."

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 39 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: "including 4,780 full-time permanent positions and".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 42 is as follows: Page 18, line 1, after $463,012,000" insert ", including 1,300 full-time permanent positions,".

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 42 and concur therein with an amendment, as follows:

In lieu of the matter inserted by said amendment insert the following: ", including 1,275 full-time permanent positions,".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 44 is as follows: Page 19, line 17, strike out "$52,518,000" and insert "$55,417,000".

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 44 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment insert the following: "$51,232,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 57 is as follows: Page 25, line 8, after "Act" insert ": *Provided*, That the total amount paid with respect to entitlements under section 3 of that title shall not exceed the amount paid under that section in fiscal year 1978, and any reductions required thereby shall be derived by proportionately reducing the payments applied for by all local educational agencies under that section".

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 57 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: ": *Provided*, That the total amount paid with respect to entitlements under section 3(b) of that title shall not exceed the amount paid under that section in fiscal year 1978, and any reductions required thereby shall be derived by proportionately reducing the payments applied for by all local educational agencies under section 3(b)".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 72 is as follows: Page 27, line 24, after "*Provided*," insert "That such funds may be expended notwithstanding the provisions of section 1208(a)(2) of the Higher Education Act: *Provided further*,".

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of

the Senate numbered 72 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: "That such funds may be expended notwithstanding the provisions of section 1208(a)(2) of the Higher Education Act: *Provided further*, That (1) Funds appropriated in this Act for Basic Educational Opportunity Grants under the Higher Education Act of 1965 shall be used to make basic grants consistent with the Schedule of Expected Family Contribution in effect as of October 1, 1978, except that (A) such schedule shall not have an assessment rate on parental discretionary income in excess of 10.5 per centum, (B) such schedule shall not reduce the maximum basic grant below $1,800, and (C) such schedule shall retain the provisions relating to independent students as were in effect for the academic year 1978–79.

(2) If funds contained in this Act available for basic educational opportunity grants are insufficient to satisfy fully all basic grant entitlements as determined by the Family Contribution Schedule as modified by paragraph (1), the amount paid with respect to each such entitlement shall be—

(A) the full amount in the case of any entitlement which exceeds $1,600;

(B) in the case of any entitlement which exceeds $1,200 but does not exceed $1,600,

(C) in the case of any entitlement which exceeds $1,000 but does not exceed $1,200, 75 per centum thereof;

(D) in the case of any entitlement which exceeds $800 but does not exceed $1,000, 70 per centum thereof;

(E) in the case of any entitlement which exceeds $600 but does not exceed $800, 65 per centum thereof; and

(F) in the case of any entitlement which does not exceed $600, 50 per centum thereof: *Provided further*,"

Mr. FLOOD (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 80 is as follows: Page 29, line 21, strike out "$133,535,000" and insert "$131,911,000".

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 80 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment insert the following: "$134,472,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The Clerk read as follows:

Senate amendment No. 92 is as follows: Page 35, line 24, after "$147,500,000" insert ": *Provided*, That $10,000,000 of the foregoing amount shall be apportioned for the purposes of the special projects authorized by section 2(c) of the Indochina Migration and Refugee Assistance Act of 1975, as amended, to be administered primarily by the private voluntary resettlement agencies".

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House recede from its disagreement to the amendment of the Senate numbered 92 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: ": *Provided*, That $7,500,000 of the foregoing amount shall be apportioned for the purposes of the special projects authorized by section 2(c) of the Indochina Migration and Refugee Assistance Act of 1975, as amended, to be administered primarily by the private voluntary resettlement agencies".

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania (Mr. FLOOD).

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. MAHON. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 391, nays 0, not voting 39, as follows:

Minish	Rinaldo	Vento
Montgomery	Sarasin	Weaver
Moss	Shipley	White
Pettis	Sisk	Whitehurst

The Clerk announced the following pairs:

Mr. Ammerman with Mr. Broyhill.
Mr. White with Mr. Quie.
Mrs. Burke of California with Mr. Rinaldo.
Mr. Krueger with Mr. Sarasin.
Mr. Minish with Mr. Stockman.
Mr. Montgomery with Mr. Cleveland.
Mr. Teague with Mr. Caputo.
Mr. Vento with Mr. Frey.
Mr. Moss with Mr. Whitehurst.
Mr. Shipley with Mr. Weaver.
Mr. Sisk with Mrs. Pettis.
Mr. Ireland with Mr. Goodling.
Mr. Leggett with Mr. Diggs.
Mr. Harrington with Mr. Crane.
Mr. Gonzalez with Mr. Cochran of Mississippi.
Mr. Bonker with Mr. Brown of Michigan.
Mr. Flowers with Mr. Beard of Tennessee.
Mr. Annunzio with Mr. Giaimo.
Mr. Rahall with Mr. Conyers.

So the motion was agreed to.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore. The Clerk will designate the remaining amendment in disagreement.

Senate amendment No. 103 is as follows: Page 46, line 19, strike out lines 1 to 4, inclusive, and insert:

SEC. 210. None of the funds in this Act shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term, or where medically necessary, or for rape or incest victims. This section does not prohibit the use of drugs or devices to prevent implantation of the fertilized ovum.

MOTION OFFERED BY MR. FLOOD

Mr. FLOOD. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. FLOOD moves that the House insist on its disagreement to the amendment of the Senate numbered 103.

PREFERENTIAL MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a preferential motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 103 and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert the following:

SEC. 210. None of the funds provided for in this Act shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term; or except for such medical procedures necessary for the victims of rape or incest when such rape or incest has been reported promptly to a law enforcement agency or public health service; or except in those instances where severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term when so determined by two physicians.

Nor are payments prohibited for drugs or devices to prevent implantation of the fertilized ovum or for medical procedures necessary for the termination of an ectopic pregnancy.

Mr. BAUMAN. Mr. Speaker, under the rule, I demand that the question be divided.

The SPEAKER pro tempore. The question will be divided.

The gentleman from Pennsylvania (Mr. FLOOD) will be recognized for 30 minutes, and the gentleman from Illinois (Mr. MICHEL) will be recognized for 30 minutes.

The Chair recognizes the gentleman from Pennsylvania (Mr. FLOOD).

Mr. FLOOD. Mr. Speaker, I yield 30 minutes to the gentleman from Illinois. (Mr. MICHEL).

Mr. MICHEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, in the debate on H.R. 12929 the House rejected by a vote of 122 yeas to 287 nays a motion offered by the gentleman from Ohio (Mr. STOKES) to strike section 210 altogether, as the Members will recall. Then the House also rejected, by a vote of 198 to 212, a motion offered by the gentleman from Texas (Mr. WRIGHT) to insert the language of the current law, that being proposed by the gentleman from Texas (Mr. MAHON), in lieu of the language recommended by our Committee on Appropriations.

I made the comment at the time of our considering the original bill that I was going to back off from that compromise language and go back to a firmer position taken by the House in view of my having realized that the rules and regulations to promulgate what we were talking about were far too loosely constructed by the Department of HEW and in fact really subverted what we were talking about in quite precise terms, particularly as I recall that rule and regulation providing for a 60-day requirement when we were talking about prompt reporting of cases of rape or incest.

So, having taken that position during the consideration of the regular bill, I have to maintain that position today, and then we will see what the will of the House is on the chairman's motion here.

Mr. Speaker, at this juncture I would be happy to yield 5 minutes to the original author of this amendment, the gentleman from Illinois (Mr. HYDE).

Mr. HYDE. Mr. Speaker, I would have preferred to follow my distinguished colleague, the gentlewoman from New Jersey (Mrs. FENWICK), because I would enjoy, as much as one can enjoy in such a discussion, responding to what the gentlewoman says. I have listened to her comments, and I think they deserve a response, but, nevertheless, let me just say a few things about the issue before us.

Mr. Speaker, I urge the House to stand fast. I urge the House to vote no on this motion to recede and to continue in its posture of saying, "Get the Government out of the business of paying for the killing of unborn children."

Call it a fetus, call it a bunch of randomly multiplying cells, if you want to be biologically incoherent. But that is a human life. By definition, that is a human life. Get the Government out of the business of paying for the extermination of human life.

The euphemisms that color this subject are amazing. They say a woman should have a choice over her own body. That is like talking about slavery from the point of view of the slave owner and ignoring the slave. You talk about the woman's body and ignore the victim—ignore the defenseless, voiceless human life that is in the womb. And if you leave it alone, it will be just as healthy, just as significant, just as useful as you are.

Now, every abortion occurs over somebody's dead body. Abortion is not something that happens to a woman. It happens to a baby. By definition, by intention, it is killing, and you are killing a human life that has begun through the miracle of cooperation of a man and woman and Almighty God.

But, it is said, there are social reasons why we cannot have some people. Some people might be deformed. My God. Do you have to pass a physical examination with perfect marks in order to be admitted to the human family? Is that what we want to do? By definition, by intention, abortion kills a human life once it has begun.

Mr. Speaker, I have thought about the law ever since I started law school, and I said to myself, "What is the purpose of the law?" And I have reduced that to a very simple, some might say simplistic, formula. The law is to protect the weak from the strong. That is what the law is for. And I do not know anyone weaker or more voiceless or more defenseless than an innocently inconvenient human life.

So I say we should get out of the business of killing human life. If there are problems—and there are tragic problems of unwanted children—cannot this society, with its resources, find human answers to the human problems of unwanted children?

I suggest to the Members that if they look at the training films and observe the use of the suction machine that performs abortions, they must conclude, unless they are blind, that that is the ultimate in child abuse. That is a human life, and do not obscure it by euphemisms, by calling it anything other than what it is.

Mr. Speaker, I hope that this House will stand firm in defense of the weak from the strong and get out of the business of paying for abortions.

Mr. FLOOD. Mr. Speaker, I yield 3 minutes to the gentleman from Ohio (Mr. STOKES).

Mr. STOKES. Mr. Speaker, I shall not consume the full 3 minutes here in order to discuss this motion. I do rise in sup-

port of the motion of the gentleman from Texas (Mr. MAHON). I do so because I happen to believe that his motion offers this House a chance at a reasonable and sensible compromise. It is not the best language. It is not even the language that I would choose if I had my opportunity to have the kind of language in this bill that I wanted.

But, I sat as a member of the House-Senate conference this past year when we sat in conference for 6 months trying to arrive at some kind of language which would be acceptable to both the House and Senate. I saw us settle all the money problems in that bill in 2 days, and then sit there for 6 months trying to arrive at proper language acceptable to both Houses. As the distinguished gentleman from Texas (Mr. MAHON) said, during the course of that 6-month period, we had something like 27 votes.

I spoke from the well many times and offered motions to the House trying to resolve this matter. I just think the language offered by the Mahon motion is sensible, it is reasonable, it is language I think we can live with. I intend to vote for it. I think the Senate will accept this language, and I urge our colleagues on the House side to accept the language of the Mahon motion.

Mr. MICHEL. Mr. Speaker, I yield 5 minutes to the gentlewoman from New Jersey (Mrs. FENWICK).

Mrs. FENWICK. Mr. Speaker, I thank my colleague. I certainly will not take 5 minutes. I do support the Mahon resolution, and I think here we speak for the right of those who have no money as compared to those who have.

We are talking now about a legal procedure, declared legal by the Supreme Court. What this amendment says is that it is legal and should be available. Its defeat would mean that it will be available for those who have money, but unavailable to those who are poor. If we could stop abortions by a decision of this House or any other legislative body, we would be facing a very different question, but we cannot, and we know it.

When I was in Chile, where abortion was absolutely forbidden by law, I asked the head of the medical services of the country, "Why are there so many women in your hospitals?" He replied:

Because 35 percent of all the beds are filled by women dying of self-induced abortions. They are too poor for the back-room procedures that have killed our women in this country.

The backroom system in New Jersey was tragic in its results. I have told the House about this. A girl 16 years old with her mother went to Pennsylvania, and in a motel the girl died and the mother was held as an accessory to murder. That is a family tragedy. We are not talking about abstract statistics.

Yes, we are speaking for the defense of the weak and the poor, as compared to the resources that this country in its wisdom allows for those who have money. That is what we are talking about on the floor of the House today. That is all. Are we going to make it possible for the poor to have the medical services open to the rich?

Mr. FLOOD. Mr. Speaker, I yield 3 minutes to the gentleman from California (Mr. MILLER).

Mr. MILLER of California. Mr. Speaker, and Members of the House, I take the well, on the medicaid abortion restrictions, almost as a matter of procedure now. It is "procedural" because, unfortunately, I do not believe we can change many votes on this issue. But, I still feel a great deal of rage within me when I see this body sit as judge, jury, and prosecutor on a great number of women in this country who really do not have a viable alternative to abortion. As the gentlewoman from New Jersey (Mrs. FENWICK) has said, the House has decided to segregate this country along economic lines on this issue which I feel very emotional about. And, I think we are wrong.

We sit here as a body, made up of men for the most part. And, the men will never have to deal with the trauma of abortion; we will never have to undergo an abortion, we will never have to weigh this issue as the most personal of all decisions. We, as men, may participate in such decisions with our wives or our loved ones sometimes, but it still will not be our ultimate decision, as men. I think we are wrong, therefore, to try to impose our decisions on others.

I think it is wrong that we show so little tolerance, as exemplified even in the amendment that is being substituted here. But, I hope we will adopt the Mahon amendment, to give at least the victims of rape and incest an option to deal with those tragedies. I hope, one day, all the male Members will read about the real alternatives to abortion that are available to women. Let the men then talk about how pleasant and easy they think it is to take the pill or to use a diaphragm or to have one's tubes "tied," or to get pregnant while practicing rhythm.

We act like it is so easy for women to make these decisions. It is not. We are just going to sit here so smugly and pretend these things are easy for women. We are going to continue to pretend that cancer is not a factor, that bleeding and hemorrhaging are not factors, that other injuries are not factors in birth control. Some of us are even going to pretend that rhythm always works.

I do not think anyone here would say that he wants to live in the kind of society where we segregate people based on economics and say that the poorest will lose their rights. But this has nothing to do with rights that are legislated. It has to do with the human function of making decisions about one's own body. Yet, the issue has been reduced to a procedural matter, because minds are made up. I suppose we will go on to deal with it as a procedural matter.

I have received a letter from a constituent of mine. I have carried it with me for 3 or 4 weeks now. The woman who wrote to me talks about the problem of wrestling with these decisions and talking them over with friends. She talks about that private decision. She says a lot of things in this letter that I do not agree with. She said that, maybe we should allow one abortion per woman; or we should make poor women go to Government hospitals. I do not agree with all of those things. But, my constituent makes a good case for tolerance of a woman's private decision for herself and a woman's role in counseling other women. Those are private decisions that we all understand among our friends and our own family. But publicly here today we refuse to understand—we deny other people their private decisions and personal beliefs. That is the flimsy basis for our pontifications.

I just wish there was a little more humanism in these discussions, some compassion for the woman. I do not relish abortion. But, I certainly do not relish this body's attitude toward American women. I do not think we can either reduce abortions or show tolerance for a woman's personal decision by supporting the strict House language. I hope we will adopt the Mahon substitute. At least it provides for women and youngsters involved in rape and incest, where they have no control over the situation.

I just plead with the Members to put themselves in other people's shoes and ask themselves what they would do in that private moment.

The letter of my constitutent follows:

SEPTEMBER 25, 1978.

DEAR CONGRESSMAN MILLER: Yesterday afternoon I happened to be watching a television program about abortion. As I tuned in it just so happened that Bella Abzug was speaking, and while I don't necessarily agree with Ms. Abzug, she is right when she said "if you don't like what is going on let your representative know". So, here I go. (and by the way, this is not the first time I have written on this subject).

First, let me qualify myself. I am a working wife and mother of 3 grown children. I have personally been involved with abortion through a close member of the family. I have also been personally involved with the illegitimate birth of a baby born to a 15 year old member of the family. And, in 1952 my very best girl friend of 17 years almost died as the result of an illegal abortion, and was left childless. So I have personally been involved with abortion, legal and illegal and, believe me it is very easy to become emotionally radical particularly when there is such pro and con within the same family. We have tried to compromise and justify when all it boils down to is the individual conscience.

I could go into all of the emotional reasons that have been gone over and over and over, but that is exactly what is wrong with the whole issue, emotions. What we have to look at is rights, the rights of the individual to choose abortion or not.

Men should not even be involved in my right to make this choice unless he is my husband. I say this because no man will ever have to have an abortion and in most situations the woman is left with the responsibility of raising the child or children. However, most of the representatives who make our laws are men (and in my opinion that is as it should be, I am not a women's libber) and therefore I must call upon you to put aside the over-reaction of the Anti-Abortionists and look only at my freedom of choice. Leave my conscience to me.

I do not believe that I have the right to tell my neighbor that she cannot have an abortion. She has to have the right to choose for herself. I don't live in her life, and if for whatever reason she decides she must do this I have to respect her right to do so, regardless of my personal opinion or beliefs, and I'll tell you this, I am 43 years old and if I were to become pregnant I would have an abortion, the reasons are my business, and if it were illegal I would still find a way.

This abortion issue has gotten way out of proportion. Women waving placards holding a baby, of course that really gets down to the old heart strings. But damn it, that baby is a whole different part of our lives, and that woman made the choice to have that baby, she didn't ask me if it was okay. What they are doing is saying "look at the living", and I say yes indeed, look at the living and respect the rights of those living and stop trying to be policeman of the conscience of the living.

If the Pope thinks abortion is a sin, then let him preach that to his followers, not to our President and law makers. Think of this, those people who are so adamant about abortions will never face the decision, because they don't believe in and won't consider it. Also, these same people would have a screaming fit if I or anyone else encouraged them to have an abortion. Why then do they have the right to tell me I can't.

What did I tell you, so far all of this is emotion, mine.

The question: Should women have the right to have a legal abortion in a good hospital with a good doctor. The answer: Absolutely. And that should be all there is to it.

I understand that the decision is indeed serious, and deserves all the thought one can muster, and cannot be taken lightly. But the individual must have the right to the freedom of choice. Therefore I implore you to put aside the emotions and the mis-placed over-reactions of the radicals and stick to the basics, and to use your influence to represent the choice of the people.

Now, the next big thing is whether we should pay for abortions for the poor? Yes. However, I don't believe they should be allowed private hospital or private doctor care at our expense. I believe that they should receive care at the County Hospital level, or government hospitals, or state. Or, the federal government should set a firm dollar amount which will be paid for an abortion, and if the abortion costs rise above that then that would be the responsibility of the patient. Every woman over the age of 10 knows what causes pregnancy, and if one woman continues to become pregnant time after time, then I don't believe the taxpayers should bear the repeated financial burden of her stupidity. That woman then needs counselling.

One serious problem is the sex education in our schools. Let me tell you about that, all they teach is the reproduction process, and by High School the children already know about that. What we need are specialized Sex Education Instructors. The children need to know about the consequences of their un-educated decisions, the commitments involved with intimacy, the ever-lasting emotional responsibilities of an instant physical desire. And, most importantly they need to learn that love, marriage and children are the ultimate joys in their lives, and irresponsible, pre-mature pre-marital games can lead to years of emotional destruction. It is not possible to "do your own thing" and to hell with the conesquences and ever hope to overcome the lasting psychological as well as emotional destruction.

I am continuously amazed at the ignorance of some parents toward the sex education of their children. It is appalling to me that so many parents are content with their heads in the sand and then completely devastated if their children do something as "dirty" as intercourse. Believe me, Mr. Miller, until we have real sex education we will have to be prepared for continued use of abortion. I can't help but believe that the education would be a lot less expensive (in the long term) than that for abortion costs.

In closing let me say thank you for all of your efforts in our behalf. I understand that your job is one of tremendous responsibility, and I appreciate the job and your representation, and thankful you are willing to take on such a task.

My thanks also to your fine staff.

Sincerely,

GLORIA G. CLARK.

Mr. MICHEL. Mr. Speaker, I yield 5 minutes to the gentleman from Maryland (Mr. BAUMAN).

Mr. BAUMAN. Mr. Speaker, the question before the House is a motion to recede. The choices before the membership are simply the language that the House backed on a rollcall vote earlier this year which permits abortions only if the life of the mother is in danger or the language which would be offered by the gentleman from Texas (Mr. MAHON) if the motion to recede is adopted, the current law.

I devoutly hope that the House will oppose the motion to recede. Undoubtedly we are going to be told that this will present a complication in the last days of this session, that it will hold up the appropriation bill, that this will cause us to be in session next week. I think all those arguments could be laid to rest very simply by the fact that the House has already acted on a continuing resolution which contains substantially the language the gentleman from Texas would have us adopt.

I, too, have some concern when the appropriation bill is replaced by a continuing resolution, but the integrity of the Appropriations Committee and the integrity of the process here, as much as this gentleman constantly tries to support that parliamentary integrity, is absolutely inconsequential compared to the question of life or death that is before us.

It is that ultimate question which this rollcall will put before you, for which you must be responsible to your districts and to your constituents. I hope that you will vote "no" so that the House can stand by the stronger language. I repeat, such action will not present a time problem.

Now, Mr. Speaker, we have heard the same arguments delivered repeatedly on this floor against the right to life and for federally funded abortions, and those arguments may have had some abstract validity at the time they were offered first since we had no accurate statistical analysis. One thing we do know is that the current situation, under Federal law, has not produced back-alley abortions. I refer you to "Monitoring the Health Impact of Restricting Medicaid Funds for Elective Abortions," a paper presented by Dr. Ann Marie Kimball, of the U.S. Department of HEW earlier this year, in which, after a statistical analysis and a lengthy, in-depth study made in various urban hospitals on the impact of the current language, it is said:

> Illegal abortion has been reported infrequently through the AMSH system. Only 5 cases have been recorded to date all occurring in non-Medicaid recipients. Thus, based on complication data we have no indication that Medicaid women in non-funded areas are seeking abortions from non-licensed practitioners or are inducing abortions themselves as a response for the lack of funds for elective abortions.

But I think we can even go further with the language that the House has adopted and make sure that abortions now occurring will not occur. We do not have the final statistical analysis, but the past actions of Congress restricting abortions is having the desired affect. Children are being permitted to live. That is what the entire battle on this issue has been about from the beginning.

The gentleman from Illinois, my colleague, Mr. HYDE, has balanced in his remarks the paradox of the concern for the mother against the concern for the child, and all of us share this concern. But neither has a greater right to life. But have that right.

I would hope that at this late hour in this protracted debate that has now extended over several years that the House will stand firm for its position and let the other body know exactly how we feel, with a certainty that within 3 or 4 days we will adjourn, there will be an HEW funding whether it is through an appropriation or through a continuing resolution.

Mr. FLOOD. Mr. Speaker, I yield 2 minutes to the gentleman from Washington (Mr. BONKER).

Mr. BONKER. Mr. Speaker, I rise in support of the amendment offered by the gentleman from Texas (Mr. MAHON).

Last year, if I recall correctly, we voted on this issue 15 or 16 times. And I recall at that time the chairman of the full committee commenting that in all his years in the House that this issue is the most vexing, and it certainly was the most difficult to work out between the House and the Senate.

Previously I had voted consistently for the Hyde amendment, but I felt that as a result of the efforts on behalf of the chairman of the full committee and the gentleman from Illinois (Mr. MICHEL) that we came up with corrective language and probably the only language that would be acceptable to both the House and the Senate.

Now we can proceed on the basis of facts.

In 1976, based upon a State-by-State survey, there were somewhere between 261,000 and 274,000 abortions at least partially funded by the Federal Government. Regulations placed into effect in the compromise language that was adopted on February 14 of this year, between that time and June 30, 1978, and that is the only period for which we have any data, the number of federally funded abortions totaled 739. On an accumulated basis this works out to about 1,700 federally funded abortions conducted under the compromise language adopted last year. So we have cut federally funded abortions 99 percent.

Even more striking is the fact that of the 739 federally funded abortions, 600 would have been allowed under the language insisted on by the House.

More than 600 were performed to save the life of the mother.

In short, the entire debate last year was over approximately 150 federally funded abortions, and those involved only cases where the mother was in extreme physical danger.

In view of all of this, Mr. Speaker, I can only conclude that it would be an insult to the patience, to the diligence, and to the wisdom of our chairman, the gentleman from Texas (Mr. MAHON), if we were to prolong the debate and prolong resolution of this important issue.

Mr. FLOOD. Mr. Speaker, I yield 2 minutes to the gentlewoman from Maryland (Mrs. SPELLMAN).

Mrs. SPELLMAN. Mr. Speaker, I shall not take 2 minutes.

My colleague, the gentleman from Washington, has said it so well. As many Members know, I have a very moderate position on abortion; and that, of course, gives me trouble from both sides.

Nevertheless, it does appear to me that any reasonable people would recognize that we have been through this discussion time and time again. The Mahon position is the one we reached last year after many votes. As my colleague, Mr. BONKERS, has just pointed out, the results have been all that anyone could have asked for; and for us to again go through that same process of voting and voting and revoting and then, in all probability, coming up with this very same position does not impress me as a very wise way of using our time here in the House.

Mr. Speaker, the gentleman from Texas (Mr. MAHON), our chairman, has brought forth a position which I can support. As I say, even from my moderate point of view on abortion, I can support it. It has proven itself, and I would ask the House to support the Mahon language.

Mr. FLOOD. Mr. Speaker, I yield 3 minutes to the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. Mr. Speaker, let me say that what we have to face here is the simple fact that there is no way by which we can turn a minority into a majority, either in the Senate or in this House. The Senate position is the distinct minority position in this House, and this House's position is the distinct minority position in the Senate.

That means to any rational person that we must compromise; and as has been indicated, if we do not compromise, we run the risk of the entire wheels of Government grinding to a halt.

Mr. Speaker, I have changed my position; frankly, on abortion through the years. When I first voted on it 5 or 6 years ago, I was offended by the idea that we would distinguish between poor women and other women in our society when it came to abortions. I have since come to the judgment that that position is not necessarily valid because I do believe that society has a right to limit public expenditure of funds for items which it finds offensive. I do not believe that women are entitled to free abortions of convenience anymore than I believe that they are entitled to free dental care under medicaid.

Mr. Speaker, the statistics cited by the gentleman from Washington (Mr. BONKER) are very telling. We had over 250,000 abortions funded under medicare-medicaid before this language was adopted a year ago, and this year we will have less than 2,300. Of those abortions, over 70 percent are approved by those who believe in the House position because they are necessary to save the life of the mother.

To suggest, under those circumstances, that this language proposed by the gentleman from Texas (Mr. MAHON) is permissive is bending the truth to a degree I did not think possible on this floor. The facts show otherwise.

Mr. Speaker, this is an extremely restrictive alternative which we are being asked to support today. I think we can all support it in good conscience—at least, I hope so.

Mr. Speaker, I yield back the balance of my time.

Mr. FLOOD. Mr. Speaker, I yield 3 minutes to the gentleman from Texas (Mr. WRIGHT).

Mr. WRIGHT. Mr. Speaker, there is a time for everything. There is a time for debate. There is a time for rhetoric. Then there comes a time for decision, a time for action. That time is here.

As a matter of personal conviction, I oppose abortion. I do not believe in it as a matter of principle. Certainly I resist the concept of abortion "on demand." I do believe in the legislative process, however. I do believe in the necessity of reasonable men and women to come to a reasonable resolution of a problem. When this subject first arose early last year, I supported the more restrictive language initially, until it became apparent that insistence upon that language was a roadblock to the enactment of the appropriations bill. Again this year an intractible attitude is holding up the appropriations for education and health.

The time has come to stop posturing and recognize that a reasonable resolution of the subject has been made by reasonable men and women. The House and the Senate after many hours of lengthy debate finally arrived at an agreement last year. This is the same Congress as it was last year. I do not know why anybody thinks a final agreement would be any different than that arrived at by the same identical people last year, no matter how many times we might send the bill back to conference.

Surely even those who want to insist once again on the more restrictive language have no idea whatever that it will prevail.

Mr. HYDE. Mr. Speaker, will the gentleman yield?

Mr. WRIGHT. Surely, I yield to the gentleman from Illinois.

Mr. HYDE. Mr. Speaker, I just wanted to ask if the gentleman meant by the word posturing to question the sincerity of those of us who want to stay with the House language?

Mr. WRIGHT. I thank the gentleman for permitting me to make totally clear, if there were any doubt, that I would never question the sincerity of my friend, the gentleman from Illinois.

Mr. HYDE. Nor do I question that of the gentleman from Texas.

Mr. WRIGHT. I think that the gentleman proceeds from a depth of conviction which is at the same time emotional and deeply religious. I honor him for his conviction, but I really do not believe that even those who hold the conviction as firmly as he holds it actually expect that the Congress will agree to his language. They did not do so last year. Why then would we continue in a posture of insisting again and again and again?

Will there ever come a time when the gentleman from Illinois and others would be willing to accept any compromise? Now, that is an interesting question. If there is not any time when they ever will accept any compromise of that language, then let us just know that fact and recognize that some will not yield to any linguistic adjustment whatever.

Mr. BAUMAN. Mr. Speaker, will the gentleman yield?

Mr. WRIGHT. I have another thing or two I want to say; but I will yield to the gentleman from Maryland.

Mr. BAUMAN. Mr. Speaker, I think the gentleman has raised a legitimate question and the answer is one the gentleman already knows. Those of us who believe strongly in the right to life will never accept any compromise until all killing of unborn children with Federal funds is stopped and beyond that, we hope that all abortion will stop. We cannot accept the murder of unborn children under any circumstances unless the life of the mother is endangered.

Mr. WRIGHT. I think that is an honest answer and the gentleman is entitled to take that stand.

I have said I oppose abortion, and I do. But the entire legislative process is one of recognizing the legitimacy of convictions which conflict with our own and achieving honorable accommodations. There are real life situations to which a rigid dogmatism yields no answers. There are innocent young girls from poor families who are victimized by rape and incest, and I am not sure that I have the right to crucify them upon the cross of my own self-assumed moral absolutism. In this perhaps we should heed the counsel of Benjamin Franklin to doubt just a little our own infallibility.

The SPEAKER pro tempore. The time of the gentleman from Texas has expired.

Mr. FLOOD. Mr. Speaker, I have no more time.

Mr. MICHEL. Mr. Speaker, I yield 2 additional minutes to the gentleman from Texas.

Mr. WRIGHT. Mr. Speaker, I thank the gentleman from Illinois for yielding to me. What I want to say is quite simply this. The manifest decision is clear, that those who insist on the more restrictive language are not ever going to compromise. They will want to continue time and again this way, and that is their right; but there are others in the House who feel as I do that abortion is wrong, but that there are mitigating circumstances.

This language in the Mahon motion is the same language we agreed to last year. This language is not proabortion language under any stretch of the imagination. It is antiabortion language. It imposes restrictions. Now we quibble and quarrel ad infinitum about precisely what restrictions must or must not be imposed.

Let me say this. We have to decide this issue. This Congress has decided it once. We can stay and posture as long as we want; but if this is the attitude, to hold up these bills and try to hold up again the continuing resolution, even as was done last year time and again, then we cannot adjourn on Saturday. There is not any way we can get through.

Are we going to let one issue of this type, deeply as we feel about this conviction, hold up action on the entire range of programs that are authorized and funded by this Congress for health, for education, for safety, for jobs, those needs that are legitimate and deeply felt, and I might say even felt in a deeply religious sense?

So I plead with you, my colleagues, the time for decision has come. If we get out of here on Saturday, as the leadership has promised we will bend every effort to do, then we shall have to adopt the Mahon motion. Sooner or later, on this bill or on a continuing resolution, it is the only apparent answer. I know it is distasteful to some. It is not satisfactory to my friends who want an even more restrictive prohibition.

But it is a prohibition, and it is a reasonably restrictive prohibition. It is the prohibition which the Members of this same Congress, after many, many hours of lengthy debate, finally agreed to last year.

So, Mr. Speaker, for those reasons, I implore the Members, let us not unduly delay this session yet again. Let us vote for the Mahon substitute.

Mr. FLOOD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I hold in my hand H.R. 12929, which passed the House June 13, 1978. This is the 1979 bill. Here is the language in this bill as passed by this House in June:

Section 210. None of the funds provided for in this Act shall be used to perform abortions except where the life of the mother shall be endangered if the fetus were carried to term.

That is the language passed by the House. It is in the 1979 bill. So I am unable to support the gentleman's motion to recede from the House language with respect to the funding of abortions.

I voted against this proposed compromise language last December, and I voted against it in June. The reasons are very simple. I believe that the exceptions contained in the language are much too broad. They offer possibilities for abuse. So I am still standing by the provisions which the House has repeatedly adopted and which provide that none of the funds in the bill will be used to pay for abortion except where the life of the mother would be endangered if the fetus were carried to term. That is the House language.

● Mr. WEISS. Mr. Speaker, I support the motion introduced by Mr. MAHON. If approved by the House, this will allow the compromise language on abortion reached last year to become part of the Labor-HEW appropriations bill for fiscal year 1979.

My position on Federal funding for abortion is well known. I believe that the Supreme Court decision in Roe against Wade clearly affirms a woman's right to choose abortion in the early stages of pregnancy, and I support that position. As such, the Hyde amendment discriminates against a segment of our population by denying their access to a legal, medical procedure. I have repeatedly voted and spoken against the Hyde amendment, and I continue to oppose it.

However, it is apparent that the compromise language is the most that prochoice advocates can now hope for. Last year, the House and Senate failed to concur until December, thus holding up final passage of the Labor-HEW appropriations bill and affecting all programs administered by those agencies. Therefore, although I favor full medicaid funding for abortion, I reluctantly support this compromise language as the most realistic and least restrictive measure which we can expect. I urge my colleague to join me.●

Mr. FLOOD. Mr. Speaker, I move the previous question on the preferential motion.

The previous question was ordered.

The SPEAKER pro tempore (Mr. NEDZI). The question is, Will the House recede from its disagreement to Senate amendment No. 103.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. MAHON. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 188, nays 216, not voting 26, as follows:

[Roll No. 895]

NOT VOTING—26

Ammerman	Crane	Krueger
Brown, Mich.	Diggs	Leggett
Burke, Calif.	Giaimo	Moss
Caputo	Goldwater	Pettis
Cochran	Gonzalez	Preyer
Cotter	Harrington	Quie
Rahall	Sisk	White
Sarasin	Teague	Young, Tex.
Shipley	Thornton	

The Clerk announced the following pairs:

On this vote:

Mrs. Burke of California for, with Mr. Quie against.

Mr. Harrington for, with Mr. Crane against.

Mr. Shipley for, with Mr. Goldwater against.

Mr. Diggs for, with Mr. Cotter against.

Until further notice:

Mr. Rahall with Mr. Cochran of Mississippi.

Mr. Ammerman with Mr. Brown of Michigan.

Mr. Giaimo with Mrs. Pettis.

Mr. Krueger with Mr. Thornton.

Mr. Gonzalez with Mr. Leggett.

Mr. White with Mr. Caputo.

Mr. Teague with Mr. Sisk.

Mr. Preyer with Mr. Moss.

Mr. OTTINGER and Mr. FLIPPO changed their vote from "nay" to "yea."

So the motion to recede was rejected.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. NEDZI). The question is on the motion offered by the gentleman from Pennsylvania (Mr. FLOOD).

The motion was agreed to.

A motion to reconsider the votes by which action was taken on the conference report and on the several motions was laid on the table.

APPOINTMENT OF CONFEREES ON H.R. 13511, REVENUE ACT OF 1978

Mr. ULLMAN. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 13511) to amend the Internal Revenue Code of 1954 to reduce income taxes, and for other purposes, with Senate amendments thereto, disagree to the Senate amendments and agree to the conference asked by the Senate.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oregon?

Mr. BAUMAN. Mr. Speaker, reserving the right to object, I do so since the gentleman from Oregon (Mr. ULLMAN) is asking to send the tax bill to conference, and there have been a number of members of the committee with whom I have talked, and other Members, who have heard rumors that this bill, even if it is sent to conference today, cannot be completed, put in a final printed form, and acted upon by both bodies between now and Saturday night, which is the projected adjournment time. I thought this would be a good time for the gentleman from Oregon (Mr. ULLMAN) to give the House some definitive opinion, as he looks at it, on what the prospects are.

Mr. ULLMAN. Mr. Speaker, will the gentleman yield?

Mr. BAUMAN. I yield to the gentleman.

Mr. ULLMAN. Mr. Speaker, I thank the gentleman for yielding, and I want to say to the gentleman from Maryland (Mr. BAUMAN) that I appreciate the opportunity to discuss this issue with the gentleman and with the Members of the House.

The conference will go into session immediately upon the appointing of the conferees. There is no reason why we cannot complete conference action by late Friday night, bring the conference report to the House on Saturday and complete action by late Saturday night in both the House and the Senate.

Mr. BAUMAN. I hope the assurances of the gentleman prove to be correct.

Mr. ULLMAN. If the gentleman will yield further, it is a long and difficult route, there is going to be nothing easy about it. I think the gentleman understands there are a lot of difficult and complex issues to be resolved.

We are of course, going to protect the position of the House to the maximum extent possible.

We met with the President this morning, Senator LONG and I, and had an understanding there, and our effort will be to get a bill that the President can sign. I think that is very definitely achievable, and that we will work out our differences in a way that will result in a bill.

Mr. JACOBS. Mr. Speaker, if the gentleman will yield, the chairman, the gentleman from Oregon (Mr. ULLMAN) has said that the conference might be long and difficult. Could the gentleman tell the House what he means by "long"?

Mr. ULLMAN. If the gentleman will yield, long hours.

Mr. BAUMAN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oregon?

Mr. CONABLE. Mr. Speaker, reserving the right to object, I would like to explain to the Members of the House my intentions on this matter, so that there will be no misunderstanding about it. I have a motion to instruct.

The SPEAKER pro tempore. The gentleman will be recognized for that purpose.

Mr. CONABLE. I understand that. It is my intention, however, to use as little of the time that will be allotted to me as possible, but to do so sufficiently so the Members will understand the issue.

It is also my intention to yield half the time that I will be entitled to to the people designated by the chairman of the Committee on Ways and Means, the gentleman from Oregon (Mr. ULLMAN) on the other side of the aisle, for purposes of discussion only.

I want it understood that the time will be divided in that way informally, even though I would be controlling it.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oregon?

Mr. OTTINGER. Reserving the right to object, Mr. Speaker, some 50 Members of the House have joined me in a letter expressing our intention to instruct the conferees with respect to sticking to the House position on capital gains relief for homeowners, the provision which allows up to $100,000 relief for the one-time sale of a home.

Is it the intention of the gentleman from New York (Mr. CONABLE) to allow

an amendment which would give us that opportunity?

Mr. CONABLE. If the gentleman will yield, Mr. Speaker, it is not our intention to do that.

Mr. OTTINGER. Further reserving the right to object, Mr. Speaker, I would like to advise the Members of the House that we will seek to defeat the previous question on this matter so that that can be brought before the House. The House voted overwhelmingly in favor of this provision, and the Members should be given an opportunity to express themselves. The House provision is considerably more effective in giving needed relief than is the position passed by the Senate. The Senate provision applies a complicated formula that would render the provision of much less value and, most importantly, extends the provision only to taxpayers over the age 55. In today's mobile society where corporations move their employees like players on a chessboard, the age 55 limitation is inadequate, both from the viewpoint of the individuals below 55 affected and from the viewpoint of the vast amount of real estate frozen off the market by reason of the huge unrealized gains on their homes which would be subject to tax if the House provision is not passed.

Mr. LEVITAS. Mr. Speaker, will the gentleman yield?

Mr. OTTINGER. I am glad to yield to the gentleman from Georgia.

Mr. LEVITAS. Mr. Speaker, I thank the gentleman for yielding.

I would like to say that I supported the position of the gentleman insofar as the House position is concerned, but the gentleman from Oregon (Mr. ULLMAN) has already stated that he intends to vigorously defend the House position at the conference.

Yet, it is my understanding that the motion the gentleman from New York (Mr. CONABLE) will be making relates to an instruction relative to a Senate position. Mr. Speaker, it seems to me much more necessary for us to instruct the House conferees rather than support the position taken by the gentleman from New York.

Mr. OTTINGER. Further reserving the right to object, Mr. Speaker, we could have the opportunity to do both if my amendment were accepted—the homeowners provision would be added to the motion of the gentleman from New York (Mr. CONABLE).

It is my understanding that the gentleman from Oregon (Mr. ULLMAN) is concerned about the cost of the provision, and I am not at all satisfied that he is going to hold true to the House position.

Mr. ULLMAN. Mr. Speaker, will the gentleman yield?

Mr. OTTINGER. I am glad to yield to the gentleman from Oregon.

Mr. ULLMAN. Mr. Speaker, let me make my position absolutely clear. I am fully and totally supportive of the position which was included in the House bill relating to the $100,000 onetime life exemption from capital gains on the sale of a home. I do not want any misunderstanding about that.

My reference to revenue and my concern about revenue arises from our discussion with the President in which the made this the most important condition of signing the bill. It goes not just to this matter, but to all matters across the board. However, I want to assure the gentleman that I—and I think I can speak for the conferees on the House side—am totally supportive of this provision of the bill. I can assure him further that we are going to do everything humanly possible to keep this provision in the bill.

Mr. CONABLE. If the gentleman will yield, Mr. Speaker, I think I can give him that assurance also.

Mr. OTTINGER. Mr. Speaker, I thank both gentlemen, and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oregon?

There was no objection.

PREFERENTIAL MOTION OFFERED BY MR. CONABLE

Mr. CONABLE. Mr. Speaker, I offer a preferential motion.

The Clerk read as follows:

Mr. CONABLE moves that the Managers on the part of the House at the conference on the disagreeing votes of the two Houses on the bill, H.R. 13511, the Revenue Act of 1978, be instructed to concur in the language of the Senate amendment which would provide income tax rate reductions for each of the four calendar years beginning with calendar year 1980, conditioned on the ratio of outlays to the Gross National Product, the rate of growth of Federal outlays, and balancing the Federal budget for fiscal year 1982, as follows:

PART 2—ADDITIONAL REDUCTIONS

SEC. 109 ADDITIONAL REDUCTIONS IN RATES.

(a) IN GENERAL.—Section 1 (relating to tax imposed) is amended by striking out subsections (a), (b), (c), and (d) and inserting in lieu thereof the following:

"(a) GENERAL RULE.—There is hereby imposed on the taxable income, for the taxable years beginning in the calendar years specified in subsection (b)(2), of every—

"(1) married individual (as defined in section 143) who makes a single return jointly with his spouse under section 6013, and every surviving spouse (as defined in section 2(a)), a tax determined under the applicable schedule for the taxable year,

"(2) head of a household (as defined in section 2(b)), a tax determined under the applicable schedule for the taxable year,

"(3) every individual (other than a surviving spouse as defined in section 2(a) or the head of a household as defined in section 2(b)) who is not a married individual (as defined in section 143) a tax determined under the applicable schedule for the taxable year, and

"(4) a married individual (as defined in section 143) who does not make a single return jointly with his spouse under section 6013 a tax equal to one-half the tax which would be determined for an individual described in paragraph (1) with the same taxable income.

"(b) APPLICABLE SCHEDULES.—

"(1) APPLICATION OF SCHEDULES TO INDIVIDUALS.—For purposes of subsection (a) the applicable schedule for—

"(A) individuals described in subsection (a)(1) is schedule 2,

"(B) individuals described in subsection (a)(2) is schedule 3, and

"(C) individuals described in subsection (a)(3) is schedule 1.

"(2) APPLICATION OF SCHEDULES TO TAXABLE YEARS.—

"(A) CALENDAR YEAR 1980.—The schedules in effect for taxable years beginning in 1980 are as follows:

"(c) SCHEDULE REDUCTION NOT TO TAKE EFFECT WHEN FEDERAL SPENDING EXCEEDS LIMITATIONS.—

"(1) NOTIFICATION OF CONGRESS.—In calendar years 1979 through 1982, after the adoption by the Congress of the second concurrent resolution on the Budget or any further concurrent resolution on the Budget adopted by the Congress under section 310 of the Congressional Budget Act of 1974 (referred to elsewhere in this subsection as the 'budget resolution') and before the beginning of the next calendar year, the Secretary shall notify the Congress if—

"(A) the total amount of Federal outlays agreed to in the budget resolution for the fiscal year which ends within such next calendar year exceed the following percent of the projected gross national product projected by the Congressional Budget Office for that fiscal year on the basis of the budget resolution for the fiscal year: 21 percent in fiscal year 1980; 20.5 percent in fiscal year 1981; 20.0 percent in fiscal year 1982; and 19.5 percent in fiscal year 1983.

"(B) only for fiscal year 1982 if the total amount of federal outlays specified in the Second Concurrent Budget Resolution for fiscal year 1982 exceed the total revenues specified in that resolution.

"(C) the increase in total Federal outlays specified in the budget resolution for that fiscal year exceeds the amount of Federal outlays estimated by the Congressional Budget Office to have actually occurred during the preceding fiscal year by a percent greater than—

"(i) the percent increase in the year to year implicit gross national product deflator (as projected by the Congressional Budget Office) for the 4 calendar quarter period ending on September 30 of the year following the one in which the Secretary is to make the notification, plus

"(ii) one percent.

"(2) SCHEDULED REDUCTION NOT TO TAKE EFFECT.—If any event described in subparagraph (A), (B), or (C) of paragraph (1) occurs, then—

"(A) the schedules which, under subsection (b), would be in effect for the next calendar year, shall not take effect for such next calendar year, and

"(B) the schedule which, under subsection (b), is in effect for the calendar year in which the event occurs shall remain in effect for the next calendar year.

"(3) APPLICATION OF PARAGRAPH (2) ON A CUMULATIVE BASIS.—If any scheduled tax reduction under subsection (b) does not go into effect during the calendar year for which it is scheduled (because of the application of paragraph (2)), then the reductions scheduled to go into effect in subsequent calendar years, shall take effect for the scheduled calendar year under subsection (b) unless precluded by the application of paragraph (2) in that year.

"(4) CORRESPONDING ADJUSTMENTS.—For each calendar year for which a schedule under subsection (b) is in effect, the Secretary shall change the zero bracket amount under section 63 for the calendar year, the tax tables prescribed under section 3, the withholding tables prescribed under section 3402, the dollar amounts set forth in section 3402(m)(1) (relating to percentage method withholding), and the dollar amounts set forth in 6012(a) (relating to filing requirements) necessary to reflect in such tables and amounts the schedules in effect for the calendar year. The amounts adjusted by the Secretary under this paragraph for any calendar year shall be the amounts in effect for taxable years beginning in that calendar year.".

Mr. CONABLE (during the reading). Mr. Speaker, I ask unanimous consent that the preferential motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The SPEAKER pro tempore. The gentleman from New York (Mr. CONABLE) is recognized for 1 hour.

Mr. CONABLE. Mr. Speaker, I yield myself 5 minutes.

Mr. Speaker, I have offered a motion to instruct the managers on the part of the House on the tax cut legislation, H.R. 13511, to accept the Nunn-Chiles-Bellmon-Roth amendment.

This bipartisan amendment provides for an automatic, 4-year, across-the-board cut of about 5 percent each year beginning in 1980. Under the terms of the amendment, the tax cut would be canceled for the subsequent calendar year if outlays exceeded a specified percentage of the gross national product or if the increase in outlays exceeded the rate of inflation plus 1 percent. Also, if the fiscal 1982 budget runs a deficit, the calendar 1982 tax cuts would not go into effect.

This approach to fiscal discipline is responsible and workable. It explicitly links tax cuts and spending restraint, something which was implicit in the Kemp-Roth tax cut proposal. It dovetails with the congressional budget process in a constructive way that enables us to accommodate the meaningful tax cuts needed for a healthy and vigorous economy.

This is not a new idea. A 5-year plan to cut both taxes and spending was proposed as an amendment to the first and second concurrent resolutions on the budget by my colleague Congresswoman HOLT and me. It very nearly achieved success each time. We are heartened to see that a majority of both Democratic and Republican Senators voted this coalition proposal to a strong 65-to-20 acceptance. It appears that at last this proposal is getting the serious consideration that it deserves.

There are many good reasons to back the coalition amendment. Inflation has been steadily nudging the tax bite upward in recent years, and these "extra" revenues have been willingly used by the Federal Government for down payments on expensive new programs. Not surprisingly, we are now at a spending level which represents an extraordinarily large portion of our gross national product. Instead of spending amounts equivalent to 19 percent of GNP as we did in the 1960's or 20 percent of GNP as we did between 1970 and 1974, we are now hovering at the 23 percent mark. The coalition amendment would gradually push this spending back down until the 19-percent mark is once again achieved in 1983. This restraint would be applied gradually and responsibly. Outlays would be permitted to rise with the rate of inflation, and an additional 1 percent—these days 1 percent means more than $5 billion—is allowed in order to accommodate new or increased spending which may become necessary. Thus, the amendment does not mean cutbacks in existing programs or the stifling of new initiatives, it merely serves as a device to restrain excessive spending increases.

If we stick to this timetable, we will have achieved a balanced budget by 1982. Now the fact that it will be in balance is not as remarkable as the fact that it will be balanced at a level commensurate to 19 percent of GNP. We could balance the budget today if we were willing to see taxes rise to 23 percent of GNP. But the price would be a ruined economy.

As far as fiscal 1979 is concerned, the coalition amendment has no impact. The amendment assumes enactment of 1979 tax cuts of the dimensions allowed by the second concurrent resolution. The tax rate reductions begin the year after next and occur each year thereafter until 1983. This gives us plenty of time to plan spending priorities and patterns that fit this design with a minimum of dislocation.

Voting for this amendment is a way to make clear our firm resolve to lower taxes and spending over the next 5 years. We all understand that in the waning days of the 95th Congress we cannot dictate to the 96th and 97th Congress limits on their budget decisions. But adoption of this amendment is a public commitment to a budget policy of restraint which offers subsequent Congresses specific fiscal goals as well as a plan for achieving them.

If for unforeseen reasons it later becomes necessary to change the fiscal policy from the amendment's 5-year plan, this can be done. If a larger tax cut is desired, this can be enacted in addition to the 5-percent automatic cut. On the other hand, if it becomes necessary to spend more than the percent of GNP specified in the amendment, Congress could agree to do so. However, in this case the automatic 5-percent tax cut would not go into effect and an appropriate tax policy would have to be devised to meet the changed situation.

In summary, the bipartisan coalition amendment makes good fiscal sense and good political sense. The voters have indicated in recent months that they think Government is already quite large enough, and they have shown their willingness to check the reins directly if their elected Representatives are unwilling to do so. President Carter has said that he plans to hold down the fiscal 1980 deficit to a level even lower than the one projected in the coalition plan, and he anticipates a balanced budget on approximately the same time schedule.

Despite 4 years experience with the congressional budget process, we have never enunciated a fiscal policy. This amendment gives us the chance to do so. We can blueprint spending and taxing policies for the next 5 years, and with determination and perhaps some luck, we will be able to follow the plan.

But first we must agree to this goal. I urge my colleagues to do this by voting to instruct House tax bill conferees to concur in the coalition fiscal policy amendment.

Mr. LATTA. Mr. Speaker, will the gentleman yield?

Mr. CONABLE. I yield to the gentleman from Ohio.

Mr. LATTA. Mr. Speaker, I rise in support of the motion to instruct the House conferees to accept the amendment to the Senate-passed tax bill which was sponsored by a bipartisan coalition and accepted overwhelmingly in the other body. The essence of the Nunn-Chiles-Bellmon-Roth amendment is that it establishes the need to tie tax cuts with spending restraint. This past year in particular I believe it has become painfully clear to a majority in the House that the people want both lower taxes and lower deficits. Unfortunately, in my judgment, the House could not bring itself to accommodate both of these goals, and instead voted to lower the budget deficit largely at the expense of the taxpayer by reducing the size of the tax cuts originally proposed for 1979. The result, of course, was quite unsatisfactory: most people now realize that any tax reductions they will receive next year will not offset the tax increases they will experience due to higher social security deductions and the effects of inflation pushing their income into higher tax brackets.

The only answer, Mr. Speaker, is that we must reduce Federal spending in order to both balance the budget and reduce tax burdens. There is no other way. From my perspective as the ranking minority member of the Budget Committee, I believe this amendment would do more to strengthen the congressional budget process than any other piece of legislation which has come before this House.

For those who opposed the Kemp-Roth tax cut bill on the grounds it would entail large reductions in Federal revenues via tax cuts regardless of what was happening to Federal spending over the next 3 years, the Nunn-Chiles-Bellmon-Roth amendment provides a positive check against runaway deficits. We get the tax cuts if, and only if, Federal spending is restrained. It will force the Congress to make the hard choices it should have been making in the past but never did: it will force us to decide whether to have big new spending programs or to cut taxes; we will not be able to have it both ways.

If a majority of the Members of this body decide in subsequent years that new spending ought to take priority over tax reduction, so be it. Those Members, presumably, will be able to convince their constituents that these new spending programs are better for them than is tax relief. On the other hand, our desire to provide tax cuts can provide a strong defense against the wall-to-wall lobbyists around here who are constantly after more and bigger Federal programs. We can tell them, "Sorry, but our taxpayers can't afford it." I, for one, think that would be one of the best improvements we could ever make, and I urge my colleagues to join me in supporting the motion of the gentleman from New York (Mr. CONABLE).

Mr. CONABLE. Mr. Speaker, I thank the gentleman for his remarks.

Mr. VANIK. Mr. Speaker, will the gentleman yield?

Mr. CONABLE. I yield to the gentleman from Ohio.

Mr. VANIK. Mr. Speaker, as I take it, this approach was created just several days ago in the form of the Nunn amendment, was it not?

Mr. CONABLE. Mr. Speaker, if I may reclaim my time, let me say there is a long history of similar amendments, and this puts together several of those proposals explicitly, even though implicitly this has been part of the fiscal policy many Members have been advocating in this House for some time.

Mr. VANIK. Mr. Speaker, if the gentleman will yield further, the point I wanted to make is that this plan, which is very intricate, was never really discussed before any of the congressional committees. We have no statements from

economists or people who are expert on the flow of the economy or who can tell us what kind of a straitjacket into which we are putting the country with this kind of a commitment. This proposal takes away the discretion of the Congress and the President to act in the event that there is a change in economic circumstances such as a recession or some other very difficult circumstance we might have to deal with.

Mr. CONABLE. Mr. Speaker, it is my impression that the country would like to see Congress adopt this kind of a straitjacket. The people have the feeling that we are running around loose like a bunch of maniacs at this point as far as fiscal policy is concerned.

Mr. VANIK. Mr. Speaker, the other point I would want to make is that the proposal triggers tax cuts with no relationship to the resulting deficit. It is entirely conceivable that this provision would become operational at the cost of additional borrowing, which could be a burden on the entire country, which could add to inflation, and which could tremendously devalue the dollar and benefits of the tax cut.

Mr. CONABLE. Mr. Speaker, may I say that this is aimed directly at the deficit. It will result in a balanced budget by 1982 if this plan is followed. If it is not followed, the automatic tax cuts will not take effect.

Mr. VANIK. But it is not conditioned upon the avoidance of a deficit.

Mr. CONABLE. It is conditioned upon three things, and one of them is a balanced budget by 1982. The tax cut in 1982 does not take effect if we do not have a balanced budget by that time.

Mr. JACOBS. Mr. Speaker, will the gentleman yield?

Mr. CONABLE. I yield briefly to the gentleman from Indiana.

Mr. JACOBS. Mr. Speaker, I thank the gentleman for yielding.

Could the gentleman say for the Record what this plan contemplates by way of retiring the national debt in increments?

Mr. CONABLE. Mr. Speaker, this would result in a substantial surplus by 1983 if we continued to follow this type of plan. There will be a deficit until that time, and in my view what is important is that we have a plan to move in the direction of eliminating the deficit. I know the gentleman shares this concern. I know also that the gentleman is realistic enough to know that we are not going to balance the budget this year or next year or even in the following year unless we have some definite plan.

Mr. JACOBS. Mr. Speaker, I agree with that. My question more specifically, though, is this: the gentleman enumerated three specific conditions for the plan. I just wondered if a fourth was contemplated; namely, that a certain percentage of the national debt be retired each year after 1983?

Mr. CONABLE. I acknowledge that that might be a fine idea, but I would have to say that the Senate proposal does not include that. I think a reduction of the national debt ultimately is implicit in this proposal.

Mr. JONES of Oklahoma. Mr. Speaker, will the gentleman yield?

Mr. CONABLE. I will yield briefly to the gentleman from Oklahoma for the purpose of debate only.

Mr. JONES of Oklahoma. I thank the gentleman for yielding.

Mr. Speaker, the Nunn amendment establishes the principle, as I understand it, for the tax years succeeding 1979. That is in fact established in the bill that passed the House for tax year 1979. I am concerned that perhaps this is more illusory than fact, however. I wanted to ask the gentleman: As I understood the gentleman's comments, these are merely goals or things that we would like to achieve. Is this similar to the goals that were set out in the Humphrey-Hawkins bill?

Mr. CONABLE. It goes beyond this, because this is a plan which would take effect unless future Congresses either failed to meet conditions or specifically changed the law. In other words, there will be an automatic 5-percent cut if those conditions are met. And, thus, it goes beyond the establishment of the goal in the Humphrey-Hawkins Act.

Mr. JONES of Oklahoma. How can one realistically expect a balanced budget even in 1982 if what we are asking the Congress to do will limit them to spending at the inflation rate plus 1 percent and, in addition to that, having cost cuts across the board of 5 percent, 11 percent, 13 percent, et cetera?

Mr. CONABLE. We can do that only if we follow the condition that requires that the total expenditures of the Federal Government do not exceed the gross national product.

Mr. JONES of Oklahoma. It seems to me that if we leave off that inflation rate plus 1 percent, then we are looking in 1982 at a deficit which we will have to slash off.

Mr. CONABLE. Those are not the projections supplied by the Senate in justification for this proposal.

Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania (Mr. KOSTMAYER).

Mr. KOSTMAYER. Mr. Speaker, I rise in support of the motion offered by the gentleman from New York (Mr. CONABLE) to instruct the House conferees now meeting on the tax bill to accept the Senate-passed Nunn amendment.

The Nunn amendment will provide an automatic, 4-year across-the-board cut of 5 percent each year in income tax rates, reducing Federal income taxes by $142 billion.

The Nunn amendment is similar to the Roth-Kemp proposal because it is a large across-the-board cut. But the Nunn amendment ties the tax cuts to cuts in Federal spending.

Many of my colleagues on both sides of the aisle have opposed the Roth-Kemp proposal because it promises tax cuts, but does nothing to curb Federal spending. This is irresponsible and would result in large deficits and skyrocketing inflation. Tax cuts of the size of the Roth-Kemp or Nunn are responsible only if cuts in spending are tied to tax cuts. The Nation cannot afford to operate as it has the past several years with substantial budget deficits. We must discipline ourselves, Mr. Speaker.

Who are we kidding when we overpromise or if we vote for large tax cuts without slicing spending. The deficit will grow and inflation will grow as well.

The Nunn amendment promises cuts—large cuts—but only if outlays are constrained. This is the responsible way to cut taxes and I urge my colleagues to support the motion. We can limit spending to a specified percentage of the gross national product, reduce the deficit and accomplish our goal of reducing taxes dramatically.

Mr. CONABLE. Mr. Speaker, I yield 5 minutes to the distinguished gentleman from Oregon (Mr. ULLMAN), the chairman of the Committee on Ways and Means.

Mr. ULLMAN. Mr. Speaker, let me first thank the gentleman for the way he is dividing the time, so that there will be a fair presentation of the issues on this matter. But having said that, let me as strongly as I know how urge the Members of this House to reject this proposition.

What we have here is Rube Goldberg tax policy. We ought to be making the decisions on an intelligent basis, based on a year-by-year analysis of where we are. We ought to be making those decisions in accordance with sound policy, based on economic conditions as they exist at any given time. In place of that, we are putting ourselves in a straitjacket, programing ourselves for 3 years, and in a way that it could be totally counterproductive to the purposes of achieving a stable economic situation in this country. What we are doing is tying our tax cuts to an arbitrary relationship between spending and GNP and not relating the issue at all to the economic posture of the country, whether we are going into a recession or whether we are in an overinflated economy.

We would be tying tax cuts only to that one set of figures, which does not in any way relate to the real economic issues in the country.

In 1982, yes, you relate tax cuts to a balanced budget. But if you in fact allow these tax cuts in 1980 and in 1981, at times when there should not be tax cuts, there is no way that you will achieve a balanced budget by 1982. Even if you came to 1982 and you had a situation where you were going into a recession, a bad economic downturn, which would result in an automatic deficit posture, at that very time when you needed a tax cut to keep the economy going, you would be prohibiting a tax cut from going into effect, thus, deepening the drive into a recession.

Now, this is absolutely the wrong kind of tax policy. I strongly urge the Members to defeat it. On top of that, it projects an uncertainty into the whole economic picture with respect to taxes that should not be there. Certainty is one of the most important things we ought to have in a tax posture for a country, and the assurance that if indeed we need changes to accommodate economic objectives, we have a Congress that is ready and willing to move intelligently to apply tax policy in the right way to fit that particular problem.

Here, we are preempting all of those things and producing a Rube Goldberg

scheme that could drive us right into the depths of a recession.

Mr. SIMON. Mr. Speaker, will the gentleman yield?

Mr. ULLMAN. I yield to the gentleman from Illinois.

Mr. SIMON. Mr. Speaker, I concur completely in what the gentleman from Oregon has to say. While this is politically attractive as we approach this election season this is precisely the wrong way to legislate something of this significance. The remarks of the gentleman from Oregon are right on point. What if 2 years from now we have a dip in GNP, where do we go? What happens? We do not know.

I commend the gentleman for his leadership, and I hope the House uses good sense and rejects this proposal.

Mr. ULLMAN. I thank the gentleman, and I strongly urge the Members to reject this proposal and maintain the right and the responsibility of this Congress to move on tax policy in accordance with economic circumstances as they exist next year and the following years.

Mr. PICKLE. Mr. Speaker, will the gentleman yield?

Mr. ULLMAN. I yield to the gentleman from Texas.

Mr. PICKLE. Mr. Speaker, I thank the gentleman for yielding. I would hope that the chairman and the conferees would allow the House to have a vote again on the amendment that the gentleman from Ohio (Mr. VANIK) and I had offered on the tax bill. It was offered at an inopportune time, and it did not leave the options we thought should have have been given to us. Members will remember and the House will recall vividly that we started off in the hopes that there would not be but a very small tax cut this year, just enough to stimulate the economy.

The SPEAKER pro tempore. The time of the gentleman from Oregon has expired.

Mr. CONABLE. Mr. Speaker, I yield 2 additional minutes to the gentleman from Oregon (Mr. ULLMAN) for the purposes of debate only.

Mr. PICKLE. The bill as passed by the House was around $19 billion. Now, it looks like it will be $29 billion to $30 billion. A great many Members feel that when we give a tax cut of $30 billion, that adds to our national deficit of $30 billion, although there is argument for the inflationary factor we are going through.

But, the cold fact of the matter is, if we wanted to cut down on the deficit, we could actually cut out the tax cut. We may be faced with that alternative if this package keeps ballooning, so I would hope, Mr. Chairman, that when the gentleman goes to conference on this matter he will suggest to the conferees that this amendment (Vanik-Pickle) be made in order, or the gentleman from New York would be so kind as to include that in his preferential motion now. Either way, I think the House ought to have a chance to take another look at it.

Mr. ULLMAN. Let me respond with respect to the $29 billion tax cut. That is the position of the Senate bill, but let me assure the Members that our current budget resolution provides about $21.9 billion for a tax reduction in this package, together with other tax legislation, and this conference report will be consistent with the budget resolution. I want to assure the gentleman of that.

Mr. PICKLE. I assumed that would be a development, but one cannot tell when one goes to conference with that group of fellows across the hall.

Mr. CONABLE. Mr. Speaker, will the gentlewoman from Maryland yield to me briefly?

Mrs. HOLT. I yield to the gentleman from New York.

Mr. CONABLE. I would say to my chairman that we do not consider it a great tragedy that the American people should be able to keep a little of their own tax money.

The tax cut might get ballooned even further. I just hope we would be given a chance to have just one more vote on the Vanik-Pickle amendment because that would cut our deficit down by $20 billion.

Mr. Speaker, I yield 3 minutes for purposes of debate only to the gentlewoman from Maryland (Mrs. HOLT).

Mrs. HOLT. I thank the gentleman from New York for yielding.

Mr. Speaker, I enthusiastically support the motion to instruct the House conferees to accept Senate amendment 4084 to H.R. 13511.

This would commit us to a realistic 5-year program of reducing taxes, slowing the growth rate of Government spending, balancing the budget, cutting inflation, and stimulating healthy economic growth.

The Nunn-Chiles-Bellmon-Roth amendment is one of the finest pieces of legislation that I have seen during my 6 years in the Congress. Many of us have worked diligently to produce such a result on the House side, but we have been frustrated by fierce partisanship.

Several points should be made, and the first is this: Senate amendment 4084 is a truly bipartisan product, crafted by gentlemen who recognized that tax and fiscal policy should not be a 1-year proposition, but should set a course for future years.

Here we also find a recognition that tax and fiscal policy should be set before we begin budgeting for the functions of government. This amendment will provide desperately needed discipline on the spending habits of Congress.

The tax cuts provided by this amendment would take effect only if the growth rate of Federal spending is limited to 1 percentage point above the rate of inflation, and only if Federal spending declines according to specified percentages of the gross national product.

This would become a powerful incentive impelling Congress to limit the growth of spending, and there is a further provision: the tax cut for 1982 would take effect only if the budget for that fiscal year is balanced.

The concept of linking tax cuts to spending limitations is not new to the 95th Congress. The amendments we offered to the first and second budget resolutions this year represent that concept.

Those budget amendments, you will recall, allowed for the first year of the Kemp-Roth tax reduction plan and held the growth rate of Federal spending to the estimated rate of inflation.

I commend the gentleman from New York (Mr. KEMP) and the senior Senator from Delaware (Mr. ROTH) for their long struggle to legislate a program of annual tax reductions.

The House, therefore, is already familiar with the concept of the Nunn-Chiles-Bellmon-Roth amendment, which is a perfection of concepts put forth in this House during debates this year.

Here is our opportunity to set a course which will inspire hope in the American people. Here is the promise of less inflation and lower taxes, strong economic development and jobs for our young people, a hope for a better life for all Americans.

Mr. CONABLE. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania (Mr. COUGHLIN).

Mr. COUGHLIN. Mr. Speaker, I rise to express my strong support of the Conable motion to instruct the House conferees on the tax bill (H.R. 13511) to accept the Senate amendment which is being referred to as the Nunn amendment, the coalition amendment, or son of Kemp-Roth.

Regardless of what we call it, this proposal is a giant step forward in assuming the kind of fiscal responsibility the American people are demanding of Government. It would give the American people the tax relief they so urgently need—$142 billion over 4 years—but it would make these individual income tax cuts contingent upon restraint of Government spending. Tax reductions in 1982 would be contingent upon achievement of a balanced budget. This proposal would establish a timetable and a responsible program for ending deficit spending which has been a prime factor in the current inflationary spiral.

If all this sounds familiar to the House, it should. We covered the need for substantial personal tax cuts when the House debated the Kemp-Roth bill during consideration of H.R. 13511. It was argued—erroneously—by opponents of Kemp-Roth that this proposal was irresponsible because it would lower Government revenues without placing limits on Government spending. Only a few days later those same opponents argued that the Holt amendment to the budget resolution was irresponsible because it would have combined the Kemp-Roth tax cuts with spending restraints and a balanced budget. The American people are tired of excuses. They want—and deserve—fiscal responsibility and meaningful tax relief now. Let us not fail at this crucial moment to provide them.

Mr. CONABLE. Mr. Speaker, I yield 4 minutes for purposes of debate only to the gentleman from Georgia (Mr. LEVITAS).

Mr. ICHORD. Mr. Speaker, will the gentleman yield?

Mr. LEVITAS. I yield to the gentleman from Missouri.

Mr. ICHORD. Mr. Speaker, I rise in support of the motion of the gentleman from New York to instruct the conferees to accept the Nunn amendment which

would provide across-the-board income tax cuts contingent upon the achievement of certain budgetary goals. I do so with considerable doubt, however, that the Nunn amendment will accomplish its desired goals. Future Congresses cannot be mandated to achieve a balanced budget by statute. They will be found only if they want to be bound. I personally feel that the only way the problem of continuous Federal deficits can be solved is through the adoption of a constitutional amendment mandating a balanced budget, except in time of war or an emergency declared by a two-thirds vote. Deficit spending is the primary cause of inflation which is the most serious problem facing our Nation. The Nunn amendment cannot do any harm, as I interpret its effect, and it should assist future Congresses in achieving a balanced budget; therefore I wholeheartedly endorse the amendment and urge its adoption.

Mr. LEVITAS. Mr. Speaker, first of all, I want to make a few things perfectly clear about this motion and to expand on some of the comments of the gentleman from New York (Mr. CONABLE). I support his motion.

This is not a partisan issue. This motion and the amendment which was adopted in the Senate involves a coalition of Democrats and Republicans. It is and should be a bipartisan effort. I have seen too many people discussing this issue both in the Congress and out in the public who are more interested in making a partisan issue out of a tax reduction and spending cuts than they are in doing something to improve the economy balance the budget and let the American taxpayers keep and spend some of their own money.

Here is an opportunity free from partisan politics, free from a Republican issue or a Democrat issue, that will let us say to the American people: "I am interested in cutting spending and reducing taxes," which should go hand in hand.

One of the criticisms which I have heard across the land and in the press and on the floor of this House about the Kemp-Roth bill is that while it cut taxes it did not cut spending and therefore it would lead to inflation. The Nunn-Chiles-Bellmon-Roth amendment deals with that head on and specifically cuts spending as a condition to a tax reduction going into effect and it requires a balanced budget in 1982 or else there is no tax reduction. So we have met and solved the problem of inflation and deficit charged against Kemp-Roth.

There is another criticism I have heard.

Mr. ROUSSELOT. Mr. Speaker, will the gentleman yield briefly at that point?

Mr. LEVITAS. I yield briefly to the gentleman from California.

Mr. ROUSSELOT. I thank the gentleman for yielding. Mr. Speaker, I think the gentleman has made an excellent point. The Conable-Nunn recommendation clearly calls for proportionate reductions in expenditures, and that is part of the merit of this position.

In order for the tax cut to become effective, first, outlays could not exceed the following percentages of the projected gross national product: 21 percent in fiscal year 1980; 20.5 percent in fiscal year 1981; 20 percent in fiscal year 1982; and 19.5 percent in fiscal year 1983.

Second, any increase in outlays could not exceed the rate of inflation, plus 1 percent.

Third, if the budget for fiscal year 1982 were not balanced, the cuts for calendar year 1982 would not become effective.

So this revenue bill differs from other proposals since there are imposed conditions placed upon expenditures as well as calling for revenue reductions. Is that not correct?

Mr. LEVITAS. That is correct, and that is the genius of this position which you will have a chance to vote on.

Let me also tell the Members who are here and those who may be watching on their television sets, that this amendment does not add one penny above the budget resolution adopted by this House. It is not part of the $29 billion of tax cuts in the Senate bill, because this does not take effect until fiscal year 1980.

In order to deal with some of the facts on the matter which my colleague, the gentleman from Ohio has raised, let me tell the Members what the Congressional Budget Office has said about this.

The Congressional Budget Office says, under the set of assumptions made in this amendment, and in the projection we are now making:

* * * the budget would be essentially balanced by fiscal year 1982. * * *

It also shows that the proposed revenues—

would be consistent with a balanced Federal budget by 1982 and a continuation of the real economic growth assumed for the 1979 second budget resolution.

That is the Congressional Budget Office.

An econometric study, which was worked out by the Chase Econometric Associates, Inc., shows by 1983 the gross national product would be approximately $50 billion higher in 1972 dollars and $130 billion higher in current dollars under the assumptions of this amendment.

Now, listen to this, my Democratic colleagues:

The gain in employment by 1983 would be one million workers, and the employment rate would be reduced * * * to 5.3 percent.

The Federal budget would return to balance, as opposed to a $50 to $60 billion deficit which would occur if taxes were cut but government spending continued to rise at historical rates.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. CONABLE. Mr. Speaker, I yield an additional 30 seconds to the gentleman from Georgia.

Mr. LEVITAS. Mr. Speaker, let me conclude, my colleagues, by saying this: This Nunn amendment is what we have all been searching for because it does permit a tax cut and it ties that tax cut to a balanced budget and to a reduction in spending that is not inflationary. It also creates jobs and adds to the gross national product.

I urge you to take this opportunity to support the motion of the gentleman from New York (Mr. CONABLE) on the Nunn-Chiles-Bellmon amendment, and I hope it will be passed overwhelmingly.

Mr. CONABLE. Mr. Speaker, I yield 30 seconds to the gentleman from California (Mr. LAGOMARSINO) for purposes of debate only.

Mr. LAGOMARSINO. Mr. Speaker, I thank the gentleman for yielding to me.

Mr. Speaker and my colleagues, I think what we have before us is really what the spirit of proposition 13 in California was all about: A vote for a cut in taxes and a vote for a cut in the size of Government and in Government spending. Most people, at least those in California, are getting a lot more government than they want; they certainly are getting a lot more government than they are willing to pay for.

If you will, my colleagues, just imagine what will happen if this amendment is enacted into law.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. CONABLE. I yield an additional half minute to the gentleman from California.

Mr. LAGOMARSINO. Imagine what will happen to business confidence and business investment should this amendment pass and be signed into law. I think we would see a real era of prosperity, with very low unemployment and a gain in production and in the overall economy.

Mr. CONABLE. Mr. Speaker, I yield 4 minutes to the gentleman from Ohio (Mr. VANIK) for purposes of debate only.

Mr. VANIK. Mr. Speaker, I want to thank the gentleman from New York for giving me this time to oppose his motion to instruct the conferees.

The situation we are in today brings up a far reaching tax change during the closing days of this Congress. It demonstrates that we should adopt a rule in the next Congress that would provide that we should not consider tax bills on the eve of a national election. We are all candidates for reelection and that pressure is on every single Member of this body who is seeking reelection. I think that in this kind of climate we are bound let better judgment be overcome by political expediency. I think that the tax bill should not be written in this pressure or under these kind of circumstances.

The motion offered by the gentleman from New York (Mr. CONABLE) to instruct the conferees to accept the Nunn amendment is a mandate to accept the specific language without a change or modification. It presumes that the work of the other body is perfect. Every Member in this body knows that the productions that we get from there are generally less than perfect. This motion would deny the conferees an opportunity to work out a solution that might embrace worthwhile changes and include elements that were omitted in the draft that was adopted by the other body.

Those elements are the effect that this proposal would have on the deficit and on the Federal debt.

This proposal has never been studied in the committee process. There were no experts who could be cross-examined. There were no economists who could tell us about the long-range consequences of this action.

The automatic tax cuts are engineered to operate without any reference to deficits and the debt. I want to point out that the process could well spearhead this country into a trillion-dollar debt and a horrendous deficit which would further deteriorate the dollar, stimulate inflation beyond all control, and probably guarantee an increase in the price of imported petroleum.

Mr. ULLMAN. If the gentleman will yield, Mr. Speaker, let me commend the gentleman and say that the President is fully aware of the implications of what the gentleman is laying out.

The President is strongly opposed to this measure. He did not say specifically under what conditions he would veto a bill; but, in my judgment, if this amendment were on the bill, because of the vast implications involved economically and the straitjacket economics which are involved, I am sure that the President would strongly consider vetoing the bill.

Mr. VANIK. Mr. Speaker, I think the chairman of the Committee on Ways and Means, the gentleman from Oregon (Mr. ULLMAN), has put the issue right on the table.

If we want a tax proposal to be vetoed, then the way to do it is to instruct the conferees, and that will be the result. I think if we want a meaningful tax program to come out of this Congress—and there still is hope that it might be done—our best hopes remain with the conference committee without instruction. The conferees, in their judgment and in their sense of responsibility, may be able to achieve the goals which are desired by this amendment without binding and locking the country into a pattern from which it may not be able to extricate itself in the event of a recession, in the event of a national emergency, or in the event of a crisis.

Mr. CONABLE. Mr. Speaker, I yield 1 minute, for purposes of debate only, to the gentleman from New York (Mr. OTTINGER).

Mr. OTTINGER. Mr. Speaker, I thank the gentleman for yielding.

I take this time to advise the House that based on the firm assurances which I have received from both the gentleman from Oregon (Mr. ULLMAN) and the gentleman from New York (Mr. CONABLE), that in the conference they will hold firmly to the House passed provision on capital gains relief for homeowners, I will not oppose the previous question on this matter.

Mr. ULLMAN. Mr. Speaker, will the gentleman yield?

Mr. OTTINGER. I yield to the gentleman from Oregon.

Mr. ULLMAN. Mr. Speaker, I certainly want to restate my position that I will do that. I think the gentleman understands that I cannot bind the rest of the conferees, and I cannot make a final commitment as to the outcome of the conference; but I will stand on the statement as the gentleman put it. We will firmly stay with the House position as long as it is humanly possible to do it, without losing the opportunity to get a tax bill altogether.

Mr. OTTINGER. Mr. Speaker, I know that the gentleman from Oregon (Mr. ULLMAN) and the gentleman from New York (Mr. CONABLE) will have considerable influence at the conference. If they do exert themselves to the fullest, I am hopeful that they will be successful in sustaining the House provision. I thank them for their assurances.

Mr. CONABLE. Mr. Speaker, I thank the gentleman from New York (Mr. OTTINGER) for his cooperation.

Mr. Speaker, I yield five minutes, for purposes of debate only, to the gentleman from New York (Mr. KEMP).

Mr. KEMP. Mr. Speaker, as our colleague, my friend from Georgia (Mr. LEVITAS), has pointed out, there is a broad support for the Nunn amendment, not only in the Senate but also in the House of Representatives. The support is from Members from both political parties and from many philosophical persuasions.

I strongly support the motion of my colleague from New York (Mr. CONABLE), and I applaud his leadership in helping to bring substantial tax relief to the people.

I was at the White House this morning. I was there with the gentleman from New York (Mr. CONABLE) who represents an adjoining district, at a meeting involving another matter affecting the State of New York. In a conversation after that meeting I asked the President what were his feelings toward the tax bill which came out of the Senate with the Nunn amendment, was he going to veto it. He said that he had not made up his mind, that he is willing to look at it with an open mind. Thus, the statements made here that the bill is ultimately going to be vetoed, if the Nunn amendment remains in it, are misleading and inaccurate statements.

Whatever the President decides, I believe that the coalition that has been built up on behalf of this effort to get the marginal tax rates down—which was 2 to 1 in the Senate vote and I understand will be 2 to 1 here today—is sufficiently strong to withstand a veto. I hope the President will sign this bill. Without this type of rate reduction, without the Nunn amendment, we are going to be pushing the working men and women in this country into the 40 or even 50 percent marginal tax rate brackets within 3 or 4 years. The President surely does not want to do that.

Mr. ULLMAN. Mr. Speaker, will the gentleman yield?

Mr. KEMP. I will yield to the distinguished chairman of the Ways and Means Committee.

Mr. ULLMAN. Mr. Speaker, the gentleman referred to the fact that the President will not veto this. The President was very explicit this morning in our conversation, he put this at the head of the list of things that had to be removed from the tax bill and he left no doubt, although he did not put it in specific words, he left no doubt that he would veto the bill.

Mr. KEMP. Mr. Speaker, I asked the President in clear language, would he veto this bill, and he said he had not made up his mind and that he would be openminded. That is all we can ask for or expect at this point.

The American people who work, save, and invest in their economy need to know with certainty the tax rates with which they are going to be faced. If Congress and the President do not do something to get the marginal tax rates down, for they are being pushed higher daily by inflation, not to mention the higher social security and other taxes, the rates they face will be so high as to discourage incentive. When taken as a whole, that will weaken further all other efforts to restore the economy. This is fact.

I received a letter from a man the other day. He said he had gotten a 6-percent pay increase several months ago. He wanted me to know that of his $65-a-month pay increase, his Federal tax increased $37.58; his State tax increased $21.03; his social security increased $3.97; and his State retirement increased $3.90. In other words, because his total increased tax deductions were $66.48, he had fallen behind $1.48 a month. And, of course, he had not even calculated the loss in real wages from inflation eating away at his paycheck at an additional rate of 10 percent. Thus, he had fallen substantially behind in net disposable aftertax income.

It does not end there. I received a letter this morning from a steelworker in my district, one who lives in Springville, N.Y. He wrote:

> As a lowly steelworker for the past 32 years, I have watched my pay dwindle due to taxes. During the last few years it has become ridiculous. The longer and harder I work, the smaller the reward.

I ask, "what kind of a system is it that tells a working person in New York, North Carolina, or anywhere in America, that if you get a 6-percent increase, your taxes go up more than 6 percent?"

Mr. Speaker, it is due to the very steeply graduated income tax rate structure. All rates must be lowered. Senator NUNN's amendment offers Congress an important opportunity to lower those rates from 70 percent in gradual steps down to 57 percent at the top, and from 14 percent in gradual steps down to 8 percent at the bottom so that all American workers, savers, and investors will receive incentive gains and a greater reward for their production.

The certainty of lower rates in the future through this Nunn amendment, is absolutely necessary for the growth of the economy and restoring incentives to the American people by bringing back to them a greater share of the rewards for working, saving, and investing and

engaging in that type of enterprise and risk-taking that is so necessary to the expansion of our economy without inflation.

The gentleman from Oregon, the chairman of the Committee on Ways and Means, said that this introduces uncertainty into the tax code. To the contrary, that is what his bill did and what the Nunn amendment does not do.

This tells a taxpayer that in the next year and the year after, on through the next 5 years, that there will be a greater reward for effort.

The one certainty that we can be sure of today is that if we do not do something like this, taxes are going up on the American people in the next 5 years by over $300 billion and the rates will be at such levels for our people that blue collar people in the State of New York will be working more for the Government than for themselves and the needs of their families. It must stop right now. For 8 years I have been working for a bill such as this and if it passes, I will introduce another tax rate reduction next year to get the rates even lower—the top rates must come down to 25 or 30 percent and the bottom rates down to 4 or 5 percent, plus lower capital gains and estate taxes for all.

The SPEAKER pro tempore. The time of the gentleman from New York has expired.

Mr. CONABLE. Mr. Speaker, I yield 1 additional minute to the gentleman from New York (Mr. KEMP).

Mr. KEMP. Mr. Speaker, Government receipts, according to the President's figures, according to official Government projections, will grow from $401 billion in 1978 to $720 billion by 1983 under present law and policy. That is a $319 billion increase in taxes, one which will detrimentally affect every single working man and woman in this country. That is a 12-percent increase in taxes on the American people every single year.

The one way we can reintroduce certainty into our tax code and to simultaneously reintroduce growth into the American economy is to take the step outlined by both a majority, a solid majority of Republicans and Democrats today and lower all the marginal tax rates systematically over the next 5 years. I compliment Senators NUNN, BELLMON, CHILES, and ROTH plus Mr. CONABLE and Mr. LEVITAS for their tremendous efforts to get America going again on behalf of all the people of this Nation.

Mr. CONABLE. Mr. Speaker, I yield such time as he may consume to the gentleman from Wisconsin (Mr. STEIGER).

Mr. STEIGER. Mr. Speaker, given the difficult position I find myself in I take this brief moment to explain.

I have not voted to instruct conferees because I believe a conference is designed to resolve differences, not to provide confrontation no matter how appealing the motion on the issue.

I believe in the Nunn approach. If I were on the conference I would join my colleague from New York (Mr. CONABLE) in urging the House conferees to accept the approach outlined in the amendment. It is good economic and tax policy.

Thus, Mr. Speaker, I want to simply make clear my support for the Nunn amendment while I cannot vote to instruct.

Mr. CONABLE. Mr. Speaker, I yield 3 minutes, for the purpose of debate only, to the gentleman from Michigan (Mr. STOCKMAN).

Mr. STOCKMAN. Mr. Speaker, I rise in strong support of the motion to instruct, and I just want to reiterate the point made by the previous speaker, the gentleman from New York (Mr. KEMP).

The fact is that the only certainty we do have is that taxes will rise automatically, carried by the momentum of growth and inflation in the economy. As the gentleman indicated, in the next 4 fiscal years taxes will rise by $320 billion if we do not adopt tax policy changes in the interim.

I do not believe there is any Member of this House who believes we will not take action. I think every Member recognizes that if we look at the track record of the last 4 years, we know that we will have a tax bill every year. Yet no one has any idea at this point in time, no one who is trying to make some kind of economic decision for the future or who is trying to plan for the future, can possibly have any certainty about the nature, shape, and consequence of any of those ad hoc annual actions with the tax code.

So the point is that the only way we can provide certainty is to adopt 4-year tax cut and tie that to expenditure restraint.

Mr. LEVITAS. Mr. Speaker, will the gentleman yield?

Mr. STOCKMAN. I yield to the gentleman from Georgia.

Mr. LEVITAS. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I would also like to point out that the assumptions made in this projection are based on the same figures for economic growth which this House adopted in the budget resolution for 1979, so it is the same economic growth that will be generated under this, plus the fact that we would have a balanced budget.

Mr. Speaker, I commend the gentleman for his remarks.

Mr. STOCKMAN. Mr. Speaker, I would also add that this projection of a $320 billion tax rise is based on 6-percent inflation. We are going to be lucky to hold it to that figure. Clearly it is above that today, so, therefore, the tax rise will probably be even greater.

The gentleman from Ohio (Mr. VANIK) talks about flexibility. I remember well both debates on the budget resolution this year in which we were told there was no controllability, that 75 percent of the budget is uncontrollable in the current year and that, therefore, our tax options were limited. We could not do the things we needed to do for the homeowner, we could not have the deep cuts in marginal rates that we needed for individuals, and we could not have a redirection or reorientation of the Tax Code to promote capital formation, because, we were told, we have no flexibility. The spending level is locked in, the deficit cannot be increased, and so we cannot afford the revenue loss from meaningful tax reduction.

This is an effort we are making to preclude that very situation, and now we get the other side of the argument from the same people. Well, they cannot have it both ways.

Every Member of this House knows that if we wait until the next fiscal year and the result of the current budget process to act, we will have no tax policy flexibility left. Spending will have risen again and the deficit will still be too large. And so, as the gentleman knows, we will again be in the position where the fiscal burden must fall on the back of the taxpayer in the form of backdoor tax increases.

Mr. VANIK. Mr. Speaker, will the gentleman yield?

Mr. STOCKMAN. I yield to the gentleman from Ohio.

Mr. VANIK. Mr. Speaker, let me ask the gentleman, does the proposal not make the assumption that there is going to be no economic change in the next 5 years? It is assuming that everything is going to be normal.

How can that assumption be made at a time when the dollar is falling down to its lowest level in world markets today and around the country?

Mr. STOCKMAN. Mr. Speaker, I would suggest to the gentleman that the dollar has fallen to its low level precisely because of the policies we have followed in the last 3 years, the kind of polices the gentleman advocates that we continue.

Mr. CONABLE. Mr. Speaker, I yield 3 minutes, for purposes of debate only, to the gentleman from Illinois (Mr. MIKVA).

Mr. MIKVA. Mr. Speaker, if I had a close race on my hands—and I do not—but if I did, I would certainly be very dubious about voting for this motion to instruct. It looks to me like exactly the kind of "carrot on a stick" by which somebody could lose an election.

This is one of those marvelously complicated ideas: "If you don't get hit by a train on Thursday and you are still breathing on Friday, we may give you a tax cut on Saturday."

The biggest single cause of disillusion to the American voters is the frustrated expectations caused by politicians in election heat. Here we are proposing a whole set of expectations: A $73 billion tax cut by the year 1983 if we live that long. Then we say, "If not, we will give it to you in 1984."

This is exactly the kind of a pit that it seems to me we ought not to be falling into, especially when there has not been one moment of hearings to even find out the dimensions of the pit.

I looked at the numbers. Where did the idea come from that Federal outlays should be reduced by half a percent a year between 1980 and 1981? Was that some kind of a figure that came down from Mount Sinai? Did that come down to us from some computer?

It came down out of thin air. It could

have been 1 percent, it could have been 2 percent, it could have been 3 or 6 percent. It could have been 7 percent. It could have come from great expertise, or it could have been absolutely a hat trick. None of us knows.

It says in here that there should be a 14-percent cut in 1982 and an 11-percent cut in 1981 and an 18-percent cut in 1984. Why not 16 percent, 14 percent, and 27 percent? What is the difference between these numbers and the phony numbers that the quarterback puts in when he is calling signals at the line and trying to confuse the opposition?

And who is the opposition? Who is it we are trying to persuade that we are going to do something when we may not?

The last time we did something simplistic and automatic like this was also just before an election. We were going to make sure that all of the social security recipients would automatically get a cost-of-living increase—and we did it one, two, zip, to make sure it was ready in time for an election. The Members brought on the trauma leading to the social security bill last year where we had to do a decoupling in order to fix that matter. And keep the social security system from falling on its face.

There are many ingredients in this formula that I like. I like the idea of putting together the tax rate, the spending rate and the need of the budget surplus. Those are the ingredients we should be adding together instead of addressing ad hoc, as we do now. But would it be hurtful to have 1 day of hearings and maybe another set of assumptions which makes sense? Should we look at the big cat for 1984 instead of 1983, or 1982 instead of 1983? What is this rush to judgment that says we have to have this "son of Kemp" this year?

Mr. CONABLE. Mr. Speaker, I yield 3 minutes for the purpose of debate to the gentleman from Illinois (Mr. ANDERSON).

Mr. ANDERSON of Illinois. Mr. Speaker, my distinguished friend and colleague, the gentleman from Illinois (Mr. MIKVA), has just suggested that, heavens, do not vote for this motion to instruct because some people might lose an election because of a frustrated electorate. I would respectfully suggest to my friend, the gentleman from Illinois (Mr. MIKVA), that some Members in this Chamber are going to lose this November because the electrorate is already frustrated with the kind of tax policy that this country has had over the last few years.

Now, we have heard over and over again this afternoon, as I have listened to this debate, two reasons why we should not vote for the motion to instruct. One is that this is an abuse of the legislative process, that we somehow have not adequately considered this issue.

My friends, we have spent hundreds, if not thousands, of hours debating and discussing the very kind of tax policy embraced in the so-called Nunn amendment adopted in the other body.

We have adopted many motions to instruct conferees in the past on a basis which was far more tenuous than the basis on which this amendment can and should be adopted this afternoon.

The other argument that has been raised is that we put ourselves in a straitjacket, that we cannot look ahead to 1983 and tell what the economic climate is going to be, we might be in a serious recession, we might be in a depression, and would we then be able to take the kind of measures we should in respect to expenditures and revenues if that were to occur?

And the author in the other body answered that, the Senator from Georgia answered that, when he said this:

> No, I say to the Senator that Congress would retain the absolute right of spending above the 1 percent in any kind of circumstances. It would not even require an emergency. What we do say is that if taxes are going to be cut, there are at least 2 conditions precedent, and for fiscal 1982 there are 3 conditions precedent, to the cut in taxes. And if any of those conditions do not come about, the taxes simply would not be cut.

We still retain, as the sovereign body that we are, the kind of flexibility that we need to either change the tax code or to change the spending outlays of this Government.

But in the meantime, as has been said over and over again, if you want to encourage the kind of investment planning that is needed to do something about the plight of the dollar, about which my friend, the gentleman from Ohio (Mr. VANIK), is so concerned, then for heaven's sake, recognize the necessity of imparting a degree of certainty into what we are going to do in this very sensitive area of tax reductions and in holding spending to a given level. And if you do that, then you will get the kind of response from the economy that will solve the problem that we have today with the economy.

Mr. Speaker, I urge the Members to support the motion to instruct the conferees.

The spending curbs contained in the Senate amendment will call upon our best efforts and best judgment, but the targets are achievable and deserving of our support. I am convinced we can stay within these fiscal parameters and still meet our obligations both here and abroad. We can—even under these limits—continue to address the critical social problems that confront our Nation, and at the same time adequately provide for our Nation's defense and overseas commitments. In order to implement these economies, we need only to muster the necessary resolve . . . we need only to hold our feet to the fire.

But in committing ourselves to spending restraints, we need not retreat from the congressionally established goal of full employment. We would, in fact, by adhering to the timetable specified in the Senate amendment, advance steadily towards the all-too elusive objective of full employment.

The unassailable fact is that our present mix of high unemployment and inflation—what Arthur Okun refers to as the "Great Stagflation Swamp"—is not the product of too little Government; it is the product of too much Government; it is the logical consequence of a burgeoning deficit that has hiked interest rates and crowded out private investment; it is the end result of escalating tax rates that have reduced the incentives to work, save and invest in this country; and finally it is the product of the inflationary dollars created by the Federal Reserve to help finance the extravagance of the Federal Government.

In limiting the size of Federal expenditures and receipts relative to the Nation's output, the Senate provision will help to restore economic stability and to assure continued economic growth. By reducing Federal tax rates and expenditures simultaneously, we will allow the private sector to expand and provide more jobs—free from the crowding out of Federal taxes and borrowing.

Earlier this year I introduced legislation designed to reduce Federal expenditures as a percent of national output, to lower rates of taxation and finally to balance the budget. I now urge you to vote for this motion—a motion that will instruct the House conferees to concur in a Senate amendment that would support those very same objectives.

There are many reasons to vote for this motion. Given the present mood of the electorate, it is of course a politically viable vote. But do not vote for this motion just because such a vote will be politically marketable this November. There are more valid and more urgent reasons for supporting the Senate amendment.

Chase Econometrics reports that this combination of tax cuts and spending curbs would by 1983 raise GNP by an additional $130 billion. But do not vote for this motion simply because it means accelerated economic growth.

Chase Econometrics also reports that employment by 1983 would be expanded by 1 million more jobs. But do not vote for this measure merely because it would lower the unemployment rate to 5.3 percent.

The Senate amendment would help to restore business confidence, but do not vote for this motion just because you want to enhance the investment climate in this country.

The amendment would help move us toward a balanced budget by 1983, but do not vote for this measure simply because you believe the Federal Government should be fiscally responsible.

The Senate's timetable would lower Federal Government expenditures as a percent of GNP from 22 percent to 19.5 percent by 1983, but do not vote for this motion just because you want to stop the Federal Government from crowding out growth in the private sector.

The Senate amendment by phasing out the deficit will go a long way toward stopping inflation, but do not vote for this measure just because you are concerned about the Nation's double-digit price spiral.

Vote for this motion because it will help to restore confidence in Government. Vote for this motion because the American people want lower spending and lower taxes. Vote for this motion because the American people believe, whether rightly or wrongly—and I believe they are right—that the Federal

Government can best address their needs, not by spending more, but by spending and taxing less.

If we postpone the day of fiscal reckoning, if we continue on the path of higher spending, higher taxes, and higher deficits, the American people will one day push us toward a constitutional amendment to strip this body of its power to spend beyond some arbitrary ceiling. I do not believe that a constitutionally mandated spending limit is either needed or workable. I am sure that most of you agree.

It is then up to us, the Congress, and the President to prove to the American people that the Federal Government is still responsive to public sentiment; that the Federal Government can still be entrusted with the public purse.

At stake is not merely the economic well-being of the American people, but also the integrity of our Federal institutions, and the public confidence in Government that is so essential to the smooth functioning of a Republic such as ours.

I urge your support on the motion to instruct the conferees.

Mr. CONABLE. Mr. Speaker, I yield 3 minutes to the gentleman from Connecticut (Mr. GIAIMO), chairman of the Committee on the Budget for purposes of debate only.

Mr. GIAIMO. Mr. Speaker, I rise in opposition to the motion of the gentleman from New York to instruct the conferees. I have just come back from 6 days at home campaigning for reelection, and I am sorry to see that the minority party is also talking campaign politics in this Chamber here. And I say shame, shame on the minority party, the Republican Party, for taking a serious matter of the tax bill and playing campaign politics with it 3½ weeks before election, because that is exactly what you are doing.

But, you are not going to fool the American people. You have not fooled them in the past, and you are not now. How on Earth can you write a tax bill for 1980 and 1981 and 1982 when you have not the faintest idea of what the economy of this country will be in 1980 or 1981 or 1982? How on Earth can you set any levels of spending on programs when you have no idea of what the economic conditions will be? But, you are going to try to tell the people, "Look what we have done here. We have disciplined ourselves by setting a ceiling on expenditures and a ceiling on taxes."

It will not work. It will not wash, and it is a phony alibi.

Mr. CONABLE. Mr. Speaker, will the gentleman yield?

Mr. GIAIMO. I will not yield; not unless the gentleman gets me a little more time at the end of the 3 minutes. Then I will be delighted to.

The way to get a decent tax bill is the way this body and the other body have been trying to do it. They have been making proposals for a reasonable and a responsible tax cut, even though the other body's tax cut is not as responsible as I would like to see it. I hope that it will be reduced in conference and I hope that with the encouragement of the President of the United States it will be worked out.

But, the tax conferees are addressing themselves to what taxes should be, given the economic conditions of today, given the rate of economic growth, given the inflation rate, given the unemployment rate, and given the needs of the American people.

But you cannot vote this tax approach suggested by the gentleman from New York, it is unworkable; it is inflationary; it is a sham.

The SPEAKER pro tempore. The time of the gentleman from Connecticut has again expired.

Mr. CONABLE. Mr. Speaker, I yield an additional 3 minutes to the gentleman from Connecticut for the purposes of debate only.

Mr. Speaker, will the gentleman yield?

Mr. GIAIMO. I will be delighted to yield to the gentleman from New York.

Mr. CONABLE. There are several points that need to be made. First of all, this proposal that has been added to the tax bill in the Senate has been put there by a broad, bipartisan coalition of Senators, and I would like to say in that respect that if the President should veto the bill on that account, the coalition measure was passed by more than a two-thirds vote in the Senate, and I trust will have that kind of support here in the House.

Second, I would like to point out to the gentleman that under his own procedures, the procedures of the Budget Committee, a 5-year extension is required, and thus we are used to looking at projections of income and expenditure over a 5-year period.

Third, I would very much appreciate the leadership of this body, which is of the gentleman's party, in bringing up tax bills just before election, but when they come up before election I do not shrink from my duty if it approaches just before election.

Last of all, it seems to me that there are sufficient contingencies attached to this proposal so that nobody is trying to blur the uncertainties of the future in this one measure. However, we are creating a presumption in favor of tax reduction, and I think that is an entirely appropriate thing to do given the expressions of the American people.

Now, I yield to the gentleman from Connecticut.

Mr. GIAIMO. Of course we make 5-year studies and projections and anything else we want to call them in the Budget Committee, as the gentleman knows, but they certainly do not have the binding effect of law.

What we are doing here is writing revenue law, you are writing it into law, and I say that is wrong. It is misleading and it will not work. I submit that the amendment and motion should be voted down.

Mr. CONABLE. Mr. Speaker, I yield 2 minutes, for purposes of debate only, to the gentleman from Minnesota (Mr. FRENZEL).

Mr. FRENZEL. Mr. Speaker, I rise in support of the motion to instruct the House managers of the tax bill to agree to the Senate amendment providing a 27½-percent tax over 5 years—actually 4 calendar years. The cuts would go into effect only if spending did not exceed the rate of inflation plus 1 percent, and if the gross spending as a percent of GNP declines at a specified rate.

This Senate amendment is an excellent marriage of tax cuts and spending cuts. It is exactly what the constituents of my area have been asking for.

It would put Congress' feet to the fire for the first time. The people want a tax cut each year as scheduled. If Congress cannot hold down its spending, the cuts will not go into effect. In that event, the people would probably be justified in wanting to replace the Congress rather than believe its promises. This amendment would prohibit Congress from eating its cake and having it, too.

In my judgment, this note epitomizes all the important, deeply felt issues that really concern people today. People think we spend too much; they believe inflation is the No. 1 public enemy, and they want a tax cut, and they want a balanced budget by 1982.

As far as I can tell this is either the first, or perhaps the second, vote in the House this year that covers all these popular concerns in a manner that gives some guarantee of success.

Opponents tell us that this is wrong motion at the wrong time. I doubt any person in this room would dare tell his or her constituents that it is wrong to vote for tax cuts linked to spending cuts.

No amendment, nor any bill, is perfect. But the Senate proposal—called the Nunn-Chiles-Bellmon-Roth, or the coalition amendments—seem to come awfully close to what all of us, and our constituents, are looking for. I urge all Members who have endorsed tax cuts and spending cuts to vote for it. If they do, it will pass by a handsome majority.

Mr. CONABLE. Mr. Speaker, I move the previous question on the preferential motion.

The previous question was ordered.

The SPEAKER pro tempore. The question is on the preferential motion offered by the gentleman from New York (Mr. CONABLE).

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. ULLMAN. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—yeas 268, nays 135, answered "present" 1, not voting 26, as follows:

ANSWERED "PRESENT"—1

Steiger

NOT VOTING—26

Ammerman	Harrington	Sarasin
Brown, Mich.	Hollenbeck	Scheuer
Burke, Calif.	Krueger	Shipley
Chappell	McHugh	Sisk
Cochran	Moss	Teague
Crane	Pettis	White
Diggs	Quie	Wilson, C. H.
Goldwater	Rahall	Young, Tex.
Gonzalez	Roncalio	

The Clerk announced the following pairs:

On this vote:

Mr. Crane for, with Mr. Steiger against.

Mr. Hollenbeck for, with Mr. Chappell against.

Mr. Goldwater for, with Mr. Rahall against.

Mr. White for, with Mr. Ammerman against.

Until further notice:

Mr. Krueger with Mr. Brown of Michigan.

Mr. Shipley with Mrs. Pettis.

Mr. Teague with Mr. Cochran of Mississippi.

Mr. Scheuer with Mr. Quie.

Mr. Charles H. Wilson of California with Mr. Sarasin.

Mr. Sisk with Mr. McHugh.

Mr. Roncalio with Mr. Moss.

Mrs. Burke of California with Mr. Diggs.

Mr. Gonzalez with Mr. Harrington.

Messrs. EVANS of Colorado, EVANS of Indiana, ROBERTS, CORNWELL, PATTERSON of California, POAGE, and STRATTON changed their vote from "nay" to "yea."

Mr. STEIGER. Mr. Speaker, I have a live pair with the gentleman from Illinois (Mr. CRANE). If he were present, he would have voted "yea." I voted "nay." I withdraw my vote and vote "present."

Mr. STEIGER changed his vote from "nay" to "present."

So the preferential motion was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

The SPEAKER pro tempore (Mr. EVANS of Colorado). Without objection, the Chair appoints the following conferees: Messrs. ULLMAN, ROSTENKOWSKI, VANIK, BURLESON of Texas, CORMAN, GIBBONS, WAGGONNER, CONABLE, DUNCAN of Tennessee, and ARCHER.

There was no objection.

EXTENDING AUTHORITY FOR FLEXIBLE REGULATION OF INTEREST RATES ON DEPOSITS AND ACCOUNTS IN DEPOSITORY INSTITUTIONS

Mr. ST GERMAIN. Mr. Speaker, I ask unanimous consent that the Committee on Banking, Finance and Urban Affairs be discharged from further consideration of the bill (H.R. 14289) to extend the authority for the flexible regulation of interest rates on deposits and accounts in depository institutions, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Rhode Island?

Mr. ROUSSELOT. Mr. Speaker, reserving the right to object, can the gentleman from Rhode Island (Mr. ST GERMAIN), the chairman of our subcommittee, assure us that this is an extension for 1 year of what is known as regulation Q, and that nothing else is included. Is that correct?

Mr. ST GERMAIN. Mr. Speaker, if the gentleman will yield, that is correct.

As a matter of fact, as the gentleman knows, we did this yesterday. The Senate is now in the process of loading this up like the super chief with freight cars. I felt perhaps that if we send the Senate a new clean bill, they will get the point. All we want is a 1-year extension of regulation Q.

Mr. ROUSSELOT. Mr. Speaker, I appreciate the gentleman's comment. We support the concept that this should not be adorned with all kinds of other items. I hope the gentleman has more success in persuading the other body not to add extra unrelated material than he did with the previous 1-year extension.

Mr. ST GERMAIN. We are trying to impress upon them that we do not want a potpourri. That is p-o-t-p-o-u-r-r-i.

Mr. ROUSSELOT. The gentleman from Rhode Island has always been good at spelling.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Rhode Island?

There was no objection.

The Clerk read the bill as follows:

H.R. 14289

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 7 of the Act of September 21, 1966 (Public Law 89-597) is amended by striking out "December 15, 1978" and inserting in lieu thereof "December 15, 1979".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

PERMISSION TO FILE CONFERENCE REPORT ON S. 3084, HOUSING AND COMMUNITY DEVELOPMENT AMENDMENTS OF 1978

Mr. ST GERMAIN. Mr. Speaker, I ask unanimous consent that the managers may have until midnight tonight to file a conference report on the Senate bill

(S. 3084) to amend and extend certain Federal laws relating to housing, community, and neighborhood development and preservation, and related programs, and for other purposes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Rhode Island?

Mr. ROUSSELOT. Mr. Speaker, reserving the right to object, as the gentleman well knows, we are supposed to be in the housing conference in a few minutes. What assurance is there since yesterday's session in conference that this housing conference will be completed?

Mr. ST GERMAIN. Mr. Speaker, if the gentleman will yield, I will remind the gentleman that he must be optimistic. If the gentleman should fall off the Empire State Building and if on the way down somebody asked, "How are you doing, JOHN ROUSSELOT?", the gentleman should say, "Pretty good, so far." The gentleman must be optimistic.

Mr. ROUSSELOT. Yes, but when I look at the ground on this conference, it is quite hard to be optimistic.

Mr. ST GERMAIN. It certainly is.

Mr. ROUSSELOT. My belief is that it is going to be very difficult to complete this housing conference tonight. Why can we not simply wait until tomorrow?

Mr. ST GERMAIN. Mr. Speaker, as I said, we must be optimistic at this date, at this late date in the session.

Mr. ROUSSELOT. We will be here until midnight. Maybe the gentleman should do this later today.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Rhode Island?

There was no objection.

CONSENTING TO CERTAIN AMENDMENTS TO THE NEW HAMPSHIRE-VERMONT INTERSTATE SCHOOL COMPACT

Mr. DANIELSON. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 2403) to consent to certain amendments to the New Hampshire-Vermont Interstate School Compact, approved by Public Law 91-21, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. BAUMAN. Mr. Speaker, reserving the right to object, I am familiar with the legislation, but I just want to ask the gentleman if there are any nongermane amendments that have been appended to this bill in the other body.

Mr. DANIELSON. Mr. Speaker, will the gentleman yield?

Mr. BAUMAN. I yield to the gentleman from California.

Mr. DANIELSON. Mr. Speaker, there have been no amendments whatever, nongermane or otherwise, added by the Senate.

Mr. BAUMAN. Mr. Speaker, I thank the gentleman, and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the Senate bill as follows:

S. 2403

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the consent of Congress is given to the amendments to the New Hampshire-Vermont Interstate School Compact which have been agreed to by such States and are substantially as follows:

(1) amend article VII-G to read as follows:

"(G) STATE AID PROGRAMS.—As used in this paragraph the term 'initial aid' shall include New Hampshire and Vermont financial assistance with respect to a capital project, or the means of financing a capital project, which is available in connection with construction costs of a capital project or which is available at the time indebtedness is incurred to finance the project. Without limiting the generality of the foregoing definition, initial aid shall specifically include a New Hampshire state guarantee under RSA 195-B with respect to bonds or notes and Vermont construction aid under chapter 123 of 16 V.S.A. As used in this paragraph the term 'long-term aid' shall include New Hampshire and Vermont financial assistance which is payable periodically in relation to capital costs incurred by an interstate district. Without limiting the generality of the foregoing definition, long-term aid shall specifically include New Hampshire school building aid under RSA 198 and Vermont school building aid under chapter 123 of Title 16 V.S.A. For the purpose of applying for, receiving and expending initial aid and long-term aid an interstate district shall be deemed a native school district by each State, subject to the following provisions. When an interstate district has appropriated money for a capital project, the amount appropriated shall be divided into a New Hampshire share and a Vermont share in accordance with the capital expense apportionment formula in the articles of agreement as though the total amount appropriated for the project was a capital expense requiring apportionment in the year the appropriation is made. New Hampshire initial aid shall be available with respect to the amount of the New Hampshire share as though it were authorized indebtedness of a New Hampshire cooperative school district. In the case of a State guarantee of interstate district bonds or notes under RSA 195-B, the interstate district shall be eligible to apply for and receive an unconditional State guarantee with respect to an amount of its bonds or notes which does not exceed fifty percent of the amount of the New Hampshire share as determined above. Vermont initial aid shall be available with respect to the amount of the Vermont share as though it were funds voted by a Vermont school district. Payments of Vermont initial aid shall be made to the interstate district, and the amount of any borrowing authorized to meet the appropriation for the capital project shall be reduced accordingly. New Hampshire and Vermont long-term aid shall be payable to the interstate district. The amounts of long-term aid in each year shall be based on the New Hampshire and Vermont shares of the amount of indebtedness of the interstate district which is payable in that year and which has been apportioned in accordance with the capital expense apportionment formula in the articles of agreement. The New Hampshire aid shall be payable at the rate of forty-five percent, if there are three or less New Hampshire members in the interstate district, and otherwise it shall be payable as though the New Hampshire members were a New Hampshire cooperative school district. New Hampshire and Vermont long-term aid shall be deducted from the total capital expenses for the fiscal year in which the long-term aid is payable, and the balance of such expenses shall be apportioned among the member districts. Notwithstanding the foregoing provisions, New Hampshire and Vermont may at any time change their State school aid programs that are in existence when this compact takes effect and may establish new programs, and any legislation for these purposes may specify how such programs shall be applied with respect to interstate districts. Notwithstanding the foregoing, the respective amounts of New Hampshire and Vermont initial and long-term aid, with respect to a capital project of the Dresden School District for which indebtedness is authorized by a vote of the District after July 1, 1977, shall be initially determined for each year for each member district by the manner provided in this paragraph and the aid shall be paid to the Dresden School District, however, the amount of aid for those capital projects received by the Dresden School District on account of each member district shall be used by the District to reduce the sums which would otherwise be required to be raised by taxation within that member district.";

(2) insert the following at the end of article VII:

"(I) Notwithstanding paragraph (G) of this Article, initial and long-term aid may be allocated among the members of an interstate district other than the Dresden School District in the manner which is provided in the articles of agreement of that district, or if not therein provided, in the manner specified in paragraph (G) for all interstate districts other than the Dresden School District."; and

(3) amend Article IX to read as follows:

"ARTICLE IX

"AMENDMENTS TO ARTICLES OF AGREEMENT

"A. Amendments to the articles of agreement shall be adopted in the manner provided in the articles of agreement, and if no such provision is made in the articles of agreement then amendments shall be adopted by the affirmative vote of two-thirds of those present and voting at an interstate district meeting, except that:

"a. If the amendment proposes the addition of a new member district, the amendment shall be adopted in the same manner provided for the adoption of the original articles of agreement, provided that the planning committee shall consist of all of the members of the interstate district board of directors and all of the members of the school board of the proposed new member district or districts, and provided that the amendment shall be submitted to the voters of the interstate district, the affirmative vote of two-thirds of those present and voting at an interstate district meeting being required for approval of the amendment. The articles of agreement together with the proposed amendment shall then be submitted to the voters of the proposed new member district or districts, and an affirmative vote of a simple majority of those present and voting at each district meeting shall be required for approval of the amendment.

"b. No amendment to the articles of agreement may impair the rights of bond or note holders or the power of the interstate district to procure the means for their payment.

"c. Amendments to the articles of agreement of the Dresden School District shall be adopted in the following manner: (1) an amendment shall be initially approved upon

the affirmative vote of a simple majority of those voters of the Dresden School District who are present and voting at a meeting called for such purpose, (2) the amendment initially approved by the voters of the Dresden School District shall become final and effective upon the expiration of thirty days after the date of that vote, unless a petition is duly filed within that thirty-day period and the amendment is subsequently not approved by the voters of a member district in accordance with the procedure specified in clause (3), (3) if a petition, valid under applicable State law, is filed before the expiration of that thirty-day period with the clerk of any school district which is a member of the Dresden School District, which petition requires the calling of a special meeting of that member district for the purpose of considering the approval of the amendment initially adopted by the voters of the Dresden School District, then the board of school directors of that member district shall thereupon call a special meeting of that district for that purpose, (4) if the amendment as initially approved by the voters of the Dresden School District is approved by more than forty percent of the voters present and voting at the meeting of each member district in which a petition was filed under this section, then the amendment as initially adopted shall become final and effective upon the vote of that member district last to vote. If the amendment as initially approved by the voters of the Dresden School District is not so approved by more than forty percent of the voters present and voting at the meeting of any one member district, then the amendment shall be null and void and of no effect.".

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

CONFERENCE REPORT ON S. 1566, FOREIGN INTELLIGENCE SURVEILLANCE ACT OF 1978

Mr. BOLAND. Mr. Speaker, I call up the conference report on the Senate bill (S. 1566) to authorize electronic surveillance to obtain foreign intelligence information.

The Clerk read the title of the Senate bill.

(For conference report and statement, see proceedings of the House of October 5, 1978.)

The SPEAKER pro tempore. Under the rule previously adopted, the conference report is considered as having been read.

The gentleman from Massachusetts (Mr. BOLAND) will be recognized for 30 minutes, and the gentleman from Illinois (Mr. MCCLORY) will be recognized for 30 minutes.

The Chair recognizes the gentleman from Massachusetts (Mr. BOLAND).

Mr. BOLAND. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the conference report on S. 1566 which the House managers bring back to the House is, in almost every respect, the House bill. After what at times seemed to threaten to be a deadlocked conference, the Senate receded and accepted the House language exempting certain sensitive surveillances from the warrant requirement. These surveillances do not involve U.S. persons, and the language of both the bill and the statement of the managers has been clarified to reinforce that condition. Further, the Attorney General certifications, which authorized the surveillances, will be sealed and stored under security procedures determined by the Chief Justice, with the concurrence of the Attorney General, after consultation with the Director of Central Intelligence. This will safeguard the sensitive information they contain, as well as insure record accountability for these surveillances.

The conferees, Mr. Speaker, also debated long and hard on the provisions designating judges. We did so, with a clear indication from the intelligence agencies that the House verision simply made inadequate provision for the secrecy of the surveillances involved. This was because the amendment which eliminated the original special court in the House bill followed adoption of the McClory amendment in the Committee of the Whole. When the McClory amendment was later defeated by a separate vote in the House, restoring all the surveillances requiring judicial warrants the court provisions, adequate for the few warrant applications that could have been made under the McClory amendment, were now totally inadequate for the substantial number which would be necessary under the restored provisions of the bill.

Mr. Speaker, let me quote to the Members a letter of the Attorney General directed to all of the conferees:

> Whatever provision is finally adopted by the conferees to resolve this problem, it is essential that there be a small number of predesignated judges authorized to exercise nationwide jurisdiction under the act. Only in this way can the intelligence community be certain that appropriate security measures are followed with respect to the personnel and facilities involved in this sensitive area.

It was clear to the majority of the House conferees, from that letter, that some compromise version was necessary. The conferees discussed a half dozen different ways of selecting and appointing the judges who would act on warrant applications. Some were rejected because they exceeded the scope of the differences committed to conference. In the end, the conferees settled on a modified version of the Senate language, altered to guarantee geographic diversity in judge selection and discourage the possibility of judge shopping.

Mr. Speaker, the action of the House conferees in this matter was thoroughly consistent with the intent of the House. The so-called special court was struck in the House for two reasons enunciated by the author of the amendment, the gentleman from Pennslyvania (Mr. ERTEL).

First, he said there are no surveillances for a court to consider. They have all been eliminated by the McClory amendment. But that situation was reversed the next day, when the McClory amendment was defeated on a separate vote in the House.

Second, it was argued that concentrating all warrant applications in one location posed a security risk and that they should be dispersed throughout the Federal judicial system. Well, Admiral Turner, Director of Central Intelligence, Admiral Inman, the Director of the National Security Agency, Director Webster of the Federal Bureau of Investigation, and the Attorney General, as well, are unanimous in their rejection of that theory. Their desire is to have these applications considered in only one location.

Mr. Speaker, the House conferees have brought back a workable, responsible, and extremely important bill. This legislation is needed to make clear the authority of the intelligence agencies in collecting foreign intelligence information by means of electronic surveillance. It will protect the agents who must put the surveillances into operation. It will assure our people that this most intrusive but highly productive form of intelligence gathering is being conducted in a fashion that will preserve their privacy while protecting our Nation's security.

Mr. Speaker, this bill passed the Senate 95 to 1. It passed the House a month ago 246 to 128. The conference was adoped in the Senate on last Monday night by an overwhelming voice vote, with no dissenting voice vote.

Mr. Speaker, this bill is the recommendation of President Ford, Attorney General Levi, a recommendation of Attorney General Bell and President Carter. It is a bill that has been worked on for 3 years by the Committee on the Judiciary on the other side.

It has been worked on for many months—many months—by the Intelligence Committees of both House and Senate sides. This conference report deserves the support of this House.

Mr. Speaker, I yield such time as he may consume to the gentleman from Wisconsin (Mr. KASTENMEIER), from the Committee on the Judiciary which shares jurisdiction in this area.

Mr. KASTENMEIER. Mr. Speaker, it has now been over 6 years since the Supreme Court in the famous Kieth case cast a cloud over current warrantless procedures for foreign intelligence surveilance. In that landmark decision Mr. Justice Powell writing for the court, specifically invited Congress,

> To consider protective standards . . . which differ from those already prescribed for specified crimes in Title III (of the Omnibus Crime Control and Safe Streets Act of 1968). Different standards may be compatible with the Fourth Amendment if they are reasonable both in relation to the legitimate need of government for intelligence and the protected rights of our citizens.

Finally, after years of work by four congressional committees and two administrations, we have developed a bill which is supported by a unique historical consensus—supported by everyone from the FBI and CIA to the ACLU. I believe that it is imperative that this consensus not be allowed to disintegrate at this late hour.

The conference report before the House represents a fair compromise of the positions of the two bodies. Many hours of difficult negotiations went into the report, which like the House passed

bill, reflects a fair balancing of civil liberties protections against national security concerns.

Mr. Speaker, this conference report deserves approval for the following reasons:

For the first time, the executive branch will be bound by statutory restrictions; no longer will a claim of inherent executive authority to conduct national security wiretapping be recognized. The rule of law will be brought to this practice.

For the first time, the law will require that a criminal standard for United States persons be met prior to approval of a national security wiretap on them.

For the first time, an objective third party, a Federal judge, will be required to review and approve applications for these taps, using explicit statutory standards.

For the first time, the law will require extensive minimization procedures for national security wiretaps, thus requiring that extraneous information which may be gathered incidental to a tap be destroyed.

For the first time congressional oversight of national security wiretapping procedures will be provided by law. I can personally attest to the difficulty congressional committees and subcommittees have had in getting accurate, detailed information on the activities of the intelligence community. This requirement will be an important, substantive safeguard against the blatant abuses that have occurred in the past.

Lastly, this legislation will provide an important precedent for the crucial charter legislation which the Congress will be considering next year. I consider the bill before us today to be part of an ongoing effort to return the rule of law and the resultant public respect to the Nation's intelligence community.

As chairman of the Subcommittee on Courts, I believe that a word about the conference resolution of the judicial review procedures set forth in the conference report is in order.

The House adopted an amendment by the gentleman from Pennsylvania which would have required that all warrant applications be made to the U.S. district court for the geographical district in which the surveillance was to take place.

While I personally argued forcefully in conference for a court jurisdiction provision which would have reflected closely the House amendment, I was unable to persuade the Senate conferees for two reasons.

First, the entire intelligence community, including the Directors of the CIA, NSA, and FBI strongly opposed the House amendment. They argued that the inability of the Govenrment to make secure widely dispersed court facilities and numerous personnel would have made highly secret information potentially available to hostile foreign intelligence services. This was particularly persuasive with the conferees due to the fact that a major justification for the amendment of the gentleman from Pennsylvania was that it would offer more security against inflation by hostile intelligence agencies.

Secondly, the Ertel amendment was adopted at a point in the debate at which the House had accepted an amendment limiting the warrant procedure only to U.S. persons. This limitation was removed later in the debate. Had the warrant procedure applied only to that handful of wiretaps against U.S. persons there would have been a much more persuasive argument that ordinary courts, schooled in criminal warrant procedures, should bear the responsibility for receiving applications under the bill. However, as finally passed, the House bill extended this warrant requirement to foreign agents who are not U.S. persons. The intelligence community argued to the conferees that this required a judicial review process carried out by judges who, although experienced in general judicial procedures, were able to have the benefit of special study in the area of foreign affairs and foreign intelligence gathering. Such knowledge would not be available to judges generally without risks of compromise of national security.

Mr. Speaker, we have labored to persuade the Senate to accept the House bill and have met with great success as can be seen by the fact that the basic text before us today is that of the House-passed bill. However, since the other body enacted its bill by a margin of 95 to 1, compromise in the committee on conference was an obvious necessity. The compromise agreed to more than adequately reflects the House bill and enjoys the vigorous support of those involved in our Nation's intelligence-gathering effort as well as civil libertarians. I strongly urge approval of the conference report without further delay.

Mr. BUTLER. Mr. Speaker, will the gentleman yield for a question?

Mr. KASTENMEIER. I yield to the gentleman from Virginia.

Mr. BUTLER. Mr. Speaker, the gentleman from Massachusetts and the gentleman from Wisconsin have discussed what took place in the conference. We spent 1½ hours on the floor debating an amendment which I offered and we compromised it with the insertion of the language "exclusive statutory" provision with reference to the procedures contained in this bill for conducting foreign electronic surveillance. I wonder if the gentleman can tell us what happened on that?

Mr. KASTENMEIER. Mr. Speaker, as the gentleman knows, the Senate provided no such term as "statutory." The House did agree—and I agreed as one Member of the House—to accept the word "statutory" without really very much debate as to what "statutory" meant. The 1½ hours of House debate which preceded that went to somewhat different language.

The Senate insisted that the word "statutory" be deleted. There is a full explanation on page 35 of the conference report, in which it states accurately and fairly:

> The conferees agree that the establishment by this act of exclusive means by which the President may conduct electronic surveillance does not foreclose a different decision by the Supreme Court. The intent of the conferees is to apply the standard set forth in Justice Jackson's concurring opinion in the Steel Seizure Case: "When a President takes measures incompatible with the express or implied will of Congress, his power is at the lowest ebb, for then he can rely only upon his own Constitutional power minus any Constitutional power of Congress over the matter.

That essentially states the view of the conferees. Nothing the gentleman or I can say will alter any constitutional power the President may have. However, we should not in fact, allocate any authority, statutory or otherwise, that the House may express by virtue of this law.

Mr. BUTLER. I thank the gentleman.

Mr. BOLAND. Mr. Speaker, will the gentleman yield?

Mr. KASTENMEIER. I yield to the gentleman from Massachusetts.

Mr. BOLAND. Mr. Speaker, if I may add to what the gentleman from Wisconsin has said, if there is one point the Senate was not going to agree on, it was on this point. When the Senate insisted on the deletion of the word "statutory", we had actually no choice in the matter.

The SPEAKER pro tempore. The gentleman from Massachusetts (Mr. BOLAND) has 15 minutes remaining. The gentleman from Illinois, (Mr. MCCLORY) is recognized for 30 minutes.

Mr. MCCLORY. Mr. Speaker, I yield myself 5 minutes.

Mr. Speaker, at this stage it is particularly important for us to realize what we are doing and what we are not doing. We should be aware of what this conference report provides and we should note that only five of the eight House conferees even signed the conference report. It does not happen too often that Members refuse to sign a conference report, but that occurred here. And the reason is because the House conferees have lost on every point. We have had to give ground either completely or we have had provisions in the House bill diluted to the extent that they coincide with what the Senate wanted and not what the House wanted.

This is particularly true with regard to the discussion that has taken place here on the floor with relation to the constitutional authority of the President, which was the subject of an amendment offered by the gentleman from Virginia (Mr. BUTLER). After a long discussion during the debate on this measure an agreement was reached in which both sides agreed that, by using the expression "statutory", that is, "exclusive statutory remedy" that that would mean that the inherent constitutional power of the President was not being affected. But it is true that the Senate conferees insisted on eliminating the word "statutory." They insisted on that because, in effect, what they are endeavoring to do with regard to all of our intelligence agencies and with respect to all of the intelligence activities, is to transfer the power that is granted by the Constitution to the President of the United States, to the courts. And we should realize that. It is an attempt to amend the Constitution by a simple legislative enactment.

Something else on which the Senate conferees insisted and which is in direct opposition to what was done in the House is this:

We rejected by better than a 2-to-1 majority, the establishment of a special court, and yet the special court, by omitting the word "special" was reinstated.

So again, I say, we should be aware of what has happened.

We have given in on every point.

The conference report imposes a requirement to transmit a sealed request for electronic surveillance even with regard to communications between foreign powers. We have reinstated the court involvement, which again the Senate conferees insisted upon, and which we gave in on.

Admiral Inman and the NSA, did not want to have court involvement, but we have given them court involvement because when their activities are revealed in a sealed envelope, and you file it with the court, and we then provide means by which the envelope can be unsealed and exposed, we are betraying the support we gave to NSA in the House-passed bill.

Is that consistent with the position of the House? Is that consistent with what both sides of the Intelligence Committee agreed upon and insisted upon? No. It is in complete defiance of what we decided here in the House.

The chairman of the committee (Mr. BOLAND) spoke about the McClory amendment. We never got anywhere near the McClory amendment. In the Intelligence Committee we had a tie vote on that amendment but then we lost it here on the floor, in a separate vote, when we went back into the House. There has been much pressure to get out a bill, and that is what it came down to finally at the end of the conference, that we have got to have some bill, we have got to have some legislation.

I say do not be in a hurry to make a serious mistake like this.

We will have charter legislation in the next Congress.

Let me add this, the abuses of the intelligence agencies are not abuses occurring now, or that occurred last year, or even the year before. They are abuses that relate to a period beginning long years ago—and which no longer occur. As a matter of fact, the existing guidelines have not been the subject of abuse. Consequently it seems to me that what we should be doing here is to thoughtfully and carefully strengthen the intelligence agencies, to make them better insofar as our national security is concerned, and not to compromise our actions in order to reach an accommodation with the American Civil Liberties Union, or any other group which would, if it could, prohibit all clandestine activities of our intelligence agencies because they do not believe that they are needed. They would require court ordered warrants for electronic surveillance. Indeed, they want our investigative agencies to secure judicial warrants for the appointment of informants.

The SPEAKER pro tempore. The time of the gentleman from Illinois (Mr. MCCLORY) has expired.

Mr. McCLORY. Mr. Speaker, I yield myself an additional half minute.

Mr. Speaker, I just want to finish this thought, and that is that we are really involved here with one big package. It is all one big package which we have before us today, foreign intelligence electronic surveillance.

However, we also will have before us next the question of whether we should report to the courts with regard to informants and disclose their names and identities to the courts so that they can be accessible. The Attorney General should himself know all about this because he is before a court right now where he is being compelled, under threat of contempt of court, to reveal the names of informants.

Imagine, Mr. Speaker, we have put ourselves into that same trap.

It would seem to me that one of the easiest ways to compromise the confidentiality with which the CIA and other intelligence agencies must operate is to require that a record be established and maintained in a special court.

Currently, as I said, it is a court which is endeavoring to require the Attorney General to disclose the identity of informants who have been employed by the FBI in connection with intelligence-gathering activties.

It is through a court proceeding initiated by the American Civil Liberties Union that a U.S. district court is endeavoring to identify individuals employed by a Chicago Department of Investigation, who infiltrated a radical group aimed at disrupting the Democratic National Convention in 1968.

Clearly, to identify informants is to virtually destroy this technique which, as the Director of the FBI has declared, serves as the key to antiterrorist and criminal investigations.

While it may be the aim of the ACLU and others to destroy this technique, and to eliminate informants from infiltrating organizations suspected of criminal, terrorist, or other types of antisocial or revolutionary activity, it should certainly not be the purpose of this legislation to give substance or support to such destructive efforts.

Yet, to impose upon the intelligence agencies a requirement to secure permission of a special court before undertaking national security intelligence-gathering activities either by way of electronic surveillance—or by the use of informants—is in effect to destroy any and all clandestine information-gathering activities—which are the key to criminal and national security intelligence gathering.

The House conferees have, in my view, failed to sustain the House position on virtually all counts. The exemption which was specifically granted by the action of the House Intelligence Committee so that no court proceeding or warrant requirement would be imposed where an electronic surveillance was sought for communications between foreign powers—was amended and significantly diluted.

The conference report imposes a requirement to transmit a sealed request for such electronic surveillance to the Chief Justice which, under some circumstances, may be unsealed.

In effect, the security which the Intelligence Committee felt was essential with regard to this extremely sensitive type of electronic surveillance was sacrificed by permitting a subsequent court proceeding to expose the electronic surveillance project for which the Attorney General has given his approval.

The House acted also to exempt the Executive from the court requirement with regard to securing foreign intelligence information in time of war declared by the Congress. No one seems to question the responsibility of the President to protect our national security in time of war. Thus, the House wisely recognized the constitutional authority and responsibility of the President in a wartime situation.

The conferees all but obliterated this exemption by substituting language which exempts the President from a warrant requirement for a period of just 15 days. Thereafter, all of the court proceedings and other requirements—including the possible appeals—are applicable in wartime just as they are in peacetime.

An extremely vital decision made in the House was the adoption of an amendment, offered by the gentleman from Virginia (Mr. BUTLER). After more than 1½ hours of debate on the amendment, compromise language was offered—and agreed to—making the bill the "exclusive statutory means" by which "electronic surveillance" may be conducted. This served to recognize the power which the Constitution vests in the President to engage in foreign intelligence gathering so as to protect our nation from foreign aggression. Sadly—and reprehensibly—this amendment was summarily dismissed in conference.

Finally, the conferees were in a serious dilemma with regard to the Ertel amendment which eliminated the entire "Special Court" provision for hearing warrant applications for national security electronic surveillance. After all, this amendment was adopted by a better than 2-to-1 margin. A patchwork provision to create a special court with judges from seven judicial circuits named by the Chief Justice of the U.S. Supreme Court found its way into the conference report. While there seemed to be a lack of agreement on this provision, the conferees acted almost in desperation with the argument that it was essential to produce some bill in this Congress on the subject of foreign intelligence electronic surveillance.

May I suggest that this is perhaps the major defect in the action which the conferees have recommended; namely, that it is essential to enact "some bill" in this Congress. In my view, "some bill" means even a bad bill and that is precisely what I feel the conferees have produced. This so-called carefully crafted legislation on the subject of foreign intelligence electronic surveillance is a modified accommodation to those who oppose all electronic surveillance plus those who feel that no national security intelligence gathering should be undertaken except upon the issuance of

a court order—and this includes electronic surveillance, the securing of intelligence information through informants, and every other type of clandestine intelligence gathering activities which are essential in the work of our intelligence agencies.

As I have maintained throughout the hearings and proceedings involving this subject, I feel strongly that legislation should be designed which will translate into statutory form the carefully drafted guidelines promulgated by former President Ford and later by President Carter. To substitute this confusing and constitutionally suspect legislation for an existing system with which the intelligence agencies have fully complied—and which has served to protect the privacy interests of our American citizens—is to commit an error which is both dangerous and possibly irreparable.

I hope that the conference report will be rejected and that the new Congress will have an opportunity to produce a sound and thoughtfully considered measure of which this body and this nation may be proud.

Mr. Speaker, in addition to the other arguments which have been presented in opposition to the conference report on the foreign intelligence surveillance measure, I wish to call attention to a recent editorial of station WOR-TV, New York City (channel 9), an independent station owned by RKO. The editorial expressed by the station's announcer, Mr. Herb Stupp, is entitled "A Delicate Balance" and is as follows:

A DELICATE BALANCE

Part of the aftershock of Watergate has been a drive to make the intelligence agencies accountable. The dilemma is how to balance civil liberties with serious national security needs. A bill called the foreign intelligence surveillance act tries to do just that.

The bill would create a special court in Washington. Before the CIA could eavesdrop on a suspected foreign agent, it would first have to obtain a warrant from this court. We like the idea of protecting liberty and privacy, but parts of the bill are dangerously impractical.

For instance, if the CIA wanted to intercept information going from one Soviet agent to another, it would first have to obtain a court order!

Another consideration is that by bringing foreign intelligence into the courts for the first time, we would be widening the circle of people with access to sensitive information. That includes judges, clerks, bailiffs, and other staff.

This is bound to mean leaks which would jeopardize our security.

Congressman McClory of Illinois has offered some amendments that make sense. He would require a warrant only for surveilling U.S. citizens and permanent residents. He would totally eliminate the warrant requirement for eavesdropping on foreign powers.

According to a study by the Heritage Foundation, terrorism is likely to increase in the United States. So while it is important to safeguard civil liberties, this is no time to hamstring our intelligence community.

We could support the foreign intelligence surveillance act, but only with the McClory amendments.

And that's our opinion. I'm Herb Stupp.

Mr. Speaker, I yield 4 minutes to the gentleman from California (Mr. WIGGINS).

Mr. WIGGINS. Mr. Speaker, we are, indeed, under considerable pressure to legislate in this area; but I hope we will not yield to that pressure if the price of doing so is to compromise settled constitutional principles.

The gentleman from Illinois (Mr. MCCLORY) touched on the subject. It has been the subject of debate here, but it needs to be repeated.

Central to this whole scheme of review of national security wiretaps is that a court, in the dead of night, upon application of the executive branch, will affect the rights of third parties without giving them the slightest notice of what it is doing. Furthermore, it is not intended that the third parties whose rights are affected, will ever receive notice. Indeed, if there was the slightest suspicion that the target of electronic surveillance would get wind of what the executive branch proposed to do in collusion with the judicial branch, the whole exercise would stop.

Mr. Speaker, can the Members not see that? Can we not see what we are doing to the Federal judiciary? We are involving them in a wholly ex parte determination, in a secret plan between the Justice Department and the judiciary, without involving the third party whose interest is affected.

That is not a case or controversy because it fails in the essential ingredient of an article III case or controversy. There is no adversary relationship before the court between the real parties in interest.

Mr. Speaker, we cannot approve this bill, even under pressure, if we are faithful to the Constitution, in my opinion. What would happen if we could rise above this current pressure and vote this conference report down?

The executive branch, which is the alleged perpetrator of all of this improper surveillance, supports the legislation. It is not going to view a rejection of the conference report as some license to violate the personal liberties of those in this country. I have confidence that the President and the Department of Justice will not conduct a rampage of surveillance if this conference report is voted down.

There is ample time in the next Congress to give more sensitive consideration to a fundamental constitutional principle.

Mr. Speaker, we accepted the argument I have made once after full debate; but after intensive pressure and, I suppose, upon further reflection, too, when a separate vote was called upon this issue in the House, the Members changed their mind. I accept that precedent. Let us change it again. We were right the first time. Let us reverse our position again and let this matter percolate a bit longer. The issues involved are far too fundamental for us to legislate in haste.

Mr. MAZZOLI. Mr. Speaker, will the gentleman yield?

Mr. WIGGINS. I yield to the gentleman from Kentucky.

Mr. MAZZOLI. I thank the gentleman for yielding.

Let me first say that this is one of the last appearances of the gentleman in the well before the House, and as one who has been assisted many times by his observations on matters before our committee and on the floor, I want to wish him well in the years ahead.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. MCCLORY. Mr. Speaker, I yield 2 minutes to the gentleman from Virginia (Mr. ROBINSON).

Mr. ROBINSON. I thank the gentleman for yielding.

Mr. Speaker, I rise in opposition to the conference report. Frankly, I find this to be a poor piece of legislation—all the more so in its timing.

While I opposed this measure when it was first considered in the House, upon final passage of the bill I had hoped that the amendments which were adopted during floor consideration would be substantially maintained in conference. But, to my dismay, not one of these amendments was maintained. Let me repeat that—every single change made on the House floor was substantially undone in conference.

I understand that the very nature of the conference between the two Houses must be one of compromise, but compromise is a two-way street, and I do not see that the Senate traveled the road at all. And, let me note that the provisions rejected by the conferees were contained in amendments not only adopted by voice vote, but in one instance adopted by a vote of 224 to 103—that is more than a 2-to-1 majority. Therefore, as I see it, even putting aside for the moment the substance of the conference report, I believe that it should be rejected simply on the grounds of the short shrift given the clearly expressed position of the House.

The conference report also presents numerous reasons for a "no" vote on the merits. For, while it extends fourth amendment, privacy protections to foreigners engaged in espionage in the United States, it thereby denies the President his constitutionally vested power to gather intelligence in order to protect our country from foreign aggression.

Finally, as I have already noted, consideration of this piece of legislation at this time presents a good example of bad timing. Currently pending in Congress is a bill entitled the "National Intelligence Reorganization and Reform Act." This bill would not only establish general guidelines for the activities of our intelligence agencies, but would also set out specific charters for each one of these agencies. It should be further understood that the bill we are considering today makes up one part of the Reorganization Act. It seems to me that legislation regulating foreign intelligence electronic surveillance would better be considered in an omnibus bill rather than, as we are doing today, on a piecemeal basis.

Mr. Speaker, I urge my colleagues to vote "no" on the conference report.

Mr. MCCLORY. Mr. Speaker, I yield 5

minutes to the distinguished gentleman from California (Mr. BOB WILSON), the ranking member of the permanent Select Committee on Intelligence.

Mr. BOB WILSON. Mr. Speaker, I rise in opposition to the conference report to S. 1566, the Foreign Intelligence Surveillance Act of 1978. I have great respect for my distinguished chairman and the subcommittee members. I did not sign the conference report because in considering this legislation I find a number of things which bother me.

I am bothered by the fact that an amendment adopted by the House after more than an hour and a half of debate—an amendment recognizing the constitutional power of the President to protect our national security—was totally rejected by the conferees.

I am bothered by the fact that a time of war exemption from the bill's warrant requirements adopted in the House was gutted in conference.

I am bothered by the fact that the conferees completely rejected an amendment striking from the bill a provision establishing "Special Courts"—despite the fact that this amendment had been adopted by more than a 2-to-1 majority in the House.

Mr. Speaker, what bothers me most of all is the fact that this piece of legislation is before the House at all at this time. It may be trite, but it is true: passing this bill now will be an act of putting the cart before the horse.

Currently pending in Congress is the National Intelligence Reorganization and Reform Act. This piece of legislation—which some refer to as the intelligence agency's "Charter Bill" will be the center of attention in the Intelligence agencies, as well as establish a framework for the conduct of intelligence activities.

While much of the bill establishes a general framework for intelligence activities, title III, part B, encompasses the very legislation which is before us today.

While I seriously question a number of provisions in the charter bill, I believe that the omnibus approach is the best way to go. I find it totally inadvisable to enact legislation aimed in only one area of foreign intelligence gathering before we have established, general statutory guidelines for all intelligence activities.

Mr. Speaker, I ask my colleagues to consider the following: currently we are operating under President Carter's Executive order which all available evidence indicates is doing the job—it is protecting reasonable privacy interests and regulating intelligence collection. Indeed, all of the testimony before the Intelligence Committee has shown the present situation to be abuse-free. Therefore, we can continue to operate effectively without this legislation, and it certainly would be preferable to consider it as part of general, intelligence agency reorganization legislation.

Mr. Speaker, I urge my colleagues to vote "no" on the conference report.

Mr. McCLORY. Mr. Speaker, I yield 3 minutes to the gentleman from Ohio (Mr. ASHBROOK), a member of the committee.

Mr. ASHBROOK. Mr. Speaker, I thank my colleague for yielding.

Mr. Speaker, this was a bad bill when it came before us on September 7. After the changes made by the conference committee, it is now considerably worse. In every case the conference decisions make it more difficult to surveil a foreign intelligence agent or terrorist.

In discussing an earlier state of this legislation in 1976, even Vice President MONDALE, then a Senator said:

> As far as I am concerned, foreign spies in this country should have no rights. Probably that is a little crudely put, but a KGB agent and so on—I shouldn't say it—I could care less how we proceed to get information from them or influence their behavior while they are in this country. What I am worried about is the application of these activities and their effect on American citizens. That is what I am talking about. (Testimony before the Senate Intelligence Committee, June 29, 1976, p. 69.).

This bill goes far beyond what even Vice President MONDALE advocated. It, in fact, grants fourth amendment privileges to foreign intelligence agents.

A few months ago, the CIA provided the House Intelligence Committee with an unclassified report on Soviet and KGB manipulation of the media. That report which was prepared at my request, covered among other matters the role of the International Communist Fronts such as the so-called World Peace Council which a few years ago gave its "peace prize" to the PLO terrorist leader Arafat.

According to the CIA, the gatherings of the international fronts:

> Serve as agent enlisting grounds for Soviet and bloc intelligence services. Front meetings in the USSR and Eastern Europe are ideal for this purpose because bloc intelligence officers can control the circumstances of their meetings with likely recruits, with no fear of surveillance by or interference from non-Communist security services. Most of the agents enlisted by Communist bloc intelligence services over the years were targeted while on visits to the Soviet bloc, some while in attendance at front meetings or on free vacations in the bloc offered in connection with these gatherings.

As a result of a conference change in definition of an "agent of a foreign power" members of foreign Communist Parties or of the international Communist fronts could not be electronically surveilled. Officers or employees could—but not members. The FBI would have to prove to a judge that the individual member was engaged in or preparing to engage in a criminal act.

This is a "Catch 22." How can the FBI know if a crime is being prepared without some surveillance?

The conference left "member" in the definition of an "international terrorist group." But even this is inadequate. For example, this administration refuses to designate the Palestine Liberation Organization as a terrorist group. I understand the diplomatic problems in this area. But under this bill as written, members of the PLO, other than officers or employees could not be surveilled, even with a warrant, unless we already know that they are planning a specific terrorist act, a specific crime. This is a criminal standard for surveillance of even terrorists and spies.

I would like to inform my colleagues that minority staffers were barred from all but one of the informal conference staff meetings. At the one meeting that a minority staffer was allowed to attend, there was an ACLU official present as well.

Mr. Speaker, this bill represents a total capitulation to the Senator from Massachusetts (Mr. KENNEDY) and his erstwhile staffers and assorted outside advisers of the ACLU and Morton Halperin ilk. It is a disaster we will live to regret. It is a victory for the anti-intelligence forces in our country, certainly not for the American people or our intelligence gathering men and women.

I urge that we vote down this conference report. We will have the opportunity to reconsider this matter as part of Charter Legislation next session. That is the appropriate time to consider this. I ask my colleagues to vote "no."

Mr. McCLORY. Mr. Speaker, will the gentleman yield?

Mr. ASHBROOK. I am glad to yield to my colleague, the gentleman from Illinois.

Mr. McCLORY. Mr. Speaker, on the subject of the PLO, I think it is important to point out that a warrant would be required in order to engage in electronic surveillance of the PLO.

As the gentleman stated, we have in the PLO a foreign power which is operating here in this country, and yet we would be deprived of the opportunity to get information by electronic surveillance from the PLO unless a court decides this can be done. That is what most intelligence is, that is, information which we should be able to secure without going to a court and applying for a warrant and then permitting the court to decide whether or not we can or cannot engage in electronic surveillance. It seems to me this is certainly inimical to our country's national security.

Mr. ASHBROOK. Mr. Speaker, my colleague, the gentleman from Illinois, is certainly right. If that sad day ever comes when terrorist acts expand in this country, I am sure the same Members who are voting today for this conference report will be rushing in to undo the damage that is being done now.

Mr. LIVINGSTON. Mr. Speaker, will the gentleman yield?

Mr. ASHBROOK. I yield to the gentleman from Louisiana.

Mr. LIVINGSTON. Mr. Speaker, I applaud the position being taken by my colleague, the gentleman from Ohio (Mr. ASHBROOK), and I wish to associate myself with his remarks.

Mr. MURPHY of Illinois. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the conference report we bring back to the House today promises a new era for our Nation's intelligence agencies. The compromise we have reached with the Senate also represents

a pact we have struck with the U.S. intelligence community. They—as well as the Congress—have recognized that their activities must bear the clear imprimatur of lawful authority. They—as well as the Congress—want to know clearly what they should do and what they should not do. They—as well as the Congress—want the American people to have confidence that intelligence agencies are directing their activities at spies or terrorists or foreign powers—and not on Americans. This conference report helps assure that—where electronic surveillance is concerned—these goals have been met. I cannot emphasize too strongly that the provisions of the bill which we bring back to this body were worked out—at every stage—in cooperation with the intelligence agencies and not despite them. I believe the Congress—and the House in particular—can be proud of the new atmosphere of trust and cooperation between Congress and the intelligence community that S. 1566 represents.

The conference report itself closely resembles the bill which the House passed last month. In particular, the bill retains the House language which provides that certain sensitive surveillances of foreign powers—which do not involve the communications of U.S. persons—may be authorized without a judicial warrant. The conference report adds clarifying language on this point and requires transmission and storage of the sealed Attorney General authorizations under security procedures approved by the Chief Justice and the Attorney General.

Mr. Speaker, perhaps an important issue in conference, and one which has stirred controvery, concerns how the judges designated to hear warrant applications under the bill are chosen. There was a wide ranging debate in the conference committee on the method of selection. The conference substitute, quite frankly, came down in favor of the Senate language but with a change to insure a geographically diverse selection. Both the House and the Senate conferees decided on the arrangement the House did—seven judges with nationwide jurisdiction chosen by the Chief Justice, who rotate in pairs into the District of Columbia and operate under strict and comprehensive security provisions—because of the immediate and strong concern exhibited by both the Attorney General and the heads of the intelligence agencies. These officials requested a court of this description that met in this city in order to properly safeguard the sensitive intelligence information that will be the subject of warrant applications. The conferees otherwise provided for a diverse selection of judges and acted to prevent judge shopping. When the judges chosen under the bill are not hearing warrant applications, they will be assigned to other judicial duties.

Mr. Speaker, in large part the remainder of the conference report is the House bill. The Senate agreed to the House format, its definition of international terrorism, minimization procedures and retained the authorization in time of war. The Senate conferees, in sum, accepted the House provisions in nearly every case. They did so, however, because they wanted a strong bill—one that protects vital intelligence operations while preserving the privacy rights of our citizens. They passed the measure earlier this week—by a voice vote—in a similar spirit. I believe that the House should exhibit similar strong support for this bill. It is reasonable, it is workable and it is sorely needed by our intelligence agencies.

Let me close by establishing that point beyond any doubt. Let me read you the letters of Admiral Turner, Director of Central Intelligence, Admiral Inman, Director of the National Security Agency, and Director Webster of the Federal Bureau of Investigation.

This is the letter from Stansfield Turner, the Director of Central Intelligence:

WASHINGTON, D.C.,
October 11, 1978.

Hon. EDWARD BOLAND,
House Permanent Select Committee on Intelligence, House of Representatives, Washington, D.C.

DEAR CHAIRMAN BOLAND: I am informed that the conference report on the Foreign Intelligence Act of 1978 is scheduled for consideration on the floor of the House of Representatives in the near future. The purpose of this letter is to assure that this legislation, as it emerged from the conference, continues to have my full and unqualified support as head of the Intelligence Community.

From a security perspective, I am particularly gratified that the conference committee chose to include specific statutory language dealing with security measures in court proceedings and with a centralized court system to consider applications for warrants. The House version of this legislation, as amended on the floor, had not contained such language. The new provisions facilitate the implementation of specific security measures and reduce the opportunity for compromise of sensitive security information. These advantages far outweigh any benefits which might accrue from dispersing warrant applications around the country.

For these and many other reasons, I strongly urge that the House of Representatives approve the conference version of this legislation.

Yours sincerely,

STANSFIELD TURNER.

The letter from Admiral Inman, Director, National Security Agency and Chief of the Central Security Service, is as follows:

FORT GEORGE G. MEADE, MD.,
October 11, 1978.

Hon. EDWARD P. BOLAND,
Chairman, Permanent Select Committee on Intelligence, U.S. House of Representatives, Washington, D.C.

DEAR MR. CHAIRMAN: I wish to reiterate my strong support for the Foreign Intelligence Surveillance Act as reported by the House-Senate Conference.

I am particularly pleased by the provisions adopted by the Conference on the court that will hear applications for authorization to conduct electronic surveillance. Limiting the number of judges to seven and providing (in the Conference Report) that the court shall sit in the District of Columbia will contribute materially to ensuring proper security.

Sincerely,

B. R. INMAN,
Vice Admiral, U.S. Navy,
Director, NSA/Chief, CSS.

The letter from William H. Webster, Director, Federal Bureau of Investigation, is as follows:

WASHINGTON, D.C.,
October 11, 1978.

Hon. EDWARD P. BOLAND,
Chairman, Permanent Select Committee on Intelligence, House of Representatives, Washington, D.C.

DEAR MR. CHAIRMAN: I have been requested to provide my views on the result of the Conference Committee's resolution of the relatively minor differences between the House and Senate versions of the Foreign Intelligence Surveillance Act. As you know, the FBI has strongly supported enactment of this legislation and worked for passage of both versions.

On the whole, the FBI favored H.R. 7308 as passed by the House on September 7, 1978. However, I was particularly concerned with the manner in which the House version dealt with the designation and jurisdiction of judges authorized to grant electronic surveillance orders under the bill. As the Attorney General stated in his letter to the conferees of October 3, 1978:

"Particularly for counterintelligence investigations, the intelligence community cannot be faced with the situation, as now exists under the House bill, of having to travel across the country seeking a judge with jurisdiction to act in a particular locale. It would be both difficult to protect the security of the information and difficult to reach such a judge in time to act in an effective manner in urgent circumstances. Time is often of the essence and vital information might be lost in the time it would take to reach a judge. It is clearly preferable to have designated judges familiar with the Act available to act on an application so that we can protect civil liberties while at the same time insuring that vital information is not lost because of needless time delays or security concerns."

The Conference Report resolved this problem by centralizing a court in Washington with seven designated U.S. District Court judges selected from among the judicial circuits to exercise jurisdiction under the Act. I agree with the Attorney General that this result was essential to maintaining proper security for the sensitive information that will be provided to the court and will provide the FBI a forum that is accessible in a timely manner, both of which are vital to the conduct of our counterintelligence responsibilities. In short, the FBI is comfortable with the resolution of this issue.

I was also concerned that the House provision dealing with the surveillance of groups engaged in international terrorism be maintained in the Conference. The Conferees agreed with the House that this was an important difference between the bills and adopted the House version, which provides a broader basis for conducting electronic surveillance of groups engaged in international terrorism than did its Senate counterpart.

This legislation is important to the FBI. It makes clear that the FBI has legislative authority to conduct electronic surveillances in foreign counterintelligence operations and that our Agents will be protected in relying on judicial warrants for such purposes. The Conference Report satisfies these needs.

Sincerely yours,

WILLIAM H. WEBSTER,
Director.

Mr. Speaker, I say to my colleagues on the other side of the aisle that they cannot have it both ways. They cannot say we are impairing the security of this country, on the one hand, with this bill, and yet oppose the language of the bill on the other hand, which, as the intelli-

gence agencies have told us, provides strict security. They cannot have it both ways. We have seven judges coming to the District of Columbia, and I know there are a number of Members on the other side of the aisle who have come to me privately and told me that they are with us on this provision, that they endorse strong security in the court created by the bill.

Mr. MIKVA. Mr. Speaker, will the gentleman yield?

Mr. MURPHY of Illinois. I yield to the gentleman from Illinois.

Mr. MIKVA. I thank the gentleman for yielding.

Mr. Speaker, I want to associate myself with the gentleman's remarks. I wish to commend the committee of conference for bringing forth what I think is a very workable solution to a very delicate set of problems. I intend to support the conference report.

Mr. MAZZOLI. Mr. Speaker, will the gentleman yield?

Mr. MURPHY of Illinois. I yield to the gentleman from Kentucky.

Mr. MAZZOLI. I thank the distinguished gentleman for yielding.

Mr. Speaker, I rise in support of the conference report to accompany S. 1566, the Foreign Intelligence Surveillance Act of 1978.

This important, complex, and much needed piece of legislation was first proposed by the Ford administration and Attorney General Levi in 1975. It is strongly supported by the current administration.

Further, in the 95th Congress, four standing committees studied this bill. The House and Senate Judiciary Committees and the House and Senate Intelligence Committees each took testimony on this bill.

Mr. MURPHY of Illinois. I thank the gentleman for his comments.

I am privileged to be a member of both the Intelligence and Judiciary Committees in the House, because of this I can vouch that their hearings considered all points of view and involved all interested parties.

Drawing on this detailed record, and the lengthy debate on the House floor the conference committee led by two distinguished gentlemen from Massachusetts, Mr. BOLAND and Senator KENNEDY produced a compromise product that is a very good bill.

This bill, embodied in the conference report now before the House, is a careful balance between our national security needs and the constitutional need to protect civil liberties. Also, this bill carefully protects the positions taken by both Houses in their work in committee and on the floor.

The major difference between the House and the Senate bills is that the House bill did not require a warrant for two especially sensitive activities while the Senate required a warrant in all cases. With only minor modifications this House provision was adopted by the conference committee.

The second major difference was the Senate's provision for a special court to hear applications for warrants. In a floor amendment, the House gave this authority to regular Federal district courts. Because Admiral Turner, the Director of Central Intelligence, informed us that it was an unacceptable security risk to involve so many judges in so many locations, the House conferees accepted a compromise on this point.

Under the terms of this compromise, seven regular Federal district judges from seven of the 11 judicial circuits will be designated to hear these warrant applications at a secured location to be designated by the intelligence agencies.

Thus, the security concerns of our intelligence agencies will be met without reestablishing the special count to which the House objected.

Beyond the careful work done by our conference committee there are good and sound substantive reasons for supporting this bill.

First and foremost, our intelligence agencies and agents want this bill very badly. Intelligence agents need a warrant or formal certification to protect them from the uncertainties which they now suffer.

FBI Director Webster, CIA Director Turner, and NSA Chief Inman asked the intelligence committee for a strong bill to protect their agents and to legitimize their work. They believe that this bill will help restore morale in their agencies by removing the cloud of civil and criminal penalties which now hangs over their agents.

This bill will free these men to vigorously proceed to check the KGB and other foreign intelligence agencies in this country.

Contrary to the assertion of its opponents, this conference report does allow electronic surveillance of foreign embassies and spies. In those cases where the surveillance cannot take place on the certification of the Attorney General—and such a certification covers most such cases—the conference report simply requires the issuance of an easily obtained warrant to authorize such an electronic surveillance.

Because of the obvious importance to our national security of such taps, the bill greatly reduced the materials which the judge has to review before granting such a warrant, and the bill allows such taps to be installed before a warrant is obtained if an emergency arises.

The bill protects the civil liberties of all Americans and their law-abiding foreign guests. All too often in the past, taps on foreign embassies were used as a pretext to gather political information on Americans including Members of Congress and Supreme Court Justices.

This bill will forever close the door on such want or disregard for our privacy. In short, this bill enacts into law these two important national policies:

First. Our intelligence agencies will play an important role in resisting our enemies' efforts to spy in this country.

Second. An American citizen's precious "right to be left alone" will be respected under the law.

Affirmation of these policies today will be a long step toward restoring public confidence in and the morale of our intelligence agencies.

I strongly urge the adoption of the conference report.

Mr. MCCLORY. Mr. Speaker, I yield 4 minutes to the gentleman from Virginia (Mr. BUTLER).

Mr. BUTLER. Mr. Speaker, I will just urge you to vote in opposition to the conference report. I would ask you to keep in mind that this very critical and sensitive issue has not received consideration by the Committee on the Judiciary. The conference got nothing for caving in on my amendment, even though it was a compromise quickly accepted on the House floor by the bills managers.

My premise, which was the basis for the amendment, dealt with the inherent constitutional power of the President of the United States, to engage in electronic foreign surveillance. I am satisfied from my reading of the Constitution and relevant cases that the President of the United States who has responsibility for our foreign policy, for our Armed Forces, and for our national security, has the inherent constitutional power, to engage in electronic foreign surveillance for security purposes.

What called my attention to the problems here was a colloquy between the gentleman from California (Mr. EDWARDS) and the gentleman from Wisconsin (Mr. KASTENMEIER).

Mr. EDWARDS said, "Is it clear that this bill eliminates the inherent power of the President to electronically surveil U.S. citizens without a warrant?"

Mr. KASTENMEIER replied, "In answer to the question of my colleague, I would say yes."

That was clearly the intention of this legislation when it left the House, and that is wrong. So, I offered an amendment which would affirmatively establish and say, "Yes, the President has that constitutional power," and after considerable debate we accepted—and I thought accepted on both sides—the series of words, "exclusive statutory means available." With my amendment the end result is that this act would constitute the exclusive statutory means and the constitutionally inherent power of the Executive would not be infringed upon or destroyed.

That amendment was quickly rejected, apparently, in the conference. I think that is basically wrong. This is what the conference report says:

> The conferees agree that the establishment by this act of exclusive means by which the President may conduct electronic surveillance, does not foreclose a different decision by the Supreme Court.

Now, that is really magnanimous. How arrogant can you get? We are not going to foreclose the Supreme Court from an act telling us what the Constitution is. But the Constitution is clear. We know what the law is. We know the President of the United States has this inherent power. We know it and the conferees know it. Every judicial circuit which has considered the issue have concluded that the President does in fact have this power.

The judicial warrant approach in the bill is premised on the proposition that the fourth amendment to the Constitution presumptively requires a warrant for every search. The underlying reasoning for this assertion is the Supreme Court's holding in the Keith case, where they ruled that a warrant is required for electronic surveillance employed for domestic security purposes. However, the warrant requirement in the Keith case was limited to domestic security cases, as the courts made it clear that they were in no way addressing the issues involved in foreign intelligence electronic surveillance.

Not only is there no existing case authority for vesting the Federal courts with jurisdiction to authorize or refuse to authorize foreign intelligence gathering activities as proposed in the conference substitute, but the U.S. Supreme Court has explicitly rejected such authority in *Chicago & Southern Air Lines Inc.* v. *Waterman Steamship Corp.*, 333 U.S. 103, 111 (1948) holding:

. . . It would be intolerable that courts without the relevant information, should review and perhaps nullify actions of the Executive taken on information properly held secret. Nor can courts sit in camera in order to be taken into executive confidences. But even if courts could require full disclosure, the very nature of executive decisions as to foreign policy is political, not judicial. Such decisions are wholly confided by our Constitution to the political departments of the government, Executive and Legislative. They are delicate, complex, and involve large elements of prophecy. They are and should be undertaken only by those directly responsible to the people whose welfare they advance or imperil. They are decisions of a kind for which the Judiciary has neither aptitude, facilities nor responsibility and which has long been held to belong in the domain of political power not subject to judicial intrusion or inquiry.

Even the most recent espionage case *United States* v. *Humphrey and Troung*, (Crim. No. 78–25–A, E.D. Va., May 19, 1978), stated:

It is not at all certain that a judicial officer, even an extremely well-informed one, would be in a position to evaluate the threat posed by certain actions undertaken on behalf of or in collaboration with a foreign state. . . . The Court is persuaded that an initial warrant requirement (for foreign intelligence electronic surveillance) would frustrate the President's ability to conduct foreign affairs in a manner that best protects the security of our Government.

What we have done, we have said to the President of the United States:

You may have this power—under the Constitution, but you are going to exercise it at your peril. If you think a situation is going to ever arise where you think it is important to exercise this inherent constitutional power, you go ahead and do it, but you are taking a big chance because you are violating this statute.

That is not the way it should be. The President of the United States has inherent powers. We should recognize those inherent constitutional powers and not put him in a position where he exercises them at his peril. That is what this bill does. I think it hampers and hamstrings unnecessarily the intelligence community charged with the responsibility of national security.

I think it is a basically wrong and irresponsible stop to take. That is why I insisted on my amendment and I believe that is why it was accepted on the floor by the House managers of the bill. That is why I am deeply disappointed that the conferees rejected it so summarily and why I urge the Members, in the interests of national security, to vote against this conference report so that we can protect the inherent power of the President.

The SPEAKER pro tempore. The time of the gentleman from Virginia has expired.

Mr. McCLORY. Mr. Speaker, I yield 1 additional minute to the gentleman from Virginia.

Mr. Speaker, will the gentleman yield?

Mr. BUTLER. I yield to the gentleman from Illinois.

Mr. McCLORY. Mr. Speaker, I might say that following our action here in the House and following the acceptance of the word "statutory," I had an informal conversation with the Attorney General, who told me that he was very pleased that the House had inserted the word "statutory" in the language of the bill, because he wanted to be sure that the President's constitutional authority was not diluted. I might say that at this very time the Attorney General of the United States is asserting that position in the Humphrey-Troung case, and in his statement to me and in the spy case he is prosecuting, he is asking us not to deny that authority, which is precisely what the Senate wants to do.

And for us to deny that authority—which is precisely what the Senate wants us to do and which is precisely what we are doing if we eliminate the word "statutory"—is to go against the Attorney General and against the position he has taken and is a position entirely inconsistent with the position agreed upon in this body when we passed the bill.

I thank the gentleman.

Mr. BUTLER. I thank the gentleman.

As a matter of fact, the Attorney General of the United States essentially took the some position when he was a judge of the fifth circuit, as the gentleman may know.

Mr. MURPHY of Illinois. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania (Mr. ERTEL).

Mr. McCLORY. Mr. Speaker, I yield 1½ minutes to the gentleman from Pennsylvania (Mr. ERTEL).

Mr. ERTEL. Mr. Speaker, I thank the gentleman.

Mr. Speaker, I rise in opposition to the conference report and I do it advisedly because of the action of the conference committee in rejecting the amendment which was accepted by this body by a better than 2-to-1 margin here in a recorded vote. By 224 to 103 the House eliminated a special court requirement under this bill. Subsequently in the conference committee there was a proposal to try to diversify the court by allowing the 11 circuit chief judges to name district judges within their circuits to sit and approve warrants under this bill. This would give us geographic dispersion of the court. Certainly it would not interfere with the actual operation of the district courts throughout the Nation and would not set up a special court here in the District of Columbia. A special court here in Washington if penetrated by a foreign agency would expose our entire national intelligence operations. In addition by diversification of the court, we would not have judge shopping and we would not have the security risk of concentrating all our eggs in one basket. Furthermore it would not disrupt the normal court functions.

The House Intelligence Committee would not accept that provision although it appeared to me that the Senate, if I can recall exactly what Senator KENNEDY said, stated that it did not sound like an unreasonable proposal. Unfortunately the House conferees would not approve it. The objection was raised at one point that the proposal was subject to a point of order, but we cleared that up through the House Parliamentarian and the proposal was in order. However the House conferees rejected it and as a consequence, we came back today with a provision more onerous than in the House bill.

We now have a court consisting of seven men selected by the Chief Justice of the United States who is appointed for life. He does not get removed as does a circuit court chief judge who has to relinquish his position when he reaches the age of 70.

So in fact one Chief Justice of the United States selects the seven men who will sit on this court and he can, in fact, influence the foreign intelligence operation of this Nation throughout his lifetime, whether the Chief Justice be an Abe Fortas or a Warren Burger. He can appoint people who have his predisposition and we in this Nation will be encumbered with that predisposition throughout the Chief Justice's lifetime.

I think it is wrong. I think it is wrong also to consider that we will be selecting a judge possibly from California and telling him he has to come to Washington, D.C., and we do not know for how long he will have to stay and we do not know how long we will disrupt his court in California or his judicial position there. But he will have to come to Washington, D.C., and consider these wiretap cases regardless of the inconvenience. We may have to bring in a judge from Florida. It might be the very sad day for the judge to accept that assignment to the District of Columbia for an extended period. Do you think that is conducive to good government?

I think we have created a court which is inoperable. I would ask my colleagues to vote against the conference report and send it back, so it can be reconsidered.

Mr. McCLORY. Mr. Speaker, I yield 1 minute to gentleman from Texas (Mr. ECKHARDT).

Mr. ECKHARDT. Mr. Speaker, I ask unanimous consent that I may revise and extend my remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. ECKHARDT. Mr. Speaker, I can hardly say more than that in the time allotted to me, but I would like to say that this reminds me of the Court of

Star Chamber. The Encyclopedia Britannica says it stressed the royal authority by giving the King a speedy and effective legal process. However, the excesses of this court brought about its own extinction, but that was some 150 years later.

I might say also that this bill, as it came out of the conference, is worse than the original in the House before the Ertel amendment, because it does a very unprecedented thing in permitting an appeal by only the Government. The appeal to the appeals tribunal is only for the Government and the appeal from the appeals court to the Supreme Court is only in behalf of the Government.

If there is another precedent in which only the Government may appeal, and the appeal process is permitted, I should like to know it.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. MURPHY of Illinois. Mr. Speaker, I yield 2 minutes to the distinguished majority leader, the gentleman from Texas (Mr. WRIGHT).

Mr. WRIGHT. Mr. Speaker, I rise in support of the conference report on S. 1566.

As I stated when the bill passed the House in September, "Rarely in the years that I have spent in the Congress have I seen a bill which has brought together often disparate thoughts into one well crafted piece of legislation supported by practically all of the thinking elements of our society."

At that time, I noted who was urging that this bill pass. I mentioned President Carter, President Ford, civil liberties groups, and the chairmen of the Intelligence Committee, the Judiciary Committee, the Appropriations Committee, the Armed Services Committee, and the Budget Committee. I also mentioned the Directors of the Central Intelligence Agency, the National Security Agency, and the FBI.

That was on September 7. Since then we have had a conference with the Senate. The conference report is before you now. It is essentially the same bill that passed the House on September 7 and it is just as strongly supported by all of these distinguished people.

This bill represents a watershed in the history of relations between the Congress and the intelligence community. It has been nurtured through the legislative process with the active cooperation of—not in despite of—the intelligence agencies.

For the first time legislation will provide a stamp of legitimacy for some of our most important intelligence activities. Also, for the first time, legislation will assure our people that these activities are being conducted in a manner consistent with their basic rights. It is for these reasons that the intelligence agencies have asked for this bill, and why I urge you to clear this conference report and send it to the President.

We can no longer afford to let this Nation's intelligence efforts remain adrift in a sea of legal confusion and uncertainty. We can no longer afford to let our intelligence agents remain suspend on this thread of doubt. And we can no longer let the rights of our people depend on the ad hoc resolution of this confusion, uncertainty, and doubt.

The House should act now, and pass this bill.

Mr. McCLORY. Mr. Speaker, I yield myself the remainder of my time.

Mr. Speaker, this legislation has indeed brought together all of the 2,400 former intelligence officers, all of those who know the intelligence business best, and they are all in opposition to this legislation and to the conference report. I am referring to Gen. Richard Stillwell, who is the head of that organization. I am also talking about Ray Cline, who has a distinguished record as a former deputy head of the CIA, I am talking about William Colby, the former Director of the CIA, who favors limiting the judicial warrant requirement to U.S. persons. All of those who know the intelligence business best, are against this legislation. They recognize the great danger to the entire intelligence community and to our national security through the enactment of this legislation.

So, Mr. Speaker, I implore the Members to reject this conference report, to vote no. Then in the next Congress when we have an opportunity to establish charter legislation for the CIA and the other intelligence agencies, we can translate the existing guidelines covering foreign intelligence electronic surveillance into statutory form—and include that subject in the charter legislation.

Mr. Speaker, I hope the House will reject the conference report.

Mr. MURPHY of Illinois. Mr. Speaker, may I inquire how much time I have remaining?

The SPEAKER pro tempore. The gentleman from Illinois has 3 minutes remaining.

Mr. MURPHY of Illinois. Mr. Speaker, I yield myself the balance of my time.

In summing up, Mr. Speaker, let me say that there are former Army officers who still think that the cavalry is the only way to fight a war. There are some former naval officers who still think the battleship and the cruiser are the way to fight a war. But today intelligence gathering is conducted in a very scientific manner. As the gentleman from Illinois (Mr. McCLORY) knows quite well, it is a very scientific operation.

The officers who are in charge of the operation of this scientific technology and intelligence gathering, such as Adm. Stansfield Turner, head of the CIA, and I just read his letter a few minutes ago, want this bill. They include in their number Admiral Inman, the head of the National Security Agency that is most involved in the scientific aspects of our our intelligence-gathering efforts.

He wants this bill and wants it in the form as adopted by the Senate and the House conferees. The Director of the FBI, Judge Webster, who is in charge of our counterintelligence efforts—in other words, policing the activities of foreign spies on our shores—wants this legislation.

Therefore, to say that the former intelligence officers do not favor this legislation is like talking about antiquity. This is a new field of intelligence we are talking about today, and the gentleman who have the responsibility to operate in it all want S. 1566.

Mr. BOLAND. Mr. Speaker, will the gentleman yield?

Mr. MURPHY of Illinois. I yield to the gentleman from Massachusetts.

Mr. BOLAND. Mr. Speaker, is it not a fact that those who are really in the collection business, who are now doing the collection of intelligence for all the agencies which the gentleman from Illinois describes, are the people who really want this bill? Do they not want it so they can be protected from court suits which are now developing in many areas across this land?

The gentleman from Illinois (Mr. McCLORY) makes the point that there are some 2,400 retired intelligence officers who do not want it. I am talking about the officers who are now presently on the payroll. They want it. They are the ones we ought to be concerned about.

Mr. Speaker, let me quote from a letter of yesterday from the President of the United States. It reads as follows:

> This legislation has been carefully developed over several years by Executive and Congressional leaders of both parties to protect both the strength of our Nation's intelligence agencies and the privacy rights of our citizens.

Mr. Speaker, that is the whole thrust of this proposal, the whole thrust of this legislation.

Mr. Speaker, I hope the Members of this House will accept the conference report.

Mr. MURPHY of Illinois. Mr. Speaker, I thank the gentleman from Massachusetts (Mr. BOLAND).

The SPEAKER pro tempore. Without objection, the previous question is ordered on the conference report.

There was no objection.

The SPEAKER pro tempore. The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. McCLORY. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 226, nays 176, not voting 28, as follows:

On this vote:

Mr. White for, with Mr. Stratton against.

Mr. Krueger for, with Mr. Chappell against.

Mrs. Burke of California for, with Mr. Crane against.

Mr. Rahall for, with Mr. Skubitz against.

Mr. Ammerman for, with Mr. Rudd against.

Until further notice:

Mr. Alexander with Mr. Badham.

Mr. Shipley with Mr. Cochran of Mississippi.

Mr. Teague with Mr. Hillis.

Mr. Charles H. Wilson of California with Mr. Hollenbeck.

Mr. Gonzalez with Mr. Quie.

Mr. Conyers with Mr. Sarasin.

Mr. Miller of Califoria with Mr. Harrington.

Mr. Moss with Mr. Diggs.

Mr. Risenhoover with Mrs. Pettis.

Messrs. LENT, SEBELIUS, McDADE, FOLEY, and STARK changed their vote from "yea" to "nay."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. KASTENMEIER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the conference report on the Senate bill S. 1566, just agreed to.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

CONFERENCE REPORT ON H.R. 5263, ENERGY PRODUCTION AND CONSERVATION TAX INCENTIVE ACT

Mr. ULLMAN submitted the following conference report and statement on the bill (H.R. 5263) to suspend until the close of June 30, 1980, the duty on certain bicycle parts:

CONFERENCE REPORT (H. REPT. No. 95-1773)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 5263) to suspend until the close of June 30, 1980, the duty on certain bicycle parts, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate to the text of the bill and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

SECTION 1. SHORT TITLE; ETC.

(a) SHORT TITLE.—This Act may be cited as the "Energy Tax Act of 1978".

(b) AMENDMENT OF 1954 CODE.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

(c) TABLE OF CONTENTS.—

Sec. 1. Short title; etc.

TITLE I—RESIDENTIAL ENERGY CREDIT

Sec. 101. Residential energy credit.

TITLE II—TRANSPORTATION

PART I—GAS GUZZLER TAX

Sec. 201. Gas guzzler tax.

PART II—MOTOR FUELS

Sec. 221. Exemption from motor fuels excise taxes for certain alcohol fuels.

Sec. 222. Denial of credit or refund for nonbusiness nonhighway use of gasoline, special motor fuels, and lubricating oil.

PART III—PROVISIONS RELATED TO BUSES

Sec. 231. Removal of excise tax on buses.

Sec. 232. Removal of excise tax on bus parts.

Sec. 233. Removal of excise tax on fuel, oil, and tires used in connection with intercity, local, and school buses.

PART IV—INCENTIVES FOR VAN POOLING

Sec. 241. Full investment credit for certain commuter vehicles.

Sec. 242. Exclusion from gross income of value of qualified transportation provided by employer.

TITLE III—CHANGES IN BUSINESS INVESTMENT CREDIT TO ENCOURAGE CONSERVATION OF, OR CONVERSION FROM, OIL AND GAS OR TO ENCOURAGE NEW ENERGY TECHNOLOGY

Sec. 301. Changes in business investment credit.

TITLE IV—MISCELLANEOUS PROVISIONS

Sec. 401. Treatment of intangible drilling costs for purposes of the minimum tax.

Sec. 402. Option to deduct intangible drilling costs in the case of geothermal deposits.

Sec. 403. Depletion for geothermal deposits and natural gas from geopressurized brine.

Sec. 404. Rerefined lubricating oil.

TITLE I—RESIDENTIAL ENERGY CREDIT

SEC. 101. RESIDENTIAL ENERGY CREDIT.

(a) GENERAL RULE.—Subpart A of part IV of subchapter A of chapter 1 (relating to credits allowable) is amended by inserting after section 44B the following new section:

"SEC. 44C. RESIDENTIAL ENERGY CREDIT.

"(a) GENERAL RULE.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of—

"(1) the qualified energy conservation expenditures, plus

"(2) the qualified renewable energy source expenditures.

"(b) QUALIFIED EXPENDITURES.—For purposes of subsection (a)—

"(1) ENERGY CONSERVATION.—In the case of any dwelling unit, the qualified energy conservation expenditures are 15 percent of so much of the energy conservation expenditures made by the taxpayer during the taxable year with respect to such unit as does not exceed $2,000.

"(2) RENEWABLE ENERGY SOURCE.—In the case of any dwelling unit, the qualified renewable energy source expenditures are the following percentages of the renewable en-

ergy source expenditures made by the taxpayer during the taxable year with respect to such unit:

"(A) 30 percent of so much of such expenditures as does not exceed $2,000, plus

"(B) 20 percent of so much of such expenditures as exceeds $2,000 but does not exceed $10,000.

"(39) PRIOR EXPENDITURES BY TAXPAYER ON SAME RESIDENCE TAKEN INTO ACCOUNT.—If for any prior year a credit was allowed to the taxpayer under this section with respect to any dwelling unit by reason of energy conservation expenditures or renewable energy source expenditures, paragraph (1) or (2) (whichever is appropriate) shall be applied for the taxable year with respect to such dwelling unit by reducing each dollar amount contained in such paragraph by the prior year expenditures taken into account under such paragraph.

"(4) MINIMUM DOLLAR AMOUNT.—No credit shall be allowed under this section with respect to any return for any taxable year if the amount which would (but for this paragraph) be allowable with respect to such return is less than $10.

"(5) APPLICATION WITH OTHER CREDITS.—The credit allowed by subsection (a) shall not exceed the tax imposed by this chapter for the taxable year, reduced by the sum of the credits allowable under a section of this subpart having a lower number or letter designation than this section, other than credits allowable by sections 31, 39, and 43.

"(6) CARRYOVER OF UNUSED CREDIT.—

"(A) IN GENERAL.—If the credit allowable under subsection (a) for any taxable year exceeds the limitation imposed by paragraph (5) for such taxable year, such excess shall be carried to the succeeding taxable year and added to the credit allowable under subsection (a) for such succeeding taxable year.

"(B) NO CARRYOVER TO TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1987.—No amount may be carried under subparagraph (A) to any taxable year beginning after December 31, 1987.

"(c) DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

"(1) ENERGY CONSERVATION EXPENDITURES.—The term 'energy conservation expenditure' means an expenditure made on or after April 20, 1977, by the taxpayer for insulation or any other energy-conserving component (or for the original installation of such insulation or other component) installed in or on a dwelling unit—

"(A) which is located in the United States,

"(B) which is used by the taxpayer as his principal residence, and

"(C) the construction of which was substantially completed before April 20, 1977.

"(2) RENEWABLE ENERGY SOURCE EXPENDITURE.—

"(A) IN GENERAL.—The term 'renewable energy source expenditure' means an expenditure made on or after April 20, 1977, by the taxpayer for renewable energy source property installed in connection with a dwelling unit—

"(i) which is located in the United States, and

"(ii) which is used by the taxpayer as his principal residence.

"(B) CERTAIN LABOR COSTS INCLUDED.—The term 'renewable energy source expenditure' includes expenditures for labor costs properly allocable to the onsite preparation, assembly, or original installation of renewable energy source property.

"(C) SWIMMING POOL, ETC., USED AS STORAGE MEDIUM.—The term 'renewable energy source expenditure' does not include any expenditure properly allocable to a swimming pool used as an energy storage medium or to any other energy storage medium which has a primary function other than the function of such storage.

"(3) INSULATION.—The term 'insulation' means any item—

"(A) which is specifically and primarily designed to reduce when installed in or on a dwelling (or water heater) the heat loss or gain of such dwelling (or water heater),

"(B) the original use of which begins with the taxpayer,

"(C) which can reasonably be expected to remain in operation for at least 3 years, and

"(D) which meets the performance and quality standards (if any) which—

"(i) have been prescribed by the Secretary by regulations, and

"(ii) are in effect at the time of the acquisition of the item.

"(4) OTHER ENERGY-CONSERVING COMPONENT.—The term 'other energy-conserving component' means any item (other than insulation)—

"(A) which is—

"(i) a furnace replacement burner designed to achieve a reduction in the amount of fuel consumed as a result of increased combustion efficiency,

"(ii) a device for modifying flue openings designed to increase the efficiency of operation of the heating system,

"(iii) an electrical or mechanical furnace ignition system which replaces a gas pilot light,

"(iv) a storm or thermal window or door for the exterior of the dwelling,

"(v) an automatic energy-saving setback thermostat,

"(vi) caulking or weatherstripping of an exterior door or window,

"(vii) a meter which displays the cost of energy usage, or

"(viii) an item of the kind which the Secretary specifies by regulations as increasing the energy efficiency of the dwelling,

"(B) the original use of which begins with the taxpayer,

"(C) which can reasonably be expected to remain in operation for at least 3 years, and

"(D) which meets the performance and quality standards (if any) which—

"(i) have been prescribed by the Secretary by regulations, and

"(ii) are in effect at the time of the acquisition of the item.

"(5) RENEWABLE ENERGY SOURCE PROPERTY.—The term 'renewable energy source property' means property—

"(A) which, when installed in connection with a dwelling, transmits or uses—

"(i) solar energy, energy derived from geothermal deposits (as defined in section 613(e)(3)), or any other form of renewable energy which the Secretary specifies by regulations, for the purpose of heating or cooling such dwelling or providing hot water for use within such dwelling, or

"(ii) wind energy for nonbusiness residential purposes,

"(B) the original use of which begins with the taxpayer,

"(C) which can reasonably be expected to remain in operation for at least 5 years, and

"(D) which meets the performance and quality standards (if any) which—

"(i) have been prescribed by the Secretary by regulations, and

"(ii) are in effect at the time of the acquisition of the property.

"(6) REGULATIONS.—

"(A) CRITERIA; CERTIFICATION PROCEDURES.—The Secretary shall by regulations—

"(i) establish the criteria which are to be used in (I) prescribing performance and quality standards under paragraphs (3), (4), and (5), or (II) specifying any item under paragraph (4)(A)(viii) or any form of renewable energy under paragraph (5)(A)(i), and

"(ii) establish a procedure under which a manufacturer of an item may request the Secretary to certify that the item will be treated, for purposes of this section, as insulation, an energy-conserving component, or renewable energy source property.

"(B) CONSULTATION.—Performance and quality standards regulations and other regulations shall be prescribed by the Secretary under paragraphs (3), (4), and (5) and under this paragraph only after consultation with the Secretary of Energy, the Secretary of Housing and Urban Development, and other appropriate Federal officers.

"(7) WHEN EXPENDITURES MADE; AMOUNT OF EXPENDITURES.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), an expenditure with respect to an item shall be treated as made when original installation of the item is completed.

"(B) RENEWABLE ENERGY SOURCE EXPENDITURES.—In the case of renewable energy source expenditures in connection with the construction or reconstruction of a dwelling, such expenditures shall be treated as made when the original use of the constructed or reconstructed dwelling by the taxpayer begins.

"(C) AMOUNT.—The amount of any expenditure shall be the cost thereof.

"(D) ALLOCATION IN CERTAIN CASES.—If less than 80 percent of the use of an item is for nonbusiness residential purposes, only that portion of the expenditures for such item which is properly allocable to use for nonbusiness residential purposes shall be taken into account. For purposes of this subparagraph, use for a swimming pool shall be treated as use which is not for residential purposes.

"(8) PRINCIPAL RESIDENCE.—The determination of whether or not a dwelling unit is a taxpayer's principal residence shall be made under principles similar to those applicable to section 1034, except that—

"(A) no ownership requirement shall be imposed, and

"(B) the period for which a dwelling is treated as the principal residence of the taxpayer shall include the 30-day period ending on the first day on which it would (but for this subparagraph) be treated as his principal residence.

"(d) SPECIAL RULES.—For purposes of this section—

"(1) DOLLAR AMOUNTS IN CASE OF JOINT OCCUPANCY.—In the case of any dwelling unit which is jointly occupied and used during any calendar year as a principal residence by 2 or more individuals—

"(A) the amount of the credit allowable under subsection (a) by reason of energy conservation expenditures or by reason of renewable energy source expenditures (as the case may be) made during such calendar year by any of such individuals with respect to such dwelling unit shall be determined by treating all of such individuals as one taxpayer whose taxable year is such calendar year; and

"(B) there shall be allowable with respect to such expenditures to each of such individuals a credit under subsection (a) for the taxable year in which such calendar year ends in an amount which bears the same ratio to the amount determined under subparagraph (A) as the amount of such expenditures made by such individual during such calendar year bears to the aggregate of expenditures made by all of such individuals during such calendar year.

"(2) TENANT-STOCKHOLDER IN COOPERATIVE HOUSING CORPORATION.—In the case of an individual who is a tenant-stockholder (as defined in section 216) in a cooperative housing corporation (as defined in such section), such individual shall be treated as having made his tenant-stockholder's proportionate share (as defined in section 216(b)(3)) of any expenditures of such corporation.

"(3) CONDOMINIUMS.—

"(A) IN GENERAL.—In the case of an individual who is a member of a condominium management association with respect to a condominium which he owns, such individual shall be treated as having made his pro-

portionate share of any expenditures of such association.

"(B) CONDOMINIUM MANAGEMENT ASSOCIATION.—For purposes of this paragraph, the term 'condominium management association' means an organization which meets the requirements of paragraph (1) of section 528(c) (other than subparagraph (E) thereof) with respect to a condominium project substantially all of the units of which are used as residences.

"(4) 1977 EXPENDITURES ALLOWED FOR 1978.—

"(A) NO CREDIT FOR TAXABLE YEARS BEGINNING BEFORE 1978.—No credit shall be allowed under this section for any taxable year beginning before January 1, 1978.

"(B) 1977 EXPENDITURES ALLOWED FOR 1978.—In the case of the taxpayer's first taxable year beginning after December 31, 1977, this section shall be applied by taking into account the period beginning April 20, 1977, and ending on the last day of such first taxable year.

"(e) BASIS ADJUSTMENTS.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so allowed.

"(f) TERMINATION.—This section shall not apply to expenditures made after December 31, 1985."

(b) TECHNICAL AND CLERICAL AMENDMENTS.—

(1) The table of sections for subpart A of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 44B the following new item:

"SEC. 44C. Residential energy credit."

(2) Subsection (c) of section 56 (defining regular tax deduction) is amended by striking out "credits allowable under—" and all that follows and inserting in lieu thereof "credits allowable under subpart A of part IV other than under sections 31, 39, and 43."

(3) Subsection (a) of section 1016 (relating to adjustments to basis) is amended by inserting after paragraph (20) the following new paragraph:

"(21) to the extent provided in section 44C(e), in the case of property with respect to which a credit has been allowed under section 44C;".

(4) Subsection (b) of section 6096 (relating to designation of income tax payment to Presidential Election Campaign Fund) is amended by striking out "and 44B" and inserting in lieu thereof "44B, and 44C".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending on or after April 20, 1977.

TITLE II—TRANSPORTATION

PART 1—GAS GUZZLER TAX

SEC. 201. GAS GUZZLER TAX.

(a) GENERAL RULE.—Part I of subchapter A of chapter 32 (relating to motor vehicle excise taxes) is amended by adding at the end thereof the following new section:

"SEC. 4064. GAS GUZZLER TAX.

"(a) IMPOSITION OF TAX.—There is hereby imposed on the sale by the manufacturer of each automobile a tax determined in accordance with the following tables:

"(1) In the case of a 1980 model year automobile:

"If the fuel economy of the model type in which the automobile this fall is:	The tax is:
At least 15	0
At least 14 but less than 15	$200
At least 13 but less than 14	300
Less than 13	550

"(2) In the case of a 1981 model year automobile:

"If the fuel economy of the model type in which the automobile this fall is:	The tax is:
At least 17	0
At least 16 but less than 17	$200
At least 15 but less than 16	350
At least 14 but less than 15	450
At least 13 but less than 14	550
Less than 13	650

"(3) In the case of a 1982 model year automobile:

"If the fuel economy of the model type in which the automobile falls is:	The tax is:
At least 18.5	0
At least 17.5 but less than 18.5	$200
At least 16.5 but less than 17.5	350
At least 15.5 but less than 16.5	450
At least 14.5 but less than 15.5	600
At least 13.5 but less than 14.5	750
At least 12.5 but less than 13.5	950
Less than 12.5	1,200

"(4) In the case of a 1983 model year automobile:

"If the fuel economy of the model type in which the automobile falls is:	The tax is:
At least 19	0
At least 18 but less than 19	$350
At least 17 but less than 18	500
At least 16 but less than 17	650
At least 15 but less than 16	800
At least 14 but less than 15	1,000
At least 13 but less than 14	1,250
Less than 13	1,550

"(5) In the case of a 1984 model year automobile:

"If the fuel economy of the model type in which the automobile falls is:	The tax is:
At least 19.5	0
At least 18.5 but less than 19.5	$450
At least 17.5 but less than 18.5	600
At least 16.5 but less than 17.5	750
At least 15.5 but less than 16.5	950
At least 14.5 but less than 15.5	1,150
At least 13.5 but less than 14.5	1,450
At least 12.5 but less than 13.5	1,750
Less than 12.5	2,150

"(6) In the case of a 1985 model year automobile:

"If the fuel economy of the model type in which the automobile falls is:	The Tax is:
At least 21	0
At least 20 but less than 21	$500
At least 19 but less than 20	600
At least 18 but less than 19	800
At least 17 but less than 18	1,000
At least 16 but less than 17	1,200
At least 15 but less than 16	1,500
At least 14 but less than 15	1,800
At least 13 but less than 14	2,000
Less than 13	2,650

"(7) In the case of a 1986 or later model year automobile:

"If the fuel economy of the model type in which the automobile falls is:	The Tax is:
At least 22.5	0
At least 21.5 but less than 22.5	$500
At least 20.5 but less than 21.5	650
At least 19.5 but less than 20.5	850
At least 18.5 but less than 19.5	1,050
At least 17.5 but less than 18.5	1,300
At least 16.5 but less than 17.5	1,500
At least 15.5 but less than 16.5	1,850
At least 14.5 but less than 15.5	2,250
At least 13.5 but less than 14.5	2,700
At least 12.5 but less than 13.5	3,200
Less than 12.5	3,850

"(b) DEFINITIONS.—For purposes of this section—

"(1) AUTOMOBILE.—

"(A) IN GENERAL.—The term 'automobile' means any 4-wheeled vehicle propelled by fuel—

"(i) which is manufactured primarily for use on public streets, roads, and highways (except any vehicle operated exclusively on a rail or rails), and

"(ii) which is rated at 6,000 pounds gross vehicle weight or less.

"(B) EXCEPTION FOR CERTAIN VEHICLES.—The term 'automobile' does not include any vehicle which is treated as a nonpassenger automobile under the rules which were prescribed by the Secretary of Transportation for purposes of section 501 of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2001) and which were in effect on the date of the enactment of this section.

"(C) EXCEPTION FOR EMERGENCY VEHICLES.—The term 'automobile' does not include any vehicle sold for use and used—

"(i) as an ambulance or combination ambulance-hearse,

"(ii) by the United States or by a State or local government for police or other law enforcement purposes, or

"(iii) for other emergency uses prescribed by the Secretary by regulations.

"(2) FUEL ECONOMY.—The term 'fuel economy' means the average number of miles traveled by an automobile per gallon of gasoline (or equivalent amount of other fuel) consumer, as determined by the EPA Administrator in accordance with procedures established under subsection (c).

"(3) MODEL TYPE.—The term 'model type' means a particular class of automobile as determined by regulation by the EPA Administrator.

"(4) MODEL YEAR.—The term 'model year,' with reference to any specific calendar year, means a manufacturer's annual production (as determined by the EPA Administrator) which includes January 1 of such calendar year. If a manufacturer has no annual production period, the term 'model year' means the calendar year.

"(5) MANUFACTURER.—The term 'manufacturer' includes a producer or importer.

"(6) EPA ADMINISTRATOR.—The term 'EPA Administrator' means the Administrator of the Environmental Protection Agency.

"(7) FUEL.—The term 'fuel' means gasoline and diesel fuel. The Secretary (after consultation with the Secretary of Transportation) may, by regulation, include any product of petroleum or natural gas within the meaning of such term if he determines that such inclusion is consistent with the need of the Nation to conserve energy.

"(c) DETERMINATION OF FUEL ECONOMY.—For purposes of this section—

"(1) IN GENERAL.—Fuel economy for any model type shall be measured in accordance with testing and calculation procedures established by the EPA Administrator by regulation. Procedures so established shall be the procedures utilized by the EPA Administrator for model year 1975 (weighted 55 percent urban cycle, and 45 percent highway cycle), or procedures which yield comparable results. Procedures under this subsection, to the extent practicable, shall require that fuel economy tests be conducted in conjunction with emissions tests conducted under section 206 of the Clean Air Act. The EPA Ad-

ministrator shall report any measurements of fuel economy to the Secretary.

"(2) SPECIAL RULE FOR FUELS OTHER THAN GASOLINE.—The EPA Administrator shall by regulation determine that quantity of any other fuel which is the equivalent of one gallon of gasoline.

"(3) TIME BY WHICH REGULATIONS MUST BE ISSUED.—Testing and calculation procedures applicable to a model year, and any amendment to such procedures (other than a technical or clerical amendment), shall be promulgated not less than 12 months before the model year to which such procedures apply.

"(d) SPECIAL RULES FOR SMALL MANUFACTURERS.—

"(1) IN GENERAL.—If, on the application of a small manufacturer, the Secretary determines that it is not feasible for such manufacturer to meet the tax-free fuel economy level for the model year with respect to all automobiles produced by such manufacturer or with respect to a model type produced by such manufacturer, the Secretary may by regulations prescribe an alternate rate schedule for such model year for all automobiles produced by such manufacturer or for such model type, as the case may be. The alternate rate schedule shall be based on the maximum feasible fuel economy level which such manufacturer can meet for such model year with respect to all automobiles or with respect to such model type, as the case may be.

"(2) APPLICATION TO INCLUDE NECESSARY INFORMATION.—An application under this subsection for any model year shall contain such information as the Secretary may by regulations prescribe.

"(3) DETERMINATIONS TO BE MADE ONLY AFTER CONSULTATION.—Determinations under paragraph (1) shall be made by the Secretary only after consultation with the Secretary of Energy, the Secretary of Transportation, and other appropriate Federal officers.

"(4) SMALL MANUFACTURER DEFINED.—

"(A) IN GENERAL.—For purposes of this subsection, the term 'small manufacturer' means any manufacturer—

"(i) who manufactured (whether or not in the United States) fewer than 10,000 automobiles in the second model year preceding the model year for which the determination under paragraph (1) is being made, and

"(ii) who can reasonably be expected to manufacture (whether or not in the United States) fewer than 10,000 automobiles in the model year for which the determination under paragraph (1) is being made.

"(B) SPECIAL RULES.—For purposes of subparagraph (A)—

"(i) MANUFACTURER OF AUTOMOBILES PRODUCED ABROAD DETERMINED WITHOUT REGARD TO IMPORTATION.—The meaning of the term 'manufacturer' shall be determined without regard to subsection (b)(5).

"(ii) CONTROLLED GROUPS.—Persons who are members of the same controlled group of corporations shall be treated as one manufacturer. For purposes of the preceding sentence, the term 'controlled' group of corporations' has the meaning given to such term by section 1653(a); except that 'more than 50 percent' shall be substituted for 'at least 80 percent' each place it appears in section 1563(a)."

(b) REDUCTION IN BASIS OF AUTOMOBILE ON WHICH GAS GUZZLER TAX WAS IMPOSED.—Section 1016 (relating to adjustments to basis) is amended by redesignating subsection (b) as subsection (d) and by inserting after subsection (c) the following new subsection:

"(d) REDUCTION IN BASIS OF AUTOMOBILE ON WHICH GAS GUZZLER TAX WAS IMPOSED.—If—

"(1) the taxpayer acquires any automobile with respect to which a tax was imposed by section 4064, and

"(2) the use of such automobile by the taxpayer begins not more than 1 year after the date of the first sale for ultimate use of such automobile.

the basis of such automobile shall be reduced by the amount of the tax imposed by section 4064 with respect to such automobile. In the case of importation, if the date of entry or withdrawal from warehouse for consumption is later than the date of the first sale for ultimate use, such later date shall be substituted for the date of such first sale in the preceding sentence."

(c) DENIAL OF CERTAIN EXEMPTIONS AND REFUNDS.—

(1) TAX-FREE SALES.—Subsection (a) of section 4221 (relating to certain tax-free sales) is amended by adding at the end thereof the following new sentence: "Paragraphs (4) and (5) shall not apply to the tax imposed by section 4004."

(2) UNITED STATES AND POSSESSIONS.—Section 4293 (relating to exemption for United States and possessions) is amended by striking out "tax imposed by section 4121" and inserting in lieu thereof "taxes imposed by sections 4064 and 4121".

(3) DENIAL OF REFUNDS FOR CERTAIN USES.—Paragraph (2) of section 6416(b) (relating to tax payments considered overpayments in the case of specified uses and resales) is amended by adding at the end thereof the following new sentence:

"Subparagraphs (C) and (D) shall not apply in the case of any tax paid under section 4064."

(d) PAYMENT OF TAX IN CASE OF LEASED AUTOMOBILES.—Section 4217 (relating to leases) is amended by adding at the end thereof the following new subsection:

"(e) LEASES OF AUTOMOBILES SUBJECT TO GAS GUZZLER TAX.—

(1) IN GENERAL.—In the case of the lease of an automobile the sale of which by the manufacturer would be taxable under section 4064, the foregoing provisions of this section shall not apply, but, for purposes of this chapter—

"(A) the first lease of such automobile by the manufacturer shall be considered to be a sale, and

"(B) any lease of such automobile by the manufacturer after the first lease of such automobile shall not be considered to be a sale.

"(2) PAYMENT OF TAX.—In the case of a lease described in paragraph (1)(A)—

"(A) there shall be paid by the manufacturer on each lease payment that portion of the total gas guzzler tax which bears the same ratio to such total gas guzzler tax as such payment bears to the total amount to be paid under such lease,

"(B) if such lease is canceled, or the automobile is sold or otherwise disposed of, before the total gas guzzler tax is payable, there shall be paid by the manufacturer on such cancellation, sale, or disposition the difference between the tax imposed under subparagraph (A) on the lease payments and the total gas guzzler tax, and

"(C) if the automobile is sold or otherwise disposed of after the total gas guzzler tax is payable, no tax shall be imposed under section 4064 on such sale or disposition.

"(3) DEFINITIONS.—For purposes of this subsection—

"(A) MANUFACTURER.—The term 'manufacturer' includes a producer or importer.

"(B) TOTAL GAS GUZZLER TAX.—The term 'total gas guzzler tax' means the tax imposed by section 4064, computed at the rate in effect on the date of the first lease."

(e) AUTHORITY TO EXTEND REGISTRATION SYSTEM TO EXEMPTION OF EMERGENCY VEHICLES.—Subsection (d) of section 4222 (relating to registration in the case of certain other exemptions) is amended by inserting "4064(b)(1)(C)," after "4063(b),".

(f) CLERICAL AMENDMENT.—The table of sections for part I of subchapter A of chapter 32 is amended by adding at the end thereof the following new item:

"Sec. 4064. Gas guzzler tax."

(g) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to 1980 and later model year automobiles (as defined in section 4064(b) of the Internal Revenue Code of 1954).

PART II—MOTOR FUELS

SEC. 221. EXEMPTION FROM MOTOR FUELS EXCISE TAXES FOR CERTAIN ALCOHOL FUELS.

(a) GASOLINE MIXED WITH ALCOHOL.—

(1) IN GENERAL.—Section 4081 (relating to imposition of tax on gasoline) is amended by adding at the end thereof the following new subsection:

"(c) GASOLINE MIXED WITH ALCOHOL.—

"(1) IN GENERAL.—Under regulations prescribed by the Secretary, no tax shall be imposed by this section on the sale of any gasoline—

"(A) in a mixture with alcohol, if at least 10 percent of the mixture is alcohol, or

"(B) for use in producing a mixture at least 10 percent of which is alcohol.

"(2) LATER SEPARATION OF GASOLINE.—If any person separates the gasoline from a mixture of gasoline and alcohol on which tax was not imposed by reason of this subsection, such person shall be treated as the producer of such gasoline.

"(3) ALCOHOL DEFINED.—For purposes of this subsection, the term 'alcohol' includes methanol and ethanol but does not include alcohol produced from petroleum, natural gas, or coal."

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to sales after December 31, 1978, and before October 1, 1984.

(b) ALCOHOL MIXED WITH SPECIAL FUEL.—

(1) IN GENERAL.—Section 4041 (relating to imposition of tax on special fuels) is amended by adding at the end thereof the following new subsection:

"(k) FUELS CONTAINING ALCOHOL.—

"(1) IN GENERAL.—Under regulations prescribed by the Secretary, no tax shall be imposed by this section on the sale or use of any liquid fuel at least 10 percent of which consists of alcohol (as defined by section 4081(c)(3)).

"(2) LATER SEPARATION.—If any person separates the liquid fuel from a mixture of the liquid fuel and alcohol on which tax was not imposed by reason of this subsection, such separation shall be treated as a sale of the liquid fuel."

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to sales or use after December 31, 1978, and before October 1, 1984.

(c) REPORTS.—

(1) ANNUAL REPORT.—On April 2 of each year, beginning with April 1, 1980, and ending on April 1, 1984, the Secretary of Energy, in consultation with the Secretary of the Treasury and the Secretary of Transportation, shall submit to the Congress a report on the use of alcohol in fuel. The report shall include—

(A) a description of the firms engaged in the alcohol fuel industry,

(B) the amount of alcohol fuels sold in each State, and the amount of gasoline saved in each State by reason of the use of alcohol fuels,

(C) the revenue loss resulting from the exemptions from tax for alcohol fuels under sections 4041(k) and 4081(c) of the Internal Revenue Code of 1954, and

(D) the cost of production and the retail cost of alcohol fuels as compared to gasoline and special fuels before the imposition of any Federal excise taxes.

(2) REPORT.—The report submitted to the Congress on April 1, 1984, shall contain, in

addition to the information required under paragraph (1), an analysis of the effect on the alcohol fuel industry of the termination of the exemption from excise taxes provided under sections 4041(k) and 4081(c) of the Internal Revenue Code of 1954.

(d) EXPEDITION OF CERTAIN ETHANOL PRODUCTION APPLICATIONS.—The Secretary of the Treasury shall expedite, to the maximum extent possible, action on the application of any person with respect to the production of ethanol for use in producing gasoline described in section 4081(c) (or in producing liquid fuel described in section 4041(k) of the Internal Revenue Code of 1954. Within 6 months after the date of the enactment of this Act, the Secretary shall furnish to the Committee on Finance, United States Senate, and to the Committee on Ways and Means, United States House of Representatives, recommendations for legislation necessary to provide for changes in the provisions of chapter 51 of the Internal Revenue Code of 1954 to provide a simple, expeditious procedure for processing such applications and to simplify the regulation of such persons for purposes of such chapter consistent with adequate safeguards against the use of such applications to avoid or evade compliance with the provisions of such chapter relating to distilled spirits procured, dealt in, or used for other purposes.

SEC. 222. DENIAL OF CREDIT OF REFUND FOR NONBUSINESS NONHIGHWAY USE OF GASOLINE, SPECIAL MOTOR FUELS, AND LUBRICATING OIL.

(a) IN GENERAL.—

(1) GASOLINE.—

(A) So much of the first sentence of section 6421(a) (relating to nonhighway uses) as precedes "the Secretary" is amended to read as follows: "Except as provided in subsection (i), if gasoline is used in a qualified business use,".

(B) Subsection (d) of section 6421 (relating to definitions) is amended by adding at the end thereof the following new paragraph:

"(3) QUALIFIED BUSINESS USE.—

"(A) IN GENERAL.—The term 'qualific l business use' means any use by a person in a trade or business of such person or in an activity of such person described in section 212 (relating to production of income) otherwise than as a fuel in a highway vehicle—

"(i) which (at the time of such use), is registered, or is required to be registered, for highway use under the laws of any State or foreign country, or

"(ii) which, in the case of a highway vehicle owned by the United States, is used on the highway.

"(B) EXCEPTION FOR USE IN MOTORBOATS.—The term 'qualified business use' does not include any use in a motorboat.

"(C) Commercial fishing vessels.—For provisions exempting from tax gasoline, special motor fuels, and lubricating oil used for commercial fishing vessels, see—

"(i) subsections (a)(3) and (d)(3) of section 4221 (relating to certain tax-free sales),

"(ii) section 6416(b)(2)(B) (relating to refund or credit in case of certain uses), and

"(iii) section 4041(g)(1) (relating to exemptions from tax on special fuels)."

(2) SPECIAL MOTOR FUELS.—Subsection (b) of section 4041 (relating to special motor fuels) is amended by striking out the second and third sentences and inserting in lieu thereof the following:

"In the case of a liquid taxable under this subsection sold for use, or used, in a qualified business use, the tax imposed by paragraph (1) or by paragraph (2) shall be 2 cents a gallon. If a liquid on which tax was imposed by paragraph (1) at the rate of 2 cents a gallon by reason of the preceding sentence is used otherwise than in a qualified business use, a tax of 2 cents a gallon shall be imposed under the paragraph (2). For purposes of this subsection, the term 'qualified business use' has the meaning given to such term by section 6421(d)(3)."

(3) LUBRICATING OIL.—Subsection (a) section 6424 (relating to lubricating oil not used in highway motor vehicles) is amended by striking out "is used otherwise than in a highway motor vehicle" and inserting in lieu thereof "is used in a qualified business use (within the meaning of section 6421(d)(3))".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply with respect to uses after December 31, 1978.

PART III—PROVISIONS RELATED TO BUSES

SEC. 231. REMOVAL OF EXCISE ON BUSES

(a) GENERAL RULE.—Paragraph (6) of section 4063(a) (relating to exemption for local transit buses) is amended to read as follows:

"(6) BUSES.—The tax imposed under section 4061 (a) shall not apply in the case of any automobile bus chassis or automobile bus body."

(b) FLOOR STOCKS REFUNDS.—

(1) IN GENERAL.—Where, before the day after the date of the enactment of this Act, any tax-repealed article (as defined in subsection (e)) has been sold by the manufacturer, producer, or importer and on such day is held by a dealer and has not been used and is intended for sale, there shall be credited or refunded (without interest) to the manufacturer, producer, or importer an amount equal to the tax paid by such manufacturer, producer, or importer on his sale of the article, if—

(A) claim for such credit or refund is filed with the Secretary of the Treasury before the first day of the 10th calendar month beginning after the day after the date of the enactment of this Act based upon a request submitted to the manufacturer, producer, or importer before the first day of the 7th calendar month beginning after the day after the date of the enactment of this Act by the dealer who held the article in respect of which the credit or refund is claimed; and

(B) on or before the first day of such 10th calendar month reimbursement has been made to the dealer by the manufacturer, producer, or importer in an amount equal to the tax paid on the article or written consent has been obtained from the dealer to allowance of the credit or refund.

(2) LIMITATION ON ELIGIBILITY FOR CREDIT OR REFUND.—No manufacturer, producer, or importer shall be entitled to credit or refund under paragraph (1) unless he has in his possession such evidence of the inventories with respect to which the credit or refund is claimed as may be required by regulations prescribed by the Secretary of the Treasury under this subsection.

(3) OTHER LAWS APPLICABLE.—All provisions of law, including penalties, applicable with respect to the taxes imposed by section 4061(a) of the Internal Revenue Code of 1954 shall, insofar as applicable and not inconsistent with paragraphs (1) and (2) of this subsection, apply in respect of the credits and refunds provided for in paragraph (1) to the same extent as if the credits or refunds constituted overpayments of the tax.

(c) REFUNDS WITH RESPECT TO CERTAIN CONSUMER PURCHASES.—

(1) IN GENERAL.—Except as otherwise provided in paragraph (2), where on or after April 20, 1977, and on or before the date of the enactment of this Act, a tax-repealed article (as defined in subsection (e)) has been sold to an ultimate purchaser, there shall be credited or refunded (without interest) to the manufacturer, producer, or importer of such article an amount equal to the tax paid by such manufacturer, producer, or importer on his sale of the article.

(2) LIMITATION ON ELIGIBILITY FOR CREDIT OR REFUND.—No manufacturer, producer, or importer shall be entitled to a credit or refund under paragraph (1) with respect to an article unless—

(A) he has in his possession such evidence of the sale of the article to an ultimate purchaser, and of the reimbursement of the tax to such purchaser, as may be required by regulations prescribed by the Secretary of the Treasury under this subsection;

(B) claim for such credit or refund is filed with the Secretary of the Treasury before the first day of the 10th calendar month beginning after the day after the date of the enactment of this Act based upon information submitted to the manufacturer, producer, or importer before the first day of the 7th calendar month beginning after the day after the date of the enactment of this Act by the person who sold the article (in respect of which the credit or refund is claimed) to the ultimate purchaser; and

(C) on or before the first day of such 10th calendar month reimbursement has been made to the ultimate purchaser in an amount equal to the tax paid on the article.

(3) OTHER LAWS APPLICABLE.—All provisions of laws, including penalties, applicable with respect to the taxes imposed by section 4061(a) of such Code shall, insofar as applicable and not inconsistent with paragraph (1) or (2) of this subsection, apply with respect to the credits and refunds provided for in paragraph (1) to the same extent as if the credits or refunds constituted overpayments of the tax.

(d) CERTAIN USES BY MANUFACTURER, ETC.—Any tax paid by reason of section 4218(a) of such Code (relating to use by manufacturer or importer considered sale) on any tax-repealed article shall be deemed an overpayment of such tax if the tax was imposed on such article by reason of such section 4218(a) on or after April 20, 1977.

(e) DEFINITIONS.—For purposes of this section—

(1) The term "dealer" includes a wholesaler, jobber, distributor, or retailer.

(2) An article shall be considered as "held by a dealer" if title thereto has passed to such dealer (whether or not delivery to him has been made) and if, for purposes of consumption, title to such article or possession thereof has not at any time been transferred to any person other than a dealer.

(3) The term "tax-repealed article" means an article on which a tax was imposed by section 4061(a) of such Code (as in effect on the day before the date of the enactment of this Act) and which is exempted from such tax by paragraph (6) of section 4063(a) of such Code (as amended by subsection (a) of this section).

(f) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) The heading for paragraph (1) of section 6412(a) (relating to floor stocks refunds) is amended by striking out "AND BUSES".

(2) Subsection (d) of section 4222 (relating to registration in case of certain other exemptions) is amended by striking out "4063(a) (6) or (7)" and inserting in lieu thereof "4063(a)(7)".

(g) EFFECTIVE DATE.—

(1) The amendments made by subsections (a) and (f) shall apply with respect to articles sold after the date of the enactment of this Act.

(2) For purposes of paragraph (1), an article shall not be considered sold on or before the date of the enactment of this Act unless possession or right to possession passes to the purchaser on or before such date.

(3) In the case of—

(A) a lease,

(B) a contract for the sale of an article providing that the price shall be paid by installments and title to the article sold does not pass until a future date notwithstanding parial payment by installments,

(C) a conditional sale, or

(D) a chattel mortgage arrangement providing that the sale price shall be paid in installments,

entered into on or before the date of the enactment of this Act, payments made after such date with respect to the article leased or sold shall, for purposes of this subsection, be considered as payments made with respect to an article sold after such date, if the lessor or vendor establishes that the amount of payments payable after such date with respect to such article has been reduced by an amount equal to that portion of the tax applicable with respect to the lease or sale of such article which is due and payable after such date. If the lessor or vendor does not establish that the payments have been so reduced, they shall be treated as payments made in respect of an article sold on or before the date of the enactment of this Act.

SEC. 232. REMOVAL OF EXCISE TAX ON BUS PARTS.

(a) EXEMPT SALES.—Subsection (e) of section 4221 (relating to special rules for certain tax-free sales) is amended by adding at the end thereof the following new paragraph:

"(6) BUS PARTS AND ACCESSORIES.—Under regulations prescribed by the Secretary, the tax imposed by section 4061(b) shall not apply to any part or accessory which is sold for use by the purchaser on or in connection with an automobile bus."

(b) REFUND FOR CERTAIN SALES OF BUS PARTS.—Subparagraph (I) of section 6416(b)(2) (relating to refund for specified uses and resales) is amended to read as follows:

"(I) in the case of any article taxable under section 4061(b), sold for use by the purchaser on or in connection with an automobile bus;".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to sales on or after the first day of the first calendar month beginning more than 10 days after the date of the enactment of this Act.

SEC. 233. REMOVAL OF EXCISE TAX ON FUEL, OIL, AND TIRES USED IN CONNECTION WITH INTERCITY, LOCAL, AND SCHOOL BUSES.

(a) REPAYMENT OF TAX ON GASOLINE AND OTHER MOTOR FUELS USED BY INTERCITY, LOCAL, OR SCHOOL BUSES.—

(1) GASOLINE.—Subsection (b) of section 6421 (relating to local transit systems) is amended to read as follows:

"(b) INTERCITY, LOCAL, OR BUSES.—

"(1) ALLOWANCE.—Except as provided in paragraph (2) and subsection (i), if gasoline is used in an automobile bus while engaged in—

"(A) furnishing (for compensation) passenger land transportation available to the general public, or

"(B) the transportation of students and employees of schools (as defined in the last sentence of section 4221(d)(7)(C)),

the Secretary shall pay (without interest) to the ultimate purchaser of such gasoline an amount equal to the product of the number of gallons of gasoline so used multiplied by the rate at which tax was imposed on such gasoline by section 4081.

"(2) LIMITATION IN CASE OF NONSCHEDULED INTERCITY OR LOCAL BUSES.—Paragraph (1)(A) shall not apply in respect of gasoline used in any automobile but while engaged in furnishing transportation which is not scheduled and not along regular routes unless the seating capacity of such bus is at least 20 adults (not including the driver)."

(2) OTHER FUELS.—Subsection (b) of section 6427 (relating to local transit systems) is amended to read as follows:

"(b) INTERCITY, LOCAL, OR SCHOOL BUSES.—

"(1) ALLOWANCE.—Except as provided in paragraph (2) and subsection (g), in any fuel on the sale of which tax was imposed by subsection (a) and (b) of section 4041 is used in an automobile bus while engaged in—

"(A) furnishing (for compensation) passenger land transportation available to the general public, or

"(B) the transportation of students and employees of schools (as defined in the last sentence of section 4221(d)(7)(C)),

the Secretary shall pay (without interest) to the ultimate purchaser of such fuel an amount equal to the product of the number of gallons of such fuel so used multiplied by the rate at which tax was imposed on such fuel by subsection (a) or (b) of section 4041.

"(2) LIMITATION IN CASE OF NONSCHEDULED INTERCITY OR LOCAL BUSES.—Paragraph (1)(A) shall not apply in respect of fuel used in any automobile bus while engaged in furnishing transportation which is not scheduled and not along regular routes unless the seating capacity of such bus is at least 20 adults (not including the driver)."

(3) TECHNICAL AMENDMENTS.—

(A) Subsection (d) of section 6421 is amended—

(i) by striking out paragraph (2), and

(ii) by redesignating paragraph (3) (as added by section 222(a)(1)(B)) as paragraph (2).

(B) The last sentence of section 4041(b) (as added by section 222(a)(2)) is amended by striking out "6421(d)(3)" and inserting in lieu thereof "6421(d)(2)".

(C) Subsection (c) of section 4483 is amended by inserting "(as in effect on the day before the date of the enactment of the Energy Tax Act of 1978)" after "section 6421(b)(2)".

(b) REPAYMENT OF TAX ON LUBRICATING OIL USED IN INTERCITY, LOCAL, OR SCHOOL BUSES.—

(1) IN GENERAL.—Subsection (a) of section 6424 (relating to lubricating oil not used in highway motor vehicles) is amended to read as follows:

"(a) PAYMENTS.—Except as provided in subsection (f), if lubricating oil (other than cutting oils, as defined in section 4092(b), and other than oil which has previously been used) is used—

"(1) in a qualified business use (as defined in section 6421(d)(2)), or

"(2) in a qualified bus (as defined in section 4221(d)(7)), the Secretary shall pay (without interest) to the ultimate purchaser of such lubricating oil an amount equal to 6 cents for each gallon of lubricating oil so used."

(2) TECHNICAL AND CONFORMING AMENDMENTS.—

(A) The section heading for section 6424 is amended by striking out "NOT USED IN HIGHWAY MOTOR VEHICLES" and inserting in lieu thereof "USED FOR CERTAIN NONTAXABLE PURPOSES".

(B) The table of sections for subchapter B of chapter 65 (relating to rules of special application) is amended by striking out "not used in highway motor vehicles" in the item relating to section 6424 and inserting in lieu thereof "used for certain nontaxable purposes".

(C) Paragraph (3) of section 39(a) (relating to certain uses of gasoline, special fue's, and lubricating oil) is amended by striking out "otherwise than in a highway motor vehicle" and inserting in lieu thereof "for certain nontaxable purposes".

(D) Sections 6504(9) and 6675(a) are each amended by striking out "not used in highway motor vehicles" and inserting in lieu thereof "used for certain nontaxable purposes".

(E) Paragraph (3) of section 209(f) of the Highway Revenue Act of 1956 is amended by striking out "lubricating oil not used in highway motor vehicles" and inserting in lieu thereof "lubricating oil used for certain nontaxable purposes".

(c) TIRES, TUBES, AND TREAD RUBBER.—

(1) IN GENERAL.—Paragraph (5) of section 4221(e) (relating to school buses) is amended to read as follows:

"(5) TIRES, TUBES, AND TREAD RUBBER USED ON INTERCITY, LOCAL, AND SCHOOL BUSES.—Under regulations prescribed by the Secretary—

"(A) the taxes imposed by paragraphs (1) and (3) of section 4071(a) shall not apply in the case of tires or inner tubes for tires sold for use by the purchaser on or in connection with a qualified bus, and

"(B) the tax imposed by paragraph (4) of section 4071(a) shall not apply in the case of tread rubber sold for use by the purchaser in the recapping or retreading of any tire to be used by the purchaser on or in connection with a qualified bus."

(2) QUALIFIED BUS DEFINED.—Subsection (d) of section 4221 (relating to definitions) is amended by adding at the end thereof the following new paragraph:

"(7) QUALIFIED BUS.—

"(A) IN GENERAL.—The term 'qualified bus' means—

"(i) an intercity or local bus, and

"(ii) a school bus.

"(B) INTERCITY OR LOCAL BUS.—The term 'intercity or local bus' means any automobile bus which is used predominantly in furnishing (for compensation) passenger land transportation available to the general public if—

"(i) such transportation is scheduled and along regular routes, or

"(ii) the seating capacity of such bus is at least 20 adults (not including the driver).

"(C) SCHOOL BUS.—The term 'school bus' means any automobile bus substantially all the use of which is in transporting students and employees of schools. For purposes of the preceding sentence, the term 'school' means an educational organization which normally maintains a regular faculty and curriculum and normally has a regularly enrolled body of pupils or students in attendance at the place where its educational activities are carried on."

(3) TECHNICAL AMENDMENT.—Paragraph (2) of section 6416(b) (relating to specified uses and resales) is amended by striking out the period at the end of subparagraph (K) and inserting in lieu thereof a semicolon and by inserting after subparagraph (K) the following new subparagraphs:

"(L) in the case of any tire or inner tube taxable under paragraph (1) or (3) of section 4071(a), sold to any person for use as described in section 4221(e)(5)(A); or

"(M) in the case of tread rubber taxable under paragraph (4) of section 4071(a), used in the recapping or retreading of a tire sold to any person for use on or in connection with a qualified bus (as defined in section 4221(d)(7))."

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect on the first day of the first calendar month which begins more than 10 days after the date of the enactment of this Act.

PART IV—INCENTIVES FOR VAN POOLING

SEC. 241. FULL INVESTMENT CREDIT FOR CERTAIN COMMUTER VEHICLES.

(a) IN GENERAL.—Subsection (c) of section 46 (relating to qualified investment) is amended by adding at the end thereof the following new paragraph:

"(6) SPECIAL RULE FOR COMMUTER HIGHWAY VEHICLES.—

"(A) IN GENERAL.—Notwithstanding paragraph (2), in the case of a commuter highway vehicle the useful life of which is 3 years or more, the applicable percentage for purposes of paragraph (1) shall be 100 percent.

"(B) DEFINITION OF COMMUTER HIGHWAY VEHICLE.—For purposes of subparagraph (A), the term 'commuter highway vehicle' means a highway vehicle—

"(i) the seating capacity of which is at least 8 adults (not including the driver),

"(ii) at least 80 percent of the mileage use

of which can reasonably be expected to be (I) for purposes of transporting the taxpayer's employees between their residences and their place of employment, and (II) on trips during which the number of employees transported for such purposes is at least one-half of the adult seating capacity of such vehicle (not including the driver),

"(iii) which is acquired by the taxpayer on or after the date of the enactment of the Energy Tax Act of 1978, and placed in service by the taxpayer before January 1, 1986, and

"(iv) with respect to which the taxpayer makes an election under this paragraph on his return for the taxable year in which such vehicle is placed in service."

(b) AMENDMENTS OF THE RECAPTURE RULES.—

(1) Subsection (a) of section 47 (relating to recapture in case of certain dispositions, etc., of section 38 property) is amended by redesignating paragraph (4) as paragraph (5) and by inserting after paragraph (3) the following new paragraph:

"(4) SPECIAL RULES FOR COMMUTER HIGHWAY VEHICLES.—

"(A) USEFUL LIFE.—For purposes of this subsection, 3 years shall be treated as the useful life which was taken into account in computing the credit under section 38 with respect to any commuter highway vehicle (as defined in section 46(c)(6)(B)).

"(B) CHANGE IN USE.—If less than 80 percent of the mileage use of any commuter highway vehicle by the taxpayer during that portion of any taxable year which is within the first 36 months of the operation of such vehicle by the taxpayer meets the requirements of section 46(c)(6)(B), then the tax under this chapter for such taxable year shall be increased by an amount equal to the aggregate decrease in the credits allowed under section 38 for all prior taxable years which would have resulted solely from treating such vehicle, for purposes of determining qualified investment, as not being a commuter highway vehicle. If the application of this subparagraph to any property is followed by the application of paragraph (1) to such property, proper adjustment shall be made in applying paragraph (1)."

(2) Paragraph (5) of section 47(a) (as redesignated by subparagraph (A)) is amended by striking out "paragraph (2)" and inserting in lieu thereof "paragraph (2) or (4)".

(3) Subparagraph (B) of section 47(a)(6) is amended by striking out "paragraph (4)" and inserting in lieu thereof "paragraph (5)".

SEC. 242. EXCLUSION FROM GROSS INCOME OF VALUE OF QUALIFIED TRANSPORTATION PROVIDED BY EMPLOYER.

(a) IN GENERAL.—Part III of subchapter B of chapter 1 (relating to items specifically excluded from gross income) is amended by redesignating section 124 as 125, and by inserting after section 123 the following new section:

"SEC. 124. QUALIFIED TRANSPORTATION PROVIDED BY EMPLOYER.

"(a) GENERAL RULE.—Gross income of an employee does not include the value of qualified transportation provided by the employer between the employee's residence and place of employment.

"(b) QUALIFIED TRANSPORTATION.—For purposes of this section, the term 'qualified transportation' means transportation in a commuter highway vehicle (as defined in section 46(c)(6)(B) but without regard to clause (iii) or (iv) thereof).

"(c) ADDITIONAL REQUIREMENTS.—Subsection (a) does not apply to the value of transportation provided by an employer unless—

"(1) such transportation is provided under a separate written plan of the employer which does not discriminate in favor of employees who are officers, shareholders, or highly compensated employees, and

"(2) the plan provides that the value of such transportation is provided in addition to (and not in lieu of) any compensation otherwise payable to the employee.

"(d) DEFINITIONS.—For purposes of this section—

"(1) PROVIDED BY THE EMPLOYER.—Transportation shall be considered to be provided by an employer if the transportation is furnished in a commuter highway vehicle (described in subsection (b)) operated by or for the employer.

"(2) EMPLOYEE.—The term 'employee' does not include an individual who is an employee (within the meaning of section 401(c)(1)).

"(e) EFFECTIVE DATE.—Subsection (a) applies with respect to qualified transportation provided in taxable years beginning after December 31, 1978, and before January 1, 1986".

(b) EFFECTIVE DATE.—Subsection (a) applies with respect to qualified transportation provided in taxable years beginning after December 31, 1978, and before January 1, 1986".

(b) CLERICAL AMENDMENT.—The table of sections for such part is amended by striking out the last item and inserting in lieu thereof the following:

"Sec. 124. Qualified transportation provided by employer.

"Sec. 125. Cross references to other Acts."

(c) TRANSITION RULE.—The plan requirements of section 124(c) of the Internal Revenue Code of 1954 shall be considered to be met with respect to transportation provided before July 1, 1979, if there is a plan meeting such requirements of the employer in effect on that date.

TITLE III—CHANGES IN BUSINESS INVESTMENT CREDIT TO ENCOURAGE CONSERVATION OF, OR CONVERSION FROM, OIL AND GAS OR TO ENCOURAGE NEW ENERGY TECHNOLOGY

SEC. 301. CHANGES IN BUSINESS INVESTMENT CREDIT.

(a) AMOUNT OF CREDIT; ALLOWANCE OF ENERGY PERCENTAGE.—

(1) IN GENERAL.—Paragraph (2) of section 46(a) (relating to amount of credit for current taxable year) is amended to read as follows:

"(2) AMOUNT OF CREDIT.—

"(A) IN GENERAL.—The amount of the credit determined under this paragraph for the taxable year shall be an amount equal to the sum of the following percentages of the qualified investment (as determined under subsections (c) and (d):

"(i) the regular percentage,

"(ii) in the case of energy property, the energy percentage, and

"(iii) the ESOP percentage.

"(B) REGULAR PERCENTAGE.—For purposes of this paragraph, the regular percentage is—

"(i) 10 percent with respect to the period beginning on January 21, 1975, and ending on December 31, 1980, or

"(ii) 7 percent with respect to the period beginning on January 1, 1981.

"(C) ENERGY PERCENTAGE.—For purposes of this paragraph, the energy percentage is—

"(i) 10 percent with respect to the period beginning on October 1, 1978, and ending on December 31, 1982, or

"(ii) zero with respect to any other period.

"(D) SPECIAL RULE FOR CERTAIN ENERGY PROPERTY.—For purposes of this paragraph, the regular percentage shall not apply to any energy property which, but for section 48(l)(1), would not be section 38 property.

"(E) ESOP PERCENTAGE.—For purposes of this paragraph, the ESOP percentage is—

"(i) with respect to the period beginning on January 21, 1975, and ending on December 31, 1980, 1 percent, and

"(ii) with respect to the period beginning on January 1, 1977, and ending on December 31, 1980, an additional percentage (not in excess of ½ of 1 percent) which results in an amount equal to the amount determined under section 301(e) of the Tax Reduction Act of 1975.

This subparagraph shall apply to a corporation only if it meets the requirements of section 301(d) of the Tax Reduction Act of 1975 and only if it elects (at such time, in such form and in such manner as the Secretary prescribes) to have this subpargraph apply."

(2) CONFORMING AMENDMENTS.—

(A) Subparagraph (A) of section 46(c)(3) (relating to public utility property) is amended to read as follows:

"(A) For the period beginning on January 1, 1981, in the case of any property which is public utility property, the amount of the qualified investment shall be 4/7 of the amount determined under paragraph (1). The preceding sentence shall not apply for purposes of applying the energy percentage."

(B) The first sentence of section 46(f)(8) (relating to prohibition of immediate flow through) is amended by striking out "and the Tax Reform Act of 1976" and inserting in lieu thereof ", the Tax Reform Act of 1976, and the Energy Tax Act of 1978".

(b) DEFINITIONS AND TRANSITIONAL RULES.—Section 48 (relating to definitions and special rules) is amended by redesignating subsection (l) as subsection (n) and by inserting after subsection (k) the following new subsections:

"(l) ENERGY PROPERTY.—For purposes of this subpart—

"(1) TREATMENT AS SECTION 38 PROPERTY.—For the period beginning on October 1, 1978, and ending on December 31, 1982—

"(A) any energy property shall be treated as meeting the requirements of paragraph (1) of subsection (a), and

"(B) paragraph (3) of subsection (a) shall not apply to any energy property.

"(2) ENERGY PROPERTY DEFINED. The term 'energy property' means property—

"(A) which is—

"(i) alternative energy property,

"(ii) solar or wind energy property,

"(iii) specially defined energy property,

"(iv) recycling equipment,

"(v) shale oil equipment, or

"(vi) equipment for producing natural gas from geopressured brine,

"(B)(i) the construction, reconstruction, or erection of which is completed by the taxpayer after September 30, 1978, or

"(ii) which is acquired after September 30, 1978, if the original use of such property commences with the taxpayer and commences after such date, and

"(C) with respect to which depreciation (or amortization in lieu of depreciation) is allowable, and which has a useful life (determined as of the time such property is placed in service) of 3 years or more.

"(3) ALTERNATIVE ENERGY PROPERTY.—

"(A) IN GENERAL.—The term 'alternative energy property' means—

"(i) a boiler the primary fuel for which will be an alternate substance,

"(ii) a burner (including necessary on-site equipment to bring the alternate substance to the burner) for a combustor other than a boiler if the primary fuel for such burner will be an alternate substance,

"(iii) equipment for converting an alternate substance into a synthetic liquid, gaseous, or solid fuel (other than coke or coke gas),

"(iv) equipment designed to modify existing equipment which uses oil or natural gas as a fuel or as feedstock so that such equipment will use either a substance other than oil and natural gas, or oil mixed with a substance other than oil and natural gas (where such other substance will provide not less than 25 percent of the fuel or feedstock),

"(v) equipment which uses coal (including lignite) as a feedstock for the manufacture of chemicals or other products (other than coke or coke gas),

"(vi) pollution control equipment required (by Federal, State, or local regulations) to be installed on or in connection with equipment described in clause (i), (ii), (iii), (iv), or (v),

"(vii) equipment used for the unloading, transfer, storage, reclaiming from storage, and preparation (including, but not limited to, washing, crushing, drying, and weighing) at the point of use of an alternate substance for use in equipment described in clause (i), (ii), (iii), (iv), (v), or (vi), and

"(viii) equipment used to produce, distribute, or use energy derived from a geothermal deposit (within the meaning of section 613(e)(3)), but only, in the case of electricity generated by geothermal power, up to (but not including) the electrical transmission stage.

"(B) EXCLUSION FOR PUBLIC UTILITY PROPERTY.—The terms 'alternative energy property', 'solar or wind energy property', and 'recycling equipment' do not include property which is public utility property (within the meaning of section 46(f)(5)).

"(C) ALTERNATE SUBSTANCE.—The term 'alternate substance' means any substance other than—

"(i) oil and natural gas, and

"(ii) any product of oil and natural gas.

"(D) SPECIAL RULE FOR CERTAIN POLLUTION CONTROL EQUIPMENT.—The term 'pollution control equipment' does not include any equipment which—

"(i) is installed on or in connection with property which, as of October 1, 1978, was using coal (including lignite), and

"(ii) was required to be installed by Federal, State, or local regulations in effect on such date.

"(4) SOLAR OR WIND ENERGY PROPERTY.—The term 'solar or wind energy property' means any equipment which uses solar or wind energy—

"(A) to generate electricity, or

"(B) to heat or cool (or provide hot water for use in) a structure.

"(5) SPECIALLY DEFINED ENERGY PROPERTY.—The term 'specially defined energy property' means—

"(A) a recuperator,

"(B) a heat wheel,

"(C) a regenerator,

"(D) a heat exchanger,

"(E) a waste heat boiler,

"(F) a heat pipe,

"(G) an automatic energy control system,

"(H) a turbulator,

"(I) a preheater,

"(J) a combustible gas recovery system,

"(K) an economizer, or

"(L) any other property of a kind specified by the Secretary by regulations,

the principal purpose of which is reducing the amount of energy consumed in any existing industrial or commercial process and which is installed in connection with an existing industrial or commercial facility.

"(6) RECYCLING EQUIPMENT.—

"(A) IN GENERAL.—The term 'recycling equipment' means any equipment which is used exclusively—

"(i) to sort and prepare solid waste for recycling, or

"(ii) in the recycling of solid waste.

"(B) CERTAIN EQUIPMENT NOT INCLUDED.—The term 'recycling equipment' does not include—

"(i) any equipment used in a process after the first marketable product is produced, or

"(ii) in the case of recycling iron or steel, any equipment used to reduce the waste to a molten state and in any process thereafter.

"(C) 10 PERCENT VIRGIN MATERIAL ALLOWED.—Any equipment used in the recycling of material which includes some virgin materials shall not be treated as failing to meet the exclusive use requirements of subparagraph (A) if the amount of such virgin materials is 10 percent or less.

"(D) CERTAIN EQUIPMENT INCLUDED.—The term 'recycling equipment' includes any equipment which is used in the conversion of solid waste into a fuel or into useful energy such as steam, electricity, or hot water.

"(7) SHALE OIL EQUIPMENT.—The term 'shale oil equipment' means equipment for producing or extracting oil from oil-bearing shale rock but does not include equipment for hydrogenation, refining, or other process subsequent to retorting.

"(8) EQUIPMENT FOR PRODUCING NATURAL GAS FROM GEOPRESSURED BRINE.—The term 'equipment for producing natural gas from geopressured brine' means equipment which is used exclusively to extract natural gas described in section 613A(b)(3)(C)(i).

"(9) EQUIPMENT MUST MEET CERTAIN STANDARDS TO QUALIFY.—Equipment qualifies under paragraph (3), (4), (5), (6), (7), or (8) only if it meets the performance and quality standards (if any) which—

"(A) have been prescribed by the Secretary by regulations (after consultation with the Secretary of Energy), and

"(B) are in effect at the time of the acquisition of the property.

"(10) EXISTING.—For purposes of this subsection, the term 'existing' means—

"(A) when used in connection with a facility, 50 percent or more of the basis of such facility is attributable to construction, reconstruction, or erection before October 1, 1978, or

"(B) when used in connection with an industrial or commercial process, such process was carried on in the facility as of October 1, 1978.

"(11) SPECIAL RULE FOR PROPERTY FINANCED BY INDUSTRIAL DEVELOPMENT BONDS.—In the case of property which is financed in whole or in part by the proceeds of an industrial development bond (within the meaning of section 103(b)(2)) the interest on which is exempt from tax under section 103, the energy percentage shall be 5 percent.

"(12) INDUSTRIAL INCLUDES AGRICULTURAL.—The term 'industrial' includes agricultural.

"(m) APPLICATION OF CERTAIN TRANSITIONAL RULES.—Where the application of any provision of subsection (l) of this section or subsection (a)(2) or (c)(3) of section 46 is expressed in terms of a period, such provision shall apply only to—

"(1) property to which section 46(d) does not apply, the construction, reconstruction, or erection of which is completed by the taxpayer on or after the first day of such period, but only to the extent of the basis thereof attributable to the construction, reconstruction, or erection during such period,

"(2) property to which section 46(d) does not apply, acquired by the taxpayer during such period and placed in service by the taxpayer during such period, and

"(3) property to which section 46(d) applies, but only to the extent of the qualified investment (as determined under subsections (c) and (d) of section 46) with respect to qualified progress expenditures made during such period."

(c) SPECIAL RULES FOR APPLYING LIMITATION BASED ON TAX LIABILITY.—

(1) Subsection (a) of section 46 is amended by adding at the end thereof the following new paragraph:

"(10) SPECIAL RULES IN THE CASE OF ENERGY PROPERTY.—Under regulations prescribed by the Secretary—

"(A) IN GENERAL.—This subsection and subsection (b) shall be applied separately—

"(i) first with respect to so much of the credit allowed by section 38 as is not attributable to the energy percentage,

"(ii) second with respect to so much of the credit allowed by section 38 as is attributable to the application of the energy percentage to energy property (other than solar or wind energy property), and

"(iii) then with respect to so much of the credit allowed by section 38 as is attributable to the application of the energy percentage to solar or wind energy property.

"(B) RULES OF APPLICATION FOR ENERGY PROPERTY.—In applying this subsection and subsection (b) for taxable years ending after September 30, 1978, with respect to so much of the credit allowed by section 8 as described in subparagraph (A)(ii)—

"(i) paragraph (3)(C) shall be applied by substituting '100 percent' for '50 percent',

"(ii) paragraphs (7), (8), and (9) shall not apply, and

"(iii) the liability for tax shall be the amount determined under paragraph (4) reduced by so much of the credit allowed by section 38 as is described in subparagraph (A)(i).

"(C) REFUNDABLE CREDIT FOR SOLAR OR WIND ENERGY PROPERTY.—In the case of so much of the credit allowed by section 38 as is described in subparagraph (A)(iii)—

"(i) paragraph (3) shall not apply, and

"(ii) for purposes of this title (other than section 38, this subpart, and chapter 63, such credit shall be treated as if it were allowed by section 39 and not by section 38."

(2) Section 6401 (relating to the amounts treated as overpayments) is amended by adding at the end thereof the following new subsection:

"(d) CROSS REFERENCE.—

"For rule allowing refund for excess investment credit attributable to solar or wind energy property, see section 46(a)(10)(C)."

(d) DENIAL OF INVESTMENT TAX CREDIT FOR CERTAIN PROPERTY.—

(1) AIR CONDITIONING, SPACE HEATERS, ETC.—Subparagraph (A) of section 48(a)(1) (defining section 38 property) is amended to read as follows:

"(A) tangible personal property (other than an air conditioning or heating unit), or".

(2) BOILERS FUELED BY OIL OR GAS.—Subsection (a) of section 48 (defining section 38 property) is amended by adding at the end thereof the following new paragraph:

"(10) BOILERS FUELED BY OIL OR GAS.—

"(A) IN GENERAL.—The term 'section 38 property' does not include any boiler primarily fueled by petroleum or petroleum products (including natural gas) unless the use of coal is precluded by Federal air pollution regulations (or by State air pollution regulations in effect on October 1, 1978) or unless the use of such boiler will be an exempt use within the meaning of subparagraph (B).

"(B) EXEMPT USE DEFINED.—For purposes of subparagraph (A), the term 'exempt use' means—

"(i) use in an apartment, hotel, motel, or other residential facility,

"(ii) use in a vehicle, aircraft, or vessel, or in transportation by pipeline,

"(iii) use on a farm for farming purposes (within the meaning of section 6420(c)),

"(iv) use in—

"(I) a shopping center,

"(II) an office building,

"(III) a wholesale or retail establishment,

"(IV) any other facility which is not an integral part of manufacturing, processing, or mining, or

"(V) any facility for the production of electric power having a heat rate of less than 9,500 Btu's per kilowatt hour and which is capable of converting to synthetic fuels (as certified by the Secretary),

"(v) use in the exploration for, or the de-

velopment, extraction, transmission, or storage of, crude oil, natural gas, or natural gas liquids, and

"(vi) use in Hawaii.

Except as provided in clauses (iv)(V) and (vi) of the preceding sentence, the term 'exempt use' does not include use of a boiler which is public utility property (within the meaning of section 46(f)(51)."

(3) DENIAL OF RAPID DEPRECIATION FOR BOILERS FUELED BY OIL OR GAS.—Section 167 (relating to depreciation) is amended by redesignating subsection (p) as subsection (r) and by inserting after subsection (o) the following new subsection:

"(p) STRAIGHT LINE METHOD FOR BOILERS FUELED BY OIL OR GAS.—In the case of any boiler which, by reason of section 48(a)(10), is not section 38 property—

"(1) subsection (b), (j), and (l) shall not apply, and

"(2) the term 'reasonable allowance' as used in subsection (a) shall mean only an allowance computed under the straight line method using a useful life equal to the class life prescribed by the Secretary under subsection (m) which is applicable to such property (determined without regard to the last sentence of subsection (m)(1))."

(4) EFFECTIVE DATE.—

(A) IN GENERAL.—The amendments made by this subsection shall apply to property which is placed in service after September 30, 1978.

(B) BINDING CONTRACTS.—The amendments made by this subsection shall not apply to property which is constructed, reconstructed, erected, or acquired pursuant to a contract which, on October 1, 1978, and at all times thereafter, was binding on the taxpayer.

(e) DEPRECIATION ALLOWANCE IN CASE OF RETIREMENT OR REPLACEMENT OF CERTAIN OIL AND GAS BOILERS, ETC.—

(1) IN GENERAL.—Section 167 is amended by inserting after subsection (p) the following new subsection:

"(q) RETIREMENT OR REPLACEMENT OF CERTAIN BOILERS, ETC., FUELED BY OIL OR GAS.—

"(1) IN GENERAL.—If—

"(A) a boiler or other combustor was in use on October 1, 1978, and as of such date the principal fuel for such combustor was petroleum or petroleum products (including natural gas), and

"(B) the taxpayer establishes to the satisfaction of the Secretary that such combustor will be retired or replaced on or before the date specified by the taxpayer,

then for the period beginning with the taxable year in which subparagraph (B) is satisfied, the term 'reasonable allowance' as used in subsection (a) includes an allowance under the straight line method using a useful life equal to the period ending with the date established under subparagraph (B).

"(2) INTEREST.—If the retirement or replacement of any combustor does not occur on or below the date referred to in paragraph (1)(B)—

"(A) this subsection shall cease to apply with respect to such combustor as of such date, and

"(B) interest at the rate determined under section 6621 on the amount of the tax benefit arising from the application of this subsection with respect to such combustor shall be due and payable for the period during which such tax benefit was available to the taxpayer and ending on the date referred to in paragraph (1)(B)."

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to taxable years ending after the date of the enactment of this Act.

TITLE IV—MISCELLANEOUS PROVISIONS

SEC. 401. TREATMENT OF INTANGIBLE DRILLING COSTS FOR PURPOSES OF THE MINIMUM TAX.

Subsection (b) of section 308 of the Tax Reduction and Simplification Act of 1977 is amended by striking out ", and before January 1, 1978".

SEC. 402. OPTION TO DEDUCT INTANGIBLE DRILLING COSTS IN THE CASE OF GEOTHERMAL DEPOSITS.

(a) IN GENERAL.—Subsection (c) of section 263 (relating to intangible drilling and development costs in the case of oil and gas wells) is amended—

(1) by adding at the end thereof the following new sentence: "Such regulations shall also grant the option to deduct as expenses intangible drilling and development costs in the case of wells drilled for any geothermal deposit (as defined in section 613(e)(3)) to the same extent and in the same manner as such expenses are deductible in the case of oil and gas wells.", and

(2) by amending the subsection heading to read as follows:

"(c) INTANGIBLE DRILLING AND DEVELOPMENT COSTS IN THE CASE OF OIL AND GAS WELLS AND GEOTHERMAL WELLS.—".

(b) MINIMUM TAX ON INTANGIBLE DRILLING COSTS IN THE CASE OF GEOTHERMAL WELLS.—

(1) Paragraph (11) of section 57(a) (relating to intangible drilling costs) is amended by striking out "oil and gas properties" each place it appears (including in the heading of subparagraph (C)) and inserting in lieu thereof "oil, gas, and geothermal properties".

(2) Clause (i) of section 57(a)(11)(B) is amended by striking out "oil and gas wells" and inserting in lieu thereof "oil, gas, and geothermal wells".

(3) Paragraph (11) of section 57(a) is amended by adding at the end thereof the following new subparagraph:

"(D) PARAGRAPH APPLIED SEPARATELY WITH RESPECT TO GEOTHERMAL PROPERTIES AND OIL AND GAS PROPERTIES.—This paragraph shall be applied separately with respect to—

"(i) all oil and gas properties which are not described in clause (ii), and

"(ii) all properties which are geothermal deposits (as defined in section 613(e)(3))."

(c) GAIN FROM DISPOSITION OF INTERESTS IN GEOTHERMAL WELLS.—

(1) Paragraphs (1) and (2) of section 1254(a) (relating to gain from disposition of interest in oil or gas property) are each amended by striking out "oil or gas property" each place it appears and inserting in lieu thereof "oil, gas, or geothermal property".

(2) Paragraph (3) of section 1254(a) (defining oil or gas property) is amended to read as follows:

"(3) OIL, GAS, OR GEOTHERMAL PROPERTY.—The term 'oil, gas, or geothermal property' means any property (within the meaning of section 614) with respect to which any expenditures described in paragraph (1)(A) are properly chargeable."

(3) The section heading of section 1254 is amended by striking out "OIL OR GAS" and inserting in lieu thereof "OIL, GAS OR GEOTHERMAL".

(4) The table of sections for part IV of subchapter P of chapter 1 is amended by striking out "oil or gas" in the item relating to section 1254 and inserting in lieu thereof "oil, gas, or geothermal".

(5) Subsection (c) of section 751 (relating to unrealized receivables) is amended by striking out "oil and gas property" and inserting in lieu thereof "oil, gas, or geothermal property".

(d) APPLICATION OF AT RISK RULES TO GEOTHERMAL DEPOSITS.—

(1) Paragraph (1) of section 465(c) (defining activities to which at risk rules apply) is amended by striking out "or" at the end of subparagraph (C), by adding ", or" at the end of subparagraph (D), and by inserting after subparagraph (D) the following new subparagraph:

"(E) exploring for, or exploiting, geothermal deposits (as defined in section 613(e)(3))".

(2) Paragraph (2) of section 465(c) is amended by striking out "or" at the end of subparagraph (C), by adding "or" at the end of subparagraph (D), and by inserting after subparagraph (D) the following new subparagraph:

"(E) geothermal property (as determined under section 614),".

(e) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall apply with respect to wells commenced on or after October 1, 1978, in taxable years ending on or after such date.

(2) ELECTION.—The taxpayer may elect to capitalize or deduct any costs to which section 263(c) of the Internal Revenue Code of 1954 applies by reason of the amendments made by this section. Any such election shall be made before the expiration of the time for filing claim for credit or refund of any overpayment of tax imposed by chapter 1 of such Code with respect to the taxpayer's first taxable year to which the amendments made by this section apply and for which he pays or incurs costs to which such section 263(c) applies by reason of the amendments made by this section. Any election under this paragraph may be changed or revoked at any time before the expiration of the time referred to in the preceding sentence, but after the expiration of such time such election may not be changed or revoked.

SEC. 403. DEPLETION FOR GEOTHERMAL DEPOSITS AND NATURAL GAS FROM GEOPRESSURED BRINE.

(a) GEOTHERMAL DEPOSITS.—

(1) IN GENERAL.—Section 613 (relating to percentage depletion) is amended by adding at the end thereof the following new subsection:

"(e) PERCENTAGE DEPLETION FOR GEOTHERMAL DEPOSITS.—

"(1) IN GENERAL.—In the case of geothermal deposits located in the United States or in a possession of the United States, for purposes of subsection (a)—

"(A) such deposits shall be treated as listed in subsection (b), and

"(B) the applicable percentage (determined under the table contained in paragraph (2)) shall be deemed to be the percentage specified in subsection (b).

"(2) APPLICABLE PERCENTAGE.—For purposes of paragraph (1)—

"In the case of taxable years beginning in calendar year—	The applicable percentage is—
1978, 1979, or 1980	22
1981	20
1982	18
1983	16
1984 and thereafter	15

"(3) GEOTHERMAL DEPOSIT DEFINED.—For purposes of paragraph (1), the term 'geothermal deposit' means a geothermal reservoir consisting of natural heat which is stored in rocks or in an aqueous liquid or vapor (whether or not under pressure). Such a deposit shall in no case be treated as a gas well for purposes of this section or section 613A, and this section shall not apply to a geothermal deposit which is located outside the United States or its possessions."

(2) TECHNICAL AMENDMENTS.—

(A) Paragraph (1) of section 613(c) (defining gross income from the property) is amended by inserting "and other than a geothermal deposit" after "oil or gas well"

(B) Paragraph (1) of section 613A(b) is amended—

(i) by inserting "and" at the end of subparagraph (A),

(ii) by striking out "and" at the end of subparagraph (B), and

(iii) by striking out subparagraph (C).

(C) Subsection (b) of section 614 (relating to special rules as to operating mineral interest in oil and gas wells) is amended—

(i) by inserting "or Geothermal Deposits"

after "Gas Wells" in the subsection heading, and

(ii) by inserting "or geothermal deposits" after "gas wells" in so much of the text as precedes paragraph (1) thereof.

(D) Subsection (c) of section 614 is amended by striking out "oil and gas wells" each place it appears and inserting in lieu thereof "oil and gas wells and geothermal deposits".

(b) NATURAL GAS FROM GEOPRESSURED BRINE.—

(1) IN GENERAL.—Subsection (b) of section 613A (relating to exemption for certain domestic gas wells) is amended by redesignating paragraph (2) as paragraph (3) and by inserting after paragraph (1) the following new paragraph:

"(2) NATURAL GAS FROM GEOPRESSURED BRINE.—The allowance for depletion under section 611 shall be computed in accordance with section 613 with respect to any qualified natural gas from geopressured brine, and 10 percent shall be deemed to be specified in subsection (b) of section 613 for purposes of subsection (a) of such section."

(2) QUALIFIED NATURAL GAS FROM GEOPRESSURED BRINE.—Paragraph (3) of section 613A (b) (as redesignated by paragraph (1)) is amended by adding at the end thereof the following new subparagraph:

"(C) QUALIFIED NATURAL GAS FROM GEOPRESSURED BRINE.—The term 'qualified natural gas from geopressured brine' means any natural gas—

"(i) which is determined in accordance with section 503 of the Natural Gas Policy Act of 1978 to be produced from geopressured brine, and

"(ii) which is produced from any well the drilling of which began after September 30, 1978, and before January 1, 1984."

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1978, and shall apply to taxable years ending on or after such date.

(d) COORDINATION WITH OTHER PROVISION.—Any allowance for depletion allowed by reason of the amendments made by subsection (b) shall not be treated as a credit, exemption, deduction, or comparable adjustment applicable to the computation of any Federal tax which is specifically allowable with respect to any high-cost natural gas (or category thereof) for purposes of section 107 (d) of the Natural Gas Policy Act of 1978.

SEC. 404. REREFINED LUBRICATING OIL.

(a) IN GENERAL.—Section 4093 (relating to exemption of sales to producers) is amended to read as follows:

"SEC. 4093. EXEMPTIONS.

"(a) SALES TO MANUFACTURERS OR PRODUCERS FOR RESALE.—Under regulations prescribed by the Secretary, no tax shall be imposed by section 4091 on lubricating oils sold to a manufacturer or producer of lubricating oils for resale by him.

"(b) USE IN PRODUCING REREFINED OIL.—

"(1) SALES TO REREFINERS.—Under regulations prescribed by the Secretary, no tax shall be imposed by section 4091 on lubricating oil sold for use in mixing with used or waste lubricating oil which has been cleaned, renovated, or rerefined. Any person to whom lubricating oil is sold tax-free under this paragraph shall be treated as the producer of such lubricating oil.

"(2) USE IN PRODUCING REREFINED OIL.—Under regulations prescribed by the Secretary, no tax shall be imposed by section 4091 on lubricating oil used in producing rerefined oil to the extent that the amount of such lubricating oil does not exceed 55 percent of such rerefined oil.

"(3) REREFINED OIL DEFINED.—For purposes of this subsection, the term 'rerefined oil' means oil 25 percent or more of which is used or waste lubricating oil which has been cleaned, renovated, or rerefined."

(b) CONFORMING AMENDMENT.—Section 4092(a) is amended by striking out "4093" and inserting in lieu thereof "4093(a)".

(c) CLERICAL AMENDMENT.—The table of sections for subpart B of part III of subchapter A of chapter 32 is amended by striking out the item relating to section 4093 and inserting in lieu thereof the following:

"SEC. 4093. EXEMPTIONS."

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to sales on or after the first day of the first calendar month beginning more than 10 days after the date of the enactment of this Act.

And the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate to the title of the bill and agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 5263) to suspend until the close of June 30, 1980, the duty on certain bicycle parts, submit the following joint statement to the House and the Senate in explanation of the effect of the action (other than action of a technical nature) agreed upon by the managers and recommended in the accompanying conference report.

GENERAL EXPLANATION

House Bill

The House bill suspends the duty on certain bicycle parts until June 30, 1980.

Senate Amendment

The Senate amnedment strikes out all of the House bill after the enacting clause and inserts two titles. Title I contains certain tax and other provisions related to energy and is in reality the Senate position on the matters decided in this conference. In order to bring the House energy tax provisions into conference, the Senate added a title II which is the text of title II of H.R. 8444 (the National Energy Act) as passed by the House.

Conference Agreement

The conference agreement does not include any provisions relating to the duty on bicycle parts. In order to explain the action agreed upon by the conference, in the remainder of this statement, title I of the Senate amendment will be referred to as the "Senate amendment" and title II of the Senate amendment (embodying the text of title II of H.R. 8444 as passed by the House) will be referred to as the "House bill."

A. RESIDENTIAL ENERGY CREDITS

1. Residential insulation and other energy-conserving component credit

House Bill

Under present law, no special tax credit or deduction is allowed for the installation of insulation or other energy-conserving components in or on a taxpayer's residence.

The House bill provides a nonrefundable income tax credit for insulation and other energy-conserving component expenditures for installations in or on the principal residence of the taxpayer. The credit is 20 percent of the first $2,000 of qualifying expenditures, for a maximum credit of $400. The credit would be applied against the taxpayer's liability, and no carryover is provided to the extent the credit exceeds the amount of tax liability.

The credit would be available only with respect to principal residences the construction of which was substantially completed before April 20, 1977. Owners and renters would be eligible for the credit; moreover, an individual who owns stock in a cooperative housing association or who is a member of a condominium management association would be eligible for the credit.

The credit would apply to qualifying insulation and other energy-conserving components. Insulation is defined as any item specifically and primarily designed to reduce, when installed in or on a dwelling or water heater, the heat loss or gain of the dwelling or water heater.

The term "other energy-conserving component" means any item (other than insulation) which is:

(1) a furnace replacement burner designed to achieve a reduction in the amount of fuel consumed as a result of increased combustion efficiency;

(2) a device for modifying flue openings designed to increased the efficiency of operation of the heating system;

(3) an electrical or mechanical furnace ignition system which replaces a gas pilot light;

(4) a storm or thermal window or door for the exterior of the dwelling;

(5) a clock thermostat;

(6) caulking or weatherstripping of an exterior door or window; or

(7) an item of a kind which the Secretary of the Treasury specifies by regulations as increasing the energy efficiency of the dwelling.

The House bill applies to taxable years ending on or after April 20, 1977, for expenditures made on or after that date and before January 1, 1985.

Senate Amendment

The Senate amendment is generally the same as the House bill except in the following material respects: (1) the credit would be refundable; (2) the termination date of the credit would be one year later than the House bill (December 31, 1985); (3) individuals whose residences are the subjects of weatherization grants under the nontax energy provisions would not be entitled to the credit, (4) the amount of any loan made under the nontax energy provisions would be reduced by the amount of the credit allowed; and (5) additional energy-conserving components qualifying for the credit would include replacement furnaces, automatic energy-saving thermostats (as well as the lock thermostats included in the House bill), heat pumps, energy usage display meters, replacement fluorescent light systems, evaporative cooling devices, hydrogen-fueled residential equipment, and wood or peat fueled residential equipment.

Conference Agreement

The conference agreement follows the House bill with the following changes. First,

the credit is to be 15 percent of the first $2,000 of qualifying expenditures, for a maximum credit of $300. Second, the credit is to be available for expenditures made on or after April 20, 1977, and before January 1, 1986. Third, a credit carryover is provided to the extent that the credit exceeds the taxpayer's tax liability; the carryover is to extend for two years beyond the termination date of the credit, i.e., through taxable years ending before January 1, 1988. Fourth, a credit relating to qualifying expenditures made during 1977 is to be claimed (along with any credit relating to 1978 qualifying expenditures) only on the taxpayer's 1978 tax return and, subject to the carryover provision, only against the taxpayer's 1978 tax liability. Fifth, the credit would be available for automatic energy-saving thermostats (as well as clock thermostats) and energy usage display meters. Sixth, the credit is applicable to replacement burners on either oil-fired furnaces or boilers.

2. Residential Renewable Energy Source Equipment Credit

House Bill

Under present law, no special tax credit or deduction is allowed for solar, wind, or geothermal energy equipment installed in connection with a residence.

The House bill provides a nonrefundable income tax credit for qualifying solar and wind energy equipment expenditures for installations in connection with principal residence of the taxpayer. The credit would be 30 percent of the first $1,500 of qualifying expenditures and 20 percent of the next $8,500 of qualifying expenditures, for a maximum credit of $2,150. The credit would be applied against the taxpayer's tax liability, and no carryover would be provided to the extent the credit exceeds the amount of tax liability.

The credit would be available with respect to existing, newly constructed and reconstructed principal residences. Owners and renters would be eligible for the credit; moreover, an individual who owns stock in a cooperative housing association or who is a member of a condominium management association would be eligible for the credit.

The House bill applies to taxable years ending on or after April 20, 1977, for expenditures made on or after that date and before January 1, 1985.

Senate Amendment

The Senate amendment is generally the same as the House bill except in the following material respects: (1) the credit would be refundable; (2) the credit would be 30 percent of the first $2,000 and 20 percent for the next $8,000 of qualifying expenditures, for a maximum credit of $2,200; (3) the termination date of the credit would be one year later than the House bill (December 31, 1985); (4) the amount of any loan made under the nontax energy provisions would be reduced by the amount of the credit allowed; (5) the credit would apply to "passive" as well as "active" solar systems; [1] (6) the credit would apply to leased (as well as purchased) solar energy equipment; (7) the credit would apply to equipment using solar energy in the production of electricity; (8) the credit would apply to equipment using wind energy for transportation (as well as residential) purposes; (9) the credit would apply to equipment using geothermal energy; (10) the Secretary of Treasury, under regulations, may add to the list of qualifying property equipment items which rely on "renewable energy resources;" and (11) in determining whether an item is eligible for the credit, onsite inspections which are not already authorized in the assessment and collection of income taxes would be prohibited unless the resident claiming the credit consents to the inspection.

Conference Agreement

The conference agreement follows the Senate amendment, deleting, however, items (1), (4), (6), (7), (8) and (11) listed above under the Senate amendment section. In addition, certain other changes are made. First, the credit is to be nonrefundable, and, instead, a credit carryover is provided to the extent that the credit exceeds the taxpayer's tax liability; the carryover is to extend for two years beyond the termination date of the credit, i.e., through taxable years ending before January 1, 1988. Second, a credit relating to qualifying expenditures made during 1977 is to be claimed (along with any credit relating to 1978 qualifying expenditures) only on the taxpayer's 1978 tax return and, subject to the carryover provision, only against the taxpayer's 1978 tax liability.

B. TRANSPORTATION TAX PROVISIONS

3. Gas guzzler tax and use of proceeds

House Bill

A gas guzzler tax would be imposed on a manufacturer on the sale or initial lease of automobiles whose fuel economy fails to meet certain fuel efficiency standards. The fuel efficiency standards below which an automobile will be taxed would generally start from 3 to 5.5 miles (depending on the year involved) below the fleetwide average standards of the Energy Production and Conservation Act ("EPCA").

The tax would apply to 1979 and later model year automobiles weighing 6,000 pounds or less. The tax would not apply to trucks with a cargo capacity of 1,000 pounds or more or to vehicles which are equipped with 4-wheel drive and other significant features designed to equip them for off-highway operation.

Tax rates range from $339 to $553 in 1979, $245 to $1,216 in 1981, $345 to $2,134 in 1983, $371 to $2,638 in 1984, and $397 to $3,856 in 1985 and later years.

The exemption from the manufacturers excise taxes generally provided for State and local governments and nonprofit educational institutions would not be available in the case of the gas guzzler tax. Also, the Secretary of the Treasury would not have the authority to waive the gas guzzler tax in the case of sales or leases to the United States.

Purchasers of vehicle subject to the tax would have to reduce the basis of the vehicles by the amount of the tax.

Proceeds of the gas guzzler tax would be placed in a trust fund to be used for the purpose of reducing the national debt.

Senate Amendment

No provisions.

Conference Agreement

The conference agreement generally follows the House bill with several modifications.

First, under the conference agreement, no tax is imposed on 1979 model year automobiles. Second, the mileage standards, and generally the tax rates, applicable to each model year from 1979 through 1985 are deferred one year under the conference agreement. Thus, the mileage standards which the House bill would apply to model year 1979 are applied to model year 1980; the standards that the House bill would apply to model year 1980 are applied to model year 1981, etc. Beginning with model year 1983, the fuel efficiency standards below which a passenger automobile will be subject to tax are reduced one mile per gallon. Under the conference agreement, the fuel efficiency standards below which a passenger automobile will be subject to tax will generally start from 4 to 6.5 miles per gallon (depending on the year involved) below the fleetwide average standards of EPCA.

The rates of tax are rounded to the nearest $50, and the lowest two rates of tax for the 1980 model year and the lowest rate of tax for the 1981 and 1982 model years are reduced. Thus, the tax rates for model year 1980 passenger automobiles would range from $200 (for a passenger automobile with a mileage rating of at least 14, but less than 15, miles per gallon) to $550 (for a passenger automobile with a mileage rating of less than 13 miles per gallon). For the 1986 model year and later model years, the tax rates would range from $500 (for a passenger automobile with a mileage rating of at least 22.5, but less than 23.5, miles per gallon) to $3,850 (for a passenger automobile with a mileage rating of less than 12.5 miles per gallon).

The conference agreement also narrows the group of vehicles which are subject to the tax. As under the House bill, the automobiles to which this tax applies generally include any 4-wheeled vehicle propelled by fuel (1) which is manufactured primarily for use on public streets, roads and highways (except any vehicle operated exclusively on a rail or rails), and (2) which is rated at no more than 6,000 pounds gross vehicle weight.

However, the conference agreement excludes from the application of the tax any vehicle which is treated as a nonpassenger automobile under the rules which were prescribed by the Secretary of Transportation for purposes of section 501 of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2001) and which were in effect on the date of the enactment of this provision.[1]

[1] An "active solar system" is based on the use of mechanically forced energy transfer, such as the use of fans to circulate solar generated energy. "Passive solar systems" are based on the use of conductive, convective, or radiant energy transfer, such as the use of portions of a residential structure which serve as solar furnaces so as to add heat to the residence. However, expenditures for labor, materials and components which will serve a significant structural function in the dwelling (e.g., extra-thick walls) would not be eligible for the credit.

[1] These rules provide as follows:

§ 523.5 Nonpassenger automobile.

(a) A nonpassenger automobile is an automobile either designed for off-highway operation, as described in paragraph (b) of this section, or designed to perform at least one of the following functions:

(1) Transport more than 10 persons;

(2) Provide temporary living quarters;

(3) Transport property on an open bed;

(4) Provide greater cargo-carrying than passenger-carrying volume; or

(5) Permit expanded use of the automobile for cargo-carrying purposes or other nonpassenger-carrying purposes through the removal of seats by means installed for that purpose by the automobile's manufacturer or with simple tools, such as screwdrivers and wrenches, so as to create a flat, floor level surface extending from the forwardmost point of installation of those seats to the rear of the automobile's interior.

(b) An automobile capable of off-highway operation is an automobile—

(1) (i) That has 4-wheel drive; or

(ii) Is rated at more than 6,000 pounds gross vehicle weight; and

(2) That has at least four of the following characteristics calculated when the automobile is at curb weight, on a level surface, with the front wheels parallel to the automobile's longitudinal centerline, and the tires inflated to the manufacturer's recommended pressure—

(i) Approach angle of not less than 28 degrees.

(ii) Breakover angle of not less than 14 degrees.

(iii) Departure angle of not less than 20 degrees.

(iv) Running clearance of not less than 8 inches.

Thus, even if these rules are later changed, a vehicle which is described as a nonpassenger automobile under the rules currently in effect would not be subject to the gas guzzler tax. Also, as in the House bill, vehicles which are equipped with 4-wheel drive and other significant features designed to equip them for off-highway operation would not be subject to the gas guzzler tax.

Another modification of the House bill provides special rules for small manufacturers. These rules, which are generally patterned on the special rules for small manufacturers in EPCA, provide that a small manufacturer (that is, a manufacturer of less than 10,000 automobiles per year) may apply to the Secretary of the Treasury for special treatment with respect to all of the automobiles manufactured by the manufacturer during a model year (or with respect to a model type). The term "manufacturer" for this purpose does not include an importer; however, a manufacturer who manufacturers some or all vehicles abroad is eligible to apply for this treatment.

If the Secretary determines that it is not feasible for the manufacturer to meet the tax-free fuel economy level for the model year with respect to all of its automobiles, or a particular model type, the Secretary can provide by regulation an alternate rate schedule for such model year automobiles or model type. The alternate rate schedule, which is to be determined by the Secretary only after consultation with the Secretary of Energy, the Secretary of Transportation, and other appropriate Federal officers, is to be based on the maximum fuel economy level which the manufacturer can meet for the model year for all the manufacturers automobiles or a particular model type, as the case may be. In determining an alternate rate schedule, the Secretary may vary the rates of tax, the mileage standards, or both.

The conference agreement omits the House bill provision which would require placement of the gas guzzler tax proceeds in a trust fund to be used for the purpose of reducing the national debt.

4. Repeal of personal deduction for State and local taxes on gasoline

House Bill

The House bill repeals the deduction for State and local taxes imposed with respect to gasoline, diesel fuel, and other motor fuels which are purchased by a taxpayer for nonbusiness use after December 31, 1977.

Senate Amendment

No provision.

Conference Agreement

The conference agreement does not include this provision.

5. Extension of current rate of federal taxes on gasoline and other motor fuels

House Bill

Under present law, a retailers excise tax of 4 cents a gallon is imposed on diesel and other special motor fuels sold for use (or used) in a highway vehicle. Also, a manufacturers excise tax of 4 cents a gallon is imposed on gasoline sold by the producer or importer. These taxes are scheduled to be reduced to 1½ cents a gallon on October 1, 1979 (as the Highway Trust Fund—to which the revenues now go—is scheduled to expire as of September 30, 1979).

The bill extends the current 4-cents-a-gallon excise taxes on gasoline, diesel fuel, and other motor fuel (which are scheduled to drop to 1½ cents per gallon on October 1, 1979) for 6 years—that is until September 30, 1985.

Senate Amendment

The Senate amendment contains a provision which is the same as this provision in the House bill.

Conference Agreement

The conference agreement does not include these provisions of both the House bill and the Senate amendment because the excise taxes on gasoline and other motor fuels would be extended by other legislation (H.R. 11733) which has been approved by both the House and the Senate. This other legislation also deals with extension of the Highway Trust Fund and of the current rates of other highway-related excise taxes.

6. Exemption from motor fuels excise taxes for certain alcohol fuels

House Bill

No provision.

Senate Amendment

Gasohol (i.e., fuel which is a blend of gasoline, or other motor fuel, and alcohol) that is at least 10 percent alcohol (including ethanol, methanol or other alcohol) made from agricultural or forestry products would be exempted from the Federal excise taxes on motor fuels on or after January 1, 1978, and before October 1, 1985.

Gasohol that is at least 10 percent alcohol made from other products (such as urban wastes), but not from petroleum, natural gas, or coal, is also exempted from the Federal excise taxes on fuels for this period. The Secretary of Energy is directed to make annual reports to Congress from 1979 through 1985 on the use of alcohol in fuels.

Also, the Secretary is directed to expedite the applications for permits to distill ethanol for use in the production of gasohol and to report to the Senate Finance Committee and the House Ways and Means Committee on a simplified manner of regulating the distilling operations of gasohol producers who distill ethanol.

Conference Agreement

The conference agreement generally follows the Senate bill; however, under the conference agreement, the exemption would apply only to sales of fuel after December 31, 1978, and before October 1, 1984,[1] and the Secretary of Energy is directed to make annual reports on the use of alcohol in fuels only from 1980 through 1984.

7. Exemption From Agricultural Set Aside Requirements for Acreage Used for Commodities for Production of Alcohol Fuels

House Bill

No provision.

Senate Amendment

The amendment authorizes the Secretary of Agriculture to use any set-aside acreage (that is, acreage that would otherwise be withheld from production) for the production of any agricultural or forestry product that is to be used or sold for primary use in the manufacture of alcohol fuels.

Conference Agreement

The conference agreement does not include this provision of the Senate amendment. However, it is the intent of the conferees that, in determining the need for acreage set-aside programs for particular commodities and the extent of the acreage set-aside programs (under sections 105A and 107A of the Agricultural Act of 1949, as added by sections 402 and 502 of the Food and Agriculture Act of 1977), the Secretary of Agriculture take into account the demand for these commodities by producers of alcohol fuels (including fuels which consist of gasoline-alcohol blends) and other fuels.

Reducing the amount of acreage set aside for purposes of the set-aside program by the amount of acreage needed to provide commodities for use in alcohol fuels and other fuels will have the same general effect as allowing set-aside acreage to be used to provide raw materials for alcohol fuels—it will allow the used of "surplus" agricultural land to produce fuel crops. In addition, this approach will alleviate the need to trace production from set-aside acreage to use in alcohol fuels.

Since the conferees understand that the Secretary of Agriculture is required to take into account all sources of demand for agricultural commodities in determining the need for, and the extent of, set-aside programs for agricultural commodities, no statutory changes appear necessary to achieve the result intended by the conferees.

8. Removal of refund or credit for excise taxes on motor fuels and lubricating oil for nonbusiness, offhighway uses

House Bill

As of October 1, 1977, the current law 2-cent reduction (or credit or refund) of the Federal excise taxes on gasoline or special motor fuels used for nonhighway purposes would not be available if the gasoline or special motor fuel is used in a motorboat.

Senate Amendment

As of January 1, 1978, the Senate amendment repeals the 2-cents-a-gallon reduction (through refund, credit, or exemption) of the excise taxes on gasoline and special motor fuels, and the refund (or credit) of the 6-cents-a-gallon tax on lubricating oil, with respect to gasoline, special fuels, and lubricating oil used (1) for nonbusiness, off-high-

---

(v) Front and rear axle clearances of not less than 7 inches each. (49 C.F.R. § 523.5.)

Another modification exempts emergency vehicles from the gas guzzler tax. This exemption covers any vehicles sold for use and used (1) as an ambulance or combination ambulance-hearse. (2) by the United States or by a State or local government for police or other law enforcement purposes, or (3) for other emergency uses prescribed by the Treasury Department by regulations. The first category of this exception, which applies to ambulances and combination ambulance-hearses regardless of ownership, does not include vehicles used solely as hearses (since they do not require acceleration for emergency use). The second category exempts vehicles used by the United States or by a State or local government for police or other law enforcement purposes. It does not include vehicles used by private law enforcement organizations. The third category, which exempts vehicles used for other emergency uses prescribed by Treasury Department regulations, is intended to give the Treasury Department the discretion to add vehicles used for emergency purposes. This could include, for example, vehicles used by the chief of a fire department if substantially all of the use of the vehicle is for fire department purposes. In promulgating regulations under this provision, the Treasury Department is intended to have the discretion to make distinctions based on ownership of the vehicle and the amount of use for emergency purposes, as well as on the nature of the purposes.

[1] The conference agreement follows the Senate bill in providing that, if mixture of gasoline and alcohol has been sold tax-free by the producer under the provisions added by this section and if a person later separates the gasoline from the mixture of gasoline and alcohol, such person shall be treated as the producer of the gasoline. Generally, such treatment means that a tax would be imposed on the sale or use by the producer of such separated gasoline. Similarly, if a mixture of special motor fuel and alcohol has been sold tax-free (under new sec. 4041(k)) and a person later separates the special motor fuel from the mixture of special motor fuel and alcohol, the separation will be treated as a sale of the special motor fuel which will be subject to the normal rules relating to the imposition of tax on such motor fuels (sec. 4041(b)). These provisions will apply to any separation of the gasoline (or special motor fuel) from the mixture of gasoline (or other motor fuel) and alcohol regardless of the manner in which the separation is accomplished.

way purposes (such as lawnmowers, snowmobiles, etc.) and (2) in motorboats (whether or not such use is business use).

However, the 2-cents-a-gallon reduction in the tax on gasoline is to continue to apply to gasoline used in a commercial fishing vessel for business use.

Conference agreement

The conference agreement generally follows the Senate amendment, but the provisions apply only to fuels used after December 31, 1978.

However, the provision relating to the availability of the 2-cents-a-gallon refund of the gasoline tax for commercial fishing vessels is replaced by appropriate cross references to other provisions of present law which make it clear that articles sold as supplies for vessels employed in the fisheries or whaling business are not subject to the excise taxes on fuels or lubricating oil (sec. 4041(g)(1) and sec. 4221 (a)(3) and (d)(3)). Where the sale of these items is made other than by the manufacturer, producer, or importer, the Code provides for a refund (or credit) of the tax when the item is used or sold for use as supplies for such vessels (sec. 6416 (a) and (b)(2)(B)). The Internal Revenue Service has ruled that fishing vessels are employed in the fisheries or whaling business when used (1) exclusively for the purpose of catching shrimp and other types of aquatic life for sale commercially as bait or (2) on specific trips exclusively for catching fish all of which are to be sold commercially (Rev. Rul. 65–134, 1965–1 C.B. 492). These cross references make it clear that no change is intended with respect to these exemptions for commercial fishing vessels.

9. Repeal of excise taxes on buses

House Bill

The House bill would repeal the 10-percent manufacturers excise tax imposed on the sale of buses having a gross vehicle weight of more than 10,000 pounds effective for sales on or after April 20, 1977.

Senate Amendment

The Senate amendment contains a provision which is identical to this provision in the House bill.

Conference Agreement

The conference agreement follows this provision of the House bill and the Senate amendment.

10. Repeal of excise taxes on bus parts

House Bill

The House bill would repeal the 8-percent manufacturers excise tax on bus parts and accessories for sales on or after the first day of the first calendar month beginning more than 10 days after the date of enactment.

Senate Amendment

The Senate amendment contains a provision which is the same as this provision in the House bill.

Conference Agreement

The conference agreement follows this provision of the House bill and the Senate amendment.

11. Removal of excise tax on certain items used on or in connection with intercity, local, or school buses

House Bill

Presently, privately owned and operated buses are subject to the manufacturers excise taxes on tires, tubes, tread rubber, gasoline, and lubricating oil, as well as the retailers excise taxes on diesel fuel and other special motor fuels. Complete exemption is provided from these excise taxes for State and local governments and for tax-exempt educational organizations. A partial exemption (2-cents-a-gallon refund or credit) is available from the tax on gasoline and other motor fuels for use by a privately owned local transit system for the portion of its total fare revenue represented by "commuter fare revenue."

The House bill removes the excise taxes on highway tires, inner tubes, tread rubber, gasoline, other motor fuels, and lubricating oil for private intercity, local and school bus operations, effective on the first day of the first calendar month which begins more than 10 days after the date of enactment.

Senate Amendment

The Senate amendment contains provisions which are the same as the provisions of the House bill.

Conference Agreement

The conference agreement follows the provisions of the House bill and the Senate amendment.

12. Tax credit for certain commuter vehicles

House Bill

No provision.

Senate Amendment

Under the Senate amendment, if an employer purchases a new van with a useful life of at least 3 years, seating nine or more persons (including the driver), and substantially all the use of the van is for transporting employees to and from work, the employer is entitled to the full 10-percent investment credit and the additional 10-percent business energy investment credit. These credits are available for vehicles purchased after April 19, 1977 and before January 1, 1986 and placed in service by the taxpayer before January 1, 1986.

Conference Agreement

The conference agreement generally follows the Senate bill in allowing the full 10-percent investment tax credit for certain vehicles used in van pooling, but it does not allow the additional 10-percent business energy credit for any of these vehicles. The full credit would apply only to vehicles acquired by the taxpayer after the date of enactment and placed in service prior to January 1, 1986.

Several changes are made in the definition of eligible vehicles. The eligible vehicles are designated as "commuter highway vehicles," the passenger seating capacity of which is at least 8 adults (not including the driver) and at least 80 percent of the mileage use of which is for vanpooling. Generally, use for vanpooling means use for the purpose of transporting the taxpayer's employees between their residences and their places of employment on trips during which the number of employees transported for this purpose is at least one-half of the adult seating capacity of the vehicle (not including the driver). The mileage use which qualifies as vanpooling use includes not only mileage traveled on trips which transport the required number of employees, but also use which is incident to such trips (such as "deadheading").

This revised definition is intended (inter alia) to make it clear that a bus, as well as a van, may qualify for the full investment credit under this provision.

In determining whether employees are transported from their homes to their places of employment, it is not necessary that the employees be picked up at, and transported to, their homes. It is sufficient to meet this requirement if the employees are transported to and from some central pickup point (or points) or intermediate location between the employees' residences and places of employment.

Under the normal investment credit rules, as applied to this provision, the credit will be recaptured if the commuter highway vehicle is disposed of within 3 years after it is placed in service. The conference agreement adds a recapture rule which provides, in effect, that recapture will occur if the full investment credit is claimed under this provision with respect to a vehicle, and within the first 36 months of the operation of the vehicle, the vehicle ceases to be a commuter highway vehicle. In applying the 80 percent of mileage use test to determine whether a vehicle ceases to be a commuter highway vehicle, the test shall be applied on the basis of the entire portion of the 36 month period which falls within the taxable year. If recapture results from a change in use from vanpooling to other business use, the amount of credit which will be recaptured will be two-thirds of the investment credit claimed (assuming the vehicle has a useful life of 3 or 4 years). If recapture results from a change from a vanpooling use to a personal use, the entire amount of the investment credit will be recaptured.

13. Exclusion from income of certain employer-furnished transportation

House bill

No provision.

Senate amendment

In the case of a taxpayer who is an employee, gross income would not include the value in excess of the employee's cost of transportation to or from work furnished by an employer if such transportation is in a commuter van.

This provision applies to transportation furnished after January 1, 1977, and before January 1, 1986. (No inference is intended concerning the taxability of transportation furnished during other periods.)

Conference agreement

The conference agreement generally follows the Senate amendment. However, certain changes are made concerning the transportation to which this provision applies.

In general, to qualify (1) the transportation must be furnished under a plan established in writing by the employer which meets the antidiscrimination requirements generally applicable to tax-exempt pension plans (sec. 401(a)(4)), and (2) the transportation must be by a commuter highway vehicle (which could qualify for the special investment credit if an election were made and the vehicle were acquired during the period for which the full investment tax credit is available).

Furthermore, the exclusion does not apply unless the plan under which the transportation is furnished provides that the value of any transportation is furnished in addition to, and not in lieu of, any compensation otherwise payable to the employee and provides such means of verification as the Secretary of the Treasury prescribes by regulation. Also, the provision does not apply to self-employed individuals (such as partner or proprietors) or former employees even though such individuals or former employees are treated as employees for certain other purposes under section 401(c)(1).

The plan under which transportation must be furnished must be reduced to writing prior to the furnishing of transportation under the plan, except that transportation under the plan will be considered qualified for the exclusion if it is reduced to writing no later than July 1, 1979. Thus, the plan will relate back to transportation furnished for the first half of 1979 if the plan is reduced to writing on or before July 1, 1979. There is no requirement that the plan be submitted to the Internal Revenue Service for prior or subsequent approval.

For years beginning prior to the issuance of final regulations, the employer will have been considered to have met the requirement that the plan provides means of verification as the Secretary prescribes by regulation if the plan provides for means of verification which are reasonable under the circumstances.

The managers wish to make it clear that no inference is intended as to whether gross income includes the value of transportation

to and from work in other situations, such as where the transportation is furnished by a car or limousine. Also, no inference is intended as to the inclusion in income of other types of "fringe benefits.

14. Tax Credit for Electric or Hydrogen Motor Vehicles

House Bill

A nonrefundable tax credit (i.e., the credit cannot exceed the taxpayers tax liabi'ity) would be provided for the first $300 of the purchase price of a new 4-wheel electric motor vehicle (manufactured primarily for use on public roads) purchased by an individual for personal use on or after April 20, 1977, and before January 1, 1983. This credit applies only to new vehicles, not to used vehicles or vehicles converted to electricity.

Senate Amendment

Under the Senate amendment, the credit is generally the same as the House bill except that it applies to vehicles purchased on or after April 20, 1977, and before January 1, 1983. However, the credit applies to electric motor vehicles even if they do not have 4 wheels (although they must be manufactured primarily for use on the public roads).

In addition, under the Senate amendment, this credit applies to new motor vehicles powered by hydrogen fuel systems and to the cost of converting gasoline powered vehicles to the use of hydrogen.

Conference Agreement

The conference agreement does note the provisions of the House bill and the Senate amendment.

15. Alcohol Fuels Research and Demonstration Project

House Bill

No provision.

Senate amendment

The Secretary of Energy is required to select a Federal agency to operate 1,000 of its passenger vehicles on alcohol fuel as a test or demonstration project; 900 of the passenger vehicles would be run on alcohol blended with gasoline, and 100 would operate on straight alcohol. This project is to be operated for a period of up to 3 years, and reports (including economic, technological, and environmental information) are to be made by the Secretary of Energy to Congress for each fiscal year through the fiscal year ending September 30, 1981.

For the fiscal years ending September 30, 1979, September 30, 1980, and September 30, 1981, there are authorized to be appropriated sums not to exceed $3 million in the aggregate for the 3 years as may be needed to carry out this project.

Conference agreement

The conference agreement does not include this provision.

C. CRUDE OIL EQUALIZATION AND REBATES; ENERGY TRUST FUND

16. Crude Oil Equalization Tax

House bill

An excise tax would be imposed on the first purchase (generally by the refiner) of price controlled, domestically produced crude oil. The tax would increase the cost of all crude oil to the world price by 1980. The termination date of the tax would be September 30, 1981.

The tax would be imposed in three stages. In 1978, a tax would be imposed on lower tier oil (old oil under current regulations) equal to one-half of the gap between the ceiling prices of lower tier and upper tier oil for each classification of crude oil. In 1979, the tax would be raised to equal the entire gap. In 1980 and for the duration of the tax, the tax would equal the difference between the wellhead prices of uncontrolled and controlled crude oil of the same classification. As a result, the price of controlled oil plus the tax would be raised to the world price of oil in 1980.

Exemptions from the tax are provided for crude oil used as feedstock to produce natural gas liquids and for crude oil and its products used to extract natural gas or crude oil. Presidential authority is granted to suspend increases in the tax subject to veto by either House.

The crude oil tax is applicable to first purchases of crude oil after December 31, 1977, and before October 1, 1981.

Senate amendment

No provision.

Conference agreement

The conference agreement does not include this provision.

17. Natural gas liquids equalization tax

House bill

The tax would be imposed in three stages based upon the difference (the price gap) between the controlled price of the liquid and the wholesale price for No. 2 distillate fuel oil in the region, adjusted for differences in Btu content. The tax would equal one-third of the price gap in 1978, two-thirds of the gap in 1979, and equal to the entire gap in 1980 and later years.

The tax would be imposed on the use or sale for use, and the retailer (or user) would be liable for payment of the tax. Exemptions from the tax would be provided for natural gas liquids used in a residence, hospital, church, or school and for agricultural uses.

The natural gas liquids tax is applicable to sales to end users of natural gas liquids after December 31, 1977, and before October 1, 1981.

Senate amendment

No provision.

Conference agreement

The conference agreement does not include this provision.

18. Heating oil refund and other home heating tax credits

House bill

The House bill provides a refund of the crude oil equalization tax to the retailer of heating oil for oil used in a residence, hospital, church, or school if the retailer passes on the refund to the user. The heating oil refund is effective for sales after December 31, 1977, and before October 1, 1981.

Senate amendment

The Senate amendment provides a refundable income tax credit equal to 25 percent of the initial $600 of expenditures on home heating oil and propane, phased out as adjusted gross income rises from $15,000 to $30,000. The amendment also provides a refundable tax credit up to $150 for the increase in home electric heating and cooling costs from one year to the next to the extent they result from increased prices for imported residual fuel oil, phased out as adjusted gross income rises from $15,000 to $30,000.

The heating oil credit is effective for taxable years beginning after December 31, 1977, and ending before January 1, 1983. The electric heating and cooling credit is effective for taxable years ending after December 31, 1977.

Conference agreement

The conference agreement does not include either the House or Senate provision.

19. Equalization tax rebates

House Bill

The House bill rebates net proceeds from the crude oil equalization taxes for 1978 only. The rebate is a fixed amount per taxpayer, with a double rebate for single heads of households. (It is estimated to be $22 per taxpayer.) The rebate, generally, would be provided as a nonrefundable tax credit for all taxpayers. Those persons who do not receive a credit for income tax purposes would receive a direct payment as part of their regular social security, SSI, railroad retirement or AFDC payments. Persons not receiving their rebate under these methods could file a claim with the Treasury (called the "roundup payment").

Senate Amendment

The Senate amendment provides generally that no new tax should be imposed under the bill unless the bill also provides adequate tax incentives for increased production and conservation of energy and for conversion to alternate sources of energy, and also contains tax mechanisms for mitigating undesirable consequences arising out of the energy crisis.

Conference Agreement

The conference agreement does not include any rebate provision.

20. Energy cost credit for the elderly

House Bill

No provision.

Senate Amendment

The Senate amendment provides a refundable tax credit of $75 for any taxpayer who maintains a household which includes someone age 65 or over, phased out between adjusted gross incomes of $7,500 and $12,500. The elderly credit would be effective for taxable years beginning after December 31, 1977, and ending before January 1, 1986.

Conference Agreement

The conference agreement does not include this provision.

21. Small refiners study

House Bill

The House bill provides that the Treasury Department will make a study of the effect of the imposition of the crude oil equalization tax and the entitlements program on small refiners. The results of the study are to be given to Congress within 90 days of enactment.

Senate Amendment

No provision.

Conference Agreement

The conference agreement does not include this provision.

22. Oil pricing amendments for stripper wells

House Bill

No provision.

Senate amendment

Under present law oil from stripper wells is exempt from price controls. Stripper wells are those from properties on which the average daily production per well is less than 10 barrels. The definition of stripper oil is amended to include water and other injection wells in computing the average daily production per well.

Conference agreement

The conference agreement does not include this provision.

23. Energy Production, Conservation, and Conversion Trust Fund House bill

No provision.

Senate amendment

The Senate amendment establishes an Energy Production, Conservation, and Conversion Trust Fund. It appropriates to the Trust Fund a portion of the net revenues not refunded to consumers and not otherwise rebated, from any new taxes (not including extended existing taxes) added by the bill as enacted. The Trust Fund consists of two separately managed and administered accounts: (1) the Energy Financing Program Account, to encourage conservation of energy, conversion to energy sources other than oil and gas and domestic production of energy (other than conventional production of oil and natural gas), and (2) the Energy-

Efficient Transportation Account, to encourage energy-efficient forms of transportation. Any expenditures from either Trust Fund account would require authorization and appropriation acts.

Conference agreement

The conference agreement does not include this provision.

24. Payments to States

House bill

No provision.

Senate amendment

If there is a crude oil equalization tax, the Senate amendment authorizes an appropriation of up to $400 million in each of the fiscal years 1978, 1979, 1980 and 1981 for payments to States for repair of Federal-aid highways.

Conference agreement

The conference agreement does not include this provision.

D. TAX ON BUSINESS USE OF OIL AND NATURAL GAS; CREDITS AGAINST THE TAX

25. Excise tax on business use of oil and gas and credits against oil and gas use tax

House Bill

A tax would be imposed on the use of oil and natural gas as fuel in a trade or business. Three levels of tax would be imposed: Tier 1 would generally apply to process uses, Tier 2 would apply to boilers, turbines, and other internal combustion engines, and Tier 3 would apply to electric utilities, industrial cogenerators, and industrial producers of electricity using boilers with a total rating of at least 100 megawatts per plant.

The tax on Tier 1 oil would start at $.30 per barrel in 1979 and would rise gradually to $1.00 per barrel for use in 1981 and thereafter. The tax on Tier 2 oil would start at $.30 per barrel and would rise gradually to $3.00 per barrel for use in 1985 and thereafter. Tier 3 oil would be exempt through 1982 and would be taxed at $1.50 per barrel in 1983 and thereafter. Beginning in 1981, the tax rates would be adjusted annually for inflation that occurs after 1979.

With respect to the industrial use of natural gas in Tier 1 and Tier 2 categories, the tax would be determined on a variable tax basis by subtracting a cost differential, which would be reduced annually from $1.35 to $.30 for Tier 1 and from $1.05 to zero for Tier 2 by 1985, from the user acquisition price per million Btu of gas from the natural gas target price per million Btu for the region in which the gas is used. The basis for determining the natural gas target price is the average regional price of all No. 2 grade distillate oil sold during the preceding calendar year in the region, adjusted for differences in energy (Btu) content between such oil and natural gas.

Tier 3 gas would be exempt through 1982 and would be taxed at $.55 per million Btu in 1983. The rate would rise gradually to $.75 for use in 1985 and thereafter. The tax would not exceed the amount necessary to make the firm's cost of gas (including the tax) equal to the cost of residual oil (including the tax) in the region where the gas is used.

The following uses of oil and gas would be exempt from the tax:

(1) Industrial process use would be exempt from the tax when the use of fuels other than oil or natural gas would materially and adversely affect the manufacturing process or the quality of the manufactured goods, or when the use of such alternate fuels would not be economically and environmentally feasible.

(2) An exemption from the tax would be provided to nonindustrial uses of oil and natural gas in residential facilities, in transportation (including pipelines), on a farm for farming purposes, in nonmanufacturing commercial buildings, and in the exploration, development and production of crude oil and natural gas.

(3) Oil and natural gas would be exempt from taxation if used in a facility that was in existence or under construction on April 20, 1977, and which is precluded from using coal by State air pollution regulations in effect on that date or by Federal air pollution regulations. State regulations in effect after that date would also be grounds for exemption if such regulations were necessary to meet a requirement of Federal law. A regulation of a local agency having jurisdiction over a facility under an approved State Implementation Plan also would be the basis for an exemption.

In addition to oil or natural gas employed in exempt uses, firms would also be able to exempt from taxation the Btu content of 50,000 barrels of oil per year (i.e., 300 billion Btu). In cases of a regional competitive disadvantage, the Secretary of the Treasury may provide additional exempt amounts for individual plants, and he is required to publish the identification of taxpayers and plants which receive additions to their exempt amounts.

The Secretary of the Treasury would establish a procedure for reclassifying uses to a category which is taxed at a lower rate or which is exempt from tax. Reclassification would depend on the extent to which reduction in oil and natural gas use could be achieved as a result of the tax.

The President could suspend the tax for a period up to one year, if he believes it would have an adverse economic effect. A suspension plan would have to be submitted to Congress, and it would be subject to a veto by either House before the end of 15 days.

A taxpayer could elect a credit against the use tax of $1 for each dollar of qualified investment, up to 100 percent of the taxpayer's oil and natural gas use taxes, made after April 20, 1977. If the amount of investment is in excess of the amount of use taxes for the year, a carry-forward is permitted against use taxes in future years and a carry-forward to 1981 is provided for use taxes incurred in 1979 and 1980.

Utilities would be allowed to carry forward qualifying investment expenditures for offset against use tax liabilities that would be incurred beginning in 1983. Utilities would be allowed a credit to the extent that old oil and gas boilers are replaced or phased down for peakload or standby use (1500 hours or less a calendar year).

Where a phased-down old boiler is used between 1500 and 2000 hours in a calendar year, a penalty equal to the use tax would be imposed. Taxes paid in such cases would not be available for offset by qualified investment expenditures. Where old boilers would be used more than 2000 hours in a calendar year, there would be a recapture of credits against tax.

The taxpayer who elected to apply the credit against the user tax would receive the regular investment tax credit on his qualified energy investment expenditures only to the extent that a credit against the use tax was not claimed for the same investment outlay.

The credit would not be available after 1990, except for qualified property on which construction had begun.

Qualified energy investment which could be a credit against the use tax includes the cost of alternative energy property (as defined below in the section on Business Credits) placed in service during the year or, if the taxpayer elects, the progress expenditures made for that property during the year.

Senate Amendment

The Senate amendment provides for an excise tax on business use of oil and natural gas in existing coal-capable facilities and in new electric powerplants and major fuel burning installations. The tax would apply only to units capable of consuming at least 100 million Btu/hour or a combination of units at the same site capable of consuming at least 250 million Btu/hour.

The tax rate for oil used in new industrial and utility facilities would be $6.00 per barrel beginning in 1979. For existing installations, the tax would start at $.60 per barrel in 1979 and would rise gradually to $6.00 per barrel for use in 1985 and thereafter. The tax rates would be adjusted for inflation in the same manner as in the House bill.

The tax on industrial and utility use of gas would be the same as the Tier 2 tax in the House bill, except that the target price includes the oil users tax and the target price for gas is the full Btu equivalent for a comparable facility using oil (instead of a phase-in).

In addition to the exempt uses provided in the House bill. The Senate amendment exempts all process uses and the environmental exemption applies to all facilities and takes all State regulations into account. The Senate amendment also provides that any combustor qualifying for an exception or exemption from the requirement of using coal under any law or regulation is exempt from the tax.

The amendment also provides that the Secretary shall grant temporary exceptions for up to five years where alternate fuel transportation, pollution control equipment, or other necessary equipment is not available. In addition, the Secretary is to suspend the tax if he determines that the taxpayer is proceeding as expeditiously as possible to convert from the use of oil or gas.

Use in Hawaii is exempt under the Senate amendment.

The credit against the oil and gas user tax is generally the same as the House bill except that the credit is allowed only for the conversion of existing coal-capable facilities. In addition, the firm is eligible both for the investment credit and the user tax credit, and there are no special rules governing the eligibility of utilities for the credit.

The property which qualifies for the credit is generally the same as the House bill except that it includes equipment to convert an alternate substance to synthetic liquid fuel, but does not include nuclear, geothermal and hydroelectric equipment and does not include equipment for modifying existing boilers so that an alternate substance is at least 25 percent of the fuel.

Conference Agreement

The conference agreement does not include this provision.

E. BUSINESS ENERGY TAX CREDITS

26. Additional investment tax credit for alternative energy property

House Bill

The bill provides for an additional 10-percent investment credit which is not available to taxpayers who claim credit against the user tax. The credit is limited to 100 percent of tax liability, and this additional credit rate is 5 percent for property financed with tax-exempt industrial development bonds. Utilities will receive the credit for new boilers only to the extent that an existing oil- or gas-fired boiler is phased down to less than 1,500 hours of use per year. The credit is available only to persons engaged in a trade or business, and the credit is recaptured according to the rules for the regular investment credit.

Qualifying property includes equipment which uses a fuel or feedstock other than oil or gas or their products, i.e., an alternate substance. Equipment must be new and must be used in connection with a building or structure located in the United States and is eligible even if considered a structural component or used in connection with lodging facilities.

Alternative energy property includes:

(1) Boilers;

(2) Burners for combustors other than boilers;

(3) Nuclear and hydroelectric power equipment, not including turbines or generators;

(4)(a) Geothermal power equipment, not including turbines or generators;

(b) Geothermal equipment to provide heating, cooling and electricity used in connection with an existing building and an existing commercial or industrial process;

(5) Equipment for producing synthetic gas;

(6)(a) Equipment for modifying existing equipment so that an alternate substance is at least 25 percent of the fuel or feedstock;

(b) Equipment for modifying an existing boiler in an existing electric generating facility so that an alternate substance is at least 25 percent of the fuel; the rate of credit depends on fuel savings percentage;

(7) Pollution control equipment required by Federal, State, and local regulations to be installed in connection with equipment in categories (1), (2), (5), and (6);

(8) Equipment used to handle, store, and prepare an alternate substance, at the point of use as a fuel or feedstock, for use in equipment in categories (1), (2), (3), (4)(a), (5), (6) and (7); facilities to manufacture coke are excluded;

(9) Equipment which uses solar and wind energy to provide heat, cooling or electricity in connection with an existing building and existing industrial or commercial process, and

(10) Plans and designs for equipment in the above categories.

The credit is available for investments after April 19, 1977, and before January 1, 1983.

Senate amendment

The Senate amendment follows the House bill with several modifications. The Senate amendment provides a refundable, additional 15-percent investment tax credit. The credit rate is 7.5 percent for property financed with tax-exempt industrial development bonds. Bioconversion property financed with industrial development bonds, however, would receive the 15 percent credit. Utilities would receive credit for new boilers only to the extent that an existing oil- or gas-fired boiler is phased down to less than 2,000 hours of use per year. The credit is available to persons engaged in a trade or business, to educational, religious, charitable and scientific organizations (tax exempt under Code sec. 501(c)(3)), to electric utility cooperatives (tax-exempt under Code sec. 501(c)(12)), and to State and local governments. The credit is recaptured if property is disposed or if converted to nonqualifying use before one-half its useful life has elapsed. Investment qualifying for the credit is reduced to the extent that equipment is financed with Federal grants.

Alternative energy property is generally the same as the equipment included in the House bill, except that the equipment must meet performance standards prescribed by the Secretary. The Senate also added the following equipment to the list of eligible property:

(1) Dams, turbines and generators used in hydroelectric power facilities;

(2) Geothermal equipment to produce, distribute, or use geothermal energy but only, in the case of electrical generation, equipment up to the electrical transmission stage; there is no existing building or industrial process requirement;

(3) Equipment for producing a synthetic gaseous, liquid or solid fuel, for producing chemicals from coal or lignite, and for producing coke or coke gas;

(4) Handling equipment but not equipment used in conjunction with hydroelectric or geothermal equipment; handling equipment at facilities that process coal into coke or its byproducts would be eligible;

(5) Solar and wind energy equipment installed in connection with a new structure;

(6) Equipment to convert ocean thermal energy or tidal power into useful forms of energy, and

(7) Equipment used in construction of, and in research and development on, electric highway motor vehicles.

These provisions would be effective for investments after April 19, 1977, and before January 1, 1986.

Conference Agreement

The conference agreement follows the House bill with the following modifications.

The eligible equipment includes the Senate provision for equipment for producing synthetic liquid, gaseous or solid fuel, but not coke or coke gas, and equipment which uses coal (including lignite) as a feedstock for the manufacture of chemicals or other products, except coke or coke gas. Geothermal equipment is defined as in the Senate bill.

Hydroelectric and nuclear equipment, structures and dams are excluded.

Solar and wind energy equipment are included, as defined in the Senate amendment, and are eligible for a refundable credit. The definition of solar equipment does not include so-called "passive solar" equipment.

The additional investment credit for alternative energy property is not available to the tax-exempt organizations that were included in the Senate amendment: State and local governments and organizations exempt under sections 501(c)(3) and (12). In addition, the credit is not available to public utility property, as defined in section 46(f)(5): property used predominantly in the trade or business of the furnishing or sale of:

(i) electrical energy, water, or sewage disposal services,

(ii) gas through a local distribution system,

(iii) telephone service, telegraph service by means of domestic telegraph operations or other communication services, or

(iv) steam through a local distribution system or the transportation of gas or steam by pipeline.

The additional credits, except those for solar and wind energy equipment, are not refundable, but may be used to offset 100 percent of tax liability. The rules for applying the limitations based on tax liability to the use of the investment credit in combination with the energy credits provided in the conference agreement will operate under the following stacking order. A taxpayer first will apply the credits attributable to section 38 property (not including the energy credits provided in this agreement) against tax liability to the extent allowed under current law. The first-in-first-out rule of section 46(a) will continue to apply with respect to the stacking of credits within the limitation. Next, a taxpayer will apply the credits attributable to the application of the energy percentage of energy property to the remaining tax liability, up to 100 percent of that tax liability. Finally, if the energy credits exceed tax liability and any of the excess is attributable to solar and wind energy credits, these latter amounts will be treated as an overpayment of tax, i.e., as if the amounts were allowed by section 39.

The credits are available for eligible property, acquired and placed in service after September 30, 1978, and before January 1, 1983, to the extent of basis attributable to this period.

27. Specially defined energy property tax credit

House Bill

An additional 10-percent investment credit is provided for this category of energy property. The credit is limited to 50 percent of tax liability. Qualifying property is required to be new depreciable property, with a useful life of at least 3 years, used in connection with a structure located in the United States. All categories of qualifying property must satisfy performance and quality standards prescribed by the Secretary. The recapture rules under the regular investment credit also apply to this credit. The credit is reduced to 5 percent for property financed by industrial development bonds.

Eligible property includes: (1) a recuperator, (2) a heat wheel, (3) a regenerator, (4) a heat exchanger, (5) a waste heat boiler, (6) a heat pipe, (7) an automatic energy control system, (8) a turbulator, (9) a preheater, (10) a combustible gas recovery system, (11) an economizer, or (12) any other property of a kind specified by the Secretary by regulations, the principal purpose of which is reducing the amount of energy consumed in any existing industrial or commercial process and which is installed in connection with an existing industrial or commercial facility.

The additional credit applies to investments in qualifying property after April 19, 1977, and before January 1, 1983.

Senate Amendment

The Senate made available the same 10-percent credit as the House bill, but amended the House bill in several other respects.

The credit is refundable, under the same terms applicable to alternative energy property (No. 27 above).

The list of eligible property was expanded to include industrial heat pumps; energy efficient replacement electric motors; fuel cells, gas turbines and external combustion engines with demonstrated fuel efficiency; fluorescent replacement lighting systems; and silicone controlled rectifier units.

In addition, the Secretary's administrative authority has been extended to equipment that reduces the amount of heat wasted, and equipment in this category of energy property may be installed in connection with utility and agricultural facilities.

This credit applies, to investments in qualifying property after April 19, 1977, and before January 1, 1986.

Conference Agreement

The conference agreement generally follows the House bill, but the credit may be applied against 100 percent of tax liability as in the Senate amendment. The Secretary is authorized to specify other similar items of energy conservation equipment eligible for this credit, including modifications which are made to existing industrial processes, the principal purpose of which is the reduction in the amount of energy consumed or heat wasted. The conferees expect the Secretary to consult with the Department of Energy and the Bureau of Standards in determining additional items to be eligible as specially defined energy property. The credit will be available for qualifying property placed in service after September 30, 1978, and before January 1, 1983, and for qualified expenditures incurred during this period.

28. Energy property tax credit

House Bill

The additional nonrefundable 10-percent investment credit is available for two additional types of energy property:

(1) Cogeneration property for the production of steam, heat or other forms of useful energy and also electric energy; and

(2) Recycling equipment which is used exclusively in the recycling of solid waste or to sort and prepare solid waste for recycling.

This credit is limited to 50 percent of tax liability and the additional credit is reduced to 5 percent if the property is financed in whole or in part with industrial development bonds.

The credit applies to qualifying property

placed in service after April 19, 1977, and before January 1, 1983.

Senate Amendment

Under the Senate amendment, the credit is an additional 10 percent, applicable up to 100 percent of tax liability. Eligible property includes:

(1) Cogeneration property defined as in the House bill plus cogeneration for agricultural purposes, and water purification and desalination;

(2) Recycling equipment defined as in the House bill, but the exclusive use requirement is modified to permit use of up to 10 percent virgin materials; in addition, eligible equipment includes recycling equipment to the point where a marketable product has been produced, e.g., newsprint, paperboard, metal ingots, or textile fibers;

(3) Shale oil equipment which is used to mine, extract or produce oil from oil-bearing shale rock;

(4) Transportation equipment which includes commuter vans and equipment designed to reduce energy consumption when added to existing motor vehicles and commercial carriers;

(5) Equipment used to produce natural gas from geopressured brine;

(6) On-site electrical heat processing equipment which is replacement equipment and which uses electricity produced with an alternate substance; and

(7) Electric motor vehicles, primarily for use on public streets, roads and highways, when purchased for use in a trade or business.

The credit applies to eligible equipment placed in service after April 19, 1977, and before January 1, 1986.

Conference Agreement

The conference agreement provides that the additional 10 percent credit will be available to be applied against 100 percent of tax liability. Eligible property includes (1) recycling equipment defined as in the Senate bill, except that in the iron and steel industry the credit is limited to equipment used before the solid waste is reduced to a molten state, (2) shale oil equipment, as in the Senate amendment, and (3) equipment to produce natural gas from geopressured brine, as in the Senate amendment. For the latter equipment, the rules of the Federal Energy Regulatory Commission will be applied to determine which well qualifies as well producing natural gas from geopressured brine under the terms of the definition in the Natural Gas Pricing Act, but the Secretary of the Treasury will determine whether the equipment used in connection with that well is eligible for the credit.

The additional credit will be available for eligible equipment acquired or placed in service after September 30, 1978, and before January 1, 1983, and for qualified expenditures in this period.

29. Investment Tax Credit for Business Insulation

House Bill

The House bill makes all types of business insulation eligible for the existing investment credit where added to existing buildings. This includes structural insulation, insulation glass, storm doors, weatherstripping and similar items which satisfy performance and quality standards prescribed by the Secretary.

This credit applies to qualifying property placed in service after April 19, 1977, and before January 1, 1983.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement does not include this provision.

30. Denial of investment tax credit and accelerated depreciation for certain property

House Bill

Oil and natural gas fueled boilers and other combustors would generally be ineligible for the investment tax credit and accelerated methods of depreciation, unless either the use of coal was precluded by air pollution regulations or the taxpayer's use of oil or gas was exempt under the use tax provisions of the bill. Portable air conditioners and space heaters would also be ineligible to receive the investment credit.

This provision applies to property placed in service after June 20, 1977, except for property under a binding contract on that date.

Senate Amendment

No provision.

Conference Agreement

The conference agreement generally follows the House provision, modified to apply to portable air conditioners, portable space heaters and boilers fueled by oil or gas. Other combustors fueled by oil or natural gas will not be subject to the investment tax credit and accelerated depreciation denial rules under the conference agreement. In addition, the conference agreement includes the range of exempt uses under the House bill, which generally exempt from the provision those uses which are not part of manufacturing, production or mining. For example, an oil or gas fueled steam and electrical generation facility will be considered an exempt use where the products (such as steam or electricity) of the facility are provided for use by a group of exempt activities (such as a group of offices or hospitals) and the furnishing of electricity is not subject to rate regulation. In addition, the exempt uses are extended to include combined cycle electric plants.

The provision applies to property placed in service after September 30, 1978, except for property for which a binding contract was in effect on that date.

31. Depreciation allowance for early retirement or replacement of oil or gas boilers

House Bill

Special treatment is provided for depreciation of a natural gas or oil-fueled boiler or other combustor which is retired or replaced before the end of its originally determined useful life. The taxpayers will be authorized to redetermine the useful life of an oil or natural gas-fuel combustor and use this shortened useful life to depreciate the remaining basis in the property (net of any salvage value). If this treatment is elected, the taxpayer may use only the straight-line method for depreciation of the remaining basis. In order to qualify for this treatment, the taxpayer must establish to the satisfaction of the Secretary that there is a reasonable foundation for the conclusion that the combustor will in fact be retired or replaced at the end of the shortened useful life. The taxpayer will be eligible to use this treatment beginning with the taxable year in which the Secretary approves the application of the taxpayer to redetermine the useful life of the combustor under this provision. Recapture of excess depreciation deductions (with interest) is required where the retirement or replacement does not subsequently occur as scheduled.

This provision applies to tax years beginning after the date of enactment.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill.

F. TAX INCENTIVES FOR ALTERNATIVE ENERGY SOURCES

32. Exemption for interest on IDBs for coal gasification and liquefaction

House Bill

No provision.

Senate Amendment

Under present law, interest on State or local obligations generally is exempt from Federal tax, except when the obligations are industrial development bonds (i.e., the proceeds are to be used by a non-exempt person). IDBs issued for certain specified purposes are exempt, but coal gasification and liquefaction are not of the exempt purposes.

Present law provides an exemption for bonds for facilities for the local furnishing of electric energy or gas, but not if the facilities are part of a system furnishing electricity or gas to more than two contiguous counties (or their political equivalents).

The Senate amendment provides that industrial development bonds for the furnishing of coal gasification and liquefaction facilities would be exempt from Federal tax. The exemption would be allowed even if the products of the facilities are furnished to more than two contiguous counties. The provision applies with respect to obligations issued after December 31, 1977.

Conference Agreement

The conference agreement does not include this provision.

33. Exemption for interests on IDBs for bioconversion facilities for the conversion of wastes into energy or fuels

House Bill

No provision.

Senate Amendment

Under present law, interest on State or local obligations generally is exempt from Federal tax, except when the obligations are industrial development bonds (i.e., the proceeds are to be used by a non-exempt person). IDBs issued for certain specified purposes are exempt, but the conversion of waste into energy generally is not one of the exempt purposes.

In the case of IDBs for sewage or solid waste disposal facilities, an exemption is provided by present law but only if at least 65 percent of the material processed is completely worthless.

Present law also provides an exemption for the local furnishing of electric energy or gas, but not if the facilities are part of a system furnishing electricity or gas to more than two contiguous counties (or their political equivalents).

The Senate amendment provides that industrial development bonds for bioconversion facilities for the conversion of municipal and agricultural wastes and other organic matter into energy into synthetic gaseous, liquid, or solid fuels would be exempt from Federal tax. The exemption would be allowed even if less than 65 percent of the materials processed are completely worthless, and even if the products of the facilities are furnished to more than two contiguous counties. The provision applies with respect to obligations issued after December 31, 1977.

Conference Agreement

The conference agreement does not include this provision.

34. Exemption for interest on IDBs for facilities for local furnishing of electricity or gas

House Bill

No provision.

Senate Amendment

Under present law, interest on State or local obligations generally is exempt from Federal tax, except when the obligations are industrial developmental bonds (i.e., the proceeds are to be used by a non-exempt person). IDBs issued for certain specified purposes are exempt.

Present law provides an exemption for bonds for the local furnishing of electric energy or gas, but not if the facilities are part of a system furnishing electricity or gas to more than two contiguous counties (or their political equivalents).

The Senate amendment extends the exemption from Federal tax on interest from industrial development bonds for facilities for the furnishing of electricity or gas to bonds issued by an authorized State agency for facilities to produce electric energy that is consumed in more than two contiguous counties within one State. The provision applies with respect to obligations issued after December 31, 1977.

Conference Agreement

The conference agreement does not include this provision.

35. Geothermal provisions — Depletion for geothermal deposits

House Bill

Under present law, geothermal resources are ineligible for percentage depletion deductions. However, the Ninth Circuit Court of Appeals has ruled that certain geothermal steam deposits are gas wells and are eligible for percentage depletion as natural gas. The various restrictions on percentage depletion for oil and gas enacted in the Tax Reduction Act of 1975 do not apply to the gas produced from the deposits involved in these court decisions.

The House bill provides a 10-percent deduction for depletion for all resources from geothermal deposits, including natural gas produced from geopressured brine. Under the House bill the amount of percentage depletion deductions allowable with respect to any geothermal property may not exceed the taxpayer's adjusted cost basis in the property.

Senate Amendment

The Senate amendment provides percentage depletion for geothermal resources located in the United States or its possessions. It contains a separate rule, described below, for gas produced from geopressure brine.

For geothermal resources, the percentage of gross income from each property which can be deducted as percentage depletion is 22 percent for production in calendar years 1978 through 1980, 20 percent for 1981, 18 percent for 1982, 16 percent for 1983, and 15 percent for all years thereafter. Percentage depletion for geothermal resources is not subject to the various limitations and restrictions relating specifically to oil and gas which were enacted in the Tax Reduction Act of 1975. The limitations enacted in 1975 are those which deny percentage depletion to integrated oil companies, limit percentage depletion for any taxpayer to 65 percent of taxable income, and limit percentage depletion to the equivalent of a certain average daily production of oil and gas. However, present law restrictions which apply to percentage depletion for all minerals also apply to percentage depletion for geothermal resources under the Senate amendment. Thus, the Senate amendment provides that depletion in excess of basis is an item of tax preference under the minimum tax, and that percentage depletion on any property is to be limited to 50 percent of the taxable income from that property (computed without regard to the deduction for depletion). Under the Senate amendment there is no basis limitation on the amount of allowable depletion deductions.

Conference agreement

The conference agreement follows the Senate amendment. This section of the conference agreement shall take effect on October 1, 1978, and shall apply to taxable years ending on or after October 1, 1978.

36. Geothermal provisions—Depletion for geopressured natural gas

House Bill

Under present law, natural gas is eligible for percentage depletion at a 22-percent rate. The rate is scheduled to phase down to 15 percent by 1984. Integrated oil and gas producers generally may not claim percentage depletion except for gas sold under pre-1975 fixed price contracts in which the price cannot be adjusted upward to reflect the limitations on percentage depletion enacted in the Tax Reduction Act of 1975. In addition, the amount of oil or gas eligible for percentage depletion for any producer or royalty holder is limited to the equivalent of 1,400 barrels per day in 1978 (scheduled to phase down to 1,000 barrels per day in 1980 and subsequent years). Percentage depletion on oil and gas is limited to 65 percent of taxable income computed without regard to the deduction for depletion. In addition, for any property the allowable percentage depletion deduction is limited to 50 percent of the taxable income from that property computed without regard to the deduction for depletion.

The House bill contains no provisions specifically relating to natural gas produced from geopressured brine. Under the House bill, geopressured brine is treated as a geothermal resource.

Senate Amendment

The Senate amendment provides a 10-percent deduction for percentage depletion for natural gas produced from geopressured brine in the United States or its possessions. The percentage depletion is not limited to the taxpayer's adjusted basis in the property, nor is it subject to the various restrictions which apply to percentage depletion for oil and gas—the limitation on depletion deductions for integrated oil and gas companies, the per barrel limitation, or the 65 percent of taxable income limitation. However, the allowable deduction is subject to the restrictions on percentage depletion generally. The allowable deduction on any property is to be subject to the limitation that it cannot exceed 50 percent of taxable income from the property (computed without regard to the deduction for depletion), and depletion in excess of adjusted basis is treated as an item of tax preference under the minimum tax.

Under the Senate amendment, the definition of natural gas produced from geopressured brine is to be issued by the Secretary of the Treasury in consultation with the Secretary of Energy.

The Senate amendment is effective for taxable years ending after December 31, 1977.

Conference Agreement

The conference agreement generally follows the Senate amendment with the following modifications. The conference agreement provides that the term "natural gas produced from geopressured brine" is to be precisely the same gas eligible for the special treatment under section 107(c)(2) of the Natural Gas Policy Act of 1978, and defined pursuant to section 503 of that Act. The conferees intend that, because percentage depletion is not limited to natural gas produced from geopressured brine but is available to a wide range of minerals, this provision is not to be construed to be a special tax provision or comparable adjustment under section 107(d) of that Act.

Ten-percent depletion for natural gas produced from geopressured brine is to be allowed only for wells drilled after September 30, 1978, and before January 1, 1984. Wells drilled within this period will continue to be entitled to percentage depletion for their entire producing lives. However, wells drilled before and after these dates will be treated as natural gas wells as under present law. This section of the conference agreement shall take effect on October 1, 1978, and shall apply to taxable years ending on or after October 1, 1978.

37. Geothermal provisions—Intangible drilling costs: Option to deduct drilling costs

House Bill

Under present law, oil and gas producers may elect to deduct intangible drilling costs (IDCs) rather than capitalize them and generally may recover those costs as part of the depletion or depreciation deduction. This election must be made for all of a taxpayer's oil and gas wells.

The House bill extends similar treatment to geothermal wells and provides that a separate election can be made for a taxpayer's geothermal wells, on the one hand, and for his oil and gas wells on the other. Under the House bill, wells producing natural gas from geopressured brine are treated as geothermal wells, and intangible drilling costs for wells producing natural gas from geopressured brine must be expensed if a taxpayer elects to expense intangible drilling costs for his geothermal wells.

Senate Amendment

The Senate amendment is the same as the House bill except that it provides for separate elections for (a) oil and gas wells, (b) geothermal wells, and (c) wells producing natural gas from geopressured brine.

Conference Agreement

The conference agreement allows an election to deduct IDCs for geothermal wells. The election is to be separate from that for oil and gas wells. The conference agreement does not change present law with respect to wells producing natural gas from geopressured brine, so that these will continue to be treated as natural gas wells for purposes of the IDC election.

Because the conference agreement does not change the IDC treatment of wells producing natural gas from geopressurized brine, the conferees intend that this provision is not to be construed to be a special tax provision or comparable adjustment under section 107(d) of the Natural Gas Policy Act of 1978.

38. Geothermal provisions—Intangible drilling costs: Application of the minimum tax

House Bill

Under present law, the deduction for intangible drilling costs on productive wells in excess of the deduction which would have been allowed with respect to those costs for that year through either 10-year amortization or cost depletion (excess IDCs) is treated as a tax preference item for purposes of the minimum tax for individuals.

In the Tax Reduction and Simplification Act of 1977, the Congress provided that for taxable years beginning only in 1977, excess IDCs in excess of oil and gas production income would constitute a tax preference item.

The House bill extends to geothermal properties for all future years a provision similar to the minimum tax provision on intangible drilling costs of individuals which was applicable for 1977. As a result, the item of tax preference will be the amount (if any) by which the amount of excess IDCs on geothermal properties in the taxable year is greater than the amount of the net income of the taxpayer from geothermal properties for the taxable year. Excess IDCs will be the amount of IDCs on productive wells, reduced by the deduction which would have

been allowed with respect to those costs through cost depletion. The amount of the net income of the taxpayer from geothermal properties for the taxable year will be the excess of (a) the aggregate amount of gross income (within the meaning of section 613 (a) from all geothermal properties of the taxpayer received or accrued by the taxpayer during the taxable year, over (b) the amount of any deductions allocable to such properties (reduced by the excess IDCs) for such taxable years.

Under the House bill, natural gas produced from geopressured brine is treated as a geothermal resource for purposes of the minimum tax.

This provision applies to wells commenced on or after April 20, 1977, in taxable years ending after that date.

Senate Amendment

The Senate amendment is the same as the House bill, except that the intangible drilling cost computation is to be made separately for geothermal resources, natural gas from geopressured brine, and oil and gas wells. Thus, the offset for related income in computing the minimum tax preference is to be made separately for each of the three categories.

Conference Agreement

The conference agreement generally follows the House bill. In addition, it continues the present law treatment of wells producing natural gas from geopressured brine as gas wells. Thus, income and deductions from wells producing natural gas from geopressured brine will continue to be aggregated with income and deductions from all oil and gas property for purposes of the related income offset under the minimum tax.

The conference agreement with respect to the application of the minimum tax to intangible drilling costs is the same as the rule applicable to those costs for 1977. Thus, a taxpayer's IDC preference is the amount (if any) by which the amount of excess IDCs arising in the taxable year is greater than the amount of the taxpayer's net income from oil and gas properties for the taxable year. The amount of the excess IDCs arising in the taxable year is the excess of (i) the IDCs paid or incurred in connection with oil and gas wells (other than cost incurred in drilling a nonproductive well) allowable for the taxable year, over (ii) the amount which would have been allowable for the taxable year if such costs had been capitalized and straight line recovery of intangibles had been used with respect to such costs. The amount of the taxpayer's net income from oil and gas properties for the taxable year is the excess of (i) the aggregated amount of gross income (within the meaning of sec. 613(a)) from all oil and gas properties of the taxpayer received or accrued during the taxable year, over (ii) the amount of any deductions allocable to such properties reduced by excess IDCs for that taxable year. The term "straight line recovery of intangibles" means, except as described below, ratable amortization of IDCs over the 120-month period beginning with the month in which production from the well begins. Alternatively, at the taxpayer's election, straight line recovery of intangibles means any method which would be permitted for purposes of determining cost depletion with respect to such well and which is selected by the taxpayer for purposes of determining the IDC preference. This section of the conference agreement shall take effect on October 1, 1978, and shall apply to taxable years ending on or after October 1, 1978.

39. Geothermal Provisions—Intangible Drilling Costs: Recapture

House Bill

Under present law, the total of IDCs deducted, reduced by the amount of IDCs which would have been deductible had those costs been capitalized and deducted through cost depletion, is subject to recapture upon a disposition of an oil and gas property.

The House bill extends present law to geothermal (including geopressured natural gas) properties, and applies it separately from recapture as to oil and gas properties. This provision would apply to wells commenced on or after April 20, 1977, in taxable years ending after that date.

Senate Amendment

The Senate amendment is the same as the House bill, except that oil and gas, geothermal, and geopressured natural gas properties would be treated separately.

Conference Agreement

The conference agreement essentially follows the House bill in applying recapture to geothermal wells. However, geopressured natural gas wells are to be treated as gas wells as under present law. This section of the conference agreement shall take effect on October 1, 1978, and shall apply to taxable years ending on or after October 1, 1978.

40. Geothermal Provisions—Intangible Drilling Costs: At Risk Limitation

House Bill

Under present law, the amount of any loss (otherwise allowable for the year) which may be deducted in connection with exploring for, or exploiting, oil and gas cannot exceed the aggregate amount with respect to which the taxpayer is at risk with regard to the property at the close of the taxable year.

The House bill extends present law to geothermal (including geopressured natural gas) properties, and treats developing those properties as an activity separate from developing oil and gas properties. This provision would apply to wells commenced on or after April 20, 1977, in taxable years ending after that date.

Senate Amendment

The Senate amendment is the same as the House bill, except that exploiting and developing oil and gas, geothermal, and geopressured natural gas are treated as separate activities.

Conference Agreement

The conference agreement follows the House bill. However, geopressured natural gas is aggregated with oil and gas as one activity. This section of the conference agreement shall take effect on October 1, 1978, and shall apply to taxable years ending on or after October 1, 1978.

41. Percentage Depletion for Peat

House Bill

No provision.

Senate Amendment

Under present law, peat is allowed 5 percent depletion.

The Senate amendment allows a 10-percent depletion deduction for peat from U.S. deposits which is used as fuel or otherwise to produce energy. (Peat for other purposes is still allowed 5 percent depletion.) This provision applies to taxable years ending after December 31, 1977.

Conference Agreement

The conference agreement does not include this provision.

42. Production Credits for Nonconventional Oil and Gas

House Bill

No provision.

Senate Amendment

Present law contains no provision for production incentives.

The Senate amendment provides nonrefundable income tax credits for production of nonconventional oil and gas in or offshore of the United States or its possessions. The credits are:

(a) $3 per barrel for shale oil;

(b) $3 per barrel for oil from tar sands;

(c) 50 cents per mcf for geopressured natural gas; and

(d) 50 cents for tight rock formation gas.

Credits are allowed according to the ratio of the taxpayer's gross income from the property to total gross income from the property. Credits are reduced on a project-by-project basis according to the ratio between Federal grants for equipment and facilities and total investment in equipment and facilities for nonconventional energy processes. The credits apply for taxable years beginning after December 31, 1977.

Conference Agreement

The conference agreement does not include these provisions.

G. LIMITATION OF PRESIDENT'S AUTHORITY TO ADJUST OIL IMPORTS; IMPORT ADJUSTMENT TAX CREDIT

43. Amendments to Trade Expansion Act of 1962

House Bill

No provision.

Senate Amendment

Under present law, the President may adjust imports of petroleum or petroleum products by quotas or monetary exactions (tariffs, duties, or fees) so that such imports do not threaten national security.

The Senate amendment nullifies the President's authority to adjust imports of petroleum or petroleum products under section 232(b) of the Trade Expansion Act of 1962, except for:

(a) military and defense emergencies involving national security; or

(b) adjustments of imports of refined petroleum products for reasons of national security.

The Senate amendment expressly recognizes the close relation between national security and a U.S. refining industry competitive with foreign refineries. Present law contains no such provision.

The amendment also provides for a 2-House veto of any proposed Presidential adjustment of imports of refined petroleum products under the Trade Expansion Act of 1962 authority within 30 days of the proposal's transmittal to Congress.

The amendment requires the President to establish procedures for refunding all or part of any increased tariff, fees, etc., on imported refined petroleum products to a public utility which demonstrates that it imports such products solely because of the unavailability of domestic supplies (regardless of price) of such product or of alternate domestic fuels or energy sources. Present law has no comparable provision.

Conference Agreement

The conference agreement does not include this provision.

44. Amendments to Trade Act of 1974

House Bill

No provision.

Senate Amendment

Present law allows the President to impose or increase duties on any import pursuant to trade agreements with foreign countries. He also may designate imports from a developing country for duty-free import treatment.

The Senate amendment bars the presidential imposition of, or increase in, import duties on petroleum or petroleum products pursuant to trade agreements with foreign countries under authority granted the President in Title I of the Trade Act of 1974, and also prohibits the President from designating imported petroleum or petroleum products as eligible articles for duty-free import treatment under Title V of the Trade Act of 1974.

This provision is effective as of the date of enactment.

Conference Agreement

The conference agreement does not include this provision.

45. Refined Petroleum Product Import Adjustment Tax Credit

House Bill

No provision.

Senate Amendment

The Senate amendment provides a refundable tax credit for the cost of purchasing refined petroleum products (both imported and domestic) for use in tax-exempt residences, hospitals, churches and schools.

The amount of credit is determined by multiplying units of such products used by an adjustment amount. The adjustment amount is determined by dividing the net revenues from any increased duty or fee imposed by the President under section 232(f) of the Trade Expansion Act of 1962 on imported refined petroleum products by the number of units used for qualified uses.

Present law contains no comparable provision.

The provision would be effective in taxable years beginning after December 31, 1976.

Conference Agreement

The conference agreement does not include this provision.

H. OTHER PROVISIONS

46. Intangible drilling cost deductions for oil and gas wells and the minimum tax

House Bill

Under present law, the deduction for intangible drilling costs in productive wells in excess of the deduction which would have been allowed with respect to those costs for that year through either 10-year amortization or cost depletion (excess IDCs) is treated as a tax preference item for purposes of the minimum tax for individuals.

In the Tax Reduction and Simplification Act of 1977, Congress provided that for taxable years beginning only in 1977, the tax preference would be excess IDCs in excess of oil and gas production income.

The House bill extends for all future years the minimum tax provision on intangible drilling costs of individuals which was applicable for 1977. Thus, with respect to all oil and gas properties of the taxpayer, the tax preference will be the amount (if any) by which the amount of excess IDCs arising in the taxable year is greater than the amount of the net income of the taxpayer from oil and gas properties for the taxable year. The amount of the net income of the taxpayer from oil and gas properties for the taxable year is the excess of (a) the aggregate amount of gross income (within the meaning of section 613(a)) from all oil and gas properties of the taxpayer received or accrued by the taxpayer during the taxable year, over (b) the amount of any deductions allocable to such properties, reduced by excess IDCs, for such taxable year.

These provisions are effective for taxable years ending December 31, 1977.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment

The conference agreement with respect to the application of the minimum tax to intangible drilling costs is the same as the rule applicable to those costs for 1977. Thus, a taxpayer's IDC preference is the amount (if any) by which the amount of excess IDCs arising in the taxable year is greater than the amount of the taxpayer's net income from oil and gas properties for the taxable year. The amount of the excess IDCs arising in the taxable year is the excess of (i) the IDCs paid or incurred in connection with oil and gas wells (other than cost incurred in drilling a nonproductive well) allowable for the taxable year, over (ii) the amount which would have been allowable for the taxable year in such costs had been capitalized and straight line recovery of intangibles had been used with respect to such costs. The amount of the taxpayer's net income from oil and gas properties for the taxable year is the excess of (i) the aggregated amount of gross income (within the meaning of sec. 613(a)) from all oil and gas properties of the taxpayer received or accrued during the taxable year, over (ii) the amount of any deductions allocable to such properties reduced by excess IDCs for that taxable year. The term "straight line recovery of intangibles" means, except as described below, ratable amortization of IDCs over the 120-month period beginning with the month in which production from the well begins. Alternatively, at the taxpayer's election, straight line recovery of intangibles means any method which would be permitted for purposes of determining cost depletion with respect to such well and which is selected by the taxpayer for purposes of determining the IDC preference.

47. Rerefined lubricating oil

House Bill

Under present law, a 6-cent-per-gallon manufacturers excise tax is imposed on lubricating oil (other than cutting oils) sold in the United States by a manufacturer or producers, or used anywhere by a manufacturer or producer. The sale of recycled oil is not subject to the tax unless the recycled oil is mixed with new lubricating oil. In such a case, the excise tax is imposed on the portion of the mixture which consists of new lubricating oil.

The House bill exempts the sale of lubricating oil from the 6-cent-per-gallon manufacturers excise tax where the lubricating oil is sold for use in a mixture with previously used or waste lubricating oil which has been cleaned, renovated, or rerefined.

For the exemption to apply, the blend of old and new oil must consist of 25 percent or more of waste or rerefined oil. All of the new oil in a mixture is to be exempt from the excise tax if the blend contains 55 percent new oil, the excise tax exemption applies only with regard to the portion of the new oil that does not exceed 55 percent of the mixture.

The provision is effective for sales on or after the first day of the first calendar month beginning more than 10 days after enactment.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

48. Annual Report on Energy and Revenue Effects of the Bill

House Bill

The House bill requires the President to submit an annual report to the Congress every August after 1977. The report is to provide estimates of the amount of revenue increases or decreases resulting from each energy tax provision, and an evaluation of the extent to which each provision has resulted in increased energy conservation and production. The President is expected to include in his report the petroleum (or natural gas) savings resulting from each provision and the extent of any shifts from petroleum and natural gas to other materials resulting from each provision. This provision is effective upon enactment.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement does not include this provision.

49. White House Conference on Energy Conservation, and National Energy Conservation Planning and Advisory Council

House Bill

No provision.

Senate Amendment

The Senate amendment requires the President to convene a White House Conference on Energy to assess problems and make recommendations relating to energy conservation, no later than December 31, 1978.

Conference Agreement

The conference agreement does not include this provision.

50. Suspension of Import Duty on Insulation Materials

House Bill

No provision.

Senate Amendment

The Senate Amendment suspends present law import duties on glass fiber, mineral wool and related insulation materials, and boric acid with respect to material entered or withdrawn from warehouse for consumption. The suspension of duty would be effective through June 30, 1979.

Conference Agreement

The conference agreement does not include this provision.

51. Energy Stamp Program

House Bill

No provision.

Senate Amendment

The Senate amendment authorizes annual appropriations of $25 million for each of fiscal years 1978, 1979, and 1980, for five pilot projects to demonstrate an energy-stamp program providing financial assistance to low- and fixed-income households (homeowners or apartment dwellers) for residential energy costs. Participants must pay one-third the value of energy stamps received.

The authorization applies for fiscal years 1978–80.

There is no comparable program in present law.

Conference Agreement

The conference agreement does not include this provision.

52. Expedited Consideration of Authorization for U.S. Oil Pipelines From West Coast

House Bill

No provision.

Senate Amendment

The Senate amendment sets deadlines and otherwise expedites consideration of Federal authorizations for proposed U.S. pipeline systems to carry crude oil supplies inland from the West Coast. The Senate amendment also expedites judicial review of any such authorizations.

This provision is effective upon enactment.

Conference Agreement

The conference agreement does not include this provision.

53. Coordination of Effective Dates With the Congressional Budget Act

House Bill

No provision.

Senate Amendment

The Senate amendment provides that notwithstanding any other provision of the amendment, the Secretary of Treasury is to postpone (but not later than September 30.

1978) any of the effective dates of the amendment to insure that revenues for the fiscal year 1978 will not be less than $397 billion.

Conference Agreement

The conference agreement does not include this provision.

54. Sense of the Senate Regarding Revenue Loss From the Bill for Fiscal Year 1978

House Bill

No provision.

Senate Amendment

The Senate amendment expresses the sense of the Senate that the conferees on the part of the Senate shall, to the extent practical, limit the revenue loss from this amendment to $972 million for the fiscal year 1978.

Conference Agreement

The conference agreement does not include this provision.

TABLE 1.—BUDGET EFFECTS ON HOUSE, SENATE AND CONFERENCE VERSIONS OF THE ENERGY TAX PROVISIONS OF H.R. 5263

[In millions of dollars]

Item	House					Senate					Conference

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate, by Mr. Sparrow, one of its clerks, announced that the Senate had passed with an amendment, in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 9937. An act to amend the Bank Holding Company Act Amendments of 1970.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 10173) entitled "An act to amend ttile 38, United States Code, to improve the pension programs for veterans, and survivors of veterans, of the Mexican border period, World War I, World War II, the Korean conflict, and the Vietnam era, and for other purposes."

The message also announced that the Senate had passed bills of the following titles, in which the concurrence of the House is requested:

S. 2. An act to require authorizations of new budget authority for Government programs at least every 5 years, to provide for review of Government programs every 5 years, and for other purposes;

S. 3158. An act to authorize the investigation to study the feasibility of the Santa Cruz Dam and Reservoir, Santa Cruz Irrigation District, New Mexico, and for other purposes; and

S. 3371. An act to repeal certain provisions of law establishing limits on the amount of land certain religious corporations may hold in any Territory of the United States.

The message also announced that the Vice President, pursuant to Public Law 84–689, appointed Mr. BENTSEN to attend the North Atlantic Assembly, to be held in Lisbon, Portugal, November 26–30, 1978.

ESTABLISHING FEES AND ALLOWING PER DIEM AND MILEAGE EXPENSES FOR WITNESSES BEFORE U.S. COURTS

Mr. KASTENMEIER. Mr. Speaker, I ask unanimous consent for the immediate consideration of the Senate bill (S. 2049) to establish fees and allow per diem and mileage expenses for witnesses before U.S. courts.

The clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

Mr. BAUMAN. Mr. Speaker, reserving the right to object, I do so for the purpose of allowing the gentleman an opportunity to give us a brief explanation.

Mr. KASTENMEIER. Mr. Speaker, if the gentleman from Maryland will yield, in brief, the purpose of the bill is to revise fees and travel and subsistence allowances for witnesses established in 28 U.S.C. 1821. Witness fees and allowances now provided pursuant to section 1821, because of inflation, no longer compensate the average witness for the actual costs which witness service entails, nor does section 1821 permit compensation for a variety of travel expenses which witnesses routinely incur. The proposed legislation would alleviate these difficulties by increasing attendance fees from $20 to $30 per day, and by changing the method of computation for travel allowances and subsistence pay.

There is no opposition to the proposed legislation, and I urge its adoption.

Mr. BAUMAN. Mr. Speaker, I thank the gentleman for his explanation, and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The Clerk read the Senate bill, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 1821 of title 28, United States Code, is amended to read as follows:

"§ 1821. Per diem and mileage generally; subsistence

"(a) A witness in attendance at any court of the United States, or before a United States magistrate, or before any person authorized to take his deposition pursuant to any rule or order of a court of the United States, shall receive the fees and allowances which this section provides, except as otherwise provided by law. The phrase 'any court of the United States' shall include, in addition to the courts of the United States listed in section 451, any court created by Act of Congress in a territory which is invested with any jurisdiction of a district court of the United States. An alien who has been paroled into the United States for prosecution, pursuant to section 212(d)(5) of the Immigration and Nationality Act (8 U.S.C. 1182(d)(5)), or an alien who either has admitted belonging to a class of aliens who are deportable or has been determined pursuant to section 242(b) of the Act (8 U.S.C. 1252(b)) to be deportable shall be ineligible to receive the fees or allowances which this section provides.

"(b) Witnesses shall receive $30 for each day's attendance, which includes time necessarily occupied in going to and returning from the place of attendance.

"(c) Witnesses shall receive compensation for the actual expenses of travel on the basis of the means of transportation reasonably utilized and the distances actually and necessarily traveled. Witnesses who travel by common carrier shall receive the costs of transportation at the most economical rate available. A receipt or other evidence of actual cost shall be furnished. Witnesses who travel by privately owned vehicle (automobile, airplane, or motorcycle) shall receive a travel allowance equal to the mileage allowance which the Administrator of General Services prescribes pursuant to section 5704 of title 5, United States Code for official travel by employees of the Government. Computation of mileage under this section shall be made on the basis of a uniform table of distances adopted by the Administrator. Witnesses shall also receive reimbursement for incidental travel expenses, such as toll roads, bridges, tunnels, and ferries; taxicab fares between places of lodging and carrier terminals; and parking fees, upon presentation of a valid parking receipt. In the district of Alaska, whenever the use of a snowmobile, dog team, or boat is approved by the court, a United States magistrate, the United States attorney, or an assistant United States attorney, witnesses shall be paid the actual rental cost or reasonable estimate of necessary expenses. All normal travel expenses within and outside the judicial district shall be taxable as costs pursuant to section 1920 of this title.

"(d) Witnesses, other than those who are incarcerated, who attend at points so far removed from the respective residences as to prohibit return thereto from day to day shall receive an additional allowance for subsistence expenses for each night they must spend away from their residences. Such witnesses who attend in areas which the Administrator of General Services has designated as high cost areas under section 5702(c)(B), title 5, United States Code, shall receive an allowance equal to the maximum actual subsistence allowance which the Administrator prescribes for that area for official travel by employees of the Government. Such witnesses who attend in other areas shall receive an allowance equal to the maximum per diem allowance which the Administrator of General Services prescribes pursuant to section 5702(a) of title 5, United States Code, for official travel by employees of the Government in that area.

"(e) When a witness is detained for want of security for his apperance pursuant to section 3149 of title 18, United States Code, he shall be entitled for each day of detention when not in attendance at court, in addition to his subsistence, to the daily attendance fee which subsection (b) of this section provides.".

SEC. 2. The amendments made by this Act shall take effect on October 1, 1978.

COMMITTEE AMENDMENT

The SPEAKER pro tempore. The Clerk will report the committee amendment.

The Clerk read as follows:

Committee amendment: Strike all after the enacting clause and insert:

S. 2049

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 1821 of title 28, United States Code, is amended to read as follows:

"§ 1821. Per diem and mileage generally; subsistence

"(a)(1) Except as otherwise provided by law, a witness in attendance at any court of the United States, or before a United States Magistrate, or before any person authorized to take his deposition pursuant to any rule or order of a court of the United States, shall be paid the fees and allowances provided by this section.

"(2) As used in this section, the term 'court of the United States' includes, in addition to the courts listed in section 451 of this title, any court created by Act of Congress in a territory which is invested with any jurisdiction of a district court of the United States.

"(b) A witness shall be paid an attendance fee of $30 per day for each day's attendance. A witness shall also be paid the attendance fee for the time necessarily occupied in going to and returning from the place of attendance at the begining and end of such attendance or at any time during such attendance.

"(c)(1) A witness who travels by common carrier shall be paid for the actual expenses of travel on the basis of the means of transportation reasonably utilized and the distance necessarily traveled to and from such witness's residence by the shortest practical route in going to and returning from the place of attendance. Such a witness shall utilize a common carrier at the most economical rate reasonably available. A receipt or other evidence of actual cost shall be furnished.

"(2) A travel allowance equal to the mileage allowance which the Administrator of General Services has prescribed, pursuant to section 5704 of title 5, for official travel of employees of the Federal Government shall be paid to each witness who travels by privately owned vehicle. Computation of mileage under this paragraph shall be made on the basis of a uniform table of distances adopted by the Administrator of General Services.

"(3) Toll charges for toll roads, bridges, tunnels, and ferries, taxicab fares between places of lodging and carrier terminals, and parking fees (upon presentation of a valid parking receipt), shall be paid in full to a witness incurring such expenses.

"(4) All normal travel expenses within and outside the judicial district shall be taxable as costs pursuant to section 1920 of this title.

"(d)(1) A subsistence allowance shall be paid to a witness (other than a witness who is incarcerated) when an overnight stay is required at the place of attendance because such place is so far removed from the residence of such witness as to prohibit return thereto from day to day.

"(2) A subsistence allowance for a witness shall be paid in an amount not to exceed the maximum per diem allowance prescribed by the Administrator of General Services, pursuant to section 5702(a) of title 5, for official travel in the area of attendance by employees of the Federal Government.

"(3) A subsistence allowance for a witness attending in an area designated by the Administrator of General Services as a high-cost area shall be paid in an amount not to exceed the maximum actual subsistence allowance prescribed by the Administrator, pursuant to section 5702(c)(B) of title 5, for official travel in such area by employees of the Federal Government.

"(4) When a witness is detained pursuant to section 3149 of title 18 for want of security for his appearance, he shall be entitled for each day of detention when not in attendance at court, in addition to his subsistence, to the daily attendance fee provided by subsection (b) of this section.

"(e) An alien who has been paroled into the United States for prosecution, pursuant to section 212(d)(5) of the Immigration and Nationality Act (8 U.S.C. 1182(d)(5)), or an alien who either has admitted belonging to a class of aliens who are deportable or has been determined pursuant to section 242(b) of such Act (8 U.S.C. 1252(b)) to be deportable, shall be ineligible to receive the fees or allowances provided by this section.".

SEC. 2. The amendments made by this Act shall take effect on October 1, 1978, or on the date of enactment, whichever occurs later.

Mr. KASTENMEIER (during the reading). Mr. Speaker, I ask unanimous consent to dispense with further reading of the committee amendment, and that it be printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The committee amendment was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

JURY SYSTEM IMPROVEMENTS ACT OF 1978

Mr. KASTENMEIER. Mr. Speaker, I ask unanimous consent for the immediate consideration of the Senate bill (S. 2075) to amend the Jury Selection and Service Act of 1968, as amended, by revising the section on fees of jurors and by providing for a civil penalty and injunctive relief in the event of a discharge or threatened discharge of an employee by reason of such employee's Federal jury service.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

Mr. ASHBROOK. Mr. Speaker, reserving the right to object, I take this time to yield to my colleague from Wisconsin to explain this measure.

Mr. KASTENMEIER. Mr. Speaker, I will be happy to explain.

This bill—an omnibus jury reform proposal—is actually a composite of three bills which passed the Senate unanimously by voice vote (S. 2072, S. 2074, and S. 2075). The proposed legislation, much of which has been recommended by the Judicial Conference in previous Congresses and some of which passed the Senate in the 94th Congress, make five changes in existing law:

First, it makes the excuse of prospective jurors from Federal jury service on the grounds of distance from the place of holding court contingent upon a showing of hardship on an individual basis.

Second, it clarifies existing law with respect to the qualification for jury service of persons who have been convicted of a crime and have subsequently had their civil rights restored.

Third, it adds to the definitional section of the Jury Selection and Service Act definitions relating to excuse from jury service, in order to allow the district court to grant excuses on a case-by-case basis; and relating to the jury selection and summoning process, in order to clarify the authority of the District Court to utilize automatic data processing in the selection of juries.

Fourth, it revises in its entirety the jury fee and subsistence allowance sections.

Last, it adds new provisions for a civil penalty and for injunctive relief against an employer who discharges or coerces an employee as a result of the employee's Federal jury service or summons for such service.

All of these changes are improvements to the existing system. The legislation is noncontroversial and without opposition. It has the support of the U.S. Department of Justice, the Judicial Conference, the American Bar Association, the American Civil Liberties Union, and the National Legal Aid and Defender Association.

Mr. ASHBROOK. Mr. Speaker, further reserving the right to object, I concur entirely with the statements of my colleague from Wisconsin. In the hope that it would not interfere with the passage of the bill, I would indicate that there is no opposition, I understand, in the Committee on the Judiciary.

Mr. BUTLER. Mr. Speaker, will the gentleman yield?

Mr. ASHBROOK. I yield to the gentleman from Virginia.

Mr. BUTLER. Mr. Speaker, I thank the gentleman for his concise explanation and would just like to add that 10 years have now elapsed since the requirements of the Federal jury system have been comprehensively addressed by legislation. The passage of time has revealed the need for adjustment in several particulars, which have been suggested to the Congress by the Judicial Conference of the United States. The most glaring inadequacy is with respect to the compensation of Federal jurors. Section 1871 of title 28, United States Code, now provides for them to receive an attendance fee of $20 per day for each day of actual attendance at court or in necessary travel between their residence and the place of holding court. It further establishes a travel allowance of 10 cents per mile and a subsistence allowance, when an overnight stay is required, of $16 per day. The passage of 10 years has now rendered these rates inadequate to reasonably compensate jurors for the valuable service which they are called upon to render to the Federal judiciary and to the citizens of the United States. The allowances for travel and subsistence are particularly out of harmony with current economic conditions. By contrast, Federal employees in official travel status are now entitled to receive 17 cents per mile for the use of their automobiles, as compared to 10 cents for jurors, and to a subsistence allowance of

$35 per day against a $16 allowance for jurors.

The current proposal will increase witness fees to $30 a day and allow the director of the Administrative Office of Courts to set subsistence allowances and transportation expenses that are equivalent to what Federal employees receive. The slight additional expense which would accrue to the Government is a small price to pay in order to insure the continued availability to the Federal courts of jurors chosen from a representative cross-section of the population. Thus, I urge the passage of S. 2049.

Mr. ASHBROOK. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The Clerk read the Senate bill as follows:

S. 2075

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Jury Fee and Juror Employment Act of 1978".

SEC. 2. Section 1871 of title 28, United States Code, is amended in its entirety to read as follows:

"§ 1871. Fees

"(a) GENERAL AUTHORITY.—Grand and petit jurors in district courts appearing pursuant to this chapter shall be paid the fees and allowances provided by this section. The requisite fees and allowances shall be disbursed on the certificate of the clerk of court in accordance with the procedure established by the Director of the Administrative Office of the United States Courts.

"(b) ATTENDANCE FEE.—A juror shall be paid an attendance fee of $30 per day for actual attendance at the place of trial or hearing. A juror shall also be paid the attendance fee for the time necessarily occupied in going to and returning from such place at the beginning and end of such service or at any time during the same.

"A petit juror required to attend more than thirty days in hearing one case shall be paid an additional attendance fee of $5 per day for each day in excess of thirty days in which he is required to hear such case.

"A grand juror required to attend for more than forty-five days of actual service shall be paid an additional attendance fee of $5 per day for each day in excess of forty-five days of actual service.

"(c) TRAVEL ALLOWANCES; TOLL CHARGES; PARKING FEES; TRAVEL IN AREAS OTHER THAN THE CONTIGUOUS STATES OF THE UNITED STATES.—A travel allowance equal to the maximum rate per mile that the Director of the Administrative Office of the United States Courts has prescribed pursuant to section 604(a)(7) of this title for payment to supporting court personnel in travel status using privately owned automobiles shall be paid to each juror, regardless of the mode of transportation actually employed. The prescribed rate shall be paid for the distance necessarily traveled to and from a juror's residence by the shortest practical route in going to and returning from the place of service. Actual mileage in full at the prescribed rate is payable at the beginning and at the end of a juror's term of service.

"The Director shall promulgate rules regulating interim travel allowances to jurors. Distances traveled to and from court should coincide with the shortest practical route.

"Toll charges for toll roads, bridges, tunnels, and ferries shall be paid in full to the juror incurring these charges. In the discretion of the court, reasonable parking fees may be paid to the juror incurring such charges upon presentation of a valid parking receipt. Parking charges shall not be included in any tabulation of mileage cost allowances.

"Any juror who travels to district court pursuant to summons in an area outside of the contiguous forty-eight States of the United States shall be paid the travel expenses provided under this section, or actual reasonable transportation expenses subject to the discretion of the district judge or clerk of court as circumstances indicate, exercising due regard for the mode of transportation, the availability of alternative modes, and the shortest practical route from residence to court.

"(d) SUBSISTENCE ALLOWANCES; SUBSISTENCE IN AREAS OUTSIDE OF THE CONTIGUOUS UNITED STATES.—A subsistence allowance covering meals and lodging shall be established from time to time by the Director of the Administrative Office of the United States Courts pursuant to section 604(a)(7) of this title, except that such allowance shall not exceed the allowance for supporting court personnel in travel status in the same geographical area, and such claims shall not require itemization.

"Such subsistence allowance shall be paid to a juror when an overnight stay is required at the place of holding court, and for the time necessarily spent in traveling to and from the place of attendance if an overnight stay is required.

"A subsistence allowance for jurors serving in district courts outside of the contiguous forty eight States of the United States shall be allowed at a rate equal to that per diem allowance which is paid to supporting court personnel in travel status in those areas where the Director of the Administrative Office of the United States Courts has prescribed an increased per diem fee pursuant to section 604 (a) (7) of this title.

"(e) SEQUESTERED JURORS.—Whenever in any situation a jury is ordered to be kept together and not to separate, the actual cost of subsistence during such period shall be paid upon the order of the court in lieu of the subsistence allowances payable under subsection (d). Such allowance for the jurors ordered to be kept separate or sequestered shall include the cost of meals, lodging, and other expenditures ordered in the discretion of the court for their convenience and comfort.

"(f) PUBLIC TRANSPORTATION; TRANSPORTATION AFTER HOURS.—A juror who uses public transportation in traveling to and from the court, the reasonable cost of which is not met by the transportation expenses allowable under subsection (c) of this section on account of the short distance traveled in miles, may be paid in the discretion of the court the actual reasonable expense of such public transportation, pursuant to the methods of payment provided by this section. Jurors who are required to remain at the court beyond the normal business closing hour for deliberation or for any other reason may be transported to their homes, or to temporary lodgings where such lodgings are ordered by the court, in a manner directed by the clerk and paid from funds authorized under this section.

"(g) REGULATIONS.—The Director of the Administrative Office of the United States Courts shall promulgate such regulations as may be necessary to carry out his authority under this section.".

SEC. 3. (a) Chapter 121 of title 28, United States Code, is amended by adding at the end thereof the following new section:

"§ 1875. EMPLOYMENT RIGHTS

"(a) In the case of any individual who is absent from a position (other than a temporary position as defined by the Director of the Administrative Office of the United States Courts) in the employ of any employer to perform jury service, and who receives a certificate from the court verifying such service, and makes application, promptly after he is relieved from such service, to return to such position—

"(1) if such position was in the employ of a private employer, such individual shall—

"(A) if still qualified to perform the duties of such position, be restored by such employer or his successor in interest to such position or to a position of like seniority, status, and pay; or

"(B) if not qualified to perform the duties of such position by reason of disability sustained during the period of such service but qualified to perform the duties of any other position in the employ of such employer or his successor in interest, be restored by such employer or his successor in interest to such other position the duties of which he is qualified to perform as will provide him like seniority, status, and pay, or the nearest approximation thereof consistent with the circumstances in his case;

unless the employer's circumstances have so changed as to make it impossible or unreasonable to do so; or

"(2) if such position was in the employ of any State or political subdivision thereof, it is declared to be the sense of the Congress that such individual should—

"(A) if still qualified to perform the duties of such position, be restored to such position or to a position of like seniority, status, and pay; or

"(B) if not qualified to perform the duties of such position by reason of disability sustained during the period of such service but qualified to perform the duties of any other position in the employ of the employer, be restored to such other position the duties of which he is qualified to perform as will provide him like seniority, status, and pay, or the nearest approximation thereof consistent with the circumstances in his case.

"(b)(1) Any individual who is restored to a position in accordance with the provisions of paragraph (1) of subsection (a) of this section shall be considered as having been on furlough or leave of absence during his period of jury service, shall be so restored without loss of seniority, and shall be entitled to participate in insurance or other benefits offered by the employer pursuant to established rules and practices relating to employees on furlough or leave of absence in effect with the employer at the time such individual entered upon jury service.

"(2) It is declared to be the sense of the Congress that any individual who is restored to a position in accordance with the provisions of paragraph (2) of subsection (a) of this section should be so restored as to give the individual such status in his employment continuously from the time of his entering upon jury service until the time of his restoration to such employment.

"(c) In any case in which two or more individuals who are entitled to be restored to a position under the provisions of this section, or any other law relating to similar reemployment benefits, left the same position in order to enter upon jury service, the individual who left such position first shall have the prior right to be restored thereto, without prejudice to the reemployment rights of any other individual to be restored.

"(d)(1) An individual claiming entitlement to the benefits of section 1875 of this title may make application to the district court for the district in which the employer alleged to have violated such section maintains a place of business and the court shall, upon finding probable merit in such claim, appoint counsel to represent such individual in any action in the district court necessary to the resolution of such claim. Such counsel shall be compensated and necessary expenses paid to the extent provided by the Criminal Justice Act of 1964 (78 Stat. 552; 18 U.S.C. 3006A). The court may tax a defendant employer, as costs payable to the court, the

attorney fees and expenses of a prevailing employee, where such costs were expended by the court pursuant to this subsection.

"(2) In any action or proceeding under this section the court shall award a prevailing juror who brings such action by retained counsel a reasonable attorney's fee as part of the costs.

"(3) No fees or court costs may be taxed against any individual bringing any action in good faith under this section.

"(c) Any private employer who fails to reinstate, discharges, threatens to discharge, intimidates, or coerces any employee by reason of such employee's jury service, attendance, or scheduled attendance in connection with such service, in any court of the United States shall be subject to a civil penalty of not more than $10,000 for each violation as to each juror.

"(f) For purposes of this section, the term 'jury service' includes attendance in any court of the United States in connection with service upon any grand or petit jury of the United States.".

(b) The analysis of such chapter 121 of title 28, United States Code, is amended by adding at the end thereof the following new item:

"1875. Employment rights.".

SEC. 4. Section 1869 of title 28, United States Code, is amended by adding at the end thereof the following:

"(j) 'undue hardship or extreme inconvenience' as a basis for excuse from immediate jury service under section 1866(c)(1) of this chapter shall include undue hardship or extreme inconvenience to the prospective juror, such as grave illness in the family or any other emergency which outweighs in immediacy and urgency his obligation to serve as a juror when summoned. Additionally, in situations where it is anticipated that a trial or grand jury proceeding may require more than thirty continuous days of service, the court may consider, as a further basis for temporary excuse, severe economic hardship to an employer which would result from the absence of a key employee at the time when he is summoned for jury service.".

SEC. 5. (a) Chapter 85 of title 28, United States Code, is amended by adding at the end thereof the following new section:

"§ 1364. Employment rights of jurors

"The district courts shall have original jurisdiction, without regard to the amount in controversy, to require any private employer to comply with the provisions of section 1875 of this title, and to award damages for any loss of wages or other benefits suffered by reason of such employer's failure so to comply.".

(b) The analysis of such chapter is amended by adding at the end thereof the following new item:

"1364. Employment rights of jurors.".

SEC. 6. The amendments made by section 2 of this Act shall apply in the case of any grand or petit juror serving on or after October 1, 1978, and the amendments made by sections 3, 4, and 5 of this Act shall apply to any grand or petit juror summoned for service or actually serving on or after the date of enactment of this Act.

With the following committee amendment:

Strike all after the enacting clause and insert:

SHORT TITLE

SECTION 1. This Act may be cited as the "Jury System Improvements Act of 1978".

EXCUSE FROM JURY DUTY

SEC. 2. (a) Section 1863(b) of title 28, United States Code, is amended—

(1) by striking out paragraph (7); and

(2) by redesignating paragraphs (8) and (9), and all references thereto, as paragraphs (7) and (8), respectively.

(b) Section 1866(c) of title 28, United States Code, is amended by striking out "paragraph (5), (6), or (7)" and inserting in lieu thereof "paragraph (5) or (6)".

JURY SERVICE UPON RESTORATION OF CIVIL RIGHTS

SEC. 3. (a) Section 1865(b)(5) of title 28, United States Code, is amended by striking out "by pardon or amnesty".

(b) Section 1869(h) of title 28, United States Code, is amended by striking out "by pardon or amnesty.".

DEFINITIONS

SEC. 4. Section 1869 of title 28, United States Code, is amended—

(1) by striking out the period at the end of subsection (i) and inserting in lieu thereof a semicolon; and

(2) by adding at the end thereof the following new subsections:

"(j) 'undue hardship or extreme inconvenience', as a basis for excuse from immediate jury service under section 1866(c)(1) of this chapter, shall mean great distance, either in miles or traveltime, from the place of holding court, grave illness in the family or any other emergency which outweighs in immediacy and urgency the obligation to serve as a juror when summoned, or any other factor which the court determines to constitute an undue hardship or to create an extreme inconvenience to the juror; and in addition, in situations where it is anticipated that a trial or grand jury proceeding may require more than thirty days of service, the court may consider, as a further basis for temporary excuse, severe economic hardship to an employer which would result from the absence of a key employee during the period of such service;

"(k) 'publicly draw', as referred to in sections 1864 and 1866 of this chapter, shall mean a drawing which is conducted within the district after reasonable public notice and which is open to the public at large under the supervision of the clerk or jury commission, except that when a drawing is made by means of electronic data processing, 'publicly draw' shall mean a drawing which is conducted at a data processing center located in or out of the district, after reasonable public notice given in the district for which juror names are being drawn, and which is open to the public at large under such supervision of the clerk or jury commission as the Judicial Conference of the United States shall by regulation require; and

"(l) 'jury summons' shall mean a summons issued by a clerk of court, jury commission, or their duly designated deputies, containing either a preprinted or stamped seal of court, and containing the name of the issuing clerk imprinted in preprinted, type, or facsimile manner on the summons or the envelopes transmitting the summons.".

FEES OF JURORS

SEC. 5. Section 1871 of title 28, United States Code, is amended to read as follows:

"§ 1871. Fees

"(a) Grand and petit jurors in district courts appearing pursuant to this chapter shall be paid the fees and allowances provided by this section. The requisite fees and allowances shall be disbursed on the certificate of the clerk of court in accordance with the procedure established by the Director of the Administrative Office of the United States Courts. Attendance fees for extended service under subsection (b) of this section shall be certified by the clerk only upon the order of a district judge.

"(b)(1) A juror shall be paid an attendance fee of $30 per day for actual attendance at the place of trial for hearing. A juror shall also be paid the attendance fee for the time necessarily occupied in going to and returning from such place at the beginning and end of such service or at any time during such service.

"(2) A petit juror required to attend more than thirty days in hearing one case may be paid, in the discretion of the trial judge, an additional fee, not exceeding $5 more than the attendance fee, for each day in excess of thirty days on which he is required to hear such case.

"(3) A grand juror required to attend more than forty-five days of actual service may be paid, in the discretion of the district judge in charge of the particular grand jury, an additional fee, not exceeding $5 more than the attendance fee, for each day in excess of forty-five days of actual service.

"(4) A grand or petit juror required to attend more than ten days of actual service may be paid, in the discretion of the judge, the appropriate fees at the end of the first ten days and at the end of every ten days of service thereafter.

"(5) Certification of additional attendance fees may be ordered by the judge to be made effective commencing on the first day of extended service, without reference to the date of such certification.

"(c)(1) A travel allowance not to exceed the maximum rate per mile that the Director of the Administrative Office of the United States Courts has prescribed pursuant to section 604(a)(7) of this title for payment to supporting court personnel in travel status using privately owned automobiles shall be paid to each juror, regardless of the mode of transportation actually employed. The prescribed rate shall be paid for the distance necessarily traveled to and from a juror's residence by the shortest practical route in going to and returning from the place of service. Actual mileage in full at the prescribed rate is payable at the beginning and at the end of a juror's term of service.

"(2) The Director shall promulgate rules regulating interim travel allowances to jurors. Distances traveled to and from court should coincide with the shortest practical route.

"(3) Toll charges for toll roads, bridges, tunnels, and ferries shall be paid in full to the juror incurring such charges. In the discretion of the court, reasonable parking fees may be paid to the juror incurring such fees upon presentation of a valid parking receipt. Parking fees shall not be included in any tabulation of mileage cost allowances.

"(4) Any juror who travels to district court pursuant to summons in an area outside of the contiguous forty-eight States of the United States shall be paid the travel expenses provided under this section, or actual reasonable transportation expenses subject to the discretion of the district judge or clerk of court as circumstances indicate, exercising due regard for the mode of transportation, the availability of alternative modes, and the shortest practical route between residence and court.

"(d)(1) A subsistence allowance covering meals and lodging of jurors shall be established from time to time by the Director of the Administrative Office of the United States Courts pursuant to section 604(a)(7) of this title, except that such allowance shall not exceed the allowance for supporting court personnel in travel status in the same geographical area. Claims for such allowance shall not require itemization.

"(2) A subsistence allowance shall be paid to a juror when an overnight stay is required at the place of holding court, and for the time necessarily spent in traveling to and from the place of attendance if an overnight stay is required.

"(3) A subsistence allowance for jurors serving in district courts outside of the contiguous forty-eight States of the United States shall be allowed at a rate not to exceed that per diem allowance which is paid to supporting court personnel in travel status in those areas where the Diretcor of the Administrative Office of the United States Courts

has prescribed an increased per diem fee pursuant to section 604(a)(7) of this title.

"(e) During any period in which a jury is ordered to be kept together and not to separate, the actual cost of subsistence shall be paid upon the order of the court in lieu of the subsistence allowances payable under subsection (d) of this section. Such allowance for the jurors ordered to be kept separate or sequestered shall include the cost of meals, lodging, and other expenditures ordered in the discretion of the court for their convenience and comfort.

"(f) A juror who must necessarily use public transportation in traveling to and from court, the full cost of which is not met by the transportation expenses allowable under subsection (c) of this section on account of the short distance traveled in miles, may be paid, in the discretion of the court, the actual reasonable expense of such public transportation, pursuant to the methods of payment provided by this section. Jurors who are required to remain at the court beyond the normal business closing hour for deliberation or for any other reason may be transported to their homes, or to temporary lodgings where such lodgings are ordered by the court, in a manner directed by the clerk and paid from funds authorized under this section.

"(g) The Director of the Administrative Office of the United States Courts shall promulgate such regulations as may be necessary to carry out his authority under this section.".

PROTECTION OF JURORS' EMPLOYMENT

SEC. 6. (a)(1) Chapter 121 of title 28, United States Code, is amended by adding at the end thereof the following new section:

"§ 1875. Protection of jurors' employment

"(a) No employer shall discharge, threaten to discharge, intimidate, or coerce any permanent employee by reason of such employee's jury service, or the attendance or scheduled attendance in connection with such service, in any court of the United States.

"(b) Any employer who violates the provisions of this section—

"(1) shall be liable for damages for any loss of wages or other benefits suffered by an employee by reason of such violation;

"(2) may be enjoined from further violations of this section and ordered to provide other appropriate relief, including but not limited to the reinstatement of any employee discharged by reason of his jury service; and

"(3) shall be subject to a civil penalty of not more than $1,000 for each violation as to each employee.

"(c) Any individual who is reinstated to a position of employment in accordance with the provisions of this section shall be considered as having been on furlough or leave of absence during his period of jury service, shall be reinstated to his position of employment without loss of seniority, and shall be entitled to participate in insurance or other benefits offered by the employer pursuant to established rules and practices relating to employees on furlough or leave of absence in effect with the employer at the time such individual entered upon jury service.

"(d) An individual claiming that his employer has violated the provisions of this section may make application to the district court for the district in which such employer maintains a place of business and the court shall, upon finding probable merit in such claim, appoint counsel to represent such individual in any action in the district court necessary to the resolution of such claim. Such counsel shall be compensated and necessary expenses repaid to the extent provided by section 3006A of title 18, United States Code.

"(2) In any action or proceeding under this section, the court may award a prevailing employee who brings such action by retained counsel a reasonable attorney's fee as part of the costs. The court may award a prevailing employer a reasonable attorney's fee as part of the costs if the court determines that the action is frivolous, vexatious, or brought in bad faith.".

(2) The chapter analysis of chapter 121 of title 28, United States Code, is amended by adding at the end thereof the following new item:

"1875. Protection of jurors' employment.".

(b)(1) Chapter 85 of title 28, United States Code, is amended by redesignating section 1363, and all references thereto, as section 1364, and by inserting immediately after section 1362 the following new section:

"§ 1363. Jurors' employment rights

"The district courts shall have original jurisdiction of any civil action brought for the protection of jurors' employment under section 1875 of this title.".

(2) The chapter analysis of chapter 85 of title 28, United States Code, is amended by striking out the item relating to section 1363 and inserting in lieu thereof the following:

"1363. Jurors' employment rights.
"1364. Construction of references to laws of the United States or Acts of Congress.".

EFFECTIVE DATE

SEC. 7. (a) Except as provided in subsection (b) of this section, the amendments made by this Act shall apply with respect to any grand or petit juror summoned for service or actually serving on or after the date of enactment of this Act.

(b) The amendment made by section 5 of this Act shall apply with respect to any grand or petit juror serving on or after the sixtieth day following the date of enactment of this Act.

Mr. KASTENMEIER (during the reading). Mr. Speaker, I ask unanimous consent that the committee amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The committee amendment was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and a motion to reconsider was laid on the table.

MAKING CERTAIN CHANGES IN DIVISIONS WITHIN JUDICIAL DISTRICTS AND REQUIRING DIRECTOR OF ADMNISTRATIVE OFFICE OF U.S. COURTS TO CONDUCT CERTAIN STUDIES

Mr. KASTENMEIER. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (H.R. 14145) to amend title 28 of the United States Code to make certain changes in the divisions within judicial districts and in the places of holding court, and to require the Director of the Administrative Office of the U.S. Courts to conduct a study of the judicial business of the Central District of California and the Eastern District of New York.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

Mr. ASHBROOK. Mr. Speaker, reserving the right to object, I do so for the purpose of yielding to my colleague from Wisconsin for an explanation of this measure.

Mr. KASTENMEIER. If the gentleman will yield, I will be happy to explain this.

This bill consists really of 6 sections. It amended the Central District of Illinois by removing Kankakee County from the central district and placing it in the northern district. It was in response to the urgent request of the gentleman from Illinois (Mr. O'BRIEN).

Section 2 eliminates the judicial divisions in the State of Maine. This too is not controversial. No one is opposed to this. It is just an accommodation for the members from the State of Maine for additional flexibility and more efficient operation in its district court.

The city of White Plains is added as a place for holding court for the southern district.

Jamestown in western Pennsylvania is added as an additional place of holding court.

Section 5 requires the Director of the Administrative Office of the U.S. courts to conduct a comprehensive study of the judicial business of the Central District of California and the Eastern District of New York and to make recommendations to the Congress with respect to the need or lack of need for creation of new judicial districts. In conducting his study, the Director may interview all the active district judges from the areas in question and surrounding judicial districts.

Mr. Speaker, I know of no opposition to this.

● Mr. OTTINGER. Mr. Speaker, I rise in strong support of H.R. 14145 which makes certain changes in the places of holding court, including authorizing the holding of court for the southern district at White Plains, N.Y.

As the representative in Congress of major portions of Westchester County, N.Y., including the city of White Plains, I feel there is a very strong case to be made in favor of establishing a location in Westchester for the court of the southern district.

The Westchester County Bar Association made an extensive study on the feasibility of holding court in the city of White Plains and concluded that such a site would greatly improve service to the nine counties in the southern district which lie outside of New York City.

Currently, only one courthouse services the entire southern district, and the distances which must be traveled to reach Foley Square in Manhattan make it terribly inconvenient for a major portion of the public, the bar, and the court. The distances involved severely deplete the court's pool of jurors, as a person residing more than 50 miles from a courthouse can be excused from jury duty upon request. It was noted in the Westchester County Bar Association report supporting the White Plains location that problems concerning jury selection have been severe because of the large area covered by the Foley Square courthouse.

Roughly 40 percent of the people in the jurisdiction of the southern district live outside of New York City. All nine counties outside of the city are experiencing population growth and the trend during the next decade is for further in-

creases in population in the counties outside of New York City.

The southern district handles one of the busiest caseloads in the Nation. Roughly two-thirds of all pending civil cases in the second circuit are pending in the southern district. In fiscal year 1973, the southern district ranked 8th out of 94 district courts in new criminal cases started and pending.

The establishment of a division of the southern district in White Plains is supported by the Westchester County Bar Association and all other county bar associations in the district. It is also supported by the Judges of the southern district who unanimously adopted a resolution of approval.

White Plains is the county seat of Westchester. Roughly 48 percent of the population in the nine-county area of the southern district outside of New York City reside in Westchester County. White Plains is easily accessible by various means of transportation. The headquarters for many large corporations and banking institutions are located in the White Plains area. In addition, the center of the city is being revitalized through extensive urban renewal efforts, and could easily accommodate the physical needs of the court.

In conclusion, I urge my colleagues to support H.R. 14145, as I know the bill will enhance the operation of the court of the southern district.●

Mr. ASHBROOK. Mr. Speaker, further reserving the right to object, I understand there is no additional cost in sections 1, 2, and 5 and there may be additional cost in sections 3 and 4, but the additional costs would be minimal. Is that correct?

Mr. KASTENMEIER. That is correct.

Mr. ASHBROOK. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Wisconsin?

Mr. OTTINGER. Mr. Speaker, reserving the right to object, I strongly support this legislation.

I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The Clerk read the bill, as follows:

H.R. 14145

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 99 of title 28 of the United States Code is amended to read as follows:

§ 99. Maine

"Maine constitutes one judicial district.

"Court shall be held at Bangor and Portland."

SEC. 2. The last sentence of section 112(b) of title 28, United States Code, is amended to read as follows:

"Court for the Southern District shall be held at New York and White Plains.".

SEC. 3. The last sentence of section 118(e) of title 28, United States Code, is amended to read as follows:

"Court for the Western District shall be held at Erie, Johnstown, and Pittsburgh.".

SEC. 4 (a) Section 124(b)(2) of title 28, United States Code, is amended by striking out "Polk," and "Trinity,".

(b) Section 124(e) of title 28, United States Code, is amended to read as follows:

"Eastern District

"(e) The Eastern District comprises seven divisions.

"(1) The Tyler Division comprises the counties of Anderson, Gregg, Henderson, Panola, Rains, Rusk, Smith, Van Zandt, and Wood.

"Court for the Tyler Division shall be held at Tyler.

"(2) The Beaumont Division comprises the counties of Hardin, Jefferson, Liberty, and Orange.

"Court for the Beaumont Division shall be held at Beaumont.

"(3) The Sherman Division comprises the counties of Collin, Cook, Denton, and Grayson.

"Court for the Sherman Division shall be held at Sherman.

"(4) The Paris Division comprises the counties of Delta, Fannin, Hopkins, Lamar, and Red River.

"Court for the Paris Division shall be held at Paris.

"(5) The Marshall Division comprises the counties of Camp, Cass, Harrison, Marion, Morris, and Upshur.

"Court for the Marshall Division shall be held at Marshall.

"(6) The Texarkana Division comprises the counties of Bowie, Franklin, and Titus.

"Court for the Taxarkana Division shall be held at Texarkana.

"(7) The Lufkin Division comprises the counties of Angelina, Cherokee, Houston, Jasper, Nacogdoches, Newton, Polls, Sabine, San Augustine, Shelby, Trinity, and Tyler.

"Court for the Lufkin Division shall be held at Lufkin.".

SEC. 5. Within one year after the date of enactment of this Act, the Director of the Administrative Office of the United States Courts shall conduct a comprehensive study of the judicial business of the Central District of California and the Eastern District of New York, and shall make recommendations to the Congress with respect to the need for creation of new judicial districts from portions of the judicial districts referred to in this section or the immediately surrounding judicial districts.

SEC. 6. (a) Except as provided in subsection (b) of this section, the provisions of this Act shall take effect 180 days after the date of enactment of this Act.

(b) The provisions of section 5 of this Act shall take effect on the date of enactment of this Act.

(c) Nothing in this Act shall affect the composition or preclude the service of any grand or petit juror summoned, empaneled, or actually serving in any judicial district on the effective date of this Act.

With the following committee amendment:

Strike out all after the enacting clause and insert in lieu thereof the following:

That section 93 of title 28, United States Code, is amended—

(1) in paragraph (1) of subsection (a), by striking out "Kankakee,", and

(2) in subsection (b), by inserting "Kankakee," immediately after "Iroquois,".

SEC. 2. Section 99 of title 29 of the United States Code is amended to read as follows:

"§ 99. Maine

"Maine constitutes one judicial district.

"Court shall be held at Bangor and Portland.".

SEC. 3. The last sentence of section 112(b) of title 28, United States Code, is amended to read as follows:

"Court for the Southern District shall be held at New York and White Plains.".

SEC. 4. The last sentence of section 118(c) of title 28, United States Code, is amended to read as follows:

"Court for the Western District shall be held at Erie, Johnstown, and Pittsburgh.".

SEC. 5. Within one year after the date of enactment of this Act, the Director of the Administrative Office of the United States Courts shall conduct a comprehensive study of the judicial business of the Central District of California and the Eastern District of New York, and shall make recommendations to the Congress with respect to the need for creation of new judicial districts from portions of the judicial districts referred to in this section or the immediately surrounding judicial districts.

SEC. 6. (a) Except as provided in subsection (b) of this section, the provisions of this Act shall take effect 180 days after the date of enactment of this Act.

(b) The provisions of section 5 of this Act shall take effect on the date of enactment of this Act.

(c) Nothing in this Act shall affect the composition or preclude the service of any grand or petit juror summoned, empaneled, or actually serving in any judicial district on the effective date of this Act.

Mr. KASTENMEIER (during the reading). Mr. Speaker, I ask unanimous consent that further reading of the committee amendment be dispensed with and that it be printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

GENERAL LEAVE

Mr. McCLORY. Mr. Speaker, I ask unanimous consent that all Members may have permission to revise and extend their remarks with respect to this legislation.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

The committee amendment was agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MAHON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous matter and tabulations on the conference report and the amendments in disagreement on the bill H.R. 13635, making appropriations for the Department of Defense for fiscal year ending September 30, 1979, and for other purposes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

CONFERENCE REPORT ON H.R. 13635, DEFENSE APPROPRIATIONS FOR FISCAL YEAR 1979

Mr. MAHON. Mr. Speaker, I call up the conference report on the bill (H.R. 13635) making appropriations for the Department of Defense for the fiscal year ending September 30, 1979, and for other purposes.

The Clerk read the title of the bill.

(For conference report and statement, see proceedings of the House of October 11, 1978.)

The SPEAKER pro tempore. Under

the rule previously adopted, the conference report is considered as having been read.

The gentleman from Texas (Mr. MAHON) will be recognized for 30 minutes, and the gentleman from Alabama (Mr. EDWARDS) will be recognized for 30 minutes.

The Chair now recognizes the gentleman from Texas (Mr. MAHON).

Mr. MAHON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, it has been a long time since I heard that old battle cry which contains the lines "Tramp, tramp, tramp, the boys are marching."

I stand here in the well of the House to sound the battle cry of the troops who are threatened with no pay as a result of the inaction of Congress, of which I am a senior Member. I have no patience and no desire to participate in an exercise of futility and I call upon my colleagues to join with me as I present to you a conference report on the Defense appropriation bill.

We can clear this defense conference report very shortly. There is no reason why we cannot. I have every assurance that it will be promptly cleared by the other body and it will go to the President and the troops will be paid tomorrow and Congress will not be humiliated.

The bill that I bring to you is not a perfect bill, and they never are, but it is the best we can do under the circumstances.

The bill is the largest bill ever presented to the Congress in the history of our Nation. It is $117.3 billion. It is $1.9 billion below the President's budget. It is $1.8 billion below the bill that passed the House. It is $843.6 million more than the bill passed by the Senate. It is a compromise bill.

The total in this bill is $4.7 billion above the bill of last year. And that is not the whole story because one of the reasons is that there will have to be and there must be a defense supplemental as a result of certain needs that were not in conference.

We are providing not only additional sums to cover economic inflation, but sums to cover real growth in military readiness.

That is all we are doing and I hope you will agree with me and I think you will.

The biggest single item that was cut out of this bill was for the nuclear-powered aircraft carrier and that is the reason why we are really below the budget to the extent that we are.

There were some 520 individual programs addressed in the conference and I would not undertake to discuss in detail each of the individual programs, as I am sure you will well understand.

After a long dispute on agreement between the Navy and the shipbuilders we are providing an additional $209 million to settle shipbuilders' claims. Nobody likes it, but after 5 years this is the best that can be done under the circumstances, and in this respect we followed the agreement of the House Committee on Armed Services.

We passed this bill originally on August 9. It went to the other body. The Senate did not pass it until October 5. The Senate's delay was due, of course, in large part, to the veto of the defense authorization bill by the President.

The conferees met on the day the Senate passed the appropriation bill, October 5, and we met all day on Friday the 6th, and we met on Monday, October the 9th, a legal holiday, and we met on Tuesday, October the 10th, and that is the reason you have the bill before you.

Although we do not have all the printed matter—we have the paperwork done, but we do not have all the copies that we would like to have of the report, but we do have some.

We hope to clear this conference report—and we believe we can—through both bodies today and relieve the pressure which many of us have felt in this whole process.

Mr. Speaker, that is about all I think I need to say. We have a few motions on amendments in disagreement, a few controversial matters; but in our system we have to have compromises and take some shortcuts if we want to make the system work. Otherwise democracy is a failure.

Therefore, Mr. Speaker, that is all I have to say by way of a discussion of the conference report at this time.

Mr. Speaker, I reserve the balance of my time, and by prior leave to revise and extend my remarks, I insert the following table setting forth new budget authority recommended by title and individual appropriation as a result of the conference agreement:

COMPARATIVE STATEMENT OF NEW BUDGET AUTHORITY, FISCAL YEAR 1979

	New budget authority					Conference compared with—			
	Enacted fiscal year 1978	Estimates fiscal year 1979	House, fiscal year 1979	Senate, fiscal year 1979	Conference fiscal year 1979	Fiscal year 1978 enacted	Fiscal year 1979 estimate	House bill	Senate bill
TITLE I—MILITARY PERSONNEL									
Military personnel, Army	9,166,733,000	9,180,000,000	9,123,499,000	9,154,325,000	9,154,325,000	−12,408,000	−25,675,000	+30,826,000	
Military personnel, Navy	6,453,113,000	6,463,000,000	6,456,450,000	6,455,500,000	6,461,600,000	+8,487,000	−1,400,000	+5,150,000	+6,100,000
Military personnel, Marine Corps	2,022,200,000	2,016,500,000	2,015,900,000	2,004,275,000	2,014,975,000	−7,225,000	−1,525,000	−925,000	+10,700,000
Military personnel, Air Force	7,573,090,000	7,576,000,000	7,507,195,000	7,521,081,000	7,525,001,000	−48,089,000	−50,999,000	+17,806,000	+3,920,000
Reserve personnel, Army	555,600,000	532,600,000	546,650,000	541,000,000	547,350,000	−8,250,000	+14,750,000	+700,000	+5,550,000
Reserve personnel, Navy	216,700,000	719,000,000	226,825,000	246,800,000	227,025,000	+10,325,000	+48,025,000	+200,000	−19,775,000

Mr. EDWARDS of Alabama. Mr. Speaker, I yield myself 5 minutes.

Mr. Speaker, this is a good bill, and we have worked long and hard on it. We spent many hours in conference. We came back with a bill which I think we can be proud of. I think it is a bill which is adequate this year for our defense needs. That is not to say that we will not have to spend more next year and in future years.

I think this committee has scrubbed this bill just about as well as a bill can be scrubbed. We had to yield to some extent to the Senate; personally I thought too often. Frequently they had to yield to us; and the long and short of it is that we have brought to the Members of the House a product of reasonable men seeking compromise and trying to do the best we could in that spirit.

Mr. Speaker, I join with my chairman in urging the Members to see that the troops are paid, to see that this bill is passed and becomes law, so that we can move on to other things and, as our particular committee will have to do, start thinking in terms of next year already.

Again, Mr. Speaker, I want to see the conference report passed because of the troops. I want to see it passed for another reason, Mr. Speaker. This is the last conference report which the gentleman from Texas (Mr. MAHON) will bring to this floor from this subcommittee, and I just think somehow it would be awful if he has to end his career without a bill and has to go through the continuing resolution process.

Mr. Speaker, I could not tell who was clapping, but I finally realized it was the chairman. He has worked a long time on this bill. He has worked a long time on the Subcommittee on Defense. I am not going to go through all the things which we said about him when we brought our bill to the floor, although we all feel very strongly about what he has done for the defense of this country. However, Mr. Speaker, I would like to see us, as a sort of retirement present, give him this bill intact, complete, signed into law as a defense appropriations act and not become a part of a continuing resolution.

Therefore, Mr. Speaker, I urge the Members to think long and hard as they look at the issues involved which will be coming up. Let us do all we can to get this bill passed as a sign of our great respect for our good friend, the gentleman from Texas, Mr. GEORGE MAHON. Mr. Chairman, I want to say once again that it has been a real pleasure working with you. It has been a real pleasure working with the gentleman from Florida (Mr. SIKES) and with the gentleman from Georgia (Mr. FLYNT). We are going to miss all three of them on this subcommittee. The three of them have been an inspiration to all of us who serve in the House. They are true patriots who are extremely concerned with the future security of this Nation. I wish the three of you well in your future endeavors.

Mr. Speaker, I insert in the RECORD certain additional information on the conference report at this point.

The material referred to follows:

TOTAL FUNDING IN BILL

$117.4 billion.

REDUCTIONS AS COMPARED TO REQUEST: $1.9 BILLION

$1.7 billion in procurement; and $311.7 in R&D.

INCREASES AS COMPARED TO FY 1978 APPROPRIATIONS: $4.7 BILLION

$960.2 million for retired personnel; $2.7 billion for operations and maintenance; $608.7 million for procurement; and $809 million for R&D.

FINAL BILL AS COMPARED TO HOUSE AND SENATE VERSIONS

House: $119.2 billion.

Senate: $116.5 billion.

Final: $117.4 billion—$1.8 billion below House version and $843.6 million over Senate version.

MAJOR ACTIONS

Junior Enlisted Travel: provides funds to extend junior enlisted travel and allowances for dependents in overseas areas as provided by the House, but the bill places a ceiling of 350,000 on the number of dependents of military personnel allowed in overseas areas. This provision would allow an additional 6,200 dependents to travel overseas.

Commissary Store Subsidy: provides for continued full funding support for all commissary stores. The Senate proposed a phase-out of commissary subsidies over a three-year period and the deletion of $113 million in the bill for that purpose.

Undergraduate Helicopter Pilot Training: provides funding for the continuation of separate helicopter pilot training by both the Army and Navy. The General Provision (Sec. 858), which was inserted by the Senate, prohibits consolidation of helicopter pilot training and was brought back in disagreement.

Tanks: provides $343.6 million for 410 M60A3 tanks and $300.5 million for the initial buy of 110 XM-1 tanks.

Aircraft: provides $688.8 million for 36 F-14s; $429.5 million for 9 F-18s; $792.7 million for 144 A-10s; $1.2 billion for 78 F-15s; and $1.3 billion for 145 F-16s.

Ships: provides $3.8 billion for 13 ships as follows: 1 SSN-688 nuclear-powered attack submarine; 8 FFG guided missile frigates; 1 destroyer tender; 2 TAGOS ocean surveillance ships; 1 cable laying ship; Add on of $209 million to cover shortfall in funding for claims settlement.

(NOTE.—includes no funding for the CVN-71 aircraft carrier, LHA amphibious ships, conversion of LPH amphibious ships to V/STOL ships, and design of the V/STOL light carrier.)

RESEARCH AND DEVELOPMENT

Ballistic missile defense system technology: provides $114 million.

Tank Gun Development program (120mm gun): $35.6 million.

F-14 engine: Transfers $15 million from FY77 to FY79 to commence a joint competitive Navy/Air Force effort to develop an advanced technology engine for current and future aircraft. An additional $26 million appropriated last year remains available for this purpose.

V/STOL Programs: terminates the Navy's Type A V/STOL program and directs the Navy to initiate design studies of the Type B supersonic fighter/attack V/STOL aircraft for the late 1990s. The bill provides $87.4 million over-and-above the budget request for the Marine Corps' AV-8B program and an additional $3.0 million to conduct design studies of the AV-8B Plus—a naval variant of the AV-8B. The AV-8B is the only viable V/STOL program in progress. It is helping to pave the way for the future by taking existing technology and improving upon it, and by fostering a climate in which more advanced V/STOL concepts can be pursued. The AV-8B could provide a logical transition to the Navy's Type B V/STOL aircraft planned for the late 1990s.

COMMENTS ON NAVY SHIPBUILDING

The funding in this bill will provide for a strong defense posture during fiscal year 1979. What concerns me is what is apt to happen down the road so far as the Navy is concerned.

The controversy surrounding the Administration's confusing shipbuilding program and the future role of the Navy were probably the two most important questions considered this year. These issues will certainly continue into the next budget.

We are a seapower. Our dependence on the sea has continued to grow as we have become more involved in the world economy. Yet as our dependence on the sea has increased, our ability to control the sealanes has come under increasing challenge by the Soviet Union.

Herein lies the problem. We are simply not building enough ships and naval aircraft.

This bill provides funds to buy only 13 new Navy ships and about 100 Naval aircraft. The Navy needs to be procuring two to three times that number of ships and aircraft each year if the Navy is to fulfill all its assigned missions in the future. Although this bill provides the Navy with more money than either of the other two services, it doesn't seem to be enough. The Navy will need more money if it is to continue doing all the things that must be done.

I am greatly concerned about this problem, and I intend to get into it in much greater detail next year.

Mr. MAHON. Mr. Speaker, will the gentleman yield?

Mr. EDWARDS of Alabama. I yield to the distinguished gentleman from Texas.

Mr. MAHON. I thank the gentleman for yielding.

I know we say nice things about each other on the floor and especially at this season, but if I have served during my 44-year period with any statesmen, I will have to name one of them as the distinguished gentleman from Alabama (Mr. EDWARDS).

Mr. EDWARDS of Alabama. I thank the distinguished chairman.

Mr. MAHON. Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia (Mr. FLYNT).

Mr. FLYNT. Mr. Speaker, I strongly and most sincerely urge the adoption of this conference report and agreement to the motions which will be made from time to time to recede and concur in the amendments of the Senate. We who served on this conference worked long and hard hours to complete the work on this conference report on Tuesday night last. The staff in turn worked diligently until late last night so that the chairman could file the conference report during the legislative day of yesterday.

We have brought this conference report to the House in the hope that it will be adopted today and can be immediately transmitted to the other body and signed into law by the President this evening in order that the military and civilian personnel of the Department of Defense can be paid without having to proceed under a continuing resolution.

The Department of Defense appropriation bill is too important not to be passed in the normal appropriation processes. I hope that this conference report will be immediately adopted and transmitted to the other body and from there to the White House so that, hopefully, it may be signed tonight and that the Department of Defense will not have to operate under any kind of a continuing resolution but rather under an enacted appropriations bill.

I urge the adoption of the conference report and agreement to the motions which relate to amendments in disagreement.

Mr. LIVINGSTON. Mr. Speaker, will the gentleman yield?

Mr. MAHON. I yield to the gentleman from Louisiana.

Mr. LIVINGSTON. I thank the gentleman for yielding.

Has there been unanimous consent that all Members may have 5 legislative days to revise and extend their remarks on this conference report?

Mr. MAHON. Unanimous consent has already been granted that all Members may have 5 legislative days in which to revise and extend their remarks on this matter and on all amendments in disagreement.

Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. DOWNEY).

Mr. DOWNEY. I thank the gentleman, and I want to congratulate him.

This bill is $117.3 billion, a tremendous amount of money. I want to congratulate the House on the diligent work that was done in an area of my concern, and that is the food irradiation program it is a boondoggle. They are also going to experiment with saving fresh fruits and vegetables from spoilage. I know that the republic will rest easy tonight when we pass this bill knowing that there is $6 million in this bill to investigate ways in which we can keep food fresh and ways in which we can make sure that the servicemen have fast-food service when they want it. This is truly an effort to make our servicemen not only good fighters but well fed, and I would hope that next year we can eliminate the $6 million so that we can have an Army that is lean and tough and does not waste money.

I thank the gentleman for yielding, and I thank him for his work.

Mr. EDWARDS of Alabama. Mr. Speaker, I yield 2 minutes to the gentleman from Idaho (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I take these 2 minutes to address three questions to the distinguished chairman, if he will so indulge me.

I would like to ask the distinguished chairman, in the conference report, as I understand it, the Senate version had originally provided for a new title X for an Interoceanic Canal Study Council, and for the necessary expenses in accordance with law of the Interoceanic Canal Study Council in an amount of $700,000 from which the Senate receded in conference and there are no such funds in the conference report as presented here. I will ask the chairman is this correct?

Mr. MAHON. If the gentleman will yield, I will say to the gentleman that the other body ill-advisedly put in the bill a title X, Interoceanic Canal Study Council. It was rejected with a vengeance by the House conferees because we did not want that matter in this defense bill.

Mr. HANSEN. Mr. Speaker, I thank the chairman.

I would like to further ask a question. Under title VIII, section 808, subsection (1), there was a provision in the Senate version for expenses of disinterment, transportation, and reinterment of such remains of United States citizens and of members of their immediate family buried with them in the Canal Zone as the Secretary of the Army may direct.

Also there was a provision for $1.7 million out of Army O. & M. funds provided. Neither of these provisions were accepted in the conference report; is this correct?

Mr. MAHON. Mr. Speaker, if the gentleman will yield, the conferees refused to approve the proposal to which the gentleman has referred.

The SPEAKER pro tempore (Mr. MINETA). The time of the gentleman from Idaho has expired.

Mr. EDWARDS of Alabama. Mr. Speaker, I yield 1 additional minute to the gentleman from Idaho (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, am I to understand there are no other funds provided any different in the conference report regarding the Panama Canal than passed this body in the original bill earlier; is that correct?

Mr. MAHON. I believe the gentleman is correct. His batting average is good.

Mr. HANSEN. Mr. Speaker, I thank the distinguished chairman and commend him and the House conferees for a job well-done in upholding the expressed will of the House and the people of the Nation in rejecting continued efforts to implement the Panama Canal Treaties, especially through circumvention of proper constitutional procedure.

Mr. EDWARDS of Alabama. Mr. Speaker, I yield 3 minutes to the gentleman from Massachusetts (Mr. CONTE).

Mr. CONTE. Mr. Speaker, I would like to have a colloquy with my good friend and chairman of the Committee on Appropriations. As the gentleman knows, I was successful in striking section 847 from the bill when it came through the House. In essence, what section 847 would have done, it would have prohibited the Department of Defense from expanding its competitive rate program for the transportation of household goods beyond those areas which were covered on May 1 of 1978.

We won that amendment, myself and the gentleman from California (Mr. MCCLOSKEY) by a very healthy vote of 269 for my amendment and only 96 opposed to the amendment.

Now I see that the conference has brought out an exemption for Hawaii and Alaska. I do not know what I am going to do here today, but I would like to find out from the chairman if the House fought in conference to go along with the House thinking on this particular issue.

Mr. MAHON. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I will be glad to yield to my good friend, the gentleman from Texas.

Mr. MAHON. Mr. Speaker, the House conferees fought valiantly for the House position which was sponsored by the gentleman from Massachusetts, a member of our committee.

We had more than one period of discussion on this matter during the 3- or 4-day session. We were able to eliminate subsection (b) of the amendment No. 76, which is section 852. In other words, the competitive rate program will apply to every place in the whole wide world, except in two American States, Alaska and Hawaii.

That was the best we could do under the circumstances. This particular section may be irrelevant, anyway, because the Secretary of Defense has already stated that he would not apply the program to Alaska and Hawaii. We did the best we could and the gentleman has achieved almost all his objectives. He covered the whole world, except Alaska and Hawaii. Hawaii is a relatively small place. Alaska is a little different.

Mr. FLYNT. Mr. Speaker, will the gentleman yield?

Mr. EDWARDS of Alabama. I yield to the gentleman from Georgia.

Mr. FLYNT. Mr. Speaker, I am pleased to tell the gentleman from Massachusetts that the House sustained more of the House position than it yielded to the Senate.

Mr. Speaker, subsection (b) of the Senate amendment was far more encompassing than was subsection (a). Subsection (a) was the only part to which the House agreed, and the House conferees strenuously rejected subsection (b).

The SPEAKER pro tempore. The time of the gentleman from Massachusetts (Mr. CONTE) has expired.

Mr. EDWARDS of Alabama. Mr. Speaker, I yield 3 additional minutes to the gentleman from Massachusetts (Mr. CONTE).

Mr. MCCLOSKEY. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I yield to my good friend, the gentleman from California.

Mr. MCCLOSKEY. Mr. Speaker, I think it is important that the House understand what we are being asked to do in conceding this point. We have asked for competitive bidding on the business of the defense industry in every possible place we could.

By House action a couple of months ago we said we were going to ship household goods overseas, including Alaska and Hawaii, by competitive bidding in order to get the lowest rate.

I do not have any real problem with what we do here, Mr. Speaker, because we are in effect saying that until the end of this fiscal year we would not require competitive bidding to Alaska and Hawaii, but the justification for that in the conference report was that the GAO would make a study to see if that was in the best interests of the United States.

The reason the Conte amendment passed by such an overwhelming margin was because the freight forwarders in Alaska and Hawaii were not cooperating to deliver to the GAO the records as to whether this was in the best interests of the United States.

If we are to recede on this section of the Senate amendment, I would like the commitment of the committee chairman and the subcommittee chairman that we would not try to extend this exemption again if we are unable to get the GAO report because these companies do not cooperate. It seems to me that if we are going to exempt them from competitive bidding while we are waiting for a GAO report, we ought to insist that these com-

panies cooperate to the end that we will not include this legislation again in an appropriation bill as an exemption for the very same industries that are not cooperating with the arm of the Government, the GAO, that reports to us.

Mr. Speaker, may we have that commitment?

Mr. MAHON. Mr. Speaker, if the gentleman from Massachusetts will yield, I would remind the gentleman that I will not, of course, be presenting the Defense bill on the conference report next year.

Mr. McCLOSKEY. I understand that. It is the Nation's loss.

Mr. MAHON. I cannot speak for my colleagues, but I assume that if the gentleman from California (Mr. McCLOSKEY) returns to Congress—and I am sure he will—the gentleman will watch over this situation, and the conferees will do what is in the best interests of the country.

Mr. McCLOSKEY. Mr. Speaker, if the gentleman will yield further, the point I want to make is that what we are asking the House to do is to delay this until the end of this fiscal year, pending the receipt of this report. I want to make sure there is no intention on the part of this committee to recede in such a way that this competitive bidding requirement will be extended longer than this fiscal year.

Mr. MAHON. Mr. Speaker, I understand what the gentleman has said, and I believe the gentleman is correct.

Mr. McCLOSKEY. Mr. Speaker, I thank the gentleman.

Mr. CONTE. Mr. Speaker, I want to thank the gentleman from Texas (Mr. MAHON) and the gentleman from Georgia (Mr. FLYNT) for their contributions.

Mr. Speaker, I would like to make a few points. First, delay of the program for Alaska and Hawaii will not save money. To the contrary, the CRP bidding has proven that the cost of moving military household goods is substantially reduced wherever it has been implemented. As indicated by the past track record of the programs, millions of dollars spent in moving costs between the mainland of Alaska and Hawaii will be saved upon implementation.

Waiting for GAO and DOD studies as suggested seemingly would serve little purpose. The GAO has already indicated that it is favorably impressed with the overall program but its ability to do a scientific study of this question is sorely impaired because of freight forwarders themselves are prohibiting access to the necessary data.

It is claimed that Alaska and Hawaii would somehow be discriminated against because they will be affected by a bidding program not applicable to the other 48 States. This is not so.

There is good reason for such treatment—DOD points out that:

Alaskan/Hawaiian freight forwarders should be under the CRP because the economic structure of the industry there is similar to the international movers. In the contiguous U.S. there are 1,800 movers—92 percent of whom are motor carriers, not freight forwarders. Because the industry is so large, collusion (direct or indirect) doesn't take place and the "me too" system, with the ICC ceiling, works.

There is already precedent for different treatment. U.S. servicemen in Alaska and Hawaii receive pay allocation benefits as being stationed in a foreign country rather than being treated the same as stateside soldiers. In this instance, the unique living found in Alaska is taken into account. All the extension of the CRP program does to these States is to take the unique moving circumstance into account.

Contrary to what you may have heard, there is no indication that this program will take away jobs or stifle small business. Small business participation in the CRP program instead has substantially grown as the program has been expanded.

In sum, I believe that to encourage more of the free enterprise competition that has made this country great and to encourage millions of dollars in savings on military moves, it is unfortunate that Alaska and Hawaii have been exempted from competitive bidding of household furnishing.

Mr. MAHON. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Missouri (Mr. BURLISON), a member of the committee.

Mr. BURLISON of Missouri. Mr. Speaker, I have signed the conference report "except as to certain intelligence matters." I have done this to express my concern regarding a portion of the appropriation for the national foreign intelligence program which is described in a classified annex to the joint statement. Specifically, I am distressed that funds for a major technical program which were authorized for a particular purpose are now being appropriated for a different purpose. This has occurred because conferees accepted a last minute proposal by the administration which has the effect of thwarting the clear intention of authorization. This could not have been done in public because such action was clearly subject to a point of order. Despite the substantial progress this year in congressional oversight of intelligence, these actions trammel the authorization process and cause me to question whether our control of intelligence has yet reached maturity.

This creates a dilemma for me. While I understand fully, and support the need for confidentiality in these matters, it is wrong for the administration to take advantage of secrecy, however necessary, to thwart clear congressional intent.

Mr. Speaker, I yield such time as he may require to the gentleman from Florida (Mr. SIKES), a member of the committee.

Mr. SIKES. Mr. Speaker, I rise in support of the conference report and the motions to be made by the chairman of the Committee.

● Mr. SIKES. Mr. Speaker, it is very important that we not overlook the essentiality of completing action on this bill without further conference committee action. The Secretary of Defense has stated that payrolls of 466,000 DOD civilian employees are due now and for 1.5 million service personnel tomorrow. The Department has no money to meet these payrolls. Passage of this appropriation bill or a continuing resolution now is essential or these people will go payless. Even after passage of this bill, a lead time of several days is required to insure the checks are in the hands of personnel. A continuing resolution is apparently a hopeless prospect because the Senate has loaded down the House-passed continuing resolution in a manner unacceptable to House Members.

The defense appropriation bill is before you. The conferees have completed work on it. Further delays in consideration and approval of the bill mean no pay for your constituents who work for the Department of Defense or for uniformed personnel and their families.

There are several items in disagreement. Included are abortion, a perennial problem for the Congress; shipment of household goods, with a serious question over whether there should be unlimited competition or a return to a system of modified competition; and, of course, undergraduate helicopter pilot training consolidation. This latter controversy has taken altogether too much of the time of Congress for several years. Included among the number of bureaucrats who cluster in Washington and who successfully resist all efforts to reduce their numbers or to insure really productive efforts, are professional planners. Some of them make a career of developing plans which keep them employed for years. This apparently is the case with the proposal to consolidate helicopter pilot training. If the professional planners ever are able to achieve approval of the plan to consolidate helicopter pilot training, they have another plan waiting in the wings. They will attempt to consolidate all pilot training. The combination would generate lifetime careers for skillful bureaucrats. Some of the planners are more entrenched and knowledgeable than the political appointees in the secretariat who endorse their programs.

The reason advanced for consolidation of undergraduate helicopter pilot training is a claim of savings. Not only have the claims been disproved time and again, the Navy has never accepted them as valid. It is interesting to point out that the Navy submitted a reclama to the Secretary of Defense on the fiscal year 1979 budget submission setting forth the official Navy view and stating that

the assumed consolidation savings are virtually nonexistent. Where the Department of Defense has claimed savings of nearly $100 million in 5 years, the Navy's position, carefully substantiated, is that at best only $6.3 million in costs could be avoided in a 5-year period.

OSD replied to Navy's reclama by: First, revising their DP's and, second, conducting an audit of Navy UHPT costs by the Defense Audit Service—note this was a defense audit, which ignored the Navy audit.

OSD has continually refused to allow the Navy to be a partner in the discussions. They gave Navy a brief look at the findings which have been reached in OSD, give Navy a very few days for a reclama; then ignore the reclama. There is much more, but it only substantiates what I have said. All of this is spelled out in detail in my remarks in the CONGRESSIONAL RECORD of yesterday.

I am sure that none of us want this bill to go back to conference. It is my sincere hope that the House will concur in the position agreed to by the conferees on each of the items in disagreement. It is very certain that, in the case of helicopter pilot training, another conference will not change the result now before us. In their last vote on the subject, the Senate voted 75 to 21 against consolidation. That is much stronger than any vote cast by the House for consolidation. Apparently the Senators have been more fully informed about the facts on savings and on the risk to be run on Army training, which simply will not meet Navy standards. Too many House Members who did not listen to the debate have been swayed by claims advanced as they came in the doors of the Chamber to vote—claims that the savings would be astronomical. The Senate conferees are strongly united on this subject. On this and on the other items of disagreement, the House must accept the responsibility if there are further delays in the passage of this vital bill.

The gentleman from Alabama (Mr. DICKINSON) is a strong proponent of the proposal to consolidate undergraduate helicopter pilot training. He is a direct beneficiary. Consolidation would take the program from a Florida base in my district and transfer it to a base in his district in Alabama. It is only natural that he wage a very determined effort in behalf of his constituents. He is a conscientious and capable Member, and I am glad that we retain a strong friendship despite our difference in this instance. I am confident that his overriding concern for the defense of our Nation will prove paramount on today.

This is a good bill. It represents an improvement in our overall defense capability, although I am disappointed that the Congress has not taken advantage of the request from Secretary Brown for add-ons of approximately $2 billion to replace funds deleted with the carrier. The opportunity to add more funds at the request of a Secretary of Defense is a rare thing. I feel that the request should have been honored. It was not in our power in the Appropriations Committee to do this because of limits in the authorization.

I strongly feel that we are not adequately meeting America's defense needs. We have not done so in several years. We are strong, very strong. That is not the point. Russia is stronger and, relatively, their strength is increasing much faster than ours. Their aims for world domination are very apparent. A weakening of America's comparative defense, encourages adventurism by the Soviets. Their advances, particularly in Asia and Africa, will encourage confrontations with this country. If there were a confrontation and if we could not win or risk a conflict, it would be a sad day for America and it could mean an ending of the American way of life.

I am happy to join in what has been said about the leadership of the Subcommittee on Defense, about the sterling qualifications of the distinguished gentleman from Texas (Mr. MAHON) and of the distinguished gentleman from Alabama (Mr. EDWARDS). I am happy to join in the plaudits for the distinguished gentleman from Georgia (Mr. FLYNT) who has been an outstanding champion for a strong defense.

In particular I want to express my commendations for the ability and the dedication of the members of our subcommittee staff. I do not believe a more expert group is existent anywhere on Capitol Hill than the staff members for our subcommittee, who are so ably headed by Ralph Preston. I would like to single all of them out for praise for their good work. It has been a pleasure to work with the members of the subcommittee and with the staff. The memories of these years of joint endeavor will always have a warm, appreciated place in my mind and in my heart.●

Mr. EDWARDS of Alabama. Mr. Speaker, I yield 5 minutes to the gentleman from Alabama (Mr. DICKINSON).

Mr. DICKINSON. Mr. Speaker, if I might have the attention of the membership, I think they will find this of interest.

Let me say to my good friend, the gentleman from Idaho (Mr. HANSEN), who raised the point just answered by the gentleman from Texas (Mr. MAHON), our very distinguished chairman, as to the funds for Panama, that I have recently returned from the Canal Zone, at the direction of my Armed Services Committee chairman, to find out what was the intent, and the rationale for the request of some $40 million this year in military construction and an additional $40 million next year in military construction in the Canal Zone, when we already know that we have given it away.

Mr. Speaker, let me say this: The answer to the question of why we need to spend additional funds is so that we can maintain our presence there. We have some 9,500 military, plus dependents, plus whatever entourage goes along to support them.

One might ask: Why do we need almost 10,000 troops in the Canal Zone, and what are these funds for?

Let me tell the Members what the funds are for. The funds are to replace the facilities that we are having to give up as a result of the treaty we have just signed, and to make similar new facilities available to our troops on property that we will not give up for another 20 years.

What type of facilities? Well, things like schools. If we are going to keep our dependents down there, if we are going to keep our children down there, as a part of the property that we are ceding back to Panama we are giving up schools, and we have to build additional schools.

There is an item of $3 million for a commissary warehouse and refrigeration. We are going to have to give up a perfectly good facility in 1 year. But if we are going to keep our troops there, then we have to maintain a commissary. If we maintain a commissary, then we have to have refrigeration and storage areas.

So what we have to do, ultimately, Mr. Speaker, what the membership of this House and the Defense Appropriations and Armed Services have to decide is the very basic question: Do we need to maintain a presence of approximately 10,000 military troops, and, if so, why?

Now, the reason, they tell me, is to meet a threat. My question is, then: What threat? Internal? External? Where is the threat? Are we talking about Russia loading up planes and coming over? Are we talking about Cuba physically invading? No.

I have talked to the CIA and to the DIA, and both have said that the external threat is probably less than a year ago.

What threat? We are talking about the internal threat.

Well, one may ask, What is the internal threat? Is it greater now than it was?

The intelligence agencies with whom I have talked admit that, no, it has substantially subsided with the signing of the treaty, because Torrijos and his government were in a position, and it was even indicated had made preliminary moves to perhaps sabotage the canal.

So what I am saying is that we are spending and planning to spend millions and millions of dollars to build facilities to substitute for the facilities that we have that we are giving up, that we should never have given up, in the first place.

What we have to come to grips with is what we are going to do to continue our presence there and how much is necessary. I think that with our reflex capability that we are going to find that certainly in our armed services we are going to be leaning more toward the

capability to respond to a growing threat, rather than to continue to replace and throw away millions of dollars to build facilities on property that we have already agreed to give away in sequential steps in the next 20 years.

If I might have the attention of the chairman of the full committee, I would like to ask his understanding of the financial situation as to the pay of our military as it is connected with the conference report presently under discussion.

At least three of the speakers that have preceded me have alluded to the fact that we have got to pay the troops.

The SPEAKER pro tempore. The time of the gentleman from Alabama has expired.

Mr. EDWARDS of Alabama. Mr. Speaker, I yield 3 additional minutes to the gentleman from Alabama.

Mr. DICKINSON. Mr. Chairman, I agree with you, I agree with everybody, that we have got to pay the troops. What I would like for the gentleman to inform me and the House at the same time is, what is the situation? As I understand it, and let the chairman correct me if I am wrong, there is money in this bill to pay operation and maintenance, and salaries for the military personnel. We have also passed a continuing resolution so that if this bill for anv reason were to be delayed, the continuing resolution would be in force and effect, and they could be paid.

Unfortunately, the Senate passed a continuing resolution affecting HEW and one other Bureau but which did not include DOD funds. If this bill goes back to conference again, then there will be a hiatus where the armed services will not be paid unless the Senate does what it should have done and still can very easily do, and what we have already done, which is to pass the continuing resolution.

I wonder if the chairman would care to correct what I have said if I have been in error in any way, and explain to the House what the situation is.

Mr. MAHON. There is one clear road to get this bill to the President, and that road is to pass this conference report through the House, send it to the other body, which is ready to send it to the White House. If it gets there by midnight, the troops will be paid tomorrow, Congress is vindicated, and the soldiers are less anxious. I think we need to move in that direction, and I appreciate the attitude of the gentleman in wanting to do something to take care of this situation.

Mr. DICKINSON. I am concerned about the situation, and I appreciate the chairman's expression in favor of passage of the conference report, but it did not answer my question. My question is, there are three controversial items that may require an individual vote. One has to do with abortion; one has to do with the cargo preference, and the third had to do with consolidated helicopter training. On any one of these, if a separate vote is required and is sustained, then the bill goes back to conference.

Mr. MAHON. It may well go back to conference. If we do not pass the conference report as proposed to the House today, then eventually we will have to go back to conference with the other body. When we would get this conference with the other body, with all they have to do, I do not know. It would be very unlikely, in my judgment, that the troops could be paid.

The SPEAKER pro tempore. The time of the gentleman from Alabama has again expired.

Mr. EDWARDS of Alabama. Mr. Speaker, I yield 2 additional minutes to my colleague from Alabama.

Mr. DICKINSON. Would the chairman agree, though, that this problem could be obviated, if necessary, by the Senate doing the same thing the House has already done, and pass a continuing resolution?

Mr. MAHON. Well, the other body has included public works in the Senate version of the continuing resolution. We sent the continuing resolution to the other body on the 26th day of September, and it has not passed the other body.

At the markup in committee, I understand that defense has been stricken from the Senate version of the continuing resolution. That is one reason why I say the clear road to solving the problem is the approval of this conference report in the House.

Mr. DICKINSON. If I might paraphrase the chairman, his answer is "Yes," but he prefers not to do it that way.

Mr. MAHON. I do not have any control over the other body.

Mr. DICKINSON. I understand that, but it could be done. I thank the chairman.

Mr. MAHON. It would require a conference between the House and the Senate, and there is no way we could complete a successful conference before midnight tonight. And that mean the troops may not receive a paycheck tomorrow.

Mr. EDWARDS of Alabama. Mr. Speaker, I yield 2 minutes to the gentleman from California (Mr. DORNAN).

Mr. DORNAN. Mr. Speaker, I have a request to make of the chairman. Before the substitution amendment on abortion comes up I would like to discuss this issue with the chairman so that I do not have to break my promise to him this morning that I would do everything I could not to unnecessarily delay the proceedings this late in the session. However we have a very peculiar situation that developed today.

This House just a few hours ago voted by a strong margin, 216 to 188, not to accept the Mahon language in the HEW bill, but now we are down to the question of accepting that very same language on the DOD bill.

How can we give more liberalized abortion language to middle-class military people—and hopefully we still pay our military sufficiently to refer to them as middle class, while we are properly applying tougher pro life wordings to the laws governing welfare cases under the HEW bill.

I want to do what is proper on this problem of the possible holdup of military pay.

But the Senate places our fine military in the awkward position of delayed paychecks, not this Chamber.

The Senate rejected the language that we sent over to them in September, decent language that they could have accepted or discussed a compromise. Instead they arrogantly totally excised every word of the Dornan amendment.

I asked some generals last week, "Can you keep the embargo of September 30 on abortions in the military in effect until next spring?" They smiled at me and said they were not the Secretary of Defense.

Can you assure me you will try to get a continued promise on an abortion embargo from Mr. Harold Brown so that I do not stand up and ask for a division of the question in a few moments here. And believe me I have the parliamentary moves down pat and it will create a furor here if I fight for the lives of the innocent unborn without DOD cooperation. I do not know how many babies will die, killed in their mothers' wombs in military hospitals if this flawed language goes in with no DOD assurances on an embargo until February or March.

I say to the gentleman on my left here go ahead and groan at my convictions and beliefs. So what. It is a fact of life and death we discuss now.

I want to know who on the chairman's excellent staff will counsel with me for a few moments here before we lose several more hours of precious time in this our final month. We have had two of our distinguished colleagues tragically die, the work backs up with each passing day and the clock is still ticking away.

Mr. HEFTEL. Mr. Speaker, will the gentleman yield?

Mr. DORNAN. I yield to the distinguished gentleman from Hawaii.

The SPEAKER. The time of the gentleman from California has expired.

Mr. EDWARDS of Alabama. Mr. Speaker, I yield 1 additional minute to the gentleman from California (Mr. DORNAN).

Mr. DORNAN. I yield to the gentleman from Hawaii (Mr. HEFTEL).

Mr. HEFTEL. Mr. Speaker, I think it would be very unfortunate if this body and the other body do not make it possible for the military to be paid. They live from one payhceck to the next, and they cannot possibly understand the kinds of dialog and the kinds of intrigue and the kinds of parliamentary procedures that are going on between the two bodies. We are going to adjourn sometime Sunday morning, and I think that if we care about the military and we want to make sense to them, sense that they can understand, I think we

have to now make up our minds to accept the reasonable position of the chairman and accept the Senate version, and wait for another day if we must, but do not do it at the expense of the military and our credibility in terms of their families and our credibility with them .

Mr. DORNAN. Mr. Speaker, let me reclaim a few seconds of my time.

This House a few hours ago overwhelmingly rejected that language that was just called reasonable. It is not reasonable language. It is awful language.

If I can be assured that the Secretary of Defense is not going to thwart the will of this House and that he will leave the stop-all-abortions embargo in effect—and remember that embargo language suggests "until the Congress thrashes this out next spring," then I might be willing to go with solid assurances against abuse with the rejected language only to get our fine servicemen paid and with the solid understanding that the Dornan amendment comes back next year with the certainty of springtime thunder and lightning.

Mr. MAHON. Mr. Speaker, the House did decline to approve in the HEW bill language which is in the present law with respect to abortion the language is very restrictive and apparently has reduced abortions paid for by the Federal Government by about 95 percent.

That may not be an accurate figure, but that is the best we are able to come up with from the Secretary of HEW. It will go to the other body, which voted about 15 times, I believe, last year against the position of the House with regard to the abortion matter. So what the other body will do now, I do not know. But it is pretty easy to speculate that the HEW matter will not be resolved today or tomorrow or the next day.

It seems to me that it is a different situation with respect to our military, who are stationed here and there all over the world in many isolated areas. As I say, it is a different situation from their standpoint. So I would hope, and quietly pray, that the gentleman from California (Mr. DORNAN) would let us adopt the Defense conference report with the language of the present law which was approved last year, and which was approved in the continuing resolution, as the gentleman from California did not oppose at the time we passed the continuing resolution. The gentleman has tried to cooperate with the committee with respect to this matter and I appreciate the fact of his cooperation. I would hope, therefore, that we do not have to go through the trauma of another battle in regard to this matter, because we have a peculiar and unique situation. I think the gentleman from California realizes that, and I would like his cooperation.

Mr. DORNAN. Mr. Speaker, would the distinguished chairman yield for a moment?

Mr. MAHON. I will yield.

Mr. DORNAN. I do understand the uniqueness of the situation, but in that respect I would add that we would have had different kind of machinations going on here than we are observing now if the Members of the senior House, or the other body, I should say, were to have its entire membership up for re-election every 2 years as we do, and then there would be no demanding that we knuckle under and recede and concur with their positions because they would be more responsive to the will of the American people over abortion.

So, does the gentleman have any assurances that they will accept this amendment, or will they stand by absolutely no abortion language, as they have tried to do?

Mr. MAHON. Yes, we have complete assurances, insofar as we can get them, that the language of the present law would be approved by the other body. We would not, by any means, have capitulated to the position of the other body which tends to open the floodgates for federally funded abortions. We did not agree to that. We insisted upon bringing back the language in the current law, which I hope will be reasonably satisfactory under the circumstances for our military forces at home and abroad.

We have about 350,000 dependents of military personnel overseas. The Defense Department and its personnel have various problems that are quite different from the population involved in the HEW bill. And the people can very well, in my opinion, differentiate between the HEW bill and the defense bill with respect to this troublesome and emotional issue which is before us today.

Mr. FLYNT. Mr. Speaker, will the gentleman yield?

Mr. MAHON. I will be glad to yield to the gentleman from Georgia.

Mr. FLYNT. I thank the chairman, the gentleman from Texas (Mr. MAHON) for yielding to me.

Mr. Speaker, I would like to respond, if I may, to the gentleman from California (Mr. DORNAN) with whom I voted on this issue I think every single time with the exception of the vote this morning.

The vote this morning caught me in sort of a "Catch 22" position because I knew that within a few hours after the vote occurred this morning that we would have this same question raised on the Defense Department appropriation bill, that that would be coming up this afternoon.

Consistency is by no means an essential ingredient of a Member of this body or anyone in public life.

However, the gentleman from California (Mr. DORNAN) is well aware, I think, that the House by no means capitulated to the Senate on the amendment that the Senate made to this part of the bill.

As a matter of fact, if the conferees had not been striving as diligently as they were to bring a conference report out and bring it back to the House, knowing the membership of the conferees on the part of the House, I have strong reason to believe that the conferees would have insisted just as strongly as the gentleman from California (Mr. DORNAN) and the gentleman from Illinois (Mr. HYDE) who is standing beside him, would have done.

The Senate bill was silent on this issue, they struck out our amendment altogether. We felt that in the interest of expediting this bill through the legislative and appropriation processes we should at the very least bring back language which the House had previously agreed to in providing funds for HEW last year and in the House-passed version of a proposed continuing resolution for DOD.

We did so acting in the utmost good faith and in the hope that Members of the House would understand and accept the position the conferees took.

Mr. MAHON. Mr. Speaker, there was nothing with regard to abortion in the Senate version of the defense bill.

The other body placed in the HEW bill language which was less restrictive than that in the House version of the Labor-HEW bill. But there was nothing in the Senate version of the defense bill on this subject.

Mr. HYDE. Mr. Speaker, will the gentleman yield?

Mr. MAHON. I yield to the gentleman from Illinois.

Mr. HYDE. Mr. Speaker, I think we are all aware of the precarious situation we are in. I think there is some understandable feeling on this side that the House seems always to bend to the will of the Senate, if not in language, then in the regulations which implement that language.

The problem with the HEW bill was the regulations as well as the language; but the language would have been more acceptable had the regulation implementing it been more consistent with and more consonant with what I felt was the legislative intent of the House.

Mr. Speaker, I am suggesting that regulations must be issued to implement this language and that HEW will not be issuing those regulations. I would assume the Department of Defense would.

Mr. Speaker, I express the hope that if this language which is being suggested now is adopted by a nonrecorded vote, the regulations implementing it would be a little more sensitive to the legislative intent of the House rather than what HEW did to us in its regulations on the other appropriation bill. What I am talking about is rape and incest. That should

be promptly reported; and "promptly" means a matter of days, not 2 months.

Mr. Speaker, may I make one more point, and then I think we can cover this situation.

I would hope that the legislative intent as understood by the Department in issuing its regulations would be to talk about reporting rape and incest in a matter of days rather than 2 months later, as HEW did. I would hope that the physical condition which abortion is supposed to alleviate would be on which would have some preexisting nature so that there could be some verification that, it, in fact, existed.

With that understanding with respect to legislative intent, I would respectfully suggest that we not make a fight on this issue in this bill at this time and that we do try to do what is best for the most people without for a second yielding in the strength and the commitment of our position that unborn children are just as important as grown soldiers.

Mr. Speaker, I thank the gentleman for yielding.

Mr. MAHON. Mr. Speaker, the Department of Defense people have assured me that steps are being taken to provide regulations which will be meaningful, strict, appropriate, and in agreement generally with the mood of the Congress and of the country with regard to this issue.

Further, Mr. Speaker, I shall take the opportunity of speaking to the Secretary of Defense himself and will also write him a letter, seeking to impress upon him the importance of the matters which we are now discussing in this colloquy. I believe that would be helpful, and I am sure the gentleman from Alabama (Mr. EDWARDS) would share in these views.

Mr. EDWARDS of Alabama. Mr. Speaker, if the gentleman will yield, I do share his feelings and I would join in such a letter to the Secretary.

If I may say, Mr. Speaker, last year when we voted some 11 times on the issue of abortion in the HEW bill, I was one of those who voted for the Hyde amendment and then finally voted for the compromise language which is in the current law. I must say that I felt as though I ended up with egg on my face when I saw the HEW regulations which were put out to implement the law which we all struggled so hard to come up with.

That is the reason I voted against the chairman earlier today when he offered the same amendment to the fiscal year 1979 HEW appropriations bill.

I think the Defense Department understands what the gentleman from Illinois (Mr. HYDE) is talking about, and I join with the chairman in assuring him that we will talk to the Secretary. I will join with the chairman in a letter to the Secretary to try to carry out the clear intent expressed by the gentleman from Illinois.

Mr. MAHON. If I may say to the gentleman from Alabama, I think the officials of HEW are subject to severe criticism for the way the abortion issue has been handled by the Department of HEW.

Mr. EDWARDS of Alabama. I share the gentleman's sentiment.

Mr. FLYNT. Mr. Speaker, will the gentleman yield?

Mr. MAHON. I yield to the gentleman from Georgia (Mr. FLYNT).

Mr. FLYNT. I thank the gentleman for yielding.

I just want to say to the gentleman from California (Mr. DORNAN) and the gentleman from Illinois (Mr. HYDE), if I could have their attention, that I want to express my thanks as a Member of this Congress to the gentleman from Illinois and the gentleman from California, and the gentleman from Alabama (Mr. EDWARDS), for their outstanding attitude on this particular part of this bill. Let me say that I endorse every word that the gentleman from Illinois (Mr. HYDE) said about his disappointment in the regulations issued by HEW, and I hope that the regulations to be issued by the Department of Defense will conform to the legislative intent of the House of Representatives.

Mr. DORNAN. Mr. Speaker, will the gentleman yield for just a final thought?

Mr. MAHON. I yield to the gentleman from California.

Mr. DORNAN. I appreciate the gentleman's giving me the courtesy of this colloquy. It has helped me to resolve a problem that we have all shared here, because it does not involve this sensitive situation with the military. However, we all know that it has been a long time since we have had in the White House a first family who has been so outspokenly prolife and against selective abortions of all kinds. We know that an Executive order, one single Executive order—and there has been precedent for it in many administrations, even on this issue of abortion—would solve this problem until spring when we could thrash it out properly.

I respect the tremendous assurance the gentleman has given me that this is going to be hammered out with the military, and I do trust the military that there will be no shenanigans. Doctors in the military are not pure abortionists running abortion mills, where the true medical code becomes an absurdity because one abortionist will sign off anything another abortionist says any time of night or morning.

So I say that when the President comes on the telephone and appeals for an energy vote, and he says, "Is there anything I can do for you?" I blundered my chance on the MIA question. I wish I had asked him about issuing an Executive order on the MIA, since he said he would not campaign in my district.

If I return after November 7, and the two gentlemen are finishing a glorious career, I will personally go to the Pentagon and ask to see the distinguished Secretary of Defense, and he will see any one of us, and I will get assurances on this issue that there will be no game playing on the military side in taking innocent, unborn human life.

I thank the gentleman for his graciousness, and I will not engage in any requests.

● Mr. STRATTON. Mr. Speaker, I am concerned about the provision contained in section 845 of the appropriations bill that would set the limit of CHAMPUS payments at the 80th percentile of the fair and reasonable charges for health care providers.

The House and the Senate have previously addressed themselves to that particular matter, both in H.R. 10929, the original authorization bill that was vetoed by the President, and in H.R. 14042, the follow-on bill.

In both bills, the appropriate authorizing committees in the House and the Senate set the upper limits for CHAMPUS at the 90th percentile, but despite that we are asked today now to change our minds in the rush of last minute congressional business and set the upper limit at the 80th percentile instead.

Mr. Speaker, I am alarmed at this situation, particularly due to the almost chaotic state of health care delivery in military medical facilities. I do not believe there is a Member in this Chamber who has not heard from one of his active duty or retired constituents concerning the problems in military health care. Those problems are forcing many beneficiaries literally to flee to civilian care under CHAMPUS in order to maintain even minimal health standards.

The purpose of the action taken by the Armed Services Committee was to attempt to get CHAMPUS back on the track in order to help alleviate some of these problems. Now we are being asked in the appropriations process to lower our sights and tell those active duty and retired constituents of ours that they deserve something less than the best in health care.

All of us recognize the urgency of getting this appropriation conference report approved so that military personnel may receive their hard-earned and well-deserved pay. I will not make a point of order, as I would certainly be entitled to do, or otherwise resist approval of the report for that and other obvious reasons necessitating the urgent enactment of this legislation.

However, Mr. Speaker, I would urge very strongly that upon entering the 96th Congress there be consideration given to tightening the rules relative to legis-

lating through the appropriations process. It seems to be a clear non sequitur for the primary authorizing committee—in this case, the Armed Services Committee—to exercise its jurisdictional responsibilities in setting certain limits for the CHAMPUS program and then have the Appropriations Committee come along a few weeks later and undertake in effect to amend the legislation already adopted by the Congress through the appropriate authorization process.

Further, I strongly urge that the Appropriations Committee reevaluate its actions with regard to percentiles in CHAMPUS during consideration of the fiscal year 1980 appropriations bill with a view to conforming their action with the action taken earlier in the peoples forum, the authorization process.

Mr. Speaker, I will not oppose this conference report, in the interests of the welfare of our Armed Forces, and therefore I urge all my colleagues to support it, too.●

● Mr. PICKLE. Mr. Speaker, I want to urge all of my colleagues to adopt this conference report and send it on its way to the Senate as quickly as possible. Because of the unconscionable delays in the passage of this important appropriations bill have created the possibility that the men and women who defend our Nation may not receive their paychecks.

The 1.5 million men and women who serve in our armed services have already made tremendous sacrifices in the service of our Nation but this is one sacrifice, one indignity that is too much to ask of anyone.

This morning I received a call from a woman from Austin, Tex., who said she has only $12 in the bank with rent payments and loan payments that are due tomorrow and she has no money to feed her children. I am sure that every Member of this Congress will agree that this is a shameful way to treat our armed services.

I hope that this House will place no more obstacles in front of this bill so that we may see it signed into law on this day.●

● Mr. AKAKA. Mr. Speaker, we have debated this matter many, many times. The Department of Defense's various programs for moving military personnel's household goods are extremely complex—whether they be the competitive rate program, the carrier evaluation rating system, the me-too system or the direct procurement method.

Therefore, it is unfortunate that votes have been cast on the basis of "catch phrases", such as "more competition" and "cut Government spending".

Well, I can only say this: What would your constituents say if you voted to allow funding for the expansion of a Government program while, at the very same time, the Government itself was also paying for studies to determine whether that program was a good one or not?

I think the answer is obvious.

Currently, the General Accounting Office is evaluating how CRP has or has not worked up to this point. Furthermore, because CRP has only been used in foreign countries, the DOD is studying the potential impact it will have on the economies of Hawaii and Alaska should it be implemented in those two States.

Both of these investigations were ordered because the House Committee on Merchant Marine and Fisheries felt there had been sufficient evidence presented in oversight hearings to cast doubt on the merits of the competitive rate program.

If the GAO report concludes that CRP has been a full success in foreign countries, fine. Let us extend its usage to all nations within the military network.

If the Defense Department study shows that CRP will not have an adverse impact on the economies of Alaska and Hawaii, but a positive one, fine. Let us then implement it throughout the United States.

But for the present, do we truly believe that we are exhibiting our concern over Government spending by allowing funding for the expansion of a program while we are also paying for two studies to determine whether or not CRP should even be continued,

It is a contradiction I do not think we can justify to our voters. Therefore, I would urge that we accept the language of Senate amendment No. 76.●

● Mr. HILLIS. Mr. Speaker, although I am terribly disturbed that the House conferees decided to include the Senate's language limiting the reimbursement level for CHAMPUS to the 80th percentile, I do not intend to oppose the chairman's motion due to the urgency of this legislation. As many Members will remember, this same language was ruled out of order as legislation in an appropriation bill under rule XXI, clause 2 when the House considered this measure in August. Prior to that, the House had shown its support for the 90th percentile by approving my amendment to the original DOD authorization bill, H.R. 10929, which was vetoed. Further, the House Armed Services Committee reported H.R. 8647 which would establish the 90th percentile as the statutory level of reimbursement. The history of this issue clearly indicates strong support in the House for the 90th percentile.

CHAMPUS is not a health insurance program. It is intended to be an extension of military health care. It is, therefore, necessary that the program be responsive to the needs of its beneficiaries if it is to function as designed and intended by Congress.

After the House approved my amendment to the DOD authorization bill adding language establishing the 90th percentile as the upper limit for payment, I received a letter from Gen. Alton Slay, commander of the USAF Systems Command. I would like to read a paragraph from that letter:

During my recent round of base visits, our people, particularly the junior enlisted members, described the severe hardships and attendant morale problems they were encountering because of the difficulties and expense involved under the current CHAMPUS fee payment schedule. In some instances, adequate health care for their dependents was simply out of reach for them financially. Your amendment goes a long way toward correcting this situation.

I feel the Defense Department shares General Slay's feelings although no official position has ever been stated. However, the Assitant Secretary for Health Affairs in three appearances before the House Armed Services Committee testified on military health care delivery and indicated support for the 90th percentile.

In its report on this bill, the Appropriations Committee noted "that there may be reason to increase the payment from the 75th percentile but [the committee] has selected a go-slow policy." It should be understood that the 90th percentile was effective until fiscal year 1978 when it was suddenly lowered by Senate Appropriation Committee language in the fiscal year 1978 appropriation bill. My efforts this year have been to reestablish the 90th percentile as the maximum level of reimbursement. My point is that a "go-slow" policy should not be adopted in returning to the pre-fiscal year 1978 level of maximum reimbursement. We are faced with a situation as General Slay explained where junior enlisted personnel cannot take advantage of CHAMPUS due to the low payment schedule without facing severe hardships. These hardships are caused because beneficiaries must pay the difference between what CHAMPUS covers and what the physician charges. CHAMPUS has become a cost-sharing program which was never intended by Congress except with respect to retired personnel.

While I was not privileged to the discussions of the conference committee which considered this matter, I am at a loss to understand how the expressed will of the House could be so easily disregarded. Furthermore, the level of reimbursement for CHAMPUS is rightfully an issue which the Armed Services Committee should decide. It is inappropriate for matters of this nature to be decided by the Appropriations Committee when the Armed Services Committee has made its position well known.

Should I have the honor of serving in the 96th Congress, I will again fight for the 90th percentile. I would like to make it clear for the record that the only reason I am not going to request a recorded vote on this amendment or raise a point of order against it is due to the urgency of getting this bill to the President. However, the Appropriations Committee should be aware of the Armed Services Committee's desire to have the 90th percentile established as the level of reimbursement and my personal commitment to see that desire realized.●

● Mr. SIKES. Mr. Speaker, as part of our consideration of the final stages of congressional approval of the Defense

appropriation bill for fiscal 1979, I feel there should be discussion of the status of the development of lasers as weapons in the United States. Knowledgeable individuals in our country are deeply concerned that we may not be holding our own with the Russians in this field. It is known that they are making an intense effort to be the first to achieve effective weapons capability with lasers. We are carrying on laser programs as a part of our scientific and defense effort and over the last 10 years, during an accelerating national effort to advance the state-of-the-art in high energy lasers, a number of major milestones have been achieved.

The gas dynamic laser was brought from the laboratory to full scale and produced power levels adequate for weapon applications.

Significant improvements have been achieved in chemical laser performance in devices which are being scaled to weapon power.

Pointer-trackers capable of directing lethal laser beams to targets have been demonstrated.

All three services have performed lethality demonstrations against live targets including high speed missiles.

A flightweight high power gas dynamic laser has been fabricated and tested and will shortly be flown by the Air Force to demonstrate its effectiveness in the realistic Airborne Laser Laboratory environment.

Current Air Force plans include the demonstration of a higher performance, simpler gas dynamic laser now being designed for installation in current operational aircraft. This Air Force program is known as the Short Range Applied Technology (SRAT) program and represents the earliest real potential for U.S. military operational systems applicable to existing Air Force and Navy airborne requirements.

The Navy and Air Force are developing high power chemical lasers for application to sea level missions and high altitude or space missions.

The Army is working toward a version of the chemical laser specifically tailored to match its field environment.

Over the last 10 years, the Department of Defense has invested over a billion dollars in these and many other high energy laser programs. In spite of this investment and significant accomplishments in many areas, the services are all still far from an operational weapon system. There are two primary reasons for this. First, scientists, rather than engineers, are in control of the program and, by nature, desire to look for better scientific approaches to a requirement rather than developing a proven capability into an operational system. Second, the using commands in the three services are not pressing for system development since there is no weaponized high energy laser that demonstrates meeting their requirements. Also, because there is no user pressure for the weapon, the weapon is therefore not justified and a "Catch 22" situation develops. It is like trying to get a job which demands experience when you cannot get experience without a job.

Since only a management decision will break the cycle, a decision to demonstrate a weaponized high energy laser is urgently needed. While a demonstration of a weaponized laser is ultimately needed by each service due to the variety of their operational environments, right now the demonstration of one prototype would provide substantial evidence to all services of the usefulness of the high energy laser. The alternative that the Department of Defense seems to be headed toward is to continue working on technology for many years to come. Since spending in the DoD high energy laser program is about $200 million per year, only 5 years of this will result in another billion having been spent, and still there will be no laser weapon.

Therefore, I believe the course is clear: weaponize the high energy laser, provide a convincing prototype demonstration to the using commands and begin realizing a payoff from the billion dollars already invested in high energy lasers.

In other words, we are not doing what we should to stay ahead of the Russians to insure full capability of a laser weapons system. This could become a race to the death—the death of the country that lags behind.●

● Mr. LEGGETT. Mr. Speaker, I rise to give my colleagues a budgetary perspective on the conference report on H.R. 13635, the Department of Defense Appropriations Act, 1979.

The pending conference report would provide budget authority of $117.2 billion and outlays of $105.4 billion from current and prior years. The budget authority is below the assumptions underlying the second budget resolution for fiscal year 1979 and the outlays are essentially consistent with the budget resolution.

The conference report would provide $1,763 million less in budget authority and $195 million more in outlays than the bill did when it passed the House. The large reduction in budget authority is primarily related to the elimination of the nuclear aircraft carrier (CVN–71) which was included in the House passed bill.

The following factsheet outlines the relationship between this conference report, the second budget resolution and the President's budget request.

FACTSHEET

H.R. 13635 DEPARTMENT OF DEFENSE APPROPRIATIONS BILL, FISCAL YEAR 1979, CONFERENCE REPORT

I. Spending action compared to second budget resolution assumptions

The conference report on the DOD Appropriations Bill for FY 1979 provides $117.3 billion in budget authority and $105.2 billion in outlays. These amounts are $1.8 billion in budget authority below Second Budget Resolution assumptions and essentially on target for outlays.

II. Background

Following is a table showing the conference report compared to the House and Senate passed bills:

(In billions)

	DOD appropriations bill, budget authority fiscal year 1979	outlays
House passed bill (Second Budget Res.)	119.1	105.2
House position less CVN funds and plus ship claims funds	117.2	105.2
Senate passed bill	116.5	105.0
Conferece report	117.3	105.4
Conference report Over (+)/Under (−) House passed bill	−1.8	+.2

The $1.8 billion difference between the House passed bill and the conference report is the deletion of CVN funds ($2,130 million) and the addition of $209 million for ships claims.

III. Perspective on Function Totals

There are three Second Budget Resolution assumptions for the National Defense function yet to be acted on after the conference report on the DOD Appropriations Bill—the spring pay supplemental, a Public Works Appropriations Bill to fund DOD nuclear energy activities (the bill was vetoed and sustained) and legislation to provide for the sale of additional strategic materials. Approval of the DOD Appropriations Bill conference report in addition to the assumptions of budget authority and outlays for the three remaining items should result in a functional total below the levels of the Second Budget Resolution.

IV. Comparison to President's Budget

Budget authority in this bill is $2.0 billion below the $119.3 billion requested by the President, outlays are $5.4 billion below the $109.8 billion estimated by the President.●

Mr. MAHON. Mr. Speaker, I move the previous question on the conference report.

The previous question was ordered.

The conference report was agreed to.

AMENDMENTS IN DISAGREEMENT

The SPEAKER pro tempore. The Clerk will designate the first amendment in disagreement.

Senate amendment No. 2 is as follows: Page 2, line 19, strike out "$6,456,450,000" and insert "$6,455,500,000."

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 2 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment, insert the following: "$6,461,600,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 4 is as follows: Page 3, line 12, strike out "$7,507,195,000" and insert "$7,521,081,000.".

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 4 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment, insert the following: "$7,525,001,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 6 is as follows: page 3, line 21, strike out "$546,650,000" and insert "$541,800,000.".

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 6 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment, insert the following: "$547,350,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 10 is as follows: Page 4, line 15, strike out "$83,725,000" and insert "$83,100,000.".

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 10 and concur therein with an amendment, as follows: in lieu of the sum proposed by said amendment, insert the following: "$84,125,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 12 is as follows: page 4, line 25, strike out "$186,325,000" and insert "$185,250,000.".

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 12 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment, insert the following: "$183,850,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 27 is as follows: page 10, line 10, strike "$386,500,000" and insert "$386,700,000."

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 27 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment, insert the following: "$384,700,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 33 is as follows: page 14, line 15, insert ": *Provided further*, That restrictions contained within appropriations or other provisions of law limiting the amounts that may be obligated or expended for rentals, construction, or other services or supplies are hereby increased to the extent necessary to reflect downward fluctuations in currency exchange rates from those used in preparing the applicable budget submission".

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 33 and concur therein.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 34 is as follows: Page 14, line 21, insert ": *Provided further*, That contracts or other obligations entered into payable in foreign currencies may be recorded as obligations based on the currency exchange rates used in preparing budget submissions, and adjustments to reflect fluctuations to currency exchange rates may be recorded as disbursements are made: *Provided further*,".

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 34 and concur therein.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 42 is as follows: Page 19, line 11, strike $1,591,000,000" and insert "$1,623,800,000,".

MOTION OFFERED BY MR. MAHON

Mr. MAHON, Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 42 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment, insert the following: "$1,642,250,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 44 is as follows: Page 20, line 16, strike "$1,983,800,000" and insert "$1,988,500,000,".

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 44 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment, insert the following: "$1,955,600,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 49 is as follows: Pages 21, line 16, insert "for the T-AGOS SURTASS ship program, $98,000,000;".

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 49 and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following: "for the T-AGOS SURTASS ship program $69,000,000;".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 51 is as follows: Page 21, line 20, strike "$5,688,000,000" and insert "$3,760,600,000,".

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 51 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment, insert the following: "$3,759,600,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 58 is as follows: Page 25, line 23, strike "$266,800,000" and insert "$272,200,000,".

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 58 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment, insert the following: "$273,800,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 60 is as follows: Page 26, line 18, strike out "$4,463,860,000," and insert $4,450,060,000,".

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 60 and concur therein with an amendment, as follows: In lieu of

the sum proposed by said amendment, insert the following: "$4,468,871,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 65 is as follows: Page 27, line 21, strike out "$885,144,000."

And insert $886,638,000,".

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 65 and concur therein with an amendment, as follows: In lieu of the sum proposed by said amendment, insert the following: "$892,887,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 74 is as follows: Page 52, line 24, strike out "or (f) any service or supply which is not medically or psychologically necessary to diagnose and treat a mental or physical illness, injury, or bodily malfunction as diagnosed by a physician, dentist, or a clinical psychologist, as appropriate, except as authorized by section 1079 (a)(4) of title 10, United States Code."

And insert: "(f) reimbursement of any physician or other authorized individual provider of medical care in excess of the eightieth percentile of the customary charges made for similar services in the same locality where the medical care was furnished; or (g) any service of supply which is not medically or psychologically necessary to prevent, diagnose, or treat a mental or physical illness, injury, or bodily malfunction as assessed or diagnosed by a physician, dentist, clinical psychologist, certified psychiatric mental health nurse specialist, certified nurse-midwife, or other certified nurse practitioner, as appropriate, except as authorized by section 1079(a)(4) of title 10, United States Code.".

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 74 and concur therein with an amendment, as follows: In lieu of the matter striken and inserted, insert: "(f) reimbursement of any physician or other authorized individual provider of medical care in excess of the eightieth percentile of the customary charges made for similar services in the same locality where the medical care was furnished; or (g) any service or supply which is not medically or psychologically necessary to prevent, diagnose, or treat a mental or physical illness, injury, or bodily malfunction as assessed or diagnosed by a physician, dentist, clinical physchologist, or certified nurse-midwife, as appropriate, except as authorized by section 1079(a)(4) of title 10, United States Code".

Mr. MAHON (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 76 is as follows: Page 56, line 8, insert:

SEC. 852. (a) None of the funds appropriated by this Act shall be obligated under the Competitive Rate Program of the Department of Defense for the transportation of household goods to or from Alaska or Hawaii.

(b) None of the funds appropriated by this Act shall be obligated for any payments to any low rate setting freight forwarder for transportation services furnished beginning November 1, 1978, for transportation of more than 80 percent of the estimated tonnage of commercial through household goods over any traffic route to or from a rate setting area under the Competitive Rate Program of the Department of Defense: *Provided*, That the limitations shall not apply to a traffic route over which less than 30,000 pounds of estimated tonnage will be transported: *Provided further*, That this limiation shall not apply to shipments to or from a rate setting area in the United States in which the total number of outbound shipments under the program during the period November 1, 1976, through April 30, 1977, was less than 3 percent of the total number of outbound shipments during that period.

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 76 and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

SEC. 853. None of the funds appropriated by this Act shall be obligated under the Competitive Rate Program of the Department of Defense for the transportation of household goods to or from Alaska or Hawaii.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 77 is as follows: Page 57, line 3: strike out:

SEC. 853. None of the funds appropriated by this Act or available in any working capital fund of the Department of Defense shall be available to pay the expenses attributable to lodging of any person on official business away from his designated post of duty, or in the case of an individual described under section 5703 of title 5, United States Code, his home or regular place of duty, when adequate government quarters are available, but are not occupied by such person.

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 77 and concur therein with an amendment, as follows: In lieu of the matter stricken by said amendment, insert the following:

SEC. 854. (a) None of the funds appropriated by this Act or available in any working capital fund of the Department of Defense shall be available to pay the expenses attributable to lodging of any person on official business away from his designated post of duty, or in the case of an individual described under section 5703 of title 5, United States Code, his home or regular place of duty, when adequate government quarters are available, but are not occupied by such person.

(b) The limitation set forth in subsection (a) is not applicable to employees whose duties require official travel in excess of fifty percent of the total number of the basic administrative work weeks during the current fiscal year.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 84 is as follows: Page 59, line 12, insert: SEC. 858. None of the funds appropriated by this Act may be used for the consolidation or realignment of advanced or undergraduate pilot training squadrons of the Navy as currently proposed by the Department of Defense.

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 84 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following:

SEC. 860. None of the funds appropriated by this Act may be used for the consolidation or realignment of advanced or undergraduate pilot training squadrons of the Navy as currently proposed by the Department of Defense.

The SPEAKER pro tempore. The gentleman from Texas (Mr. MAHON) is recognized for 30 minutes.

Mr. DICKINSON. Mr. Speaker, will the gentleman yield?

Mr. MAHON. I yield to the gentleman from Alabama.

Mr. DICKINSON. Mr. Speaker, I thank the chairman of the committee for yielding.

Mr. Speaker, let me say first to the gentleman from Texas (Mr. MAHON), the distinguished chairman of the Committee on Appropriations, that it has been a very real privilege for me to work with him during the 14 years I have served in this very distinguished body.

In my activities on the Committee on Armed Services, working the with gentleman as chairman of the Subcommittee of Defense on the Committee on Appropriations, I have never had anything but the highest regard for the gentleman, and all of my dealing with him have been most amiable and pleasant and on the very highest order.

I want to pay my personal respects to the gentleman as he handles what I presume will be his last bill, and I want to say how much all of us on this side of the aisle—and, indeed, I am sure this is true of the entire body—love and admire and respect the gentleman. I certainly want to get on the record at this time by saying that.

Mr. MAHON. Mr. Speaker. I thank the gentleman from Alabama (Mr. DICKINSON) very much for those generous words.

Mr. DICKINSON. Mr. Speaker, if the gentleman will yield further, let me say that what I am about to do now is probably the hardest thing I have done since being a Member of this body. It is my right and privilege at this point to ask for a division of the question on the motion and to force a vote on the question of consolidated helicopter training.

Mr. Speaker, this House has already voted several times on this question, my amendment overwhelmingly earlier this year, by almost a 2-to-1 vote. The same thing happened last year, and I think

that this House would perhaps vote the same way, if asked at this late date to vote once again to consolidate the basic helicopter training of all military services so that we can save what is estimated to be at least $100 million over the next 5 years. I think perhaps the House would vote the same way again.

I think so, in view of the history.

But the chairman knows, and I know, that there comes a point of reality when you might win a victory and lose the battle. And, as we have discussed in our previous colloquy, tied up in this bill are the paychecks of millions of our service personnel who will not get paid on time if I should offer my motion and it prevails and the Senate should be as "unyielding" as they have been in the past.

Mr. MAHON. Mr. Speaker, in the conference with the other body I explained to the Senate conferees that the House conferees had been instructed in regard to undergraduate helicopter pilot training, and I told the conferees of the other body that we did not propose to betray our colleagues in the House of Representatives and that we were going to insist upon the House position.

Individual members of the conference had different views in respect to the matter, but collectively we were going to insist. But day after day, during the conference, and when we were not in conference, the representatives of the other body assured me that they would not yield, regardless of what the House did, they did not propose to yield their position.

There are many ramifications and implications involved in this matter that the gentleman understands.

So session after session after session in respect to this matter, we tried to persuade the Senate to recede without success. What we could do would be to bring the matter back to the House for further action and the House would have the opportunity for further action. But, of course, if we have further action and we send this back to the other body, there is no doubt in the world that it will be bucked back to us and the conference will be delayed and the troops would not be paid tomorrow. The other body voted 75 to 21 on this issue.

Mr. DICKINSON. If the chairman would yield further, I want to commend him again, because I am aware that in the conference the chairman did make the statement that the House had spoken on this matter and that he was going to maintain the House position, and when a motion was made to recede and concur he did in fact stand with the House position, and they did not recede and concur. And if the chairman had done otherwise, he would have been going against the wishes of the House. I am aware of it, and I am appreciative of it, and I certainly think it should be a matter of record.

Mr. Speaker, I would just like to say that at this time I have spoken with the Secretary of Defense personally, and he feels strongly that this is a matter that should be done. I spoke with him yesterday. I have spoken with the Secretary of the Navy. He said:

Don't talk to me. You are preaching to the choir. I agree with everything you say.

I was assured yesterday by the Secretary of Defense that it would be in next year's budget if it was not successfully concluded in this budget. And so rather than take the chance that we would delay all of the military service personnel being paid on time—and God knows many of them live from hand to mouth, on the pay that they get—and knowing that whatever we do now will not bring about the consolidation which I seek and which the DOD seeks, and will not effectively accomplish the purpose, but might be counterproductive to those in the military for whom we wish the best and want to help, I will ask for a vote on this motion, but I will not insist upon a rollcall vote—just to make it a matter of record.

I want to again thank the chairman for his consideration and to explain why I am not making my motion at this time—not because of any lack of conviction on my part or of being convinced that I would not prevail in this one instance, but I do think, in the long run, it might prove selfish on my part and hurt other people who are looking for a paycheck, and it might not effectively accomplish the purpose which we seek at this time.

Mr. MAHON. I thank the gentleman for his statesmanlike position.

Mr. EDWARDS of Alabama. Mr. Speaker, will the gentleman yield?

Mr. MAHON. I yield to the gentleman from Alabama.

Mr. EDWARDS of Alabama. Mr. Speaker, I want to commend the gentleman from Alabama (Mr. DICKINSON). I think he shows great statesmanship at a time such as this. He has fought hard. He had the conferees on the House side instructed. The conferees in fact stood by their instructions and the gentleman knows, I think, that he could tie up this bill and send us back to conference at a most inopportune time. I think he shows great statesmanship in that respect and in his respect for the House, in his respect for the servicemen and women of this country and for others who are paid by this bill.

I want to compliment him for the spirit in which he has handled this matter.

Mr. MAHON. Mr. Speaker, I move the previous question on the motion.

The previous question was ordered.

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 85 is as follows: Page 59, line 16, strike out:

SEC. 859. None of the funds appropriated by this Act shall be available to increase the pay of a prevailing rate employee, as defined in paragraph (A) of section 5342(a)(2) of title 5, United States Code, as the result of adjustments in pay pursuant to section 5343 of title 5, United States Code, effective on or after October 1, 1978, in excess of 5.5 percent of the rate of pay in effect on September 30, 1978, for such an employee.

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 85 and concur therein with an amendment, as follows: In lieu of the matter stricken by said amendment, insert the following:

SEC. 861. All obligations incurred in anticipation of the appropriations and authority provided in this Act are hereby ratified and confirmed if otherwise in accordance with the provisions of this Act.

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 89 is as follows: Page 61, line 4 strike out:

SEC. 861. None of the funds appropriated by this Act may be used to pay for abortions performed by any means except where the life of the mother would be in danger if the fetus is carried to term nor may any of such funds be used to promote or encourage abortions.

MOTION OFFERED BY MR. MAHON

Mr. MAHON. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MAHON moves that the House recede from its disagreement to the amendment of the Senate numbered 89 and concur therein with an amendment, as follows: In lieu of the following:

SEC. 863. None of the funds appropriated by this Act shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term; or except for such medical procedures necessary for the victims of rape or incest, when such rape or incest has been reported promptly to a law enforcement agency or public health service; or except in those instances where severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term when so determined by two physicians. Nor are payments prohibited for drugs or devices to prevent implantation of the fertilized ovum, or for medical procedures necessary for the termination of an ectopic pregnancy.

Mr. MAHON (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. MAHON. Mr. Speaker, this is the motion involving the issue of abortion which we have already discussed in connection with this measure. I ask for a vote.

The motion was agreed to.

A motion to reconsider the votes by which action was taken on the conference report and the several motions was laid on the table.

CONFERENCE REPORT ON S. 555, ETHICS IN GOVERNMENT ACT OF 1978

Mr. DANIELSON. Mr. Speaker, I call up the conference report on the Senate bill (S. 555) to establish certain Federal agencies, effect certain reorganizations of the Federal Government, to implement certain reforms in the operation of the Federal Government and to preserve and promote the integrity of public officials and institutions, and for other purposes.

The Clerk read the title of the Senate bill.

(For conference report and statement, see proceedings of the House of October 11, 1978.)

The SPEAKER pro tempore. Under the rule previously adopted, the conference report is considered as having been read.

PARLIAMENTARY INQUIRY

Mr. WIGGINS. Mr. Speaker, I pose a parliamentary inquiry.

It is my intention to make a point of order against title VI of the conference report, and I will do so at this time if it is the appropriate time to do so.

The SPEAKER pro tempore. This is the appropriate time. Is the gentleman designating title VI?

POINT OF ORDER

Mr. WIGGINS. Mr. Speaker, I make a point of order against title VI of the conference report. That, for the Speaker's information, is the title dealing with the special prosecutor language in the conference report, and I request to be recognized on my point of order.

The SPEAKER pro tempore (Mr. MINETA). The Chair will hear the gentleman from California.

Mr. WIGGINS. Mr. Speaker, my point of order is based upon rule XXVIII, which is the germaneness section. It is my position, Mr. Speaker, that title VI is a nongermane Senate amendment and it violates that section of the House rules which I have cited. It is to be remembered, Mr. Speaker, that a similar amendment to the Senate amendment was offered on the House floor during our consideration of H.R. 1. At that time an objection was raised to the amendment on the ground that it was nongermane to the bill. At that time the Speaker sustained the point of order.

It is my view, Mr. Speaker, that for the very reasons cited by the Speaker in rejecting the so-called Hyde amendment, the present Senate amendment is similarly defective and subject to a point of order.

When the gentleman from Illinois (Mr. HYDE) argued forcefully that the amendment he proposed was germane, he called to the attention of the Speaker that the issue dealt broadly with ethics in Government, but that argument did not prevail. He also called to the attention of the Speaker that the special prosecutor language was referred to the Judiciary Committee, but that language did not prevail.

Indeed, every argument which I think the proponents of the Senate language must now make in order to sustain the germaneness of this amendment was considered by the Speaker only several days ago and was rejected.

I wish, however, to not rest my case entirely upon the arguments which were made most cogently by the gentleman from California (Mr. DANIELSON) as he argued against the point of order earlier but rather wish to proceed by saying that the language in the special prosecutor amendment added by the Senate is so broad and sweeping that it covers in several respects private individuals, that is to say, new classes of people who are not covered under the sweep of the ethics bill.

As the Speaker knows, the ethics bill in the various titles affects those in the legislative branch, the executive branch, and the judicial branch of Government. However the special prosecutor legislation goes beyond that. It includes former members of the executive branch who are by hypothesis in private life. It also includes private individuals who have never served in Government, namely the campaign manager of a Presidential campaign or a person in a similar position connected with a Presidential campaign.

Under the Senate amendment a special prosecutor may be appointed in the event of alleged irregularities by these private individuals.

Now, Mr. Speaker, this is extending the categories of coverage in a very significant way and is a basis for my point of order to be sustained, but before I rest my case, Mr. Speaker, I wish to address myself to a more fundamental reason.

The special prosecutor bill, which is tacked on to the ethics bill, is a complicated and important piece of legislation. It was considered in detail by a different subcommittee in the Committee on the Judiciary which did not consider the ethics bill. It is true that the Committee on the Judiciary reported out a special prosecutor bill but it was never brought to the floor of the House and, indeed, has never been debated nor subject to amendment by Members of this House.

It is a far-reaching piece of legislation, it is complicated, different in form, different in purpose, different in all respects from the ethics bill which we did consider several days ago.

I hope that the Speaker, when the Speaker is prepared to rule, will recognize that germaneness, if it is to have any meaning at all, is offended in a fundamental way by allowing the Senate to tack on an issue which is so basically different and unrelated to the ethics bill which we considered earlier.

I hope the Speaker will sustain my point of order.

The SPEAKER pro tempore. Does the gentleman from California desire to be heard on the point of order?

Mr. DANIELSON. I do, Mr. Speaker.

The SPEAKER pro tempore. The gentleman is recognized.

Mr. DANIELSON. Mr. Speaker, the so-called special prosecutor portion of this bill was the work product of the Subcommittee on Criminal Justice of the Committee on the Judiciary which is chaired by our distinguished colleague, the gentleman from South Carolina (Mr. JAMES MANN) and I will yield to him in order to respond to the arguments the gentleman from California (Mr. WIGGINS) has made.

The SPEAKER pro tempore. The Chair will recognize the gentleman from South Carolina on the point of order.

Mr. MANN. Mr. Speaker, I thank the gentleman for yielding to me, and I will take a moment or two in order to outline the background of the legislation pending before the House at the moment, because it is somewhat complicated to describe.

The House amendment to S. 555 is actually the text of H.R. 1 as passed by the House. The text of H.R. 1, as finally approved, was actually the text of an amendment in the nature of a substitute, as amended. Thus, the issue, as I understand it, is whether the provisions of title VI of the conference report would have been germane to the amendment in the nature of a substitute which eventually became the text of House bill, H.R. 1, had the provisions of title VI been offered as an amendment to the amendment in the nature of a substitute. I believe that the provisions of title VI would have been germane to the amendment in the nature of a substitute and that the chair should therefore overrule the point of order.

During the consideration of the amendment in the nature of a substitute, the gentleman from Illinois (Mr. HYDE) offered an amendment with provisions similar to, but also critically different from, the provisions of title VI of the conference report. Unlike title VI of the conference report, the gentleman's amendment included Members of Congress. Since title II of the amendment in the nature of a substitute was limited to financial disclosure by executive branch personnel, the amendment of the gentleman from Illinois was not germane to title II and a point of order to his amendment was sustained.

The basic test for determining germaneness is whether the fundamental purpose of the amendment is germane to the fundamental purpose of the bill. The question here, then, is whether the fundamental purpose of title VI is germane to the fundamental purpose of the amendment in the nature of a substitute. I submit that it is. The purpose of the amendment in the nature of a substitute, which is subtitled the "Ethics in Government Act," is to promote ethical conduct by Federal Government officials and certain other private citizens. The purpose of title VI of the conference report is also to promote ethical conduct.

A second test for germaneness is whether the subject matter of the amendment relates to the subject matter of the bill. The question here is whether the subject matter of title VI of the conference report relates to the subject matter of the amendment in the nature of a substitute. I submit that it does.

The subject matter of the amendment in the nature of a substitute was broad. It encompassed ethical standards and conduct involving officials in all three branches of the Federal Government—legislative, executive, and judicial—as well as certain private citizens.

With regard to Federal Government employees and officials, it required detailed financial disclosure statements to be filed by people in all three branches of Government. It established an Office of Government Ethics with broad authority, including the power to promulgate regulations pertaining to "conflicts of interest and ethics in the executive branch." It amended our Federal criminal law in the area of conflicts of interest.

With regard to the point upon which the gentleman from California (Mr. WIGGINS) seems to primarily rely, that of the involvement of private citizens, the amendment in the nature of a substitute reached out to cover people who were private citizens as candidates for Congress, whether or not they were elected. It made criminal certain conduct by partners of Government employees or officers, even though the partners are not

themselves Government officers or employees. This is in section 241(a), establishing section 207(h) of title 18, United States Code, which was in the amendment in the nature of a substitute as it was considered by the House.

The gentleman from California concedes that the amendment in the nature of a substitute encompasses private citizens. He argues, however, that those private citizens are connected in some way with the Government.

Mr. Speaker, I submit that the private citizens covered in title VI of the conference report encompass only one narrow group. The President's campaign manager is connected to the Government just as much as the partner of some Government employee who may be violating some law in appearing before some Government agency. He is connected in the same way as the business partner of a Government employee would be connected.

Conflict of interest is apparent when a Government employee is involved in hearing a matter in which a business partner is involved, and a similar conflict is present when the Attorney General is called upon to prosecute the person who successfully managed the President's Presidential campaign.

Therefore, Mr. Speaker, the amendment in the nature of a substitute applied to private citizens when their status or relationship to people within the Government would create ethical or conflict-of-interest problems within the Federal Government.

This is precisely true of the only private citizens encompassed by title VI of the conference report, including, as I said before, the manager of the President's successful election or reelection campaign.

Based upon the above, Mr. Speaker, I submit that the provisions of title VI of the conference report would have been germane to the amendment in the nature of a substitute if those provisions had been offered as a separate title to the amendment in the nature of a substitute.

Therefore, I submit that the point of order should be overruled.

Mr. WIGGINS. Mr. Speaker, may I be heard further.

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. WIGGINS).

Mr. WIGGINS. Mr. Speaker, I am fully sympathetic with the awkward position in which the gentleman from South Carolina (Mr. MANN) finds himself. He knows full well that the Chair sustained a point of order against a similar special prosecutor proposal when this matter was considered in the House. It is incumbent upon him to distinguish that action, obviously, in order to take the contrary point of view. Now he attempts to distinguish the recent decision of the Speaker by pointing out that the so-called Hyde amendment was nongermane to a title. However, had it been offered as a separate title, the argument of nongermaneness would not have prevailed.

Since this Senate proposal is a separate title, he urges the Speaker to adopt that reasoning. However, the trouble, Mr. Speaker, is that my friend, the gentleman from South Carolina, misunderstands the germaneness rule. An amendment, in order to overcome a charge of nongermaneness, must be germane to the bill and not to a title. That is the basis upon which the distinction is made that it was nongermane to a title.

Mr. Speaker, I respectfully suggest that my friend, the gentleman from South Carolina, has misconceived the germaneness rule. If the bill, whether by separate title or as an amendment to an existing title, is, in fact, nongermane, as the Speaker has previously held, recent precedent would require the Speaker to follow that decision.

Mr. MANN. If I may be heard further, Mr. Speaker, I feel not awkward, but very comfortable in the position which I have taken, not only with respect to the proper parliamentary distinction between titles and the purpose of the bill. It will be recalled that title II in our bill on the floor of the House related to executive branch employees, while the Hyde amendment, which was ruled nongermane, involved Members of Congress.

Mr. Speaker, the arguments I have made relate to the entire bill, and I think I have shown that not only is it coordinated with reference to the purpose of the legislation in general, but it is coordinated with reference to the persons involved to an adequate extent.

The SPEAKER pro tempore. Does the gentleman from California (Mr. DANIELSON) wish to be heard further?

Mr. DANIELSON. I have no argument to add other than that advanced.

The CHAIRMAN (Mr. MINETA). The Chair has examined the ruling cited by the gentleman from California and the previous discussion relative to title II of the House bill in the discussion of the 27th of September and the ruling of the Chair at that time. In examining that, it is a narrow ruling, and it only applies to title II and not to the whole bill. In looking at the gentleman's point of order in this instance the gentleman from California makes two points, one as title VI relates to new classes of persons not covered by the House-passed bill, and the other in terms of the breadth of the types of conduct subject to investigation by the special prosecutor.

It seems that under what is being considered here, the breadth of the investigation which the special prosecutor may undertake, goes far bevond the scope of the activity regulated by the House-passed bill. In looking at title VI, it authorizes the special prosecutor to investigate any violation of any Federal criminal law other than a violation constituting a petty offense—conduct which may or may not directly relate to the official duties of the persons covered. For that reason and for the reason that the Chair does not feel that the prior ruling is directly in point or a precedent in the present situation, the Chair does sustain the point of order.

Does the gentleman have a motion?

MOTION OFFERED BY MR. WIGGINS

Mr. WIGGINS. Mr. Speaker, I now move that the House reject title VI of the conference report.

The SPEAKER pro tempore. The Clerk will report the motion.

The Clerk read as follows:

Mr. WIGGINS moves to reject title VI of the conference report on Senate 555.

The SPEAKER pro tempore. The gentleman from California (Mr. WIGGINS) is recognized for 20 minutes.

Mr. WIGGINS. Mr. Speaker, as a result of the ruling of the Chair that the motion has been made to reject the Senate amendment, 40 minutes of debate will follow, 20 minutes apparently to be controlled by me and, I presume, 20 minutes by the other gentleman from California. At the conclusion of 40 minutes of debate, or such portions thereof as we may consume, it is my intention to ask for a vote to reject title VI of the bill, the special prosecutor section.

Mr. Speaker, since the special prosecutor issue has not been before the House, I think it is important for me to take at least a part of my time to explain what the Senate has added to the bill and which our conferees have asked us to embrace. Title 28 of the United States Code is amended under this proposal by adding several new sections. The first, section 592, provides that when the Attorney General shall receive specific information charging certain designated officials with any felonious conduct, he shall thereupon conduct a preliminary investigation of the charges. The officials whose conduct may be questioned are the President, the Vice President, certain officials designated in section 5312 of title V—and I admit that I have forgotten who those individuals are at the moment—those executive level employees in the executive branch of schedule IV and above, Department of Justice Executive Level 3 and above employees, the Assistant Attorney General, the Director and the Deputy of the CIA, the Commissioner of Internal Revenue, and anyone who held any of those offices in the previous administration but who at the time of the charge is in private life. In addition, the campaign manager and the chairman of the national campaign committee—private individuals, I would presume—of the Committee to Elect or Reelect the President are also covered.

Now, if an allegation of any felonious conduct is made with respect to any of the individuals I have designated, it is incumbent upon the Attorney General to conduct a preliminary examination into those charges. The proposal gives the Attorney General 90 days within which to act. At the end of that 90-day period, or prior thereto, the Attorney General must make one of two determinations. He must determine either that the allegations are without substance, or he must make a determination that there is merit in the allegations.

I should, I suppose, to be complete, mention that he may also make no determination at all, which is tantamount to making a finding that there is substance to the charge.

If the Attorney General, after conducting an examination with respect to an allegation against his President, for example, finds it to be without substance, he must file a report containing his findings and the reasons therefor to a panel of the court, a new panel created

under this legislation, which shall sit here in Washington and be composed of three judges as a special panel of the Court of Appeals of the District of Columbia. In the case of a finding of no impropriety, the court has no power to act beyond the receipt of the finding by the Attorney General that no impropriety has been found. Indeed, it may do nothing with the report other than to release certain portions of it to the Congress or to the public if it, the court, believes that it would be proper to do so.

Alternatively, the Attorney General may find the allegations to have some substance, in which event the Attorney General shall apply to this panel of three judges for the appointment of a special prosecutor. The court is given the power to not only appoint a special prosecutor, but to define his jurisdiction.

The contents of the report by the Attorney General after a preliminary finding of some impropriety is to remain secret, available only to the court, and I presume, to the special prosecutor, but may not be released to the public or to Congress without special leave of this new court.

The Attorney General's determination not to appoint a special prosecutor or the Attorney General's determination to seek the appointment of a special prosecutor is not reviewable in any court by any third party.

When an application is received by the court, certain duties are created under this proposal which must be discharged by the court. First, the court must appoint a special prosecutor. It has no discretion to reject a special prosecutor. The court may, upon application of the Attorney General, in order to avoid several special prosecutors' offices functioning simultaneously, add to the jurisdiction of a special prosecutor which has already been appointed.

After the appointment of a special prosecutor by the court, the bill gives him certain powers. Suffice it to say that the power given to the special prosecutor is just about as broad as the power given to the present Attorney General with respect to such matters as appearances before grand juries, signing complaints, and grants of immunity, for example. In addition, the power of decision with respect to national security classifications of evidence is vested in the special prosecutor.

Mr. Speaker, I make a special point out of the national security power, because we have seen in recent years Attorneys General, in the interest of the national security, declining to prosecute suspected violators of our espionage statutes for fear that in the course of such trial the Government would be compelled to disclose matters which would be contrary to the national interest.

The Attorney General is in a unique position, I believe, to make that sensitive judgment, since he sits as a member of the President's Cabinet and has access to high-level personnel who are able to bring factual data to bear on this issue.

It is to be noted by contrast that the special prosecutor does not sit as a member of the President's Cabinet and will not be able, by reason of his limited access to information available to the President of the United States, to make the same sensitive judgments on national security issues which may now be made with confidence by the Attorney General. I emphasize this point only because I wish to let all the Members know that this bill we are asked to approve does grant that extraordinary power to the special prosecutor.

In addition, the special prosecutor has the power to appoint such employees, attorneys, and consultants as he deems appropriate to the exercise of his office. We are authorizing for appropriation such sums as may be required for the special prosecutor to discharge those responsibilities.

Finally, with respect to the authority of the special prosecutor, I want to emphasize one unique authority contained in this bill. It is the power of the three-judge panel which I have mentioned to reach down into the Department of Justice and take matters pending there away from the Department of Justice and confer jurisdiction upon the special prosecutor to proceed in those areas.

At the conclusion of whatever comes of the investigation of the special prosecutor and any criminal trails which may result, the special prosecutor is instructed to file a report with Congress concerning his activities. This is not expected to be a complete report. Indeed, the special prosecutor must only report in detail to the court which appoints him, and that court shall determine which portions of the special prosecutor's report are fit for us to read.

There is a unique provision in the bill which my friend, the gentleman from Illinois (Mr. HYDE), if he were here, would delight in, and that is the provision that grants power to the minority to trigger the appointment of a special prosecutor. On this matter I particularly invite the attention of the Members, because I am not sure they know the extent of the power given to the majority and the minority in this bill. The bill provides that a majority of the majority of the Committee on the Judiciary of either the House or Senate may request the appointment of a special prosecutor. It also provides that a majority of the nonmajority Members may request the appointment of a special prosecutor. What is not said are the circumstances which could trigger such a request by the majority or the minority.

There is no reference back to the early sections of the bill which narrow the jurisdiction of the special prosecutor and give power to trigger his appointment only upon claims of felonious misconduct with respect to several discreet classes of people.

This is an open invitation, I think, to politicize the special prosecutor process, and would not be tolerated in a bill which had been carefully considered by this House.

In the event my Republican colleagues view with some glee the prospect of appointing a special prosecutor, I want them to know that the carrot which is held out in one sentence is promptly withdrawn in another, because if the special prosecutor is not appointed pursuant to this request by the minority, then the Attorney General to whom the request is directed must state his reasons therefor to the committee. The report is to be secret unless the committee decides to release all or parts of it. The decision of the committee is, of course, the decision of the majority.

Mr. HALL. Mr. Speaker, will the gentleman yield?

Mr. WIGGINS. I yield to the gentleman from Texas.

Mr. HALL. I thank the gentleman for yielding.

I understood the gentleman to say that the three-judge panel would have the authority to proceed into the Department of Justice and remove jurisdiction of matters from the Justice Department at a time when the Justice Department had previously assumed jurisdiction.

Mr. WIGGINS. I direct the gentleman's attention to section 594, subdivision (e) of the bill, and I am sure that the gentleman will read, as I have, that the special prosecutor can ask the court—and I presume if he can ask the court, the court has power to dispose of that request—to refer matters pending in the Department of Justice to the special prosecutor for action.

Mr. HALL. But it would take the court to make that judgment?

Mr. WIGGINS. Oh, surely. And if one has no regard for the doctrine of separation of powers, that would not be troublesome. But the question of the court reaching into the Department of Justice and pulling something out to refer to a special prosecutor is very troublesome to me.

Mr. HALL. Does it state in that section what the special prosecutor would have to show to the court before that authority would be granted?

Mr. WIGGINS. My memory is that it does not. I do not have a copy of the bill before me, but I refer the gentleman to section 594, subsection of the bill.

Mr. HALL. I thank the gentleman.

Mr. WIGGINS. There are other matters in this bill, but I am afraid my time will run out, Mr. Speaker, without addressing myself to the main problem as I see it. I know I am gaining, much against my will, a reputation for challenging all matters on constitutional grounds—and I apologize to the Members for that. But I really must share with the Members what the holding of Buckley against Valeo was in respect to the ability of the Congress to take away from the President powers of appointment.

In summary, the court held that the Congress may not pass legislation conferring upon someone other than the President the power to make appointments into the executive branch.

And, in summary, I will tell the Members exactly what is done here. We are giving to judges the power to appoint a special prosecutor, a person in the executive branch but who is apparently under the control of no one. Now, I suggest that the bill certainly runs contrary to the spirit of Buckley against Valeo and runs contrary to the spirit of good government as well if we are going to have accountability.

I know that on the other side it may be pointed out that in one rare and unique circumstance the court now has the power to appoint on an interim basis

a U.S. attorney. I concede that. But that power is to be exercised only on an interim basis until the President can act. And clearly it is understood that the court is acting only until the President can assert his power under article II of the Constitution. By contrast, here the President has no power to question the decision of the court, and we simply and flatly are granting to a court the power to appoint an executive official. And that we cannot do.

Mr. LIVINGSTON. Mr. Speaker, will the gentleman yield?

Mr. WIGGINS. I yield to the gentleman from Louisiana.

Mr. LIVINGSTON. I thank the gentleman for yielding.

Mr. Speaker, I simply want to commend the gentleman on his superlative analysis of this section on what appears to be a veiled but quite ominous threat to the separation of powers, and I congratulate my colleague.

Mr. HYDE. Mr. Speaker, will the gentleman yield?

Mr. WIGGINS. I yield to the gentleman from Illinois.

Mr. HYDE. I appreciate the gentleman's yielding, and I want to say that it is very seldom, I can think of two, maybe three instances, where I disagree philosophically and legislatively with the gentleman in the well, and I have total admiration for his ability and for his grasp of legal problems, but I think this is an excellent amendment. I think that the mechanism for a special prosecutor is particularly appropriate when you have one party controlling all three branches—well, the executive, the House, and the Senate, in any event. I am not sure about the U.S. Supreme Court. I would not hazard a guess on that. But I do think that the result of the Watergate hearings produced a recommendation that this mechanism be created, and I think the fact that it is included in this ethics bill is laudatory, and I do support it. I hope the gentleman's motion is defeated.

Mr. WIGGINS. Mr. Speaker, I think my friend, the gentleman from Illinois (Mr. HYDE), is being deluded. It must be borne in mind that the decision to ask for a special prosecutor is vested in the Attorney General.

The Attorney General's preliminary determination that the issue is without merit is not reviewable. What kind of a mechanism is that for impartial review of charges against executive branch employees, even if you subscribe to the theory of this legislation?

Mr. HYDE. But this bill contains within it a provision that a majority of the minority of the House Judiciary Committee, or the other body's Judiciary Committee, may petition for the appointment of a special prosecutor. This uniquely provides the minority—and we are a minority—with an opportunity to at least dramatize for the press and for the media and for the country the need for a special prosecutor.

Mr. WIGGINS. I want the gentleman to know that this ability to dramatize is somewhat circumscribed in the bill. When the majority of the minority sends a written request down to the Attorney General asking the Attorney General to appoint a special prosecutor, and the Attorney General declines to do so, sending his reasons back to the committee, no part of that report may be made public unless the committee—that is, the majority—agrees to let it be made public.

Mr. HYDE. If the gentleman will yield further, certainly the request and the reasons for that request are public; are they not?

Mr. WIGGINS. Yes; the request is made public.

Mr. HYDE. I would suggest then, if the request is made public and the reasons for the request, and the response being in the negative is kept secret, a very useful purpose would be served.

Mr. WIGGINS. Well, I suppose it would be if we dealt with honest men, but this bill presupposes dishonest people in the executive branch who would not perhaps react to that kind of public pressure if it were contrary to their self-interest.

We are talking about an important subject here. A special prosecutor, if we are going to institutionalize the office, is a dramatic slap in the face of the Department of Justice, a Department which has shown itself able to act without fear or favor in the past. I urge an "aye" vote on my motion.

Mr. DANIELSON. Mr. Speaker, I yield 19 minutes or such portion of it as he may consume to the gentleman from South Carolina (Mr. MANN).

Mr. MANN. Mr. Speaker, each of us knows that the idea of a special prosecutor has been bouncing around with considerable force for about 5 years, and now we have an opportunity to enact a moderate piece of legislation developed by a conservative subcommittee of the House Judiciary Committee, and accepted virtually verbatim by the Senate conferees; and we, I hope, will not blow this opportunity.

We have a bill here which does not include Members of Congress; we have a bill here which does not provide for a permanent prosecutor who might be engaged in witch hunting; we have a bill here which has been accepted and declared—if they have the capacity to do that—constitutional by the Department of Justice and the American Bar Association. We have a bill here which leaves to the Attorney General the power to request the appointment of a special prosecutor. We have a bill that has the approval of the administration, the Department of Justice, the Senate, the American Bar Association, Common Cause, and we have here a printed report of the House Judiciary Committee wherein the House Judiciary Committee by a vote of 24 to 6 adopted this piece of legislation. Here is the report; it is in print; it is available.

So, I do not believe that anybody is being particularly taken by surprise. If there is any surprise, it is that we have been able to prevail on all of the moderate decisions that could have been made in the development of this legislation.

Mr. HYDE. Mr. Speaker, will the gentleman yield?

Mr. MANN. I yield to the gentleman from Illinois.

Mr. HYDE. Mr. Speaker, I want to join the gentleman in his remarks, salute them, and commend the gentleman for his leadership in getting this legislation in the posture that it is in now. I will be very candid; I did not think I would ever see the day when the majority party would bring this to the floor. I commend the gentleman.

I want to say this. I do not view this as a slap in the face at the Attorney General. I view this as a resource that the Attorney General may be very pleased to avail himself of in the unhappy circumstance of people of his own political party being involved in a possible conflict situation. I think this is an added resource for the Attorney General and I should think he would welcome it.

Again I thank the gentleman for yielding.

Mr. RODINO. Mr. Speaker, will the gentleman yield?

Mr. MANN. I yield to the gentleman from New Jersey, chairman of the Committee on the Judiciary.

Mr. RODINO. Mr. Speaker, I want to join with the gentleman from Illinois, a member of the Committee on the Judiciary, in his remarks.

As chairman of the Committee on the Juidiciary, I know that this legislation has been before the House for a long period of time, and it has been studied and studied seriously, and considered as a necessary piece of legislation by the subcommittee which is chaired by the gentleman from South Carolina. I commend him for the work that produced what I consider to be a very effective provision in this ethics bill which will deal with a situation which has been crying out for a solution for a long period of time.

The gentleman from South Carolina, along with the members of the subcommittee, had diligently and very loyally devoted themselves to this problem. I think it is timely that we adopt this provision, one which has been agreed to by the conferees. It is to the credit of the gentleman from South Carolina that this effort comes to this final result today.

Mr. MANN. I thank the chairman.

Ms. HOLTZMAN. Mr. Speaker, will the gentleman yield?

Mr. MANN. I yield to the gentlewoman from New York.

Ms. HOLTZMAN. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I want to compliment the gentleman from South Carolina for his efforts in respect of the special prosecutor legislation. I also want to commend the members of the subcommittee, including the gentleman from Illinois (Mr. HYDE), for the work they have done.

This has been a matter that has consumed the attention of the Subcommittee on Criminal Justice not only in this Congress but also in the prior Congress. It is an important piece of legislation. It may not be perfect but I think it is workable. I commend the subcommittee for adopting it and I hope it is adopted by the House.

Mr. MANN. I thank the gentlewoman.

I think the gentleman from Illinois said it very well when he said that this gives the Attorney General an additional resource. I think most people and the Attorney General would agree that there

are occasions when it would be better to have a special prosecutor other than the Attorney General. The Attorney General is a close associate of the President and I can quote all kinds of people about the appearance of justice and such things, but the Attorney General is a close associate of the President and it is suspect in this day and time when a high official is charged with an offense and the Attorney General is a close associate of the President. It is better for the President and Attorney General to be able to call in a special prosecutor in special cases and to remove the Attorney General from any stigma of partiality or partisanship.

As indicated earlier, this bill is important for what it does not do. It does not impede or impair or affect the action of the Congress in any way. With respect to impeachment, this bill requires that the special prosecutor turn over to the Congress any evidence that would indicate an impeachment situation.

The bill is designed to work in harmony with the Congress and certainly the Attorney General.

I think the gentleman from California (Mr. WIGGINS) made an excellent exposition of the mechanics of the bill.

I might indicate to the Members who the officials are that could trigger it, by being charged or accused of a crime, who could trigger the mechanism to appoint a temporary special prosecutor:

The President, the Vice President, individuals serving at the Cabinet level, senior staff in the White House earning more than $50,000 per year. Any individual in the Department of Justice compensated at level 3 of the Executive Schedule or above. Any Assistant Attorney General, director or deputy. The Director of the Central Intelligence or the Commissioner of Internal Revenue. And, incidentally, level 3 in the Attorney General's office would only cover the Attorney General, the Deputy Attorney General, the Associate Attorney General, the Solicitor General, the FBI Director, the LEAA Administrator; someone who held any of those positions or offices, which I have just indicated, during the incumbency of the President or the last preceding President if that President were of the same political party, and lastly, the national campaign manager or chairman of the national committee to elect or re-elect the President.

To indicate to you the type of momentum that this idea has had, the Senate during the last Congress passed a bill to provide for a permanent special prosecutor. Frankly, that idea is anathema to me. I referred to it earlier as affording the possibility of a witch hunt, to have somebody down there, who has a job, a function to perform, and then the bureaucratic impulse is going to strike him and he is liable to strike out at anyone.

In this case we have the Attorney General requesting the appointment of a special prosecutor. Only the Attorney General can request the special prosecutor, and, as the gentleman from Illinois (Mr. HYDE) indicated, if he does not respond to a situation that appears to be appropriate then a majority of the House Committee on the Judiciary, or the Senate Committee on the Judiciary, or a majority of the majority party Members, or majority of minority party Members, can make that request, and the political process will take place, and the special prosecutor will be appointed and, where appropriate, and where the Attorney General wants to bite the bullet and handle the matter himself, he still has that power.

So I respectfully submit that this is a bill which fills a necessary function in this 1978 atmosphere that prevails, not just because it is 1978, but for the future for the public expectations about integrity in Government.

There is one other point, to indicate how moderate and modest our end result is, the Senate bill contained the establishment, or the requirement for the establishment of an Office of Government Crimes, which they changed to read Office of Public Integrity. I guarantee you that in the conference it was tough going to get the Senate to back off from the requirement that the Department of Justice establish such an office. Their first version was with a Director appointed by the President in the Department of Justice Office of Public Integrity, or Office of Government Crimes.

We were able to strike that out and to provide merely that the Attorney General would report, on an annual basis, to the Congress on the activities of his department with reference to those public crimes by public officials.

And so I cannot emphasize enough, and I, of course, will be pleased to respond to any particulars about the legislation, but I cannot emphasize enough the fact that we think we have developed a modest bill, one that fits into our framework and the action that we are taking with reference to Members of the Congress. One that deals, nevertheless, gently with the separation of powers, and does not erode in any way, nor subject in any way, the Members of Congress or the Congress of the United States to any fallout.

Mr. WIGGINS. Mr. Speaker, will the gentleman yield?

Mr. MANN. I yield to the gentleman from California.

Mr. WIGGINS. Mr. Speaker, will the gentleman tell the House whether or not the Attorney General now has the power to appoint a special prosecutor in any case in which he deems it appropriate to do so?

Mr. MANN. In my judgment, he does have that power.

Mr. Speaker, if there are no further questions, I yield back the balance of my time.

Mr. DANIELSON. Mr. Speaker, I yield 2 minutes to the gentleman from North Carolina (Mr. PREYER).

Mr. PREYER. Mr. Speaker, I only want to note that the two leaders in this debate, the gentleman from California (Mr. WIGGINS) and the gentleman from South Carolina (Mr. MANN), are leaving this body at the end of this session. I wish to say that the quality of the debate which we have just heard is a measure of the loss which this body is going to suffer when they leave us. The private sector is going to gain some very valuable legal talent, and we are certainly going to lose it here in the Congress. We will miss them.

Mr. Speaker, in this particular debate I come down on the side of the gentleman from South Carolina (Mr. MANN), and I hope that the motion will be defeated.

Mr. DANIELSON. Mr. Speaker, I yield myself such time as I may consume.

I rise in opposition to the motion and in full support of the position and the arguments advanced by the gentleman from South Carolina (Mr. MANN).

I would like to point out some things for the information of my colleagues here in the Congress. This special prosecutor provision applies only to executive department personnel. Who are they? They are set forth in the bill. They are the President and the Vice President, and then there is a reference made to section 5312 of title 5, United States Code.

Mr. Speaker, I have that title before me, and they are indeed the uppercrust of the executive department. The list consists of Cabinet members; the Secretaries of State, Treasury, and Defense; the Attorney General; the Postmaster General; and the Secretaries of the Interior, of Agriculture, of Commerce, of Labor, of Health, Education, and Welfare, of Housing and Urban Development, and of Transportation.

The provision of the bill spells out that in addition to those whom I have mentioned, included are the people within the Executive Office of the President who are compensated at a rate not less than that of level 4 of the Executive Schedule. These people are people working in the President's own office.

Mr. Speaker, the President wants this bill. He is talking about a special prosecutor to examine the activities of himself and his Vice President, his Cabinet, the people working in the White House, and within the Department of Justice, in which, I submit, a special prosecutor is uniquely appropriate inasmuch as one cannot conceive of an Attorney General investigating and prosecuting himself or some immediate member of his staff.

That is all we reach here. I want my colleagues in the legislative branch, my colleagues here in the House, to recognize that this portion of the bill applies only to that executive upper level which I have named, plus the National Committee Officers. No one else.

The President, who should be the most concerned here, has himself stated that he eagerly supports this bill and hopes that it will be passed.

The President has sent letters to the Committee on Criminal Justice urging the passage of this legislation since it applies only to his inner circle. I urge strongly that the motion be defeated.

I might add in closing that it warms my heart very much to again be on the same side with the distinguished gentleman from Illinois (Mr. HYDE). I think everyone should follow the advice of the gentleman from Illinois (Mr. HYDE) on this point and vote the motion down.

Mr. WIGGINS. Mr. Speaker, will the gentleman yield?

Mr. DANIELSON. I yield to the gentleman from California.

Mr. WIGGINS. I thank the gentleman for yielding.

The gentleman from California, I am sure, did not intend to exclude from the coverage of the bill all of the officials in

private life who formerly occupied positions in the prior administration.

Mr. DANIELSON. No. I thank the gentleman. Those who formerly occupied exactly the same positions, however.

Mr. WIGGINS. Yes.

Mr. DANIELSON. The Secretary of Defense in one administration is fungible with the Secretary of Defense in another administration. I thank the gentleman for reminding me.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. WIGGINS).

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. WIGGINS. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 49, nays 344, not voting 37, as follows:

The Clerk announced the following pairs:

Mr. Alexander with Mr. Quie.
Mr. Teague with Mr. Sarasin.
Mr. Shipley with Mr. Badham.
Mr Krueger with Mr. Rudd.
Mr. Meeds with Mr. Cochran of Mississippi.
Mr. Flynt with Mr. Crane.
Mr. Chappell with Mr. Lott.
Mr. Phillip Burton with Mr. Frey.
Mr. Sikes with Mr. Hillis.
Mr. White with Mr. Hollenbeck.
Mr. Charles H. Wilson of California with Mr. Madigan.
Mr. Ammerman with Mr. Bingham.
Mrs. Boggs with Mr. Ireland.
Mrs. Burke of California with Mr. Conyers.
Mr. Harrington with Mr. Leggett.
Mr. Milford with Mr. Moss.
Mr. Tsongas with Mrs. Smith of Nebraska.
Mr. Diggs with Mrs. Pettis.

Mr. CONABLE and Mr. McDONALD changed their vote from "nay" to "yea."

Messrs. BURKE of Florida, ADDABBO, and PANETTA changed their vote from "yea" to "nay."

So the motion was rejected.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. EVANS of Colorado). The gentleman from California (Mr. DANIELSON) will be recognized for 30 minutes, and the gentleman from California (Mr. MOORHEAD) will be recognized for 30 minutes.

The Chair recognizes the gentleman from California (Mr. DANIELSON).

Mr. DANIELSON. Mr. Speaker, this is the conference report on the so-called ethics bill. I yield myself such time as I may consume, but I hope not to consume too much time. Only 2 weeks have gone by since this bill was debated at length and in depth by the House. I am certain that no one has forgotten the provisions, or at least the important provisions, of the bill since then.

I would like to point out that since that time in our conference, we have been successful in having the Senate recede to a very, very substantial part of the differences between the bills that the two Houses passed. Time after time in the conference, the Senate did recede to the House, and it would be my purpose here to point out those few instances in which the House felt compelled to recede to the Senate. In all instances, so far as I know, they were beneficial to our general purposes.

In one instance, in referring to the disclosure of value of income of over $100, in defining what unearned income is, the subject matter of rents was included. I would like to point out that the sense of the action on rent is that we mean net rent, so if someone had, for example, an apartment house with a huge gross but a good deal of expense to be subtracted from the gross, we are talking about the net when we are talking about that income.

The House receded to the Senate in another respect, as to the reporting of gifts. The Senate had a provision in their bill which permitted the appropriate committee of the Senate to grant a waiver of the need to report certain gifts. The House receded to the Senate in that respect, so that it will be possible for the appropriate House committee or appropriate committee of the other body administering financial disclosure to waive the need for reporting gifts in certain circumstances. It was brought to our attention that there might be wedding presents and the like in which it would not only be onerous, but even conceivably cause social problems, to disclose how much the gift cost, and so forth. So, the House receded; waivers can be granted under those circumstances.

I would like to point out that the Senate receded to us on the limit to which real property has to be reported. The House had a very wholesome provision that we need only to report real property if it is used for the purpose of producing

income. We do not have to report real property which is a personal residence. The Senate saw the wisdom of that point and receded to our position.

In another item on the reporting of liabilities, the Senate receded to us. The Senate had a provision that they had to report all liabilities exceeding $2,500. The House had a more appropriate limit of not reporting liabilities of less than $5,000. The conference committee in its wisdom thought it better to raise that to $10,000, and that is now in the provision in the conference report.

There is another proviso on estimating values. Some of the Members have been concerned that it would be difficult to place a precise value on various properties, so we settled that by providing that the fair market value is a sufficient value and a good faith estimate is enough to establish the fair market value.

The House did recede to the Senate on a provision which required persons to divulge the identity of certain positions which they may have held in the 1 year preceding entering into office.

On categories of value the other body had amounts up to $5 million. The House had a $100,000 maximum for categories of value. The Senate met us nine-tenths of the way and the $5 million was reduced down to $250,000, at which point we came to agreement. We did go part way to the Senate but they went from $5 million to $250,000 and we only went from $100,000 up to $250,000.

Again the House receded to the Senate provision permitting an individual to use good faith in estimating the value of an item if the exact value was not known.

A more substantial amendment in which the House receded had to do with the blind trust. We had a blind trust in our bill and they had a blind trust provision in their bill. However in the Senate they had a more detailed provision for blind trust which actually facilitates working out the blind trust, because one knows precisely what he has to do rather than in the general terms of the House bill, so we did recede to their language in that.

The Senate receded to the wholesome provision in our bill which did not require random audits. The Senate had required random audits, but they recognized the wisdom of our provision doing away with requirements of random audits.

Also we have a problem inasmuch as we are almost at election time. it is 3 weeks and 5 days off, and recognizing the fact that it might be difficult to have this bill passed and signed by the President and the information transmitted to all candidates, we did strike from the bill, for this year only, the provision which would impose sanctions on the failure of a candidate to get his report in. The candidates must report their financial statements but because of the shortness of time and the inequities that might result we relieve them of sanctions this year, 1978.

That has to do with the legislative branch.

In the executive branch the main thing that took place is the item which we have heretofore discussed this evening, the provision is actually in a separate title, but the provision for a special prosecutor to have jurisdiction in cases in which allegedly there is wrongdoing by the top level of the executive branch.

In the judicial department we stuck very closely to the language that we already had in the bill. As the Members well know, Mr. Speaker, we tried to tailor this bill in such a manner that the requirements for disclosure and reporting would be applied evenhandedly to the Members of the legislative branch, the executive branch, and the judicial branch, save only for a few little exceptions which are necessary to accomodate the inherent differences in the nature of the work performed by the members of the three branches.

We also made a change in the format of the bill.

When the bill left the House we had three titles, legislative, executive branch and judicial. The Senate had the disclosure provisions in one large massive mixed up version, that is the reporting requirements, so we broke it up, still having titles I, II and III for legislative, executive, and judicial, but a new title IV is the Office of Government Ethics, which was part B of title II in the House bill. This is not a substantial change, merely a change in the format.

The postemployment conflict of interest provisions which were part of title II in the House bill are now a separate title, title V.

We have just discussed title VI, the special prosecutor.

Title VII applies only to the other body. The other body wished to have the right to set up a Senate counsel and we felt that they were entitled to a Senate counsel if they wanted it, but the provision has no impact on this House. So we receded to their position on that.

Mr. Speaker and Members, that is substantially all that I have in my report and I urge the adoption of the conference report.

Mr. KAZEN. Mr. Speaker, will the gentleman yield?

Mr. DANIELSON. I yield to the gentleman from Texas.

Mr. KAZEN. Is the report that the gentleman was referring to that carries no sanctions this year, to be filed by every candidate including the incumbents?

Mr. DANIELSON. No, it does not. The reason is this, let me explain, the incumbents filed their report last April. There is currently no requirement that a nonincumbent candidate file a report and there will not be until and unless this bill is passed. Inasmuch as that may be just a week or two before the election, we felt that it would be inequitable to impose sanctions on a candidate for failing to get his report in. He must get it in but he will not have sanctions.

The conferees recognized the fact that in the stress of politics it may be that a candidate will point out that his opponent has not yet filed his report. That would have the effect of compelling compliance.

Mr. KAZEN. Mr. Speaker, if the gentleman will yield further, my point is that since we have already filed one this does not apply to us this year.

Mr. DANIELSON. No. We have already complied.

Mrs. SCHROEDER. Mr. Speaker, will the gentleman yield?

Mr. DANIELSON. I am happy to yield to the gentlewoman from Colorado (Mrs. SCHROEDER).

Mrs. SCHROEDER. Mr. Speaker, I just wanted to compliment the gentleman from California (Mr. DANIELSON) on his excellent statement and for his long and untiring work and for the hours that he has spent on this bill. I think he has done a magnificent job.

Mr. Speaker, I rise in support of the conference report on S. 555, the Ethics in Government Act of 1978.

In adopting this conference report, the House will be reaffirming a very simple fact that the Government of the United States was not created so that those working for it may make financial gain from the powers given the Government by the people.

The Ethics in Government Act, for sure, will not touch directly upon every employee of the Government. However, its underlying intention should. As the Congress stated 20 years ago in passing a code of ethics for Government service (H. Con. Res. 975, July 11, 1958):

CODE OF ETHICS FOR GOVERNMENT SERVICE

Any person in Government service should:

1. Put loyalty to the highest moral principles and to country above loyalty to persons, party, or Government department.

2. Uphold the Constitution, laws, and legal regulations of the United States and of all governments therein and never be a party to their evasion.

3. Give a full day's labor for a full day's pay; giving to the performance of his duties his earnest effort and best thought.

4. Seek to find and employ more efficient and economical ways of getting tasks accomplished.

5. Never discriminate unfairly by the dispensing of special favors or privileges to anyone, whether for remuneration or not: and never accept, for himself or his family, favors or benefits under circumstances which might be construed by reasonable persons as influencing the performance of his governmental duties.

6. Make no private promises of any kind binding upon the duties of office, since a Government employee has no private word which can be binding on public duty.

7. Engage in no business with the Government, either directly or indirectly, which is inconsistent with the conscientious performance of his governmental duties.

8. Never use any information coming to him confidentially in the performance of governmental duties as a means for making private profit.

9. Expose corruption wherever discovered.

10. Uphold these principles, ever conscious that public office is a public trust.

Mr. Speaker, I have one clarifying comment to make regarding part of the conference agreement. This part concerns the Ashbrook-Frenzel amendment adopted on the House floor to limit the outside earned income of high-level executive branch personnel. As the conference report managers' statement notes, present laws and regulations severely restrict outside earnings and jobs for any executive branch employee. Part II of Executive Order 11222, relating to standards of conduct, completely prohibits employment which conflicts with agency

regulatory interests. Section 202 of that Executive order (and agency regulations promulgated under it) are quite strict, as follows:

SEC. 202. An employee shall not engage in any outside employment, including teaching, lecturing, or writing, which might result in a conflict, or an apparent conflict, between the private interests of the employee and his official government duties and responsibilities, although such teaching, lecturing, and writing by employees are generally to be encouraged so long as the laws, the provisions of this order, and Civil Service Commission and agency regulations covering conflict of interest and outside employment are observed.

Consequently, the Ashbrook-Frenzel provision in essence restates and reaffirms intentions already on the books. It is not intended that this provision modify the stricter regulation now in effect. This provision simply sets parameters which the Director of the Office of Government Ethics, in promulgating future executive branch conduct regulations, must consider.

Mr. DANIELSON. Mr. Speaker, may I inquire how much time I have remaining?

The SPEAKER pro tempore. The Chair will state that the gentleman from California has 19 minutes remaining.

Mr. MARKS. Mr. Speaker, will the gentleman yield?

Mr. DANIELSON. I yield to the gentleman from Pennsylvania (Mr. MARKS).

Mr. MARKS. Mr. Speaker, I thank the gentleman for yielding and I am just curious. You are suggesting that candidates for office at this time must file?

Mr. DANIELSON. They must file.

Mr. MARKS. A financial report?

Mr. DANIELSON. That is correct.

Mr. MARKS. But if they do not file there are no sanctions against their not filing?

Mr. DANIELSON. That is correct.

I would like to repeat the reasoning. It is simply this that we already are at Lief Ericson's day—I mean Columbus Day, October 12—and before this bill becomes law, if it does become law, several more days may have gone by and we felt it would be unfair to impose sanctions on candidates who might not even get the word by November 1.

Mr. MARKS. Does the gentleman expect then that they will be filed, that these reports will be filed by the candidates?

Mr. DANIELSON. I would think that they will. If I were a candidate under such circumstances, an incumbent candidate, I would certainly point out to my constituents if my opponent had not filed his report.

Mr. PREYER. Mr. Speaker, will the gentleman yield?

Mr. DANIELSON. I yield to the gentleman from North Carolina.

Mr. PREYER. Mr. Speaker, on the point that was just raised, I think it should be mentioned that the congressional committees have been informed that they should notify each candidate that he must file. There will be no sanctions if he does not file, that is, we will not fine him $5,000, but the discipline of the election process will very much apply. If your opponent, or a candidate does not file, you are certainly free to argue the case that he, as a matter of law, should file, and has not filed.

Mr. KAZEN. Mr. Speaker, will the genteman yield further?

Mr. DANIELSON. I yield to the gentleman from Texas.

Mr. KAZEN. Mr. Speaker, one more question to clarify that point. What is the date in the bill by which these people have to file?

Mr. DANIELSON. November 1, 1978.

Mr. KAZEN. I thank the gentleman.

Mr. DANIELSON. Mr. Speaker, I reserve the balance of my time.

Mr. MOORHEAD of California. Mr. Speaker, I yield myself 4 minutes.

Mr. Speaker, if anyone voted for this legislation as it passed through the House a couple of weeks ago, there is no really good reason to vote against it at this time. If anyone voted against it when it passed through the House, I think there have been no changes made in the conference committee which would improve the bill to the extent that he or she would want to vote for it at this time.

It is unfortunate that we have come to the position in our Government where this kind of legislation is necessary, where the personal financial affairs of individuals at the upper level, who work for the executive branch of Government, for the judicial system, and for Members of Congress must be exposed. It is very unfortunate, but that time has obviously come since there are so many people in the governmental establishment who are in trouble. One seldom reads a newspaper without reading about some corruption somewhere in Government.

In the conference report the financial provisions are not radically different from those which this House passed a few days ago. The House conferees were successful in keeping the other body's enthusiasm for disclosure under reasonable constraint.

One of the sections in which I was most interested, the 1-year, no-contract provision, is not as good as it was when it passed out of the House. The Eckhardt amendment was modified substantially, but the bill is better than it was as it was originally introduced.

We made changes which make only those people paid at the level of GS–17's and above and who have significant decisionmaking or supervisory responsibility subject to this 1-year, no-contract provision.

It gave authority for the department heads and the Commissioner of Ethics to bring other people the 1-year no contract which they felt were necessary, but I think that it is a considerably improved piece of legislation over that which was originally introduced in this area.

Certain items of property which were seen as not presenting a conflict of interest have been so recognized in S. 555, such as personal savings accounts of $5,000 or less and mortgages on personal residences. All are excluded from reporting.

As in the House version, specific reference to criminal penalties was removed from this legislation.

The Senate bill had a provision requiring random audits of all the disclosure statements filed under this bill. This audit provision was taken out in the conference version.

Mr. Speaker, the gentleman from California (Mr. DANIELSON) has referred to the blind trust provision, which is a very complicated provision in the Senate version. Most of it was put into the conference report. I frankly would have preferred that this provision had been left out. I cannot see that it adds any real benefit to the bill, but the Senate wanted it. They insisted upon it, so we backed down on that point.

Mr. Speaker, I ask for the adoption of the conference report.

Mr. DANIELSON. Mr. Speaker, I yield such time as he may consume to the gentleman from North Carolina (Mr. PREYER).

Mr. PREYER. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, the disclosure requirements in the conference agreement are substantially the same as in the House bill, with separate titles for each of the three branches of Government. The Senate receded to the House version in nearly all respects, and the House managers agreed to the Senate provision containing detailed requirements for the establishment of blind trusts. This blind trust provision will insure that such financial arrangements are truly blind by requiring that the trustee be independent of the Government official and that the portfolio is adequately diversified. The trust document and the assets initially placed in the trust would be publicly available.

With respect to the reporting requirements in S. 555, the only major differences are as follows: First, the disclosure threshold for reporting liabilities is raised to $10,000, and it covers loans at any time during the calendar year; second, categories of value are raised one additional level so that the maximum is $250,000 or above; and third, Members must report positions held in any corporation, nonprofit organization, or other institution, except for positions in any religious, social, fraternal, or political entity, and positions solely of an honorary nature. The exemptions for honorary positions applies to the situation, for example, where a Member is the honorary chairman of some organization or is listed on the group's letterhead, but does not actively participate in the organization's operations.

There is also a change in the reporting of income. Any income from interest, dividends, rents, or capital gains will be reported by category of value, rather than exact dollar amount, since the property from which that income is derived is disclosed by category of value. All other income will be reported by dollar amount. In reporting income from any business entity, the gross amount should be listed. However, in recognition that gross income from a business may be misleading since it would not accurately reflect the Member's earnings from that business, the income definition in the conference report provides that net income from a business may also be listed. Gross income from a busi-

ness does not mean the gross sales of the business, but rather the gross income received by the Member.

The conference agreement directs the Clerk of the House to develop financial disclosure forms, and the Committee on Standards of Official Conduct is required to review the disclosure statements. It is the intention of the House managers that the Standards Committee will determine the policy on development of the disclosure forms and will be responsible for interpreting the disclosure requirements under the act. The Clerk of the House will be basically acting in a ministerial function to implement the disclosure law by preparing the forms and distributing them to those individuals required to file. The conference agreement also specifically authorizes the Clerk to promulgate rules and regulations in carrying out his responsibilities under the act. However, the Clerk is required to consult with the Standards Committee for its advice and guidance before issuing such regulations, and those regulations should reflect the policy considerations approved by the Standards Committee.

Finally, Mr. Speaker, candidates in the 1978 general election are required to file an abbreviated disclosure statement prior to the election. Candidates who lost a primary election this year obviously would not be required to file under the act. Because of the short period of time in which to comply with the disclosure law, the conference agreement provides that candidates will not be subject to any sanction under the act for failure to file this year. The Democratic and Republican Campaign Committees are notifying candidates this week of the information they are required to file.

Mr. Speaker, the Ethics in Government Act is landmark legislation. I am confident that enactment of this bill will go a long way towards restoring public confidence in Government. The importance of this legislation cannot be overstated. I urge adoption of the conference report.

Mr. FRENZEL. Mr. Speaker, will the gentleman yield?

Mr. PREYER. I yield to the gentleman from Minnesota.

Mr. FRENZEL. I thank the gentleman for yielding. I want to congratulate him for his long and patient struggle for title I, and for what I think is a pretty successful conclusion of that title.

However, earlier in this evening's discussion we were talking about the requirement that candidates file disclosure statements on November 1. The bill is not specific as to whether that means the date on which they drop the envelope in the post office box, or the date of receipt.

It seems to me that our precedent with the Federal election law is that the postmark date should be the one that prevails. Will the chairman of the select committee tell me if that is what he believes the committee intended in this case?

Mr. PREYER. My understanding of what we intended on the committee was that the postmark date is the controlling date, that is, the date the letter or report is postmarked.

Mr. FRENZEL. I thank the gentleman for his response and for his fine work on this bill.

Mr. PREYER. I thank the gentleman from Minnesota.

TUITION TAX CREDIT

Mr. DANIELSON. I yield 2 minutes to the gentleman from Texas (Mr. PICKLE).

(By unanimous consent, Mr. PICKLE was allowed to speak out of order.)

Mr. PICKLE. Mr. Speaker, soon we are going to have four votes on suspension matters. One will be a motion to recommit with instructions, the so-called Gradison amendment pertaining to the tuition tax credit measure. The instruction would provide that the House manager insist that a tax credit be provided for tuition paid for elementary and secondary education. All Members know that this is a very controversial matter. The Tax Committee is considering this proposition at this time.

The point I want to make to the Members is simply this with respect to tuition tax credit. As conferees, we found out that the Senate agreed there was no way that they could pass a bill on tuition tax credit for elementary and secondary education. They admitted that could not be done. Therefore, the conferees limited tuition tax credit to higher education. I know there may be some feeling in this body that we ought to have aid to elementary and secondary education. I simply say to the Members that there is no way in the world that the Senate would pass it, so I would hope that the conferees would not be instructed as provided for under the Gradison amendment. The other matter I would hope the Members would keep in mind is the matter I mentioned this morning. That is the bill H.R. 9893, the credits for elderly retirement personnel. That bill simply would mean that those persons under 65 pay a less tax than those persons over 65. That was not intended, but that is the cold fact of the matter. We do raise the base so everybody gets a little more money, but the fact of the matter is that the discrimination is still there, and I would hope that Members could vote against that bill.

Mr. DANIELSON. Mr. Speaker, I reserve the remainder of my time.

Mr. MOORHEAD of California. Mr. Speaker, I yield 3 minutes to the gentleman from Minnesota (Mr. FRENZEL).

Mr. FRENZEL. Mr. Speaker, this conference report is worthy of House support. It is very similar to the House version which was passed by a large majority.

It does contain an extra title on a special prosecutor which has not been considered by the House and is not a good provision. And also it contains some other Senate material which would probably best be eliminated.

But, for the legislative branch, we have been pretty faithful to the House version. We retained the House disclosure provisions almost intact which reinforced our previous decision that we would not use a net worth or tax statement for the basis of disclosure. We are only asking for disclosure of specified information which we believe will reveal potential conflicts of interest.

In all the disclosure discussions, both on the House rules and on this bill, my only serious regret has been the adament insistence of the House to require spouse disclosures. In my judgment, the earnings and the assets of a spouse are not in the public domain, but should instead remain a matter of personal privacy.

It is becoming increasingly difficult to approve women on boards and commissions because their husbands represent clients of all kinds. As women move more into the mainstream, men will have the same trouble with alleged conflicts of interests. Acceptance of a Federal job will soon require that both spouses quit their jobs, an unreasonable sacrifice by any person's standard.

I have one other great fear about this bill. I am afraid we are making it more difficult for Government to hire quality people in our executive departments. It is difficult enough now to lure qualified people out of other vocations. With the disclosure, revolving door, and other provisions in this bill I believe it will be even more difficult.

I believe that this Congress will want to review these two matters more closely in the future. But, for now, the conference committee did a good job with a difficult problem, and the conference report should be adopted.

Mr. MOORHEAD of California. Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. GILMAN).

Mr. GILMAN. Mr. Speaker, I rise in support of the conference report to accompany S. 555, the Ethics in Government Act, which establishes stringent new financial disclosure systems and conflict of interest requirements for the three branches of the Federal Government. This measure will help preserve and promote the integrity of public officials.

Mr. Speaker, House conferees initially were faced with a number of potentially troublesome areas of disagreement with the Senate. However, a spirit of fairness and a willingness to compromise so permeated the discussions that the conference committee proceeded smoothly and was, in fact, able to conclude its business in only a day and a half of deliberations.

In this regard, I wish to commend the gentleman from California, a senior member of the Committee on the Judiciary (Mr. DANIELSON), who acted as vice chairman of the conference, for both the evenhandedness that he demonstrated with all House conferees and the eloquent delineation of the House position on all issues for resolution with the Senate. I also commend the sense of responsibility reflected by my colleagues from the Committee on Post Office and Civil Service, on which I serve, the gentlelady from Colorado (Mrs. SCHROEDER), and the gentleman from Virginia (Mr. HARRIS), as well as all my fellow conferees representing the Committee on the Judiciary, the Committee on Armed Services, and the Committee on Ethics.

I believe that the conferees reached sound solutions to questions involving the stringency of legislative, executive, and judicial financial disclosure requirements; the scope of the content of reports; representation by congressional

legal counsel; and postemployment conflicts of interest. In each instance where the House receded to the Senate language, the House conferees actually accepted the stronger language of the Senate which had the effect of improving the merits of this legislation.

Accordingly, I urge the adoption of the conference report.

Mr. MOORHEAD of California. Mr. Speaker, I yield back the balance of my time.

Mr. DANIELSON. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the conference report.

The previous question was ordered.

The SPEAKER pro tempore. The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. VOLKMER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 370, nays 23, not voting 37, as follows:

[Rollcall No. 899]

The Clerk announced the following pairs:

Mr. Rosenthal with Mr. Lott.

Mr. Ammerman with Mr. Hollenbeck.

Mrs. Burke of California with Mr. Hillis.

Mr. Chappell with Mr. Cochran of Mississippi.

Mr. Krueger with Mr. Frey.

Mr. Long of Louisiana with Mr. Quie.

Mr. McKay with Mr. Sarasin.

Mr. Shipley with Mr. Rudd.

Mr. Teague with Mr. Crane.

Mr. Charles H. Wilson of California with Mrs. Pettis.

Mr. Montgomery with Mr. Badham.

Mr. Derrick with Mr. Ireland.

Mr. Lehman with Mr. Leggett.

Mr. Sisk with Mr. White.

Mr. Tsongas with Mrs. Smith of Nebraska.

Mr. Meeds with Mr. Milford.

Mr. Pike with Mr. Moss.

Mr. Harrington with Mr. Diggs.

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. DANIELSON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the conference report on the Senate bill S. 555, just passed.

The SPEAKER pro tempore (Mr. RONCALIO). Is there objection to the request of the gentleman from California?

There was no objection.

DIRECTING SECRETARY OF SENATE TO MAKE CORRECTIONS IN ENROLLMENT OF S. 555

Mr. DANIELSON. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate concurrent resolution (S. Con. Res. 112), directing the Secretary of the Senate to make corrections in the enrollment of the Senate bill S. 555, and ask for its immediate consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the Senate concurrent resolution (S. 112), as follows:

S. CON. RES. 112

Resolved by the House of Representatives (the Senate concurring), That in the enrollment of the bill (S. 555) to establish certain Federal agencies, effect certain reorganizations of the Federal Government, to implement certain reforms in the operation of the Federal Government and to preserve and promote the integrity of public officials and institutions, and for other purposes, the Secretary of the Senate shall make the following corrections:

(1) In section 101(c)—

(A) strike out "presently" and insert after "legislative branch" the following: "upon assuming such position"; and

(B) strike out "102(a)" and insert in lieu thereof "102(b)".

(2) In section 101(e) insert a comma after "Office of the Attending Physician".

(3) In section 101(f)—

(A) strike out "Senate Committee" and insert in lieu thereof "committee of the Senate", and

(B) strike out "House Committee" and insert in lieu thereof "committee of the House of Representatives".

(4) In section 102(a)(1)(B)—

(A) insert a comma after "capital gains"; and

(B) strike out the dash and insert in lieu thereof a colon.

(5) In section 102(a)(2)(B) strike out "and unless" and insert in lieu thereof a period and the following: "A gift need not be so aggregated if".

(6) In section 102(a)(4), in the first sentence strike out "exceeds" before "$10,000 at any time" and insert in lieu thereof "exceed".

(7) In section 102(a)(4)(B) insert a comma after "furniture".

(8) In section 102(a)(5) insert a comma after "purchase, sale".

(9) In section 102(a)(6) strike out "and" before "any educational" and insert in lieu thereof "or".

(10) In section 102(b), insert "of subsection (a)" after "paragraph (1)".

(11) In section 102(e)(1), strike out "of his dependent children" and insert in lieu thereof "dependent child".

(12) In section 102(e)(2)—

(A) in subparagraph (B)(i), strike out "of his dependents," and insert in lieu thereof "dependent child, and";

(B) strike out clause (ii) of subparagraph (B) and insert in lieu thereof the following:

(ii) the holdings or sources of income of which such individual, his spouse, and any dependent child have no knowledge of,

(C) strike out "or his dependents" and insert in lieu thereof "or any dependent child"; and

(D) strike out "section 102(a)(1)(B)" and insert in lieu thereof "subsection (a)(1)(B) of this section".

(13) in section 102(e)(3), strike out "of his dependents" and insert in lieu thereof "dependent child".

(14) In section 102(e)(3)(A)(iii) strike out "(as defined in section 107(2))".

(15) In section 102(e)(3)(C)—

(A) in clause (v) strike out "section 102(a)(1)(8) of this title" and insert in lieu thereof "subsection (a)(1)(B) of this section"; and

(B) in clause (vii)(II) strike out "and" after "holding an asset" and insert in lieu thereof a comma.

(16) In section 102(e)(3) strike out subparagraph (D) and insert in lieu thereof the following:

(D) The proposed trust instrument and the proposed trustee is approved by the reporting individual's supervising ethics office.

For the purposes of this subsection "interested party" means a reporting individual, his spouse, and any dependent child if the reporting individual, his spouse, or dependent child has a beneficial interest in the principal or income of a qualified blind trust; "broker" has the meaning set forth in section 78 of title 15, United States Code; and "supervising ethics office" means the designated committee of the House of Representatives for those who file their reports required by this title with the Clerk and the designated committee of the Senate for those who file the reports required by this title with the Secretary.

(17) In section 102(e)(4), strike out "28" and insert in lieu thereof "18".

(18) In section 102(e)(5)(A)(ii) and (B) strike out "section 102(c)(1)" each place it appears and insert in lieu thereof "subsection (c)(1) of this section".

(19) In section 102(e)(5)(C)(ii)—

(A) insert "with such office" after "file";

(B) strike out "with his supervising ethics office"; and

(C) insert "of this section" after "subsection (c)".

(20) In section 102(e)(6)(A), in clauses (i) and (ii) insert "paragraph (3) of" before "this subsection".

(21) in section 102(e)(6)(B), insert "of this subsection" after "paragraph (3)(C)".

(22) In section 102(e)(7)(C), strike out the comma after "interested party" and insert "of this subsection" after "paragraph (5)".

(23) In section 103(a) strike out "of" after "Resident Commissioner" and insert in lieu thereof "from".

"(24) In section 103(c) strike out ", as amended".

(25) Strike out subsection (f) of section 103 and insert in lieu thereof the following:

(f) In order to carry out responsibilities under this title—

(1) the Clerk shall, after consultation with the designated committee of the House of Representatives, and

(2) the designated committee of the Senate shall develop reporting forms and may promulgate rules and regulations.

(26) In section 104(a)—

(A) in the first sentence strike out "Within" and insert in lieu thereof "Except as provided in the second sentence of this subsection, within"; and

(B) in the second sentence strike out "within 15 days of" and insert in lieu thereof "within fifteen calendar days after".

(27) In section 104(b)—

(A) in the first sentence strike out "Within" and insert in lieu thereof "Except as provided in the second sentence of this subsection, within"; and

(B) by inserting immediately after the first sentence the following new sentence: "With respect to reports required to be filed by May 15 of any year, such reports shall be made available for public inspection within fifteen calendar days after May 15 of such year.".

(28) In section 105(a), strike out "Committee" each place it appears and insert in lieu thereof "committee".

(29) In section 105(b)—

(A) strike out "Act" each place it appears and insert in lieu thereof "title"; and

(B) in the second sentence strike out "paragraph" and insert in lieu thereof "subsection".

(30) In section 107—

(A) in paragraph (2) strike out the period at the end thereof and insert in lieu thereof a semicolon;

(B) in paragraph (3)(C) strike out the comma after "State", strike out "entermtainment" and insert in lieu thereof "entertainment", strike out the colon and "or" after "subdivisions thereof", and strike out the semicolon after "country" and insert in lieu thereof a comma;

(C) in paragraph (4) strike out "the same meaning as the term has when used in the Federal Election Campaign Act of 1971." and insert in lieu thereof "the meaning given such term in the Federal Election Campaign Act of 1971;";

(D) in paragraph (9) strike out ", as amended"; and

(E) in paragraph (16) strike out "'or the Senate'" and insert after "'Representatives'" the following: "and 'designated committee of the Senate'".

(31) In section 201(c) insert "in a calendar year" after "becoming a candidate".

(32) In section 201(e)—

(A) strike out "as termination of employment in such position, file a report"; and

(B) insert "(a)" immediately after "202".

(33) In section 202(a)(1)(B) strike out the dash and insert in lieu thereof a colon.

(34) In section 202(a)(2)(B) strike out "and unless," and insert in lieu thereof a period and the following: "A gift need not be so aggregated if".

(35) In section 202(a)(4), in the first sentence strike out "exceeds" before "$10,000 at any time" and insert in lieu thereof "exceed".

(36) In section 202(a)(4)(B) insert a coma after "furniture" and insert a comma after "appliances".

(37) In section 202(a)(5) insert a comma after "purchase, sale".

(38) In section 202(a)(6)(A)—

(A) strike out "and" before "any educational" and insert in lieu thereof "or"; and

(B) strike out "This paragraph" and insert in lieu thereof "This subparagraph".

(39) In section 202(a)(6)(B) strike out "(1)" and "(2)" and insert in lieu thereof "(i)" and "(ii)", respectively.

(40) In section 202(b), strike out "title" and insert "of subsection (a)" after "paragraph (1)".

(41) In section 202(c) strike out "of this title".

(42) In section 202(d)(2) in the first sentence strike out "(d)" immediately before the period.

(43) In section 202(f)(1)—

(A) insert a comma after "(b)"; and

(B) strike out "of his dependent children" and insert in lieu thereof "dependent child".

(44) In section 202(f)(2)—

(A) in subparagraph (B)(i), strike out "of his dependents," and insert in lieu thereof "dependent child, and";

(B) strike out clause (ii) of subparagraph (B) and insert in lieu thereof the following:

"(ii) the holdings or sources of income of which such individual, his spouse, and any dependent child have no knowledge of,";

(C) strike out "or his spouse, or his dependent child" and insert in lieu thereof ", his spouse, or any dependent child"; and

(D) strike out "section 202(a)(1)(B)" and insert in lieu thereof "subsection (a)(1)(B) of this section".

(45) In section 202(f)(3), strike out "of his dependents" and insert in lieu thereof "dependent child".

(46) In section 202(f)(3)(C)(vi)(II) strike out "and" after "holding an asset" and insert in lieu thereof a comma.

(47) In section 202(f)(3) strike out subparagraph (D) and insert in lieu thereof the following:

"(D) The proposed trust instrument and the proposed trustee is approved by the reporting individual's supervising ethics office. Fur purposes of this subsection, 'interested party' means a reporting individual, his spouse, and any dependent child if the reporting individual, his spouse, or dependent child has a beneficial interest in the principal or income of a qualified blind trust; 'broker' has the meaning set forth in section 78 of title 15, United States Code; and 'supervising ethics office' means the Office of Government Ethics.".

(48) In section 202(f)(4)(A) strike out "28" and insert in lieu thereof "18".

(49) In section 202(f)(4)(B)—

(A) strike out "A" after "subparagraph" and insert in lieu thereof "(A)".

(B) insert "child" after "dependent";

(C) in subparagraph (B)(i)(V) strike out "act" and insert in lieu thereof "Act" and strike out "requirement" and insert in lieu thereof "requirements"; and

(D) in subparagraph (B)(ii) strike out "take advantage of" and insert in lieu thereof "comply with".

(50) In section 202(f)(5)(C)(ii)—

(A) insert "with such office" after "file";

(B) strike out "with his supervising ethics office"; and

(C) insert "of this section" after "subsection (d)".

(51) In section 202(f)(6)(A), in clauses (i) and (iii) insert "paragraph (3) of" before "this subsection".

(52) In section 202(f)(6)(B), insert "of this subsection" after "paragraph (3)(C)".

(53) In section 202(f)(7)(C), strike out the comma after "interested party" and insert "of this subsection" after "paragraph (5)".

(54) In section 204(b)—

(a) strike out "and the Director of the Office of Government Ethics" and insert in lieu thereof "or the Director of the Office of Government Ethics, as the case may be,"; and

(B) strike out "they have" and insert in lieu thereof "he has".

(55) In section 205(a) insert "by the" before "Secretary concerned".

(56) In section 205(b) strike out the first sentence and insert in lieu thereof the following: "Each agency shall, within fifteen days after any report is received by the agency under this title, permit inspection of such report by or furnish a copy of such report to any person requesting such inspection or copy.".

(57) In section 205(d) in the first sentence strike out "part" and insert in lieu thereof "title".

(58) In section 206(b)(2)(B) insert im-

mediately before the period "with such laws and regulations".

(59) In section 206(b)(3) in subparagraphs (B) and (C) strike out the period and insert in lieu thereof a comma.

(60) In section 207(a), strike out "Section 202 (a), (b) and (d)" and insert in lieu thereof "Subsections (a), (b), and (d) of section 205".

(61) In section 209—

(A) in paragraph (2) strike out the period at the end thereof and insert in lieu thereof a semicolon;

(B) in paragraph (4) strike out "the same meaning as the term has when used in the Federal Election Campaign Act of 1971." and insert in lieu thereof "the meaning given such term in the Federal Election Campaign of 1979;".

(62) Insert the following after section 209 of the bill:

OUTSIDE EARNED INCOME

SEC. 210. Except where the employee's agency or department shall have more restrictive limitations on outside earned income, all employees covered by this title who are compensated at a pay grade in the General Schedule of grade 16 or above and who occupy nonjudicial full-time positions appointment to which is required to be made by the President, by and with the advice and consent of the Senate, may not have in any calendar year outside earned income attributable to such calendar year which is in excess of 15 percent of their salary.

(63) In the section immediately following the heading "EFFECTIVE DATE" in title II of the bill, strike out "Sec. 210." and insert in lieu thereof "Sec. 211.".

(64) In secton 301(b) strike out "Committee" and insert in lieu thereof "committee".

(65) In section 301(d) strike out "section 301(c)" and insert in lieu thereof "subsection (c) of this section".

(66) In section 301(e) strike out "by" after "established" and insert in lieu thereof "pursuant".

(67) In section 302(a)(1)(A), insert "(other than income referred to in subparagraph (B))" immediately after "income".

In section 302(a)(1)(B) of the bill strike out "(other than income referred to in subparagraph (B))".

(68) In section 302(a)(2)(B) strike out "and unless," and insert in lieu thereof a period and the following: "A gift need not be so aggregated if".

Mr. DANIELSON (during the reading). Mr. Speaker, I ask unanimous consent to dispense with further reading of the Senate concurrent resolution and that it be printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. WIGGINS. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California to dispense with further reading?

There was no objection.

The Senate concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

AUTHORIZING CLERK OF THE HOUSE TO MAKE CERTAIN CORRECTIONS IN ENROLLMENT OF H.R. 11445, AMENDING THE SMALL BUSINESS ACT AND THE SMALL BUSINESS INVESTMENT ACT OF 1958

Mr. SMITH of Iowa. Mr. Speaker, I ask unanimous consent for the immediate consideration of the Senate concurrent resolution (S. Con Res. 111) directing the Clerk of the House to make corrections in the enrollment of the bill (H.R. 11445) to amend the Small Business Act and the Small Business Invesment Act of 1958.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Iowa:

There was no objection.

The Clerk read the Senate concurrent resolution, as follows:

S. CON. RES. 111

(1) In section 20(1)(5) of the Small Business Act as proposed to be added by section 102 of the bill, insert a comma after the phrase "Federal department, agency or instrumentality" the first time it appears.

(2) In section 503(a)(4) of the Small Business Act as proposed to be added by section 117(a) of the bill, strike the comma after the words "guarantee is made under this subsection".

(3) In section 117(b) of the bill, insert a period at the end of the sentence.

(4) In section 118 of the bill, strike "(a)" after "amended" and insert in lieu thereof "(1)".

(5) In section 118 of the bill, strike "(b)" and insert in lieu thereof "(2)".

(6) In section 118 of the bill, strike "(c)" and insert in lieu thereof "(3)".

(7) In section 118 of the bill, insert "(a)" after "Sec. 118.".

(8) In section 5(b)(12) of the Small Business Act as proposed to be added by section 118 of the bill, strike the comma after the phrase "banks and private dealers" the first time it appears.

(9) In section 5(b)(12) of the Small Business Act as proposed to be added by section 118 of the bill, strike the words "the Small Business Act" and insert in lieu thereof "this Act".

(10) In section 5(b)(12) of the Small Business Act as proposed to be added by section 118 of the bill, strike the period at the end of the last sentence and insert in lieu thereof"; and".

(11) In section 118, add a new subsection as follows:

"(b) Section 4(c)(1) of the Small Business Act is amended by inserting "5(b)(12)," between "sections" and "7(a)".

(12) In section 21(a)(1) of the Small Business Act proposed to be added by section 201 of the bill, strike the words "community colleges or junior colleges" and insert in lieu thereof "community college or junior college".

Mr. SMITH of Iowa (during the reading). Mr. Speaker, I ask unanimous consent that further reading of the Senate concurrent resolution be dispensed with and that it be printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Iowa?

Mr. BAUMAN. Mr. Speaker, reserving the right to object, may I ask the gentleman from Iowa (Mr. SMITH) whether the corrections listed in the Senate concurrent resolution are totally technical in nature and that there are no nongermane amendments that have been added?

Mr. SMITH of Iowa. Mr. Speaker, if the gentleman will yield, it is strictly a list of technical amendments.

Mr. BAUMAN. Further reserving the right to object, no nongermane items have been added by the other body?

Mr. SMITH of Iowa. There are no nongermane amendments.

Mr. BAUMAN. I thank the gentleman and I withdraw my reservation of obligation.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Iowa?

There was no objection.

The Senate concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

RENAMING THE U.S. FEDERAL BUILDING IN YAKIMA, WASH., THE "JUSTICE WILLIAM O. DOUGLAS FEDERAL BUILDING"

Mr. MINETA. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 3540) to rename the U.S. Federal Building in Yakima, Wash., the "Justice William O. Douglas Federal Building", and ask for its immediate consideration in the House.

The clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. WALSH. Mr. Speaker, reserving the right to object, and I do so only for the purpose of giving the chairman of the Subcommittee on Public Buildings and Grounds of the Committee on Public Works and Transportation, the gentleman from California, Mr. MINETA, the opportunity to explain what this is all about.

Mr. MINETA. Mr. Speaker, will the gentleman yield?

Mr. WALSH. I yield to the gentleman from California.

Mr. MINETA. The Subcommittee on Public Buildings and Grounds of the House Committee on Public Works and Transportation held a hearing on the naming of the Federal Court and Office Building in Yakima, Wash., for Justice William O. Douglas. The building that would be so renamed is where Justice Douglas used to hold office when he went to Yakima, Wash., which was his home and residence during the summers and in the off-court times. It was unanimously passed by the subcommittee and also by the full Committee on Public Works and Transportation.

Mr. WALSH. Mr. Speaker, I thank the gentleman for his explanation and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. BAUMAN. Mr. Speaker, reserving the right to object, I do so only to ask the gentleman from California (Mr. MINETA) if there are any nongermane provisions which have been appended to this bill?

Mr. MINETA. Mr. Speaker, if the gentleman will yield, there are none at all.

Mr. BAUMAN. I thank the gentleman and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the Senate bill as follows:

S. 3540

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the United States Federal building and courthouse located at 25 South Third Street in Yakima, Washington, is hereby designated as the "Justice William O. Douglas Federal Building". Any reference in any law, regulation, document, record, map, or other paper of the United States to such building shall be considered to be a reference to the Justice William O. Douglas Federal Building.

CONFERENCE REPORT ON H.R. 12605, PUBLIC TELECOMMUNICATIONS FINANCING ACT OF 1978

Mr. STAGGERS submitted the following conference report and statement on the bill (H.R. 12605) to amend the Communications Act of 1934 to extend and improve the provisions of such Act relating to long-term financing for the Corporation for Public Broadcasting and relating to certain grant programs for public telecommunications, and for other purposes:

CONFERENCE REPORT
(H. REPT. 95-1774)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 12605) to amend the Communications Act of 1934 to extend and improve the provisions of such Act relating to long-term financing for the Corporation for Public Broadcasting and relating to certain grant programs for public telecommunications, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the mattter proposed to be inserted by the Senate amendment insert the following:

That this Act may be cited as the "Public Telecommunications Financing Act of 1978".

TITLE I—CONSTRUCTION AND PLANNING OF FACILITIES

DECLARATION OF PURPOSE

SEC. 101. Section 390 of the Communications Act of 1934 is amended to read as follows:

"DECLARATION OF PURPOSE

"SEC. 390. The purpose of this subpart is to assist, through matching grants, in the planning and construction of public telecommunications facilities in order to achieve the following objectives: (1) extend delivery of public telecommunications services to as many citizens of the United States as possible by the most efficient and economical means, including the use of broadcast and nonbroadcast technologies; (2) increase public telecommunications services and facilities available to, operated by, and owned by minorities and women; and (3) strengthen the capability of existing public television and radio stations to provide public telecommunications services to the public.".

AUTHORIZATION OF APPROPRIATIONS

SEC. 102. Section 391 of the Communications Act of 1934 is amended to read as follows:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 391. There are authorized to be appropriated $40,000,000 for each of the fiscal years 1979, 1980, and 1981, to be used by the Secretary of Commerce to assist in the planning and construction of public telecommunications facilities as provided in this subpart. Sums appropriated under this subpart for any fiscal year shall remain available until expended for payment of grants for projects for which applications approved by the Secretary pursuant to this subpart have been submitted within such fiscal year. Sums appropriated under this subpart may be used by the Secretary to cover the cost of administering the provisions of this subpart.".

CONSTRUCTION AND PLANNING

SEC. 103. (a) Section 392 of the Communications Act of 1934 is amended to read as follows:

"GRANTS FOR CONSTRUCTION AND PLANNING

"SEC. 392. (a) For each project for the construction of public telecommunications facilities there shall be submitted to the Secretary an application for a grant containing such information with respect to such project as the Secretary may require, including the total cost of such project, the amount of the grant requested for such project, and a 5-year plan outlining the applicant's projected facilities requirements and the projected costs of such facilities requirements. Each applicant shall also provide assurances satisfactory to the Secretary that—

"(1) the applicant is (A) a public broadcast station; (B) a noncommercial telecommunications entity; (C) a system of public telecommunications entities; (D) a nonprofit foundation, corporation, institution, or association organized primarily for educational or cultural purposes; or (E) a State or local government (or any agency thereof), or a political or special purpose subdivision of a State;

"(2) the operation of such public telecommunications facilities will be under the control of the applicant;

"(3) necessary funds to construct, operate, and maintain such public telecommunications facilities will be available when needed;

"(4) such public telecommunications facilities will be used only for the provision of public telecommunications services;

"(5) the applicant has participated in comprehensive planning for such public telecommunications facilities in the area which the applicant proposes to serve, and such

planning has included an evaluation of alternate technologies and coordination with State educational television and radio agencies, as appropriate; and

"(6) the applicant will make the most efficient use of the grant.

"(b) Upon approving any application under this section with respect to any project for the construction of public telecommunications facilities, the Secretary shall make a grant to the applicant in an amount determined by the Secretary, except that such amount shall not exceed 75 percent of the amount determined by the Secretary to be the reasonable and necessary cost of such project.

"(c) The Secretary may provide such funds as the Secretary deems necessary for the planning of any project for which construction funds may be obtained under this section. An applicant for a planning grant shall provide such information with respect to such project as the Secretary may require and shall provide assurances satisfactory to the Secretary that the applicant meets the eligibility requirements of subsection (a) to receive construction assistance.

"(d) Any studies conducted by or for any grant recipient under this section shall be provided to the Secretary, if such studies are conducted through the use of funds received under this section.

"(e) The Secretary shall establish such rules and regulations as may be necessary to carry out this subpart, including rules and regulations relating to the order of priority in approving applications for construction projects and relating to determining the amount of each grant for such projects.

"(f) In establishing criteria for grants pursuant to section 393 and in establishing procedures relating to the order of priority established in subsection (e) in approving applications for grants, the Secretary shall give special consideration to applications which would increase minority and women's ownership of, operation of, and participation in public telecommunications entities. The Secretary shall take affirmative steps to inform minorities and women of the availability of funds under this subpart, and the localities where new public telecommunications facilities are needed, and to provide such other assistance and information as may be appropriate.

"(g) If, within 10 years after completion of any project for construction of public telecommunications facilities with respect to which a grant has been made under this section—

"(1) the applicant or other owner of such facilities ceases to be an agency, institution, foundation, corporation, association, or other entity described in subsection (a)(1); or

"(2) such facilities cease to be used only for the provision of public telecommunications services (unless the Secretary determines, in accordance with regulations, that there is good cause for releasing the applicant or other owner from the obligation to do so);

the United States shall be entitled to recover from the applicant or other owner of such facilities the amount bearing the same ratio to the value of such facilities at the time the applicant ceases to be such an entity or at the time of such determination (as determined by agreement of the parties or by action brought in the United States district court for the district in which such facilities are situated), as the amount of the Federal participation bore to the cost of construction of such facilities.

"(h) Each recipient of assistance under this subpart shall keep such records as may be reasonably necessary to enable the Secretary to carry out the functions of the Secretary under this subpart, including a complete and itemized inventory of all public telecommunications facilities under the control of such recipient, and records which fully disclose the amount and the disposition by such recipient of the proceeds of such assistance, the total cost of the project in connection with which such assistance is given or used, the amount and nature of that portion of the cost of the project supplied by other sources, and such other records as will facilitate an effective audit.

"(i) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of any recipient of assistance under this subpart that are pertinent to assistance received under this subpart.".

(b)(1) The provisions of section 392(g) of the Communications Act of 1934, as added by subsection (a), shall apply to any grant made under section 392 of such Act before, on, or after the date of the enactment of this Act. Any authority and responsibility of the Secretary of Health, Education, and Welfare regarding the administration of such grants are hereby transferred to the Secretary of Commerce.

(2) Subject to the provisions of section 202 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 581c), the following are hereby transferred to the Secretary of Commerce for appropriate allocation:

(A) the personnel employed in connection with or in support of, or as an integral part of the mission of, the functions transferred to the Secretary of Commerce from the Secretary of Health, Education, and Welfare by paragraph (1); and

(B) the assets, liabilities, contracts, property, records, and unexpended balances of appropriations, allocations, and other funds employed, held, used, arising from, available for, or to be made available for, or in connection with, the functions described in subparagraph (A).

Unexpended funds transferred pursuant to this paragraph shall be used only for the purposes for which the funds originally were authorized and appropriated.

(3) The Director of the Office of Management and Budget, in consultation with the Secretary of Commerce and the Secretary of Health, Education, and Welfare, shall—

(A) make such determinations as may be necessary with regard to the transfer of the functions transferred to the Secretary of Commerce from the Secretary of Health, Education, and Welfare by paragraph (1); and

(B) make such additional incidental dispositions of personnel, assets, liabilities, contracts, property, records, and unexpended balances of appropriations, allocations, and other funds employed, held, used, arising from, available for, or to be made available for, or in connection with, the functions described in subparagraph (A);

as the Director may deem necessary to accomplish the purposes of this Act and the amendments made by this Act.

CRITERIA FOR APPROVAL AND EXPENDITURES BY SECRETARY OF COMMERCE

SEC. 104. Section 393 of the Communications Act of 1934 is amended to read as follows:

"CRITERIA FOR APPROVAL AND EXPENDITURES BY SECRETARY OF COMMERCE

"SEC. 393. (a) The Secretary, in consultation with the Corporation, public telecommunications entities, and as appropriate with others, shall establish criteria for making construction and planning grants. Such criteria shall be consistent with the objectives and provisions set forth in this subpart, and shall be made available to interested parties upon request.

"(b) The Secretary shall base determinations of whether to approve applications for grants under this subpart, and the amount of such grants, on criteria developed pursuant to subsection (a) and designed to achieve—

"(1) the provision of new telecommunications facilities to extend service to areas currently not receiving public telecommunications services;

"(2) the expansion of the service areas of existing public telecommunications entities;

"(3) the development of public telecommunications facilities owned by, operated by, and available to minorities and women; and

"(4) the improvement of the capabilities of existing public broadcast stations to provide public telecommunications services.

"(c) Of the funds appropriated pursuant to section 391 for any fiscal year, not less than 75 percent shall be available to extend delivery of public telecommunications services to areas not receiving such services through grants for facilities of new and existing public telecommunications entities, and preoperational expenses associated with such facilities. In choosing among applicants for grants, the Secretary shall compare the advantages of alternate technologies on the basis of costs and benefits.

"(d) Of the sums appropriated pursuant to section 391 for any fiscal year, a substantial amount shall be available for the expansion and development of noncommercial radio broadcast station facilities.".

LONG-RANGE PLANNING FOR FACILITIES

SEC. 105. Section 394 of the Communications Act of 1934 is amended to read as follows:

"LONG-RANGE PLANNING FOR FACILITIES

"SEC. 394. (a) The Secretary, in consultation with the Corporation, public telecommunications entities, and as appropriate with other parties, shall develop a long-range plan to accomplish the objectives set forth in section 390. Such plan shall include a detailed 5-year projection of the broadcast and nonbroadcast public telecommunications facilities required to meet such objectives, and the expenditures necessary to provide such facilities.

"(b) The plan required in subsection (a) shall be updated annually, and a summary of the activities of the Secretary in implementing the plan shall be submitted concurrently to the President and the Congress not later than the 31st day of December of each year.".

MISCELLANEOUS PROVISIONS

SEC. 106. (a) The heading for part IV of title III of the Communications Act of 1934 is amended to read as follows:

"PART IV—ASSISTANCE FOR PUBLIC TELECOMMUNICATIONS FACILITIES; TELECOMMUNICATIONS DEMONSTRATIONS; CORPORATION FOR PUBLIC BROADCASTING".

(b) The heading for subpart A of part IV of title III of the Communications Act of 1934 is amended to read as follows:

"Subpart A—Assistance for Public Telecommunications Facilities".

(c) The position of Deputy Assistant Secretary of Commerce for Communications and Information, established in Department of Commerce Organization Order Numbered 10–10 (effective March 26, 1976), shall be compensated at the rate of pay in effect from time to time for level V of the Executive Schedule under section 5316 of title 5, United States Code.

TITLE II—TELECOMMUNICATIONS DEMONSTRATIONS

ASSISTANCE FOR DEMONSTRATION PROJECTS

SEC. 201. Part IV of title III of the Communications Act of 1934 is amended by striking out section 392A and section 395, by redesignating subpart B and subpart C as subpart C and subpart D, respectively, and by inserting after subpart A the following new subpart:

"Subpart B—Telecommunications Demonstrations

"ASSISTANCE FOR DEMONSTRATION PROJECTS

"SEC. 395. (a) It is the purpose of this subpart to promote the development of nonbroadcast telecommunications facilities and services for the transmission, distribution, and delivery of health, education, and public or social service information. The Secretary is authorized, upon receipt of an application in such form and containing such information as he may by regulation require, to make grants to, and enter into contracts with, public and private nonprofit agencies, organizations, and institutions for the purpose of carrying out telecommunications demonstrations.

"(b) The Secretary may approve an application submitted under subsection (a) if he determines that—

"(1) the project for which application is made will demonstrate innovative methods or techniques of utilizing nonbroadcast telecommunications equipment or facilities to satisfy the purpose of this subpart;

"(2) demonstrations and related activities assisted under this subpart will remain under the administration and control of the applicant;

"(3) the applicant has the managerial and technical capability to carry out the project for which the application is made; and

"(4) the facilities and equipment acquired or developed pursuant to the application will be used substantially for the transmission, distribution, and delivery of health, education, or public or social service information.

"(c) Upon approving any application under this subpart with respect to any project, the Secretary shall make a grant to or enter into a contract with the applicant in an amount determined by the Secretary not to exceed the reasonable and necessary cost of such project. The Secretary shall pay such amount from the sums available therefor, in advance or by way of reimbursement, and in such installments consistent with established practice, as he may determine.

"(d) Funds made available pursuant to this subpart shall not be available for the construction, remodeling, or repair of structures to house the facilities or equipment acquired or developed with such funds, except that such funds may be used for minor remodeling which is necessary for and incidental to the installation of such facilities or equipment.

"(e) For purposes of this section, the term 'nonbroadcast telecommunications facilities' includes, but is not limited to, cable television systems, communications satellite systems and related terminal equipment, and other modes of transmitting, emitting, or receiving images and sounds or intelligence by means of wire, radio, optical, electromagnetic, or other means.

"(f) The funding of any demonstration pursuant to this subpart shall continue for not more than 3 years from the date of the original grant or contract.

"(g) The Secretary shall require that the recipient of a grant or contract under this subpart submit a summary and evaluation of the results of the demonstration at least annually for each year in which funds are received pursuant to this section.

"(h)(1) Each recipient of assistance under this subpart shall keep such records as may be reasonably necessary to enable the Secretary to carry out the Secretary's functions under this subpart, including records which fully disclose the amount and the disposition by such recipient of the proceeds of such assistance, the total cost of the project or undertaking in connection with which such assistance is given or used, the amount and nature of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

"(2) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purposes of audit and examination to any books, documents, papers, and records of the recipient that are pertinent to assistance received under this subpart.

"(i) The Secretary is authorized to make such rules and regulations as may be necessary to carry out this subpart, including regulations relating to the order of priority in approving applications for projects under this subpart or to determining the amounts of grants for such projects.

"(j) The Commission is authorized to provide such assistance in carrying out the provisions of this subpart as may be requested by the Secretary. The Secretary shall provide for close coordination with the Commission in the administration of the Secretary's functions under this subpart which are of interest to or affect the functions of the Commission. The Secretary shall provide for close coordination with the Corporation in the administration of the Secretary's functions under this subpart which are of interest to or affect the functions of the Corporation.

"(k) There are authorized to be appropriated $1,000,000 for each of the fiscal years 1979, 1980, and 1981, to be used by the Secretary to carry out the provisions of this subpart. Sums appropriated under this subsection for any fiscal year shall remain available for payment of grants or contracts for projects for which applications approved under this subpart have been submitted within one year after the last day of such fiscal year.".

TITLE III—CORPORATION FOR PUBLIC BROADCASTING

DECLARATION OF POLICY

SEC. 301. Section 396(a) of the Communications Act of 1934 is amended to read as follows:

"SEC. 396. (a) The Congress hereby finds and declares that—

"(1) it is in the public interest to encourage the growth and development of public radio and television broadcasting, including the use of such media for instructional, educational, and cultural purposes;

"(2) it is in the public interest to encourage the growth and development of nonbroadcast telecommunications technologies for the delivery of public telecommunications services;

"(3) expansion and development of public telecommunications and of diversity of its programming depend on freedom, imagination, and initiative on both local and national levels;

"(4) the encouragement and support of public telecommunications, while matters of importance for private and local development, are also of appropriate and important concern to the Federal Government;

"(5) it furthers the general welfare to encourage public telecommunications services which will be responsive to the interests of people both in particular localities and throughout the United States, and which will constitute an expression of diversity and excellence;

"(6) it is necessary and appropriate for the Federal Government to complement, assist, and support a national policy that will most effectively make public telecommunications services available to all citizens of the United States; and

"(7) a private corporation should be created to facilitate the development of public telecommunications and to afford maximum protection from extraneous interference and control.".

CHAIRMAN OF THE BOARD

SEC. 302. Section 396(d)(1) of the Communications Act of 1934 is amended by striking out "President shall designate one of the members first appointed to the Board as Chairman; thereafter the".

COMPENSATION OF OFFICERS AND EMPLOYEES

SEC. 303. (a) Section 396(e)(1) of the Communications Act of 1934 is amended by inserting after the first sentence the following new sentence: "No officer or employee of the Corporation may be compensated by the Corporation at an annual rate of pay which exceeds the rate of basic pay in effect from time to time for level I of the Executive Schedule under section 5312 of title 5, United States Code.".

(b) The amendment made by subsection (a) shall not be construed to reduce the annual rate of pay of any officer or employee of the Corporation for Public Broadcasting in any case in which (1) such officer or employee was appointed or named to any position in the Corporation before the date of the enactment of this Act; and (2) the annual rate of pay for such position, as in effect on such date of enactment, exceeds the maximum rate of pay established in section 396(e)(1) of the Communications Act of 1934, as amended by subsection (a).

PURPOSES AND ACTIVITIES OF CORPORATION

SEC. 304. Section 396(g) of the Communications Act of 1934 is amended to read as follows:

"Purposes and Activities of Corporation

"(g)(1) In order to achieve the objectives and to carry out the purposes of this subpart, as set out in subsection (a), the Corporation is authorized to—

"(A) facilitate the full development of public telecommunications in which programs of high quality, diversity, creativity, excellence, and innovation, which are obtained from diverse sources, will be made available to public telecommunications entities, with strict adherence to objectivity and balance in all programs or series of programs of a controversial nature;

"(B) assist in the establishment and development of one or more interconnection systems to be used for the distribution of public telecommunications services so that all public telecommunications entities may disseminate such services at times chosen by the entities;

"(C) assist in the establishment and development of one or more systems of public telecommunications entities throughout the United States; and

"(D) carry out its purposes and functions and engage in its activities in ways that will most effectively assure the maximum freedom of the public telecommunications entities and systems from interference with, or control of, program content or other activities.

"(2) In order to carry out the purposes set forth in subsection (a), the Corporation is authorized to—

"(A) obtain grants from and make contracts with individuals and with private, State, and Federal agencies, organizations, and institutions;

"(B) contract with or make grants to public telecommunications entities, national, regional, and other systems of public telecommunications entities, and independent producers and production entities, for the production or acquisition of public telecommunications services to be made available for use by public telecommunications entities, except that—

"(i) to the extent practicable, proposals for the provision of assistance by the Corporation in the production or acquisition of programs or series of programs shall be evaluated on the basis of comparative merit by panels of outside experts, representing diverse interests and perspectives, appointed by the Corporation; and

"(ii) nothing in this subparagraph shall be construed to prohibit the exercise by the Corporation of its prudent business judgment with respect to any contract or grant

to assist in the production or acquisition of any program or series of programs recommended by any such panel;

"(C) make payments to existing and new public telecommunications entities to aid in financing the production or acquisition of public telecommunications services by such entities, particularly innovative approaches to such services, and other costs of operation of such entities;

"(D) establish and maintain, or contribute to, a library and archives of noncommercial educational and cultural radio and television programs and related materials and develop public awareness of, and disseminate information about, public telecommunications services by various means, including the publication of a journal;

"(E) arrange, by grant to or contract with appropriate public or private agencies, organizations, or institutions, for interconnection facilities suitable for distribution and transmission of public telecommunications services to public telecommunications entities;

"(F) hire or accept the voluntary services of consultants, experts, advisory boards, and panels to aid the Corporation in carrying out the purposes of this subpart;

"(G) conduct (directly or through grants or contracts) research, demonstrations, or training in matters related to public television or radio broadcasting and the use of nonbroadcast communications technologies for the dissemination of noncommercial educational and cultural television or radio programs;

"(H) make grants or contracts for the use of nonbroadcast telecommunications technologies for the dissemination to the public of public telecommunications services; and

"(I) take such other actions as may be necessary to accomplish the purposes set forth in subsection (a). Nothing contained in this paragraph shall be construed to commit the Federal Government to provide any sums for the payment of any obligation of the Corporation which exceeds amounts provided in advance in appropriation Acts.

"(3) To carry out the foregoing purposes and engage in the foregoing activities, the Corporation shall have the usual powers conferred upon a nonprofit corporation by the District of Columbia Nonprofit Corporation Act (D.C. Code, 29-1001 et seq.), except that the Corporation is prohibited from—

"(A) owning or operating any television or radio broadcast station, system, or network, community antenna television system, interconnection system or facility, program production facility, or any public telecommunications entity, system, or network; and

"(B) producing programs, scheduling programs for dissemination, or disseminating programs to the public.

"(4) All meetings of the Board of Directors of the Corporation, including any committee of the Board, shall be open to the public under such terms, conditions, and exceptions as are set forth in subsection (k)(4).

"(5) The Corporation, in consultation with public broadcast stations, shall undertake a study to determine the manner in which personal services of volunteers should be included in determining the level of non-Federal financial support pursuant to subsection (k)(2)(A). The study, which shall be completed not later than 180 days after the effective date of this paragraph, shall include an examination of any fiscal, administrative, or other factors which should be taken into account in determining the manner in which such services should be so included, and shall include proposed valuation standards. Upon completion, the study and the proposed valuation standards shall be submitted to the Comptroller General of the United States for approval.

"(6) The Corporation, in consultation with interested parties, shall create a 5-year plan for the development of public telecommunications services. Such plan shall be updated annually by the Corporation.".

INTERCONNECTION SERVICE

SEC. 305. Section 396(h) of the Communications Act of 1934 is amended to read as follows:

"Interconnection service

"(h)(1) Nothing in this Act, or in any other provision of law, shall be construed to prevent United States communications common carriers from rendering free or reduced rate communications interconnection services for public television or radio services, subject to such rules and regulations as the Commission may prescribe.

"(2) Subject to such terms and conditions as may be established by public telecommunications entities receiving space satellite interconnection facilities or services purchased or arranged for, in whole or in part, with funds authorized under this part, other public telecommunications entities shall have reasonable access to such facilities or services for the distribution of educational and cultural programs to public telecommunications entities. Any remaining capacity shall be made available to other persons for the transmission of noncommercial educational and cultural programs and program information relating to such programs, to public telecommunications entities, at a charge or charges comparable to the charge or charges, if any, imposed upon a public telecommunications entity for the distribution of noncommercial educational and cultural programs to public telecommunications entities. No such person shall be denied such access whenever sufficient capacity is available.".

ANNUAL REPORT TO CONGRESS

SEC. 306. Section 396(i) of the Communications Act of 1934 is amended to read as follows:

"REPORT TO CONGRESS

"(i)(1) The Corporation shall submit an annual report for the preceding fiscal year ending September 30 to the President for transmittal to the Congress on or before the 15th day of February of each year. The report shall include—

"(A) a comprehensive and detailed report of the Corporation's operations, activities, financial condition, and accomplishments under this subpart and such recommendations as the Corporation deems appropriate;

"(B) a comprehensive and detailed inventory of funds distributed by Federal agencies to public telecommunications entities during the preceding fiscal year; and

"(C) the summary of the annual report provided to the Secretary pursuant to section 398(b)(4).

"(2) The officers and directors of the Corporation shall be available to testify before appropriate committees of the Congress with respect to such report, the report of any audit made by the Comptroller General pursuant to subsection (1), or any other matter which such committees may determine.".

FINANCING; OPEN MEETINGS AND FINANCIAL RECORDS

SEC. 307. (a) Section 396(k) of the Communications Act of 1934 is amended to read as follows:

"Financing; Open Meetings and Financial Records

"(k)(1)(A) There is hereby established in the Treasury a fund which shall be known as the Public Broadcasting Fund (hereinafter in this subsection referred to as the 'Fund'), to be administered by the Secretary of the Treasury.

"(B) There is authorized to be appropriated to the Fund, for each of the fiscal years 1978, 1979, and 1980, an amount equal to 40 percent of the total amount of non-Federal financial support received by public broadcasting entities during the fiscal year second preceding each such fiscal year, except that the amount so appropriated shall not exceed $121,000,000 for fiscal year 1978, $140,000,000 for fiscal year 1979, and $160,000,000 for fiscal year 1980.

"(C) There is authorized to be appropriated to the Fund, for each of the fiscal years 1981, 1982, and 1983, an amount equal to 50 percent of the total amount of non-Federal financial support received by public broadcasting entities during the fiscal year second preceding each such fiscal year, except that the amount so appropriated shall not exceed $180,000,000 for fiscal year 1981, $200,000,000 for fiscal year 1982, and $220,000,000 for fiscal year 1983.

"(D) Funds appropriated under this subsection shall remain available until expended.

"(2)(A) The funds authorized to be appropriated by this subsection shall be used by the Corporation, in a prudent and financially responsible manner, solely for its grants, contracts, and administrative costs, except that the Corporation may not use any funds appropriated under this subpart for purposes of conducting any reception, or providing any other entertainment, for any officer or employee of the Federal Government or any State or local government. The Corporation shall determine the amount of non-Federal financial support received by public broadcasting entities during each of the fiscal years referred to in paragraph (1) for the purpose of determining the amount of each authorization, and shall certify such amount to the Secretary of the Treasury, except that the Corporation may include in its certification non-Federal financial support received by a public broadcasting entity during its most recent fiscal year ending before September 30 of the year for which certification is made. Upon receipt of such certification, the Secretary of the Treasury shall make available to the Corporation, from such funds as may be appropriated to the Fund, the amount authorized for each of the fiscal years pursuant to the provisions of this subsection.

"(B) Funds appropriated and made available under this subsection shall be disbursed by the Secretary of the Treasury on a quarterly basis, in such amounts as the Corporation certifies will be necessary to meet its financial obligations in the succeeding quarter.

"(3)(A) The Corporation shall reserve for distribution among the licensees and permittees of public television and radio stations an amount equal to—

"(i) not less than 40 percent of the funds disbursed by the Corporation from the Fund under this section in each fiscal year in which the amount disbursed is $88,000,000 or more, but less than $121,000,000;

"(ii) not less than 45 percent of such funds in each fiscal year in which the amount disbursed is $121,000,000 or more, but less than $160,000,000; and

"(iii) not less than 50 percent of such funds in each fiscal year in which the amount disbursed is $160,000,000 or more.

"(B)(i) The Corporation shall establish an annual budget according to which it shall make grants and contracts for production of public television or radio programs by independent producers and production entities and public telecommunications entities, for acquisition of such programs by public telecommunications entities, for interconnection facilities and operations, for distribution of funds among public telecommunications entities, and for engineering and program-related research. A significant portion of funds available under the budget established by the Corporation under this subparagraph shall be used for funding the production of television and radio programs. Of such portion, a substantial amount shall be reserved for distribution to independent producers and production entities for the production of programs.

"(ii) All funds contained in the annual budget established by the Corporation under clause (i) shall be distributed to entities outside the Corporation and shall not be used for the general administrative costs of the Corporation, the salaries or related expenses of Corporation personnel and members of the Board, or for expenses of consultants and advisers to the Corporation.

"(iii) During each of the fiscal years 1981, 1982, and 1983, the annual budget established by the Corporation under clause (i) shall consist of not less than 95 percent of the funds made available by the Secretary of the Treasury to the Corporation pursuant to paragraph (2)(A).

"(iv) In determining the amount of funds which shall be made available for radio programming and operations under this subparagraph, the Corporation shall take into account the increased financial needs relating to radio programming and operations resulting from the expansion and development of noncommercial radio broadcast station facilities through the use of funds made available pursuant to section 393(d).

"(C) In fiscal year 1981, the Corporation may expend an amount equal to not more than 5 percent of the funds made available by the Secretary of the Treasury during such fiscal year pursuant to paragraph (2)(A) for those activities authorized under subsection (g)(2) which are not among those grant activities described in subparagraph (B).

"(D) In fiscal years 1982 and 1983, the amount which the Corporation may expend for activities authorized under subsection (g)(2) which are not among those grant activities described in subparagraph (B) shall be 105 percent of the amount derived for the preceding fiscal year.

"(4) Funds my not be distributed pursuant to this subsection to the Public Broadcasting Service or National Public Radio (or any successor organization), or to the licensee or permittee of any public broadcast station, unless the governing body of any such organization, any committee of such governing body, or any advisory body of any such organization, holds open meetings preceded by reasonable notice to the public. All persons shall be permitted to attend any meeting of the board, or of any such committee or body, and no person shall be required, as a condition to attendance at any such meeting, to register such person's name or to provide any other information. Nothing contained in this paragraph shall be construed to prevent any such board, committee, or body from holding closed sessions to consider matters relating to individual employees, proprietary information, litigation and other matters requiring the confidential advice of counsel, commercial or financial information obtained from a person on a privileged or confidential basis, or the purchase of property or services whenever the premature exposure of such purchase would compromise the business interests of any such organization. If any such meeting is closed pursuant to the provisions of this paragraph, the organization involved shall thereafter (within a reasonable period of time) make available to the public a written statement containing an explanation of the reasons for closing the meeting.

"(5) Funds may not be distributed pursuant to this subsection to any public telecommunications entity that does not maintain for public examination copies of the annual financial and audit reports, or other information regarding finances, submitted to the Corporation pursuant to subsection (1)(3)(B).

"(6)(A) The Corporation, in consultation with public television and radio licensees, shall review annually the percentage of funds reserved pursuant to paragraph (3)(A), and the criteria and conditions regarding the division and distribution of such funds among public television and radio stations.

"(B) The funds reserved for public broadcast stations pursuant to paragraph (3)(A) shall be divided into two portions, one to be distributed among radio stations and one to be distributed among television stations. The Corporation shall make a basic grant from the portion reserved for television stations to each licensee and permittee of a public television station that is on the air. The balance of the portion reserved for television stations and the total portion reserved for radio stations shall be distributed to licensees and permittees of such stations in accordance with eligibility criteria that promote the public interest in public broadcasting, and on the basis of a formula designed to—

"(i) provide for the financial needs and requirements of stations in relation to the communities and audiences such stations undertake to serve;

"(ii) maintain existing, and stimulate new, sources of non-Federal financial support for stations by providing incentives for increases in such support; and

"(iii) assure that each eligible licensee and permittee of a public radio station receives a basic grant.

"(7) No distribution of funds pursuant to this subsection shall exceed, in any fiscal year, 50 percent of a licensee's or permittee's total non-Federal financial support during the fiscal year second preceding the fiscal year in which such distribution is made.

"(8) The funds distributed pursuant to paragraph (3)(A) may be used at the discretion of the recipient for purposes relating to the provision of public television and radio programming, including, but not limited to—

"(A) producing, acquiring, broadcasting, otherwise disseminating public television or radio programs;

"(B) procuring national or regional program distribution services that make public television or radio programs available for broadcast or other dissemination at times chosen by stations;

"(C) acquiring, replacing, or maintaining facilities, and real property used with facilities, for the production, broadcast, or other dissemination of public television and radio programs; and

"(D) developing and using nonbroadcast communications technologies for public television or radio programming purposes.

"(9)(A) Funds may not be distributed pursuant to this subpart to any public broadcast station unless such station establishes a community advisory board. Any such station shall undertake good faith efforts to assure that the composition of its advisory board reasonably reflects the diverse needs and interests of the communities served by such station.

"(B) The board shall be permitted to review the programming goals established by the station, the service provided by the station, and the significant policy decisions rendered by the station. The board may also be delegated any other responsibilities, as determined by the governing body of the station. The board shall advise the governing body of the station with respect to whether the programming and other policies of such station are meeting the specialized educational and cultural needs of the communities served by the station, and may make such recommendations as it considers appropriate to meet such needs.

"(C) The role of the board shall be solely advisory in nature, except to the extent other responsibilities are delegated to the board by the governing body of the station. In no case shall the board have any authority to exercise any control over the daily management or operation of the station.

"(D) In the case of any public broadcast station in existence on the effective date of this paragraph, such station shall comply with the requirements of this paragraph with respect to the establishment of a community advisory board not later than 180 days after such effective date.

"(E) The provision of subparagraph (A) prohibiting the distribution of funds to any public broadcast station unless such station establishes a community advisory board shall be the exclusive remedy for the enforcement of the provisions of this paragraph.

"(10) Funds may not be distributed pursuant to this subsection to the Public Broadcasting Service or National Public Radio (or any successor organization) unless assurances are provided to the Corporation that no officer or employee of the Public Broadcasting Service or National Public Radio (or any successor organization), as the case may be, will be compensated at an annual rate of pay which exceeds the rate of basic pay in effect from time to time for level I of the Executive Schedule under section 5312 of title 5, United States Code.".

(b) Section 396(k)(10) of the Communications Act of 1934, as added by subsection (a), shall not be construed to reduce the annual rate of pay of any officer or employee of the Public Broadcasting Service or National Public Radio (or any successor organization) in any case in which (1) such officer or employee was appointed or named to any position in the Public Broadcasting Service or National Public Radio (or any successor organization) before the date of the enactment of this Act; and (2) the annual rate of pay for such position, as in effect on such date of enactment, exceeds the maximum rate of pay established in section 396(k)(10) of the Communications Act of 1934, as added by subsection (a).

FINANCIAL MANAGEMENT AND RECORDS

SEC. 308. Section 396(l)(3) of the Communications Act of 1934 is amended to read as follows:

"(3)(A) Not later than 1 year after the effective date of this paragraph, the Corporation, in consultation with the Comptroller General, and as appropriate with others, shall develop accounting principles which shall be used uniformly by all public telecommunications entities receiving funds under this subpart, taking into account organizational differences among various categories of such entities. Such principles shall be designed to account fully for all funds received and expended for public telecommunications purposes by such entities.

"(B) Each public telecommunications entity receiving funds under this subpart shall be required—

(i) to keep its books, records, and accounts in such form as may be required by the Corporation;

"(ii) to undergo an annual audit by independent certified public accountants or independent licensed public accountants certified or licensed by a regulatory authority of a State, which audit shall be in accordance with auditing standards developed by the Corporation, in consultation with the Comptroller General; and

"(iii) to furnish annually to the corporation a copy of the audit report required pursuant to clause (ii), as well as such other information regarding finances, including an annual financial report as the Corporation may require.

"(C) Any recipient of assistance by grant or contract under this section, other than a fixed price contract awarded pursuant to competitive bidding procedures, shall keep such records as may be reasonably necessary to disclose fully the amount and the disposition by such recipient of such assistance, the total cost of the project or undertaking in connection with which such assistance is given or used, and the amount and nature of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

"(D) The Corporation or any of its duly authorized representatives shall have access to any books, documents, papers, and records of any recipient of assistance for the purpose of auditing and examining all funds received or expended for public telecommunications purposes by the recipient. The Comptroller General of the United States or any of his duly authorized representatives also shall have access to such books, documents, papers, and records for the purpose of auditing and examining all funds received or expended for public telecommunications purposes during any fiscal year for which Federal funds are available to the Corporation.".

EQUAL EMPLOYMENT OPPORTUNITY

SEC. 309. Section 398 of the Communications Act of 1934 is amended to read as follows:

"FEDERAL INTERFERENCE OR CONTROL PROHIBITED; EQUAL EMPLOYMENT OPPORTUNITY

"SEC. 398. (a) Nothing contained in this part shall be deemed (1) to amend any other provision of, or requirement under, this Act; or (2) except to the extent authorized in subsection (b), to authorize any department, agency, officer, or employee of the United States to exercise any direction, supervision, or control over public telecommunications, or over the Corporation or any of its grantees or contractors, or over the charter or bylaws of the Corporation, or over the curriculum, program of instruction, or personnel of any educational institution, school system, or public telecommunications entity.

"(b)(1) Equal opportunity in employment shall be afforded to all persons by the Public Broadcasting Service and National Public Radio (or any successor organization) and by all public telecommunications entities receiving funds pursuant to subpart C (hereinafter in this subsection referred to as 'recipients'), and no person shall be subjected to discrimination in employment by any recipient on the grounds of race, color, religion, national origin, or sex.

"(2)(A) The Secretary is authorized and directed to enforce this subsection and to prescribe such rules and regulations as may be necessary to carry out the functions of the Secretary under this subsection.

"(B) The Secretary shall provide for close coordination with the Commission in the administration of the responsibilities of the Secretary under this subsection which are of interest to or affect the functions of the Commission so that, to the maximum extent possible consistent with the enforcement responsibilities of each, the reporting requirements of public telecommunications entities shall be uniformly based upon consistent definitions and categories of information.

"(3)(A) The Corporation shall incorporate into each grant agreement or contract with any recipient entered into on or after the effective date of the rules and regulations prescribed by the Secretary pursuant to paragraph (2)(A), a statement indicating that, as a material part of the terms and conditions of the grant agreement or contract, the recipient will comply with the provisions of paragraph (1) and the rules and regulations prescribed pursuant to paragraph (2)(A). Any person which desires to be a recipient (within the meaning of paragraph (1)) of funds under subpart C shall, before receiving any such funds, provide to the Corporation any information which the Corporation may require to satisfy itself that such person is affording equal opportunity in employment in accordance with the requirements of this subsection. Determinations made by the Corporation in accordance with the preceding sentence shall be based upon guidelines relating to equal opportunity in employment which shall be established by rule by the Secretary.

"(B) If the Corporation is not satisfied that any such person is affording equal opportunity in employment in accordance with the requirements of this subsection, the Corporation shall notify the Secretary, and the Secretary shall review the matter and make a final determination regarding whether such person is affording equal opportunity in employment. In any case in which the Secretary conducts a review under the preceding sentence, the Corporation shall make funds available to the person involved pursuant to the grant application of such person (if the Corporation would have approved such application but for the finding of the Corporation under this paragraph) pending a final determination of the Secretary upon completion of such review. The Corporation shall monitor the equal employment opportunity practices of each recipient throughout the duration of the grant or contract.

"(C) The provisions of subparagraph (A) and subparagraph (B) shall take effect on the effective date of the rules and regulations prescribed by the Secretary pursuant to paragraph (2)(A).

"(4) Based upon its responsibilities under paragraph (3), the Corporation shall provide an annual report for the preceding fiscal year ending September 30 to the Secretary on or before the 15th day of February of each year. The report shall contain information in the form required by the Secretary. The Corporation shall submit a summary of such report to the President and the Congress as part of the report required in section 396(i). The Corporation shall provide other information in the form which the Secretary may require in order to carry out the functions of the Secretary under this subsection.

"(5) Whenever the Secretary makes a final determination, pursuant to the rules and regulations which the Secretary shall prescribe, that a recipient is not in compliance with paragraph (1), the Secretary shall, within 10 days after such determination, notify the recipient in writing of such determination and request the recipient to secure compliance. Unless the recipient within 120 days after receipt of such written notice—

"(A) demonstrates to the Secretary that the violation has been corrected; or

"(B) enters into a compliance agreement approved by the Secretary;

the Secretary shall direct the Corporation to reduce or suspend any further payments of funds under this part to the recipient and the Corporation shall comply with such directive. Resumption of payments shall take place only when the Secretary certifies to the Corporation that the recipient has entered into a compliance agreement approved by the Secretary. A recipient whose funds have been reduced or suspended under this paragraph may apply at any time to the Secretary for such certification.

"(c) Nothing in this section shall be construed to authorize any department, agency, officer, or employee of the United States to exercise any direction, supervision, or control over the content or distribution of public telecommunications programs and services, or over the curriculum or program of instruction of any educational institution or school system.".

TITLE IV—MISCELLANEOUS PROVISIONS; EFFECTIVE DATE

DEFINITIONS

SEC. 401. Section 397 of the Communications Act of 1934 is amended to read as follows:

"DEFINITIONS

"SEC. 397. For the purposes of this part—

"(1) The term 'construction' (as applied to public telecommunications facilities) means acquisition (including acquisition by lease), installation, and modernization of public telecommunications facilities and planning and preparatory steps incidental to any such acquistion, installation, or modernization.

"(2) The term 'Corporation' means the Corporation for Public Broadcasting authorized to be established in subpart C.

"(3) The term 'interconnection' means the use of microwave equipment, boosters, translators, repeaters, communication space satellites, or other apparatus or equipment for the transmission and distribution of television or radio programs to public telecommunications entities.

"(4) The term 'interconnection system' means any system of interconnection facilities used for the distribution of programs to public telecommunications entities.

"(5) The term 'meeting' means the deliberations of at least the number of members of a governing or advisory body, or any committee thereof, required to take action on behalf of such body or committee where such deliberations determine or result in the joint conduct or disposition of the governing or advisory body's business, or the committee's business, as the case may be, but only to the extent that such deliberations relate to public broadcasting.

"(6) The terms 'noncommercial educational broadcast station' and 'public broadcast station' mean a television or radio broadcast station which—

"(A) under the rules and regulations of the Commission in effect on the effective date of this paragraph, is eligible to be licensed by the Comimssion as a noncommercial educational radio or television broadcast station and which is owned and operated by a public agency or nonprofit private foundation, corporation, or association; or

"(B) is owned and operated by a municipality and which transmits only noncommercial programs for education purposes.

"(7) The term 'noncommercial telecommunications entity' means any enterprise which—

"(A) is owned and operated by a State, a political or special purpose subdivision of a State, a public agency, or a nonprofit private foundation, corporation, or association; and

"(B) has been organized primarily for the purpose of disseminating audio or video noncommercial educational and cultural programs to the public by means other than a primary television or radio broadcast station, including, but not limited to, coaxial cable, optical fiber, broadcast translators, cassettes, discs, microwave, or laser transmission through the atmosphere.

"(8) The term 'nonprofit' (as applied to any foundation, corporation, or association) means a foundation, corporation, or association, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

"(9) The term 'non-Federal financial support' means the total value of cash and the fair market value of property and services (including, to the extent provided in the second sentence of this paragraph, the personal services of volunteers) received—

"(A) as gifts, grants, bequests, donations, or other contributions for the construction or operation of noncommercial educational broadcast stations, or for the production, acquisition, distribution, or dissemination of educational television or radio programs, and related activities, from any source other than (i) the United States or any agency or instrumentality of the United States; or (ii) any public broadcasting entity; or

"(B) as gifts, grants, donations, contributions, or payment from any State, or any educational institution, for the construction or operation of noncommercial educational broadcast stations or for the production, acquisition, distribution, or dissemination of educational television or radio programs, or payments in exchange for services or materials with respect to the provision of educational television or radio programs.

Such term includes the fair market value of personal services of volunteers, as computed

using the valuation standards established by the Corporation and approved by the Comptroller General pursuant to section 396(g)(5), but only with respect to such services provided to public telecommunications entities after such standards are approved by the Comptroller General and only, with respect to such an entity in a fiscal year, to the extent that the value of the services does not exceed 5 percent of the total non-Federal financial support of the entity in such fiscal year.

"(10) The term 'preoperational expenses' means all nonconstruction costs incurred by new telecommunications entities before the date on which they begin providing service to the public, and all nonconstruction costs associated with expansion of existing entities before the date on which such expanded capacity is activated, except that such expenses shall not include any portion of the salaries of any personnel employed by an operating public telecommunications entity.

"(1) The term 'public broadcasting entity' means the Corporation, any licensee or permittee of a public broadcast station, or any nonprofit institution engaged primarily in the production, acquisition, distribution, or dissemination of educational and cultural television or radio programs.

"(12) The term 'public telecommunications entity' means any enterprise which—

"(A) is a public broadcast station or a noncommercial telecommunications entity; and

"(B) disseminates puplic telecommunications services to the public.

"(13) The term 'public telecommunications facilities' means apparatus necessary for production, interconnection, captioning, broadcast, or other distribution of programming, including, but not limited to, studio equipment, cameras, microphones, audio and video storage or reproduction equipment, or both, signal processors and switchers, towers, antennas, transmitters, translators, microwave equipment, mobile equipment, satellite communications equipment, instructional television fixed service equipment, subsidiary communications authorization transmitting and receiving equipment, cable television equipment, video and audio cassettes and discs, optical fiber communications equipment, and other means of transmitting, emitting, storing, and receiving images and sounds, or intelligence, except that such term does not include the buildings to house such apparatus (other than small equipment shelters which are part of satellite earth stations, translators, microwave interconnection facilities, and similar facilities).

"(14) The term 'public telecommunications services' means noncommercial educational and cultural radio and television programs, and related noncommercial instructional or informational material that may be transmitted by means of electronic communications.

"(15) The term 'Secretary' means the Secretary of Commerce when such term is used in subpart A, and the Secretary of Health, Education, and Welfare when such term is used in subpart B, subpart C, and this subpart.

"(16) The term 'State' includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.

"(17) The term 'system of public telecommunications entities' means any combination of public telecommunications entities acting cooperatively to produce, acquire, or distribute programs, or to undertake related activities.".

NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION ANNUAL REPORT

SEC. 402. The National Telecommunications and Information Administration shall submit an annual report to the Congress not later than January 31 of each calendar year, beginning with calendar year 1980. Each such report shall relate to the preceding calendar year and shall contain information on the activities of the Administration with respect to domestic communications, international communications, Federal Government communications, spectrum plans and policies, and any other matters.

EFFECTIVE DATE

SEC. 403. The provisions of this Act, and the amendments made by this Act, shall take effect on the date of the enactment of this Act.

And the Senate agree to the same.

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 12605) to amend the Communications Act of 1934 to extend and improve the provisions of such Act relating to long-term financing for the Corporation for Public Broadcasting and relating to certain grant programs for public telecommunications, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck out all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment which is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

TITLE I—CONSTRUCTION AND PLANNING OF FACILITIES

Authorization

House Bill

The House bill provided that sums appropriated for the facilities program may be used by the Secretary of Commerce to cover the costs of administering the program.

Senate

No provision.

Conference Agreement

The Senate recedes.

Eligibility for grants

House Bill

The House bill authorized States, localities, and nonprofit educational and cultural organizations other than those organized primarily to engage in public broadcasting, to apply for facilities grants.

Senate Amendment

The Senate amendment limited grant eligibility to public broadcast stations, noncommercial telecommunications entities, and systems of public telecommunications entities.

Conference Agreement

The conferees agree to the broader eligibility criteria contained in the House bill, emphasizing however that the facilities acquired with assistance from this program are to be used only for the provision of public telecommunications services. Moreover, entities receiving funds for the construction or acquisition of broadcasting facilities must be eligible for receipt of the necessary permits and licenses from the Federal Communications Commission.

Facilities grant applications—coordination with State agencies

House Bill

No provision.

Senate Amendment

The Senate amendment required applicants for facilities grants to demonstrate that they have coordinated their plans with State educational broadcasting agencies, as appropriate.

Conference Agreement

The House recedes.

Facilities inventory

House Bill

No provision.

Senate Amendment

The Senate amendment required each recipient of assistance to keep a complete and itemized inventory of all public telecommunications facilities under its control.

Conference Agreement

The House recedes.

Transfer of HEW personnel and resources

House Bill

No provision.

Senate Amendment

The Senate amendment provided authority for the transfer to the Secretary of Commerce of personnel, assets, liabilities, contracts, property, records, and other resources employed in connection with the Educational Broadcasting Facilities Program administered by the Secretary of HEW.

Conference Agreement

The House recedes.

Funds for expansion and development of radio facilities

House Bill

The House bill stated that not less than 25 percent of the funds appropriated each year for facilities must be available for the expansion and development of public radio facilities.

Senate Amendment

No provision.

Conference Agreement

The conference agreement replaces the specific statutory percentage contained in the House bill with the words "a substantial amount".

The conferees agree that a priority of this program should be to strengthen public radio through the provision of adequate levels of funding for expansion and development. While the conferees agree that a specific set-aside would remove necessary discretion in the administration of this program, the conferees expect that the funding received by public radio should approximate the per-

centages received during fiscal years 1977 and 1978, or should be greater if eligible radio expansion and development applications so justify. In addition, the conferees expect that the Secretary of Commerce will coordinate activities in this area with those of the Corporation for Public Broadcasting.

Ceiling on grants to States

House Bill

The House bill deleted a provision of existing law limiting the total amount of grants in any one State for any fiscal year to no more than 8½ percent of the appropriation for that fiscal year.

Senate Amendment

The Senate bill maintained such provision.

Conference Agreement

The Senate recedes.

In deleting the specific statutory 8½ percent ceiling, the conferees do not imply that they reject this percentage as an unreasonable measure of equitable geographic distribution of funds. However, the conferees agree to the removal of the statutory ceiling since it may be necessary to exceed a specific ceiling from time to time in order to achieve the program's major objective of expanding the reach of public telecommunications services. The conferees fully expect that there will continue to be an equitable and geographically balanced distribution of funds pursuant to this program.

Inventory of Federal funds by Secretary of Commerce

House Bill

No provision.

Senate Amendment

The Senate amendment directed the Secretary of Commerce to prepare an annual inventory of funds distributed by all Federal departments and agencies to public telecommunications entities.

Conference Agreement

The Senate recedes. The conferees agree that this function is more appropriate for the Corporation to carry out, and have so provided in title III of the report. The conferees expect that the Office of Management and Budget will assist the Corporation in carrying out this function by facilitating cooperation between the Corporation and the Federal agencies involved.

TITLE II—TELECOMMUNICATIONS DEMONSTRATIONS

Extension of authorization period

House Bill

No provision.

Senate Amendment

The Senate amendment extended the authorization for an additional two fiscal years, beyond the one year provided by both the House bill and Senate amendment.

Conference Agreement

The House recedes.

TITLE III—CORPORATION FOR PUBLIC BROADCASTING

Compensation of officers and employees

House Bill

The House bill limited the annual rate of pay for officers and employees of the Corporation to not more than level I of the Executive Schedule.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes with an amendment providing that there would be no reduction in the salaries of current officers and employees.

In adopting the amendment, the conferees agree that it would be unfair to force a reduction in the current salaries of officers named and appointed prior to the date of enactment of this legislation (including the new President of the Corporation who has been named and appointed and will assume his new responsibilities after the date of enactment). The conferees do not intend the amendment to permit any such officer to receive any increase in his current annual rate of pay if such increase would result in a salary level higher than the current Level I salary then in effect.

Purposes and activities of corporation

House Bill

The House bill expanded one of the purposes of the Corporation to include the encouragement of programs of "diversity, creativity, excellence, and innovation".

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

Program proposal evaluation panels

House Bill

The House bill required that, to the maximum extent possible, the Corporation's program support functions be carried out on the basis of advice provided by panels of outside experts.

Senate Amendment

No provision.

Conference Agreement

The conferees agree to the provision in the House bill to require the use by CPB of panels of experts to evaluate program production and acquisition proposals. The conference agreement provides that these panels be utilized by the Corporation "to the extent practicable". The conferees intend that CPB have some discretion in determining when and how such panels are used. However, the conferees expect that CPB will act in good faith and with all deliberate speed to implement this requirement. The conferees require that the panels be composed of experts "representing diverse interests and perspectives" and intend that they be broadly representative, drawing upon talent from all regions of the country.

Library and Archives

House Bill

No provision.

Senate Amendment

The Senate amendment expanded the existing authority of the Corporation to "contribute to" as well as to establish and maintain a library and archives of public telecommunications programs and related materials.

Conference Agreement

The House recedes.

CPB Program Acquisition Authority

House Bill

The House bill prohibited CPB from "acquiring" programs.

Senate Amendment

No provision.

Conference Agreement

The House recedes.

By deleting the prohibition against acquisition of programs by the Corporation, the conferees leave undisturbed the existing program rights acquisition practices of the Corporation. However, in agreeing to the deletion of this prohibition, the conferees do not intend to permit the Corporation to acquire program rights without making the programs available for dissemination to the public by public telecommunications entities. The conferees expect that the appropriate committees of the Congress will monitor the practices of the Corporation in this area to ensure that they are fair and reasonable.

Volunteer services

House Bill

The House bill required the Corporation to study the manner in which personal services of volunteers shauld be included in determining the level of non-federal financial support raised by each station. The bill also deleted the former exclusion of volunteer services from the statutory definition of "non-Federal financial support". The bill also provided that the value of volunteer services for purposes of matching Federal funds may not exceed 5 percent of each station's total non-Federal financial support in each fiscal eyar.

Senate Amendment

No provision.

Conference Agreement

The conferees agree to the House provision with an amendment specifying that the Corporation is to complete its study and receive GAO approval of its proposed valuation standards prior to the inclusion of volunteer services by the stations. The conferees agree that a comprehensive study be completed and valuation standards developed by the Corporation within 180 days of the date of enactment of this legislation. Thereupon, the results of the study and the proposed standards shall be submitted to and reviewed by the Comptroller General. The Comptroller General must approve the proposed standards before any credit for the personal services of volunteers will be allowed. In the event that the Comptroller General disapproves the proposed standards, the Corporation will undertake to address the objections of the Comptroller General and resubmit revised standards until the objections of the Comptroller General have been met. The effective date for the inclusion of personal services of volunteers shall be the date upon which approval by the Comptroller General occurs, and only volunteer services rendered after that date will qualify for inclusion as non-Federal financial support for purposes of the match.

In carrying out its study and development of standards, the Corporation is expected to take ihto account any information developed within the accounting profession relating to donated services among nonprofit organizations.

Planning by the Corporation

House Bill

The House bill provided that the Corporation shall create and update annually a 5-year plan for the development of public television and radio programs and services.

Senate Amendment

The Senate amendment required that the 5-year plan be included in the Corporation's annual report to the Congress.

Conference Agreement

The Senate recedes.

Satellite Interconnection Service

House Bill

The House bill entitled public telecommu nications entities to priority use of interconnection systems supported by Federal funds, and provided that excess capacity on such systems be made available to others, at a charge reflecting the direct cost of distributing their programs to public telecommunications entities. The House bill mandated the Corporation to set terms and conditions for access to such interconnection systems by such other parties.

Senate Amendment

The Senate amendment allowed public telecommunications entities using "satellite" interconnection facilities and services supported by Federal funds to set the terms and conditions governing such use. Public telecommunications entities other than those receiving interconnection facilities or services were afforded reasonable access to such facilities in order to distribute programs to any public telecommunications entity. Any excess capacity remaining after such use was to be made available, at comparable charges, to others for transmitting noncommercial educational and cultural materials to pubic telecommunications entities.

Conference Agreement

The House recedes.

Matching formula

House Bill

The House bill provided a matching formula whereby an appropriation of one Federal dollar is authorized for every two dollars of non-Federal financial support received by public broadcasting entities (up to the level authorized).

Senate Amendment

The Senate amendment provided a similar formula at a ratio of $1 (Federal) to $2.25 (non-Federal).

Conference Agreement

The Senate recedes. The conferees believe that this reduction in the matching requirement will help to alleviate the fund-raising burden on the local stations.

FY 1983 authorization level

House Bill

The House bill provided an authorization ceiling of $220 million for FY 1983.

Senate Amendment

The Senate amendment provided an authorization ceiling of $200 million for FY 1983.

Conference Agreement

The Senate recedes.

Limitation on use of funds appropriated to the corporation

House Bill

The House bill required that the Corporation use appropriated funds "in a prudent and financially responsible manner," and prohibited the use of appropriated funds for the purpose of conducting any reception, or other entertainment, for any government officer or employee.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

Annual CPB grants budget

House Bill

The House bill provided that, is addition to making grants and contracts for the distribution of funds among public telecommunications entities, for program production and acquisition, and for interconnection system facilities and operations, the Corporation may provide grants for management training, engineering and program-related research, and enhancement of instructional broadcasting services. The House bill also provided that a significant portion of CPB's grants budget be allocated to programming, and that a substantial amount be reserved for distribution to independent producers.

In addition, the House bill required the Corporation to take into account the increasing financial needs of radio in determining the amount of funds to be allocated for radio purposes.

Senate Amendment

No provision.

Conference Agreement

The conferees agree to permit the support of a reasonable level of engineering and program-related research through the annual grants budget of the Corporation, rather than exclusively through the Corporation's internal administration budget.

The conferees also agree that significantly higher levels of funds should be allocated to programming at both the national and local levels. The current levels of expenditure by the Corporation for the production and acquisition of programs (17 percent of its funds) is insufficient. By the term "significant portion", the conferees intend that the Corporation should strive to allocate at least one-fourth of its funds to programming by fiscal year 1981.

The conferees also agree that "substantial" amount of the funds allocated for programming by CPB should be reserved for independent producers. In agreeing to the term "substantial amount" for independent producers, it is the conferees' intention to recognize the important contribution independent producers can make in innovative and creative new programming. By "independent producer" the conferees have in mind producers not affiliated with any public telecommunications entity and especially the smaller independent organizations and individuals who, while talented, may not yet have received national recognition. The talents of these producers have not been adequately utilized in the past. While setting aside a specific percentage of funds for this purpose would have removed discretion in the administration of the Corporation's funds, the conferees fully expect the Corporation to take the necessary steps to increase the level of participation previously available to these smaller independent producers.

Open meetings

House Bill

The House bill provided that, as a condition of receiving CPP assistance, the governing boards, committees, and advisory bodies of all public broadcast stations, the Public Broadcasting Service, and National Public Radio must be open to the public under terms and conditions specified in the bill. The bill also provided that closed sessions may be held for specified reasons, provided, however, that if closed meetings are held, the organization must make available to the public a written statement containing an explanation of the reasons for closing the meeting and a list of attendees.

Senate Amendment

The Senate amendment contained a similar open meetings provision which applied to all public broadcasting entities and public telecommunications entities. The Senate amendment did not apply to committees or advisory board meetings, and the exceptions to the open meetings requirement differed in certain respects from those contained in the House bill. The Senate amendment made no provision for a public statement explaining the circumstances of closed meetings.

Conference Agreement

The conferees agree to the House provision with the following changes:

(1) The conferees agree to the Senate provisions regarding the exceptions to the open meetings requirement, but adding the House language regarding commercial or financial information; and

(2) The conferees have modified the House provision pertaining to the public statement regarding closed meetings.

While agreeing that, as a rule, committees of governing boards should hold open meetings, the conferees recognize that, from time to time, emergency situations or the convenience of teleconferencing may make it impracticable to hold an open committee meeting preceded by reasonable notice. In such situations, requiring advance notice to the public for committee meetings would be unreasonable. Although the conferees understand that meetings conducted by telephone cannot be open to the public, the conferees expect that the entities involved will attempt to minimize those instances.

Public examinations of financial reports

House Bill

The House bill required that, as a condition of receipt of CPB assistance, public broadcast stations must maintain for public examination copies of annual financial and audit reports submitted to the Corporation.

Senate Amendment

The Senate amendment required that, as a condition to receipt of assistance, public broadcasting entities and public telecommunications entities maintain for public examination any financial information submitted to the Corporation.

Conference Agreement

The House recedes with an amendment. The conferees agree that the requirements of this provision should apply to all public telecommunications entities, rather than public broadcast stations alone. However, the conferees do not agree to extend this provision to cover "public broadcasting entities".

Community service grant criteria

House Bill

The House bill added 5 new criteria for determining the community service grant for each public television station. The 5 criteria were related to encouraging (1) innovative approaches to reaching new audiences, (2) responsiveness to the community, (3) cost efficiencies, (4) programs to train women and minorities, and (5) the use of volunteers.

Senate Amendment

No provision.

Conference Agreement

The House recedes. In agreeing to remove the criteria contained in the House provision, the conferees recognize that the criteria could be difficult to interpret uniformly as a matter of law in the allocation of funds. However, the conferees believe these criteria to be laudable and desirable goals for the system as a whole to strive to attain.

Community advisory boards

House Bill

The House bill provided that, as a condition of receiving CPB funds, public broadcast stations must establish community advisory boards. To the maximum extent feasible, the membership of the board was to be composed of individuals representative of the communities served by the station. The House bill described the role of the board, emphasizing that it was to be solely advisory in nature.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes with an amendment to replace the provision in the House bill requiring the membership of community advisory boards to reflect their community composition, with a requirement that stations make good faith efforts to achieve a diverse and responsive board.

The conferees agree that in order for public broadcasting to be responsive to community needs, mechanisms for effective public input into planning and decision-making must be improved. The conferees believe that the establishment of community advisory boards should assist the stations in developing programs and policies that address the specialized needs of the communities that they endeavor to serve. While agreeing on the importance of advisory boards as a means of enhancing public participation in public broadcasting, the conferees believe it appropriate that public broadcasting stations exercise a reasonable measure of discretion in the selection of advisory board members. Moreover, the conferees intend that no individual member of the public or representative of any particular organization or group has any legally enforceable right to membership on an advisory board. Nor does the conference agreement entitle anyone to seek, or

any court or government agency to order, a station to take or refrain from taking any action with respect to programming, services, or the policies of a station. The conferees agree that the role of the board is to be solely advisory in nature and this definition of function is especially important in the case of institutional licenses.

The conferees agree that in cases involving statewide public broadcasting systems owned and operated by a State, or State agency or institution, a community advisory board may, but need not, consist of members reflecting statewide needs and interests. In the case of State or local government institutional licensees, the conferees intend that where a conflict regarding the establishment of an advisory board may arise between this provision and State constitutional or statutory law, State law shall prevail.

The conferees agree that this provision does not preclude the stations from establishing and maintaining other types of advisory bodies. Nor does this provision imply that stations with existing advisory boards that comply with this provision must establish new or additional advisory boards.

Compensation of officers and employees of PBS and NPR

House Bill

The House bill limited the annual rate of pay for officers and employees of the Public Broadcasting Service and National Public Radio to not more than level I of the Executive Schedule.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes with an amendment providing that there would be no reduction in the salaries of officers currently holding positions. In adopting the amendment, the conferees agree that it would be unfair to force a reduction in the current salaries of officers named and appointed prior to the date of enactment of this legislation.

In addition, the conferees are concerned about the trend toward too much centralization of control in the public television system. This danger exists because all the elements of a broadcasting network are present in the relationship between the Public Broadcasting Service (PBS) and the public television licensees which are members of this trade association. PBS acts as a central authority that determines, directly or indirectly, not only what programs will be produced and distributed nationally, but also when such programs will be broadcast in various communities around the country, in accordance with national publicity campaigns. Too often, success has been measured by the size of the national audience, regardless of the needs, desires, and viewing habits of the local public television station's audience.

This is in direct contravention of the Public Broadcasting Act of 1967 which provided that "programs of high quality, obtained from diverse sources. . . ." would be "made available to [local] stations who choose to use them at times chosen by the [individual] stations. . . .".

The single, centralized authority of a fourth network perpetuates a "closed system," which inhibits access to program production assistance, national distribution, and local broadcast of programs produced.

Public broadcasting was created to be a true alternative to commercial broadcasting and the Corporation for Public Broadcasting was authorized and directed by Congress to assist in that development. Therefore it is imperative that the system remain vigilant to prevent "creeping networkism."

Financial management and records

House Bill

The House bill required the Corporation, in consultation with GAO, the Financial Accounting Standards Board, and others as appropriate, to develop a uniform system of accounts to be used by all public broadcasting licensees or permittees receiving funds from CPB. The bill required that the accounting system be designed to account fully for all funds received and expended for public broadcasting purposes by the stations. The bill further required any public broadcast licensee receiving CPB funds (1) to keep its books, records, and financial accounts in such form as may be required by CPB; (2) to undergo an annual audit by certified independent auditors; and (3) to furnish annually to CPB a copy of the audit report and other information on financial operations that CPB may require.

Senate Amendment

The Senate amendment contained a similar provision requiring the Comptroller General to adopt, within one year, in consultation with CPB and others as appropriate, uniform accounting principles to be used by all public telecommunications entities receiving funds from CPB. Such principles were to be designed to recognize various organizational differences among such entities and to permit a full accounting for all funds received and expended for public telecommunications purposes.

The Senate amendment also broadened the authority of CPB and the Comptroller General to examine financial records pertaining to the receipt and expenditure of non-Federal as well as Federal funds.

Conference Agreement

The conference agreement requires the Corporation, in consultation with the Comptroller General and others as appropriate, to develop within one year after the enactment of this legislation uniform accounting principles to be used by all public telecommunications entities. In addition, the conference agreement makes clear that the Corporation and the Comptroller General shall have access, for purposes of audit and examination, to any financial records pertaining to the receipt and expenditure of non-Federal as well as Federal funds. The conferees do not intend this provision to have the effect of permitting any governmental interference with program content or selection.

Equal employment opportunity

House Bill

The House bill provided that equal opportunity in employment (including appointments to governing or advisory bodies) shall be afforded to all persons by all public telecommunications entities receiving funds from CPB, and that "no person shall be subjected to discrimination in employment by any such recipient on the grounds of race, color, religion, national origin, or sex". The bill charged the Secretary of HEW with enforcing this provision.

The House bill also required CPB to incorporate into each grant or contract with any public telecommunications entity a statement indicating that the recipient will comply with the bill's provisions pertaining to EEO and the rules and regulations adopted by the Secretary of HEW. Each recipient was directed to provide CPB with information necessary for CPB to satisfy itself that the recipient is in compliance, except that CPB may not withhold funds on this basis unless the Secretary makes a final determination of noncompliance. CPB was required to monitor the equal employment opportunity practices of public broadcast licensees and other public telecommunications entities throughout the duration of each grant or contract.

The House bill further required the Corporation, based upon its information collection and monitoring activities, to provide to the Secretary of HEW an annual report in such form and containing such information as the Secretary may require. CPB also was required to submit a summary of the report to the President and the Congress.

The House bill also provided that, whenever the Secretary makes a final determination that the recipient is not in compliance with these provisions, the Secretary must notify the recipient within 10 days of this finding. Unless the recipient corrects the violation or enters into an approved compliance agreement within 120 days of this notification, the Secretary was required to direct the Corporation to reduce or suspend funds. The Corporation was required to comply with such directives by the Secretary.

Senate Amendment

The Senate amendment contained similar provisions providing a process for EEO enforcement, which applied additionally to public broadcasting entities, and which mandated coordination of reporting requirements between the Secretary of Health, Education, and Welfare and the FCC. The Senate provision contemplated a somewhat different role for the Corporation in assisting the Secretary of HEW in carrying out his or her responsibilities, and somewhat different responsibilities and procedures for CPB and HEW. The Senate provision contained an exemption from procedural requirements for recipients with less than 5 full-time employees. The Senate amendment provided that the EEO provisions did not authorize any Federal interference in program content or distribution or educational curricula.

Conference Agreement

The conferees agree generally to the provisions of the House bill with several modifications. The EEO provisions will apply to the Public Broadcasting Service, National Public Radio, and all public telecommunications entities receiving funds from CPB, but not to the appointment of governing or advisory boards. The Senate provision relating to coordination between the Secretary of HEW and the FCC is also agreed to by the conferees. The conferees also agree not to exempt recipients with less than 5 full-time employees, and to adopt the Senate amendment's provision preventing Federal intrusion into program or curriculum matters.

In agreeing to the Corporation's role in monitoring the EEO practices of recipients, the conferees do not intend that the Corporation in any manner be deemed an agent of the United States. However, the conferees do intend that the Corporation shall place substantial reliance on the guidelines developed by the Secretary of HEW in conducting preliminary reviews of the EEO practices of grant applicants and recipients. Nothing contained in the EEO provisions should be construed as authorizing the Corporation to carry out on-site compliance reviews.

Editorializing and support of political candidates; recording of certain programs

House Bill

The House bill amended section 399 of the Communications Act of 1934 by eliminating that section's prohibition against editorializing and by deleting the requirement that stations keep audio recordings of programs in which issues of public importance are discussed. The House bill maintained the prohibition against support or opposition of political candidates by public broadcast stations.

State Amendment

No provision.

Conference Agreement

The House recedes.

Annual report by National Telecommunications and Information Administration

House Bill

No provision.

Senate Amendment

The Senate amendment required the National Telecommunications and Information

Administration to submit an annual report of its activities to the Congress not later than January 31st of each calendar year.

Conference Agreement

The House recedes.

REPEALING PROVISIONS ESTABLISHING LIMITS ON LAND HELD BY CERTAIN RELIGIOUS CORPORATIONS

Mr. PHILLIP BURTON. Mr. Speaker, I ask unanimous consent for the immediate consideration of the Senate bill (S. 3371) to repeal certain provisions of law establishing limits on the amount of land certain religious corporations may hold in any territory of the United States.

The Clerk read the title of the Senate bill.

Mr. BAUMAN. Mr. Speaker, reserving the right to object, I wonder if the gentleman from California could explain the purpose of the bill.

Mr. PHILLIP BURTON. If the gentleman will yield, some 100 years ago the Congress in its infinite wisdom passed legislation forbidding religious and charitable organizations, including the Church of Jesus Christ the Latter-day Saints, from owning real property valued in excess of $50,000 in any of the territories of the United States. This bill will repeal such statutes which are simply obsolete, and their constitutionality is highly suspect. It does not contravene, however, the terms and conditions of the Northern Mariana Islands Covenant. On behalf of the gentleman from Arizona (Mr. UDALL) I offer this legislation.

Mr. BAUMAN. I thank the gentleman and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 3371

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 1890 of the Revised Statutes of the United States (48 U.S.C. 1480), section 26 of the Act entitled "An Act to amend an Act entitled 'An Act to amend section fifty-three hundred and fifty-two of the Revised Statutes of the United States, in reference to bigamy, and for other purposes' approved March twenty-second, eighteen hundred and eighty-two" (48 U.S.C. 1480a), and the Act of September 22, 1950 (48 U.S.C. 1480b), are hereby repealed.

SEC. 2. This repeal may not be considered or construed as endorsement, support, or permission for any development on or other use of any land in any territory or possession of the United States; nor shall it be evidence of congressional or other intent to confirm title to any lands in said territories or possessions claimed by any association, corporation, or other entity for religious or charitable purposes.

AMENDMENT OFFERED BY MR. PHILLIP BURTON

Mr. PHILLIP BURTON. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. PHILLIP BURTON: After line 7, page 2, insert the following new section:

"SEC. 3. Subsection 3(b) of the Act entitled 'An Act to provide that the Territory of American Samoa be represented by a nonvoting Delegate to the United States House of Representatives, and for other purposes is hereby amended to read as follows: '(b) owe allegiance to the United States;'."

Mr. PHILLIP BURTON (during the reading). Mr. Speaker, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. BAUMAN. Reserving the right to object, Mr. Speaker, I would like to ask the gentleman what the amendment does.

Mr. PHILLIP BURTON. If the gentleman will yield, Mr. Speaker, this amendment requires that any delegate from American Samoa shall owe allegiance to the United States, but thereby permits, in addition to U.S. citizens, U.S. Nationals to qualify as candidates.

Mr. BAUMAN. That is all that it does?

Mr. PHILLIP BURTON. That is correct.

Mr. BAUMAN. Is there any other nongermane provision contained in it?

Mr. PHILLIP BURTON. No, there are no other nongermane provisions.

Mr. BAUMAN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER pro tempore. The question is on the amendment offered by the gentleman from California (Mr. PHILLIP BURTON).

The amendment was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

ANNOUNCEMENT OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The unfinished business is as follows:

Pursuant to clause 3, rule XXVII, and the order of the House of October 4, 1978, the Chair will now put the question on each motion on which further proceedings were postponed in the order in which that motion was entertained.

Votes will be taken in the following order, all by the yeas and nays:

H.R. 9893.
S. 957.
S. 1503.

There will be 15 minutes allowed for the first vote, and the Chair will reduce to 5 minutes the time for any electronic votes after the first such vote in this series.

IRC AMENDMENTS RE INCOME TAX LIMITATIONS FOR THE ELDERLY

The SPEAKER pro tempore. The unfinished business is the question of suspending the rules and passing the bill H.R. 9893, as amended.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Oregon (Mr. ULLMAN) that the House suspend the rules and pass the bill H.R. 9893, as amended, on which the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 388, nays 5, not voting 37, as follows:

[Rollcall No. 900]

Frey	Montgomery	Young, Tex.

The Clerk announced the following pairs:

On this vote:

Mr. McKay and Mr. Krueger for, with Mr. White against.

Until further notice:

Mr. Ammerman with Mr. Quie.
Mrs. Burke of California with Mr. Rudd.
Mr. Chappell with Mr. Hollenbeck.
Mr. Edwards of California with Mr. Hillis.
Mr. Shipley with Mr. Cochran of Mississippi.
Mr. Evans of Colorado with Mr. Lott.
Mr. Hawkins with Mr. Frey.
Mr. Teague with Mr. Badham.
Mr. Moss with Mr. Crane.
Mr. Stark with Mr. Sarasin.
Mr. Tsongas with Mr. Schulze.
Mr. Ireland with Mr. Harrington.
Mr. Miller of California with Mr. Derrick.
Mr. Montgomery with Mr. Meeds.
Mr. Conyers with Mr. Leggett.
Mr. Diggs with Mrs. Pettis.

Mr. WOLFF changed his vote from "nay" to "yea."

Mr. LEHMAN changed his vote from "yea" to "nay."

So (two-thirds having voted in favor thereof), the rules were suspended and the Senate bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

CONFERENCE REPORT ON S. 3151, DEPARTMENT OF JUSTICE APPROPRIATION AUTHORIZATION ACT, FISCAL YEAR 1979

Mr. RODINO submitted the following conference report and statement on the Senate bill (S. 3151) to authorize appropriations for the purpose of carrying out the activities of the Department of Justice for fiscal year 1979, and for other purposes:

CONFERENCE REPORT (H. REPT. NO. 95-1777)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 3151) to authorize appropriations for the purpose of carrying out the activities of the Department of Justice for fiscal year 1979, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the text of he bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment insert the following:

That this Act may be cited as the "Department of Justice Appropriation Authorization Act, Fiscal Year 1979".

SEC. 6. There are hereby authorized to be appropriated for the fiscal year ending September 30, 1979, to carry out the activities of the Department of Justice (including any

bureau, office, board, division, commission, or subdivision thereof), the following amounts:

(1) For General Administration, including hire of passenger motor vehicles and miscellaneous and emergency expenses authorized or approved by the Attorney General, or the Associate Attorney General or the Assistant Attorney General for Administration: $28,966,000.

(2) For General Legal Activities, including miscellaneous and emergency expenses authorized or approved by the Attorney General, or the Deputy Attorney General, or the Associate Attorney General or the Assistant Attorney General for Administration; not to exceed $20,000 for expenses of collecting evidence, to be expended under the direction of the Attorney General and accounted for solely on his certificate; and advance of public moneys under section 3648 of the Revised Statutes (31 U.S.C. 529); $95,481,000.

(3) For the Antitrust Division: $47,080,000.

(4) For United States Attorneys and Marshals, including purchase of firearms and ammunition; lease and acquisition of law enforcement and passenger motor vehicles without regard to the general purchase price limitation for the current fiscal year; supervision of United States prisoners in non-Federal institutions; and bringing to the United States from foreign countries persons charged with crime: $221,736,000.

(5) For Fees and Expenses of Witnesses, including expenses, mileage, compensation and per diems of witnesses in lieu of subsistence, as authorized by law; including advances of public moneys except that no sums authorized to be appropriated by this Act shall be used to pay any witness more than one attendance fee for any one day: $20,144,000.

(6) For Support of United States Prisoners in non-Federal institutions, including necessary clothing and medical aid, payment of rewards, and reimbursements to Saint Elizabeths Hospital for the care and treatment of United States prisoners, at per diem rates as authorized by section 2 of the Act entitled "An Act to authorize certain expenditures from the appropriations of Saint Elizabeths Hospital, and for other purposes", approved August 4, 1947 (24 U.S.C. 168a): $25,100,000.

(7) For the Community Relations Service: $5,353,000.

(8) For the Federal Bureau of Investigation for expenses necessary for the detection and prosecution of crimes against the United States; protection of the person of the President of the United States and the person of the Attorney General; acquisition, collection, classification and preservation of identification and other records and their exchange with, and for the official use of, the duly authorized officials of the Federal Government, of States, cities, and other institutions, such exchange to be subject to cancellation if dissemination is made outside receiving departments or related agencies; and such other investigations regarding official matters under the control of the Department of Justice and the Department of State as may be directed by the Attorney General; including purchase for police-type use without regard to the general purchase price limitation for the current fiscal year and hire of passenger motor vehicles; acquisition, lease, maintenance, and operations of aircraft; firearms and ammunition; payment of rewards; benefits in accordance with those provided under sections 911 (9) through (11) and 957 of the Foreign Service Act of 1946 (22 U.S.C. 1136 (9)–(11) and 22 U.S.C. 1157) under regulations prescribed by the Secretary of State; and not to exceed $70,000 to meet unforeseen emergencies of a confidential character, to be expended under the direction of the Attorney General, and to be accounted for solely on his certificate: $561,341,000.

(9) For the Immigration and Naturalization Service, for payment of expenses not otherwise provided for, necessary for the administration of the laws relating to immigration, naturalization, and alien registration, including advance of cash to aliens for meals and lodging while en route; payment of allowances to aliens, while held in custody under the immigration laws, for work performed; payment of expenses and allowances incurred in tracking lost persons as required by public exigencies in aid of State or local law enforcement agencies where provision for reimbursement by such State and local law enforcement agencies is made; payment of rewards; not to exceed $70,000 to meet unforeseen emergencies of a confidential character, to be expended under the direction of the Attorney General and accounted for solely on his certificate; purchase for police-type use without regard to the general purchase price limitation for the current fiscal year and hire of passenger motor vehicles; acquisition, lease, maintenance, and operation of aircraft; firearms and ammunition and attendance of firearms matches; operation, maintenance, remodeling and repair of buildings, and the purchase of equipment incident thereto; refunds of maintenance bills, immigration fines, and other items properly returnable except deposits of aliens who become public charges and deposits to secure payment of fines and passage money; payment of interpreters and translators who are not citizens of the United States and distribution of citizenship textbooks to aliens without cost to such aliens; acquisition of land as sites for enforcement fence and construction incident to such fence; benefits in accordance with those provided under sections 911 (9) through (11) and 957 of the Foreign Service Act of 1946 (22 U.S.C. 1136(9)–(11) and 22 U.S.C. 1157) under regulations prescribed by the Secretary of State; research related to immigration enforcement which shall remain available until expended: $320,722,000, of which $2,052,000 shall be made available for the investigation and prosecution of denaturalization and deportation cases involving alleged Nazi war criminals.

(10) For the Drug Enforcement Administration to hire and acquire law enforcement and passenger motor vehicles without regard to the general purchase price limitation for the current fiscal year; pay in advance for special tests and studies by contract; pay in advance for expenses arising out of contractual and reimbursements with State and local law enforcement and regulatory agencies while engaged in cooperative enforcement and regulatory activities in accordance with section 503a(2) of the Controlled Substances Act; pay expenses not to exceed $70,000 to meet unforeseen emergencies of a confidential character to be expended under the direction of the Attorney General, and to be accounted for solely on his certificate; pay rewards: pay for publication of technical and informational material in professional and trade journals; purchase chemicals, apparatus, and scientific equipment; pay for necessary accommodations in the District of Columbia for conferences and training activities; acquire, lease, maintain, and operate aircraft; research related to enforcement and drug control to remain available until expended: employ aliens by contract for services abroad; benefits in accordance with those provided under section 911 (9) through (11) and 957 of the Foreign Service Act of 1946 (22 U.S.C. 1136 (9)–(11) and 22 U.S.C. 1157), under regulations prescribed by the Secretary of State, such sums as authorized by section 709(a) of the Controlled Substances Act (21 U.S.C. 904(a)), for the fiscal year ending September 30, 1979, for the activities authorized by the Comprehensive Drug Abuse Prevention and Control Act of 1970.

(11) For the Federal Prison System, $362,662,000, including—

(A) for the administration, operation, and maintenance of Federal penal and correctional institutions, including supervision and support of United States prisoners in non-Federal institutions; purchase of and hire of law enforcement and passenger motor vehicles; compilation of statistics relating to prisoners in Federal penal and correctional institutions; assistance to State and local governments to improve their correctional systems; firearms and ammunition; medals and other awards; payment of rewards; purchase and exchange of farm products and livestock; construction of buildings at prison camps; and acquisition of land as authorized by section 4010 of title 18, United States Code; transfer to the Health Services Administration such amounts as may be necessary, in the discretion of the Attorney General, for the direct expenditures by that Administration for medical relief for inmates of Federal penal and correctional institutions; making such contracts and commitments without regard to fiscal year limitations as provided by section 104 of the Government Control Corporation Act, as may be necessary in carrying out the program set forth in the budget for the current fiscal year for Federal Prison Industries, Incorporated;

(B) for carrying out the provisions of sections 4351 throupgh 4353 of title 18, United States Code, which establish a National Institute of Corrections, to remain available until expended; and

(C) for planning, acquisition of sites and construction of new facilities, and constructing, remodeling, and equipping necessary buildings and facilities at existing penal and correctional institutions, including all necessary expenses incident thereto, by contract or force account, to remain available until expended.

SEC. 3. (a) None of the sums authorized to be appropriated by this Act may be used to pay the compensation of any person employed after the date of the enactment of the Act as an attorney (except foreign counsel employed in special cases) unless such person shall be duly licensed and authorized to practice as an attorney under the laws of a State, territory, or the District of Columbia.

(b) None of the sums authorized to be appropriated by this Act for the Federal Bureau of Investigation shall be used to pay the compensation of any employee in the competitive service.

(c) None of the additional sums authorized to be appropriated by this Act for criminal investigations and management direction shall be reprogrammed to the Domestic Terrorism Intelligence Program.

SEC. 4. (a) Sums authorized to be appropriated by this Act which are available for expenses of attendance at meetings shall be expended for such purposes in accordance with regulations prescribed by the Attorney General.

(b) Sums authorized to be appropriated by this Act may be used for the purchase of insurance of motor vehicles operated in official government business in foreign countries.

(c) Sums authorized to be appropriated by this Act for salaries and expenses shall be available for services as authorized by section 3109 of title 5 of the United States Code.

(d) The labor of United States prisoners may be used for work performed with sums authorized to be appropriated by section 2 (11)(C).

(e) Sums authorized to be appropriated by this Act to the Department of Justice may be used for official reception and representation expenses in accordance with distributions, procedures, and regulations established by the Attorney General.

(f) Sums authorized to be appropriated by

this Act may be used for (1) expenses of primary and secondary schooling for dependents of personnel stationed outside the continental United States at cost not in excess of those authorized by the Department of Defense for the same area, when it is determined by the Attorney General that schools available in the locality are unable to provide adequately for the education of such dependents, and (2) transportation of those dependents between their place of residence and schools serving the area which those dependents would normally attend when the Attorney General, under such regulations as he may prescribe, determines that such schools are not accessible by public means of transportation.

(g) There are authorized to be appropriated such sums as may be necessary for increases in salary, pay, retirement, and other employee benefits authorized by law, and for other nondiscretionary costs.

SEC. 5. Section 1001(a) of the Civil Rights Act of 1964 (42 U.S.C. 2000g) is amended by striking out the last sentence.

SEC. 6. (a) The Attorney General shall perform periodic evaluations of the overall efficiency and effectiveness of the Department of Justice programs and any supporting activities funded by appropriations authorized by this Act and annual specific program evaluations of selected subordinate organization's programs, as determined by priorities set either by the Congress or the Attorney General.

(b) The evaluations shall be performed by the appropriate Department level program review staff.

(c) Subordinate Department of Justice organizations and their officials shall provide all necessary assistance and cooperation to the Department level program review staff in the conduct of the evaluation, including full access to all information, documentation, and cognizant personnel, as required.

(d) Completed evaluations shall be made available to the Committees on the Judiciary of the Senate and House of Representatives.

SEC. 7. During the fiscal year for which appropriations are authorized by this Act, each organization of the Department of Justice, through the appropriate office within the Department of Justice, shall notify in writing the Committees on the Judiciary, of the House of Representatives and the Senate, and other appropriate committees a minimum of fifteen days prior to—

(1) reprogramming of funds in excess of $150,000 or 10 percent, whichever is less, bebetween the programs within the offices, divisions, and boards as defined in the Department of Justice's program structure submitted to the Committees on the Judiciary of the Senate and House of Representatives;

(2) reprogramming of funds in excess of $500,000 or 2 percent, whichever is less, between programs within the Bureaus as defined in the Department of Justice's program structure submitted to the Committees on the Judiciary of the Senate and House of Representatives:

(3) any reprogramming action which involves less than the amounts specified in paragraphs (1) and (2) if such action would have the effect of significant program changes and committing substantive program funding requirements in future years;

(4) increasing personnel or fund by any means for any project or program for which funds or other resources have been restricted;

(5) creation of new programs or significant augmentation of existing programs;

(6) reorganization of offices or programs; and

(7) significant relocation of offices or employees.

Section 4002 of title 18, United States Code, is amended by striking out "Director of the Bureau of Prisons" and inserting "Attorney General" in lieu thereof.

SEC. 9. The Attorney General shall consult with the Secretary of Defense in order to develop a plan to assure that such suitable facilities as the Department of Defense operates which are not in active use shall be made available for operation by the Department of Justice for the confinement of United States prisoners. Such plan shall provide for the return to the management of the Department of Defense of any such facility upon a finding by the Secretary of Defense that such return is necessary to the operation of the Department.

SEC. 10. (a) On or before September 1, 1979, the Attorney General shall submit to the Congress—

(1) a plan to assure the closure of the United States Penitentiary on McNeil Island, Steilacoom, Washington, on or before January 1, 1982; and

(2) a report on the status of the Federal Prison Industries.

(b) The report made under this section shall include a long-range plan for the improvement of meaningful employment training, and the methods which could be undertaken to employ a greater number of United States prisoners in the program. Such report may include recommendations for legislation.

SEC. 11. Notwithstanding the second of the paragraphs relating to salaries and expenses of the Federal Bureau of Investigation in the Department of Justice Appropriation Act, 1973 (86 Stat. 1115), sums authorized to be appropriated by this Act for such salaries and expenses may be used for the purposes described in such paragraph until but not later than the end of the fiscal year ending September 30, 1979.

SEC. 12. In addition to any other sums authorized by this Act to be appropriated for the activities of the Federal Prison System, there are authorized to be appropriated $1,000,000 to bring the facilities of the Federal Prison System into compliance with fire safety standards of the localities in which such facilities are located. Not later than one hundred and eighty days after the appropriation of sums authorized for this purpose, the Federal Bureau of Prisons shall report to the Congress the extent to which such facilities have complied with such standards. Such report shall describe the purposes for which sums authorized to be appropriated have been or are to be expended.

SEC. 13. (a) The Attorney General shall, during the fiscal year for which appropriations are authorized by this Act, transmit a report to each House of the Congress in any case in which the Attorney General—

(1) establishes a policy to refrain from the enforcement of any provision of law enacted by the Congress, the enforcement of which is the responsibility of the Department of Justice, because of the position of the Department of Justice that such provision of law is not constitutional; or

(2) determines that the Department of Justice will contest, or will refrain from defending, any provision of law enacted by the Congress in any proceeding before any court of the United States, or in any administrative or other proceeding, because of the position of the Department of Justice that such provision of law is not constitutional

(b) Any report required in subsection (a) shall be transmitted not later than thirty days after the Attorney General establishes the policy specified in subsection (a)(1) or makes the determination specified in subsection (a)(2). Each such report shall—

(1) specify the provision of law involved;

(2) include a detailed statement of the reasons for the position of the Department of Justice that such provision of law is not constitutional; and

(3) in the case of a determination specified in subsection (a)(2), indicate the nature of the judicial, administrative, or other proceeding involved.

(c) If, during the fiscal year for which appropriations are authorized by this Act, the Attorney General determines that the Department of Justice will contest, or will refrain from defending, any provision of law enacted by the Congress in any proceeding before any court of the United States, or in any administrative or other proceeding, because of the position of the Department of Justice that such provision of law is not constitutional, then the representative of the Department of Justice participating in such proceeding shall make a declaration in such proceeding that such position of the Department of Justice regarding the constitutionality of the provision of law involved constitutes the position of the executive branch of the United States with respect to such matter.

SEC. 14. Using sums authorized to be appropriated by this Act, the Federal Bureau of Investigation shall in its Uniform Crime reports classify arson as a Part I offense.

SEC. 15. No part of any sums authorized to be appropriated by this Act may be used for the purpose of transferring any border control activities of the Immigration and Naturalization Service (including patrol and inspections) to any other agency or department of the Federal Government.

SEC. 16. The Attorney General, in consultation with the Congress, shall develop special eligibility criteria under the current United States parole program for Indochina Refugee which would enable a larger number of refugees from Cambodia to qualify for admission to the United States.

SEC. 17. The Attorney General shall undertake a study of the extent to which complaints of violations of Federal criminal laws are not prosecuted and shall make recommendations for improving the percentage of such complaints which are prosecuted by the Department. The study shall also analyze the cases that have not been prosecuted and make recommendations to assure that the decisions not to prosecute are in accordance with national policy. The study and recommendations shall be provided to the Committees on the Judiciary of the Senate and House of Representatives not later than October 1, 1979.

SEC. 18. (a) With respect to any undercover investigative operation of the Federal Bureau of Investigation which is necessary for the detection and prosecution of crimes against the United States or for the collection of foreign intelligence or counterintelligence—

(1) sums authorized to be appropriated for the Federal Bureau of Investigation by this Act may be used for leasing space within the United States, the District of Columbia and the territories and possessions of the United States without regard to section 3679(a) of the Revised Statutes (31 U.S.C. 665(a)), section 3732(a) of the Revised Statutes (41 U.S.C. 11(a)), section 305 of the Act of June 30, 1949 (63 Stat. 396; 41 U.S.C. 255), the third undesignated paragraph under the heading "MISCELLANEOUS" of the Act of March 3, 1877 (19 Stat. 370; 40 U.S.C. 34), section 3648 of the Revised Statutes (31 U.S.C. 529), section 3741 of the Revised Statutes (41 U.S.C. 22), and subsections (a) and (c) of section 304 of the Federal Property and Administrative Services Act of 1949 (63 Stat. 395; 41 U.S.C. 254 (a) and (c));

(2) sums authorized to be appropriated for the Federal Bureau of Investigation by this Act, and the proceeds from such undercover operation, may be deposited in banks or other financial institutions without regard to the provisions of section 648 of title 18, United States Code, and section 3639 of the Revised Statutes (31 U.S.C. 521); and

(3) the proceeds from such undercover operation may be used to offset necessary and reasonable expenses incurred in such operation without regard to the provisions of sec-

tion 3617 of the Revised Statutes (31 U.S.C. 484);

only upon the written certification of the Director of the Federal Bureau of Investigation and the Attorney General (or, if designated by the Attorney General, the Deputy Attorney General) that any action authorized by paragraph (1), (2), or (3) of this subsection is necessary for the conduct of such undercover operation.

(b) As soon as the proceeds from an undercover investigative operation with respect to which on action is authorized and carried out under paragraphs (2) and (3) are no longer necessary for the conduct of such operation, such proceeds or the balance of such proceeds remaining at the time shall be deposited into the Treasury of the United States as miscellaneous receipts.

SEC. 19. The Federal Bureau of Investigation shall provide a written report to a Member of Congress on any investigation conducted based on a threat on the Member's life under section 351 of title 18 of the United States Code.

SEC. 20. (a) The Attorney General shall take such steps as may be necessary to acquire or to construct, in Los Angeles County, California, a Federal detention center. Such center shall be capable of accommodating not less than five hundred Federal detainees.

(b) In addition to any other sums that are authorized to be appropriated by this Act, there are authorized to be appropriated $2,600,000 for planning and site acquisition for the fiscal year ending September 30, 1979, to carry out this section.

SEC. 21. (a) The Act entitled "An Act to authorize membership on behalf of the United States in the International Criminal Police Commission, approved June 10, 1938 (52 Stat. 640; 22 U.S.C. 236a) is amended by striking out the last two sentences and inserting in lieu thereof the following: "All dues and expenses to be paid for the membership of the United States shall be paid out of sums authorized and appropriated for the Department of Justice.".

(b) The Attorney General is authorized to pay to the International Criminal Police organization the unpaid balance of the dues for calendar years prior to 1978 and such sums as may be necessary are authorized to be appropriated to carry out the provisions of this subsection.

SEC. 22. Section 5108(c)(8) of title 5, United States Code, is amended by striking out "32" and inserting in lieu thereof "45".

And the House agree to the same.

That the House recede from its amendment to the title of the bill.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 3151) to authorize aprpopriations for the purpose of carrying out the activities of the Department of Justice for fiscal year 1979, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The House amendment to the text of the bill struck out all of the Senate bill after the enacting clause and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House to the text of the bill with an amendment which is a substitute for the Senate bill and the House amendment. The differences between the Senate bill, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

As to dollar amounts, both houses were in agreement on the amount of sums authorized to be appropriated for General Administration, Fees and Expenses of Witnesses, Support of United States Prisoners and Community Relations Services, and thus not committed to the conference committee.

As to those items in dispute committed to conference, the resolution of the items is as follows:

General Legal Activities.—The conferees agreed to a compromise figure of $95,481,000, including an additional $3.31 million for the Criminal Division and $2.266 million for the Civil Rights Division above the President's request, as explained in the Senate Report 95–911.

Antitrust Division.—The House recedes to the Senate figure of $47,080,000, an increase of $703,000 above the President's request, to supplement the division's international oil investigations.

U.S. Attorneys and Marshals.—The conferees agreed to a total of $221,736,000, which is an increase of $25,000,000 above the House figure and which will permit a supplemental appropriation to cover approximately 5 months of expense for additional assistant U.S. attorneys and marshals required to handle increased court activities generated by the new judgeships created by the Congress.

The managers agree that the funds budgeted and authorized to be appropriated for the Witness Security Program of the Marshal's Service are inadequate to allow the service to perform its duties or fulfill its commitments in that field. In light of this finding, the managers feel that the Department should submit a supplemental request for an authorization and appropriation for an additional $1.6 million to bring the services funding up to the level suggested by Senate Report 95–911.

Federal Bureau of Investigation.—The conferees agreed to $561,341,000.

Immigration and Naturalization Service.—The conferees agreed to $320,722,000, by reason of the Senate receding to the House position.

The conferees have agreed to the House authorization level of $320,722,000 for the Immigration and Naturalization Service (INS), notwithstanding the lower appropriation level ($299,350,000), previously approved by the Congress in the State, Justice, Commerce, Judiciary and Related Agencies Appropriation Bill (Public Law 95–431). The conferees believe that this increased authorization level is urgently needed to improve INS' efforts to control the illegal alien problem, as well as to reduce the adjudication and naturalization backlogs in the various INS district offices around the country. The conferees are hopeful that the Administration will submit a request for a supplemental appropriation to provide the additional positions that are authorized herein.

Federal Prison System—The conferees agreed to $362,662,000 by reason of the Senate receding to the House position, which was the lowest figure committed to the conference. This figure includes $160,000 to increase support for legal services for inmates as explained in House Report (95–1148).

As to Section 12 of the substitute, the Senate receded and concurred in the House position which authorized to be appropriated $1,000,000 for fire prevention in the Federal Prison System.

As to Sections 13, 14, 15, 16, 17, 18 and 19 of the substitute, the Senate receded and concurred in the House position. In Section 17 the date for the report was changed from March 31, 1979 to October 1, 1979.

As to Section 20 the Senator receded and concurred in the substance of the House amendment, after the conferees had agreed to limit the authorization for appropriations to "$2,600,000 for planning and site acquisition" and after a technical amendment in Sec. 20(a).

As to Section 21 the House receded and concurred in the Senate position authorizing continued participation in Interpol with the provision that all dues and expenses for membership be paid out of sums appropriated to the Department of Justice.

As to Section 22 the conferees agreed that the total number of supergrade positions authorized under Section 5108(c) of title 5 be 45 positions in lieu of the 92 positions contained in the Senate bill. It is the conferees' intent that the additional 13 supergrade positions authorized in section 24 of the substitute be used for attorney positions and not, by substitution or otherwise, for administrative positions.

By vote of the conferees the Senate refused to concur in section 28 and section 32 of the House amendment to S. 3151 and the House thereupon receded from its provisions.

The Senate Conferees recede and concur in the House addition of the phrase "appropriate committees" to section 7 of the bill. In addition, the Conferees concur with the language of Senate Report 95–911 which would provide adequate resources to the program review activities of the Office of Management and Finance to fully carry out the requirements of section 6 and 7 of the bill.

The Special Prosecutor provision in the Senate bill was deleted because the subject was included in the Conference Report on S. 555.

The House receded to the Senate provision which amends the Civil Rights Act of 1964 to remove the $75 limitation on Community Relations Service consultants.

CONFERENCE REPORT ON H.R. 12050, TUITION TAX CREDIT ACT OF 1978

The SPEAKER pro tempore. The unfinished business is the motion offered by the gentleman from Ohio (Mr. GRADISON) to recommit the conference report on the bill H.R. 12050 to the committee of conference with instructions, on which the yeas and nays are ordered.

The Clerk will rereport the motion to recommit.

The Clerk read as follows:

Mr. GRADISON moves to recommit the conference report on the bill (H.R. 12050) to the committee of conference with instructions to the managers on the part of the House to insist on those provisions of the House bill which provide that tuition paid to elementary or secondary schools is eligible for the tax credit and to insist on the provision of the House bill which sets forth the maximum amount of the credit for tuition paid to elementary or secondary schools.

PARLIAMENTARY INQUIRY

Mr. WAGGONNER. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state it.

Mr. WAGGONNER. Mr. Speaker, I make this inquiry simply because the level of noise is such in the House that I am not quite sure we all understand exactly what we are being required to vote on. Am I correct that this motion to recommit with instructions and that an "aye" vote will recommit the conference report and a "no" vote is a vote for adoption of the conference report?

The SPEAKER pro tempore. No; that is not so. It is the Chair's belief that an "aye' vote will sustain the position of the House and insist upon the House position. An "aye" vote will recommit to conference, but a "no' vote will be for adoption.

Mr. WAGGONNER. An "aye" vote will recommit the conference report.

The SPEAKER pro tempore. Yes.

The vote was taken by electronic device, and there were—yeas 207, nays 185, not voting 38, as follows:

The Clerk announced the following pairs:

On this vote:

Mr. Harrington for, with Mr. Chappell against.

Mr. Hollenbeck for, with Mr. White against.

Mr. Crane for, with Mrs. Burke of California against.

Mr. Rudd for, with Mr. Krueger against.

Until further notice:

Mr. Montgomery with Mr. Madigan.

Mr. Ammerman with Mr. Quie.

Mr. AuCoin with Mr. Sarasin.

Mr. McKay with Mr. Schulze.

Mr. Mitchell of Maryland with Mr. Hillis.

Mr. Edwards of California with Mr. Lott.

Mr. Meeds with Mr. Lundine.

Mr. Evans of Colorado with Mr. Badham.

Mr. Miller of California with Mr. Cochran of Mississippi.

Mr. Reuss with Mr. Frey.

Mr. Teague with Mr. Moss.

Mr. Shipley with Mr. Jacobs.

Mr. Ireland with Mr. Leggett.

Mr. Bonker with Mr. Diggs.

Mr. PURSELL changed his vote from "yea" to "nay."

So the motion to recommit was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERMISSION TO FILE CONFERENCE REPORT ON H.R. 12467, REHABILITATION, COMPREHENSIVE SERVICES, AND DEVELOPMENTAL DISABILITIES AMENDMENTS OF 1978

Mr. BRADEMAS. Mr. Speaker, I ask unanimous consent that the managers may have until midnight tonight to file a conference report on the bill (H.R. 12467) to amend the Rehabilitation Act of 1973 to extend certain programs established in such Act, to establish a community service employment program for handicapped individuals, to provide for independent living rehabilitation services for the severely handicapped, and for other purposes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Indiana?

There was no objection.

CONFERENCE REPORT ON H.R. 12931, FOREIGN ASSISTANCE AND RELATED PROGRAMS APPROPRIATIONS ACT, 1979

Mr. LONG of Maryland. Mr. Speaker, I call up the conference report on the bill (H.R. 12931) making appropriations for foreign assistance and related programs for the fiscal year ending September 30, 1979, and for other purposes.

The Clerk read the title of the bill.

(For conference report and statement, see proceedings of the House of October 10, 1978.

The SPEAKER pro tempore. Under the rule previously adopted, the conference report is considered as having been read.

The gentleman from Maryland (Mr. LONG) will be recognized for 30 minutes, and the gentleman from Florida (Mr. YOUNG) will be recognized for 30 minutes.

The Chair recognizes the gentleman from Maryland (Mr. LONG).

Mr. LONG of Maryland. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the conferees concluded action on the foreign assistance appropriation bill for fiscal 1979 only a few short days ago. We are returning a bill very close to the original House version. In fact, discounting those items not considered by the House, the bill is less than one-half of 1 percent above the House passed version. The bill, as agreed upon in conference, is $1.2 billion below President Carter's request.

I should take this opportunity to commend the ranking member, BILL YOUNG of Florida, for his valuable contribution during the recent House-Senate conference and indeed, throughout the year. Additionally, the rest of the subcommittee members, DAVID OBEY, CHARLES WILSON, SIDNEY YATES, YVONNE BURKE, MATT MCHUGH, ED ROYBAL, LOUIS STOKES, SILVIO CONTE, and VIRGINIA SMITH have all worked tirelessly to fashion a foreign aid bill acceptable to the majority of the Members of the House.

The President's veto of the public works appropriation bill and other developments have not added to the popularity of this bill; and indeed the ranking member, BILL YOUNG of Florida and I have done our best to make it more responsible. We have fought this battle of the fiscal year 1979 foreign assistance bill for over 9 months. Our efforts have, we are told, forced those who administer our foreign aid programs to exercise a little more prudence and more consideration for the views of the Congress and the American people. At this time, only hours from sine die adjournment, we must look at the positive aspects of the foreign assistance bill and consider our alternatives.

Earlier in this decade we all witnessed a devastating war in the Middle East, which led to an embargo on oil from that region that doubled and tripled oil and gasoline prices. In order to maintain peace in the Middle East, the administration has felt it is necessary to make an increased investment of U.S. economic and military aid in that part of the world. The foreign assistance bill is the vehicle for providing such aid. In fiscal 1979 alone this bill contains $2.8 billion for economic and military aid to the three confrontation states and Israel.

Egypt: $750 million in economic assistance;

Jordan: $93 million in economic assistance and additional funds for military assistance;

Syria: $90 million in economic assistance; and

Israel: $850 million in economic aid and $1 billion in military assistance.

Just several weeks ago, at Camp David, there was hammered out the structure for a Middle East settlement which, if completed, could lead to a lasting peace in that part of the world. The $2.8 billion contained in this bill is critical to this structure, without which there could erupt a war that could engulf us all. An aye vote for this conference report is an aye vote for furthering peace in the Middle East and world economic stability.

This bill contains funds for other important programs. Last year Colombia reaped over $600 million from the export of cocaine and marihuana, most of it destined for the United States, where it goes out on the streets in Baltimore, New York, Chicago, and Los Angeles. This bill contains $38.5 million for international narcotics control, to help to stem the tide of heroin from Mexico and elsewhere.

Many of us have constituents interested in at least one program eligible for funding under the American schools and hospitals abroad program. For one such institution in the Middle East, I received correspondence from over 20 of my colleagues. This bill contains $25 million for this program.

Africa is torn with political and economic upheaval. The United States is trying to get a smooth transition to majority rule in Rhodesia. The United States is part of a multinational consortium to lead the Sahel region out of drought and despair and this bill contains $75 million for the Sahel development program. The United States is a major contributor to humanitarian and refugee assistance in Africa and in this bill are $45,000,000 in economic support funds, $20,000,000 in additional refugee assistance, with millions more in development assistance.

Earlier this year the Congress voted to lift certain sanctions with regard to Turkey, a move which called for funds critical to the peaceful resolution of the Greece-Turkey-Cyprus situation. Accordingly, this bill contains funds for Greece and Turkey, and $15 million for refugees on Cyprus.

The Congress has again and again voiced concerns about U.S. subsidies to foreign producers of commodities in surplus on the world market and in competition with U.S. producers, in many cases injuring U.S. firms and workers out of all proportion to the benefits given to the countries said to be aided; indeed a case can be made that the export of these industries hurts both the United States and the developing countries which must further subsidize the industries at a cost in funds for education, health, food and housing. The bill contains a general provision, basically the same as passed by the House in August, which provides a vehicle to protect U.S. procedures of such surplus commodities. This bill also contains a prohibition on direct U.S. bilateral assistance to Vietnam, Cambodia, Laos, Mozambique, Angola, and Cuba.

Mr. Speaker, the bill contains funding for programs critical to every one of us. If the foreign aid program is forced to operate under a continuing resolution, many critical programs would not be funded and U.S. foreign policy objectives would be greatly impaired.

Mr. Speaker, I insert the following table which lists the amounts contained in the conference agreement.

COMPARATIVE STATEMENT OF NEW BUDGET AUTHORITY

[Fiscal years]

	New budget authority					Conference compared with—

Mr. ASHBROOK. Mr. Speaker, will my colleague yield?

Mr. LONG of Maryland. I will be happy to yield to the gentleman from Ohio.

Mr. ASHBROOK. I understand that Sahel project is a water project, is it not?

Mr. LONG of Maryland. Well, it will contain some water related projects.

Mr. ASHBROOK. Sort of a public works water project, as I recall.

Mr. LONG of Maryland. I do not think at this point that is the main part of it. They are presently in the planning stage.

Mr. ASHBROOK. But it will one day be a public works water project?

Mr. LONG of Maryland. I imagine a good deal of it may be.

Mr. PEASE. Mr. Speaker, will the gentleman yield?

Mr. LONG of Maryland. I yield to the gentleman from Ohio.

Mr. PEASE. Mr. Speaker, I think it is just worth remembering in the House that in the Sahel there is a water project, and that is the area where 100,000 people died of starvation and malnutrition just a few years ago because of water shortages.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I have some good news and some bad news tonight. The good news is that because of a cold and a sore throat I am not going to treat the Members to my usual display of enthusiasm on the subject of foreign aid.

The bad news is that this conference report is not exactly as it was presented

just a few minutes ago. It was suggested that this conference report is a $7.1 billion bill. The only problem with that figure is that it leaves out the $1.831 billion that is in there for the Wittaveen Facility of the International Monetary Fund. So we come here tonight with a conference report that is not just slightly over $7 billion. We have a conference report tonight that is just slightly over $9 billion, which is nearly $2 billion larger than when it left the House of Representatives.

Also a very good restriction that was placed in by the House providing that none of the American taxpayers' dollars could be used for projects in Vietnam, which happens to be a water project by the way, that restriction was stricken out, so now there is no language in the conference report to place any kind of restriction on the indirect use of American tax dollars for Vietnam.

The House spoke rather strongly on the question of $90 million for Syria, and we struck it from the bill with a very large vote. The conference committee put the $90 million for Syria back in the bill.

Today, tonight, as of this moment, apparently the Syrians are trying to keep some kind of cease-fire in order in Lebanon, but last week they were not. Last week they were killing.

I would predict—and Members mark the date of October 12—I think maybe one reason why the Syrians have tried to be the good kids on the block this week is because they know this $90 million could be in jeopardy, but I would be willing to wager that not too many days after October 12 this cease-fire that exists in Lebanon tonight will be a full-bore, full-speed-ahead war between Syrian troops and the Christians in Lebanon.

On the question of a water project in Vietnam, as Members know, the World Bank—and we are the largest contributor to the World Bank—through IDA, which is the soft loan window, has already approved a soft loan of $60 million to Vietnam with no interest and delayed repayment requirement, for a water project, much like some of the water projects which were vetoed last week.

As a matter of fact, billions of dollars in this bill we are considering tonight is for water projects in many places of the world other than the United States.

If the need for water projects is so important, as our colleague, the gentleman from Ohio (Mr. PEASE) said, in the Sahel area, it would seem to me that water projects would also be important in some of the arid areas of the United States.

Let me give you an idea of the kind of water projects we are talking about.

Through the International Development Association, through IDA of the World Bank, there is a $22 million water project for Afghanistan.

Again, through the World Bank there is a $14.5 million project for Cameroon as well as a $14.5 million project through IDA.

In India there is an IDA project of $126 million.

In Indonesia there is, through the World Bank, a water project for $140 million.

In Pakistan, through IDA, there is a water project of $35 million.

In the Philippines there is a World Bank water project of $150 million.

In Colombia there is a World Bank water project of $126 million.

In Guatemala there is a World Bank water project of $72 million.

Again, water management dams.

Yugoslavia, through the World Bank there is a project of $73 million for dams.

And the list goes on and on and on.

Mr. WATKINS. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Florida. I yield to the gentleman from Oklahoma.

Mr. WATKINS. Mr. Speaker, I would ask the gentleman how many dollars there are in this bill for water projects?

Mr. YOUNG of Florida. That is pretty hard to pin down because water projects are not line items. You see, most of the water projects that I have mentioned so far will be handled through the World Bank and IDA and some of the other banks. The gentleman knows, just as do all Members of this House, that once our American tax dollars get in the hands of those supersovereign international money changers we lose all control of them. They might all go for water projects, for all I know, in the coming years.

Mr. WATKINS. If the gentleman will yield further, it is my understanding that there are approximately $2.5 billion or more to be used as loans for water projects yet such projects have been turned down in this country of ours. I think this is quite inflationary, I do not know whether that is the gentleman's opinion or not.

Mr. YOUNG of Florida. I believe it is. I think that $2.5 billion is a fairly close estimate. Also, you have to include in addition to that estimate the Sahel water projects.

Let me call your attention to the Sahel development program which, by the way, is in addition to so many other projects that we have going in the Sahel. The Sahel development process is estimated to be a 10-year program of $10 billion. Now the U.S. share of that $10 billion is going to be $2 billion. That is for water management projects in the Sahel area.

The experts have told us time and time again that we are not able to roll back the desert, that we are not able to make the Sahel a fertile area, but, nevertheless, we are, this year, making a large downpayment on an overall program that is going to run at least 10 years in the Sahel.

I really wonder why in the world the American taxpayer is being required to spend tax dollars for these inflationary types of water projects all around the world when we are not allowed to spend them for similar important projects right here at home.

Mrs. FENWICK. Mr. Speaker will the gentleman yield?

Mr. YOUNG of Florida. I yield to the gentlewoman from New Jersey.

Mrs. FENWICK. I think there is one item that perhaps we do not think of: that money comes back to us. The fact is that we have $40 billion in trade with the underdeveloped countries, and that 6 million jobs in America depend on the sales to those countries. All of Europe does not buy what these developing countries buy. We have got to increase their capacity to buy our products, and those are the products they want to buy.

Mr. YOUNG of Florida. I appreciate the remarks of the gentlewoman from New Jersey (Mrs. FENWICK), but just let me say this, I hear that argument all the time, but the strange thing is, when we get right down to the true, hard, facts, each year as our foreign aid assistance grows larger, the value of the dollar drops and our balance-of-trade deficit increases. So there must be something wrong with that logic. It just does not work out somehow.

Mr. JOHN T. MYERS. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Florida. I yield to the gentleman from Indiana.

Mr. JOHN T. MYERS. Mr. Speaker, I thank the gentleman for yielding, and in response to the gentlewoman from New Jersey, does she not believe that some of our own people deserve something also? Such as the farmers who have been flooded out and who do not have money to buy tires, equipment, tractors. If they could raise a crop, they can buy some of these things? Also what about some of our people who are running out of water?

The University of Massachusetts is going to close because of water shortage.

Is not the gentlewoman from New Jersey (Mrs. FENWICK) concerned about people in this country? Why the bleeding heart for somebody overseas who never returns a dollar back? Every one of the water projects built in this country has returned an average of $7 for every $1 which has been invested.

Name one of those overseas which has returned something anywhere nearly close to that.

Mrs. FENWICK. We are getting $40 billion back already.

Mr. JOHN T. MYERS. Let us think of the losses we have had in this country, including the lives lost.

Mr. PEASE. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Florida. I yield to the gentleman from Ohio.

Mr. PEASE. I think it is pointless, Mr. Speaker, to continue this debate much longer. However, I would point out that in the Sahel the average per capita income is $90 per year.

I think that circumstance is a little different from what we have in some of our areas here in the United States.

Mr. YOUNG of Florida. Mr. Speaker, I thank the gentleman for his comment.

I would like to point out to our colleagues that if anyone thought this was the only program we were going to provide funds for in the Sahel, maybe there would be a stronger argument. However, let me tell the Members where else the American taxpayer is providing dollars for Sahel programs. There are funds and personnel coming into the Sahel from AID, the Peace Corps, the International Development Association, the World Bank, the African Development Bank,

the United Nations Development Program, the United Nations Development Fund, UNICEF, the U.N. Food and Agriculture Organization, World Health Organization, World Meteorological Organization, International Labor Organization, Organization for Economic Cooperation and Development, and some 10 to 15 private, voluntary organizations. We make substantial contributions to all of them.

Mr. SIMON. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Florida. I yield to the gentleman from Illinois.

Mr. SIMON. Mr. Speaker, I think it should be pointed out that as we have provided assistance to the developing nations, as the gentlewoman from New Jersey pointed out, today our greatest exports are not to Western Europe; they are not to Japan. Our greatest export market for creating American jobs and selling American food is in the developing nations; and that will continue as long as we are enlightened.

Mr. BAUMAN. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Florida. I am happy to yield to the gentleman from Maryland.

Mr. BAUMAN. Mr. Speaker, I thank the gentleman for yielding.

I want to nominate this subcommittee and its staff writers for the award for the most uninformative conference report of the session. The gentleman from Maryland reads a lot of conference reports, and rarely does he see an attempt made to keep full information from the House to the extent that this conference report does. There is almost no explanation of any of the amendments or of the provisions deleted or added. Unless one gets an engrossed copy of the Senate-passed bill, he does not know what is in the bill.

Mr. Speaker, it may be of interest to some Members who have not read that copy to look more closely at the dollar amounts and the provisions.

Mr. Speaker, I would like to ask the gentleman, since we were not informed to any extent in the report, what on earth is the thinking behind the majority in this conference committee which restored to Vietnam direct aid from international lending institutions when this Congress has repeatedly voted against such provisions? As a matter of fact, if we look on page 24 of this bill, we find that provision deleted so that we did not even know what true action was taken. I am not sure whether this was a mistake or done by design, but that line is missing from the bill.

What is the reasoning behind it? Are we using American tax dollars to aid a country which only a few years ago was killing American troops and now comes to us demanding reparations?

Is that what we are being asked to vote for in the last days of this Congress when we cannot pass bills for domestic water projects and the other needs for this country?

Mr. YOUNG of Florida. To respond to the gentleman from Maryland, Mr. Speaker, the House has spoken several times in a rather loud voice saying that we do not want U.S. tax dollars to be used for Vietnam. The gentleman knows my position on that very well because I have offered most of those amendments.

The gentleman knows of my position that perhaps some time we will reach the point where we can have a meaningful relationship with Vietnam and with every other country in the world, but today this country of Vietnam is not only the country which killed 50,000 Americans during that tragedy there it is also the same Vietnam which has refused to make an accurate and realistic accounting for Americans listed as still missing in action in Southeast Asia. It is the same Vietnam which held American prisoners of war in such a degrading manner that I just cannot bring myself to vote for any bill which is going to tax my constituents to send their money to Vietnam, no matter how indirect the route might be.

Mr. BAUMAN. Mr. Speaker, if the gentleman will yield further, if this report is adopted, that power to send that aid to Vietnam will be conferred upon these banks.

Mr. YOUNG of Florida. That is the effect.

Mr. BAUMAN. Mr. Speaker, I commend the gentleman from Florida, not only for opposing those provisions, but for not signing this conference report. I think it is a disgrace that we are asked to use our peoples tax money for these purposes.

Mr. LONG of Maryland. Mr. Speaker, I yield 6 minutes to the gentleman from New York (Mr. McHUGH).

Mr. McHUGH. Mr. Speaker, I thank the gentleman for yielding. I will not take the 6 minutes.

I thank the gentleman for yielding and I rise in support of the conference report. I believe it represents a reasonable compromise among conflicting points of view.

Mr. Speaker, at the outset I do want to respond to the gentleman from Maryland (Mr. BAUMAN), and to the gentleman from Florida (Mr. YOUNG). This question which they raised was debated for a long time when this bill was on the House floor in August. The issue, as the gentleman from Maryland undoubtedly realizes, is not Vietnam at all. The fact of the matter is that this bill contains a prohibition of direct assistance in our bilateral programs to Vietnam. American taxpayer dollars under those bilateral programs will not go to Vietnam.

The problem with the provision which was stricken from the bill by the conferees, the provision which says that there shall be no indirect assistance to Vietnam, is not the issue of Vietnam at all. It is an issue whether or not the banks, the international lending institutions, can accept contributions from any country, including the United States, with that type of condition attached. It has been debated and established many times that those banks cannot, pursuant to their charters, accept any contribution with that type of condition attached. That is the issue.

The fact is that if we enacted a law which conditioned our contributions in that way, the banks could not accept our contributions. No U.S. money would go to the banks and inevitably other countries would impose such conditions as well. That would undoubtedly lead to the collapse of the international lending institutions. Perhaps that is what the gentleman from Maryland wishes, but I do not think it is the intent of the House of Representatives and I certainly do not think it was the intent of the conferees, and that is what is reflected in the conference report.

Mr. BAUMAN. Mr. Speaker, will the gentleman yield?

Mr. McHUGH. I yield to the gentleman from Maryland.

Mr. BAUMAN. Mr. Speaker, I would say to the gentleman from New York, I have heard him make this argument repeatedly; but, as well versed in these matters of charters of banks as he is, I would urge him to listen to the gentleman from Maryland (Mr. LONG), who has shown conclusively that the bank charters do not contain such restrictions. Either the gentleman from New York is wrong or the gentleman from Maryland (Mr. LONG) is wrong. Now, who is wrong?

Mr. McHUGH. Perhaps the gentleman from Maryland was not here when we debated this issue.

Mr. BAUMAN. I was here for all the debate on these bills.

Mr. McHUGH. Then the gentleman should recall that there was a letter discussed when we debated the bill, a letter signed by seven secretaries of the Treasury——

Mr. BAUMAN. Mr. Speaker, will the gentleman yield further?

Mr. McHUGH. Mr. Speaker, I do not yield further.

Mr. Speaker, there was a letter signed by seven secretaries of the Treasury, Republican and Democratic secretaries of the Treasury, in which they maintained unanimously that those banks cannot accept this type of conditional contribution. In addition, we have had legal opinions to the same effect.

What we have here is an assertion by the gentleman from Maryland that that is not so. I am afraid that is simply not of equal weight or authority as the citations which I have given.

Mr. Speaker, this conference report is the product of many months of careful work. Both the House and the other body have spent most of the year considering the President's budget request. We have substantially reduced the funds asked for by the administration and I believe we have done so in a thoughtful manner. As is usually the case, there were some differences between the House and the Senate, but the compromises which have been effected are reasonable ones. Accordingly, this report deserves the support of the Members.

As you know, Mr. Speaker, the President asked us to appropriate $8.4 billion last January. After months of hearings, our subcommittee voted to reduce this amount by $1.1 billion and the House approved a number of additional reduc-

tions when it considered the bill in August.

The Senate voted to appropriate $9.3 billion last month, a figure substantially higher than the bill approved by the House because it included $1.8 billion to finance the U.S. contribution to the IMF Supplementary Financing Facility. At the time the House considered this bill last August, that request was not before us.

The conference report before us today would appropriate $9.1 billion, including the $1.8 billion for the Witteveen Facility. As I said, I think that it represents a responsible compromise that will allow us to meet our responsibilities abroad without compromising efforts to address the very real problems we face at home.

It is important to note that there were 100 items in disagreement between the House and Senate versions of this bill. Many of these raised important, sensitive and controversial matters of public policy, issues that were often charged with a great deal of emotion.

The members of the conference committee worked very hard to resolve these differences. It was not an easy task, and it took more than 8 hours before we were finally able to reconcile all of our differences.

While it was obviously necessary for us to compromise with the Senate on some issues. I believe that the House prevailed on many of the most significant items. Led by Chairman LONG of Maryland, the House conferees consistently sought to sustain the House position on important issues, and, as I said, I think we were generally successful.

Mr. Speaker, I will not attempt to duplicate the excellent summary that has been presented to the House by our Chairman. However, there are a number of important provisions in the report that I would like to comment on.

ECONOMIC SUPPORT FUND

The one issue which divided House conferees the most, and which took the longest time to resolve, was the question of whether we should provide assistance to Syria through the Economic Support Fund.

As Members of the House will recall, the House voted in August to delete the administration request for $90 million. However, that action occurred before the dramatic breakthrough at Camp David. As a result of the progress achieved at those talks, the Senate voted to provide the $90 million for Syria which the administration requested.

I cannot emphasize too strongly the importance attached by many of us in conference to the recent events. For example, Senator SCHWEIKER of Pennsylvania, the ranking minority member on the Senate Foreign Operations Subcommittee, indicated in conference that he had originally intended to support the House position on Syria when the issue was debated in the Senate. However, in the wake of Camp David, he concluded that it was important to give the President the flexibility he will need if additional progress is to be achieved in the Middle East.

Because the Senate conferees were adamant in refusing to recede to the House position on this question, it was clearly necessary to work out some type of compromise. There are two important components to the compromise that was finally adopted.

First, the Senate agreed to eliminate from the bill its specific earmarking of $90 million for Syria. Second, the House agreed to accept the Senate total for the Economic Support Fund, which of course includes the $90 million for Syria. As we indicated in the conference report, however, these funds are to be used "only if the President believes that their use will serve the process of peace in the Middle East."

In short, while Syria will no longer automatically be entitled to $90 million, the President will retain the authority to make funds available if he concludes that doing so will promote peace. I believe that this is a responsible compromise, Mr. Speaker.

I and many others have grave concerns regarding Syrian actions in the Middle East. However, our Nation has committed itself to helping achieve a just and permanent peace in that region of the world. We know that this will be a long and often frustrating process. We will not always approve of the policies or actions of every nation there.

However, the question is not whether we approve or disapprove of Syrian actions. The question is whether we are prepared to give the President the flexibility he needs to achieve the goal which all of us seek. namely, a comprehensive settlement of the problems in the Middle East.

Peace is not going to come quickly or easily. Thirty years of bloodshed cannot be wiped out overnight. Nonetheless, real progress has been made, and President Carter has just achieved a dramatic breakthrough at Camp David. I believe that he has earned our confidence and support.

We know that a lasting peace will ultimately depend on the cooperation of all nations in the Middle East, including Syria. The President has asked us to provide him with a little flexibility in his dealings with that nation. I think we would be pennywise and pound foolish if we were to deny him this if, in his judgment, it may help in the search for peace.

IMF SUPPLEMENTARY FINANCING FACILITY

Mr. Speaker, as has been stated, the conference report is $1.9 billion higher than the amount the House approved in August. The primary reason is that the Senate voted to include funding for U.S. participation in the Supplementary Financing Facility of the International Monetary Fund (the so-called Witteveen Facility). This funding was not included in our version of the bill.

If we subtract the $1.8 billion included in this bill for the Witteveen Facility and the $90 million for Syria, the conference report actually appropriates only $37 million more than the House approved in August. I think that this is a fair reflection of how strongly we fought to maintain the figures voted by the House.

Mr. Speaker, it should not be necessary to spend much time debating the Witteveen Facility. The conference report on the legislation authorizing our participation was approved recently by 100 votes. That decision effectively settled whether the United States would participate, and our bill merely appropriates the funds. I would like to make two points, however.

First, it is important to note that our share in the financing of this facility amounts to only 17 percent and will be repaid with interest within 12 years. By way of contrast, the OPEC nations will be providing 47 percent of the financing, with approximately half of their share coming from Saudi Arabia, the largest single contributor to the facility.

Second, it seems increasingly clear that a vigorous U.S. economy cannot be achieved or sustained except in the context of a healthy world economy. Unfortunately, most nations have not recovered fully from the worldwide recession experienced earlier in this decade. Those nations need both time and financial help to make the necessary adjustments, and the IMF must play an important role in this effort. Clearly, then, it is in our own economic interest to support this facility.

Accordingly, the House conferees concluded that it would be appropriate to bring this report back to the House with funding for the supplementary financing facility.

MILITARY ASSISTANCE

Mr. Speaker, I am particularly pleased that this conference report still provides for some very substantial cuts in foreign military credit sales and the international military education and training program (IMET). Frankly, I was not sure that we could achieve these cuts given the token reductions that the Senate made in these accounts.

However, I think we did relatively well. The conferees agreed to split the difference between the House and Senate recommendations for IMET. In turn, the 20-percent reduction in the foreign military credit sales program—exclusive of Israel—that the House adopted last August was sustained with a Senate add-on of $5 million for Lebanon and $1.5 million for Greece.

Mr. Speaker, my hope is that this will force the administration to more carefully consider the rationale for these programs. I seriously question whether the program levels recommended by the administration are necessary to promote our national security interests. At the same time, I am also concerned that these programs encourage developing nations to spend more on military expenditures than is necessary to promote their own defense. In my judgment these resources could be better used to promote growth with equity in the developing world.

These substantial reductions also reflect our continuing concern about human rights violations throughout the world. Although the conferees generally refused to engage in country specific sanctions, it was clearly our intention that human rights considerations be taken into account by the administration in programing these reductions.

The one notable exception to the approach we adopted was the Philippines. The conferees agreed to reduce funding under the military assistance program for the Philippines by $2.5 million. Although this was less than the cut recommended by the House, this should not be taken as an indication that our concern regarding human rights violations in the Philippines is diminishing. In the first place, this reduction is larger than the cut we voted last year. In addition, the Philippines is the only country which Congress chose to single out by name for a reduction, a clear reflection of our special concern with the policies of the Marcos regime and the impact of those policies on the Philippine people, people for whom we have always had a particular affection.

Consequently, I hope that the Government of the Philippines will take note of these facts. As this reduction indicates, there is a very real concern in this Congress over the manner in which the Government of the Philippines treats its citizens.

MIGRATION AND REFUGEE ASSISTANCE

There is one relatively small item contained in the conference report that should also be noted. The Senate version of the foreign assistance bill earmarked $1.5 million as a contribution to the UN High Commissioner for Refugees to help meet the needs of Cambodian refugees in Vietnam. This amendment was originally proposed by Senators KENNEDY and DOLE.

The House conferees agreed to include the $1.5 million for this purpose in the bill, but we recommended that the specific legislative earmarking be eliminated. The Senate conferees agreed to this request. However. the fact that the earmarking was eliminated should not be misconstrued. Our intent was that these funds should be used to assist Cambodian refugees in Vietnam.

Mr. Speaker, it is estimated that there are between 150,000 and 300,000 Cambodian refugees in Vietnam at the present time. While the United States provides some help to Cambodian refugees in Thailand through the UNHCR, we have thus far provided no help to those who reach Vietnam as their point of escape from the terror which is occurring in Cambodia.

Regardless of how each of us may feel about normalization of relations with Vietnam, I think that we can agree that the problems of Cambodian refugees need to be addressed regardless of where they find refuge. Accordingly, I believe that the decision of the conferees represent a first step toward addressing the problem of Cambodian refugees in Vietnam.

ANGOLA/MOZAMBIQUE WAIVER

The managers for the House will offer a motion later today to recede and concur in an amendment offered by the Senate that would provide the President with authority to waive the ban on bilateral assistance to Angola and Mozambique.

As the Members will recall, the House version of this bill imposed a total ban on assistance to these two nations. As just mentioned, the Senate version includes a similar ban but allows the President to waive this prohibition "if he determines, and so reports to the Congress, that furnishing such assistance . . . would further the foreign policy interests of the United States."

Mr. Speaker, I hope that the House will accept this language. It is similar to the waiver authority contained in the International Security Assistance Act of 1978, and would provide the President with much greater flexibility to deal with changing circumstances than the original House language.

All of us realize that conditions in Africa could change dramatically in coming months. Therefore, we should avoid writing the foreign policy of the United States into law in an excessively rigid fashion. The original House language left the President with no discretion to respond to changing circumstances, and I think that the conference report deals with this problem in a responsible fashion.

This issue is essentially the same one we face with respect to funding for Syria, namely, whether we should trust our President to conduct our foreign policy in a reasonable manner. I believe that the President has earned our trust, and therefore I hope that members will concur in this change when it is brought before the House.

INDIRECT ASSISTANCE

Mr. Speaker, one of the most divisive issues in this House has been whether we should attach conditions to our contributions to the international financial institutions (IFIs).

On several occasions in the past, efforts have been made to prohibit "indirect" assistance to certain nations whose governments we disapprove of. Last year, for example, an amendment to bar indirect assistance to Vietnam, Laos, Cambodia, and Uganda passed the House by a large margin. Certainly, no Member of Congress approves of the governments of these nations.

However, as most Members now realize, the IFIs cannot legally accept contributions that are conditioned in this manner. Their charters prohibit it, as well they should. If one nation earmarked its contributions, other nations would inevitaby do likewise. The result would be to endanger the principle of international burden-sharing in the effort to promote development, a principle that is very much in our own interest as a nation.

This year the House wisely reversed itself on this matter, defeating the Young amendment prohibiting "indirect" aid to the aforementioned countries by a margin of 205 to 198. Unfortunately, subsequent to making this decision, the House then voted to impose a restriction on IDA lending to Vietnam and on IFI contributions to Cuba.

The House conferees voted to recede from our position on these last amendments. We really had no choice but to do so. If such restrictions were part of our law, the United States would effectively be withdrawing from participation in the international lending institutions. This would inevitably lead to the collapse of those institutions, a result which I am sure most Members of the House do not desire.

The House also adopted a proposal under which the U.S. Executive Directors to the IFIs will propose charter amendments that would allow human rights considerations to be taken into account in IFI lending decisions. Although reluctant to do so, the Senate conferees agreed to accept this amendment. It will be interesting to see if this approach proves viable. While we are all deeply committed to the advancement of human rights, we also have found it virtually impossible to apply human rights criteria consistently in our own bilateral assistance programs. It is reasonable to ask, therefore, whether the IFIs will be able to develop appropriate criteria that could be applied in a consistent manner.

CONCLUSION

Mr. Speaker, as I mentioned at the very beginning, I think that the many issues which divided the House and the Senate on this bill have been resolved in a responsible fashion, and I hope that Members of the House will support this conference report.

I know that it is not the easiest thing to do politically. Our constituents are understandably concerned first and foremost with our own economic problems at home. They do not always appreciate why a modest foreign assistance program is in the interest of a stable world and in our own economic interest.

Nonetheless, this conference report deserves our support. It is the only vehicle through which the United States can share its vision of the world with peoples in the developing nations. It reflects our traditional humanitarian values. At the same time, it also supports important economic and political objectives that are in our self-interest.

Mr. LONG of Maryland. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let me comment on the Vietnam matter and the willingness of the banks to lend money.

I have read their charters, and I am convinced that if they really wanted to change their charters, they could do it, but the fact is they do not want to change their charters in the restrictive manner in which we would like to change them. There is no way we found that we could get some such restrictive language accepted by the Senate and by the administration that would enable us to get a foreign aid bill. It is as simple as that.

I am inclined to agree with the gentleman from Maryland that this is not a matter of absolute restraint on the part of the banks. They could do it if they wanted to but they do not want to, and so we are in a bind, and we want to get a foreign aid bill adopted.

Mr. YATES. Mr. Speaker, will the gentleman yield?

Mr. LONG of Maryland. I yield to the gentleman from Illinois.

Mr. YATES. Mr. Speaker, let me ask the gentleman, do the charters presently forbid that kind of activity?

The gentleman refers to what could be done. The fact is, however, that presently the charters forbid it, do they not?

Mr. LONG of Maryland. Mr. Speaker,

the gentleman can read the charters that way if he wants to. They are rather vague on this. But the point is they could change their charters without too much difficulty, but they do not want to.

I want to be honest with the House on this. We are simply faced with the fact that we will either get a foreign aid bill or we will go under a continuing resolution.

On the Witteveen Facility, let me point out that we had to agree to this funding because it was thrust on us by the Senate through an amendment. I object to this facility. I think it is a device by which the American taxpayer is asked to supply money to the poor countries so they can continue to buy high priced oil from the OPEC nations.

I would have opposed this if it had not been for Camp David accords. The fact is, though, that we needed the support of our friends in those negotiations, and we wanted to see the spirit of Camp David carried out. So in that spirit, I think it was justified.

Mr. McHUGH. Mr. Speaker, will the gentleman from Maryland yield to me so I can take another moment or two?

Mr. LONG of Maryland. I yield to the gentleman from New York.

Mr. McHUGH. Mr. Speaker, I would simply like to put into the RECORD the legal authorities to which I referred earlier, all of which indicate that the banks cannot accept conditional contributions from the United States or any other country.

We have received legal opinions from the General Counsel of the Inter-American Development Bank, the World Bank, and the Asian Development Bank, as well as an opinion from the General Counsel of the Treasury Department. In addition, the Comptroller General of the United States, the American Law Division of the Congressional Research Service and the International Law Division of the District of Columbia Bar have all addressed this issue. They all agree that without amendments to their charters, the banks could not accept U.S. contributions with these conditions attached.

Mr. Speaker, the issue here is not Vietnam. That is a red herring. There is no direct assistance allowed under this conference report for Vietnam, and the fact is that the banks will not accept contributions with these restrictions attached.

Mr. HYDE. Mr. Speaker, will the gentleman yield?

Mr. LONG of Maryland. I yield to the gentleman from Illinois.

Mr. HYDE. Mr. Speaker, I just wish to associate myself with the remarks of the gentleman from New York (Mr. McHUGH) and point out that we have to make a decision.

Do we want to politicize the World Bank or not? Right now it is nonpolitical, and some of these loans go to countries we do not like. But if we want to politicize it, we are going to change the character of the institution completely. We are going to end up with Israel being barred from getting loans from OPEC nations, and Afghanistan is not going to want Pakistan to get anything, and so on. We are going to destroy the entire international character of that institution.

Maybe that is a good thing, but I do not think so. I think the United States benefits from this. I think it is in our national interest to help the economy of lesser developed countries to make customers out of them for us, to give us access to their raw materials, and to stabilize their economies and keep a little peace in the world.

To do that we sometimes have to see our money go into the pot and then have it go to a country that we do not like, but the payoff for that is to have a viable international bank system that does assist in keeping peace in the world, getting access to minerals for this country, and getting customers for this country.

Somebody has mentioned Rhodesia. I think our policy is terrible in Rhodesia. I am on record as saying that, but that is a different issue. I would say that if we start to politicize this bank, Rhodesia will never get a loan.

Mr. Speaker, I support the conference report.

Mr. YOUNG of Florida. Mr. Speaker, I yield 1 minute to the gentleman from Maryland (Mr. BAUMAN).

Mr. BAUMAN. Mr. Speaker, all of the sophisticated arguments I have just listened to do not change one bit the fact that when this bill left this body, which is supposed to be coequal to the other body, it said:

Provided further, That none of the funds appropriated or otherwise made available by this paragraph shall be obligated or expended to finance any assistance or reparations to the Socialist Republic of Vietnam.

Now, that I think represents a majority view in this country.

Surely, we are told, these payments serve a great purpose. Surely, you say, they do a great deal of good. But go back and try to explain this aid to Vietnam to your constitutents. Talk to the group of relatives of MIA's who were in the Rayburn room this afternoon. Talk to them about how our tax money is being used to aid Vietnam and its Communist rulers.

This foreign aid program has no constituency in this country except for some very wealthy corporations who make a great deal out of it. The foreign aid program may do some good in foreign countries, but it does very well in the board rooms of Wall Street.

Mr. Speaker, I see no reason why we should not defeat this conference report and leave foreign aid appropriations on a continuing resolution basis for the next fiscal year. At least spending would be at last year's level, and all of these sophisticated arguments do not vary that. I urge a vote to recommit this bill.

Mr. YOUNG of Florida. Mr. Speaker, I yield 5 minutes to the gentleman from Indiana (Mr. JOHN T. MYERS).

Mr. JOHN T. MYERS. Mr. Speaker—

"These appropriations are generally in accord with national needs, and I support them.

"But this bill also contains provisions for excessive, wasteful water projects . . ."

"This bill would hamper the Nation's ability to control inflation, eliminate waste and make the Government more efficient."

"No challenge the Congress and the Executive Branch must face together is more painful than the exercise of budgetary discipline in each individual case. But only consistent, determined discipline will enable us to achieve our shared objectives of controlling inflation, balancing the budget and making Government more efficient."

"This appropriations bill is a true and difficult test of our resolve to discipline the Federal budget. Each bit of additional spending always looks small and unimportant against the total Federal budget. The temptation to look the other way in each case is always great. But both Congress and the Executive Branch must recognize that there is no one single dramatic act which will control the budget. Budgetary control must be achieved by the cumulative impact of hard choices such as the one I am presenting to the Congress today."

"There are competing uses for every Federal dollar and difficult choices must be faced. Every program in Government, no matter how vital, must focus first on matters of highest priority. The President and the Congress must join in this difficult effort."

". . . the American people have the right to expect that their Government will pursue these goals effectively, efficiently and with the budgetary discipline and careful planning essential to reduce inflation and continue economic growth. Citizens rightly demand sound programs to meet their needs. They rightly demand restraint and judgment in the allocation of public funds. And they expect those of us in public office to demonstrate the courage needed to face hard choices."

These statements I have just made are not mine.

That is the end of a quotation. Those are heavy words, are they not? But they do not apply to this bill. At least they were not written for this bill. That was the statement by President Jimmy Carter, as he vetoed the same type of bill, but for the American people, a bill to provide flood control, as there was more than $2 billion in this bill to provide flood control, to protect farmers so that they can feed the hungry, not only in our own country, but in the world, to pay taxes to help balance the budget, to provide water, municipal and industrial water, for our communities, so that we can give jobs to people and, to pay taxes. Taxes are not paid on crops that are flooded out, on crops that are never harvested.

There is not one of these projects that are in this bill of more than $2 billion for water projects where there has been a benefit-cost ratio required. Yet, every one in the water and energy bill the other day had to have a benefit-cost returning back to the taxpayer more than was invested. Usually 7 to 1 for the investment. There is not one of these that has had an environmental impact statement. What right does this Congress have to impose unsound, environmentally unsound, projects on these people of other lands. Are we tonight going to do this? Destroy their environment.

There is going to be a motion to recommit. The motion to recommit will allow this Congress to go back and redo its work. To cut the water projects from this bill which are inflationary. There is $2 billion to be saved.

Oh, I know the President right now is hoping that you will vote to recommit this. He does not want to be embarrassed. Those on the Democrat side of the aisle do not want to embarrass their President, and you succeeded in not embarrassing him by voting to sustain the veto the other day. You can save a veto, because I know the President is going to have to veto this bill containing $2 billion water projects which are environmentally unsound and inflationary. The conference report is more than $2 billion more than the House bill provided when it passed the House. Anyone who voted to sustain the President's veto of the Water and Energy Development Appropriation bill will have to vote to recommit the conference report tonight. So, you will be doing a great service for the President tonight to vote to recommit this bill. To quote the President recently: It is inflationary; it is wasteful; it is not an efficient use of the taxpayers' money. Vote to recommit this bill tonight.

Mr. LONG of Maryland. Mr. Speaker, I yield 3 minutes to the gentleman from Texas (Mr. CHARLES WILSON).

Mr. CHARLES WILSON of Texas. Mr. Speaker, I would simply like to address myself to the point that was made from the other side concerning the politicization of the banks. I have been one who has been a very stern critic of what I term to be unfair political interference with the workings of the bank. I have been a particular stern critic of the loans that have been withheld from certain countries because they were perceived to be conservative countries in the past, whereas loans have gone forward for more leftwing countries.

But, I would like to report to my friends on the other side of the aisle who are interested in this particular issue that that discrimination no longer exists, and the euphoria and power concerning human rights the State Department had, which some Members were so concerned about months ago, has virtually disappeared. I think the gentleman from Illinois (Mr. HYDE) was absolutely correct in saying that we want to avoid this sort of political consideration.

I just want to report to the more conservative Members of the House that political consideration is now gone, and the banks are now truly apolitical. The loans are not withheld from conservative countries because of the mores of a few young, very zealous people in the State Department. I think that is important.

Mr. YOUNG of Florida. Mr. Speaker, I yield 1 minute to the gentlewoman from Ohio (Ms. OAKAR).

Ms. OAKAR. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I oppose this report for several reasons. One reason is that I am beginning to have the same attitude as some of my colleagues in the sense that charity really does begin at home. When I see that in my own district we may lose 40,000 steel jobs if we do not dredge our harbor, and those people might be going on unemployment compensation, which indeed would cost billions of dollars to taxpayers and businesses. But, we do not have one time expenses for our own people.

But the second reason, and perhaps even a more important reason, is the fact that this bill fuses the human needs issue with the military weapons issue, and I think it is wrong to do that. I do not have a problem in voting for foreign aid when it comes to economic development and human needs. I do have a problem when it comes to militarizing the world with military weapons. For that reason, because they are not separate issues that we can vote upon separately, I am going to vote against this conference report.

Mr. YOUNG of Florida. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. MCCLOSKEY).

Mr. MCCLOSKEY. Mr. Speaker, I rise only to ask the chairman of the committee about the population research assistance that is provided. In the House conference report, when we passed the bill the words appeared that:

> The Committee expects AID to consider the possibility of providing a United States contribution of $4.5 million from this account to the World Health Organization's Special Program of Research, Development and Research Training in Human Reproduction.

I want to assure my colleagues and the gentleman from Maryland that there is no abortion money in this conference report for allocation to the World Health Organization's special program in reproduction research.

Since the House originally appropriated $195 million, with $4½ million allocated for WHO's population research, and the Senate apparently did not address the question, may we be assured, if we approve this conference report, that within the $185 figure there is $4½ million for the WHO's program for research in human reproduction?

Mr. LONG of Maryland. Mr. Speaker, the gentleman's concerns are covered in the proper authorization legislation. They have also been addressed in the Appropriations Committee report, and we assume that the administration will make the necessary allocations.

Mr. MCCLOSKEY. I thank the gentleman for that statement. I assume this is the minority understanding also?

Mr. YOUNG of Florida. Mr. Speaker, that is my understanding of the language in the conference report. In the absence of such language in the conference report or the Senate report I would assume the House language would prevail. As the gentleman knows the House language was very specific on that point.

Mr. MCCLOSKEY. I thank the gentleman. I will be glad to support the conference report on that basis.

Mr. YOUNG of Florida. Mr. Speaker, I yield 5 minutes to the gentleman from Massachusetts (Mr. CONTE).

Mr. CONTE. Mr. Speaker, I rise in support of this conference report.

After a very intense floor debate and conference, the majority of its issues have been discussed at length. The result of this deliberation is a bill which is both fiscally responsible and indicative of our commitment to the development of the Third and Fourth Worlds.

Mr. Speaker, many of my good friends including the gentleman from Indiana, who read from the President's message, have compared these public works projects with the vetoed public works bill; let me advise them that many of these public works projects, in fact most of them in the developing countries, are very different from the modern and complex projects that are undertaken here in the United States. In some cases these projects consist not of great big dams but a lot of these consist of earthen dams, small-scale irrigation works designed to benefit small farmers and cooperatives and low-income people. In other cases, they are for potable water or sewerage projects in rural or urban areas which help meet the basic needs for improving health conditions of deprived and deserving peoples.

We cannot stand on the floor of this House and compare what we voted on last week with what is in this bill here because we would be comparing apples and oranges. In fact, many of the Members of Congress would not even want to go near these places to examine them because of the stench and disease and sickness and poverty and the hunger. So let us not compare these two programs.

This is a humanitarian program: I know the gentleman has the milk of human kindness in his veins, and I know he is upset at what happened last week, but at the end he is going to go along with us.

Mr. Speaker, some Members may question the higher level of appropriation which emerged from the conference. I would like to explain the difference. Since the floor debate in August there have been major foreign policy developments which necessitate the appropriation of higher funds. There is the increase in the economic support fund, and the military assistance program, and the addition of the Witteveen Facility of $1.8 billion. All are timely and important components of our foreign policy and reflect the dynamic nature of the United States' state of affairs.

The higher level of funding for the Economic Support Fund was not reached without considerable debate. Although the House had originally voted to deny funds to Syria because of the continued problems in Lebanon, recent Middle East developments make these funds a key bargaining tool for negotiating with the Syrians. Not specifically earmarked for Syria, the funds "remain available for use by the President if such would serve the process of peace in the Middle East."

It is my hope that the Camp David peace talks proceed without undue delay and I believe the President should be given our full cooperation by providing him with the means to achieve the objectives in the framework for peace.

Mr. Speaker, at this point I insert in the RECORD a letter that the President sent me. I am sure he sent some to the members of the committee also, requesting this allocation of funds for Syria:

THE WHITE HOUSE,
Washington, Oct. 12, 1978.

Hon. SILVIO CONTE,
Subcommittee on Foreign Operations, Committee on Appropriations, House of Representatives, Washington, D.C.

To Congressman Silvio Conte: Two weeks ago I urged you and your fellow conferees for the Foreign Aid Appropriations Bill to accept the Senate amendment appropriating $90 million for economic support funds for Syria. I made this request because of the delicate stage of the Middle East peace negotiations. I would like to express my gratitude to you for your generous response, and to assure you that the appropriations will only be used in the pursuit of peace as specified in the conference report.

In recent weeks there has been a tragic renewal of violence in Beirut. Many people have lost their lives, many more have been injured, and a great deal of destruction has befallen the once beautiful city of Beirut.

Because we have maintained the confidence and respect of all parties to this tragedy, we were able to help them arrange a cease-fire last weekend through the United Nations Security Council. This cease-fire provides an opportunity for us all to work together in support of the Government of Lebanon to bring about a reconciliation of the peoples of that land.

President Sarkis of Lebanon is now embarked on a major initiative to seek the help of friendly governments in keeping this still-fragile cease-fire in effect. A meeting will take place in Beirut on Sunday. This meeting among participants in the Arba Deterrent Force in Lebanon may be the key to keeping the cease-fire in effect as the more fundamental issues in Lebanon are addressed.

I am writing, therefore, to encourage you to stand for firm support of the conference report's funding for Middle Eastern countries. A floor challenge to this funding could be read in key Middle Eastern countries as a disruptive signal. I urge you to continue your support at this delicate moment for our efforts to bring peace to the Middle East and to Lebanon.

Sincerely,

JIMMY CARTER.

Mr. Speaker, the economic support funding for Turkey and the military assistance program package for Greece will help to realize U.S. objectives in the Mediterranean. Not only will this beef up NATO's southern flank, this appropriation demonstrates our commitment to a peaceful resolution of the Cyprus problem and the internal difficulties each nation is now facing.

The $1.8 billion earmarked for the Witteveen Facility constitutes the majority of the increase over the House funding level. I think the importance of this facility must be underscored. The residual effects of the 1973 oil embargo have continued to keep many of the economies of both developing and developed worlds off balance. We all felt the repercussions of the embargo but for a developing nation just getting on its feet, the consequences are far more serious.

Excessive drains on foreign reserves, subsequent declines of necessary imports, lack of funds for continued investment and development all translate into economic disaster for much of the developing world. The facility will provide additional funding to return some equilibrium to the economies of such nations. And as economic interdependence is a fact of life in the seventies, just as economic prosperity in the third world translates into increased exports and employment for the United States, economic decline yields the opposite: unemployment and the decline of exports. The industrialized world including the United States can hardly afford the costs of such decline. The Witteveen Facility will serve as a much needed form of "economic life insurance" to guard against such an occurrence.

Mr. Speaker, I do not want to give the impression that the conference was characterized by "add-on fever." This is not the case. Several major areas were trimmed, in particular the international banks. The FSO account of the Inter-American Development Bank was cut by $33 million while the substantial amount of $136 million was sliced off the callable capital account of the World Bank appropriation.

Other compromises were reached between House and Senate conferees which entailed lower funding levels for many of the accounts in each title.

Some important language compromises were also worked out in committee. Migration and refugee assistance will be centralized in an effort to avoid further bureaucratic proliferation and overlapping. The language barring indirect assistance to specific countries was removed thus enabling the IFI's to accept the U.S. contributions. New Export-Import language was adopted for section 508 which will play a key role in increasing our exports—a critical objective of the new national export promotion package. And important to many Members is the President's direction to the IFI's to begin consideration of a human rights amendment to their charters. I could go on, but time permits me to only highlight those most crucial areas of the bill.

In summing up, Mr. Chairman, this is a good bill. It is a product of enlightened self-interest. Among other things, it helps to meet the world's humanitarian needs in a fiscally responsible manner. I urge its adoption in order that we may continue to challenge the specter of poverty throughout the world.

Mr. LONG of Maryland. Mr. Speaker, I yield 3 minutes to the gentleman from Oklahoma (Mr. WATKINS).

Mr. WATKINS. Mr. Speaker and my colleagues in the House, I rise in opposition to this conference report and I ask you also to vote to recommit.

There is $2.5 billion in the public works projects, over a 60-percent increase, and I repeat, over a 60-percent increase in the funds, and the issue is inflation. That is what we were told last week and I submit to you tonight that is the issue, inflation.

The gentleman from New York stated that the issue may not be just Vietnam, even though I disagree with the fact that dollars are going here to build water projects and not into the poor economic areas of the United States.

The issue is not just Romania, even though I disagree with the fact that money is going there for public work projects.

The issue tonight, my colleagues, is inflation.

Last week when we had the public works bill up to help the American people, from one end of Pennsylvania Avenue to the other, and all across the Nation, we heard the echo of inflation, inflation, inflation, inflation, inflation. To my colleagues I say that when you have 60-percent increase in a foreign aid bill that is truly inflationary.

The gentleman who preceded me in the well said no, you cannot compare, this is like comparing apples and oranges. Let me say to my colleagues that those who were hurt last week were the poor in the rural areas of this Nation where in many cases 12 to 15 percent of the people are unemployed. They were poor native Americans. They were the poor blacks. They were the poor whites. They needed jobs.

Mr. EDWARDS of Oklahoma. Mr. Speaker, will the gentleman yield?

Mr. WATKINS. I yield to the gentleman from Oklahoma.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I appreciate my good friend, the gentleman from Oklahoma (Mr. WATKINS) yielding to me. I was struck by the same thought as the preceding gentleman, that it was the same gentleman who spoke of our President as the eagle fighting inflation just the other day.

Perhaps the gentleman and I ought to go back to Oklahoma and suggest that some of our constituents ought to move to other countries because they might be treated better by the gentleman from Massachusetts and other Members of this body.

Mr. Speaker, I join the gentleman in urging a "no" vote on this very, very inflationary piece of legislation.

Mr. WATKINS. Mr. Speaker, I thank the gentleman.

Again, I state the issue tonight is inflation; and I hope that will echo across these halls as we start to cast our votes.

Mr. Speaker, I ask the Members to vote against this conference report, and I ask them to vote to recommit it.

Mr. YOUNG of Florida. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. ROUSSELOT).

Mr. ROUSSELOT. Mr. Speaker, we heard a great deal here this past week when the public works bill was here about "pork barrel." This is $9 billion worth of foreign "pork barrel," primarily managed from Wall Street. Yes, it is helpful to them; but it really does not help the people in this country.

Mr. Speaker, I wish to remind the Members that this is the highest foreign aid bill we have ever had. The highest foreign pork barrel at a time when our President tries to tell us that he is trying to fight inflation.

Mr. Speaker, this is, in fact, $9 billion worth of foreign inflation. I urge its defeat.

Mr. LONG of Maryland. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio (Mr. STOKES).

Mr. STOKES. Mr. Speaker, I thank the gentleman for yielding me this time.

In the brief time I have, I would like to respond to the remarks made by the gentleman from Florida (Mr. YOUNG) with reference to the Sahelian program.

I think that the House ought to be aware of the fact that in the Sahel area we are talking about some 28 million of the poorest people in the world. We are talking about eight of the poorest countries in the world. At the same time we talk of the contribution of the United States, we are talking about $1 billion over a period of 10 years, which, in turn, generates some $10 billion from other donors in the world.

Mr. Speaker, when we talk about that part of the world, let me just cite some of the testimony before our committee with reference to the drought situation which occurred in that part of the world. They told us the following:

Although the amount of external assistance provided to the Sahel during the height of the drought was staggering—almost a billion dollars—a monumental human disaster was averted. Even so, tens of thousands died, whole populations were displaced and the basic wealth of the region, cattle and farms, was devastated.

Mr. Speaker, throughout the debate I have heard some comparison between water projects in the Sahel area and water projects in the United States. There is no comparison between water projects in that part of the world and water projects in the United States.

Mr. Speaker, let me read further from the testimony with reference to this area. It reads as follows:

In the Sahel, the majority of the people are compressed into a band about 200 miles wide. The Sahara presses from the North and desertification progresses. In the South, terrible diseases such as river blindness (onchocerciasis) and sleeping sickness (trypanosomiasis) deny use of much of the most fertile land. The people cannot simply be moved because of the social and economic disruption it would cause to the Sahelians as well as their neighboring countries.

The economies are stagnant. There has been a steady decline in average gross domestic product per capita over the last 15 years. The Sahel, already at the bottom of the economic scale, is declining—not developing.

Then it goes on to make reference to the malaria and parasitic diseases rampant in that part of the world.

Mr. Speaker, I submit that the program in the Sahel area is no different from the aid programs all over the world. For instance, the United States maintains the same type of irrigation and disease control programs in India.

Mr. Speaker, I urge a vote in favor of the conference report.

Mr. YOUNG of Florida. Mr. Speaker, I yield 1 minute to the gentleman from Ohio (Mr. MILLER), a member of the committee.

Mr. MILLER of Ohio. Mr. Speaker, I thank the gentleman for yielding.

I think it is a good time to convey the message once more about where we are getting the money which we are using to loan and give to other nations.

Mr. Speaker, I have the record which shows that West Germany has loaned us about $26 billion to pay our national debt.

We have West Germany receiving last year $1.4 million interest on money loaned for our national debt. We paid them that much for the $26 billion that they loaned us.

Mexico alone owns $20 million of our national debt.

Many of these are countries we have aided that are now loaning us money so that we can go out and give more to the Third World nations.

The SPEAKER pro tempore. The time of the gentleman from Ohio has expired.

Mr. YOUNG of Florida. Mr. Speaker, I yield my 1 last minute to the gentleman from Ohio (Mr. MILLER).

Mr. MILLER of Ohio. Mr. Speaker, I thank the gentleman for yielding.

To Japan, which has loaned us $18 billion we have paid interest of $779 million last year.

I think it is important to show that since 1946 we have given away in foreign aid, in grants, whatever you might say, $195 billion to other nations.

Yes, it has been beneficial in some areas, but by the same token we have had many that have taken advantage of us when we have to go out in the money market to borrow the money to give to those nations which later become developed. We speak today of underdeveloped countries. When they become developed, they in turn loan us money so that we can loan it to someone else.

All it amounts to is that we increase our national debt until now it is over $800 billion and we are sending the interest to the very nations that we loaned the dollars to.

I will provide for the RECORD information on foreign holdings of U.S. debt and interest paid to those nations.

ESTIMATED TOTAL FOREIGN HOLDINGS OF MARKETABLE AND NONMARKETABLE U.S. TREASURY BILLS, NOTES, AND BONDS REPORTED BY BANKS AND BROKERS AS OF SELECTED YEARENDS

Source: Office of the Secretary, Office of Government Financing, Mar. 9, 1978.

Mr. LONG of Maryland. Mr. Speaker, I yield 5 minutes to the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. Mr. Speaker, I would like to say that the conference report on this bill, H.R. 12931, the Foreign Assistance Appropriations bill for fiscal year 1979, is generally consistent with the second budget resolution levels as established by the Congress. I would like to submit for the RECORD a copy of the House Budget Committee early warning on this bill. It follows:

I. SPENDING ACTION COMPARED TO TARGET

This bill includes $9,245 million in budget authority and $2,821 million in outlays. Inasmuch as the Appropriations Committee has not yet filed its subdivision under Section 302 of the Budget Act, the comparison below relates to the allocation made to the full Appropriations Committee in the conference report on the Second Budget Resolution, 1979. Amounts of budget authority and outlays in this bill together with amounts previously enacted and passed House are below the allocations to the full Appropriations Committee by $39,302 million in budget authority and $23,770 million in outlays.

[In millions of dollars]

	Budget authority	New entitlement authority	Outlays
1. Committee subdivision target (full committee)	354,959	.....	311,524
2. Less: Amount in reported bill	−9,245	.....	−2,821
3. Less: Previously enacted or passed House	−306,412	.....	−284,933
4. Spending action compared to target:			
Over target			
Under target	39,302	.....	23,770

II. PROJECTION

Budget authority and outlays assumed in the Second Budget Resolution but not yet considered would not cause the full Appropriations Committee allocation to be exceeded. More specifically, the amounts included in the subject bill, the Foreign Assistance Appropriations Bill for 1979, are consistent with the assumptions underlying the Second Budget Resolution for 1979.

[In millions of dollars]

	Budget authority	New entitlement authority	Outlays
1. Amount remaining within subcommittee target	39,302	.....	23,770
2. Less: Amounts assumed in the resolution, but not yet considered	38,561	.....	22,791
3. Assuming no changes from remaining budget resolution assumptions:			
Over subcommittee target			
Under subcommittee target	741	.....	979

A. Amounts Under Committee Targets—Budget authority is expected to be under the Committee allocation by $741 million and outlays are expected to be under by $979 million. These amounts result from the "Michel Amendment" which reduced the Labor-HEW Appropriation bill by $1 billion in budget authority and outlays to reflect anticipated savings in fraud, waste and abuse as well as a reduction of $773 million in the Basic Education Opportunities Grants program. These savings are partially offset by small increases in other appropriation bills.

B. Amounts Assumed in the Budget Resolution, but Not Yet Considered—The following table indicates, by functional category, major items allocated in the conference report on the Second Budget Resolution to the Committee on Appropriations, including the Public Works Appropriation Bill as vetoed and sustained by a House vote, but not yet acted upon:

[In millions of dollars]

		Budget authority	Outlays
050	National defense:		
	Pay increases	1,756	1,745
	Public works appropriations bill	2,579	1,321
250	General science, space, and technology: Public works appropriations bill	441	267
270	Energy:		
	GNMA energy initiatives	500	30
	Public housing retrofit	210	.....
	Other energy programs	300	90
	Public works appropriations bill	3,484	1,452
300	Natural resources and environment:		
	Rural clean water program	100	62
	Firefighting	182	164
	Parks and recreation	150	50
	Pollution control and abatement	120	89
	Public works appropriations bill	3,406	1,959
350	Agriculture: CCC borrowing authority	2,000	.....
370	Commerce and housing credit:		
	National consumer cooperative bank	60	14
400	Transportation:		
	Railroad programs (Amtrak and ConRail)	345	345
	Mass transportation initiatives	375	130
	Airport legislation	49	10
450	Community and regional development:		
	Public works	700	82
	EDA and energy impact grants	150	40
	Public works appropriations bill	531	87
500	Education, training, employment, and social services:		
	CETA and other labor programs	10,482	8,424
	Human development and other social services	2,865	1,838
	Education program initiatives	1,177	354

	Assumed savings from Michel Amendment		−400
	Total	38,561	22,791

III. PERSPECTIVE ON FUNCTION TOTALS

Budget authority and outlays in this bill are essentially consistent with assumptions underlying the Second Budget Resolution.

IV. COMPARISON WITH THE PRESIDENT'S BUDGET

According to the Conference report, budget authority in this bill is $1,143 million below the $10,388 million requested by the President for these items.

V. BACKGROUND

The Conference Report provides $2,068 million in budget authority and $62 million in outlays over the amounts in the House-

passed bill. The largest single increase of $1,831 million for the IMF Witteveen Facility was assumed in the Second Budget Resolution but had not yet been requested by the Administration when the House Foreign Assistance Bill was reported.

FACTSHEET—H.R. 12943, FOREIGN ASSISTANCE APPROPRIATIONS BILL, FISCAL YEAR 1979

COMPARISON OF CONFERENCE REPORT AND 2D BUDGET RESOLUTION—ASSUMPTIONS FOR THE PROGRAMS IN THIS BILL

[In millions of dollars]

Functions	Amount in the bill[1]	Amount assumed in resolution	Difference (+) over or (−) under resolution
150 International affairs:			
Budget authority	9,205	9,229	−24
Outlays	5,406	5,327	+79
350 Agriculture:			
Budget authority	40	40	----------
Outlays	40	40	----------
Total:			
Budget authority	9,245	9,269	−24
Outlays	5,446	5,367	+79

[1] Includes outlays from budget authority enacted in prior years for items included in the bill.

Note: Detail may not add to totals due to rounding.

Mr. Speaker, I would like to comment briefly on some of the charges made about this bill. It has been suggested, first of all, that this bill is almost $2 billion above the House bill as it left the House. That is absolute nonsense. The fact is that program for program this bill is 1 percent above the figure when it left the House. The only reason for the figure of $1.9 billion above the House level, which you find in the conference report is that after this bill left the House we added an entire separate portion to the bill, a facility which had already been approved by this House. We did it at the emergency request of the Federal Reserve Board and others, so that among other things we could defend the dollar internationally. Not $1 of that added amount will ever leave the U.S. Treasury; so the argument that we are giving more than 1 percent above the bill as it left the House is absolute nonsense.

So this bill is virtually identical in terms of dollar amounts to the bill which left the House on a vote of 223 to 167.

I would like to respond to the argument made about the dropping of the restrictions on Vietnam and Cuba. The gentleman from New York has already indicated what the facts of life were on that. As we have indicated, we have no choice. If we did not drop that provision, we were faced with the fact that the banks could not under their present charters accept the money. That would throw into disarray the international banking structure which we worked for 20 years to build and which has allowed us to reduce our share of this kind of assistance around the world from 60 percent in 1964 to 28 percent in 1977.

I think it is ironic that Cuba refuses to participate in the Bank because Cuba styles these banks as being too capitalistic for their tastes, so they, therefore, do not join. It would be the height of folly if, to administer a meaningless rebuke to Cuba and Vietnam, we dismantled the international banking structure, which is viewed by Cuba as being too capitalistic for them to participate. I do not think that would be very smart.

On the question of Syria, the matter is very simple. Do we want to give the President maximum leverage to do whatever he can in the Middle East to achieve peace, or do we not?

I met with our Ambassador to Lebanon last week, and I asked him this question:

"Mr. Ambassador, what would be the effect of cutting off or reducing aid to Syria?"

This is his answer: "It wouldn't modify their policy there. It will affect our ability to work with them. It would be noted as an act of hostility and contradiction—such an action wouldn't be helpful in terms of our influence" in the situation.

Mr. LONG of Maryland. Mr. Speaker, will the gentleman yield on the Syrian point?

Mr. OBEY. Mr. Speaker, if I may, I will first complete just one last statement, and then I would be happy to yield.

We have provided today over $100 billion in the defense bill for tools for war. In this bill we also provide a very small amount of money for tools for war for our allies. I must point out to the gentlewoman from Ohio that that is the lowest dollar amount for military appropriations in years. From her standpoint, this is by far the best bill we have ever brought to this floor.

I want to say that the main purpose of this bill is to provide a few tools for peace. We appropriate in this bill less than one-tenth of the amount that we appropriated earlier today for the tools for war. I would urge the Members, if they want to attack the social conditions that breed war, that breed revolution, and that breed communism all over the world, to support legislation like this because it attacks the education problems, it attacks the poverty problems, and it attacks the health problems that foster those kinds of conditions.

Mr. Speaker, I think this bill is, at least in a small way, a measure of our decency and our sense of concern for the people with whom we share this globe.

It is not an international welfare program. It is an effort to help societies generate the conditions that will enable them to bootstrap themselves into eventual self-reliance.

It is in our national interest and it costs the average American 56 cents per week, less than the cost of a pack of cigarettes. It is a good investment.

The SPEAKER pro tempore. The Chair regretfully announces that all time has expired.

Without objection, the previous question is ordered on the conference report.

There was no objection.

MOTION TO RECOMMIT OFFERED BY MR. CEDERBERG

Mr. CEDERBERG. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the conference report?

Mr. CEDERBERG. I am, Mr. Speaker.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. CEDERBERG moves to recommit the conference report on the bill, H.R. 12931, to the committee of conference.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. WATKINS. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 191, nays 201, not voting 38, as follows:

Mr. Hillis with Mr. Broomfield.

Mr. RISENHOOVER changed his vote from "yea" to "nay."

Mr. MOFFETT changed his vote from "nay" to "yea."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

(By unanimous consent, Mr. WRIGHT was allowed to speak out of order.)

SUCCESSFUL HEART SURGERY FOR KING KHALID OF SAUDI ARABIA

Mr. WRIGHT. Mr. Speaker, I know I speak for all my colleagues when I express my feelings of joy and relief at the news of the successful heart surgery and improving condition of King Khalid of Saudi Arabia.

As we all know, the King is in the United States for medical treatment and will remain here for some time during his recovery. Several members of the royal family are with him.

A great friend of the United States, King Khalid has been a source of moderation and restraint during a period of tension and conflict in the Middle East.

Under his leadership Saudi Arabia's representatives to the meetings of the OPEC nations have acted with wisdom and courage, providing a counterweight to the more radical members of the cartel. Under his leadership the world oil situation has become more stable and predictable.

We in the United States look to King Khalid to continue his active role in the quest for peace in the Middle East. We are confident that, given the catalyst provided by current peace efforts, the King will be able to contribute meaningfully to establishment of a lasting and just peace in that part of the world.

I know my colleagues join me in the hope that the King will be able soon to resume his normal activities as the ruler of the great Saudi nation.

AMENDMENTS IN DISAGREEMENT

The SPEAKER. The Clerk will designate the first amendment in disagreement.

Senate amendment No. 14 is as follows: Page 3, line 18, after "1979" insert ": *Provided*, That loans made pursuant to this authority to countries whose annual per capita gross national product is greater than $550 but less than $900 shall be repayable within twenty-five years following the date on which funds are initially made available under such loans, and loans to countries whose annual per capita gross national product is greater than $900 shall be repayable within twenty years following the date on which funds are initially made available under such loans

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 14 and concur therein.

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 16 is as follows: Page 4, line 13, after "$25,000,000" insert ": *Provided*, That $3,000,000 shall be available only for support of Israeli students studying in American sponsored centers of learning in the Arab countries and Arab students studying in American sponsored centers of learning in Israel

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 16 and concur therein with an amendment, as follows: In lieu of the sum named in said amendment, insert "$1,000,000".

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 18 is as follows: Page 4, line 22, after "$20,000,000" insert ": *Provided*, That $1,000,000 shall be available only to control locust plagues in Africa".

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 18 and concur therein.

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 21 is as follows: Page 5, line 5, after "expended" insert ": *Provided*, That no part of such appropriations may be available to make any contribution of the United States to the Sahel development program in excess of 10 per centum of the total contributions to such program".

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 21 and concur therein.

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 24 is as follows: Page 5, line 18, after "$24,820,000" insert ": *Provided*, That none of these funds or other funds available to the Foreign Service Retirement and Disability Fund shall be available to carry out the provisions of section 406 of the Foreign Relations Authorization Act, Fiscal Year 1979".

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion. The Clerk read as follows:

Mr. LONG of Maryland moves that the House insist on its disagreement to the amendment of the Senate numbered 24.

PREFERENTIAL MOTION OFFERED BY MR. YOUNG OF FLORIDA

Mr. YOUNG of Florida. Mr. Speaker, I offer a preferential motion.

The Clerk read as follows:

Mr. YOUNG of Florida moves that the House recede from its disagreement to the amendment of the Senate numbered 24 and concur therein.

The SPEAKER pro tempore. Does the gentleman from Maryland desire recognition?

Mr. LONG of Maryland. Yes, Mr. Speaker, I do.

The SPEAKER pro tempore. The gentleman from Maryland (Mr. LONG) will be recognized for 30 minutes, and the gentleman from Florida (Mr. YOUNG) will be recognized for 30 minutes.

The Chair recognizes the gentleman from Maryland (Mr. LONG).

Mr. LONG of Maryland. Mr. Speaker, the conferees have returned this amendment in true disagreement. On October 10 the President signed into law the Department of State authorization bill for 1978. Included in this law was a section 406 which would allow participants in the Foreign Service retirement fund to compute their retirement based on their highest single annual salary. When the foreign assistance appropriations bill left the House there was no mention of this section 406. In the Senate, an amendment was attached prohibiting any of the funds in this act or any other pertinent appropriations act from being used to execute the provisions of section 406—the high one retirement.

I would like to make several observations, Mr. Speaker. First of all, this amendment is clearly legislation in an appropriation bill and it without a doubt goes far beyond the scope of this appropriations bill. The Appropriations Committee has come under a great deal of criticism in recent years because of our inclusion of certain provisions in appropriations bills which are construed as legislation. We have worked to ameliorate this situation and maintain a professional working relationship with the authorizing committees. Here is an instance which we feel is in definite violation of the intent of the rules of the House.

As to the merits of the amendment, the conferees have mixed emotions. However, there is one point which is obvious. On October 10, the legislation authorizing such retirement was signed into law.

If this amendment is adopted the issue will have to be fought out in the courts.

The Senate language simply prohibits funding availability for the high one legislation but the legislation that has been signed is an entitlement and personnel eligible to retire under such entitlement will have the right to sue the Government for the necessary funds to execute the provisions of the settlement. The result will be confusion and excessive court costs. Costs which will ultimately be borne by the taxpayer.

Mr. Speaker, I urge the Members to sustain the House position and deal with this issue in the appropriate authorizing legislation at a later date.

I am not particularly in favor of the high one retirement legislation but this is not the proper place or proper manner in which to deal with it. I do understand efforts are being made to repeal this legislation in other legislative measures, and that is the proper approach.

I ask that the gentleman's motion be defeated.

The SPEAKER pro tempore. The gentleman from Florida (Mr. YOUNG) is recognized for 30 minutes.

Mr. YOUNG of Florida. Mr. Speaker, the reason I offer this substitute motion is to give us an opportunity to clarify the issue and have some debate on this specific item and make a decision.

The House position is this, that certain employees of the State Department be permitted to retire having their retirement based on their high-1-year salary. Throughout the Government people retire based on the average of their 3 best years.

I want Members to know that I am standing up for the administration in this particular case. They are opposed to this high-1-year provision, if I read the CONGRESSIONAL RECORD accurately from September 29, 1978. They are opposed to it because they say it will bust the President's budget.

I will provide the letter for the RECORD.

But the figures they provide are these: The 1-year cost in this bill for fiscal year 1979 could be as high as $47 million to allow these people to retire using their high-1-year salary. They also tell us if all Federal agencies were to adopt this provision the annual cost could be $200 million to allow people to retire based on their high-1-year salary. In fact they project—and these are administration figures—over the 30-year period many employees could be expected to serve in the Government, the cost for this high-1-year provision could be as high as $3.5 billion, just so one group of employees could retire based on their high-1-year salary when everybody else retires based on the average of their best 3 years.

We ought to approve my substitute motion and concur with the position of the Senate, and that is to keep these employees in the same category as other Federal employees.

At this point I yield to the gentleman from Illinois (Mr. DERWINSKI) for the purpose of debate only, such time as he may consume.

Mr. DERWINSKI. Mr. Speaker, 2 months ago by an overwhelming vote of 280 in favor and 103 against, the House passed my amendment to this legislation striking $90 million from the economic support fund for Syria.

What particularly persuaded the House to take this action against Syria was the action of its military forces in Lebanon. For months now, that strife-torn country has seen killings and shellings of Christian civilians in Beirut and other parts of Lebanon by Syria's so-called peacekeeping forces. The slaughter became so systematic that it assumed overtones of genocide. Have the Lebanese Christians no human rights? As Israeli Prime Minister Begin noted last month in a plea to all Christian nations:

> The Christians in Northern Lebanon face a massacre. They are being attacked day in and day out. Help them for God's sake . . . this is my urgent call to all free nations—take care what is happening in Lebanon.

Syria is transforming its forces, originally part of an Arab peacekeeping force, into an army of occupation with all that implies for Lebanese independence and for Israel's security.

Since 1975, the United States has poured $425 million into Syria. The rationale for this assistance is the aim of gaining some leverage in a nation that has consistently opposed U.S. efforts to achieve lasting peace in the Middle East. A review of Syria's behavior from the inception of U.S. assistance indicates quite clearly that its intended effect has been minimal. The Syrians clearly remain responsive to the dictates of the Soviets who have furnished them with $3.5 billion in military assistance since the 1973 Yom Kippur war. Most recently Syria has rejected the results of Camp David as well as the President's call for an international conference to resolve the 3-year-old Lebanese civil war.

In view of the foregoing, you can understand my disappointment when I learned the committee of conference on this bill capitulated to heavy, last minute White House pressure, and voted to retain the $90 million. I hope I am wrong, but I am afraid this tells the Syrians that they can literally get away with murder.

I would like to commend the conferees for at least instructing the President in their report to use the money only if he believes its use will serve the process of peace in the Middle East. I regret, however, their decision to reject my suggestion that the President report to Congress his reasons for approving the use of such funding.

However, a number of items must be closely monitored, especially reports of growing Syrian military pressure in Lebanon. And the degree and nature of Soviet assistance to Syria in this regard.

The Syrians are partitioning Lebanon. And in the process are destroying Christian areas that had been sustained even during the centuries long Turkish occupation of that area.

We must also be alert to the humanitarian need for immigration, a situation in which the United States could play a leading role.

The legislative situation is stacked against me. The Senate and House-Senate conferees have capitulated under administration pressure, leaving the United States in an indefensible position of financing Syria, while that country's troops continue their attack on the Christian population of Lebanon.

I serve notice on the House that I intend to raise this issue at the earliest possible moment in the next Congress. I trust that I will find the administration at that time in a more legitimate position than its present posture of embracing the Syrians. Where is the Carter human rights concern for the Christian Lebanese?

Mr. YOUNG of Florida. Mr. Speaker, I yield to the gentleman from Alabama (Mr. BUCHANAN) for the purposes of debate only such time as he may consume.

Mr. BUCHANAN. Mr. Speaker, I rise in support of the motion of the gentleman from Maryland.

This body has voted twice in the Foreign Relations Authorization Act for this retirement provision under the regular procedures of the House. The President signed into law the bill authorizing this provision.

Now the Senate, which I might add also voted for this provision in approving the Foreign Relations Authorization Act conference report, is attempting to do an end around run against the House and place a legislative provision on an appropriations bill.

But let us look for a moment to see whether this amendment will accomplish what the Senate intends. The retirement provision is law, the President signed it. It is an entitlement. Thus those planning to take advantage of this provision—and it is my understanding that 45 individuals have already done so—could, and no doubt would, take the United States to court to obtain the money to which they are entitled.

Should we recede to the Senate on this amendment we will disregard our own rules in order to spend more money and continue inefficiency. At the same time we will open the door to a flood of suits against the Government which, in turn, will consume many man-hours and additional taxpayer dollars. It is my understanding that attorneys for both the Department of State and OMB believe the Government will lose these suits.

Mr. Speaker, the amendment is wrong and the method used to add the amendment is wrong and I, therefore, strongly urge my colleagues to agree to the motion of our distinguished colleague from Maryland to disagree to the Senate amendment and insist on the House position.

Mr. LONG of Maryland. Mr. Speaker, I yield 3 minutes to the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. Mr. Speaker, I thank the gentleman for yielding to me.

Mr. Speaker, I have had a number of the Members come up to me within the last few minutes after hearing the remarks of the gentleman from Florida (Mr. YOUNG) and they have said to me,

"Hey, Obey, what is wrong with what Young is saying?"

I simply want you to understand the position the Committee on Appropriations found itself in. We were faced with an issue which had already been decided by this House in the authorization bill. This House already voted in the authorization bill for the procedure on State Department retirement which the gentleman from Florida is now suggesting ought to be knocked out.

The Committee on Appropriations could have done that. I do not happen to favor the position of the authorizing committee. But I want to ask all of you who are members of authorizing committees one question:

Do you want the Committee on Appropriations in the future to use its power in the appropriations process to nullify actions taken by authorizing committees?

I do not think you do. That is the No. 1 reason that we chose not to exercise the power which we could have exercised to oust this particular provision which none of us are very happy about, or at least some of us are not.

Secondly, even if you adopt the motion of the gentleman from Florida (Mr. YOUNG) as the saying goes, "We ain't doin' nothin'." Because the fact is that because of a previous action of this House those retirees have a legal entitlement to that retirement at higher pay.

Now you may not like that but you voted for it, not on this bill, but on the authorization bill several weeks ago.

So if you vote tonight, and you can do that if you want to, and I suspect you probably will, but if you vote tonight for the motion of the gentleman from Florida, please understand that you will not be saving the taxpayers a dime. All you will be doing is creating additional legal cases which will cost Uncle Sam more dollars to defend because those retirees will have a legal entitlement and nothing we do here tonight will change that.

Mr. KAZEN. Mr. Speaker, will the gentleman yield for a question?

Mr. OBEY. Surely.

Mr. KAZEN. Is it not possible for this House tonight to put a provision in this bill repealing that previous action?

Mr. OBEY. No, it is not.

Mr. LONG of Maryland. No, it is not.

Mr. KAZEN. If no point of order is raised against it, it cannot be done? Is the gentleman telling me that it cannot be done?

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. OBEY. May I have 1 more minute to respond to the gentleman from Texas?

Mr. LONG of Maryland. I yield 1 additional minute to the gentleman from Wisconsin.

Mr. OBEY. Mr. Speaker, as a practical matter there are some Members of this House who approve of that provision because they think it gets rid of State Department deadwood, so they would probably object to any unanimous consent request.

Mr. KAZEN. You are going to reward them by getting rid of them at a higher retirement?

Mr. OBEY. I do not reward them, the House passed the legislation, I did not.

Mr. KAZEN. That is why you should repeal it by voting against it.

Mr. LONG of Maryland. Mr. Speaker, I yield 3 minutes to the gentleman from Florida (Mr. FASCELL).

Mr. FASCELL. Mr. Speaker, I thank the gentleman for yielding.

I agree with the remarks of the gentleman from Wisconsin (Mr. OBEY), Mr. Speaker; and I would urge that the motion made by the gentleman from Florida (Mr. YOUNG) be voted down, because all that it would do is confuse the issue. The House should vote for the motion made by the gentleman from Maryland (Mr. LONG), the chairman, because the effort in this bill to repeal the authorizing act will, in fact, not repeal that legislative act.

Therefore, Mr. Speaker, while it sounds good, it has the direct legal effect of simply complicating an issue which has already taken place and upon which people have relied. The proper process would be to submit a direct repealer or some other modification of the issue in a proper legislative vehicle.

Prohibition of the funds, which exists in the language of the Senate amendment, which is not germane, and therefore has to come in for a separate vote, and which the gentleman from Florida now asks us to concur in, will simply cloud the issue and not resolve it. Therefore, I urge you to vote against the motion to recede and concur with the Senate amendment and vote for the motion to insist on the disagreement of the House with the Senate amendment.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this problem is not all that complicated. I think it is very simple to understand.

The gentleman from Wisconsin (Mr. OBEY) has made the point that the House has approved this language. Mr. Speaker, we all know that the House approves a lot of authorization bills with many, many different sections in them. If we had the opportunity to vote on every section separately, many of the sections would not be there.

That, I submit, is the case with section 406 of the House bill. Had the Members had the opportunity to vote separately on this section. I do not think it would be in the bill; but there was no vote on this section 406.

Mr. Speaker, all we are doing here, if we agree to the Senate language, is the same thing we often do on appropriation bills, and that is to place a restriction upon the use of the funds. This is not the first time that has ever happened, and I would submit respectfully that it is certainly not the last.

Mr. Speaker, here is what the language says:

Provided, that none of these funds or any of the funds available to the Foreign Service Retirement and Disability Fund shall be available to carry out the provisions of section 406 of the Foreign Relations Authorizations Act, fiscal year 1979.

That is all it is, a simple restriction on the use of appropriated funds.

Mr. SIMON. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Florida. I am happy to yield to the gentleman from Illinois.

Mr. SIMON. Mr. Speaker, I am not sure that the gentleman from Florida (Mr. YOUNG) caught the point of my colleague, the gentleman from Wisconsin (Mr. OBEY).

What happened is that we now have a law, a bill which was signed into law by the President after having been passed by the House and Senate, as a result of which some people have some legal entitlements. The fact that we do not appropriate the money now, whether it was good policy or bad policy, does not matter. It is the law, and we have said in the law, "You are entitled to certain retirement benefits."

Whether or not we appropriate the money or whether they sue for it, they will get the money and we will have to pay the legal fees. I do not see any way out of that right now.

Mr. YOUNG of Florida. The gentleman from Illinois (Mr. SIMON) is not correct in saying that I did not understand that because I did understand it. The gentleman is correct that that could very well be the situation. However, I just do not think that we need to be taking one bad step because we took another bad step. Once in a while, if we are wrong, we ought to admit we are wrong. We are wrong if we are going to take the taxpayers' money and use it to give special benefits to one special group of employees. I love them all, all of the ones I know who serve in the foreign service. I love them, and I am sure that I love their colleagues whom I do not know. I would like to do all kinds of good things for them, but I am looking at the $47 million that your taxpayers and my taxpayers are going to have to come up with. That, I think, is unfair because it applies to only one group of employees who work for the Federal Government but not to others. There is just something wrong with that way of thinking.

Mr. SIMON. If the gentleman will yield further, Mr. Speaker, I think his motion is directed to the wrong bill.

Would the gentleman acknowledge that if his motion is adopted, we will not save one penny; and in fact, it will cost the taxpayers more money?

Mr. YOUNG of Florida. No, I will not. I would say to my dear friend and colleague that I refuse to acknowledge that because I am not convinced that that is the case.

Mr. YOUNG of Florida. Mr. Speaker, I yield back the balance of my time.

Mr. LONG of Maryland. Mr. Speaker, I yield back the balance of my time.

Mr. YOUNG of Florida. Mr. Speaker, I move the previous question on the motion to recede and concur.

The previous question was ordered.

The SPEAKER pro tempore. The question is on the preferential motion to re-

cede and concur offered by the gentleman from Florida (Mr. YOUNG).

The question was taken; and on a division (demanded by Mr. YOUNG of Florida—there were—ayes 67, noes 47.

So the motion to recede and concur was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 37 is as follows:

Page 10, line 6, after "3109" insert ": *Provided further*, That not to exceed $10,000,000 of the funds made available by this Act shall be made available for personal service contracts and that of this amount not to exceed $2,000,000 shall be made available from Operating Expenses of the Agency for International Development and not to exceed $2,000,000 shall be made available from Operating Expenses of the Agency for International Development and not to exceed $8,000,000 shall be available from other funds made available by this Act".

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 37 and concur therein.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The Senate Amendment No. 40 is as follows: Page 11, line 22 after "$64,500,000" insert ", in addition to which amount the unobligated balance as of September 30, 1978, in the basic account symbol assigned by the Treasury for the appropriation made available under this heading for the fiscal year 1977 and the unobligated balance as of September 30, 1978, in the basic account symbol assigned by the Treasury for the appropriation made available under this heading for the fiscal year 1978 are continued available for the fiscal year 1979 and, further, amounts obligated as of September 30, 1978, in the basic account symbol assigned by the Treasury for the appropriation made available under this heading for the fiscal year 1978, are, if deobligated, continued available for the fiscal year 1979, the total of all such funds made available not to exceed $211,875,000. The unobligated and obligated balances as of September 30, 1978, shall be merged with and accounted for under the same basic account symbol assigned by the Treasury for the appropriation made under this heading".

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 40 and concur therein with an amendment, as follows: In lieu of the sum named in said amendment, insert: "$210,375,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 41 is as follows: Page 12, line 14, after "$64,500,000" and insert ": *Provided*, That the Appropriations Committees of both Houses of the Congress are notified fifteen days in advance of the obligation of such deobligated funds for activities, programs, projects, type of material assistance, countries other operations not justified or in excess of the amount justified for the fiscal year 1979".

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 41 and concur therein.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 45 is as follows: Page 13, line 3, after "700,000" insert ", in addition to which amount the unobligated balance as of September 30, 1978, in the basic account symbol assigned by the Treasury for the appropriation made available under this heading for the fiscal year 1977 and the unobligated balance as of September 30, 1978, in the basic account symbol assigned by the Treasury for the appropriation made available under this heading for the fiscal year 1978 are continued available for the fiscal year 1979 and, further, amounts obligated as of September 30, 1978, in the basic account symbol assigned by the Treasury for the appropriation made available under this heading for the fiscal year 1978 are, if deobligated, continued available for the fiscal year 1979, the total of all such funds made available not to exceed $30,915,000. The unobligated and obligated balances as of September 30, 1978, shall be merged with and accounted for under the same basic account symbol assigned by the Treasury for the appropriation made under this heading

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 45 and concur therein with an amendment, as follows: In lieu of the sum named in said amendment, insert: "$28,755,000".

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 46 is as follows: Page 13, line 20, after "700,000" insert ": *Provided*, That the Appropriations Committees of both Houses of the Congress are notified fifteen days in advance of the obligation of such deobligated funds for activities, programs, projects, type of materiel assistance, countries or other operations not justified or in excess of the amount justified for the fiscal year 1979".

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 46 and concur therein.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 48 is as follows: Page 14, after line 20, insert:

SEC. 103. Unobligated balances as of September 30, 1978, of funds heretofore made available under the authority of the Foreign Assistance Act of 1961, as amended, for "International disaster assistance", "Middle East special requirements fund", and "United States emergency refugee and migration assistance fund" are hereby continued available for the fiscal year 1979, for the same appropriation account and for the same purposes for which appropriated.

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 48 and concur therein.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 63 is as follows: Page 18, line 1, after "1978" insert", and except that the President may waive this prohibition with respect to any such country if he determines, and so reports to the Congress, that furnishing such assistance to such country would further the foreign policy interests of the United States".

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 63 and concur therein.

Mr. BAUMAN. Mr. Speaker, on Senate amendment No. 63, I demand a division of the question, and I wish to be heard.

The SPEAKER pro tempore. The question will be divided.

Mr. LONG of Maryland. Regular order, Mr. Speaker.

The SPEAKER pro tempore. The Chair is attempting to proceed with regular order.

The gentleman from Maryland (Mr. LONG) will be recognized for 30 minutes, the gentleman from Florida (Mr. YOUNG) will be recognized for 30 minutes, and the question will be divided.

The Chair recognizes the gentleman from Maryland (Mr. LONG).

Mr. LONG of Maryland. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this motion provides that the House would recede from its position which would be a straight cutoff of direct assistance to Mozambique and Angola to accept the Senate position which would allow for a Presidential waiver in certain circumstances.

On September 26, the President signed into law the International Security Assistance Act of 1978. This act contains a section 533(b) which does basically the same thing as the Senate amendment. Even though the Senate amendment extends the waiver authority to the entire foreign assistance bill, the bulk of any assistance to persons in Mozambique and Angola would come from the economic support fund which is covered by the authorization bill.

Mr. Speaker, the effect of the motion before the House will be to basically bring the provisions of the appropriation bill

and the relative authorization bill into conformance. I urge that the Members adopt the motion.

Mr. YOUNG of Florida. Mr. Speaker, I yield such time as he may consume to the gentleman from Maryland (Mr. BAUMAN).

Mr. BAUMAN. Mr. Speaker, the motion before us is to recede from the House position. The bill as passed originally contained an absolute prohibition against any direct aid to Mozambique or Angola. The conferees on the House side agreed to a position that would allow the President to waive this prohibition and simply inform the Congress that he was willing to give foreign aid to either one of these Marxist-controlled countries in Africa.

It is true this provision in the law is already in effect in the Foreign Assistance Act that was passed earlier, and that in fact was an amendment that was offered by me on May 12.

But I happen to believe that the situation in Southern Africa has changed appreciably since this House acted on May 12. I do not honestly believe the President, who within the last 48 hours has refused even to meet with Prime Minister Ian Smith and Rev. Sithole of Rhodesia to discuss the situation, ought to be able to have the power to give foreign aid to two Marxist countries, both of which are serving as bases for guerrilla and Communist operations against the people of Rhodesia and South West Africa.

In the case of Angola it is the base for operations for various activities against the Southwest African Territory, better known these days as Namibia, and in the case of Mozambique it is the major staging area for the guerrillas who are attacking and killing blacks and whites.

I cannot forsee any situation in which the best interests of the foreign policy of the United States would require giving aid to either of those two countries.

If the Members believe as I do that this Congress ought to go on record against the activities that are occurring there, against the slaughter that is occurring there, against the intervention of Cuban troops in the area, and against Russian advisors and all the violence that is occurring there, and demand a stable policy in southern Africa, I would strongly urge them to vote against the motion to recede so we would have an absolute prohibition against aid to either of these two countries. Then that policy could be changed only if the President came to Congress and asked a waiver of this prohibition.

Mr. Speaker, I urge a no vote on the motion.

Mr. LONG of Maryland. Mr. Speaker, I yield 3 minutes to the gentleman from New York (Mr. SOLARZ).

Mr. SOLARZ. Mr. Speaker, I must say that that I am amazed that the gentleman from Maryland (Mr. BAUMAN) would urge us to reject this amendment, since he is in effect asking us to reject the very same amendment which he offered in this Chamber to the authorization bill on May 12.

That foreign aid authorizing legislation contained no prohibition whatsoever against foreign aid to either Mozambique or Angola. The gentleman from Maryland (Mr. BAUMAN), who is concerned about the possibility that our tax dollars might be going to either of those two countries, offered an amendment which was accepted and adopted on the floor providing that no foreign aid could go to either Angola or Mozambique unless the President certified that it was in our foreign policy interests to provide such assistance to those two countries.

Lo and behold, an identical amendment is adopted in the Senate to the foreign aid appropriations bill. And when the conference committee met, the House conferees, knowing that the Members of the House had accepted precisely the same amendment when it was offered by the gentleman from Maryland to the authorization bill, graciously decided to recede and concur to the Senate amendment on the grounds that we had already expressed our will in favor of precisely that proposition on May 12, when it was offered by the gentleman from Maryland, who now asks us to reject the very amendment which he urged upon us a few months ago.

The gentleman tells us that since that time things have changed in southern Africa. And, indeed, they have. But what happened? We find that Angola, over the course of the past few months has entered into an agreement with Zaire, in order to prevent the Zaireians who are in Angola from passing into Zaire and the Angolan's in Zaire from crossing over to Angola. That was a constructive agreement, and our own country has applauded it and supported it.

We also find that the Angolan Government played an instrumental role in encouraging SWAPO, the rebel group in Namibia, to accept the proposals of the Western Five, including our own country, for a peaceful transition to majority rule in Namibia. The only change which has taken place is that the Government of South Africa, which originally accepted the proposal of the Western Five, 2 weeks ago decided to repudiate the very agreement which they originally accepted.

Mr. Speaker, I would submit that in the last few months, if we take a look at what has happened in southern Africa, we would find that the Government of Angola on two important matters concerning their relations with Zaire, on the one hand, and the future of Namibia, on the other, has acted in an extremely constructive and statesmanlike fashion.

All this amendment does, to which the committee has asked us to recede and concur, is not to provide any foreign aid to Angola or Mozambique, but simply to provide the President of the United States with the flexibility, if he deems it in the foreign policy interest of the country, to provide them with some assistance in the future. We may well need the cooperation of these countries in the critical days ahead us we proceed with our efforts to promote peaceful transitions to majority role in Zimbabwe and Namibia and I urge you to give the President the flexibility which he may need.

Mr. YOUNG of Florida. Mr. Speaker, I yield such time as he may consume to the gentleman from Maryland (Mr. BAUMAN).

Mr. BAUMAN. Mr. Speaker, if there was ever any proof of need for the rejection of this language and the need to vote no on the pending motion to recede, the gentleman from New York just provided it. The gentleman from New York has from the beginning been in league consistently on the issues of South African policy with Ambassador Young, President Carter, and Richard Moos, down at the State Department. They are the architects of a most disastrous policy. And the gentleman said right, "Let the President have the discretion to use this foreign aid if he wishes to give to these two countries." He cannot deny that the Cubans are there in the thousands. He cannot deny that Mozambique is the base for slaughtering of whites and blacks in Rhodesia. He says, "Maybe in the next fiscal year"—and that is all this provision applies to—"the situation will change to where we ought to give these countries American taxpayers' money in the form of foreign aid."

I cannot concede that happening. But if it does, we ought not leave it to the President alone. We have a coequal responsibility on foreign policy matters.

I urge a no vote. If you do not agree with our present policy toward southern Africa, if you do not agree with the Marxist presence in these countries, vote no on this motion to recede.

The SPEAKER pro tempore. The question is: Will the House recede from its disagreement to Senate amendment No. 63.

The question was taken; and on a division (demanded by Mr. SOLARZ) there were—yeas 60; nays 50.

Mr. BAUMAN. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 161, nays 204, not voting 65, as follows:

The Clerk announced the following pairs:

Mr. Annunzio with Mr. Wiggins.
Mr. Aspin with Mr. Schulze.
Mr. Chappell with Mr. Sawyer.
Mr. Dingell with Mr. Rudd.
Mr. Edwards of California with Mr. Sarasin.
Mr. Neal with Mr. Skubitz.
Mr. Miller of California with Mr. Young of Alaska.
Mr. Krueger with Mr. Badham.
Mr. Giaimo with Mr. Beard of Tennessee.
Mr. Rosenthal with Mr. Broomfield.
Mr. Shipley with Mr. Cochran of Mississippi.
Mr. Sikes with Mr. Crane.
Mr. Teague with Mr. Hollenbeck.
Mr. White with Mr. Frey.
Mr. Charles Wilson of Texas with Mr. Hillis.
Mr. Traxler with Mr. Quayle.
Mr. Charles H. Wilson of California with Mr. Fish.
Mr. Slack with Mr. Kasten.
Mr. Sisk with Mr. Quie.
Mrs. Meyner with Miss Jordon.
Mr. Harrington with Mr. Kindness.
Mr. Evans of Colorado with Mr. Leggett.
Mr. Brown of California with Mr. Meeds.
Mrs. Burke of California with Mr. Milford.
Mr. Ammerman with Mr. Conyers.
Mr. Yates with Mr. Moss.
Mr. Baucus with Mr. Garcia.
Mr. John L. Burton with Mr. Ireland.
Mr. Phillip Burton with Mr. Tsongas.
Mr. Clay with Mr. Diggs.
Mr. Stark with Mrs. Pettis.

Mr. RISENHOOVER changed his vote from "yea" to "nay."

So the motion to recede was rejected.

The result of the vote was announced as above recorded.

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House insist on its disagreement to the amendment of the Senate numbered 63.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 65 is as follows: page 18, line 13, strike out all after "appropriated" down to and including "advance" in line 8 and insert "without the written prior approval of the Appropriations Committees of both Houses of the Congress".

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 65 and concur therein.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 73 is as follows: page 20, line 16, after "$91,336,000" insert ": *Provided further*, That $20,000,000 of these funds be expended only by the Department of Health, Education, and Welfare for the resettlement in the United States of Soviet and other refugees not currently covered by existing Federal refugee programs: *Provided further*, That these funds shall be administered in a manner that ensures equity in the treatment of all refugees receiving Federal assistance".

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 73 and concur therein.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 82 is as follows: page 25, after line 7, insert:

FUTURE UNITED STATES CONTRIBUTIONS TO THE INTERNATIONAL FINANCIAL INSTITUTIONS

It is the sense of the Congress that the United States share of contributions to future replenishments of the International Financial Institutions should not exceed the percentages enumerated below for each of the respective accounts within these institutions:

Asian Development Bank:
Paid-in capital, 16.3 percent;
Callable capital, 16.3 percent;
Asian Development Fund, 22.2 percent;
African Development Bank:
Special Fund, 18 percent;
Inter-American Development Bank:
Paid-in capital, 34.5 percent;
Callable capital, 34.5 percent;
Fund for Special Operations, 40 percent;
International Bank for Reconstruction and Development:
Paid-in capital, 24 percent;
Callable capital, 24 percent;
International Development Association, 25 percent;
International Finance Corporation, 23 percent.

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 82 and concur therein.

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

Senate amendment No. 94 is as follows: Page 30, line 19, strike out all after line 19 over to and including line 6 on page 23.

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 94 and concur therein with an amendment, as follows: Restore the matter stricken by said amendment, amended to read as follows:

"SEC. 608. None of the funds appropriated or made available pursuant to this Act for direct foreign assistance and none of the funds otherwise made available pursuant to this Act to the Export-Import Bank and the Overseas Private Investment Corporation shall be obligated or expended to finance any loan, any assistance or any other financial commitments for establishing or expanding production of any commodity for export by any country other than the United States, if the commodity is likely to be in surplus on world markets at the time the resulting productive capacity is expected to become operative and if the assistance will cause substantial injury to United States producers of the same, similar or competing commodity: *Provided*, That such prohibition shall not apply to the Export-Import Bank if in the judgment of its Board of Directors the benefits to industry and employment in the United States are likely to outweigh the injury to United States producers of the same, similar or competing commodity."

The motion was agreed to.

The SPEAKER. The Clerk will designate the last amendment in disagreement.

Senate amendment No. 96 is as follows: Page 31, after line 20, insert:

SEC. 609. The President shall initiate wide international consultations beginning with the member nations of the Organization of Economic Cooperation and Development (OECD), designed to develop a viable standard governing the allocation of development assistance for the production and export of commodities. Such consultations shall relate to commodities which are in surplus in the world market and if produced for export would cause substantial harm to producers of the same, similar or competing products. Not later than one year after the enactment of this Act the President shall report to the President of the Senate, the Speaker of the House of Representatives, and the Chairmen of the House and Senate Appropriations Committees on the progress made in carrying out this section.

MOTION OFFERED BY MR. LONG OF MARYLAND

Mr. LONG of Maryland. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. LONG of Maryland moves that the House recede from its disagreement to the amendment of the Senate numbered 96 and concur therein with an amendment, as follows: In lieu of the section number named in said amendment, insert "610".

The motion was agreed to.

A motion to reconsider the votes by which action was taken on the conference report and the several motions was laid on the table.

GENERAL LEAVE

Mr. LONG of Maryland. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the conference report just agreed to and also on the amendments in disagreement and the motions just agreed to.

Mr. Speaker, I also ask unanimous consent that I may be permitted to include certain extraneous matter and tables.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate, by Mr. Sparrow, one of its clerks, announced that the Senate insists upon its amendment to the bill (H.R. 11209) entitled "An act to provide for the establishment, ownership, operation, and governmental oversight and regulation of international maritime satellite telecommunications services."

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 12929) entitled "An act making appropriations for the Departments of Labor, and Health, Education, and Welfare, and related agencies, for the fiscal year ending September 30, 1979, and for other purposes."

And, that the Senate agreed to the amendments of the House to the amendments of the Senate numbered 9, 15, 16, 23, 24, 25, 29, 31, 32, 33, 38, 39, 42, 44, 57, 72, 80, and 92 to the above-entitled bill.

And, that the Senate recedes from its amendment numbered 103 to the bill with an amendment.

CONFERENCE REPORT ON S. 1487 ELIMINATING RACKETEERING IN SALE AND DISTRIBUTION OF CIGARETTES

Mr. RODINO submitted the following conference report and statement on the Senate bill (S. 1487) to eliminate racketeering in the sale and distribution of cigarettes, and for other purposes:

CONFERENCE REPORT (H. REPT. NO. 95-1778)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 1487) to eliminate racketeering in the sale and distribution of cigarettes, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the text of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment, insert the following:

That title 18, United States Code, is amended by inserting after chapter 113 the following new chapter:

"Chapter 114—TRAFFICKING IN CONTRABAND CIGARETTES

"Sec.
"2341. Definitions.
"2342. Unlawful acts.
"2343. Recordkeeping and inspection.
"2344. Penalties.
"2345. Effect on State law.
"2346. Enforcement and regulations.

"§ 2341. Definitions

"As used in this chapter—

"(1) the term 'cigarette' means—

"(A) any roll of tobacco wrapped in paper or in any substance not containing tobacco; and

"(B) any roll of tobacco wrapped in any substance containing tobacco which, because of its appearance, the type of tobacco used in the filler, or its packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette described in subparagraph (A);

"(2) the term 'contraband cigarettes' means a quantity in excess of 60,000 cigarettes, which bear no evidence of the payment of applicable State cigarette taxes in the State where such cigarettes are found, if such State requires a stamp, impression, or other indication to be placed on packages or other containers of cigarettes to evidence payment of cigarette taxes, and which are in the possession of any person other than—

"(A) a person holding a permit issued pursuant to chapter 52 of the Internal Revenue Code of 1954 as a manufacturer of tobacco products or as an export warehouse proprietor, or a person operating a customs bonded warehouse pursuant to section 311 or 555 of the Tariff Act of 1930 (19 U.S.C. 1311 or 1555) or an agent of such person;

"(B) a common or contract carrier transporting the cigarettes involved under a proper bill of lading or freight bill which states the quantity, source, and destination of such cigarettes;

"(C) a person—

"(i) who is licensed or otherwise authorized by the State where the cigarettes are found to account for and pay cigarette taxes imposed by such State; and

"(ii) who has complied with the accounting and payment requirements relating to such license or authorization with respect to the cigarettes involved; or

"(D) an officer, employee, or other agent of the United States or a State, or any department, agency, or instrumentality of the United States or a State (including any political subdivision of a State) having possession of such cigarettes in connection with the performance of official duties;

"(3) the term 'common or contract carrier' means a carrier holding a certificate of convenience and necessity, a permit for contract carrier by motor vehicle, or other valid operating authority under the Interstate Commerce Act, or under equivalent operating authority from a regulatory agency of the United States or of any State;

"(4) the term 'State' means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or the Virgin Islands; and

"(5) the term 'Secretary' means the Secretary of the Treasury.

"§ 2342. Unlawful acts

"(a) It shall be unlawful for any person knowingly to ship, transport, receive, possess, sell, distribute, or purchase contraband cigarettes.

"(b) It shall be unlawful for any person knowingly to make any false statement or representation with respect to the information required by this chapter to be kept in the records of any person who ships, sells, or distributes any quantity of cigarettes in excess of 60,000 in a single transaction.

§ 2343. Recordkeeping and inspection

"(a) Any person who ships, sells, or distributes any quantity of cigarettes in excess of 60,000 in a single transaction shall maintain such information about the shipment, receipt, sale, and distribution of cigarettes as the Secretary may prescribe by rule or regulation. The Secretary may require such person to keep only—

"(1) the name, address, destination (including street address), vehicle license number, driver's license number, signature of the

person receiving such cigarettes, and the name of the purchaser;

"(2) a declaration of the specific purpose of the receipt (personal use, resale, or delivery to another); and

"(3) a declaration of the name and address of the recipient's principal in all cases when the recipient is acting as an agent.

To the extent that such information is contained in existing business records, no additional records shall be required by the Secretary. Nothing contained herein shall authorize the Secretary to require reporting under this section.

"(b) Upon the consent of any person who ships, sells, or distributes any quantity of cigarettes in excess of 60,000 in a single transaction or pursuant to a duly issued search warrant, the Secretary may enter the premises (including places of storage) of such person for the purpose of inspecting any records or information required to be maintained by such person under this chapter, and any cigarettes kept or stored by such person at such premises.

§ 2344. Penalties

"(a) Whoever knowingly violates section 2342(a) of this title shall be fined not more than $100,000 or imprisoned not more than five years, or both.

"(b) Whoever knowingly violates any rule or regulation promulgated under section 2343(a) or 2346 of this title or violates section 2342(b) of this title shall be fined not more than $5,000 or imprisoned not more than three years, or both.

"(c) Any contraband cigarettes involved in any violation of the provisions of this chapter shall be subject to seizure and forfeiture, and all provisions of the Internal Revenue Code of 1954 relating to the seizure, forfeiture, and disposition of firearms, as defined in section 5845(a) of such Code, shall, so far as applicable, extend to seizures and forfeitures under the provisions of this chapter.

"§ 2345. Effect on State law

"(a) Nothing in this chapter shall be construed to affect the concurrent jurisdiction of a State to enact and enforce cigarette tax laws, to provide for the confiscation of cigarettes and other property seized for violation of such laws, and to provide for penalties for the violation of such laws.

"(b) Nothing in this chapter shall be construed to inhibit or otherwise affect any coordinated law enforcement effort by a number of States, through interstate compact or otherwise, to provide for the administration of State cigarette tax laws, to provide for the confiscation of cigarettes and other property seized in violation of such laws, and to establish cooperative programs for the administration of such laws.

"§ 2346. Enforcement and regulations

"The Secretary, subject to the provisions of section 2343(a) of this title, shall enforce the provisions of this chapter and may prescribe such rules and regulations as he deems reasonably necessary to carry out the provisions of this chapter.".

SEC. 2. The table of chapters of part I of title 18, United States Code, is amended by inserting immediately below the item relating to chapter 113 the following:

"114. Trafficking in Contraband Cigarettes ---------- 2341."

SEC. 3. (a) Section 1(b) of the Act of August 9, 1939 (ch. 618, 53 Stat. 1291 (49 U.S.C. 781(b)), is amended—

(1) by striking out "or" at the end of paragraph (2);

(2) by striking out the period at the end of paragraph (3) and inserting in lieu thereof "; or"; and

(3) by inserting after paragraph (3) the following new paragraph:

"(4) Any cigarette, with respect to which there has been committed any violation of chapter 114 of title 18, United States Code, or any regulation issued pursuant thereto.".

(b) Section 7 of the Act of August 9, 1939 (ch. 618, 53 Stat. 1291 (49 U.S.C. 787)), is amended—

(1) by striking out "and" at the end of subsection (e);

(2) by striking out the period at the end of subsection (f) and inserting in lieu thereof "; and"; and

(3) by inserting after subsection (f) the following new subsection:

"(g) The term 'cigarettes' means 'contraband cigarettes' as now or hereafter defined in section 2341 of title 18, United States Code.".

(c) Section 1961(1)(B) of title 18, United States Code, is amended by inserting after "sections 2314 and 2315 (relating to interstate transportation of stolen property)," the following: "sections 2341–2346 (relating to trafficking in contraband cigarettes),".

SEC. 4. (a) Except as provided in subsection (b), this Act shall take effect on the date of its enactment.

(b) Sections 2342(b) and 2343 of title 18, United States Code, as enacted by the first section of this Act, shall take effect on the first day of the first month beginning more than 120 days after the date of the enactment of this Act.

SEC. 5. There are hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of chapter 114 of title 18, United States Code, added by the first section of this Act.

And the House agree to the same.

That the Senate recede from its disagreement to the amendment of the House to the title of the bill and agree to the same.

JOHN CONYERS,
ELIZABETH HOLTZMAN,
ALLEN ERTEL,
LAMAR GUDGER,
HAROLD L. VOLKMER,
PETER RODINO,
TOM RAILSBACK,
JOHN ASHBROOK,
Managers on the Part of the House.

JAMES O. EASTLAND,
EDWARD KENNEDY,
JOE BIDEN,
STROM THURMOND,
ORRIN G. HATCH,
Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 1487) to eliminate racketeering in the sale and distribution of cigarettes, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The House amendment to the text of the bill struck out all of the Senate bill after the enacting clause and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House with an amendment which is a substitute for the Senate bill and the House amendment. The differences between the Senate bill, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

(1) STATEMENT OF FINDINGS AND PURPOSE

The Senate bill contains a "Statement of Findings and Purpose".

The House amendment contains no comparable provision.

The conference substitute adopts the House version with the intent that since the Senate provision merely summarizes the legislative history giving rise to this Act, it serves no legislative purpose to restate it in the Act itself.

Nevertheless, the conferees acknowledge the accuracy of the statements contained in the "Statement of Findings and Purpose" of the Senate bill, to wit, the following:

(1) there is widespread traffic in cigarettes moving in or otherwise affecting interstate of foreign commerce, and that the States are not adequately able to stop the movement into their States and the sale of such cigarettes in violation of their tax laws through the exercise of their police power;

(2) there is a causal relationship between the flow of cigarettes into interstate commerce to be sold in violation of State laws and the rise of racketeering in the United States;

(3) a Federal role in the fight against cigarette smuggling will assist the States in their law enforcement efforts and will be undertaken with the recognition that primary enforcement responsibility remains with the individual States;

(4) certain records maintained by persons possessing, selling, distributing, carrying, transporting, purchasing, or receiving cigarettes could have a high degree of usefulness in criminal investigations.

(5) It is the purpose of this Act to provide a timely solution to a serious organized crime problem and to help provide law enforcement assistance to individual States.

With respect to any possible effect which the absence of a Statement of Findings and Purpose might have—particularly the absence of its mention of cigarette bootlegging moving in or otherwise affecting interstate or foreign commerce—the following letter from John C. Keeney, Deputy Assistant Attorney General, Criminal Division, U.S. Department of Justice, was before the conferees:

DEPARTMENT OF JUSTICE,
Washington, D.C., October 2, 1978.

HON. JOHN CONYERS, JR.,
Chairman, Subcommittee on Crime, Committee on the Judiciary, House of Representatives, Washington, D.C.

DEAR CONGRESSMAN CONYERS: This is in response to your letter of September 18, 1978, requesting the formal views of this Department as to whether or not absence of specific mention of "interstate commerce" in H.R. 8853 renders it constitutionally defective.

We do not think the bill is constitutionally defective because of its failure to mention "interstate commerce" specifically. The interstate aspect of cigarette bootlegging is inherent in the activity. Congress' legislative efforts to make it a crime are premised on the interstate element: it is because of the interstate nature of the activity; and the inability of the States to control it, that the effort to legislate was undertaken. These factors are made clear, as you point out, by the legislative history of the bill. Therefore, the lack of a statement of findings and purposes relating to the interstate nature of bootlegging in this most recent version of the bill does not seem to us to be a defect. Most bills, after all, do not specifically set forth the findings of fact upon which they are based, and there is no requirement that they do so. *Perez* v. *United States*, 402 U.S. 146, 156 (1971).

Nor do we see a problem because the substantive provisions are not limited to interstate traffic in cigarettes. With respect to prospective criminal cases where an interstate element is shown, the bill is clearly constitutional. Should strictly intrastate activities become the subject of prosecution, we think any court would find, just as the Supreme Court did in *Perez, supra*, that the activities affect interstate commerce on the basis of the Congress' detailed findings as they appear in the legislative history of the legislation.

In *Perez*, the Court found that "[e]xtortionate credit transactions, though purely

intrastate, may in the judgment of Congress affect interstate commerce." *Id.* at 154. According to the Court, Congress may deliberately write a law encompassing "'more than the precise thing to be prevented'" if necessary to prevent an evil. Finally, as a practical matter, the incidence of cases involving purely intrastate activities should be rare since the Department has repeatedly declared its intention to prosecute only when organized crime is involved.

In our view, the only question here is whether cigarette bootlegging is a class of activities within the power of Congress to regulate. The answer to the question is unlikely to depend on whether Congress restricts the bill's substantive provisions to transactions involving interstate activities or whether it attaches formal findings as a preamble.

Please let me know if I can be of any further assistance.

Sincerely,

JOHN C. KEENEY,
Deputy Assistant Attorney General,
Criminal Division.

(2) DEFINITIONS

(A) *Definition of the term "contraband cigarettes"*

1. The Senate bill defines "contraband cigarettes" as a quantity of sixty thousand or more cigarettes, bearing no evidence of the payment of applicable State cigarette taxes in the State in which they are found.

The House amendment is similar but defines "contraband cigarettes" as a quantity in excess of 30,000 cigarettes.

The conference substitute adopts the House provision with a modification providing that "contraband cigarettes" means a quantity in excess of 60,000 cigarettes.[1]

2. The Senate bill excludes from the definition of "contraband cigarettes" those cigarettes in the possession of four specific classes of persons.

The House amendment similarly excludes from the definition of "contraband cigarettes" cigarettes in the possession of the same four classes of persons, except that (1) the exclusion for cigarettes in the possession of common or contract carriers only applies to those transporting cigarettes under a proper bill of lading or freight bill which states the quantity, source and destination of such cigarettes, and (2) the exclusion for cigarettes in the possession of persons licensed or otherwise authorized by the State where the cigarettes are found to account for and pay cigarette taxes imposed by such State only applies to those who have actually complied with the accounting and tax payment requirements relating to such license or authorization with respect to the cigarettes involved.

The conference substitute adopts the House provision with modifications.

[1] Some concern was expressed in the course of the conference that the definition of "contraband cigarettes" inadvertently extinguished rights of certain Indians and Indian tribes under current law to engage in the commercial sale of cigarettes within Indian country free of State taxation. The phrase "applicable State cigarette taxes" makes it clear that this legislation is not intended to affect transportation or sale by Indians or Indian tribes acting in accordance with legally established rights. The conferees do not intend that this bill address the current exemption from state taxation of cigarette sales on Indian reservations and nothing in this bill is intended to affect this or any other immunity from state tax held by any Indian or Indian tribe. Similarly, other commercial cigarette sales exempted by law from State taxation (for example, military post exchanges) are not affected by this legislation.

(3) UNLAWFUL ACTS

Section 1286 of the Senate bill makes it unlawful for any person knowingly to possess, sell, distribute, carry, transport, purchase, or receive contraband cigarettes. Section 1288(b) included an offense for knowingly making a false statement or representation with respect to information required by the Secretary to be kept in the records of a person.

The House amendment declares (a) It shall be unlawful to knowingly ship, transport, receive, possess, sell, distribute, or purchase contraband cigarettes. (b) It shall be unlawful to knowingly make any false statement or representation with respect to the information required to be kept in the records of a dealer.

The conference substitute adopts the House provision with modifications adding the phrase "whoever" to both subsections (a) and (b).

(B) *Definitions of "dealer" and "person"*

The Senate bill does not use or define the term "dealer". Coverage of the bill is directed at any "person", defined to include "any individual, corporation, company, association, firm, partnership, society, or joint stock company."

The House bill defines the term "dealer" to mean "any person who sells or distributes in any manner any quantity of cigarettes in excess of 30,000 in a single transaction". "Person" is not defined.

The conference substitute deletes the definition of "person" because "person" is defined in 1 U.S.C. 1 for all Acts of Congress. The term "dealer" is also not included in the conference substitute.

The term "dealer" was primarily used in the House bill to designate and limit those persons subject to the recordkeeping provisions. This can be effectively accomplished by selective use of the operative language in the definition of the prohibited conduct.

(C) *Definition of "common or contract carrier"*

The House bill provides a more detailed definition of "common or contract carrier" than the Senate version by explicitly including a carrier holding "a permit for contract carrier by motor vehicle, or other valid operating authority under the Interstate Commerce Act".

The conference substitute adopts the House provision.

(D) *Definition of "State"*

The Senate bill defines "State" to include "Puerto Rico, or a territory or possession of the United States".

The House provision substitutes "the Commonwealth of Puerto Rico, or the Virgin Islands" for this language.

The conference substitute adopts the House provisions as more accurately delineating the practical scope of this legislation.

(4) ENFORCEMENT, REGULATIONS, RECORDKEEPING, REPORTING AND INSPECTION

The Senate bill contained the following language in Sec. 1287:

"§ 1287. Enforcement and regulations

"The Secretary shall enforce the provisions of this chapter and may prescribe such rules and regulations which are reasonably necessary to carry out the provisions of this chapter:

Provided, however, That nothing contained in this chapter shall be interpreted as authorizing the Secretary to require persons who sell, distribute, transport or purchase cigarettes in the ordinary course of business to maintain records of such activities or to report such activities to the Secretary; except that the Secretary may require that any person involved in any transaction of a quantity of sixty thousand or more cigarettes shall note, on existing business records kept in the ordinary course of business, the identity and destination of the person receiving such cigarettes.

The House amendment contained essentially the same language as the first sentence of Sec. 1287 in Sec. 2346. The House amendment also contained Sec. 2343, which read as follows:

"§ 2343. Recordkeeping, reporting, and inspection

"Each dealer shall—

"(1) maintain such records of shipment, receipt, sale, and other distribution of cigarettes; and

"(2) submit to the Secretary such reports and information with respect to such records;

in such form and manner as the Secretary shall by regulation prescribe. Upon the consent of any dealer, or pursuant to a duly issued search warrant, the Secretary may enter the premises (including places of storage) of such dealer for the purpose of inspecting any records or documents required to be maintained by such dealer under this chapter, and any cigarettes kept or stored by such dealer at such premises.

The conference substitute adopts the following language:

"(a) Any person who ships, sells, or distributes any quantity of cigarettes in excess of 60,000 in a single transaction shall maintain such information about the shipment, receipt, sale, and distribution of cigarettes as the Secretary may prescribe by rule or regulation. The Secretary may require such person to keep only—

"(1) the name, address, destination (including street address), vehicle license number, driver's license number, signature of the person receiving such cigarettes, and the name of the purchaser;

"(2) a declaration of the specific purpose of the receipt (personal use, resale, or delivery to another); and

"(3) a declaration of the name and address of the recipient's principal in all cases when the recipient is acting as an agent.

To the extent that such information is contained in existing business records, no additional records shall be required by the Secretary. Nothing contained herein shall authorize the Secretary to require reporting under this section.

The intent of the conferees in arriving at the language of section 2343(a) is to recognize the necessity of balancing two important concerns: that those responsible for the investigation and prosecution of organized crime cases in this area have the necessary information to achieve this result, and that those required to keep records not be unduly burdened by unnecessary excessive recordkeeping requirements. For this latter reason, the conferees also deleted all reporting requirements. It is the understanding of the conferees that nothing in this Act is intended to authorize the Secretary to require any reports. This is clarified by the statutory language in section 2346 which expressly makes that general section subject to section 2343(a).

(5) PENALTIES

The Senate bill (a) establishes a fine of not more than $100,000 or imprisonment for not more than five years, or both for a person who knowingly possesses, sells, distributes, carries, transports, purchases or receives contraband cigarettes, and (b) establishes a fine of $5,000 or imprisonment for not more than three years, or both, for a person who knowingly violates any rules or regulations promulgated under section 1287 (Enforcement and regulations) or who knowingly makes any false statement or representation with respect to the information required by the Secretary to be kept in the records of a person.

The House amendment establishes a fine of not more than $10,000 or imprisonment

for not more than two years, or both, for whoever violates any provision of this chapter or regulations promulgated thereunder.

The conference substitute adopts the Senate provision, with the modification that (a) a person who knowingly violates section 2342(a) shall be subject to a fine of not more than $100,000 or imprisonment for not more than five years, or both and (b) a person who knowingly violates any rules or regulations promulgated under section 2343 or section 2342(b) of this chapter shall be fined not more than $5,000 or imprisonment for not more than three years, or both.

It is noted that section 2342(b) as adopted by the conference is the false statement offense which was deemed more appropriately located in the "unlawful acts" section as provided in the original House version.

(6) EFFECT ON STATE LAW

The Senate bill states that nothing in this chapter shall be construed to inhibit or otherwise affect any coordinated law enforcement effort by a number of States, through interstate compact or otherwise, to provide for the administration of State cigarette tax laws, to provide for the confiscation of cigarettes and other property seized in violation of such laws and to establish cooperative programs for the administration of such laws.

The House amendment contains no comparable provision.

The conference substitute adopts the Senate provision.

(7) TREASURY DEPARTMENT STUDY

The Senate bill authorizes the Secretary of the Treasury to carry out a study with a view to recommending to the Congress a program pursuant to which the several States would be encouraged to adopt and administer comprehensive laws establishing reasonable cigarette taxes and effective criminal provisions providing penalties for trafficking in contraband cigarettes in order to eliminate or control such trafficking. The Senate bill also states that such a study shall include recommendations relating to the types and amounts of federal assistance, including technical and financial, which should be provided under any such program.

The House amendment contains no comparable provision.

The conference substitute adopts the House provision, in recognition of the fact that the conference substitute already states that the concurrent jurisdiction of the states to enact and enforce cigarette tax laws is undisturbed and that nothing in this chapter shall inhibit any coordinated law enforcement effort by a number of States, through interstate compacts or otherwise, to provide for the establishment of cooperative programs for the administration of such laws.

The conferees had before them a study conducted for the Subcommitee on Crime of the House Committee on the Judiciary by the Congressional Research Service of the Library of Congress which found that the relevant statutes of several of the States most severely affected by cigarette bootlegging were extremely lax in that many are merely misdemeanor statutes calling for relatively mild fines or prison terms. The conferees also recognize that State law enforcement efforts, particularly in those States most severely affected by cigarette bootlegging, must be significantly improved and that enactment of this legislation is not to be interpreted as a signal to the States to lessen their efforts in this regard. The major responsibility for enforcing State cigarette tax laws is now and must continue to be the burden of the States. The proposed legislation is designed to supplement current efforts by the States to combat cigarette bootlegging, not to supplant them. States are encouraged to upgrade their capabilities in this regard, both in terms of increased resources and stronger State cigarette bootlegging statutes, which presumably can be appropriately supported by increased saving of tax dollars through effective law enforcement.

(8) AUTHORIZATION

The Senate bill authorizes to be appropriated for the fiscal year beginning October 1, 1978, such sums as may be necessary to carry out the provisions of this Act. The House amendment has no comparable provision.

The conference substitute adopts the Senate version, but deletes the phrase "for the fiscal year begining October 1, 1978".

CONFERENCE REPORT ON S. 2493, AIR TRANSPORTATION REGULATORY REFORM ACT OF 1978

Mr. JOHNSON of California submitted the following conference report and statement on the Senate bill (S. 2493) to amend the Federal Aviation Act of 1958, as amended, to encourage, develop, and attain an air transportation system which relies on competitive market forces to determine the quality, variety, and price of air services, and for other purposes:

CONFERENCE REPORT (H. REPT. NO. 95-1779)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2493) to amend the Federal Aviation Act of 1958, as amended, to encourage, develop, and attain an air transportation system which relies on competitive market forces to determine the quality, variety, and price of air services, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the text of the bill and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the House amendment insert the following:

SHORT TITLE

SECTION 1. This Act may be cited as the "Airline Deregulation Act of 1978".

DEFINITIONS

SEC. 2. (a) Section 101 of the Federal Aviation Act of 1958 (49 U.S.C. 1301) is amended—

(1) by inserting after paragraph (13) the following new paragraphs:

"(14) 'Charter air carrier' means an air carrier holding a certificate of public convenience and necessity authorizing it to engage in charter air transportation.

"(15) 'Charter air transportation' means charter trips, including inclusive tour charter trips, in air transportation, rendered pursuant to authority conferred under this Act under regulations prescribed by the Board.";

(2) by inserting after paragraph (32) the following new paragraph:

"(33) 'Predatory' means any practice which would constitute a violation of the antitrust laws as set forth in the first section of the Clayton Act (15 U.S.C. 12).";

(3) by inserting after paragraph (35) the following new paragraph:

"(36) 'State agency' means that department, agency, officer, or other entity of a State government which has been designated according to State law as—

"(A) the recipient of any notice required under title IV of this Act to be given to a State agency; or

"(B) the representative of the State in any matter about which the Board is required, under such title IV, to consult with or consider the views of a State agency."; and

(4) by striking out paragraphs (36) and (37).

(b) Section 101 of such Act is amended by renumbering the paragraphs of such section, including all references thereto, as paragraphs (1) through (41), respectively.

DECLARATION OF POLICY

SEC. 3. (a) Section 102(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1302(a)) is amended to read as follows:

"FACTORS FOR INTERSTATE AND OVERSEAS AIR TRANSPORTATION

"SEC. 102. (a) In the exercise and performance of its powers and duties under this Act with respect to interstate and overseas air transportation, the Board shall consider the following, among other things, as being in the public interest, and in accordance with the public convenience and necessity:

"(1) The assignment and maintenance of safety as the highest priority in air commerce, and prior to the authorization of new air transportation services, full evaluation of the recommendations of the Secretary of Transportation on the safety implications of such new services and full evaluation of any report or recommendation submitted under section 107 of this Act.

"(2) The prevention of any deterioration in established safety procedures, recognizing the clear intent, encouragement, and dedication of the Congress to the furtherance of the highest degree of safety in air transportation and air commerce, and the maintenance of the safety vigilance that has evolved within air transportation and air commerce and has come to be expected by the traveling and shipping public.

"(3) The availability of a variety of adequate, economic, efficient, and low-price services by air carriers without unjust discriminations, undue preferences or advantages, or unfair or deceptive practices, the need to improve relations among, and coordinate transportation by, air carriers, and the need to encourage fair wages and equitable working conditions.

"(4) The placement of maximum reliance on competitive market forces and on actual and potential competition (A) to provide the needed air transportation system, and (B) to encourage efficient and well-managed carriers to earn adequate profits and to attract capital.

"(5) The development and maintenance of a sound regulatory environment which is responsive to the needs of the public and in which decisions are reached promptly in order to facilitate adaption of the air transportation system to the present and future needs of the domestic and foreign commerce of the United States, the Postal Service, and the national defense.

"(6) The encouragement of air service at major urban areas through secondary or satellite airports, where consistent with regional airport plans of regional and local authorities, and when such encouragement is endorsed by appropriate State entities encouraging such service by air carriers whose sole responsibility in any specific market is to provide service exclusively at the secondary or satellite airport, and fostering an environment which reasonably enables such

carriers to establish themselves and to develop their secondary or satellite airport services.

"(7) The prevention of unfair, deceptive, predatory, or anticompetitive practices in air transportation, and the avoidance of—

"(A) unreasonable industry concentration, excessive market domination, and monopoly power; and

"(B) other conditions;

that would tend to allow one or more air carriers unreasonably to increase prices, reduce services, or exclude competition in air transportation.

"(8) The maintenance of a comprehensive and convenient system of continuous scheduled airline service for small communities and for isolated areas, with direct Federal assistance where appropriate.

"(9) The encouragement, development, and maintenance of an air transportation system relying on actual and potential competition to provide efficiency, innovation, and low prices, and to determine the variety, quality, and price of air transportation services.

"(10) The encouragement of entry into air transportation markets by new air carriers, the encouragement of entry into additional air transportation markets by existing air carriers, and the continued strengthening of small air carriers so as to assure a more effective, competitive airline industry.".

(b) Section 102 of such Act is amended by adding at the end thereof the following new subsection:

"FACTORS FOR FOREIGN AIR TRANSPORTATION

"(c) In the exercise and performance of its powers and duties under this Act with respect to foreign air transportation, the Board shall consider the following, among other things, as being in the public interest, and in accordance with the public convenience and necessity:

"(1) The encouragement and development of an air transportation system properly adapted to the present and future needs of the foreign and domestic commerce of the United States, of the Postal Service, and of the national defense.

"(2) The regulation of air transportation in such manner as to recognize and preserve the inherent advantage of, assure the highest degree of safety in, and foster sound economic conditions in, such transportation, and to improve the relations between and coordinate transportation by air carriers.

"(3) The promotion of adequate, economical, and efficient service by air carriers at reasonable charges, without unjust discriminations, undue preferences or advantages, or unfair or destructive competitive practices.

"(4) Competition to the extent necessary to assure the sound development of an air transportation system property adopted to the needs of the foreign and domestic commerce of the United States, of the Postal Service, and of the national defense.

"(5) The promotion of safety in air commerce.

"(6) The promotion, encouragement, and development of civil aeronautics.".

(c) That portion of the table of content contained in the first section of such Act which appears under the side hearing

"Sec. 102. Declaration of Policy: The Board."

is amend by striking out

"(a) General factors for consideration.

"(b) Factors for all-cargo air service."

and inserting in lieu thereof

"(a) Factors for interstate and overseas air transportation.

"(b) Factors for all-cargo air service.

"(c) Factors for foreign air transportation.".

FEDERAL PREEMPTION

SEC. 4. (a) Title I of the Federal Aviation Act of 1958 (49 U.S.C. 1301 et seq.) is amended by adding at the end thereof the following new section:

"FEDERAL PREEMPTION

"PREEMPTION

"SEC. 105. (a) (1) Except as provided in paragraph (2) of this subsection, no State or political subdivision thereof and no interstate agency or other political agency of two or more States shall enact or enforce any law, rule, regulation, standard, or other provision having the force and effect of law relating to rates, routes, or services of any air carrier having authority under title IV of this Act to provide interstate air transportation.

"(2) Except with respect to air transportation (other than charter air transportation) provided pursuant to a certificate issued by the Board under section 401 of this Act, the provisions of paragraph (1) of this subsection shall not apply to any transportation by air of persons, property, or mail conducted wholly within the State of Alaska.

"PROPRIETARY POWERS AND RIGHTS

"(b) (1) Nothing in subsection (a) of this section shall be construed to limit the authority of any State or politcal subdivision thereof or any interstate agency or other political agency of two or more States as the owner or operator of an airport served by any air carrier certificated by the Board to exercise its proprietary powers and rights.

"(2) Any aircraft operated between points in the same State (other than the State of Hawaii) which in the course of such operation crosses a boundary between two States, or between the United States and any other country, or between a State and the beginning of the territorial waters of the United States, shall not, by reason of crossing such boundary, be considered to be operating in interstate or overseas air transportation.

"EXISTING STATE AUTHORITY

"(c) When any intrastate air carrier which on August 1, 1977, was operating primarily in intrastate air transportation regulated by a State receives the authority to provide interstate air transportation, any authority received from such State shall be considered to be part of its authority to provide air transportation received from the Board under title IV of this Act, until modified, suspended, amended, or terminated as provided under such title.

"DEFINITION

"(d) For purposes of this section, the term 'State' means any State, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, the Virgin Islands, and any territory or possession of the United States.".

(b) That portion of the table of contents contained in the first section of such Act which appears under the center heading

"TITLE I—GENERAL PROVISIONS"

is amended by adding at the end thereof

"Sec. 105. Federal preemption.

"(a) Preemption.

"(b) Proprietary powers and rights.

"(c) Existing State authority.

"(d) Definition.".

REPORT ON SUBSIDY COST-SHARING, STUDY OF LEVEL OF AIR SAFETY, AND REPORT ON AIR CARRIER MARKETING OF TOURS

SEC. 5. (a) Title I of the Federal Aviation Act of 1958 (49 U.S.C. 1301 et seq.) is further amended by adding at the end thereof the following new sections:

"REPORT ON SUBSIDY COST-SHARING

"SEC. 106. Not later than January 1, 1980, the Board and the Secretary of Transportation, shall, separately or jointly, submit a comprehensive report to the Congress on the feasibility and appropriateness of devising formulas by which States and their political subdivisions could share part of the costs being incurred by the United States under sections 406 and 419 of this Act. Such report shall include any recommendations of the Board and the Secretary for the implementation of such cost-sharing formulas.

"SAFETY STUDY

"POLICY

"SEC. 107. (a) The Congress intends that the implementation of the Airline Deregulation Act of 1978 result in no diminution of the high standard of safety in air transportation attained in the United States at the time of the enactment of such Act.

"REPORT

"(b) Not later than January 31, 1980, and each January 31 thereafter, the Secretary of Transportation shall prepare and submit to the Congress and the Board a comprehensive annual report on the extent to which the implementation of the Airline Deregulation Act of 1978 has affected, during the preceding calendar year, or will affect, in the succeeding calendar year, the level of air safety. Each such report shall, at a minimum, contain an analysis of each of the following:

"(1) All relevant data on accidents and incidents occurring during the calendar year covered by such report in air transportation and on violations of safety regulations issued by the Secretary of Transportation occurring during such calendar year.

"(2) Current and anticipated personnel requirements of the Administrator with respect to enforcement of air safety regulations.

"(3) Effects on current levels of air safety of charges or proposals for changes in air carrier operating practices and procedures which occurred during the calendar year covered by such report.

"(4) The adequacy of air safety regulations taking into consideration changes in air carrier operating practices and procedures which occurred during the calendar year by such report.

Based on such report, the Secretary shall take those steps necessary to ensure that the high standard of safety in air transportation referred to in subsection (a) of this section is maintained in all aspects of air transportation in the United States.

"RECOMMENDATIONS

"(c) Not later than January 31, 1980, and each January 31 thereafter, the Secretary of Transportation shall submit to the Congress and the Board recommendations with respect to the level of surveillance necessary to enforce air safety regulations and the level of staffing necessary to carry out such surveillance. The Secretary of Transportation's recommendations shall include proposals for any legislation needed to implement such recommendations.

"REGULATIONS AND INSPECTION PROCEDURES

"(d) Not later than July 1, 1979, the Secretary of Transportation shall complete a thorough review, and submit a report thereon to the appropriate authorizing committees of the Congress and to the Administrator, of the safety regulations and inspection procedures applicable to each class of air carriers subject to the provisions of title IV of this Act, in order to ensure that all classes of air carriers are providing the highest possible level of safe, reliable air transportation to all the communities served by those air carriers. Based on such review, the Administrator shall promulgate such safety regulations and establish such inspection procedures as the Administrator deems necessary to maintain the highest standard of safe reliable air transportation in the United States.

"REPORT ON AIR CARRIER MARKETING OF TOURS

"Sec. 108. Not later than May 1, 1979, the Board shall prepare and submit a report to the Congress which sets forth the recommendations of the Board on whether this Act and regulations of the Board should be amended to permit air carriers to sell tours directly to the public and to acquire control of persons authorized to sell tours to the public. The report shall evaluate the effects on the following groups of allowing air carriers to sell tours:

"(1) The traveling public.

"(2) The independent tour operator industry.

"(3) The travel agent industry.

"(4) The different classes of air carriers.".

(b) That portion of the table of contents contained in the first section of such Act which appears under the center heading.

"TITLE I—GENERAL PROVISIONS"

is amended by adding at the end thereof:

"Sec. 106. Report on subsidy cost-sharing.

"Sec. 107. Safety study.

"(a) Policy.

"(b) Report.

"(c) Recommendations.

"(d) Regulations and inspection procedure.

"Sec. 108. Report on air carrier marketing of tours.".

APPLICATION FOR CERTIFICATE

SEC. 6. Section 401(b) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(b)) is amended—

(1) by striking out "and shall be so verified"; and

(2) by inserting ", and upon any community affected" immedately before the period.

ROUTE APPLICATIONS

SEC. 7. (a) Section 401(c) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(c)) is amended to read as follows:

"ROUTE APPLICATIONS

"(c)(1) Upon the filing of any application pursuant to subsection (b) of this section, the Board shall give due notice thereof to the public by posting a notice of such application in the office of the secretary of the Board and to such other persons as the Board may by regulation determine. The Board shall—

"(A) set such application for a public hearing;

"(B) begin to make a determination with respect to such application under the simplified procedures established by the Board in regulations pursuant to subsection (p); or

"(C) dismiss such application on the merits;

not later than ninety days after the date the application is filed with the Board. Any interested person may file with the Board a protest or memorandum of opposition to or in support of the issuance of the certificate requested by such application. Any order of dismissal of an application issued by the Board without setting such application for a hearing or beginning to make a determination with respect to such application under such simplified procedures, shall be deemed a final order subject to judicial review in accordance with the provisions of section 1006 of this Act.

"(2) If the Board determines that any application should be set for a public hearing under clause (A) of the second sentence of paragraph (1) of this subsection, an initial or recommended decision shall be issued not later than one hundred and fifty days after the date of such determination by the Board. Not later than ninety days after the initial or recommended decision is issued, the Board shall make its final order with respect to such application. If the Board does not act within such ninety-day period—

"(A) in the case of an application for a certificate to engage in interstate or overseas air transportation, the initial or recommended decision shall become the final decision of the Board and shall be subject to judicial review in accordance with the provisions of section 1006 of this Act; and

"(B) in the case of an application for a certificate to engage in foreign air transportation, the initial or recommended decision shall be transmitted to the President pursuant to section 801 of this Act.

"(3) Not later than the one-hundred-eightieth day after the Board begins to make a determination with respect to an application under the simplified procedures established by the Board in regulations pursuant to subsection (p) of this section, the Board shall issue its final order with respect to such application.

"(4) If an applicant fails to meet the procedural schedule adopted by the Board in a particular proceeding, the applicable period prescribed in paragraph (2)(3) of this subsection may be extended by the Board for a period equal to the period of delay caused by the applicant. In addition to any extension authorized by the preceding sentence, in extraordinary circumstances, the Board may, by order delay an initial or recommended decision for not to exceed thirty days beyond the final date on which the decision is required to be made.".

(b) The amendments made by subsection (a) of this section shall apply to any application filed under section 401(b) of the Federal Aviation Act of 1958 on or after the one-hundred-eightieth day after the date of enactment of this Act.

(c) That portion of the table of contents contained in the first section of such Act which appears under the side heading

"Sec. 401. Certificate of public convenience and necessity."

is amended by striking out

"Sec. 401. C

"(c) Notice of application."

and inserting in lieu thereof

"(c) Route applications.".

ISSUANCE OF CERTIFICATE

SEC. 8. Paragraphs (1), (2), and (3) of section 401(d) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(d)(1)–(3)) are amended to read as follows:

"(d)(1) The Board shall issue a certificate authorizing the whole or any part of the transportation covered by the application, if it finds that the applicant is fit, willing, and able to perform such transportation properly and to conform to the provisions of this Act and the rules, regulations, and requirements of the Board hereunder, and that such transportation—

"(A) in the case of interstate or overseas air transportation, is consistent with the public convenience and necessity; and

"(B) in the case of foreign air transportation, is required by the public convenience and necessity;

otherwise such application shall be denied.

"(2) In the case of an application for a certificate to engage in temporary air transportation, the Board may issue a certificate authorizing the whole or any part thereof for such limited periods—

"(A) in the case of an application for interstate or overseas air transportation, as is consistent with the public convenience and necessity; and

"(B) in the case of an application for foreign air transportation, as may be required by the public convenience and necessity;

if it finds that the applicant is fit, willing, and able properly to perform such transportation and to conform to the provisions of this Act and the rules, regulations, and requirements of the Board hereunder.

"(3) In the case of an application for a certificate to engage in charter air transportation, the Board may issue a certificate to any applicant, not holding a certificate under paragraph (1) or (2) of this subsection on January 1, 1977, authorizing interstate air transportation of persons, which authorizes the whole or any part thereof—

"(A) in the case of an application for interstate or overseas air transportation, for such periods, as is consistent with the public convenience and necessity; and

"(B) in the case of an application for foreign air transportation, for such periods, as may be required by the public convenience and necessity;

if it finds that the applicant is fit, willing, and able properly to perform the transportation covered by the application and to conform to the provisions of this Act and the rules, regulations, and requirements of the Board hereunder.".

THROUGH SERVICE AND JOINT FARES

SEC. 9. Paragraph (4) of section 401(d) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(d)(4)) is amended to read as follows:

"(4)(A) Notwithstanding any other provision of this Act, any citizen of the United States who undertakes, within any State, the carriage of persons or property as a common carrier for compensation or hire with aircraft capable of carrying thirty or more persons pursuant to authority for such carriage within such State granted by the appropriate State agency is authorized—

"(i) to establish services for persons and property which includes transportation by such citizen over its routes in such State and transportation by an air carrier or a foreign air carrier in air transportation; and

"(ii) subject to the requirements of section 412 of this title, to enter into an agreement with any air carrier or foreign air carrier for the establishment of joint fares, rates, or services for such through services.

"(B) The joint fares or rates established under clause (ii) of subparagraph (A) of this paragraph shall be the lowest of—

"(i) the sum of the applicable fare or rate for service in the State approved by the appropriate State agency, and the applicable fare or rate for that part of the through service provided by the air carrier or foreign air carrier;

"(ii) a joint fare or rate established and filed in accordance with section 403 of this Act; or

"(iii) a joint fare or rate established by the Board in accordance with section 1002 of this Act.".

UNUSED AUTHORITY

SEC. 10. (a) Section 401(d) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(d)) is amended by adding at the end thereof the following new paragraph:

"(5)(A) Except as provided in subparagraphs (B) and (G)(i) of this paragraph; if an air carrier is authorized by its certificate to provide round trip service nonstop each way between any two points in the forty-eight contiguous States or between any two points in overseas air transportation and if such air carrier fails to provide such service pursuant to published flight schedules at a minimum of five round trips per week for at least thirteen weeks during any twenty-six-week period (other than such a period during which service was interrupted by a labor dispute which lasted more than six weeks) the last day of which ends on or after the date of enactment of this paragraph and if such service, at a manimum of five round trips per week, has been provided between such points for at least thirteen weeks during such twenty-six-week period, pursuant to published flight schedules, by no more than one other air carrier, then the Board shall issue a certificate to the first applicant who, within thirty days after the last day of such twenty-six-week period, submits an application

which certifies that its aircraft meet all requirements established by the Secretary of Transportation for the carriage by aircraft of persons or property as a common carrier for compensation or hire or the carriage of mail by aircraft in commerce and that it is able to conform to the rules, regulations, and requirements of the Board promulgated pursuant to this Act.

"(B) Except as provided in subparagraph (G)(ii) of this paragraph, if an air carrier is authorized to provide seasonal round trip service nonstop each way between any two points in the forty-eight contiguous States in interstate air transportation or between any two points in overseas air transportation and if such air carrier fails to provide such service pursuant to published flight schedules at a minimum of five round trips per week during half of the weeks during such season (other than such a season during which service was interrupted by a labor dispute which lasted more than 25 per centum of such season) the last day of which ends on or after the date of enactment of this paragraph and if such service, at a minimum of five round trips per week, has been provided between such points for at least half of the weeks during such season, pursuant to published flight schedules, by no more than one other air carrier, then the Board shall issue a certificate to the first applicant who, within thirty days after the last day of such season, submits an application which certifies that its aircraft meet all requirements established by the Secretary of Transportation for the carriage by aircraft of persons or property as a common carrier for compensation or hire or the carriage of mail by aircraft in commerce and that it is able to conform to the rules, regulations, and requirements of the Board promulgated pursuant to this Act.

"(C) With respect to any application which is submitted pursuant to subparagraph (A) or (B) of this paragraph, except as provided in subparagraph (G), the Board shall issue a final order granting such certificate within fifteen days of the date of such application.

"(D) Except as provided in subparagraphs (E) and (G)(i) of this paragraph, if an air carrier is authorized by its certificate to provide round trip service nonstop each way between any two points in the forty-eight contiguous States or between any two points in overseas air transportation and if such air carrier fails to provide such service pursuant to published flight schedules at a minimum of five round trips per week for at least thirteen weeks during any twenty-six-week period (other than such a period during which service was interrupted by a labor dispute which lasted more than six weeks) the last day of which ends on or after the date of enactment of this paragraph and if such service, at a minimum of five round trips per week, has been provided between such points for at least thirteen weeks during such twenty-six-week period, pursuant to published flight schedules, by two or more other air carriers, then the Board, subject to subparagraph (F) of this paragraph, shall issue a certificate to the first applicant who, within thirty days after the last day of such twenty-six-week period, submits an application which certifies that its aircraft meet all requirements established by the Secretary of Transportation for the carriage by aircraft of persons or property as a common carrier for compensation or hire or the carriage of mail by aircraft in commerce and that it is able to conform to the rules, regulations, and requirements of the Board promulgated pursuant to this Act.

"(E) Except as provided in subparagraph (G)(ii) of this paragraph, if an air carrier is authorized to provide seasonal round trip service nonstop each way between any two points in the forty-eight contiguous States in interstate air transportation or between any two points in overseas air transportation and if such air carrier fails to provide such service pursuant to published flight schedules at a minimum of five round trips per week during half of the weeks during such season (other than such a season during which service was interrupted by a labor dispute which lasted more than 25 per centum of such season) the last day of which ends on or after the date of enactment of this paragraph and if such service, at a minimum of five round trips per week, has been provided between such points for at least half of the weeks during such season, pursuant to published flight schedules, by two or more other air carriers, then the Board, subject to subparagraph (F) of this paragraph, shall issue a certificate to the first applicant who, within thirty days after the last day of such season, submits an application which certifies that its aircraft meet all requirements established by the Secretary of Transportation for the carriage by aircraft of persons or property as a common carrier for compensation or hire or the carriage of mail by aircraft in commerce and that it is able to conform to the rules, regulations, and requirements of the Board promulgated pursuant to this Act.

"(F)(i) Except as provided in subparagraph (G) of this paragraph, with respect to any application which is submitted pursuant to subparagraph (D) or (E) of this paragraph, the Board shall issue a final order granting such certificate within sixty days of the date of such application, unless the Board finds that the issuance of such certificate is inconsistent with the public convenience and necessity. Prior to issuing such final order, the Board shall afford adequate notice and opportunity for interested persons to file appropriate written evidence and argument, but the Board need not hold oral evidentiary hearings.

"(ii) For purposes of clause (i) of this subparagraph, there shall be a rebuttable presumption that any transportation covered by an application for a certificate submitted pursuant to subparagraph (D) or (E) of this paragraph is consistent with the public convenience and necessity.

"(G)(i) If, after the failure of any air carrier to provide the minimum level of service between any pair of points for the period of time specified in subparagraph (A) or (D) of this paragraph and before the Board receives an application from any applicant for a certificate under such subparagraph to provide air transportation between such points, the Board receives notice from such air carrier that it intends to commence service within thirty days of such notice and to provide a minimum of five round trips per week for thirteen consecutive weeks between such points, the Board receives notice from received notice from such air carrier with respect to such points, the Board shall not approve such application for a certificate to provide service between such points during such thirteen-week period based upon such failure, unless such air carrier fails to provide such service during such thirteen-week period.

"(ii) If, after the failure of any air carrier to provide the minimum level of service between any pair of points for the period of time specified in subparagraph (B) or (E) of this paragraph and before the Board receives an application from any applicant for a certificate under such subparagraph to provide air transportation between such points, the Board receives notice from such air carrier that it intends to commence service within fifteen days of the first day of the next season and to provide a minimum of five round trips per week for the first half of such season between such points and the Board has not previously received notice from such air carrier with respect to such points, the Board shall not approve such application for a certificate to provide service between such points, the Board receives notice from such based upon such failure, unless such air carrier fails to provide such service during the first half of such period.

"(H)(i) Whenever the Board issues a certificate pursuant to subparagraph (A) or (D) of this paragraph, the air carrier receiving such certificate shall commence service pursuant to such certificate within forty-five days of such issuance. If such air carrier fails to commence service within such period, the Board shall revoke such certificate.

"(ii) Whenever the Board issues a certificate pursuant to subparagraph (B) or (E) of this paragraph to provide seasonal service, the air carrier receiving such certificate shall commence service pursuant to such certificate within fifteen days after the beginning of the first such season which begins on or after the date of such issuance. If such air carrier fails to commence service within such period, the Board shall revoke such certificate.

"(I) Not more than one certificate shall be issued under this paragraph for round trip nonstop service between two points in interstate air transportation based upon the failure of the same air carrier to provide such service between such points.

"(J) Whenever the Board issues a certificate pursuant to subparagraph (A) of this paragraph based upon the failure of any air carrier to provide the round trip service described in such subparagraph, the Board shall suspend the authority of such air carrier to provide such service, and suspend the authority of any other air carrier which failed to provide such service during the same twenty-six-week period, for twenty-six weeks after the date of the issuance of such certificate pursuant to subparagraph (A), or until such time within such twenty-six weeks as the air carrier to which a certificate is issued under such subparagraph fails to provide such service at a minimum of five round trips per week for at least thirteen weeks, whichever first occurs, except that the Board shall not suspend the authority of such air carriers under this subparagraph if the Board finds that such suspension is not necessary to encourage continued service between such points by the air carrier which received a certificate under subparagraph (A).".

(b) Section 401(f) of such Act is amended by striking out "hereinafter provided" and inserting in lieu thereof "provided in this section".

FILL-UP RIGHTS

SEC. 11. Section 401(d) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(d)) is further amended by adding at the end thereof the following new paragraph:

"(6) Any air carrier holding a valid certificate to engage in foreign air transportation is authorized, on any scheduled flight in foreign air transportation, to transport persons, property, and mail between points in the United States between which it is authorized to operate during such flight. The authority described in the preceding sentence shall be limited to one round-trip flight per day between any such pair of points, unless the Board authorizes more than one round-trip flight per day between any such pair of points."

AUTOMATIC MARKET ENTRY PROGRAM

SEC. 12. Section 401(d) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(d)) is further amended by adding at the end thereof the following new paragraph:

"(7)(A) After the first business day of each of the calendar years 1979, 1980, and 1981 and before the thirtieth day of such calendar year—

"(i) any air carrier which (I) has operated during the preceding calendar year in accordance with a certificate issued by the Board under this section which has been in force during such entire preceding calendar year, and (II) has provided air transportation of persons during such calendar year; and

"(ii) any intrastate air carrier which has a valid certificate or license issued by a State

regulatory authority to engage in intrastate air transportation and which has operated more than one hundred million available seat-miles in intrastate air transportation in the preceding calendar year;

may apply to the Board for a certificate under this subparagraph to engage in nonstop service between any one pair of points in interstate or overseas air transportation (other than a pair of points either point of which is in the State of Hawaii) in addition to any pair of points authorized by any existing certificate or license held by such air carrier or intrastate air carrier, except that no air carrier may apply to engage in nonstop service between such pair of points if any air carrier has filed written notice to the Board pursuant to subparagraph (C) of this paragraph with respect to such pair of points. Not later than the sixtieth day after the date on which the Board receives an application from an applicant under this subparagraph, the Board shall issue a certificate to such applicant for the nonstop service specified in such application, unless within such sixty-day period the Board determines that the applicant is not fit, willing, and able to provide such nonstop service and to conform to the provisions of this Act and the rules, regulations, and requirements of the Board issued under this Act.

"(B) Not later than the one-hundred-twentieth day of calendar year 1979, 1980, or 1981, any air carrier which submitted an application to the Board in accordance with subparagraph (A) of this paragraph in such calendar year and—

"(i) which did not receive a certificate to provide service between the pair of points set forth in the application because of a determination by the Board under such subparagraph (A); or

"(ii) which received a certificate to provide service between such pair of points, but was not the only air carrier to receive a certificate under such subparagraph (A) during such calendar year to provide nonstop service between such pair of points;

may reapply to the Board for a certificate to engage in nonstop service between any one pair of points in interstate or overseas air transportation (other than the pair of points specified in the first application submitted to the Board by such air carrier in such calendar year and other than a pair of points either point of which is in the State of Hawaii) in addition to any pair of points authorized by any existing certificate or license held by such air carrier or intrastate air carrier, except that no air carrier may apply to engage in nonstop service between such pair of points if any air carrier has filed written notice to the Board pursuant to subparagraph (C) of this paragraph with respect to such pair of points. Not later than the sixtieth day after the date on which the Board receives an application under this subparagraph, the Board shall issue a certificate to the applicant for such nonstop service, unless within such sixty-day period the Board makes a determination with respect to the issuance of such certificate in accordance with the second sentence of subparagraph (A) of this paragraph. If the Board issues a certificate to an applicant under this subparagraph, it shall revoke any authority in any certificate which it granted to such applicant in the same calendar year under subparagraph (A) of this paragraph.

"(C)(i) Subject to clause (ii) of this subparagraph, any air carrier which is authorized pursuant to paragraph (1) or (2) of this subsection to engage in nonstop service between any pair of points in interstate or overseas air transportation on the first business day of calendar year 1979, 1980, or 1981 and which wants to preclude any other air carrier from obtaining authority under subparagraph (A) or (B) of this paragraph to engage in nonstop service between such pair of points during such calendar year may, on such day, file written notice to the Board which sets forth such pair of points. Upon receipt of any written notice under the preceding sentence, the Board shall make such notice available to the public.

"(ii) No air carrier may file a written notice under clause (i) of this subparagraph during any calendar year with respect to more than one pair of points in interstate or overseas air transportation.

"(D)(i) The Board shall, on an emergency basis, by rule, modify the program established by this paragraph, if the Board finds that—

"(I) the operation of such program is causing substantial public harm to the national air transportation system, or a substantial reduction in air service to small and medium sized communities in any region of the country;

"(II) the modification proposed by the Board is required by the public convenience and necessity in order to alleviate such harm or reduction; and

"(III) such harm or reduction identified by the Board cannot be rectified by any reasonably available means other than the modification proposed by the Board.

Any emergency modification proposed by the Board under this subparagraph shall modify such program only to the minimum extent necessary to rectify the harm or reduction identified by the Board. Any emergency modification of such program may be limited to any pair of points.

"(ii) The findings of fact by the Board in any proceeding held pursuant to this subparagraph, if supported by substantial evidence, shall be conclusive. No objection to a modification of the program proposed by the Board under this subparagraph shall be considered by a court unless such objection shall have been submitted to the Board, or if it was not so submitted, unless there were reasonable grounds for failure to do so.

"(E) The Board shall conduct a study of the procedure for certification of air carriers and intrastate air carriers set forth in subparagraphs (A) and (B) of this paragraph to evaluate—

"(i) whether such procedure is consistent with the criteria set forth in section 102 of this Act; and

"(ii) the relative effectiveness of such procedure as compared with other procedures for certification set forth in this Act, including but not limited to, the procedures set forth in paragraphs (5) and (6) of this subsection and in subsection (p) of this section.

Not later than December 31, 1980, the Board shall complete such study and report the results of such study to the Congress.".

EXPERIMENTAL CERTIFICATES

SEC. 13. Section 401(d) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(d)) is further amended by adding at the end thereof the following new paragraph:

"(8) The Board may grant an application under subsection (d) (1), (2), or (3) of this section (whether the application be for permanent or temporary authority) for only a temporary period of time whenever the Board determines that a test period is desirable in order to determine if projected services, efficiencies, methods, rates, fares, charges, or other projected results will in fact materialize and remain for a sustained period of time, or to assess the impact of the new services on the national air route structure, or otherwise to evaluate the proposed new services. In any case where the Board has issued a certificate under any one of such subsections on the basis that the air carrier holding such certificate will provide innovative or low-priced air transportation under such certificate, the Board, upon petition, or its own motion, may review the performance of such air carrier, and may alter, amend, modify, suspend, or revoke such certificate or authority in accordance with the procedures prescribed in section 401(g) of this title, on the grounds that such air carrier has not provided, or is not providing, such air transportation.".

DETERMINATIONS FOR ISSUANCE OF CERTIFICATES

SEC. 14. Section 401(d) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(d)) is further amended by adding at the end thereof the following new paragraph:

"(9)(A) In any determination as to whether or not any applicant is fit, willing, and able to perform properly the air transportation specified in the application for a certificate described in paragraph (1)(A), (2)(A), or (3)(A) of this subsection and to conform to the provisions of this Act, the applicant shall have the burden of showing that it is so fit, willing, and able.

"(B) In any determination as to whether the air transportation specified in any application for a certificate described in paragraph (1)(A), (2)(A), or (3)(A) of this subsection is or is not consistent with the public convenience and necessity, an opponent of the application shall have the burden of showing that such air transportation is not consistent with the public convenience and necessity.

"(C) Transportation covered by any application for a certificate described in paragraph (1)(A), (2)(A), or (3)(A) of this subsection shall, for the purposes of such paragraphs, be deemed to be consistent with the public convenience and necessity, unless the Board finds based upon a preponderance of the evidence that such transportation is not consistent with the public convenience and necessity.".

TERMS AND CONDITIONS OF CERTIFICATE

SEC. 15. (a) Paragraph (3) of section 401(e) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(e)(3)) is amended by striking out "supplemental air transportation" and inserting in lieu thereof "foreign charter air transportation".

(b) Paragraph (4) of section 401(e) of such Act is amended by striking out the semicolon and all that follows down through the period and inserting in lieu thereof a period.

(c) Paragraph (6) of section 401(e) of such Act is amended by striking out "supplemental air carrier" and inserting in lieu thereof "charter air carrier".

REMOVAL OF RESTRICTIONS

SEC. 16. Section 401(e) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(e)) is further amended by adding at the end thereof the following new paragraph:

"(7)(A) On and after the date of enactment of this paragraph, the Board shall not attach a closed-door restriction to any certificate issued under this section. Any closed-door restriction attached to any certificate issued before such date shall, on and after such date, have no force or effect. This subparagraph shall not apply to (i) a closed-door restriction applicable to air transportation between two points both of which are in the State of Hawaii, or (ii) a closed-door restriction in effect on such date which resulted from a sale, exchange, or transfer by any air carrier of its authority to provide air transportation to another air carrier.

"(B) Upon application of any air carrier seeking removal or modification of a term, condition, or limitation attached to a certificate issued under this section to engage in interstate, overseas, or foreign air transportation, the Board shall, within sixty day after the filing of such application, set such application for oral evidentiary hearings on the record or begin to consider such application under the simplified procedures established by the Board in regulations pursuant to subsection (p) of this section for purposes of eliminating or modifying any such term, condition, or limitation which it finds is inconsistent with the criteria set forth in section 102 of this Act. Applications under this

paragraph shall not be subject to dismissal pursuant to section 401(c)(1) of this Act.

"(C) For purposes of this paragraph, the term 'closed-door restriction' means any condition attached to a certificate to provide interstate or overseas air transportation issued to any air carrier under this section which prohibits such air carrier from providing local passenger service between any pair of points between which it is authorize to operate pursuant to such certificate.".

EFFECTIVE DATE AND DURATION OF CERTIFICATE

SEC. 17. Section 401(f) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(f) is amended by striking out "ceased:" and all that follows down through the period and inserting in lieu thereof "ceased.".

AUTHORITY TO MODIFY, SUSPEND, OR REVOKE

SEC. 18. The first sentence of section 401(g) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(g)) is amended by inserting "or pursuant to the simplified procedures under subsection (p) of this section" after "notice and hearings".

TERMINATIONS, REDUCTIONS, AND SUSPENSIONS OF SERVICE

SEC. 19. (a) Section 401(j) of the Federal Aviation Act of 1958 is amended to read as follows:

"TERMINATIONS, REDUCTIONS, AND SUSPENSIONS OF SERVICE

"(j)(1) No air carrier holding a certificate issued under this section shall—

"(A) terminate or suspend all air transportation which it is providing to a point under such certificate; or

"(B) reduce any such air transportation below that which the Board has determined to be essential air transportation for such point;

unless such air carrier has first given the Board, any community affected, and the State agency of the State in which such community is located, at least 90 days notice of its intent to so terminate, suspend, or reduce such air transportation. The Board may, by regulation or otherwise, authorize such temporary suspension of service as may be in public interest.

"(2) If an air carrier holding a certificate issued pursuant to section 401 of this Act proposes to terminate or suspend nonstop or single-plane air transportation between two points being provided by such air carrier under such certificate, and such air carrier is the only air carrier certificated pursuant to such section 401 providing nonstop or single-plane air transportation between such points, at least sixty days before such proposed termination or suspension, such air carrier shall file with the Board and serve upon each community to be directly affected notice of such termination or suspension.".

(b) That portion of the table of contents contained in the first section of such Act which appears under the side heading.

"Sec. 401. Certificate of public convenience and necessity."

is amended by striking out "(j) Application for abandonment." and inserting in lieu thereof "(j) Terminations, reductions, and suspensions of service.".

ADDITIONAL POWERS AND DUTIES OF BOARD WITH RESPECT TO CHARTER AIR CARRIERS

SEC. 20. (a) The center heading for section 401(n) of the Federal Aviation Act of 1958 is amended by striking out "SUPPLEMENTAL" and inserting in lieu thereof "CHARTER".

(b) Paragraphs (1) through (4) of section 401(n) of such Act are amended to read as follows:

"(n)(1) No air carrier providing air transportation under a certificate issued under this section shall commingle, on the same flight, passengers being transported in interstate or overseas charter air transportation with passengers being transported in scheduled interstate or overseas air transportation, except that this subsection shall not apply to the carriage of passengers in air transportation under group fare tariffs.

"(2) No rule, regulation, or order issued by the Board shall restrict the marketability, flexibility, accessibility, or variety of charter trips provided under a certificate issued under this section except to the extent required by the public interest, and shall in no event be more restrictive than those regulations regarding charter air transportation in effect on October 1, 1978.

"(3) Notwithstanding any other provision of this title, no certificate issued under this section shall authorize the holder thereof to provide charter air transportation between two points within the State of Alaska unless, and then only to the extent to which, the Board, in issuing or amending such certificate, may authorize after determining that such charter air transportation is required by the public convenience and necessity. This subsection shall not apply to a certificate issued under this section to a person who, before July 1, 1977, maintained its principal place of business within the State of Alaska and conducted air transport operations between points within the State of Alaska with aircraft having a certificated gross takeoff weight of more than 40,000 pounds.

"(4) No certificate issued under this section shall permit a charter air carrier to sell or offer for sale an inclusive tour in air transportation by selling or offering for sale individual tickets directly to members of the general public, or to do so indirectly by controlling, being controlled by, or under common control with, a person authorized by the Board to make such sales.".

(c) Paragraph (5) of section 401(n) of such Act is amended—

(1) in the first sentence, by striking out "a supplemental air carrier to comply with the provisions of paragraph (1), (3), or (4) of this subsection" and inserting in lieu thereof "a charter air carrier to comply with the provisions of subsection (q) or (r) of this section"; and

(2) in the last sentence, by striking out "paragraphs (1), (3), and (4) of this subsection" and inserting in lieu thereof "subsections (q) and (r) of this section".

(d)(1) Section 401 of such Act is amended by adding at the end thereof the following new subsections:

"INSURANCE AND LIABILITY

"(q)(1) No certificate shall be issued or remain in effect unless the applicant for such certificate or the air carrier, as the case may be, complies with regulations or orders issued by the Board governing the filing and approval of policies of insurance or plans for self-insurance in the amount prescribed by the Board which are conditioned to pay, within the amount of such insurance, amounts for which such applicant or such air carrier may become liable for bodily injuries to or the death of any person, or for loss or damage to property of others, resulting from the operation or maintenance of aircraft under such certificate.

"(2) In order to protect travelers and shippers by aircraft operated by certificated air carriers, the Board may require any such air carrier to file a performance bond or equivalent security arrangement, in such amount and upon such terms as the Board shall prescribe, to be conditioned upon such air carrier's making appropriate compensation to such travelers and shippers, as prescribed by the Board, for failure on the part of such carrier to perform air transportation services in accordance with agreements therefor.

"CONTINUING REQUIREMENT

"(r) The requirement that each applicant for any other authority under this title must be found to be fit, willing, and able to perform properly the transportation covered by its application and to conform to the provisions of this Act and the rules, regulations, and requirements of the Board under this Act, shall be a continuing requirement applicable to each such air carrier with respect to the transportation authorized by the Board. The Board shall by order, entered after notice and hearing, modify, suspend, or revoke such certificate or other authority, in whole or in part, for failure of such air carrier to comply with the continuing requirement that the air carrier be so fit, willing, and able, or for failure to file such reports as the Board may deem necessary to determine whether such air carrier is so fit, willing, and able.".

(2) That portion of the table of contents contained in the first section of such Act which appears under the side heading

"Sec. 401. Certificates of public convenience and necessity."

is amended—

(A) by striking out

"(n) Additional powers and duties of Board with respect to supplemental air carriers."

and inserting in lieu thereof

"(n) Additional powers and duties of Board with respect to charter air carriers.";

and

(B) by adding at the end thereof

"(q) Insurance and liability.

"(r) continuing requirement.".

PROCEDURES FOR PROCESSING APPLICATIONS

SEC. 21. (a)(1) Section 401 of the Federal Aviation Act of 1958 (49 U.S.C. 1371) is amended by adding at the end thereof the following new subsection:

"'PROCEDURES FOR PROCESSING APPLICATIONS FOR CERTIFICATES

"(p)(1) The Board shall promulgate rules establishing simplified procedures for—

"(A) the disposition of applications for a certificate to engage in air transportation pursuant to subsection (d)(1), (2), or (3) of this section; and

"(B) the alteration, amendment, modification, suspension, or transfer of all or any part of any certificate pursuant to subsection (f), (g), or (h) of this section.

Such rules shall provide for adequate notice and an opportunity for any interested person to file appropriate written evidence and argument, but need not provide for oral evidentiary hearings. Such rules may provide that such written evidence and argument shall be filed by such person as part of a protest or memorandum filed with respect to such application under subsection (c) of this section.

"(2) The Board may use such simplified procedures in any case if the Board determines that the use of such simplified procedures is in the public interest. The rules adopted by the Board pursuant to this subsection shall, to the extent the Board finds it practicable, set forth the standards it intends to apply in determining whether to employ such simplified procedures, and in deciding cases in which such procedures are employed.".

(2) That portion of the table of contents contained in the first section of such Act which appears under the side heading

"Sec. 401. Certificate of public convenience and necessity."

is amended by inserting at the end thereof

"(p) Procedures for processing applications for certificates.".

(b)(1) Section 402 of the Federal Aviation Act of 1958 (49 U.S.C. 1372) is amended by adding at the end thereof the following new subsection:

"PROCEDURES FOR PROCESSING APPLICATIONS FOR PERMITS

"(h) The Board shall promulgate rules establishing simplified procedures for—

"(1) the disposition of applications for a permit to engage in foreign air transportation pursuant to this section; and

"(2) the alteration, amendment, modification, suspension, or transfer of all or any part of any permit pursuant to subsection (f) of this section.

Such rules shall provide for adequate notice and an opportunity for all interested persons to file appropriate written evidence and argument, but need not provide for oral evidentiary hearings.".

(2) That portion of the table of contents contained in the first section of such Act which appears under the side heading

"Sec'tion 402. Permits to foreign air carriers."

is amended by inserting at the end thereof

"(h) Procedures for processing applications for permits.".

NOTICE OF TARIFF CHANGES

SEC. 22. Section 403(c) of the Federal Aviation Act of 1958 (49 U.S.C. 1373(c)) is amended to read as follows:

"NOTICE OF TARIFF CHANGES

"(c)(1) Except as provided in paragraph (2) of this subsection, no change shall be made in any rate, fare, or charge, or any classification, rule, regulation, or practice affecting such rate, fare, or charge, or the value of the service thereunder, specified in any effective tariff of any air carrier until thirty days after notice of the proposed change has been filed, posted, and published in accordance with subsection (a) of this section, except the Board may establish an alternative notice requirement, of not less than twenty-five days, to allow an air carrier to match the fares or charges specified in another air carrier's proposed tariff. Any notice specified under this subsection shall plainly state the change proposed to be made and the time such change will take effect.

"(2) If the effect of any proposed tariff change would be to institute a fare that is outside of the applicable range of fares specified in subparagraphs (A) and (B) of section 1002(d)(4) of this Act, or specified by the Board under section 1002(d)7) of this Act, or would be to institute a fare to which such range of fares does not apply, then such proposed change shall not be implemented except after sixty days' notice filed in accordance with regulations prescribed by the Board.

"(3) In exercising its power to suspend tariffs under sections 1002(g) and 1002(j) of this Act, the Board shall file and deliver a statement in writing of its reasons for such suspension, as required under section 1002 (g), at least thirty days before the date on which the affected tariff would otherwise go into effect.".

RATES OF CARRIAGE FOR PERSONS AND PROPERTY

SEC. 23. Section 404(a)(1) of the Federal Aviation Act of 1958 (49 U.S.C. 1374(a)(1)) is amended by inserting "authorized to engage in scheduled air transportation by certificate or by exemption under section 416 (b)(3) of this title" immediately before the first semicolon.

MAIL AND COMPENSATION

SEC. 24. (a)(1) Clause (3) of the second sentence of section 406(b) of the Federal Aviation Act of 1958 (49 U.S.C. 1376(b)) is amended to read as follows: "(3) the need of each such air carrier (other than a charter air carrier) for compensation for the transportation of mail sufficient to insure the performance of such service, and—

"(A) during the period beginning on the date of enactment of this clause and ending on January 1, 1983, both dates inclusive, together with all other revenue of the air carrier from the service for which the compensation is being paid; and

"(B) after January 1, 1983, together with all other revenue of the air carrier;

to enable such air carrier under honest, economical, and efficient management, to provide (except for modifications with respect to an individual point determined after January 1, 1983, to be required by the public interest, after giving interested parties an opportunity for an evidentiary hearing with respect to air transportation for such individual point) air transportation of at least the same extent, character, and quality as that provided during the year ending December 31, 1977, to maintain and continue the development of air transportation to the extent and of the character and quality required for the commerce of the United States, the Postal Service, and the national defense.".

(2) Section 406(b) of the Federal Aviation Act of 1958 is amended by inserting after the second sentence the following new sentences: "Notwithstanding any other provision of this section, rates of compensation paid to any carrier under this section for service performed between the date of enactment of this sentence and January 1, 1983, shall be based on the subsidy need of such carrier with respect to service performed to points for which such carrier was entitled to receive compensation for serving during calendar year 1977. In the case of any local service carrier, such subsidy need shall be based on the adjusted eligible need of such carrier determined in a manner consistent with the provisions of Local Service Class Subsidy Rate VIII, with technical adjustments, and in the case of any other carrier receiving compensation during the twelve months ended June 30, 1978, such subsidy need shall be determined pursuant to the method in effect during the twelve months ended June 30, 1978. Any air carrier receiving compensation from the Board pursuant to this section which, before January 1, 1986, terminates service to a point for which such compensation is paid shall not, if such service is resumed by such air carrier, be eligible for compensation from the Board under this section for such service. Nothing in this subsection shall be construed as prohibiting any air carrier specified in the preceding sentence from applying for and receiving compensation for such service under section 419 of this title.".

(b) Subsection (c) of such section 406 (49 U.S.C. 1376(c)) is amended by adding at the end thereof the following new sentence: "The Board shall make no payments under this section for any services performed after January 1, 1986.".

LOCAL SERVICE AIR CARRIER COMPENSATION

SEC. 25. (a) The last sentence of section 406(b) of the Federal Aviation Act of 1958 (49 U.S.C. 1376(b)) is amended as follows:

(1) By striking out "the year 1966" and inserting in lieu thereof "the years 1964, 1965, and 1966".

(2) By striking out "Rate III–A" and inserting in lieu thereof "Rates III and III–A".

(3) By striking out "order E–23850 (44 CAB 637 et seq.)" and inserting in lieu thereof "orders E–21311 and E–23850 (41 CAB 138 et seq. and 44 CAB 637 et seq.)".

(b) Section 12(b) of Public Law 95–163, Ninety-fifth Congress, approved November 9, 1977, is amended by striking out "the year 1966" and inserting in lieu thereof "the year 1974, 1965, or 1966".

MERGERS AND CONTORL

SEC. 26. (a) Section 408 of the Federal Aviation Act of 1958 (49 U.S.C. 1378) is amended as follows:

(1) Subsection (a) of such section 408 (49 U.S.C. 1378(a)) is amended to read as follows:

"ACTS PROHIBITED

"SEC. 408. (a) Except as provided in subsection (b) of this section, it shall be unlawful—

"(1) for two or more air carriers, or for any air carrier and any other common carrier or any person substantially engaged in the business of aeronautics, to consolidate or merge their properties, or a substantial portion thereof, into one person for the ownership, management, or operation of the properties previously in separate ownerships;

"(2) for any air carrier, any person controlling an air carrier, any other common carrier, or any person substantially engaged in the business of aeronautics, to purchase, lease, or contract to operate all or a substantial portion of the properties of any air carrier;

"(3) for any air carrier or person controlling an air carrier to purchase, lease, or contract to operate all or a substantial portion of the properties of any person substantially engaged in the business of aeronautics otherwise than as an air carrier;

"(4) for any foreign air carrier or person controlling a foreign air carrier to acquire control in any manner whatsoever of any citizen of the United States substantially engaged in the business of aeronautics;

"(5) for any air carrier or person controlling an air carrier, any other common carrier, or any person substantially engaged in the business of aeronautics to acquire control of any air carrier in any manner whatsoever;

"(6) for any air carrier or person controlling a certificated air carrier to acquire control, in any manner whatsoever, of any person substantially engaged in the business of areonautics other than as an air carrier; or

"(7) for any person to continue to maintain any relationship established in violation of any of the foregoing paragraphs of this subsection.".

(2) Subsection (b) of such section 408 (49 U.S.C. 1378 (b)) is amended to read as follows:

"POWER OF BOARD

"(b)(1) In any case in which one or more of the parties to a consolidation, merger, purchase, lease, operating contract, or acquisition of control, specified in subsection (a) of this section is an air carrier holding a valid certificate issued by the Board under section 401(d) of this section to engage in interstate or overseas air transportation, a foreign air carrier, or a person controlling, controlled by, or under common control with, such an air carrier or a foreign air carrier, the person seeking approval of such transaction shall present an application to the Board, and, at the same time, a copy to the Attorney General and the Secretary of Transportation, and thereupon the Board shall notify the persons involved in the transaction and other persons known to have a substantial interest in the proceeding, of the manner in which the Board will proceed in disposing of such application. Unless, after a hearing, the Board finds that the transaction will not be consistent with the public interest or that the conditions of this section will not be fulfilled, it shall, by order, approve such transaction, upon such terms and conditions as it shall find to be just and reasonable and with such modifications as it may prescribe, except the Board shall not approve such transaction—

"(A) if it would result in a monopoly or would be in furtherance of any combination or conspiracy to monopilize or to attempt to monopolize the business of air transportation in any region of the United States; or

"(B) the effect of which in any region of the United States may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are outweighed in the public interest by the probable effect of the transaction in meeting significant transportation conveniences and needs of the public, and unless it finds that such significant transportation conveniences and

needs may not be satisfied by a reasonably available alternative having materially less anticompetitive effects.

The party challenging the transaction shall bear the burden of proving the anticompetitive effects of such transaction, and the proponents of the transaction shall bear the burden of proving that it meets the significant transportation conveniences and needs of the public and that such conveniences and needs may not be satisfied by a less anticompetitive alternative.

"(2) In any case in which the Board determines that the transaction which is the subject of the application does not affect the control of an air carrier directly engaged in the operation of aircraft in air transportation, and determines that neither the Attorney General, nor the Secretary, nor any other person disclosing a substantial interest in the transaction then currently is requesting a hearing, the Board, no sooner than 30 days after publication in the Federal Register of notice of the Board's intention to dispose of such application without a hearing (a copy of which notice shall be furnished by the Board to the Attorney General and the Secretary not later than the day following the date of such publication), may determine that the public interest does not require a hearing and, in accordance with the standards set forth in subparagraphs (A) and (B) of paragraph (1) of this subsection, by order, approve or disapprove such transaction.

"(3)(A) In any case in which none of the parties to a consolidation, merger, purchase, lease, operating contract, or acquisition of control, specified in subsection (a) of this section, is an air carrier holding a valid certificate issued by the Board under section 401(d) of this title to engage in interstate or overseas air transportation, a foreign air carrier, or a person controlling, controlled by, or under common control with, such an air carrier or a foreign air carrier, any person seeking approval of such transaction shall file with the Board not later than the forty-fifth day before the effective date of such transaction, a statement of its intent to enter into any of the prohibited acts set forth in subsection (a) of this section. The Board may, within forty-five days after the date of such filing, require such person to file an application for approval pursuant to the requirements of paragraph (1) of this subsection if it finds either that the proposed transaction may monopolize, tend to monopolize, or otherwise restrain competition in air transportation in any section of the country or that the person may not be fit, willing, and able to properly perform the transportation authorized by any license which is a part of such transaction and to conform to the provisions of this Act and the rules, regulations, and requirements of the Board issued pursuant to this Act. Subject to subparagraph (B) of this paragraph, if the Board fails to require such person to file an application pursuant to such paragraph (1) within such forty-five days, the proposed transaction shall not be subject to subsection (a) of this section.

"(B) If the Board determines that any transaction is not subject to subsection (a) of this section as a result of the last sentence of subparagraph (A) of this paragraph and such transaction received such statutory exemption due to any fraud, misrepresentation, or omission of relevant and material facts, the Board may, pursuant to rules which it is authorized to prescribe, make such transaction subject to subsection (a) of this section.".

(b) Section 408(c) of such Act is amended by inserting "any person controlling such air carrier," after "air carrier," the first place it appears in such subsection.

INTERLOCKS

SEC. 27. (a) Section 409 of the Federal Aviation Act of 1958 (49 U.S.C. 1379) is amended by striking out the center heading of such section and the center heading for subsection (a) of such section and inserting in lieu thereof the following section center heading:

"INTERLOCKING RELATIONSHIPS".

(b) Section 409 of the Federal Aviation Act of 1958 is also amended by striking out "SEC. 409. (a)" and inserting in lieu thereof "SEC. 409.".

(c) Section 409 (as amended by subsections (a) and (b) of this section) is amended as follows:

(1) Paragraph (1), (2), and (3) are each amended by striking out "is engaged in any phase of" and inserting in lieu thereof "is substantially engaged in the business of".

(2) Paragraphs (4), (5), and (6) are each amended by striking out "engaged in any phase of" and inserting in lieu thereof "substantially engaged in the business of".

(d) Section 409(b) of the Federal Aviation Act of 1958 (49 U.S.C. 1379(b)) is hereby repealed.

(e) That portion of the table of contents contained in the first section of the Federal Aviation Act of 1958 which appears under the center heading

"TITLE IV—AIR CARRIER ECONOMIC REGULATION"

is amended by striking out

"Sec. 409. Prohibited interests.
"(a) Interlocking relationships.
"(b) Profit from transfer of securities."

and inserting in lieu thereof

"Sec. 409. Interlocking relationships.".

AGREEMENTS

SEC. 28. (a) Section 412(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1382(a)) is amended—

(1) by inserting in the subsection center heading "AFFECTING FOREIGN AIR TRANSPORTATION" immediately after "AGREEMENTS"; and

(2) by inserting "foreign" immediately after "affecting".

(b) Section 412(b) of such Act is amended by inserting "affecting foreign air transportation" immediately after "agreement" each place it appears in such section.

(c) Section 412 of such Act is further amended by adding at the end thereof the following new subsections:

"FILING AND APPROVAL OF AGREEMENTS AFFECTING INTERSTATE OR OVERSEAS AIR TRANSPORTATION

"(c)(1) Any air carrier may file with the Board a true copy, or, if oral, a true and complete memorandum, of any contract or agreement (whether enforceable by provisions for liquidated damages, penalties, bonds, or otherwise), or a request for authority to discuss possible cooperative working arrangements, affecting interstate or overseas air transportation and in force on the effective date of this subsection, or thereafter entered into, or any modification or cancellation thereof, between such air carrier and any other air carrier, foreign air carrier, or other carrier.

"(2)(A) The Board shall by order disapprove any contract, agreement, or request filed pursuant to paragraph (1) of this subsection, or whether or not previously approved by it, that it finds to be adverse to the public interest or in violation of this Act, and shall by order approve any contract, agreement, or request, or any modification or cancellation thereof, that it does not find to be adverse to the public interest, or in violation of this Act, except that—

"(i) the Board may not approve or, after periodic review, continue its approval of any such contract, agreement, or request, or any modification or cancellation thereof, which substantially reduces or eliminates competition, unless it finds that the contract, agreement, or request is necessary to meet a serious transportation need or to secure important public benefits and it does not find that such need can be met or such benefits can be secured by reasonably available alternative means having materially less anticompetitive effects;

"(ii) the Board may not approve any contract or agreement between an air carrier not directly engaged in the operation of aircraft in air transportation and a common carrier subject to the Interstate Commerce Act, as amended, governing the compensation to be received by such common carrier for transportation services performed by *it;* and

"(iii) the Board may not approve any such contract or agreement, or any modification or cancellation thereof, that limits the level of capacity among air carriers in markets in which they compete, that fixes rates, fares, or charges between or among air carriers (except for joint rates, fares, or charges).

"(B) In any proceeding before the Board involving the application of the standards set forth in subparagraph (A)(i) of this paragraph, the party opposing the proposed contract, agreement, or request shall have the burden of proving the reduction or elimination of competition, and the availability of alternative means having less anticompetitive effects, and the party defending the proposed contract, agreement, or request shall have the burden of proving transportation need or public benefits.

"(C) The findings required by subparagraph (A)(i) of this paragraph, shall be included in any order of the Board approving or disapproving any contract or agreement, or any memorandum of any contract or agreement, or any modification or cancellation thereof, or any request.

"PROCEEDINGS UPON FILING

"(d) Upon the filing of any contract or agreement, or any modification or cancellation thereof, or any request for authority to discuss possible cooperative working arrangements, pursuant to subsection (a) or (c) of this section, the Board, in accordance with regulations which it prescribes, shall provide to the Attorney General and the Secretary of Transportation written notice of, and an opportunity to submit written comments on, the filed document. The Board may, upon its own initiative or if requested by the Attorney General or such Secretary, hold a hearing, in accordance with regulations prescribed by the Board, to determine if a contract or agreement, or request for discussion authority, whether or not previously approved, is consistent with the provisions of this Act.".

(d) That portion of the table of contents which appears under the side hearing

"Sec. 412. Pooling and other agreements."

is amended by striking out

"(a) Filing of agreements required.
"(b) Approval by Board."

and inserting in lieu thereof

"(a) Filing of agreements affecting foreign air transportation required.
"(b) Approval by Board.
"(c) Filing and approval of agreements affecting interstate or overseas air transportation.
"(d) Proceedings upon filing.".

MUTUAL AID AGREEMENTS

SEC. 29. (a) Section 412 of the Federal Aviation Act of 1958 (49 U.S.C. 1382) is amended by adding at the end thereof the following new subsection:

"MUTUAL AID AGREEMENTS

"(e)(1) Notwithstanding any other provision of law, any mutual aid agreement between air carriers which was approved by the Board before the date of enactment of this subsection and which is in effect on such date of enactment shall be deemed disapproved and not in effect on and after such date of enactment.

"(2) No air carrier shall enter into any

mutual aid agreement with any other air carrier, unless such air carrier files a true copy of such agreement with the Board and the Board approves such agreement pursuant to the provisions of this section. Notwithstanding subsection (c) of this section, the Board shall not approve any such agreement unless such agreement provides (A) that any air carrier will not receive payments for any period which exceed 60 per centum of the direct operating expenses during such period, (B) that benefits under the agreement are not payable for more than eight weeks during any labor strike, and that such benefits may not be for losses incurred during the first thirty days of any labor strike, and (C) that any party to such agreement will agree to submit the issues causing any labor strike to binding arbitration pursuant to the Railway Labor Act if the striking employees request such binding arbitration.

"(3) For purposes of this subsection, the term—

"(A) 'mutual aid agreement' means any contract or agreement between air carriers which provides that any such air carrier will receive payments from the other air carriers which are parties to such contract or agreement for any period during which such air carrier is not engaging in air transportation, or is providing reduced levels of service in air transportation, due to a labor strike; and

"(B) 'direct operating expenses' includes interest expenses but does not include depreciation or amortization expenses.".

(b) That portion of the table of contents contained in the first section of the Federal Aviation Act of 1958 which appears under the side heading

"Sec. 412. Pooling and other agreements."

is amended by inserting at the end thereof

"(e) Mutual aid agreements.".

ANTITRUST EXEMPTION

SEC. 30. (a) Section 414 of the Federal Aviation Act of 1958 (49 U.S.C. 1384) is amended to read as follows:

"ANTITRUST EXEMPTION

"SEC. 414. In any order made under section 408, 409, or 412 of this Act, the Board may, as part of such order, exempt any person affected by such order from the operations of the 'antitrust laws' set forth in subsection (a) of the first section of the Clayton Act (15 U.S.C. 12) to the extent necessary to enable such person to proceed with the transaction specifically approved by the Board in such order and those transactions necessarily contemplated by such order, except that the Board may not exempt such person unless it determines that such exemption is required in the public interest.".

(b) That portion of the table of contents contained in the first section of such Act which appears under the center heading

"TITLE IV—AIR CARRIER ECONOMIC REGULATION"

is amended by striking out

"Sec. 414. Legal restraints."

and inserting in lieu thereof

"Sec. 414. Antitrust exemption.".

EXEMPTION AUTHORITY

SEC. 31. (a) Section 416(b)(1) of the Federal Aviation Act of 1958 (49 U.S.C. 1386 (b)(1)) is amended to read as follows:

"EXEMPTIONS

"(b)(1) Except as provided in paragraph (2) of this subsection, the Board, from time to time and to the extent necessary, may exempt from the requirements of this title or any provision thereof, or any rule, regulation, term, condition, or limitation prescribed thereunder, any person or class of persons if it finds that the exemption is consistent with the public interest.

(b) Section 416(b) of such Act is amended by adding at the end of thereof the following new paragraph:

"(3) The Board may by order relieve foreign air carriers who are not directly engaged in the operation of aircraft in foreign air transportation from the provisions of this Act to the extent and for such periods as such relief may be in the public interest.".

COMMUTER EXEMPTION

SEC. 32. Section 416(b) of the Federal Aviation Act of 1958 (49 U.S.C. 1386(b)) is further amended by adding at the end thereof the following new paragraphs:

"(4) Subject to paragraph (5) of this subsection, any air carrier in air transportation which provides (A) passenger service solely with aircraft having a maximum passenger capacity of less than fifty-six passengers, or (B) cargo service in air transportation solely with aircraft having a maximum payload capacity of less than eighteen thousand pounds, shall be exempt from the requirements of subsection (a) of section 401 of this title, and of such other sections of this Act as may be prescribed in regulations promulgated by the Board, if such air carrier conforms to such liability insurance requirements and such other reasonable regulations as the Board shall from time to time adopt in the public interest. The Board may by regulation increase the passenger or property capacities specified in this paragraph when the public interest so requires.

"(5) The exemption from section 401 of this title or any other requirement of this Act shall not apply to any air transportation by any air carrier between points both of which are in the State of Alaska, or one of which is in the State of Alaska and the other in Canada, unless such air carrier also holds authority to provide such air transportation from the State of Alaska.

"(6) Any air carrier operating within the State of Alaska pursuant to the exemption from section 401 of this title shall not be subject to any limitation, promulgated by the Board, on the number or location of points to be served by such air carrier, or any limitation in the frequency of service by such air carrier to points within such State, unless the Board, after a hearing, finds that the operation of such air carrier substantially impairs the ability of a certificated air carrier to provide the service authorized by its certificate, including but not limited to, the minimum service requirement for such State specified in section 419(e)(2) of this title.".

SMALL COMMUNITY AIR SERVICE

SEC. 33. (a) Title IV of the Federal Aviation Act of 1958 is amended by adding at the end thereof the following new section.

"SMALL COMMUNITY AIR SERVICE

"GUARANTEED ESSENTIAL AIR TRANSPORTATION

"SEC. 419. (a)(1) For purposes of this subsection, the term 'eligible point' means any point in the United States to which, on the date of enactment of this section, any air carrier—

"(A) is providing service pursuant to a certificate issued to such carrier under section 401 of this title; or

"(B) is authorized pursuant to such certificate to provide such service, but such service is suspended on such date of enactment.

"(2)(A) With respect to each eligible point which on the date of enactment of this section is served by not more than one air carrier holding a certificate issued under section 401 of this title, not later than the last day of the one-year period beginning on such date of enactment, the Board, after considering the views of any interested community and the State agency of the State in which such community is located, shall determine what is essential air transportation for such point.

"(B) With respect to any eligible point which on the date of enactment of this section is served by more than one air carrier holding a certificate issued under section 401 of this title and which thereafter receives service by not more than one such air carrier, not later than the last day of the six-month period beginning on the date on which the Board receives notice that service to such point will be provided by not more than one such air carrier, the Board, after considering the views of any interested community and the State agency of the State in which such community is located, shall determine what is essential air transportation to such point.

"(C) The Board shall periodically review the determination of what is essential air transportation to each eligible point, and may, based upon such review and consultations with any interested community and the State agency of the State in which such community is located, make appropriate adjustments as to what is essential air transportation to such point.

(3) No air carrier shall terminate, suspend, or reduce air transportation to any eligible point below the level of essential air transportation established by the Board under paragraph (2) unless such air carrier—

"(A) if such air carrier—

"(i) holds a certificate issued under section 401 of this title, or

"(ii) does not hold such a certificate, but is receiving compensation pursuant to paragraph (5) of this subsection for service to such eligible point,

has given the Board, the appropriate State agency or agencies, and the communities affected at least ninety days notice prior to such termination, suspension, or reduction; and

"(B) if such air carrier does not hold such a certificate and is not receiving compensation pursuant to paragraph (5) of this subsection for service to such eligible point, has given the Board, the appropriate State agency or agencies, and the communities affected at least thirty days notice prior to such termination, suspension, or reduction.

"(4) Whenever the Board determines that essential air transportation will not be provided to any eligible point without compensation—

"(A) the Board shall provide notice that applications may be submitted by any air carrier which is willing to provide essential air transportation to such point for compensation under this subsection. In selecting an applicant to provide essential air transportation to such point for compensation the Board shall, among other factors, specifically consider—

"(i) the desirability of developing an integrated linear system of air transportation whenever such a system most adequately meets the air transportation needs of the communities involved;

"(ii) the experience of the applicant in providing scheduled air service in the vicinity of the communities for which essential air transportation is proposed to be provided; and

"(iii) notwithstanding the provisions of clause (ii), with respect to any eligible point in the State of Alaska, the experience of an applicant in providing scheduled air service, or significant patterns of nonscheduled air service pursuant to an exemption granted pursuant to section 416 of this title, in Alaska; and

"(B) the Board shall establish, in accordance with the guidelines promulgated under subsection (d) of this section, a rate of compensation to be paid for providing such essential air transportation.

"(5) The Board shall make payments of compensation under this subsection at times and in a manner determined by the Board to be appropriate. The Board shall continue to

pay compensation to any air carrier to provide essential air transportation to any eligible point only for so long as the Board determines it is necessary in order to maintain essential air transportation to such eligible point.

"(6) Notwithstanding section 401(j) of this title, if an air carrier has provided notice to the Board under paragraph (3) of such air carrier's intention to suspend, terminate, or reduce service to any eligible point below the level of essential air transportation to such point, and if at the conclusion of the applicable period of notice the Board has not been able to find another air carrier to provide essential air transportation to such point, the Board shall require the carrier which provided such notice to continue such service to such point for an additional 30-day period, or until another air carrier has begun to provide essential air transportation to such point, whichever first occurs. If at the end of such 30-day period the Board determines that no other air carrier can be secured to provide essential air transportation to such eligible point on a continuing basis, either with or without compensation, then the Board shall extend such requirement for such additional 30-day periods (making the same determination at the end of each such period) as may be necessary to continue air transportation to such eligible point until an air carrier can be secured to provide essential air transportation to such eligible point on a continuing basis.

"(7)(A) If any air carrier (i) which is providing air transportation to any eligible point, and (ii) which is receiving compensation under this subsection or under section 406 of this title for providing such air transportation to such point, is required by the Board to continue service to such point beyond the date on which such air carrier would, but for paragraph (6) of this subsection, be able to suspend, terminate, or reduce service to such point below the level of essential air transportation to such point, then after such date such air carrier shall continue to receive such compensation until the Board finds another air carrier to provide essential air transportation to such point.

"(B) If the Board requires an air carrier which holds a certificate issued under section 401 of this title and which is providing air transportation to any eligible point without compensation pursuant to paragraph (5) of this subsection or section 406 of this title to continue to provide essential air transportation to such point beyond the 90-day notice period after which, but for paragraph (6) of this subsection, such air carrier would be able to suspend, terminate, or reduce service to such point below essential air transportation for such point, then the Board shall compensate such air carrier for any losses that the air carrier incurs in complying with this subparagraph after the last day of such 90-day period, except that the Board shall not make any payments under this subparagraph, to any trunk air carrier for service to such point after the last day of the one-year period beginning on the date on which any payment is made to such air carrier under this subparagraph for service to such point.

"(C) If the Board requires an air carrier which does not hold a certificate issued under section 401 of this title, but which is providing air transportation to any eligible point without compensation pursuant to paragraph (5) of this subsection or section 406 of this title to continue to provide essential air transportation to such point beyond the 30-day notice period after which, but for paragraph (6) of this subsection, such air carrier would be able to suspend, terminate, or reduce service to such point below essential air transportation for such point, then the Board shall compensate such air carrier for any losses that such air carrier incurs in complying with this paragraph after the last day of such 30-day period.

"(9) During any period for which the Board requires any air carrier to continue providing air transportation to an eligible point which such air carrier has proposed to terminate, reduce, or suspend, the Board shall continue to make every effort to secure an air carrier to provide at least essential air transportation to such eligible point, on a continuing basis.

"(10) Unless the Board has determined what is essential air transportation for any eligible point pursuant to paragraph (2) of this subsection, the Board shall, upon petition of any appropriate representative of such point, prohibit any termination, suspension, or reduction of air transportation which reasonably appears to deprive such point of essential air transportation, until the Board has completed such determination.

"(11)(A) After January 1, 1983, any air carrier may file an application with the Board seeking to have any compensation provided under section 406 of this title to the air carrier then serving an eligible point terminated in order to allow the applicant air carrier to provide air transportation to that eligible point for compensation under this section. The Board shall grant such application, after notice and a hearing if requested by the air carrier receiving subsidy under section 406, taking into consideration the objectives specified in subparagraphs (A) (i) and (ii) of paragraph (5) of this subsection, if the applicant can show that termination of the compensation being paid under section 406, and that the provision of service by such applicant with compensation under this section, will result in a substantial—

"(i) improvement in the air service being provided such eligible point; and

"(ii) decrease in the amount of compensation that will be required to continue essential air transportation to such eligible point.

"(B) After January 1, 1983, any air carrier may file an application with the Board seeking to have the compensation provided under this section to the air carrier then serving an eligible point, and which has been serving such eligible point for at least two years preceding the date on which such application is filed, terminated in order to allow the applicant air carrier to provide essential air transportation to such eligible point for compensation under this section The Board shall grant such application, after notice and a hearing if requested by an air carrier receiving compensation under this section, taking into consideration the objectives specified in subparagraphs (A)(i) and (ii) of paragraph (4) of this subsection, if the applicant air carrier can show that termination of the compensation being provided to the air carrier then serving such eligible point, and the provision of essential air transportation for compensation under this section by the applicant air carrier will result in a substantial—

"(i) improvement in the air transportation being provided such eligible point with no increase in the amount of compensation then being paid; or

"(ii) decrease in the amount of compensation that will be required to continue essential air transportation to that eligible point.

"(C) In disposing of each application filed under this subsection, the Board shall, in addition to considering the objectives specified in subparagraphs (A)(i) and (ii) of paragraph (4), solicit and give great weight to the opinions of the communities affected by the proposed replacement of an air carrier under this subsection.

"OTHER AIR SERVICE

"(b)(1) For purposes of this subsection, the term 'eligible point' means—

"(A) any point in the United States which has been deleted from a certificate issued under section 401 of this title between July 1, 1968, and the date of enactment of this section, both dates inclusive, and which the Board designates pursuant to paragraph 2 of this subsection; and

"(B) any other point in the State of Alaska or Hawaii designated by the Board under paragraph 2 of this subsection.

"(2)(A) Not later than January 1, 1980, after considering the views of State agencies and other interested parties, the Board shall, by rule, establish objective criteria for designating points as eligible points. In establishing or modifying such criteria, the Board shall consider, among other factors, the level of traffic generated by the point concerned, its future traffic generating potential, the cost to the Federal Government of providing essential air transportation to such point, the alternative means of transportation available to the residents of such point for access to the national transportation system and its principal communities of interest, and the degree of isolation of such point from the national air transportation system. The Board may, from time to time, by rule, modify the criteria established by it under this subparagraph.

"(B) Not later than January 1, 1980, the Board shall begin to review each point described in paragraph (1)(A) of this subsection to determine whether such point shall be designated as an eligible under the criteria established under subparagraph (B) of this paragraph. The review and designation of each such point shall be completed before January 1, 1982.

"(C) On or after January 1, 1982, the Board, upon application by any interested party, may designate any point an eligible point under the criteria established under subparagraph (B) of this paragraph (1) if such point is in the State of Alaska or the State of Hawaii, and (ii) if such designation would not increase the total number of points receiving a subsidy under this section and section 406 of this title above the total number of points receiving a subsidy under such section 406 on July 1, 1968.

"(3) The designation of any point by the Board under paragraph (2) of this subsection as an eligible point may be withdrawn if the point no longer meets the criteria for designation as an eligible point.

"(4)(A) With respect to any point which the Board designates as an eligible point pursuant to paragraph (2) of this subsection, not later than the last day of the six-month period beginning on the date on which the Board makes such designation, the Board, after considering the views of any interested community and the State agency of the State in which such community is located, shall determine what is essential air transportation to such point.

"(B) The Board shall periodically review the determination of what is essential air transportation to each eligible point, and may, based upon such review and consultation with any interested community and any State agency of the State in which such community is located, make appropriate adjustments as to what is essential air transportation to such point.

"(5) Whenever the Board determines that essential air transportation will not be provided to any eligible point without compensation—

"(A) the Board shall provide notice that applications may be submitted by any air carrier which is willing to provide essential air transportation to such point for compensation under this subsection. In selecting an applicant to provide essential air transportation to such point for compensation, the Board shall, among other factors, specifically consider—

"(i) the desirability of developing an integrated linear system of air transportation whenever such a system most adequately

meets the air transportation needs of the communities involved;

"(ii) the experience of the applicant in providing scheduled air service in the vicinity of the communities for which essential air transportation is proposed to be provided; and

"(iii) notwithstanding the provisions of clause (ii), with respect to any eligible point in the State of Alaska, the experience of an applicant in providing scheduled air service, or significant patterns of nonscheduled air service pursuant to an exemption granted pursuant to section 416 of this title, in Alaska; and

"(B) the Board shall establish, in accordance with the guidelines promulgated under subsection (d) of this section, a rate of compensation to be paid for providing such essential air transportation.

"(6) The Board shall make payments of compensation under this subsection at times and in a manner determined by the Board to be appropriate. The Board shall continue to pay compensation to any air carrier to provide essential air transportation to any eligible point only for so long as the Board determines it is necessary in order to maintain essential air transportation to such eligible point.

"(7) Prior to terminating, suspending, or reducing essential air transportation to any eligible point, an air carrier—

"(A) if such air carrier—

"(i) holds a certificate under section 401 of this title, or

"(ii) does not hold such a certificate, but is receiving compensation pursuant to paragraph (6) of this subsection for service to such eligible point, shall give the Board, the appropriate State agency or agencies, and the communities affected at least ninety days notice prior to such termination, suspension, or reduction; and

"(B) if such air carrier does not hold such a certificate and is not receiving compensation pursuant to paragraph (6) of this subsection for service to such eligible point, shall give the Board, the appropriate State agency or agencies, and the communities affected such notice (not to exceed 30 days) as the Board shall by regulation prescribe.

"(8)(A) After January 1, 1983, any air carrier may file an application with the Board seeking to have the compensation provided under this subsection to the air carrier then serving an eligible point, and which has been serving such eligible point for at least 2 years preceding the date on which such application is filed, terminated in order to allow the applicant air carrier to provide essential air transportation to such eligible point for compensation under this subsection. The Board shall grant such application, after notice and a hearing if requested by an air carrier receiving compensation under this section, taking into consideration the objectives specified in subparagraphs (A)(i) and (ii) of paragraph (5) of this subsection, if the applicant can show that termination of the compensation being provided to the air carrier then serving such eligible point, and that the provision of essential air transportation for compensation under this subsection by the applicant, will result in a substantial—

"(i) improvement in the air transportation being provided such eligible point with no increase in the amount of compensation then being paid; or

"(ii) decrease in the amount of compensation that will be required to continue essential air transportation to that eligible point.

"(B) In disposing of each application filed under this paragraph, the Board shall, in addition to considering the objectives specified in subparagraphs (A) (i) and (ii) of paragraph (5), solicit and give great weight to the opinions of the communities affected by the proposed replacement of an air carrier under this subsection.

"LEVEL OF SAFETY

"(c)(1) For purposes of this subsection the term 'commuter air carrier' means an air carrier exempt from any requirement of this Act under section 416(b)(3) of this title.

"(2) Notwithstanding section 416(b) of this title, the Board shall not provide any compensation under this section to any commuter air carrier to provide service to any eligible point, and the Board shall prohibit any commuter air carrier from providing service to any eligible point, unless the Board determines that such commuter air carrier—

"(A) is fit, willing, and able to perform such service; and

"(B) that all aircraft which will be used to perform such service and all operations relating to such service will conform to the safety standards established by the Administrator under paragraph (3) of this subsection.

"(3) Not later than the one-hundred-eightieth day after the date of enactment of this paragraph, the Administrator, by regulation, shall establish safety standards (A) for aircraft being used by commuter air carriers to provide any service described in paragraph (2) of this subsection, and (B) for all operations relating to such service. Such safety standards shall become effective not later than the last day of the eighteenth month which begins after such date of enactment and shall impose requirements upon such commuter air carriers to assure that the level of safety provided to persons traveling on such commuter air carriers is, to the maximum feasible extent, equivalent to the level of safety provided to persons traveling on air carriers which provide service pursuant to certificates issued under section 401 of this title.

"GUIDELINES FOR COMPENSATION

"(d) The Board shall, by rule, establish guidelines to be used by the Board in computing the fair and reasonable amount of compensation required to insure the continuation of essential air transportation to any eligible point. Such guidelines shall include expense elements based upon representative costs of air carriers providing scheduled air transportation of persons, property, and mail, using aircraft of the type determined by the Board to be appropriate for providing essential air transportation to the eligible point.

"INSURANCE

"(e) No air carrier shall receive any compensation under this section unless such air carrier complies with regulations or orders issued by the Board governing the filing and approval of policies of insurance or plans for self-insurance in the amount prescribed by the Board which are conditioned to pay, within the amount of such insurance, amounts for which such air carrier may become liable for bodily injuries to or the death of any person, or for loss of or damage to property of others, resulting from the operation or maintenance of aircraft.

"DEFINITION

"(f) For purposes of this section, the term 'essential air transportation' means scheduled air transportation of persons to a point provided under such criteria as the Board determines satisfies the needs of the community concerned for air transportation to one or more communities of interest and insures access to the Nation's air transportation system, at rates, fares, and charges which are not unjust, unreasonable, unjustly discriminatory, unduly preferential, or unduly prejudicial, and—

"(1) with respect to air transportation to any point (other than in the State of Alaska), in no case shall essential air transportation be specified as fewer than two daily round trips, 5 days per week, or the level of service provided by air carriers to such point based on the schedules of such air carriers in effect for calendar year 1977, whichever is less; and

"(2) with respect to air transportation to any point in Alaska, essential air transportation shall not be specified at a level of service less than that which existed for such point during calendar year 1976, or two round-trips per week, whichever is greater, unless otherwise specified under an agreement between the Board and the State agency of the State of Alaska, after consultation with the community affected.

"DURATION OF PROGRAM

"(g) This section shall cease to be in effect after the last day of the ten-year period which begins on the date of enactment of this section.".

(b) That portion of the table of contents which appears under the center heading.

"TITLE IV"—AIR CARRIER ECONOMIC REGULATION

is amended by adding at the end thereof

"SEC. 419. Small community air service.

"(a) Guaranteed essential air transportation.

"(b) Other air service.

"(c) Level of safety.

"(d) Guidelines for compensation.

"(e) Insurance.

"(f) Definitions.

"(g) Duration of program.".

PRESIDENTIAL REVIEW OF INTERNATIONAL ROUTE CASES

SEC. 34. Section 801(a) of the Federal Aviation Act of 1958 (48 U.S.C. 1461(a)) is amended to read as follows:

"THE PRESIDENT OF THE UNITED STATES

"SEC. 801. (a) The issuance, denial, transfer, amendment, cancellation, suspension, or revocation of, and the terms, conditions, and limitations contained in, any certificate authorizing an air carrier to engage in foreign air transportation, or any permit issuable to any foreign air carrier under section 402 of this Act, shall be presented to the President for review. The President shall have the right to disapprove any such Board action concerning such certificates or permits solely upon the basis of foreign relations or national defense considerations which are within the President's jurisdiction, but not upon the basis of economic or carrier selection considerations. Any such disapproval shall be issued in a public document, setting forth the reasons for the disapproval to the extent national security permits, within sixty days after submission of the Board's action to the President. Any such Board action so disapproved shall be null and void. Any such Board action not disapproved within the foregoing time limits shall take effect as action of the Board, not the President, and as such shall be subject to judicial review as provided in section 1006 of this Act.".

ASSESSMENT OF CIVIL PENALTIES

SEC. 35. (a) Paragraph (1) of subsection (a) of section 901 of the Federal Aviation Act of 1958 (49 U.S.C. 1471(a)(1)) is amended by inserting after the fourth sentence thereof the following new sentences: "The amount of any such civil penalty for any violation of any provision of title IV of this Act, or any rule, regulation, or order issued thereunder, or under section 1002(i) of this Act, or any term, condition, or limitation of any permit or certificate issued under title IV shall be assessed by the Board only after notice and an opportunity for a hearing and after written notice upon a finding of violation by the Board. Judicial review of any order of the Board assessing such a penalty may be obtained only pursuant to section 1006 of this Act.".

(b) Paragraph (2) of subsection (a) of such section 901 is amended to read as follows:

"(2) Any civil penalty may be compromised

by the Secretary of Transportation in the case of violations of title III, V, VI, or XII of this Act, or any rule, regulation, or order issued thereunder, or by the National Transportation Safety Board in the case of violations of title VII of this Act, or any rule, regulation, or order issued thereunder, or by the Postmaster General in the case of regulations issued by him. The amount of such penalty when finally determined, or fixed by order of the Board, or the amount agreed upon in compromise, may be deducted from any sums which the United States owes to the person charged.".

PROCEDURES FOR CIVIL PENALTIES

SEC. 36. (a) The first sentence of subsection (b)(1) of section 903 of the Federal Aviation Act of 1958 (49 U.S.C. 1473(b)(1)) is amended by inserting "or assessed" immediately after "imposed".

(b) The second sentence of subsection (b)(1) of such section 903 is amended by inserting "with respect to proceedings involving penalties other than those assessed by the Board," immediately after "except that".

RATES

SEC. 37. (a) Subsection (d) of section 1002 of the Federal Aviation Act of 1958 (49 U.S.C. 1482(d)) is amended—

(1) in paragraph (1), by inserting "or (4)" immediately after "paragraph (2)"; and

(2) by adding at the end thereof the following new paragraphs:

"(4) The Board shall not have authority to find any fare for interstate or overseas air transportation of persons to be unjust or unreasonable on the basis that such fare is too low or too high if—

"(A) with respect to any proposed increase filed with the Board on or after July 1, 1979 (other than any proposed increase in any fare filed by any air carrier if such proposed fare is for air transportation between any pair of points and such air carrier provides air transportation to 70 per centum or more of the persons traveling in air transportation between such points, an aircraft operated by air carriers with certificates issued under section 401 of this Act), such proposed fare would not be more than 5 per centum higher than the standard industry fare level for the same or essentially similar class of service, except that, while no increase of any fare within the limits specified in this subparagraph may be suspended, an increase in such fare, above the standard industry fare level shall be found unlawful if that increase results in a fare which is unduly preferential, unduly prejudicial, or unjustly discriminatory; or

"(B) with respect to any proposed decrease filed after the date of enactment of this paragraph, the proposed fare would not be more than 50 per centum lower than the standard industry fare level for the same or essentially similar class of service, except that this provision shall not apply to any proposed decrease in any fare if the Board determines that such proposed fare would be predatory.

In determining whether any fare for air transportation of persons is unjust or unreasonable on the basis that it is too high, the Board shall take into consideration reasonably estimated of foreseeable future costs and revenues for a reasonably limited future period during which the fare at issue would be in effect.

"(5) In any Board proceeding under paragraph (1) of this subsection with respect to interstate or overseas air transportation of persons, the party opposing any fare or charge on the basis that it is too low shall have the burden of proving that the fare or charge is too low.

"(6)(A) For purposes of paragraph (4) of this section, 'standard industry fare level' means the fare level (as adjusted only in accordance with subparagraph (B) of this paragraph) in effect on July 1, 1977, for each interstate or overseas pair of points, for each class of service existing on that date, and in effect on the effective date of the establishment of each additional class of service established after July 1, 1977.

"(B) The Board shall, not less than semiannually, adjust each standard industry fare level specified in subparagraph (A) by increasing or decreasing such fare level, as the case may be, by the percentage change from the last previous period in the actual operating cost per available seat-mile for interstate and overseas transportation combined. In determining the standard, the Board shall make no adjustment to costs actually incurred.

"(C) Not later than July 1, 1979, the Board shall issue rules modifying the rules governing those classes of service in existence on July 1, 1977, which classes provide lower fare levels during off-peak periods, so as to expand the period of availability of such classes. The Board shall allow any air carrier to establish additional classes of service in accordance with the objectives of subsection (e)(5) of this section or as may be otherwise consistent with the public interest.

"(7) The Board may by rule increase the percentage specified in paragraph (4)(B) of this subsection.

"(8) Whenever a complaint is filed with the Board by a civic party under this subsection alleging that any individual or joint fare or charge demanded, charged, collected, or received for interstate or overseas air transportation is or will be unjustly discriminatory, unduly preferential, unduly prejudicial, or predatory, the Board shall grant, deny, or dismiss such complaint within ninety days after such complaint is filed.".

(b) Subsection (e) of such section 1002 is amended to read as follows:

"RULE OF RATEMAKING

"(e) In exercising and performing its power and duties with respect to determining rates, fares, and charges described in paragraph (1) of subsection (d) of this section, the Board shall take into consideration, among other factors—

"(1) the criteria set forth in section 102 of this Act;

"(2) the need for adequate and efficient transportation of persons and property at the lowest cost consistent with the furnishing of such service;

"(3) the effect of prices upon the movement of traffic;

"(4) the desirability of a variety of price and service options such as peak and offpeak pricing or other pricing mechanisms to improve economic efficiency and provide low-cost air service; and

"(5) the desirability of allowing an air carrier to determine prices in response to particular competitive market conditions on the basis of such air carrier's individual costs.".

(c)(1) Whenever the Board pursuant to its authority under section 1002 of the Federal Aviation Act of 1958 (49 U.S.C. 1482) prescribes a uniform method generally applicable to the establishment of joint fares, and the divisions thereof, between air carriers holding certificates issued under section 401 of such Act, it shall make such uniform method applicable to the establishment of joint fares, and the divisions thereof, between such air carriers and commuter air carriers. Any commuter air carrier which has an agreement with any air carrier to provide service for persons and property which includes transportation over its routes and transportation by such air carrier in air transportation shall provide at least ninety days notice to such air carrier and to the Board prior to modifying, suspending, or terminating such service, and if such commuter air carrier fails to provide such notice, any uniform method made applicable to the establishment of joint fares, and the divisions thereof, between air carriers and commuter air carriers in accordance with the preceding sentence shall not apply to such commuter air carrier.

(2) For purposes of this subsection—

(A) the terms "air carrier" and "Board" have the meanings given such terms in the Federal Aviation Act of 1958; and

(B) the term "commuter air carrier" means any air carrier operating pursuant to section 416(b)(3) of the Federal Aviation Act of 1958 (49 U.S.C. 1386(b)(3)) who operates at least five round trips per week between one pair of points, pursuant to flight schedules.

(3) Paragraph (1) of this subsection shall apply to any uniform method described in such paragraph which the Board prescribes on or after December 27, 1974.

TIME REQUIREMENTS

SEC. 38. (a) Title X of the Federal Aviation Act of 1958 (49 U.S.C. 1481 et seq.) is amended by adding at the end thereof the following new section:

"TIME REQUIREMENTS

"SEC. 1010. In the case of any application or other written document submitted to the Board under section 408, 409, 412, or 416 of this Act on or after the one-hundred-eightieth day after the date of enactment of this section, the Board shall—

"(1) if the Board orders an evidentiary hearing, issue a final order or decision with respect to such written document, not later than the last day of the twelfth month which begins after the submission of such document, except in the case of an application submitted under section 408 of this Act, the Board shall issue its final order or decision not later than the last day of the sixth month after submission; or

"(2) if the Board does not order an evidentiary hearing, issue a final order or decision with respect to such document, not later than the last day of the sixth month which begins after the date of the submission of such document.".

(b) That portion of the table of contents contained in the first section of such Act which appears under the center heading

"TITLE X—PROCEDURE"

is amended by adding at the end thereof

"Sec. 1010. Time requirements.".

WITHHOLDING OF INFORMATION

SEC. 39. Section 1104 of the Federal Aviation Act of 1958 (49 U.S.C. 1504) is amended to read as follows:

"WITHHOLDING OF INFORMATION

"SEC. 1104. Any person may make written objection to the public disclosure of information contained in any application, report, or document filed pursuant to provisions of this Act or of any information obtained by the Board, the Secretary of State, or the Secretary of Transportation pursuant to the provisions of this Act stating the grounds for such objection. Any information contained in such application, report, or document, or any such other information obtained by the Board, the Secretary of State, or the Secretary of Transportation, shall be withheld from public disclosure by the Board, the Secretary of State, or the Secretary of Transportation, as the case may be, if disclosure of such information would prejudice the formulation and presentation of positions of the United States in international negotiations and adversely affect the competitive position of any air carrier in foreign air transportation. The Board, the Secretary of State, or the Secretary of Transportation, as the case may be, shall be responsible for classified information in accordance with appropriate law, except that nothing in this section shall authorize the withholding of information by the Board,

the Secretary of State, or the Secretary of Transportation from the duly authorized committees of Congress.".

SUNSET PROVISIONS

SEC. 40. (a) The Federal Aviation Act of 1958 (49 U.S.C. 1301 et seq.) is amended by adding at the end thereof the following new title:

"TITLE XVI—SUNSET PROVISIONS

"TERMINATION OF CIVIL AERONAUTICS BOARD AND TRANSFER OF CERTAIN FUNCTIONS

"TERMINATION OF AUTHORITY

SEC. 1601. (a)(1) The following provisions of this Act (to the extent such provisions relate to interstate and overseas air transportation of persons) and the authority of the Board with respect to such provisions (to the same extent) shall cease to be in effect on December 31, 1981:

"(A) Sections 401(d)(1), (2), and (3) of this Act (insofar as such sections require a determination of consistency with the public convenience and necessity and insofar as section 401(d)(3) prohibits persons holding certificates under section 401(d)(1) or (d)(2) from obtaining certificates to provide interstate or overseas charter air transportation of persons).

"(B) Section 401(d)(8) of this Act.

"(C) Section 401(e)(1) of this Act (insofar as such section permits the Board to specify terminal and intermediate points).

"(D) Section 401(j) of this Act (except with respect to essential air transportation).

"(E) Sections 401(n)(1) and (4) of this Act.

"(F) Section 404(a) of this Act (insofar as such section requires any air carrier to provide air transportation authorized by its certificate).

"(G) Section 405(b) of this Act (insofar as such section requires the filing of any statement or schedule by any air carrier).

"(2) The following provisions of this Act (to the extent such provisions relate to interstate and overseas air transportation of persons) and the authority of the Board with respect to such provisions (to the same extent) shall cease to be in effect on January 1, 1983:

"(A) Section 403 of this Act.

"(B) Section 404 of this Act (except insofar as such section requires air carriers to provide safe and adequate service).

"(C) Section 407(b) and (c) of this Act.

"(D) Sections 1002(d)(1) and (d)(2), (e), (g), (h), and (i) of this Act.

"(3) The authority of the Board under sections 408 and 409 of this Act (relating to interstate and overseas air transportation) and the authority of the Board under section 414 of this Act (relating to such sections 408 and 409) is transferred to the Department of Justice on January 1, 1983.

"(4) Title II of this Act shall cease to be in effect on January 1, 1985.

"TRANSFER OF CERTAIN AUTHORITY

"(b)(1) The following authority of the Board is transferred to the following Federal departments and instrumentalities:

"(A) The authority of the Board under sections 406(b)(3) and (c) of this Act to provide compensation for air transportation to small communities and under section 419 of this Act is transferred to the Department of Transportation.

"(B) The authority of the Board under this Act with respect to foreign air transportation is transferred to the Department of Transportation which shall exercise such authority in consultation with the Department of State.

"(C) The authority of the Board under sections 408 and 409 of this Act (relating to foreign air transportation), the authority of the Board under section 412 of this Act, and the authority of the Board under section 414 of this Act (relating to such sections 408, 409, and 412) is transferred to the Department of Justice.

"(D) The authority of the Board under this Act with respect to the determination of the rates for the carriage of mails in interstate and overseas air transportation is transferred to the Postal Service and such authority shall be exercised through negotiations or competitive bidding.

"(2) Any authority transferred under paragraph (1) of this subsection shall take effect on January 1, 1985.

"REPORT AND ASSESSMENT BY BOARD

"(c) Not later than January 1, 1984, the Board shall prepare and submit to the Congress a comprehensive review of the Board's implementation of the provisions of this Act during the preceding initial period of this Act's existence, and a comprehensive review of each of the Board's programs under this Act. Each such review shall be made available to the committee or committees of the Senate and House of Representatives having jurisdiction with respect to the annual authorization of funds for the Board and its programs for the fiscal year beginning October 1, 1983.

"ELEMENTS FOR BOARD CONSIDERATION

"(d) The comprehensive review of the Board's implementation of this Act, prepared for submission under subsection (c), shall include—

"(1) a detailed comparison of the degree of competition within the airline industry as of the year preceding enactment of this section and the final year covered by the review;

"(2) a comparison of the degree of pricing competition in the industry during those two one-year periods;

"(3) a comparison of the extent of unused authority held by the industry during those two one-year periods, with details as to the number of nonstop route segments which have been transferred from one carrier to another under section 401(d)(5) of this Act;

"(4) an assessment of the degree to which agreements approved under section 412 of this Act have affirmatively or negatively affected the degree of competition within the industry;

"(5) a comparison of the extent of air transportation service provided to small communities during the two one-year periods specified above, together with details as to the comparative subsidy costs during these two periods;

"(6) an assessment of the degree, if any, to which the administrative process has been expedited under this Act;

"(7) an assessment of the impact of the foregoing changes upon the national air transportation system in terms of benefits or detriments to the traveling and shipping public, the Postal Service, and the national defense, and the benefits and detriments to air carriers, certificated and uncertificated; and

"(8) the Board's opinion as to whether the foregoing changes in combination, have improved or harmed this Nation's domestic air transportation system and the United States-flag foreign air transportation system.

This assessment shall be accompanied by a detailed opinion from the Board as to whether the public interest requires continuation of the Board and its functions beyond January 1, 1985, and, if it is the Board's conclusion that it should continue to exist, detailed recommendations as to how the provisions of this Act should be revised to insure continued improvement of the Nation's air transportation system beyond January 1, 1985. The Board's assessment under this subsection shall also be accompanied by a comparative analysis of procedures under section 801 of this Act before and after the date of enactment of the Airline Deregulation Act of 1978, together with the Board's opinion as to the benefits of each set of procedures.

"ELEMENTS FOR EACH COMPREHENSIVE REVIEW

"(e) Each comprehensive review of the Board's programs under this Act, prepared for submission under subsection (c) of this section, shall include—

"(1) an identification of the objectives intended for the program, and the problem or need which the program was intended to address;

"(2) an identification of any other programs having similar or potentially conflicting or duplicative objectives;

"(3) an assessment of alternative methods of achieving the purposes of the program;

"(4) a justification for the authorization of new budget authority, and an explanation of the manner in which it conforms to and integrates with other efforts;

"(5) an assessment of the degree to which the orignal objectives of the program have been achieved, expressed in terms of the performance, impact, or accomplishments of the program and of the problem or need which it was intended to address, and employing the procedures or methods of analysis appropriate to the type or character of the program;

"(6) a statement of the performance and accomplishments of the program in each of the previous four completed fiscal years and in the year of submission, and of the budgetary costs incurred in the operation of the program;

"(7) a statement of the number and types of beneficiaries or persons or entities served by the program;

"(8) an assessment of the effect of the program on the national economy, including, but not limited to, the effects on competition, economic stability, employment, unemployment, productivity, energy consumption and conservation, and price inflation, including costs to consumers and to businesses;

"(9) an assessment of the impact of the program on the Nation's health and safety;

"(10) an assessment of the degree to which the overall administration of the program, as expressed in the rules, regulations, orders, standards, criteria, and decisions of the officers executing the program, are believed to meet the objectives of the Congress in enacting this Act;

"(11) a projection of the anticipated needs for accomplishing the objectives of the program, including an estimate if applicable of the date on which, and the conditions under which, the program may fulfill such objectives;

"(12) an analysis of the services which could be provided and performance which could be achieved if the program were contained at a level less than, equal to, or greater than the existing level; and

"(13) recommendations for necessary transitional requirements in the event that funding for such program is discontinued, including proposals for such executive or legislative action as may be necessary to prevent such discontinuation from being unduly disruptive.".

(b) That portion of the table of contents contained in the first section of such Act is amended by inserting at the end thereof

"TITLE XVI—SUNSET PROVISIONS

"SEC. 1601. Termination of Civil Aeronautics Board and Transfer of Certain Functions.

"(a) Termination of authority.

"(b) Transfer of certain authority.

"(c) Report and assessment by Board.

"(d) Elements for Board consideration.

"(e) Elements for each comprehensive review.".

AMENDMENTS TO THE AIRPORT AND AIRWAY DEVELOPMENT ACT OF 1970

SEC. 41. (a) Section 29 of the Airport and Airway Development Act of 1970 is amended—

(1) by striking out "Notwithstanding" and inserting in lieu thereof the following:

"(a) SERVICE BY INTRASTATE AIR CARRIER.—Notwithstanding"; and

(2) by inserting at the end thereof the following new subsection:

"(b) SUSPENDED OR DELETED SERVICE.—Notwithstanding any other provision of this title, any public airport which, on the date of enactment of the Airline Deregulation Act of 1978, is regularly served by an air carrier (other than a charter air carrier) certificated by the Civil Aeronautics Board under section 401 of the Federal Aviation Act of 1958 shall be deemed to be an air carrier airport (other than a commuter service airport) for the purposes of this title. This subsection shall cease to be in effect after September 30, 1980.".

(b) Paragraph (1) of section 11 of the Airport and Airway Development Act of 1970 is amended by striking out "(other than a supplemental air carrier)" and inserting in lieu thereof "(other than a charter air carrier)".

GOVERNMENT GUARANTEE OF EQUIPMENT LOANS

SEC. 42. (a)(1) The first sentence of the first section of the Act entitled "An Act to provide for Government guarantee of private loans of certain air carriers for purchase of modern aircraft and equipment, to foster the development and use of modern transport aircraft by such carriers, and for other purposes", approved September 7, 1957 (49 U.S.C. 1324 note) (hereinafter in this section referred to as the "Act"), is amended by inserting "and to promote the development of local, feeder, and short-haul charter air transportation of cargo" after "and short-haul air transportation".

(2) The second sentence of the first section of the Act is amended by inserting ", charter air carriers, commuter air carriers, and intrastate air carriers" immediately after "air carriers".

(b) Section 2 of the Act is amended to read as follows:

"SEC. 2. As used in this Act—

"(1) 'aircraft purchase loan' means any loan, or commitment in connection therewith, made for the purchase of commercial transport aircraft, including spare parts normally associated therewith;

"(2) 'air carrier' means any air carrier holding a certificate of public convenience and necessity issued by the Civil Aeronautics Board under section 401(d)(1) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(d)(1));

"(3) 'charter air carrier' has the meaning given such term in section 101(14) of the Federal Aviation Act of 1958;

"(4) 'charter air transportation' has the meaning given such term in section 101(15) of the Federal Aviation Act of 1958;

"(5) 'commuter air carrier' means any air carrier operating pursuant to section 416(b)(3) of the Federal Aviation Act of 1958 (49 U.S.C. 1386(b)(3)) who operates at least five round trip flights per week between one pair of points in accordance with published flight schedules;

"(6) 'intrastate air carrier' means any citizen of the United States who undertakes, whether directly or indirectly or by a lease or any other arrangement, to engage primarily in intrastate air transportation (as such term is defined in section 101(26) of the Federal Aviation Act of 1958); and

"(7) 'Secretary' means the Secretary of Transportation.".

(c) Section 3 of the Act is amended to read as follows:

"SEC. 3. The Secretary is authorized to guarantee any lender against loss of principal or interest on any aircraft purchase loan made by such lender to—

"(1) any air carrier whose certificate (A) authorizes such air carrier to provide local or feeder air service, (B) authorizes scheduled passenger operations the major portion of which are conducted within the State of Hawaii, (C) authorizes operations (the major portion of which is conducted either within Alaska or between Alaska and the forty-eight contiguous States), within the State of Alaska (including service between Alaska and the forty-eight contiguous States, and between Alaska and adjacent Canadian territory), or (D) authorizes metropolitan helicopter service,

"(2) any charter air carrier for the purchase of any all-cargo nonconvertible aircraft,

"(3) any commuter air carrier, or

"(4) any intrastate air carrier.

Such guarantee shall be made in such form, on such terms and conditions, and pursuant to such regulations, as the Secretary deems necessary and which are not inconsistent with the provisions of this Act.".

(d) Section 4 of the Act is amended to read as follows:

"SEC. 4 (a) Subject to subsection (b) of this section, no guaranty shall be made—

"(1) extending to more than the upaid interest and 90 percent of the unpaid principal of any loan;

"(2) on any loan or combination of loans for more than 90 percent of the purchase price of the aircraft, including spare parts, to be purchased therewith;

"(3) on any loan whose terms permit full repayment more than 15 years after the date thereof;

"(4) wherein the total face amount of such loan, and of any other loans to the same air carrier, charter air carrier, commuter air carrier, or intrastate air carrier or corporate predecessor of such air carrier, charter air carrier, commuter air carrier, or intrastate air carrier guaranteed and outstanding under the terms of this Act exceeds $100,000,000;

"(5) unless the Secetary finds that, without such guaranty, in the amount thereof, the air carrier, charter air carrier, commuter air carrier, or intrastate air carrier would be unable to obtain necessary funds for the purchase of needed aircraft on reasonable terms;

"(6) unless the Secretary finds that the aircraft to be purchased with the guaranteed loan is needed to improve the service and efficiency of operation of the air carrier, charter air carrier, commuter air carrier, or intrastate air carrier;

"(7) unless the Secretary finds that the prospective earning power—

"(A) of the applicant air carrier or charter air carrier, together with the character and value of the security pledged, furnish (i) reasonable assurances of the applicant's ability to repay the loan within the time fixed therefor, and (ii) reasonable protection to the United States; and

"(B) of the applicant commuter air carrier or intrastate air carrier, together with the character and value of the security pledged, furnish (i) reasonable assurances of the applicant's ability and intention to repay the loan within the time fixed therefor, to continue its operations as a commuter air carrier or intrastate air carrier, and to the extent found necessary by the Secretary, to continue its operations as a commuter air carrier or intrastate air carrier between the same route or routes being operated by such applicant at the time of the loan guarantee, and (ii) reasonable protection to the United States; and

"(8) on any loan or combination of loans for the purchase of any new turbojet-powered aircraft which does not comply with the noise standards prescribed for new subsonic aircraft in regulations issued by the Secretary acting through the Administrator of the Federal Aviation Administration (14 C.F.R. part 36), as such regulations were in effect on January 1, 1977.

"(b) No guaranty shall be made by the Secretary under subsection (a) of this section on any loan for the purchase of any all-cargo nonconvertible aircraft by any charter air carrier in an amount which, together with any other loan guaranteed and outstanding under this Act to such charter air carrier, or corporate predecessor of such charter air carrier, would result in the ratio of the total face amount of such loans to $100,000,000 exceeding the ratio of the amount of charter air transportation of such charter air carrier provided to medium, small, and nonhub airports during the twelve-month period preceding the date on which the application for such guaranty is made by such charter air carrier to the total amount of charter air transportation of such charter air carrier during such twelve-month period.".

(e) Section 8 of the Act is amended to read as follows:

"SEC. 8. The authority of the Secretary under section 3 of this Act shall terminate five years after the date of enactment of this section.".

EMPLOYEE PROTECTION PROGRAM

SEC. 43 (a). GENERAL RULE.—(1) The Secretary of Labor shall, subject to such amounts as are provided in appropriation Acts, make monthly assistance payments, or reimbursement payments, in amounts computed according to the provisions of this section, to each individual who the Secretary finds, upon application, to be an eligible protected employee. An eligible protected employee shall be a protected employee who on account of a qualifying dislocation (A) has been deprived of employment, or (B) has been adversely affected with respect to his compensation.

(2) No employee who is terminated for cause shall receive any assistance under this section.

(b) MONTHLY ASSISTANCE COMPUTATION.—(1) An eligible protected employee shall, subject to such amounts as are provided in appropriation Acts, receive a monthly assistance payment, for each month in which he is an eligible protected employee, in an amount computed by the Secretary. The Secretary, after consultation with the Secretary of Transportation, shall, by rule, promulgate guidelines to be used by him in determining the amount of each monthly assistance payment to be made to a member of each craft and class of protected employees, and what percentage of salary such payment shall constitute for each applicable class or craft of employees. In computing such amounts for any individual protected employee, the Secretary shall deduct from such amounts the full amount of any unemployment compensation received by the protected employee.

(2) If an eligible protected employee is offered reasonably comparable employment and such employee does not accept such employment, then such employee's monthly assistance payment under this section shall be reduced to an amount which such employee would have been entitled to receive if such employee had accepted such employment. If the acceptance of such comparable employment would require relocation, such employee may elect not to relocate and, in lieu of all other benefits provided herein, to receive the monthly assistance payments to which he would be entitled if this paragraph were not in effect, except that the total number of such payments shall be the lesser of three or the number remaining pursuant to the maximum provided in subsection (e).

(c) ASSISTANCE FOR RELOCATION.—If an eligible protected employee relocates in order to obtain other employment, such employee shall, subject to such amounts as are provided in appropriations Act, receive reasonable moving expenses (as determined by the Secretary) for himself and his immediate family. In addition, such employee shall, subject to such amounts as are provided in appropriation Acts, receive reimbursement payments for any loss resulting from selling his principal place of residence at a price below

its fair market value (as determined by the Secretary) or any loss incurred in cancelling such employee's lease agreement or contract of purchase relating to his principal place of residence.

(d) DUTY TO HIRE PROTECTED EMPLOYEES.—(1) Each person who is a protected employee of an air carrier which is subject to regulation by the Civil Aeronautics Board who is furloughed or otherwise terminated by such an air carrier (other than for cause) prior to the last day of the 10-year period beginning on the date of enactment of this section shall have first right of hire, regardless of age, in his occupational specialty, by any other air carrier hiring additional employees which held a certificate issued under section 401 of the Federal Aviation Act of 1958 prior to such date of enactment. Each such air carrier hiring additional employees shall have a duty to hire such a person before they hire any other person, except that such air carrier may recall any of its own furloughed employees before hiring such a person. Any employee who is furloughed or otherwise terminated (other than for cause), and who is hired by another air carrier under the provisions of this subsection, shall retain his rights of seniority and right of recall with the air carrier that furloughed or terminated him.

(2) The Secretary shall establish, maintain, and periodically publish a comprehensive list of jobs available with air carriers certificated under section 401 of the Federal Aviation Act of 1958. Such list shall include that information and detail, such as job descriptions and required skills, the Secretary deems relevant and necessary. In addition to publishing the list, the Secretary shall make every effort to assist an eligible protected employee in finding other employment. Any individual receiving monthly assistance payments, moving expenses, or reimbursement payments under this section shall, as a condition to receiving such expenses or payments, cooperate fully with the Secretary in seeking other employment. In order to carry out his responsibilities under this subsection, the Secretary may require each such air carrier to file with the Secretary the reports, data, and other information necessary to fulfill his duties under this subsection.

(3) In addition to making monthly assistance or reimbursement payments under this section, the Secretary shall encourage negotiations between air carriers and representatives of eligible protected employees with respect to rehiring practices and seniority.

(e) PERIOD OF MONTHLY ASSISTANCE PAYMENTS.—(1) Monthly assistance payments computed under subsection (b) for a protected employee who has been deprived of employment shall be made each month until the recipient obtains other employment, or until the end of the 72 months occurring immediately after the month such payments were first made to such recipient, whichever first occurs.

(2) Monthly assistance payments computed under subsection (b) for a protected employee who has been adversely affected relating to his compensation shall be paid for no longer than 72 months, so long as the total number of monthly assistance payments made under this section for any reason do not exceed 72.

(f) RULES AND REGULATIONS.—(1) The Secretary may issue, amend, and repeal such rules and regulations as may be necessary for the administration of this section.

(2) The rule containing the guidelines which is required to be promulgated pursuant to subsection (b) of this section and any other rules or regulations which the Secretary deems necessary to carry out this section, shall be promulgated within six months after the date of enactment of this section.

(3) The Secretary shall not issue any rule or regulation as a final rule or regulation under this section until 30 legislative days after it has been submitted to the Committee on Commerce, Science and Transportation of the Senate and the Committee on Public Works and Transportation of the House of Representatives. Any rule or regulation issued by the Secretary under this section as a final rule or regulation shall be submitted to the Congress and shall become effective 60 legislative days after the date of such submission, unless during that 60-day period either House adopts a resolution stating that that House disapproves such rules or regulations, except that such rules or regulations may become effective on the date, during such 60-day period, that a resolution has been adopted by both Houses stating that the Congress approves of them.

(4) For purposes of this subsection, the term "legislative day" means a calendar day on which both Houses of Congress are in session.

(g) AIRLINE EMPLOYEES PROTECTIVE ACCOUNT.—All payments under this section shall be made by the Secretary from a separate account maintained in the Treasury of the United States to be known as the Airline Employees Protective Account. There are authorized to be appropriated to such account annually, beginning with the fiscal year ending September 30, 1979, such sums as are necessary to carry out the purposes of this section, including amounts necessary for the administrative expenses of the Secretary related to carrying out the provisions of this section.

(h) DEFINITIONS.—For the purposes of this section—

(1) The term "protected employee" means a person who, on the date of enactment of this section, has been employed for at least 4 years by an air carrier holding a certificate issued under section 401 of the Federal Aviation Act of 1958. Such term shall not include any members of the board of directors or officers of a corporation.

(2) The term "qualifying dislocation" means a bankruptcy or major contraction of an air carrier holding a certificate under section 401 of the Federal Aviation Act of 1958, occurring during the first 10 complete calendar years occurring after the date of enactment of the Airline Deregulation Act of 1978, the major cause of which is the change in regulatory structure provided by the Airline Deregulation Act of 1978, as determined by the Civil Aeronautics Board.

(3) The term "Secretary" means the Secretary of Labor.

(4) The term "major contraction" means a reduction by at least 7½ percent of the total number of full-time employees of an air carrier within a 12-month period. Any particular reduction of less than 7½ percent may be found by the Board to be part of a major contraction of an air carrier if the Board determines that other reductions are likely to occur such that within a 12-month period in which such particular reduction occurs the total reduction will exceed 7½ percent. In computing a 7½-percent reduction under this paragraph, the Board shall not include employees who are deprived of employment because of a strike or who are terminated for cause.

(i) TRANSFER OF AUTHORITY OF THE BOARD.—The authority of the Board under this section is transferred to the Department of Transportation on January 1, 1985.

(j) TERMINATION.—The provisions of this section shall terminate on the last day the Secretary is required to make a payment under this section.

LABOR DISPUTE

SEC. 44. Within ten days after the date of enactment of this section the President, pursuant to section 10 of the Railway Labor Act, shall create a board to investigate and report on the dispute between Wien Air Alaska Incorporated, and the Air Line Pilots Association. Such board shall report its findings to the President within thirty days from the date of its creation.

COLLECTION OF FEES, CHARGES, AND PRICES

SEC. 45. Notwithstanding any other provisions of law, neither the Secretary of Transportation nor the Administrator of the Federal Aviation Administration shall collect any fee, charge, or price for any approval, test, authorization, certificate, permit, registration, conveyance, or rating relating to any aspect of aviation (1) which is in excess of the fee, charge, or price for such approval, test, authorization, certificate, permit, registration, conveyance, or rating which was in effect on January 17, 1973, or (2) which did not exist on January 1, 1973, until all such fees, charges, and prices are reviewed and approved by Congress.

CONTINUITY FOR CERTAIN CERTIFICATES

SEC. 46. Any reference in any law, rule, regulation, or document of the United States to a supplemental air carrier or supplemental air transportation shall be deemed to be a reference to a charter air carrier or charter air transportation, respectively.

EXISTING DETERMINATIONS

SEC. 47. All orders, determinations, rules, regulations, permits, contracts, certificates, rates, and privileges which have been issued, made, or granted, or allowed to become effective, by the President, the Civil Aeronautics Board, or the Postmaster General, or any court of competent jurisdiction, under any provision of law repealed or amended by this Act, or in the exercise of duties, powers, or functions, which are vested in the Board, and which are in effect at the time this Act takes effect, shall continue in effect according to their terms until modified, terminated, superseded, set aside, or repealed by the Board, or by any court of competent jurisdiction, or by operation of law.

And the House agree to the same.

That the Senate recede from its disagreement to the amendment of the House to the title of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment to the title of the bill insert the following: "An Act to amend the Federal Aviation Act of 1958, to encourage, develop, and attain an air transportation system which relies on competitive market forces to determine the quality, variety, and price of air services, and for other purposes."

And the House agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2493) to amend the Federal Aviation Act of 1958, as amended, to encourage, develop, and attain an air transportation system which relies on competitive market forces to determine the quality, variety, and price of air services, and for other purposes, submit the following joint statement to the House and

the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The House amendment to the text of the bill struck out all of the Senate bill after the enacting clause and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House with an amendment which is a substitute for the Senate bill and the House amendment. The differences between the Senate bill, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

SHORT TITLE

Senate bill

Provides the bill may be cited as the "Kennedy-Cannon-Pearson Air Transportation Reform Act of 1978".

House amendment

Provides the amendment may be cited as the "Air Service Improvement Act of 1978".

Conference substitute

Provides that the Act may be cited as the "Airline Deregulation Act of 1978".

DECLARATION OF POLICY

Senate bill

This section sets forth the congressional policy to guide the Board in performing its duties. In contrast to the current Act, the bill establishes different standards of the public interest or public convenience and necessity for domestic (including overseas) air transportation. (Subsection (a) of section 102 covers interstate and overseas air transportation and subsection (b) covers foreign air transportation. The legislative language governing foreign air transportation is left unchanged and has not been considered by the committee.) The policy statement consists of six directions for the Board to use as guides in evaluating the public interest and the public convenience and necessity.

Subsection (a), the new declaration of policy for interstate and overseas air transportation, is designed to give the Board a clear and firm mandate to regulate in a manner which places primary reliance on competition. The Board is instructed to make every effort to utilize competition and market forces to achieve regulatory goals, such as low-cost, efficient air transportation. And, the policy statement designates a competitive industry as a goal in itself. The Board is particularly instructed to create and maintain a regulatory and economic environment which will encourage the realistic threat of competition, facilitate entry into markets by qualified firms and develop market incentives to lower costs and better efficiency by existing and new carriers.

Apart from the encouragement of new entry, the Board is given the companion directive to prevent anticompetitive practices and avoid industry and market concentration.

The declaration of policy for the first time includes an explicit congressional mandate that scheduled service for small and isolated areas be maintained and improved.

Subsection (b) retains the current declaration of policy for foreign air transportation.

House amendment

The amendment changes the policy statement for interstate and overseas air transportation. The revised statement directs the Board to stress competition, low-fare service, entry by new carriers, and avoidance of industry concentration. The Board is also required to develop programs to replace carriers holding unused authority and to develop a regulatory environment in which decisions will be reached promptly. The Board is further directed to continue its program of strengthening smaller air carriers.

The policy statement makes it clear that increased reliance upon competition must not result in any deterioration in safety. The Board is directed to give the highest priority to maintaining safety and to preventing deterioration in established safety procedures, including evaluation of a section 107 report by the Secretary of Transportation. The Board is also required to take account of the interests of industry employees by encouraging fair wages and equitable working conditions.

The revised policy statement directs the Board to encourage air service at major urban areas through secondary or satellite airports where consistent with local and regional airport plans of regional and local authorities. The Board is further directed to encourage the development of service to secondary or satellite airports by specialist air carriers, whose sole responsibility would be to serve the secondary or satellite airports when such encouragement is endorsed by appropriate State agencies.

Conference substitute

Combines the declarations of policy from the Senate bill and the House amendment, except that the conference substitute does not contain paragraph (2) from the Senate declaration of policy or paragraph (3) from the House declaration of policy and the conference substitute provides that the Board shall consider the avoidance of unreasonable industry concentration as being in the public interest and in accordance with the public convenience and necessity.

The language in the policy declaration directing the Board to encourage the continued strengthening of small carriers is not interpreted to mean that the Board must engage in carrier selection in its route proceedings to preclude large air carriers from new routes. Rather, it is intended to direct the Board to continue providing opportunities for the small carriers in as many ways as possible and not restrict them solely because they have historically had operations limited in area or extent.

In adopting this new, comprehensive legislation, which entirely overhauls the aviation regulatory system, Congress was mindful of recent activities of the CAB. This new charter is intended as a legislative mandate to the CAB both as to the direction and policy of aviation regulation and also, it should be noted, the limits of such policy. In short, Congress expects the deregulation of the aviation industry to move in accordance with this legislation and not in accordance with the, perhaps, differing concepts of some members of the CAB. The legislation establishes specific programs for increased competition. The legislation also includes a new policy statement which gives the CAB broad discretion to establish other programs to encourage competition, such as the multiple, permissive authority program recently established by the Board. Such programs are needed in the gradual and phased transition to a deregulated system. However, we expect that in developing these programs the Board will pay heed to the provisions of the policy statement giving specific directions to the Board. We also expect that any additional programs will not be incompatible with the specific programs Congress has established.

DEFINITONS

Senate bill

Section 3 of the bill amends section 101 of the Federal Aviation Act of 1958 by deleting several definitions which are no longer needed in the implementation of that Act, and adding certain new definitions which are as follows:

(a) "All-cargo air transportation" means air transportation of property, or of property and mail, only.

(b) "Charter air transportation" means charter trips, including inclusive tour charter trips, in air transportation, rendered pursuant to authority conferred under this Act under regulations prescribed by the Board.

(c) "Local air transportation" means scheduled air transportation of persons, property, and mail provided pursuant to a certificate issued under section 420 of this Act.

(d) "Predatory" refers to practices which would constitute a violation of the antitrust laws (defined in section 414).

(e) "Scheduled air transportation" means air transportation in regular route service which is not charter air transportation.

(f) "State agency" means that department, agency, officer, or other entity of a State government which has been designated according to State law as—

(1) the recipient of any notice required under title IV to be given to a State agency; or

(2) the representative of the State in any matter about which the Board is required, under title IV, to consult with or consider the view of a "State agency."

In addition, the existing definitions for "supplemental air carrier" and "supplemental air transportation" are deleted from the Federal Aviation Act of 1958. Under the amendments made by this Act supplemental air carriers will be referred to as air carriers providing charter air transportation.

House amendment

Amends section 101 of the Federal Aviation Act of 1958 by adding two new definitions as follows:

(1) "Essential air transportation" means, with respect to the air transportation provided by any air carrier to any point (A) two round trips per day at least five days per week, or (B) the level of service provided by such air carrier to such point based on the schedule of such air carrier in effect for calendar year 1977 whichever is the lesser.

(2) "Predatory" means any practice which would constitute a violation of the antitrust laws as set forth in the first section of the Clayton Act (15 U.S.C. 12).

Conference substitute

Amends section 101 of the Federal Aviation Act of 1958 as follows:

(1) Adds the following new definitions:

(A) Charter air carrier.

(B) Charter air transportation (as defined in the Senate bill).

(C) Predatory (as defined in the House amendment).

(D) State agency (as defined in the Senate bill).

(2) Repeals the definitions of supplemental air carrier and supplemental air transportation.

SAFETY STUDY

Senate bill

Section 4 of the bill amends title I of the Federal Aviation Act by adding at the end thereof a new section which states that the Congress intends for the implementation of the amendments made by the bill to have no deleterious effect on the high standards of safety currently attained in the air transportation industry. In order to carry out that intent, the Secretary is directed to conduct a continuous review of the effects the implementation of this bill is having on the standard of safety in the industry, and, based on that study, to take whatever remedial action he deems necessary to insure that the highest standard of safety is maintained.

Specifically, the Secretary is instructed to study the inspection and safety regulations applicable to each class of air carriers to which title IV applies. Based on that study,

the Administrator of the Federal Aviation Administration is directed to prescribe those safety and inspection regulations he deems necessary to maintain the highest standard of safe reliable air transportation in the United States.

Finally, the Secretary is required to report to the Congress during each of the first 5 calendar years occurring after the date of enactment of this section on the results of the study conducted by him. Each study report shall contain necessary legislative and administrative recommendations.

House amendment

Provides annually beginning no later than January 31, 1980 for a report to Congress and the Board by the Secretary of Transportation on the extent to which the implementation of this Act during the preceding year has affected the level of air safety. An analysis is required of specific data and requirements, practices, procedures, and regulations. In addition, annually, the Secretary is required to submit to Congress and the Board recommendations on necessary surveillance to enforce safety regulations, including staff levels and proposed legislation.

Conference substitute

Combines the substantive provisions of the Senate bill and the House amendment.

CERTIFICATES

Senate bill

Section 5 of the bill amends section 401 of the Federal Aviation Act of 1958 in its entirety.

Subsection (a) gives the Board the general authority to issue certificates of public convenience and necessity to engage in: (1) Scheduled interstate or overseas air transportation of persons, property, and mail; and (2) foreign air transportation, including scheduled passenger service, foreign all-cargo, and foreign charter air transportation.

Subsection (b) requires the Board to authorize new service unless it is not consistent with the public convenience and necessity with the burden for such a showing falling on the opponent of any application for such a certificate.

Subsection (c) establishes the standard the Board will apply for issuing certificates of public convenience and necessity for foreign air transportation. These standards are unchanged, except that the Board is prohibited from issuing a certificate authorizing an air carrier to engage in foreign charter air transportation if that air carrier holds a certificate issued before January 1, 1977, to engage in scheduled air transportation.

Subsection (d) contains three separate factors that the Board is required to consider, in addition to the policy statement, in making any determination of the public convenience and necessity. These three guidelines stress innovative and more efficient methods of operation in air transportion, reductions in fares, and avoidance of industry concentration, excessive market domination, monopoly power and other conditions that would tend to allow one more air carriers unreasonably to increase prices, reduce services, or exclude competition. It further states that the diversion of revenue from one air carrier to another is not in itself inconsistent with the public convenience and necessity.

Subsection (e) requires the Board to include in each certificate issued for scheduled interstate and overseas air transportation the terminal and intermediate points (if any) between which such air carrier is to provide such air transportation, and the service to be provided. In addition, the Board may include in such a certificate other limitations, including limiting the period for which a certificate is valid, as may be required by the public convenience and necessity.

Subsection (f) directs the Board to designate, in a certificate issued for foreign air transportation, only the general route to be followed, and to designate terminal and intermediate points only if practical. This subsection authorizes a holder of a certificate for foreign air transportation to carry, in scheduled foreign air transportation, mail of foreign countries. In addition, this subsection also authorizes an air carrier performing scheduled flights in foreign air transportation to carry persons, property, and mail, on one round trip flight per day in each city-pair market, on such flights in any State or the District of Columbia. The Board may, by rule, increase that number of flights per day on which such service may be provided.

Subsection (g) retains the provisions of existing law formerly contained in section 401(e)(5).

Subsection (h) contains provisions relating to the termination or suspension of air transportation which is being provided under a certificate issued under this section. Any air carrier proposing to terminate, suspend, or reduce air transportation is required to give the Board, the community affected, and the State agency of the State in which that community is located at least 90 days' notice, unless the air carrier proposing to terminate or suspend air transportation between two points is the only air carrier certificated under section 401 providing air transportation between those points, in which case that air carrier shall give 60 days' notice. In either case, the Board, during the period of notice, shall make every effort to secure another air carrier to perform the air transportation being terminated or suspended or reduced. If the Board is unable to secure another air carrier then the Board—

(1) may require the air carrier proposing to terminate or suspend air transportation to continue providing such air transportation for an additional 90 days; and

(2) shall see that essential air transportation is provided, with subsidy under section 419(h), if necessary.

In addition, subsection (h)(2) authorizes the Board to permit an air carrier to suspend air transportation being provided by it, without notice, if it is in the public interest to do so, and so long as essential air transportation is maintained. An application for a suspension will be served on the Board, the community affected, and the State agency of the State in which the community is located. A suspension of longer than 30 days may not be granted without a hearing, if a hearing is requested by the affected community.

Finally, paragraph (4) of this subsection makes clear the definition of "State" includes Puerto Rico and the Virgin Islands.

Subsection (i) of section 401 will authorize any air carrier to petition the Board to have granted to it the authority of another air carrier to provide nonstop scheduled interstate or overseas air transportation between two points. The Board shall grant such authority if the authority sought has not been exercised at a minimum five round trips per week for at least 80 days during the 12 months immediately preceding the date the petition is filed, and if it is consistent with the public convenience and necessity. In addition, the Board, on its own or on petition, may reduce, restrict, suspend, or terminate the authority the nonuse of which gave rise to the petition under this subsection, if it is consistent with the public convenience and necessity.

Instead of the periods of limitation that would otherwise apply to any application filed under this section, paragraph (2) requires the Board to make its determinations under this subsection within 90 days after receiving a petition, giving priority consideration to each such petition. Finally, the subsection provides specifically that all petitions under this subsection shall, except as specifically provided, be handled according to the procedures specified in section 1010, relating to expedited procedures.

Subsection (j) makes closed-door restriction illegal after January 1, 1980, except for existing closed-door restrictions between points within Hawaii and any such restrictions the Board may deem necessary to impose in the future; and those closed door restrictions which resulted from the sale, transfer, or exchange by one air carrier of its authority to provide air transportation in any market to another air carrier.

Subsection (k) establishes a program whereby certain air carrier, both federally certificated and intrastate air carriers, can obtain authority to provide domestic scheduled air transportation over additional segments without Board approval. Those air carriers who are eligible for the automatic entry program are to file their selections with the Board by the first business day of July each year. For calendar years 1979 and 1980, each air carrier will be able to select one segment, and in 1981 and each year thereafter, each air carrier will be able to select two segments. The total statute miles of all segments selected by any one air carrier in 1 year may not exceed 3,000 statute miles. Hawaii is not included in this program for the reasons discussed earlier in the committee report.

The subsection contains two limitations on the number of routes served by carriers which will be available for automatic entry by other carriers during the first years of the program. First, each air carrier may designate by the first business day in July of each year certain segments over which it provides nonstop regularly scheduled air transportation. Segments so designated will not be open to automatic entry by other carriers. For 1979, 1980, and 1981 each carrier may designate three segments; for 1982, two segments; and for 1983, one segment. Thereafter, all segments shall be available for automatic entry. Secondly, regional carriers receiving subsidy and small trunk carriers (fewer than 25 billion available seat-miles annually) are protected by an absolute limitation on the total number of routes which can be subject to entry on each of their systems. Subsidized carriers may be subject to entry on no more than two of the routes on their system each year during 1979, 1980, and 1981. Other smaller carriers are subject to entry on no more than four of the routes in their system during calendar year 1979 and 1980. If the total number of routes of a carrier selected by other airlines for automatic entry is greater than the total number of routes permitted, the Board is to certify as available for entry those routes which have been selected by the smallest air carriers (based on system-operating revenues) up to the number permitted. Any air carrier denied its choice for automatic entry because of the operation of these limitations may select another segment by filing the selection with the Board on September 15. The Board shall process this selection by October 15.

The Board shall publish the list of segments selected within 10 days after the first business day in July. If a route is available for entry, all air carriers selecting the route shall be certified for automatic entry. If an air carrier selects the same segment as another air carrier, the air carrier may select another segment, withdrawing the first selection. The Board shall certify the segments as made by August 1, if they are all found to be valid selections. No segment may be selected if it had been selected during the preceding 2 years, and scheduled air transportation is being provided over that segment under such authority.

The authority received by an air carrier under this program shall be authority to provide regularly scheduled nonstop air transportation over the segment selected for

20 months. If the air carrier provides such air transportation for 18 months then the Board shall grant that air carrier permanent authority to provide such air transportation.

Under this subsection the Board is required to report to the Congress on the operation of the program. The first report shall be filed by March 1, 1980, and each annual report shall be filed by March 1 of each year thereafter. Additionally, a comprehensive report will be filed by March 1, 1983, which shall contain an evaluation and review of the program during the immediately preceding 4 years. The comprehensive report shall give special attention to the impact of the program on the air transportation being provided small and medium sized communities.

Finally, the Board is authorized to modify the program, on an emergency basis, by rule, if the Board determines that—

(1) the operation of such program is causing substantial public harm to the national air transportation system, or a substantial reduction in air service to small and medium sized communities in any region of the country;

(2) the modification proposed by the Board is required by the public convenience and necessity in order to alleviate such harm or reduction; and

(3) such harm or reduction identified by the Board cannot be rectified by any reasonably available means other than the modification proposed by the Board.

In so modifying the program the Board shall choose the least disruptive solution to the emergency. The modification will become effective after it has lain before the Congress for 60 legislative days, unless either House disapproves of the modification by resolution or both Houses approve of it, by concurrent resolution. If the Congress so approves by concurrent resolution, the modification is effective on the date of adoption of the approving resolution.

Paragraph (12) defines an eligible "segment" for purposes of the automatic entry program as being an air route between two points within the contiguous 48 States or between a point in the contiguous 48 States and a point in Alaska, Puerto Rico, or the U.S. Virgin Islands.

Subsection (l) provides for the establishment of a civil reserve air fleet which will be available to the Secretary of Defense for the transportation of persons or property by transport category aircraft in interstate air transportation. In addition, this subsection authorizes the Secretary of Defense to contract with air carriers which are not in the civil reserve air fleet when no air carrier in such fleet is capable or willing to provide the services he needs. This subsection is a restatement of the law as it was before the enactment of this bill.

Subsection (m) embodies the provisions on charter air transportation applicable to air carriers holding a certificate issued under section 401. Those air carriers will be permitted to engage in charter air transportation under regulations prescribed by the Board. An air carrier holding such a certificate which engaged in off-route charter operations on January 1, 1977, shall be permitted to continue those off-route charter operations. Other such carriers will be limited in the percentage of their total system-scheduled aircraft miles operated in a year that may be devoted to off-route charter trips.

This subsection also requires the regulations of the Board relating to charter air transportation to specify the same frequency and regularity limitations on off-route charter operations that the Board applied on January 1, 1977. The term "off-route charter" shall have the same meaning as that term was defined on January 1, 1977.

House amendment

Under existing law, CAB is required to grant applications for interstate and overseas transportation (defined as service to U.S. possessions and territories) if the proposed service is "required by the public convenience and necessity." The Air Service Improvement Act changes the test to whether the proposed service "is consistent with" the public convenience and necessity.

In addition, transportation covered by an application for a certificate is statutorily deemed to be consistent with the public convenience and necessity unless the Board finds on clear and convincing evidence that such transportation is inconsistent with the public convenience and necessity, thus shifting the burden of proof to the opponents of the application.

The House provides that a certificate for a market becomes unused or dormant if the certificated carrier does not provide service of at least five round trips a week for at least 13 weeks during a 26 week period. Similar standards are provided for seasonal certificates.

The House provides two types of procedures for replacement of carriers with dormant certificates.

Markets which do not receive any nonstop service or which receive nonstop service by only one carrier are the markets most in need of replacement service. For these markets, the House provides that CAB must authorize replacement service in fifteen days by the first applicant who certifies that it is in compliance with FAA regulations and is able to comply with CAB regulations.

For markets actually served by two or more carriers, the House provides that the CAB must authorize the first applicant who makes the foregoing certifications, unless the CAB finds, within 60 days, that award of replacement authority would be inconsistent with the public convenience and necessity. The House establishes a rebuttable presumption that any application to replace a dormant carrier is consistent with the public convenience and necessity.

When the Board authorizes a new carrier to replace a carrier with dormant authority, the Board is directed to suspend all dormant certificates in the market. The suspension terminates if the new carrier allows its certificate to become dormant.

The carriers eligible to participate in the experimental entry program provided in section 10 of the House amendment are CAB certificated passenger carriers, both scheduled and supplemental, and intrastate passenger carriers operating at least 100 million available seat miles a year. The program permits each of these carriers to enter one new market in the first calendar year after enactment, under the following procedures.

On the first business day of the calendar year, such scheduled certificated carrier may select one market which will not be subject to entry under the program. No later than the thirtieth day of the year each eligible air carrier may apply to the Board for authority to enter one market in either interstate or overseas air transportation. The Board must issue a certificate to the applicant in 60 days unless the Board finds that the award of a certificate would be likely to result in a substantial impairment of the national air transportation system or a substantial reduction in air service to small and medium-size communities.

One hundred twenty days after the start of the calendar year, there is a "second round" of selections for carriers whose first choice was overruled by CAB or who picked a market which was also chosen by other carriers. In the latter situation, any carrier is free to give up its first choice market and pick another market in its place.

After allowing the entry permitted under the program, the CAB is required to study the results and compare the relative effectiveness of this program and entry under other provisions of the Act, including the unused authority program, the program for award of "fill-up" rights and the award of authority under simplified procedures. The Board's study must be completed no later than June 30, 1980.

Under existing law and CAB policies, some U.S. international carriers have been awarded certificates which permit them to serve several U.S. cities on an international route, but not to carry passengers between these cities. The House awards the U.S. international carriers "fill-up" rights on all their international routes. To insure that the fill-up authority does not have a severe impact on other carriers in these markets, the bill provides that domestic passengers can be carried only on international flights and the fill-up authority is limited to one round trip a day unless the Board authorizes additional flights.

The House amendment provides authority to the CAB to issue temporary, experimental certificates to carriers proposing low fares or new types of service. Section 11 allows the Board to grant temporary certificates for experimental purposes and to amend or revoke these certificates in accordance with the procedures of section 401(g) if the certificate holder fails to provide the service proposed.

To facilitate removal of unnecessary certificate restrictions the House provision prohibits the CAB from dismissing any applications for removal of certificate restrictions, and requires CAB to begin proceedings on these applications within 60 days after they are filed.

Conference substitute

Amends section 401(b) of the Federal Aviation Act of 1958 to require service of an application upon any affected communities.

Amends paragraphs (1), (2), and (3) of section 401(d) of the Act to provide that in the case of an application for a certificate to provide interstate or overseas scheduled, temporary, or charter air transportation, the Board shall approve the application and issue a certificate if it finds that the applicant is fit, willing, and able, to perform such transportation and such transportation is consistent with the public convenience and necessity. In any determination as to whether or not an applicant is fit, willing and able, to properly perform air transportation specified in an application for a certificate to engage in interstate or overseas scheduled, temporary, or charter air transportation, the applicant shall have the burden of showing that the applicant is so fit, willing, and able, and an opponent of such application shall have the burden of showing that such air transportation is not consistent with the public convenience and necessity. The conference substitute also provides in section 401(d)(9) of the Act that any such air transportation covered by an application shall be deemed to be consistent with the public convenience and necessity unless the Board finds, based upon a preponderance of the evidence, that such transportation is not consistent with the public convenience and necessity.

Amends section 401(d) of the Act by adding the following new paragraphs:

(1) New paragraph (5) (relating to unused (dormant) authority). This amendment is basically the same as the House provision with the following exceptions.

(A) The conference substitute provides that on a one-time basis for each pair of points an air carrier which has failed to provide service between such points for the minimum amount of time specified in the new paragraph may, by giving notice to the Board and reactivating service, stop the Board from issuing a certificate to another air carrier.

(B) If the Board issues a certificate to an

applicant under this new paragraph to provide service between any pair of points between which not more than one other air carrier is providing service on the date such applicant submits an application for such certificate, the Board shall suspend the authority of any air carrier which failed to provide the minimum level of service between such points for twenty-six weeks after the date of the issuance of such certificate to such applicant, or until such time within such twenty-six weeks as such applicant fails to provide such service at a minimum of five round trips per week for at least thirteen weeks, whichever first occurs, except that the Board shall not suspend any authority under this subparagraph if the Board finds that such suspension is not necessary to encourage continued service between such points by the applicant air carrier.

(2) New paragraph (6) (relating to fill-up rights) is substantively the same as the Senate bill and the House amendment.

(3) New paragraph (7) (relating to the new automatic market entry program) provides that for each of the calendar years 1979, 1980, and 1981, certain air carriers and intrastate air carriers may apply to the Board to engage in nonstop service between any single pair of points in interstate or overseas transportation (other than a pair of points either point of which is in the State of Hawaii), except that no air carrier may apply for authority under this paragraph if any air carrier has filed notice with the Board to protect such pair of points. Any authority obtained under this new paragraph is to be in addition to any other authority held by the carrier making application under this paragraph. Within each such calendar year any air carrier may file a written notice with the Board with respect to one pair of points in interstate or overseas air transportation which it intends to protect under this paragraph. The protection is only from entry under this paragraph. The Board is required to act upon any application filed under this paragraph within sixty days after the Board receives such application and the Board shall issue a certificate for the service covered by such application unless it determines that the applicant is not fit, willing, and able, to provide such nonstop service and to conform to the provisions of the Act.

(4) New paragraph (7) provides an opportunity under certain circumstances for an air carrier to file a second application under such paragraph. It also requires the Board to modify the automatic market entry program on an emergency basis if the Board makes certain findings with respect to such program. The Board may use this provision to modify the program with respect to any pair of points. Finally, this new paragraph requires the Board to conduct a study of the procedure for certification of air carriers and intrastate air carriers under the paragraph, to make certain evaluations of such procedure, and to submit a report on such study to Congress by December 31, 1980.

(5) New paragraph (8) (relating to experimental certification) is the same as the House amendment.

Amends the following paragraphs of section 401(e) of the Act:

(1) Paragraph (3) is amended to limit its application to foreign charter air transportation.

(2) Paragraph (4) is amended to delete the provision relating to charter air transportation.

Amends seciton 401(e) of the Act by adding a new paragraph (7) which eliminates (other than for certain specified cases) the authority of the Board to attach any closed-door restrictions to any certificate issued under section 401 of the Act. This new paragraph (other than for such cases) removes any closed-door restrictions attached to any certificate before the date of enactment of this paragraph. This new paragraph also requires the Board to take certain actions with respect to applications filed by air carriers seeking removal or modification of terms, conditions, or limitations, attached to certificates issued under section 401 and provides that such applicants shall not be subject to dismissal pursuant to section 401(c)(1) of the Act.

Amends section 401(f) of the Act to eliminate the proviso in such section.

Repeals section 401(j) of the Act and inserts in its place a new 401(j) relating to termination, reduction, and suspension of services. New section 401(j) provides that no certificated air carrier shall terminate or suspend all air transportation which it is providing to a point under a certificate or reduce such air transportation below essential air transportation for such point unless it has provided the appropriate ninety-days notice. Paragraph (2) of such new section 401(j) provides that a certificated air carrier shall give sixty days notice before terminating or suspending nonstop or single-plane air transportation between two points being provided by such air carrier under its certificate.

Eliminates the existing paragraphs (1) through (4) of section 401(n) of the Act and inserts in their place the following new paragraphs:

(1) New paragraph (1) (relating to part charter limitation) is substantially the same as the Senate bill.

(2) New paragraph (2) (relating to charter regulations) is essentially the same as the Senate bill. The limitations on the Board's powers to restrict the flexibility of charters are not intended to limit the Board's authority to adopt regulations for the protection of consumers.

(3) New paragraph (3) (relating to charter air transportation in Alaska) is the same as the Senate bill.

(4) New paragraph (4) (formerly a part of the definition of supplemental air transportation) provides that a charter air carrier may not sell inclusive tours directly to the general public or control a person authorized by the Board to make such sales. Moving this part of the definition to title IV of the Act permits the Board to exercise its exemption authority with respect to this prohibition.

Amends section 401 of the Act by adding two new subsections:

(1) New subsection (q) (relating to insurance and liability) is the same as the Senate provision.

(2) New subsection (r) (relating to continuing fitness requirement) is the same as the Senate provision.

NOTICE OF TARIFF CHANGES

Senate bill

This section amends section 403(c) of the Federal Aviation Act of 1958 which now requires 30 days' notice of any proposed tariff change. Under the amendment there will be three categories of notice requirements: (1) If the proposed tariff would institute a fare outside of the non-suspension zone established in section 1002(d)(2) or specified by the Board under section 1002(d)(7), or a fare to which such zone does not apply, the air carrier proposing such tariff shall file 60 days' notice. (2) Generally, an air carrier proposing a tariff change shall file 30 days' notice. (3) Finally, the Board may set a notice requirement of 25–30 days to allow an air carrier to match the fares or charges in another air carrier's proposed tariff.

Furthermore, whenever the Board suspends a proposed tariff under section 1002(g) or 1002(j), the Board is required, in paragraph (3), to deliver a statement of its reasons for such suspension at least 30 days before the proposed tariff is to take effect.

House amendment

No comparable provision.

Conference substitute

Same as the Senate bill.

MAIL AND COMPENSATION

Senate bill

This section amends section 406 of the Federal Aviation Act and is designed to phase out the current subsidy program in 7 years.

Subsection (a) maintains existing standards for determining subsidy under this section with one exception. During the first 4 years the Board may not consider "all other revenues" of each air carrier in determining subsidy levels. This eliminates the Board's current profit-sharing formula. Each carrier is assured of being able to provide service of at least the same extent, character, and quality as that which it provided under subsidy during calendar 1977. If any carrier terminates service for which it had previously received compensation, however, it shall no longer be eligible to receive compensation under section 406 if that service is later resumed, but it will be able to apply for and receive compensation for such service under section 419.

Subsection (b) provides that any future subsidy payments by the Board under section 406 may be made only to carriers entitled to receive compensation from the Board under this section for the performance of services during the 12 months ended June 30, 1977. This subsection also terminates all payments by the Board under this section after 7 years.

House amendment

Provides that during the next 4 years, the local service carriers must continue to receive subsidy to provide the same extent, character, and quality of service as they provided during 1977. During the first 4 years the Board may not consider "all other revenues" of each air carrier in determining subsidy levels. Thereafter, service may be modified only after an evidentiary hearing for each city involved. The bill further provides that the section 406 subsidy program will terminate 10 years after enactment. Requires that for four years local service carriers continue to be paid subsidy according to the basic principles of Class Rate VIII.

Conference substitute

Combines that portion of the Senate bill relating to the duration of the subsidy program with the provisions of the House amendment (other than as to the duration of the program).

MERGERS AND CONTROL

Senate bill

Section 8 of the bill amends section 408 of the Federal Aviation Act of 1958 in regard to those types of acquisition agreements that need the approval of the Board and with respect to the Board's power and procedure for either approving or disapproving such agreements.

Subsection (a) of section 8 amends section 408(a) in two respects. (1) It deletes the phrase "in any other phase of aeronautics" and inserts instead "substantially engaged in the business of aeronautics". This is done in order to narrow the class of persons whose involvement in acquisition, control, and merger agreements requires Board approval. (2) The last paragraph of subsection (a) is deleted in an attempt to modernize the subsection by deleteing superfluous parts. No substantive change was intended.

Subsection (b) of the bill amends section 408(b) of the Federal Aviation Act of 1958 by adding the Attorney General and the Secretary to the list of people whom the Board must notify when it receives an application for approval of a transaction referred to in subsection (a). This subsection also deletes the separate standard of approval for acquisitions transactions when a carrier other than an air carrier is involved. This

subsection further changes the standards for approving transactions by delineating that the Board may not approve transactions which would result in or would be in furtherance of a conspiracy or combination to monopolize the business of air transportation in the United States. Neither may the Board approve any transaction which would have the effect, in any region of the United States, of lessening competition, creating a monopoly, or restraining trade, unless the Board finds that the anticompetitive effects of the transaction are outweighed in the public interest by the more probable effect of meeting significant transportation convenience and needs of the community, and that significant transportation needs will not be met by reasonably available alternatives having a less anticompetitive effect.

In any proceeding occurring under this section the opponents of any transaction shall have the burden of showing anticompetitive effects, while proponents of the transaction have the burden of showing that significant transportation needs will not be met by reasonably available lesser anticompetitive alternatives.

Paragraph (2) of the subsection requires the Board to process these applications for approval of these transactions within 180 days, unless they are of a particularly complex nature. If they are complex, the procedure may be extended for additional periods of 90 days each, but no more than another 180 days. Notice of extensions shall be served on the Congress and on the parties.

Finally, paragraph (3) provides that if the transaction does not involve an air carrier directly engaged in the operation of aircraft, and neither the Attorney General and the Secretary of Transportation nor any other person disclosing a substantial interest in the transaction is requesting a hearing, then the Board, after 30 days notice, may go ahead and either approve or disapprove the transaction, without a hearing.

House amendment

The amendment eliminates the Board's jurisdiction over certain mergers and acquisitions which do not involve aviation interests. The amendment adopts a prior notification procedure for transactions involving uncertificated carriers. If the Board receives notice of the merger and takes no action within 45 days, the transaction may be consummated without further Board action. Any such transaction is subject to the antitrust laws.

The amendment also eliminates the "second proviso" to section 408(b) of the Federal Aviation Act which limits the Board's ability to approve transactions involving surface carriers and air carriers.

The amendments also eliminates the requirement for CAB approval when persons with no aviation interests acquire control of an air carrier, and the related presumption that a 10 percent interest constitutes control.

Conference substitute

Continues the requirements of existing law with respect to the types of mergers and acquisitions for which CAB approval is required, with the following changes:

(1) Eliminates the requirement for CAB approval when persons with no aviation interests acquire control of an air carrier.

(2) Changes the jurisdictional test for certain transactions from persons engaged "in any other phase of aeronautics" to persons "substantially engaged in the business of aeronautics."

Provides that the Board may not approve a transaction which would substantially lessen competition, unless the Board finds that the anticompetitive effects of the transaction are outweighed in the public interest by the probable effect of the transaction in meeting significant transportation needs, and that these needs may not be satisfied by a reasonably available alternative having materially less anticompetitive effects.

Adopts a prior notification procedure for transctions involving non-certificated carriers. If the Board receives notice of this type of transaction and takes no action within 45 days, the transaction may be consummated. Any such transaction would be subject to the antitrust laws.

The elimination of the proviso in section 408(a)(5) does not preclude the Board from making any similar exemption pursuant to its authority under section 416.

The intent of the new section 408 of the proposed legislation is to insure that, in light of deregulation, mergers in the air carrier industry will be tested by the antitrust standards traditionally applied by the courts to unregulated industries. However, under the new section 408, even if a merger does not meet the antitrust standards of the Sherman and Clayton Acts it may nonetheless be approved if it meets "significant transportation needs of the community to be served," and if there is no "reasonably available less anticompetitive alternative" to the merger. These latter tests only apply if a merger or similar transaction does not meet the Sherman and Clayton Act standards. The "public interest" standard in section 408(b) of the Federal Aviation Act of 1958 is retained in the new section, but that standard must now be interpreted in light of the intent of Congress to move the airline industry rapidly toward deregulation. The foundation of the new airline legislation is that it is in the public interest to allow the airline industry to be governed by the forces of the marketplace. Consistent with that premise, mergers of air carriers should be governed by the same standards that are applied to mergers of other firms.

INTERLOCKS

Senate bill

Section 9 amends section 409(a) of the Federal Aviation Act of 1958 by striking out the phrase "is engaged in any phase of aeronautics" and inserting in its stead the phrase "is substantially engaged in the business of aeronautics." It also repeals section 409(b) of the Federal Aviation Act of 1958.

House amendment

No comparable provision.

Conference substitute

Same as the Senate bill.

AGREEMENTS

Senate bill

Section 10 makes a series of amendments to section 412 of the Federal Aviation Act of 1958.

Subsections (a) and (b) amend existing subsections (a) and (b) of section 412, making those subsections applicable to foreign air transportation only.

Subsection (c) amends section 412 by adding at the end of that section several new subsections relating to interstate and overseas air transportation. Subsection (c) states the general rule that agreements or requests for authority to discuss agreements or cooperative working arrangements may be filed with the Board. This includes both those agreements in effect on the date of enactment of this subsection and those entered into later. Subsection (d) establishes a procedure to be followed by the Board when it receives an agreement or request for authority to discuss a possible agreement or cooperative working arrangement. The Board will first notify the Secretary of Transportation and the Attorney General, giving each an opportunity to submit written comments. If requested by the Attorney General, or the Secretary, or upon its own initiative, the Board will hold a hearing to determine if the agreement or request for authority to discuss is consistent with this Act. Subsection (e) states that the Board shall approve agreements or requests for authority to discuss if such authority or request is consistent with the public interest and not in violation of this Act. The Board may not approve an agreement or request for authority to discuss: (1) If the agreement concerned would limit levels of capacity in markets in which the party air carriers compete; (2) fixes rates, or charges, other than joint fares; or (3) the agreement concerned is between an air carrier not directly engaged in the operation of aircraft and another common carrier subject to the Interstate Commerce Act.

Subsection (e) states further that the Board may not approve agreements or requests for authority to discuss if the affect of the agreement concerned would: (1) Substantially lessen competition in air transportation; (2) tend to create a monopoly; or (3) significantly burden competition, unless the Board finds, after studying reasonably available alternatives having a materially less anticompetitive effect that the anticompetitive effects of such approval are outweighed by significant and demonstrable air transportation benefits for the general public; and with respect to decisions made after January 1, 1983, that the benefits cannot be accomplished by reasonably available alternative means have materially less anticompetitive effects.

Subsection (f) provides that if an agreement would provide significant cost savings or other significant competitive advantages, and if the Board finds that the public interest requires, then the Board can require that the agreement provide that such air carriers' competitors be able to join in the agreement. Furthermore, if the Board approves an agreement although it has anticompetitive effects of the type specified above, the Board then will be required to limit the effectiveness of the agreement to a period reasonably related to the continued existence of the factors upon which it based its decision, but in no case longer than 5 years. Paragraph (3) of this subsection puts the burden of proving anticompetitive effects on the party opposing the proposed contract or agreement, and the burden of proving air transportation benefits is placed on the party defending the proposed contract or agreement. In addition, the party defending the proposed contract will have the burden of proving that the benefits cannot be accomplished by reasonably available alternative means having materially less anticompetitive effects with respect to decisions made after July 1, 1983. Paragraph (5) of subsection (f) requires the Board to approve or disapprove an application within 90 days after the application was filed with the Board unless the Board determines that it is of a particularly complex nature, in which case the Board may take up to an additional 270 days to approve or disapprove the application. Finally, paragraph (9) provides that approval of agreements rendered by the Board before January 1, 1979, shall expire on January 1, 1982, unless refiled before September 1, 1980, and reapproved according to this section.

House amendment

The amendment codifies the test which the Board has used to pass on agreements which are inconsistent with the antitrust laws. Under this test, known as the "local cartage" test, an agreement which substantially reduces or eliminates competition cannot be approved unless the agreement is necessary "to meet a serious transportation need or to secure important public benefits."

The amendment also declares unlawful contracts between air carriers for pooling or apportioning revenues to provide financial assistance to an air carrier whose employees are engaged in a lawful work stoppage.

Conference substitute

Limits the application of existing subsections (a) and (b) of section 412 of the Fed-

eral Aviation Act of 1958 to foreign air transportation.

In addition, the conference substitute adds two new subsections to such section 412. Subsection (c) which relates to filing and approval of agreements affecting interstate and overseas air transportation, makes the filing of such agreements and the filing of requests to discuss possible cooperative working arrangements permissive.

It also provides that the Board in deciding whether to approve any such contract, agreement, or request shall determine whether such contract, agreement, or request is in the public interest except that the Board (1) may not approve or continue to approve such contract, agreement, or request which substantially reduces or eliminates competition, unless it finds that such contract, agreement, or request is necessary to meet a serious transportation need or to secure important public benefits and the Board does not find that such need can be secured by reasonably available alternative means having materially less anticompetition effects and (2) may not approve such contract or agreement, or any modification or cancellation thereof, that limits the level of capacity among air carriers in markets in which they compete, or that fixes rates, taxes, or charges between or among air carriers (except for joint rates, fares, or charges).

New section 412(c) adopts the prohibition relating to contracts and agreements for compensation to carriers subject to the Interstate Commerce Act. It also provides that the parties opposing the proposed contract, agreement, or request shall bear the burden of proving the reduction or elimination of competition and the availability of alternative means having less anticompetitive effects, and any party defending the proposed transaction shall have the burden of proving transportation need or public benefits.

The conferees intend that this provision should not affect the Board's ability to make its own independent record findings that there are reasonably available alternatives or that the transaction will reduce competition.

Any approval of an agreement by the Board under section 412 may be for a limited period of time. Finally, new section 412(c) requires that certain findings of the Board be included in any order of the Board under section 412.

New section 412(d) requires the Board to notify the Attorney General and the Secretary of Transportation of receipt of any contract, agreement, or request filed with the Board.

Provides that any mutual aid agreement between air carriers (agreements in which the parties agree to make payments for revenues lost by a party during a labor dispute) which are in effect on the date of enactment shall be deemed disapproved. Further provides that no carrier shall enter into a mutual aid agreement unless such agreement is filed with and approved by the Board. The Board shall not approve any mutual aid agreement unless the agreement provides (A) that payments to carriers during a strike shall not exceed 60 percent of direct operating expenses (defined to include interest expenses and exclude depreciation expenses) incurred during the strike, (B) that benefits may not be paid for more than 8 weeks during a strike and may not be paid for losses incurred during the first 30 days of a strike, and (C) that all parties to the agreement agree to submit issues causing a strike to binding arbitration, pursuant to the Railway Labor Act, if requested by the striking employees.

ANTITRUST IMMUNITY

Senate bill

The amendment made by section 11 of the bill would relieve persons from the operation of the antitrust laws "only insofar as would be necessary to enable such person to engage in the air transportation activities specifically approved by the Board in such order." In addition, the amendment would permit the Board to specifically define and limit the scope of immunity conferred by such order.

House amendment

The amendment limits section 414 immunity in several respects. First, the amendment clarifies that section 414 immunity is limited to the antitrust laws. Second, the amendment provides that immunity shall be granted only insofar as is necessary to permit completion of transactions specifically approved by the Board, or transactions necessarily contemplated by a Board order. Third, the amendment provides that the grant of antitrust immunity is discretionary with the Board and that the Board in granting immunity must find the grant to be in the public interest.

Conference substitute

Same as the House amendment.

EXEMPTIONS

Senate bill

Section 12 makes two amendments to section 416 of the Federal Aviation Act of 1958.

The first amendment is to subsection (b) (1) of section 416 and authorizes the Board to exempt, from time to time, any person or class of persons from the requirements of title IV. Those exemptions may be granted if the Board finds that the exemption is consistent with the public interest. The Board would be required to issue a final decision, within 90 days, with respect to an application for an exemption on the size of aircraft which an air carrier may use. The Board is prohibited from limiting the frequency of service, or the number or location of points to be served by an air carrier operating within the State of Alaska under part 298 of the economic regulations of the Board, unless the Board, after hearing, finds that the operations of such an air carrier substantially impairs the ability of another certificated air carrier to provide service authorized by its certificate.

The second amendment inserts two new paragraphs to subsection (b) of section 416 of that Act. The first new paragraph, paragraph (3), states that an air carrier which engages in interstate or overseas air transportation using an aircraft having a seating capacity of 36 passengers or less, and a maximum certificated gross takeoff weight of 40,000 pounds or less, shall not be required to obtain a certificate under title IV. In paragraph (4) the Board would be authorized to exempt from the provisions of the Act, foreign air carriers who are not directly engaged in the operation of aircraft in foreign air transportation to the extent and for such periods as such relief may be in the public interest.

House amendment

The amendment amends section 416(b) to allow the Board to grant exemptions to any persons, including foreign air carriers and persons controlling air carriers. It removes the "undue burden" requirement and allows the Board to grant exemptions in cases in which the activity to be exempted is of limited extent.

The amendment also amends section 416 to grant commuters an exemption to operate aircraft with a capacity of up to 56 passengers or 18,000 pounds of cargo. The bill further provides that the Board may increase these aircraft limits when it finds that the public interest so requires.

Conference substitute

The conference substitute follows the same approach as the Senate in the general exemption provisions. The Board is authorized to exempt any person from the requirements of title IV if it finds that an exemption is consistent with the public interest. The Board is permitted to exempt foreign air carriers not directly engaged in the operation of aircraft from the provisions of the Act.

With respect to commuters, the substitute follows the approach of the House amendment and authorizes commuters to operate aircraft with a capacity of up to 56 passengers or 18,000 pounds of cargo.

The conference substitute adopts the Senate provisions on commuter operations in Alaska. This provision requires that commuters in Alaska hold State authority. The award of State authority does not, in and of itself, entitle a carrier to Federal subsidy.

COMPETITION FOR ESSENTIAL AIR TRANSPORTATION

Senate bill

Section 13 inserts a new section at the end of title IV of the Federal Aviation Act of 1958, a section 419.

Subsection (a) (1) of the new section 419 would authorize the Board to determine fair and reasonable amounts of compensation for, and make payments of compensation to, any eligible air carrier who is providing or will provide essential air transportation to an eligible point.

Paragraph (2) will require the Board to establish guidelines to be used by the Board in computing the fair and reasonable amount of compensation needed to insure the continuation of essential air transportation at an eligible point. Such guidelines shall include expense elements based upon representative costs of other air carriers providing scheduled air transportation using aircraft of a type, determined by the Board, to be appropriate for providing essential air transportation to the eligible point concerned.

Subsection (b) defines an eligible air carrier as an air carrier holding either a 401 or a 420 certificate, and, in the case of an air carrier providing essential air transportation to an eligible point in the State of Alaska, an air carrier holding authority to engage in such air transportation issued by the proper agency of the State of Alaska.

Subsection (c) defines an eligible point as a point in any of the States, the District of Columbia, or the Commonwealth of Puerto Rico, which, on January 1, 1979, was listed on a 401 certificate. These points are included without regard to whether they are actually receiving service on January 1, 1979. In addition, the Board is authorized to designate other points as eligible points under the guidelines established under subsection (d). Furthermore, the subsection provides that any point which is on a 401 certificate on January 1, 1979, shall remain designated as an eligible point until January 1, 1989.

Under the provisions of subsection (d), the Board, after considering, among other factors, the level of traffic generated by a point, future traffic generating potential, the cost to the Government of providing essential air transportation to that point, the alternative means of transportation available to the residents of the point concerned for access to the national transportation system and its principal communities of interest, and the degree of isolation of the point from the national air transportation system, shall, by January 1, 1980, establish objective criteria for designating additional points as eligible points. In addition, the Board is instructed under such subsection to consider the views of State agencies and other interested parties. Under paragraph (2) of subsection (d) the Board is required, by no later than January 1, 1980, to begin to review those points in any State, the District of Columbia, the Commonwealth of Puerto Rico, or the Virgin Islands which were deleted from any certificate of public convenience and necessity between July 1, 1968, and January 1, 1979. Applying the criteria established under the previous para-

graph, the Board shall, by January 1, 1981, then make a determination whether those points should be designated as eligible points. Beginning January 1, 1982, the Board may designate any point as an eligible point using the criteria established under paragraph (1), upon application of any interested person. Finally, paragraph (4) indicates that the designation of a point as an eligible point may be withdrawn according to the procedures specified in section 1010, except that points currently listed on any certificate of public convenience and necessity are guaranteed service for at least 10 years.

Subsection (e) provides that when the Board determines that essential air transportation will no longer be provided to an eligible point, the Board shall entertain and consider applications by eligible air carriers who are willing to provide essential air transportation to that point for compensation under this section. The Board is given three criteria to specifically consider in reviewing the applications. The Board is to consider the desirability of developing an integrated linear system of air transportation if such a system best meets the needs of the community, the experience of the applicant in providing scheduled air transportation in the vicinity of the communities for which essential air transportation is proposed to be provided, and, in the case of eligible points in Alaska, the experience of an applicant in providing scheduled air service or significant patterns of nonscheduled air service under part 298. The Board then will determine the amount of compensation to be paid any individual eligible air carrier. Such compensation shall be paid only for so long as it is necessary in order to maintain essential air transportation at the eligible point concerned. Paragraph (3) authorizes and directs the Board to periodically review the amount of compensation being paid to any eligible air carrier, and the Board is authorized to make appropriate adjustments in such amount. The Board may terminate compensation payments to any air carrier who does not satisfactorily provide the essential air transportation for which the compensation is being paid.

Subsection (f) establishes two procedures by which the Board will be able to entertain competing applications for compensation. After January 1, 1983, a 401 or a 420 air carrier will be able to file an application with the Board seeking to have compensation provided to an air carrier under section 406 terminated so that the applicant air carrier will be able to provide the air transportation under compensation under this section. The Board is directed to grant such applications if the applicant can show that termination of 406 compensation that will be required to continue essential air transportation (1) result in a substantial improvement in the air service being provided to the point concerned, and (2) decrease the amount of compensation that will be required to continue essential air transportation to the point concerned. A hearing will be held on such application if requested by the air carrier receiving subsidy under 406.

After January 1, 1983, any air carrier may also apply to the Board to have the compensation provided under this section to an air carrier providing service to an eligible point for at least 2 years terminated in order to allow the applicant to provide essential air transportation to the point concerned. The Board is authorized to grant such applications only if the applicant can show that compensation under this section will result in improvement in the air transportation being provided or a decrease in the amount of compensation that will be required to continue the essential air transportation to the eligible point. Finally, in disposing of applications under this subsection, the Board is directed to solicit and give great weight to the opinions of the communities affected by the proposed replacement of an air carrier under this subsection.

Subsection (g) authorizes and directs the Board to establish criteria to be used in determining the essential air transportation for eligible points for which compensation may be provided under this section. Such criteria shall be established by no later than January 1, 1980. The Board is further directed specifically to consult with interested communities and States, the Government of the Virgin Islands or the Commonwealth of Puerto Rico. The criteria established by the Board shall include, among other things, the standards which the Board will apply to determine the minimum frequently of air transportation to an eligible point, the minimum specifications of the aircraft to be used in providing the essential air transportation, and the maximum fares. On and after July 1, 1982, the Board, upon the request of any community affected or of any certificated air carrier, shall determine what is essential air transportation for the eligible point of the community making such request or for an eligible point being served by the air carrier making that request. In addition, the Board is required by January 1, 1985, to determine what is essential air transportation for each eligible point specified in subsection (c)(1) of this section, or designated by it under subsection (c)(2). Paragraph (2) of this subsection defines the phrase "essential air transportation." The paragraph provides that in no case shall essential air transportation be specified as fewer than two daily round trips 5 days per week, except that in instances of air transportation provided in the State of Alaska essential air transportation shall be specified at a level of service not less than that which existed for such particular point during calendar year 1976. Furthermore, in the case of essential air transportation in Alaska, the minimum level shall not be less than two round trips per week unless otherwise specified under an agreement between the Board and the State agency of the State of Alaska, after consultation with the community affected. In addition, the Board is directed to periodically review the specifications of essential air transportation for any eligible point and is authorized to make the appropriate adjustments after consultation with the community and the State agency of the State in which the community is affected.

Subsection (h) places on the Board the burden to insure that essential air transportation on a continuing basis is provided to each eligible point specified in paragraph (1) of subsection (c) until January 1, 1979. If at any time during the period beginning January 1, 1979, and ending January 1, 1989, the Board receives notice that essential air transportation will not be provided to a point to which that service is guaranteed, then it will follow the procedure spelled out in that subsection. That procedure requires the Board to (1) determine if there is another air carrier actually providing essential air transportation to the eligible point. If there is, the Board will continue to monitor that service. (2) If there is no other air carrier willing and able to provide essential air service, then the Board shall secure an eligible air carrier to provide such air transportation. (3) If the Board determines that an eligible air carrier cannot be secured in the period specified, and it is necessary in order to continue to provide essential air transportation, without a suspension of service, to the eligible point, then the Board shall require the air carrier then providing the air transportation to the point concerned to continue to provide such air transportation for an additional 30-day period. The Board, during the 30 days, will continue to seek another air carrier to provide essential air transportation to the point concerned.

If, however, the Board is unable to secure such other air carrier, the Board may continue to require such air carrier to maintain essential air transportation at the point concerned for an additional 30-day period, making the same determination at the end of each such period. In no case will such an air carrier, who is operating on these 30-day periods, be allowed to discontinue such air service until the Board certifies that another air carrier is willing and able to step in and provide essential air transportation to the point concerned. Any air carrier which is required to continue operating during these 30-day periods will be paid compensation under paragraph (3). The section also requires air carriers which are subject to the jurisdiction of the Board, other than air carriers certificated under section 401 or 420, to give the Board, the community affected, and the appropriate State agency 90 days' notice before such an air carrier will terminate, reduce, or suspend air transportation it is providing to an eligible point. Such an air carrier giving 90 days' notice will also be able to receive compensation computed under paragraph (3). Amounts of compensation payable by the Board under paragraph (3) shall be in amounts, determined by the Board, necessary to insure the recipient a reasonable rate of return on its investment related to the air transportation involved, taking into account its fully allocable cost in providing the air transportation involved and the air carrier's revenues derived from providing such air transportation.

Subsection (b) makes it clear that any air carrier who, on January 1, 1977, was receiving compensation under section 406 of the Federal Aviation Act of 1958, shall not have such compensation payments suspended or terminated or be required to obtain a certificate under section 420 to serve the points for which they are receiving compensation solely by reason of the enactment of the amendments made by this act. However, if during the 7 years occurring after the day of enactment of this act, an air carrier terminates air service being provided with 406 compensation, any further compensation payments for that air service will be computed under the provisions of this section.

House amendment

The amendment establishes a new program under which commuter airlines are eligible for subsidy. The Board is given flexibility to determine the method of paying subsidy. Subsidy may be offered for service to communities now served by local service carriers, cities at which local service carriers are authorized to suspend service, or cities which have been deleted from local service carrier certificates since 1968. Commuters are permitted to receive subsidy without undergoing the regulatory and economic burdens of certification. The subsidy agreement itself can be used to insure that adequate service will be provided.

Cities presently listed on air carrier certificates are guaranteed service for 10 years with subsidy, if necessary. The level of service must be at least two round trips per day, 5 days a week, or the service actually provided in 1977, whichever is less. If service is reduced below the foregoing level, and no certificated carrier or commuter is willing to serve the community without subsidy, the CAB must subsidize a commuter. Before establishing subsidized service for a commuter, the CAB must consult with appropriate State and local officials.

The CAB also is required to review cities deleted from air carrier certificates since 1968 to determine whether subsidized service should be provided. In making these determinations, the CAB must consider the subsidy cost, the number of persons to be benefited, and the alternative surface and air transportation available.

The amendment provides that within 180

days after enactment, the Administrator of the Federal Aviation Administration shall establish safety standards for commuter carriers providing subsidized service. Such safety standards shall take effect after the end of the eighteenth month which begins after such date of enactment and shall impose requirements on commuter air carriers to assure a level of safety equivalent to the maximum feasible extent, to that provided by certificated air carriers. Subsidy cannot be awarded to a commuter until the Board has determined that the commuter will comply with the foregoing safety standards.

As it applies to cities which are guaranteed air service by this section, it also provides that when a carrier wishes to reduce its service at one of these cities below the level of "essential air transportation," (as defined by the CAB) the carrier must give 90 days notice of its intention to do so. Upon receipt of notice, CAB must find a replacement carrier. CAB is directed to postpone the proposed reduction of service until replacement service is available. Carriers which are required to continue service under this provision are entitled to compensation for any losses incurred.

Conference substitute

The conference substitute guarantees continued air transportation for 10 years to all cities which are listed on air carrier certificates on the date of enactment, including cities at which a certificated carrier has suspended service. To insure such service the substitute establishes a new subsidy program, with compensation to be based on the needs of the community and the use of appropriate size aircraft.

For each city which is guaranteed service for 10 years, the Board is directed to establish a level of "essential air transportation" which in no case shall be less than 2 daily round trips, 5 days a week, or the level of service actually provided during calendar year 1977.

Air carriers serving cities which are guaranteed air service are required to give notice before reducing service at the city below the level of essential air transportation. Certificated carriers and carriers receiving subsidy under the new community-based subsidy program must give at least 90 days notice before reducing service and commuters which are not receiving subsidy must give 30 days notice.

When the Board receives notice of a proposed reduction in service, the Board must make every effort an arrange for another carrier to provide essential air transportation on a continuing basis. If the Board determines that essential air transportation will not be provided without compensation, the Board is directed to select an air carrier and establish a rate of compensation, following certain guidelines. The guidelines for compensation require that compensation be based on the use of aircraft determined by the Board to be appropriate for providing essential air transportation to the community.

If the Board is not able to arrange for replacement service within the period of notice, the Board must require the carrier serving notice to continue to serve the point for an additional 30-day period. The obligation to serve may be extended for additional 30-day periods until replacement service has been arranged. During these 30-day periods, the Board is required to make every effort to find a replacement carrier.

The carriers which are required to continue service under the foregoing provisions are entitled to compensation for any losses incurred. In the case of carriers already receiving compensation under this section, or section 406, the established rate of compensation continues. In the case of carriers not receiving compensation, this section specifically authorizes compensation for losses. Any such payments to any air carrier which the Board currently classifies as a trunk carrier or which in the future is classified by the Board as a trunk carrier are limited to a 1-year period for any community. While the conferees recognize that this provision may, in rare circumstances, result in the temporary subsidization of trunks, it is the strong intent of the conferees that such subsidization should be done only as a stop-gap measure to assure continued service to the point. If the Board is required to provide temporary subsidy to a trunk under this provision, it should give the highest priority to finding a replacement carrier.

The conference substitute also provides for the addition of a limited number of new communities to the new community-based subsidy program.

First, the Board is directed to review all cities which have been deleted from air carrier certificates since 1968, and decide whether any of these cities should be made eligible for the new community-based subsidy program. Thereafter, the Board may add additional points in Alaska and Hawaii to the program, so long as the total number of points receiving subsidy under this section and section 406 does not exceed the total number of points which received a subsidy under section 406 on July 1, 1968.

Before terminating service at any of the communities added to the program, certificated carriers and other carriers receiving compensation, must give 90 days notice, and unsubsidized carriers not holding a certificate, must give 30 days notice.

The conference substitute includes specific provisions authorizing replacement of a subsidized carrier. After January 1, 1983, any carrier may file an application seeking to replace a carrier receiving section 406 subsidy. The Board is directed to grant the application if the applicant shows that it can provide a substantial improvement in the air service being provided and a decrease in the amount of compensation which is required. Any replacement service would be compensated under the new subsidy program.

Applications to replace carriers operating under the new subsidy program may be filed after January 1, 1983, if the subsidized carrier has been serving the point for at least 2 years. The prospective replacement carrier must show that his service would result in a substantial improvement in air service with no increase in subsidy, or in a substantial decrease in the amount of subsidy required to provide essential air transportation.

The conference substitute establishes safety requirements for commuter air carriers receiving compensation. Such commuters must demonstrate that they are "fit, willing, and able" to perform the proposed service and that aircraft used to perform the service, and all operations relating to such service, will conform to safety standards established by the FAA Administrator. Such safety standards must be established in 180 days and must require commuters to develop the same level of safety as is provided on certificated carriers to the maximum feasible extent. The conferees recognize that the FAA has recently amended its safety rules with respect to commuter carriers and if the Administrator determines that such recently promulgated regulations meet the requirements of this section the Administrator may make a written finding to that effect setting forth with specificity how such rules, in fact, comply with the intent of this section.

The conference substitute requires any air carrier receiving subsidy under this program to comply with insurance requirements promulgated by the Board.

There is no limitation on the classes of air carriers eligible to participate in the new community-based subsidy program. However, the amounts of subsidy must be based on use of appropriate size aircraft. Carriers participating in the section 406 subsidy program, which terminates 7 years after enactment may apply for the new program at any time.

LOCAL AIR TRANSPORTATION

Senate bill

This section further amends title IV of the Federal Aviation Act of 1958 by adding at the end of that title a new section 420.

Subsection (a) authorizes the Board to issue certificates to applicants to engage in local air transportation if the Board determines that the applicant is fit, willing, and able to perform properly local air transportation and to conform to the provisions of the act and the rules, regulations, and requirements of the Board.

Subsection (b) states that the Board shall not designate the geographical area or the terminal or intermediate points within or between which an air carrier holding a certificate under this section may provide air transportation.

Subsection (c) provides that an air carrier holding a certificate under this section who is no longer fit, willing, and able or has intentionally failed to comply with any applicable provisions of this title or any order, regulation, or rule of the Board, may have such certificate suspended or revoked. Such suspension or revocation may be done by either petition or by the Board on its own motion.

Subsection (d) provides two separate rules which will apply when an air carrier holding a certificate under this section proposes to terminate, suspend, or reduce air service to a point which it is serving under authority of this section. The first rule states that if such air transportation being terminated, suspended, or reduced is to a point listed on a certificate of public convenience and necessity of any air carrier on January 1, 1979, then the air carrier shall give the Board, the eligible point, and the State agency concerned 90 days' notice before it terminates, suspends, or reduces such air transportation, unless the essential air transportation for the point is being provided by another air carrier. If essential air transportation would continue to be provided, and in all other cases, the Board shall prescribe a reasonable notice period, not longer than 30 days, to be adhered to by each such air carrier when proposing to terminate or suspend local air transportation. Mere reduction in service to any eligible point which does not leave the community with less than essential air transportation requires no advance notice.

Subsection (e) provides that certain provisions of title IV of the Federal Aviation Act of 1958 shall not apply to an air carrier holding a certificate issued under this section if such air carrier does not also hold a certificate issued under section 401 or section 421. Nor shall the sections listed in this subsection apply to local air transportation provided by any other air carrier holding a certificate issued under this section.

Subsection (f) prohibits an air carrier from providing air transportation under a certificate issued under this section with an aircraft which has a seating capacity of more than 36 passengers and a maximum certificated gross takeoff weight of greater than 40,000 pounds.

Subsection (g) prohibits an air carrier certificated under this section from providing air transportation under that certificate between two points in the State of Alaska, or between one point which is in the State of Alaska and the other is in Canada, unless such air carrier also holds authority to provide that air transportation from the appropriate agency of the State of Alaska.

Subsection (h) requires each such air carrier to maintain in effect liability insurance, or self-insurance, as required by the Board.

House amendment

No comparable provision.

Conference substitute

No comparable provision. Although the conference substitute does not require certification of commuters, the Board is encouraged to grant 401 certificates to qualified commuters.

CHARTER CERTIFICATES

Senate bill

Section 15 further amends title IV of the Federal Aviation Act of 1958 by adding at the end of that title a new section 421 dealing with charter certificates.

Subsection (a) is the general authority for the Board to issue certificates to applicants to engage in interstate or overseas charter air transportation.

Subsection (a) also contains the specific standards which the Board will apply in issuing any certificate under this section. Specifically, it provides that the Board shall issue certificates to persons who are fit, willing, and able to perform the air transportation specified in the certificate, to conform properly to the provisions of this act, and the rules of the Board. In addition, the Board will determine that the air transportation specified is consistent with the public convenience and necessity in the case of applications which are filed with the Board before January 1, 1982. After that date, this standard may not be applied.

Subsection (b) prohibits the Board from issuing a certificate under this section, during the last 5 years after its date of enactment, to any air carrier which, before January 1, 1977, held a certificate under section 401(d)(1) of the Federal Aviation Act of 1958, authorizing scheduled air transportation.

Subsection (c) authorizes the Board to put such reasonable limitations in certificates issued under this section as the Board deems necessary. However, such limitation shall not include the designation of geographical areas, or the terminal or intermediate points within or between which service may be rendered.

Subsection (d) provides that an air carrier who held a certificate of public convenience and necessity on December 31, 1978, authorizing interstate or overseas air transportation shall continue to have all the authority, rights, and privileges conferred by that certificate as well as the authority to transport mail in interstate or overseas air transportation.

Paragraph (3) of this subsection provides for the issuance of certificates under this section to certain scheduled all-cargo carriers operating pursuant to an exemption issued by the Board. Finally, paragraph (4) of this subsection provides that any reference in any law, rule, regulation, or document of the United States to a certificate of public convenience and necessity for supplemental or all-cargo air transportation shall be deemed to be a reference to a certificate under this section.

Subsection (e) deals with charter operations in Alaska. It states that a certificate under this section shall not authorize the holder to conduct operations between points within the State of Alaska unless the Board specifically authorizes such operations, except for carriers who have their principal place of business located within the State of Alaska, or any air carrier which, on July 1, 1977, was classified by the Board as an Alaskan air carrier.

House amendment

Section 7 of the House amendment provides that the Board may issue certificates to applicants (including certain scheduled air carriers) for authority to engage in that interstate or overseas supplemental air transportation which is consistent with the public convenience and necessity.

Conference substitute

Incorporates the concept of charter air transportation and charter air carriers from the Senate into the existing framework of the Federal Aviation Act of 1958.

GENERAL PROVISIONS

Senate bill

This section amends title IV of the Federal Aviation Act of 1958 by inserting at the end thereof an additional section, numbered section 422.

Subsection (a) states the general rule that no air carrier shall engage in air transportation unless that air carrier has a certificate issued by the Board or is exempt from the provisions of this title. In addition, the subsection provides that any air carrier may hold more than one certificate.

Subsection (b) restates the provisions with respect to filing applications for certificates that previously appeared in section 401 of the act.

Subsection (c), concerning notices of applications filings, again, restates the laws that previously applied with respect to notices of applications.

Subsection (d) again is a restatement of the law with respect to the authority of an air carrier to change schedules, equipment, accommodations, and facilities and services as the development of the business and the demands of the public require.

Subsection (e) prohibits any direct air carrier from entering into or maintaining a control relationship with any charter tour operators, except for those engaged exclusively in selling or organizing charter trips in foreign air transportation which originate abroad.

Subsection (f) provides that certificates issued under this title shall be effective from the date specified in the certificate until suspended or revoked by the Board, or if issued for a specific period, until the date of expiration, unless suspended or revoked.

Subsection (g) grants the Board the authority to modify, suspend, or revoke certificates issued under section 401 or 421. This subsection provides that the Board may alter, amend, modify, or suspend such certificates if (1) the public interest so requires, or (2) may revoke any such certificate if the holder intentionally fails to comply with any provision of this title or any order, rule, or regulation issued by the Board. However, no certificate shall be revoked unless the holder thereof fails to comply within a reasonable time with an order of the Board commanding obedience to the provision or the order found by the Board to have been violated. In addition, it provides that when the Board issues a certificate under section 401 on the basis that the air carrier applying for the certificate will provide innovative or low-priced air transportation under that certificate, the Board may revoke, alter, amend, modify, or suspend such certificate on the grounds that such air carrier has not provided or is not providing such innovative or low cost air transportation.

Subsection (h) provides for the nontransferability of certificates issued under this title, unless incidental to a transaction described in section 408, and in compliance therewith.

Subsection (i) relating to certain rights not conferred by certificates issued under this title, and subsection (j) relating to compliance with labor legislation, are both merely restatements of those respective subsections as they appeared in the Federal Aviation Act of 1958 before the date of enactment of this act.

Subsection (k) requires each holder of a certificate issued under this title to comply with the regulations of the Board relating to insurance and liability and to plans for self-insurance. Paragraph (2) of that subsection requires the Board to prescribe regulations with respect to performance bonds or equivalent security arrangements that must be maintained and filed by air carriers holding a certificate under this title.

Subsection (l) prohibits, for the 5 years immediately after the date of enactment of this act, any air carrier from mixing charter and regularly scheduled passengers on the same flight. At the end of the 5 years, each certificated air carrier will be able to sell 20 percent of the seats on any aircraft used in charter air transportation to individual passengers, so long as those tickets are sold within 15 days of the flight. The prohibition during the first 5 years occurring after the date of enactment shall not apply to the carriage of passengers in air transportation under group fare tariffs.

Subsection (m) states that the requirement for any applicant to be found fit, willing, and able and to comply with the rules of the Board are continuing requirements applicable to each such air carrier. Under this subsection the Board is directed to modify, suspend, or revoke in all or in part the authority granted under a certificate if the holder is found to have failed to comply with this continuing requirement.

Subsection (n) prohibits the Board from issuing regulations restricting the marketability, flexibility, excessibility, or variety of charter trips except to the extent required by the public interest. In any event, such restrictions shall be no more rigid than those which were in effect on July 1, 1977.

House amendment

No comparable provision.

Conference substitute

The conference substitute does not contain a new section relating exclusively to general provisions. To the extent that the conference substitute adopts any provisions that appear in the Senate bill on this subject a discussion of the provisions appears as part of the discussion of "Certificates".

FEDERAL PREEMPTION

Senate bill

Section 17 adds another section to title IV of the Federal Aviation Act of 1958.

This new section, section 423, prohibits a State from enacting any law, establishing any standard determining routes, schedules, or rates, fares, or charges in tariffs of, or otherwise promulgating economic regulations for, any air carrier certified by the Board. However, any State which, on or before January 1, 1979, authorized an air carrier to provide intrastate air transportation in that State, may continue to regulate such intrastate operations of such air carrier for so long as not less than 50 percent of the revenues of such air carrier are derived from such intrastate operations. As soon as more than 50 percent of such an air carrier's revenues are derived from its interstate operations then all of its operations become subject to the Board jurisdiction. The Board is directed to determine the allocation of revenue. Interstate operations include carrying passengers on a continuing journey in interstate air transportation even though part of the journey involves transportation between two points in the same State.

Paragraph (2) preserves the rights of air carriers under State authority once they become fully regulated by the Board.

Paragraph (3) of subsection (a) of this section provides that, except for air transportation provided under a 401 certificate or air transportation for which compensation may be paid under section 419, the provisions of this subsection do not apply to air transportation conducted wholly within the State of Alaska.

Paragraph (4) provides that an air carrier who enters into an agreement with an intrastate air carrier for the through handling of baggage or passengers shall not, by reason of that agreement, be subject to regulation by any State, nor shall such intrastate air car-

rier become subject to regulation by the Board, except to the extent the Board regulates such agreements.

Paragraph (5) states that merely because an aircraft being used in intrastate air transportation crosses either the boundaries between two States or between the United States and any other country or between the United States and the territorial waters shall not be considered to be operating in interstate or overseas air transportation. This paragraph does not apply to air transportation between two points in the State of Hawaii.

House amendment

The amendment provides that when a carrier operates under authority granted pursuant to title IV of the Federal Aviation Act, no State may regulate that carrier's routes, rates or services. The bill further provides that if a carrier was primarily an intrastate carrier on August 1, 1977, and subsequently receives authority from CAB, its State authority must be included in its CAB certificate until the CAB modifies the certificate.

The amendment also eliminates Federal jurisdiction over certain service which is essentially intrastate in nature. Under existing law, CAB has jurisdiction over air service between two cities in a State if the aircraft passes over places outside the State. The amendment provides that service between two cities in a State is not subject to CAB jurisdiction solely because the aircraft passes over places outside of the State. This provision does not apply to flights between the Hawaiian Islands which will continue to be regulated by the CAB.

Conference substitute

Same as House amendment, except that with respect to Alaska the conference substitute adopts the same approach as the Senate bill and provides that in Alaska preemption applies only to air transportation (other than charter air transportation) provided under a section 401 certificate. The substitute provides a limited exception for Alaska because of the special circumstances in Alaska with regard to cargo, in particular. Due to geographic and climatic conditions a great deal of cargo is shipped to and consolidated in southern points in Alaska and is subsequently distributed to points throughout the State by air. Where such shipments occur, the conferees intend that the subsequent shipments by air between points in Alaska be subject only to State economic regulation, regardless of whether a single waybill is used.

FARES AND PRACTICES

Senate bill

Section 18 substantially revises subsections (d) and (e) of section 1002 of the Federal Aviation Act of 1958 to reduce the power of the CAB to regulate interstate and overseas airline rates and fares.

Subsection (a) of section 18 amends subsection 1002(d) by removing the power of the Board to review the "justness" and "reasonableness" of interstate and overseas charter fares and cargo rates except for cargo rates within Alaska and Hawaii and by reducing the Board's discretion over the justness and reasonableness of scheduled fares. Paragraph (1) establishes the general authority of the Board to hold an inquiry into the justness and reasonableness of fares, charges, rules, and classifications for interstate or overseas scheduled air transportation. If the Board finds a challenged fare, charge, classification, or practice to be unjust or unreasonable, it is empowered to establish the lawful maximum or minimum or maximum and minimum fare or charge, or the lawful classification or practice to be made effective. The Board's present power to set the fare levels (as opposed to maximum or minimum) is removed.

The powers granted to the Board by paragraph (1) are modified by paragraph (2) which establishes an upward and downward zone in which the Board may not find fares to be unjust or unreasonable. On the upward side, the Board may not find a fare for scheduled passenger air transportation to be unjustly or unreasonably high unless, after July 1, 1979, it is more than 5 percent above the standard industry fare level for the same or essentially similar class of service (defined in paragraph (6)). This upward zone does not apply to any market in which the affected air carrier transports 70 percent or more of the passenger air traffic as determined by the Board. On the downward side, the Board cannot find a fare for scheduled passenger transportation to be unjustly or unreasonably low unless (A) on the date the tariff containing the fare was filed, the fare in question was more than 35 percent below the standard industry fare level for the same or essentially similar class of service, or (B) on the grounds the fare is predatory (defined in section 101 (35)). The paragraph also provides that in determining whether a fare for scheduled passenger air transportation is too high, the Board shall take into consideration reasonably estimated or foreseeable future costs and revenues for the period for which the tariff is to be in effect.

Paragraph (3) empowers the Board to investigate the justness or reasonableness of classifications, rules, and practices utilized by air carriers for the interstate or overseas transportation of cargo or the interstate or overseas charter transportation of persons. The Board is empowered to correct offending practices. Although the Board is not given the power to review the justness or reasonableness of air cargo rates or charter passenger air transportation fares, this section gives the Board the power to review, from a consumer protection standpoint, the many rules and practices established by carriers for the provision of these types of air transportation.

Paragraph (4) empowers the Board to determine whether rates or fares for scheduled or charter interstate or overseas air transportation of persons or property or any classification or practice affecting such fares or charges (including fares within the zone or reasonableness of paragraph (d)(2)) will be unjustly discriminatory, unduly preferential, unduly prejudicial, or predatory. If it so determines, the Board is given the limited power to order a carrier to modify the offending practice or to cease collecting the offending price only to the extent necessary to elliminate the discrimination, preference, prejudice, or predatory practice.

Paragraph (5) places the burden of showing that a fare or a charge is too low on the party opposing such fare or charge.

Paragraph (6)(A) defines standard industry fare level as the fare level in effect on July 1, 1977, for each class of service existing on that date and in effect on the date of establishment of classes coming into existence after that date. Subparagraph (B) authorizes the Board to adjust, no less than semiannually, the standard industry fare level. Such adjustments shall be done by increasing or decreasing the fare level by the percentage change from the last previous period in the actual operating cost per available seat-mile for domestic scheduled service. Subparagraph (C) requires the Board to issue rules modifying the rules governing those classes of service in existence on July 1, 1977, which provide lower fare levels during off-peak periods. These rules shall be issued by no later than July 1, 1978.

Paragraph (7) empowers the Board to increase the downward zone of reasonableness established by subparagraph (2)(B).

Subsection (b) of section 18 amends section 1002(e) of the Federal Aviation Act of 1958 in its entirety. The new subsection (e) provides six factors that the Board is to take into consideration in exercising and performing its powers and duties under subsection (d) of section 1002.

House amendment

The amendment provides that air carriers are authorized to raise fares up to 5 percent above the fare in effect one year earlier. This upward fare flexibility does not extend to any market in which a carrier carries more than 90 percent of the traffic and is not effective until Congress adopts a new entry program following the CAB study on automatic entry except that if a carrier reduces its fare under automatic downward flexibility, the carrier may increase the reduced fare up to any fare which is not higher than the fare in effect prior to the first fare reduction.

The amendment establishes downward fare flexibility for reductions of up to 25 percent below present coach fares in the first year after enactment and up to 50 percent of present coach fares thereafter, so long as the proposed fares are not predatory. The downward flexibility may be used for either reduced coach fares or discount fares.

The amendment does not prohibit fare increases or decreases which are greater than the prescribed limits. However, these fare changes will not be allowed automatically and will have to be approved by CAB.

Subsection (b) of section 29 amends section 1002(e) of the Federal Aviation Act of 1958 in its entirety. The new subsection provides five factors that the board is to take into consideration in exercising and performing its power and duties under subsection (d) of section 1002.

Conference substitute

On upward fare flexibility the substitute adopts the same approach as the Senate.

Effective July 1, 1979, air carriers may raise their fares up to 5 percent above the standard industry fare level without CAB approval. This authorization does not apply to any market in which the carrier carries more than 70 percent of the traffic. The "standard industry fare level" is the fare level in effect on July 1, 1977, as modified, by the Board, not less than semiannually, on the basis of actual changes in operating costs.

For downward flexibility, carriers are allowed to reduce their fares up to 50 percent below the standard industry fare level, unless the Board determines that a decrease would be predatory. The Board is given authorization to increase the percentage of downward fare flexibility.

SUSPENSION OF RATES, FARES, AND CHARGES

Senate bill

Section 19 amends subsection 1002(g) of the Federal Aviation Act of 1958 by adding three additional restrictions on the Board's power to suspend rates, fares, and charges:

First, the Board is forbidden to suspend or reject on any grounds, including those enumerated in paragraph (d)(4), a tariff for scheduled passenger transportation on the basis of a passenger fare contained in that tariff if such a fare is within the zones specified in paragraph (d)(2).

Second, the Board is forbidden to suspend or reject any other fares, rates, or charges, unless the Board is authorized under subsection (d) to find the proposed rate, fare, or charge unlawful.

Third, the Board may not suspend or reject a proposed fare or charge on the basis that it is too low (including allegations that it is predatorily low) unless the Board first finds that there is a substantial probability that he proposed fare or charge will be found unlawful under subsection (d).

House amendment

No comparable provision.

Conference substitute

No comparable provision.

EXPEDITED PROCEDURES

Senate bill

Section 20 inserts a new section at the end of title X of the Federal Aviation Act of 1958

The new section, section 1010, in subsection (a) provides that whenever the Board receives an application, complaint, or petition under title IV and relating to domestic air transportation, other than one filed under section 408 or 409, or an application by a United States air carrier for a certificate to perform foreign air transportation, the Board shall, within 90 days after receiving such petition, determine whether a specific provision of that title or the public interest requires a hearing. During the 90 days interested parties shall be given an opportunity to submit written data, views, or arguments on that question. If the Board determines that a hearing is not required, then the Board shall issue a decision either granting, denying, or dismissing the pleading filed. Such decision shall be issued within 30 days after the Board determines that a hearing is not required, but in no case more than 120 days after the date the petition was filed with the Board. Any such decision should be deemed to be a final order of the Board to judicial review.

If the Board determines that a specific provision of title IV or the public interest requires a hearing, it may proceed in one of two ways. If there are disputed issues of material fact which requires an oral evidentiary hearing, the Board shall set such application for such oral evidentiary hearing. Interested persons will then be entitled to present such evidence and testimony and to conduct cross examination as the Board determines to be appropriate and required. In such a hearing, an administrative law judge or Board member shall issue an initial or recommended decision within 150 days after the date of the Board's decision to set the oral evidentiary hearing.

If the Board does not act within 60 days after the initial or recommended decision is issued, that decision becomes the final decision of the Board subject to judicial review. If the Board decides to review such initial or recommended decision, it shall issue its final order within 90 days after the date such initial or recommended decision was issued. If the petition raises questions which are unusually complex or difficult, the Board may extend for not more than 30 days the period within which the Board, the administrative law judge, or Board members shall issue an initial or recommended decision. Within these time limits, the Board has authority to set dates and requirements for interlocutory motions, answers, petitions, and other pleadings and procedural steps.

Even though a specific provision of title IV or the public interest may require an oral evidentiary hearing, the Board may, by order, dispense with an oral evidentiary hearing and proceed to a final decision with or without an opportunity for further written or oral argument. If the Board takes this action, it shall first issue an order to show cause describing specifically the action it proposes to take, setting forth its tentative findings of fact and conclusions of law, requiring any interested parties opposing such action to show cause why such action should not be taken, and, if such party requests an oral evidentiary hearing, why such a hearing is necessary and why any relevant and material facts cannot be adequately placed on the record by written submissions or other means. After evaluating any responses to its order, the Board shall then proceed to a final decision of the case or set the case down for oral evidentiary hearing. Final decisions shall be rendered within not more than 180 days after the date the application was filed, and decisions to set down for oral evidentiary hearing shall be made within not more than 120 days after the application was filed.

Subsection (e) preserves the right of any air carrier to obtain an oral evidentiary hearing in any proceeding relating to the suspension or revocation of its certificate.

Subsection (f) provides that when the Board receives a complaint under section 1002 (d)(4) from a civic party, the Board shall grant, deny, or dismiss such complaint within 90 days after such complaint was filed.

Subsection (g) requires the Board, whenever it grants, denies, or dismisses a petition, to state the reasons for so granting, denying, or dismissing such petition. The Board may, however, dismiss an application or other document for failure to comply with the procedures of the Board.

House amendment

The amendment imposes procedural deadlines for Board decisions. For route applications the amendment would require the Board to decide within three months from the date a route application is filed whether to set the application for hearing or dismiss it on the merits. An order of dismissal could be reviewed by the courts.

In those route cases which are set for hearing, the amendment requires the Administrative Law Judge to issue his decision in 180 days, and the Board to issue its decision 90 days thereafter. These provisions mean that the Board will decide all route cases within 1 year from the filing of an application. As a sanction to insure that the Board complies with this deadline, the amendment provides if the Board fails to decide a case in a year, the ALJ's decision will become final. The amendment also provides for deadlines to be extended if applicants fail to meet procedural schedules established by the Board, and provides a 90-day extension of the deadlines in extraordinary cases. To give the Board sufficient time to adjust to the new deadlines, they do not take effect until 1 year after the date of enactment.

The amendment also establishes procedural deadlines for other types of cases such as agreements and exemptions. In these cases the Board is required to issue a final decision in 6 months if there is no evidentiary hearing, and in 1 year if a hearing is held. Merger cases must be decided in 6 months.

The amendment permits the Board to promulgate rules establishing simplified procedures for processing route applications by U.S. and foreign air carriers. The procedures must provide for notice and an opportunity for interested persons to file evidence and argument; however, the procedures need not provide for oral evidentiary hearings.

The amendment also provides criteria for the Board to determine whether to apply the simplified procedures in particular cases.

Conference substitute

Amends section 401(c) to require the Board to (1) set any application for public hearing, (2) begin to make a determination with respect to application under the simplified procedures established under section 401(p), or (3) dismiss the application on the merits within ninety days after the application is filed with the Board. Such amendment also provides that if the Board dismisses an application without setting it for a hearing or beginning to make a determination under subsection (p) such dismissal shall be deemed a final order and be subject to judicial review under the provisions of the Act. The amendment to subsection (c) also provides specific time deadlines which are to govern the Board's determinations with respect to any application filed with the Board under section 401.

Adds a new section 401(p) to the Act which requires the Board to promulgate rules establishing simplified procedures for disposing of applications and certificates under sections 401(d)(1), (2), or (3) and for the alteration, amendment, modification, suspension, or transfer of certificates pursuant to sections 401(f), (g), and (h) of the Act. Such rules are to provide for adequate notice and submission of appropriate written evidence and argument, but need not require for oral evidence or hearings. Such rule may provide that written evidence and argument be filed as part of a protest or memorandum filed under section 401(c) of the Act. The new section permits the Board to use the simplified procedures when the Board determines such use to be in the public interest.

The conference substitute also contains an amendment which adds a new section 402(h) to the Act (relating to procedures for processing applications for permits for foreign air carriers) which is the same as the House amendment.

The conference substitute also adds a new section 1010 to the Act which sets forth the following time requirements with respect to applications or other written documents submitted to the Board under section 408, 409, 412, or 416 of the Act:

(1) If the Board orders an evidentiary hearing, the Board shall issue a final order or decision with respect to the written document within 12 months after it is submitted, except in the case of an application submitted under section 408 the Board shall issue its final order or decision within 6 months after the application is submitted.

(2) If the Board does not order an evidentiary hearing, the Board shall issue a final order or decision with respect to the document within 6 months after the date of its submission.

EXISTING DETERMINATIONS

Senate bill

Section 21 preserves all orders, determinations, rules, regulations, permits, contracts, certificates, rates, and privileges issued, made, granted, or allowed to become effective by the President or the Civil Aeronautics Board, the Postmaster General, or any court of competent jurisdiction, made before the effective date of this act, until they are amended, modified, terminated, superseded, set aside, or repealed by the Board or by any court of competent jurisdiction or by operation of law.

House amendment

No comparable provision.

Conference substitute

Same as the Senate bill.

EMPLOYEE PROTECTION PROVISION

Senate bill

Subsection (a) of this section states the general rule that the Secretary of Labor may make monthly assistance payments or reimbursement payments to eligible protected employees. An eligible protected employee is a protected employee who, on account of a qualifying dislocation, has been deprived of employment or has been adversely affected with respect of his compensation.

Subsection (b) provides for the computation of monthly assistance. It directs the Secretary of Labor to consult with the Secretary of Transportation and, by rule, to promulgate guidelines to be used by him in determining amounts of compensation for each craft and class of protected employees, and to determine the percentage of salary such payment shall constitute. The Secretary shall deduct from such amounts the full amount of any unemployment compensation received by the protected employee. Paragraph (2) authorizes the amount of monthly assistance payable to each employee to be reduced, if the protected employee refuses offered employment, to an amount which the employee would have been entitled to receive had he accepted the employment. If the acceptance of comparable employment requires reloca-

tion, the employee may elect not to relocate and, in lieu of all other benefits, he shall be entitled to receive monthly compensation payments equal to the total number of compensation payments remaining pursuant to the maximum provided in subsection (e) or (3), whichever is less.

Subsection (c) authorizes the Secretary to make payments for reasonable moving expenses for the protected employee and his immediate family if the employee relocates in order to obtain other employment. Such employee may also be entitled to be reimbursed for losses sustained when the employee sells his principal place of residence at a price below fair market value or any loss incurred in canceling such employee's lease agreement or contract of purchase relating to his principal place of residence.

Subsection (d) requires an air carrier hiring additional employees to hire first a protected employee who has been terminated or otherwise furloughed as a result of a qualifying dislocation, except that such air carrier may recall any of its own furloughed employees before hiring such a person. A person who is so furloughed or terminated and hired by another air carrier shall retain his rights of seniority and right to recall with the air carrier that furloughed or terminated him. This subsection also requires the Secretary to establish and maintain a comprehensive list of jobs available with 401 certificated air carriers. He shall also, from time to time, publish that list which shall include such information and job detail as may be necessary. The Secretary, too, shall make every effort to assist an eligible protected employee in finding other employment. As a condition to receiving payments under this section, such an employee shall have the duty of cooperating fully with the Secretary. The Secretary is directed to encourage negotiations between air carriers and representatives of eligible protected employees with respect to rehiring practices and seniority.

Subsection (e) limits the monthly assistance payments under this section to no more than 36 months, or until the protected employee obtains other employment, whichever first occurs.

Subsection (f) authorizes the Secretary to issue, amend, and repeal such rules and regulations as may be necessary for the administration of this section. All rules and regulations of the Secretary shall be submitted to the Congress and they shall become effective 60 legislative days after the date they were submitted, unless during that period either House adopts a resolution disapproving the rules. However, during that 60-day period if a resolution has been adopted indicating that both Houses approve of such rules or regulations, then they shall become effective on the date that resolution is adopted.

Subsection (g) establishes an airlines employees protective account in the Treasury of the United States.

Subsection (h) defines, for the purposes of this section, the terms "protected employee," "qualifying dislocation," "Secretary," and "major contraction." The definition of a qualifying dislocation provides that the qualifying dislocation must occur within 10 years after the effective date of this section.

Finally, subsection (i) provides that the section will terminate on the last day that the Secretary is required to make a payment under this section.

House amendment

The amendment provides that authority granted by the amendment may not be exercised until the Secretary of Labor certifies that employees affected by new authority are protected by arrangements no less favorable than those in 5(2)(f) of the Interstate Commerce Act and section 405 of the Rail Passenger Service Act (including subsequent amendments to these Acts). Employee benefits are paid initially by the employer who will be reimbursed from a separate account in the U.S. Treasury.

Conference substitute

Is basically the same as the Senate bill except as follows:

(1) Provides that a "major contraction" means a reduction by at least 7½ percent of the total number of full time employees within a 12-month period.

(2) Provides that payment benefits are available for 72 months.

(3) Provides that protected employees who are furloughed or terminated (other than for cause) have first right of hire, regardless of age.

(4) Provides that employees fired for cause are not eligible for benefits or hiring priority under the program.

(5) Provides that the Secretary of Labor, by rule, must promulgate the guidelines for the program and any other regulations the Secretary deems necessary to implement the program within 6 months after the date of enactment of the Airline Deregulation Act of 1978. Such rules and amendments thereto must be submitted to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Public Works and Transportation of the House of Representatives 30 legislative days before such rules are issued as final rules. Any rule or regulation issued by the Secretary under this section as a final rule or regulation shall be submitted to the Congress and shall become effective 60 legislative days after the date of such submission, unless during that 60-day period either House adopts a resolution stating that that House disapproves such rules or regulations.

(6) Provides that protected employees hired by other carriers shall retain their rights of seniority and rights of recall with the air carriers that furloughed them. The rights granted by this provision shall remain effective until this section is terminated under subsection (j). This does not affect any rights employees have as a matter of contract.

Under the conference substitute, a protected employee who is deprived of employment, or adversely affected with respect to compensation, is eligible for financial benefits if his employer incurs a bankruptcy or a major contraction of employment, and CAB finds that a major cause of his unemployment has been the change in the regulatory structure resulting from the Airline Deregulation Act of 1978. The conferees intend the requirement that the deprivation of employment be related to the Deregulation Act to be a continuing requirement. For example, an employee who begins to receive benefits and then reaches mandatory retirement age would not be eligible for benefits beyond the date he reached retirement age. After that date the cause of unemployment would not be the Deregulation Act, but the reaching of retirement age.

LOAN GUARANTEE

Senate bill

Section 23 makes amendments to the Act of September 7, 1957, relating to the loan guarantee program for purchasers of certain aircraft.

The first amendment, an amendment to section 3 of that act, authorizes the Secretary to guarantee a lender against loss of principal or interest when he makes a loan to an air carrier holding a certificate to engage in local air transportation from the CAB, or an air carrier holding a certificate of public convenience and necessity issued by the CAB. It also amends such section 3 to extend the guarantee to operators the major portion of which is conducted in Hawaii.

The second amendment amends section 4(c) of that act and provides that a qualifying loan is any loan whose terms permit full repayment less than 15 years after the date thereof, in lieu of 10 years which is the existing law.

The third amendment, an amendment to section 4(d) of that act, increases the total face value of eligible loans from $30 million to $100 million.

The fourth amendment amends section 8 of that act, and provides that the act shall expire 25 years after its date of enactment, extending the provisions of that act for another 5 years.

House amendment

Section 32 of the amendment renews and modifies the Aircraft Loan Guarantee Program (act of September 7, 1975, as amended, 49 U.S.C. 1324) which expired on September 7, 1977.

The amendment extends the loan guarantee program for 5 years and makes several modifications designed to further the effectiveness of the program.

First, the program is extended to commuter airlines and intrastate air carriers. For a commuter carrier or intrastate air carrier to receive the benefits of the program, the Secretary of Transportation must be reasonably assured that the applicant is financially sound and will continue operations as a commuter carrier or intrastate air carrier over the routes being operated at the time of the guaranteed loan.

The amendment also makes supplemental air carriers eligible for loan guarantees.

Other changes in the law are designed to take account of changes in aircraft and aircraft financing which have occurred in the 20 years since the legislation was first enacted.

First, the term of loans which may be guaranteed has been extended from 10 to 15 years.

A second change is to extend the amount of loans which may be guaranteed for each carrier from $30 million to $75 million.

The amendment further provides that new turbojet aircraft must comply with noise standards in effect on January 1, 1977, to be eligible for the program.

Conference substitute

Extends the loan guarantee program for 5 years and makes several modifications to the program.

Makes commuter carriers and intrastate air carriers eligible for the program. Charter air carriers are also made eligible for the program for the purchase of all cargo nonconvertable aircraft. The total amount of loans which may be guaranteed under the program is increased to $100,000,000. The amount of loans which may be extended to a charter air carrier is based on the amount of service it provides to small communities.

AIRPORT AND AIRWAY DEVELOPMENT ACT AMENDMENTS

Senate bill

Section 24 makes amendments to the Airport and Airway Development Act to accommodate the creation of a new class of air carrier, and local air carrier, who holds a certificate under the new section 422 (added by this Act).

House amendment

No comparable provision.

Conference substitute

Amends the Airport and Airway Development Act of 1970 to assure that any airport which on the date of enactment of the Airline Deregulation Act of 1978 is an air carrier airport (other than a commuter service airport) continue to be considered as an air carrier airport until September 30, 1978.

MISCELLANEOUS PROVISIONS

Senate bill

Section 25 makes the conforming amendments to the table of contents of the Federal Aviation Act of 1958.

House amendment

Makes conforming amendments to the table of contents of the Federal Aviation Act of 1958 in each section where necessary.

Conference substitute

Makes conforming changes to the table of contents in each section as appropriate.

EFFECTIVE DATE

Senate bill

Provides that sections 4 (relating to safety study), 23 (relating to aircraft loan guarantees), 24 (relating to Airport and Airway Development Act of 1970), and the effective date section are to be effective on the date of enactment. All other sections take effect on January 1, 1979.

House amendment

Provides that all provisions take effect on the date of enactment except as specifically provided to the contrary in any specific provision.

Conference substitute

Same approach as under the House amendment.

SUBSIDY STUDY

Senate bill

No comparable provision.

House amendment

The amendment requires DOT and CAB to undertake a study of the CAB subsidy program for commuters and certificated carriers and to consider the feasibility of requiring State and local government to share part of the subsidy cost. The study is to be completed by January 1, 1980.

Conference substitute

Essentially the same as the House amendment.

THROUGH SERVICE AND JOINT RATES

Senate bill

No comparable provision.

House amendment

Amends section 401(d)(4) of the Federal Aviation Act of 1958 relating to the establishment of through service and joint fares now applicable to carriers within the States of California and Florida to carriers within any State.

Conference substitute

Same as the House amendment.

TERMINATION ON SUSPENSION OF CERTAIN SERVICE

Senate bill

A discussion of the Senate provision on termination or suspension of service appears within the description of the Senate provision on certificates.

House amendment

The amendment requires 90 days notice to the CAB and affected communities if a change in schedules will cause some markets to lose all nonstop or single plane service.

Conference substitute

Same as the House amendment, except it adopts the 60-day notice period in the Senate bill.

RATES OF CARRIAGE FOR PERSONS AND PROPERTY

Senate bill

No comparable provision.

House amendment

The amendment amends section 404 of the Federal Aviation Act of 1958 to make it clear that certificated carriers have a duty to enter into through service arrangements with commuters.

Conference substitute

Same as the House amendment.

LOCAL SERVICE AIR CARRIER COMPENSATION

Senate bill

No comparable provision.

House amendment

The amendment provides that in determining subsidies for 1964 and 1965, the CAB may not take account of any income tax refunds for that year resulting from tax loss carrybacks. The CAB is required to re-determine any 1964 or 1965 subsidy determination which took account of tax loss carrybacks.

This amendment extends the provisions of Public Law 95-163, enacted on November 9, 1977, to 1964 and 1965.

The amendment requires that refunds be made to any carriers which were required to make subsidy refunds because of tax loss carrybacks for 1964 and 1965.

Conference substitute

Same as the House amendment.

PRESIDENTIAL REVIEW OF INTERNATIONAL ROUTE CASES

Senate bill

No comparable provision.

House amendment

The amendment provides that the President may disapprove CAB international route decisions only on the basis of foreign relations or national defense considerations and that the President may not disapprove CAB decisions on economic grounds or carrier selection grounds.

Conference substitute

Same as the House amendment.

CIVIL PENALTIES

Senate bill

No comparable provision.

House amendment

The amendment gives the CAB power to impose civil penalties after notice and hearing. The bill further provides that the Board's order imposing a penalty is subject to review by the U.S. Court of Appeals, as provided in section 1006 of the Act. If the Board is unable to collect a civil penalty which it has imposed, it will be necessary for the Board to institute a collection proceeding in the District Court. However, in this proceeding the violator would not be entitled to a new trial.

Conference substitute

Same as the House amendment. This provision is not intended to affect any existing authority of the U.S. Postal Service to impose civil penalties.

JOINT FARE—UNIFORM METHODS

Senate bill

No comparable provision.

House amendment

The amendment requires that if CAB establishes a joint fare formula for certificated airlines, this formula must be extended to joint fares between certificated carriers and commuters. The amendment provides that commuters entering into joint fares with a certificated carrier have a duty to give 90 days' notice before terminating their service in a market in which joint fares are offered. Failure to give this notice will make the commuter ineligible for participation in CAB's uniform method of establishing fares.

Conference substitute

Same as the House amendment.

WITHHOLDING OF INFORMATION

Senate bill

No comparable provision.

House amendment

The amendment provides that CAB, the State Department, and the Department of Transportation shall withhold information from public disclosure if disclosure would prejudice formulation and presentation of U.S. positions in international negotiations and adversely affect the competitive position of U.S. air carriers in foreign air transportation.

Conference substitute

Essentially the same as the House amendment.

SUNSET PROVISIONS

Senate bill

No comparable provision.

House amendment

The amendment includes a sunset provision providing that the CAB will terminate on December 31, 1982. This provision will require the Congress to undertake a thorough review of the CAB and the functions it performs, and to determine whether the agency should be continued in the same or modified form.

The amendment further provides that by December 31, 1981, the CAB must submit reports and recommendations on whether it should be continued.

Following termination of the CAB, the bill provides that CAB's subsidy authority and its authority over foreign air transportation is transferred to DOT; CAB's authority over intercarrier mergers and agreements is transferred to Department of Justice, and CAB's authority to set mail rates is transferred to the Postal Service.

Conference substitute

Adds a new title XVI to the Federal Aviation Act of 1958 which repeals certain provisions of the Act and the authority of the Board with respect to such provisions, and transfers the authority of the Board under certain other provisions to various Federal departments and instrumentalities. The following provisions of the Act (relating to interstate and overseas air transportation) cease to be in effect on December 31, 1981 (as does the Board's authority under such provisions):

(A) Section 401(d)(1), (2), and (3) of this Act (insofar as such sections require a determination of consistency with the public convenience and necessity and insofar as section 401(d)(3) prohibits persons holding certificates under section 401(d)(1) or (d)(2) from obtaining certificates to provide interstate or overseas charter air transportation of persons).

(B) Section 401(d)(8) of this Act.

(C) Section 401(e)(1) of this Act (insofar as such section permits the Board to specify terminal and intermediate points).

(D) Section 401(j) of this Act (except with respect to essential air transportation).

(E) Section 401(n) (1) and (4) of this Act.

(F) Section 404(a) of this Act (insofar as such section requires any air carrier to provide air transportation authorized by its certificate).

(G) Section 405(b) of this Act (insofar as such section requires the filing of any statement or schedule by any air carrier).

The following provisions of the Act (relating to interstate and overseas air transportation) cease to be in effect on January 1, 1983 (as does the Board's authority under such provisions):

(A) Section 403 of this Act.

(B) Section 404 of this Act (except insofar as such section requires air carriers to provide safe and adequate service.)

(C) Section 407(b) and (c) of this Act.

(D) Sections 1002(d)(1) and (d)(2), (e), (g), (h), and (i) of this Act.

The authority of the Board under sections 408 and 409 of the Act relating to interstate and overseas air transportation is transferred to the Department of Justice on January 1, 1983.

The conference substitute provides that title II of the Act shall cease to be in effect on January 1, 1985, with the following authority of the Board being transferred to the following Federal departments and instrumentalities on January 1, 1985:

(A) The authority of the Board under sections 406(b)(3) and (c) of this Act to provide compensation for air transportation to small communities and under section 419 of this Act is transferred to the Department of Transportation.

(B) The authority of the Board under this Act with respect to foreign air transportation is transferred to the Department of Transportation which shall exercise such authority in consultation with the Department of State.

(C) The authority of the Board under sections 408 and 409 (relating to foreign air transportation) and under section 412 of this Act is transferred to the Department of Justice.

(D) The authority of the Board under this Act with respect to the determination of the rates for the carriage of mails in interstate and overseas air transportation is transferred to the Postal Service and such authority shall be exercised through negotiations or competitive bidding.

The conference substitute adopts the House amendment with respect to the report to be submitted by the Board except that the date by which such report is to be submitted to the Congress is changed to January 1, 1984.

It is not the intention of the conferees in relieving the Board of its authority with respect to domestic fares to limit its ability to determine maximum fares and charges allowed for essential air transportation to communities receiving subsidized air service or communities at which essential air transportation is guaranteed for ten years, or to prohibit such communities from petitioning the Board or its successor agency with respect to fares charged for essential air transportation.

COLLECTION OF FEES, CHARGES, AND PRICES

Senate bill

No comparable provision.

House amendment

The amendment would prohibit the Secretary of Transportation and the Administrator of the Federal Aviation Administration from imposing so called "administrative user charges" for certificates, registrations, examinations, and similar authorizations relating to aviation without Congressional approval, except that those fees in effect on January 1, 1973, would not be affected and would stay at the same level.

Conference substitute

Same as the House amendment.

LABOR DISPUTE

Senate bill

No comparable provision.

House amendment

This provision would require the President to appoint a board to investigate and report on the dispute between Wien Air Alaska, Incorporated, and the Air Line Pilots Association. This board would function under the terms of section 10 of the Railway Labor Act. It is to report its findings within 30 days from the date of its creation.

Conference substitute

Same as the House amendment. The provision does not change existing law with respect to the respective rights of the parties to the labor dispute. Further, the intent of the provision is directed to the creation of a board limited to fact finding only that will investigate the labor dispute and report such facts to the President.

AVAILABILITY OF FUNDS

Senate bill

No comparable provision.

House amendment

Funds authorized by this Act, including any amendments made by this Act, shall be fiscal years beginning on and after October 1, 1978.

Conference substitute

No comparable provision.

REQUEST FOR CONSIDERATION OF AMENDMENTS TO H.R. 11209—INTERNATIONAL MARITIME SATELLITE TELECOMMUNICATIONS ACT

Mr. VAN DEERLIN. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 11209) to provide for the establishment, ownership, operation, and governmental oversight and regulation of international maritime satellite telecommunications services, with a Senate amendment thereto, recede from disagreement to the Senate amendment, and concur in the Senate amendment with an amendment.

The Clerk read the title of the bill.

The Speaker pro tempore. Is there objection to the request of the gentleman from California?

Mr. BROWN of Michigan. Mr. Speaker, reserving the right to object, it is my understanding the Chair intends to take up two bills, the meat import bill and the ERISA reorganization plan yet this evening. It was my understanding we were going to recess at 12 o'clock this evening.

I therefore think it totally incredible that we are taking up unanimous-consent requests at this point in time. I shall object to any unanimous-consent request that is made henceforth, and I object to this one.

The SPEAKER pro tempore. Objection is heard.

MEAT IMPORT ACT OF 1978

Mr. ULLMAN. Mr. Speaker, I move that the House resolve itself in the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 11545) to modify the method of determining quantitative limitations on the importation of certain articles of meat and meat products, to apply quantitative limitations on the importation of certain additional articles of meat, meat products, and livestock, and for other purposes.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Oregon (Mr. ULLMAN).

The motion was agreed to.

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 11545, with Mr. FUQUA, in the chair.

The Clerk read the title of the bill.

The CHAIRMAN pro tempore. When the Committee of the Whole rose on Friday, October 6, 1978, the bill had been considered as having been read and open to amendment at any point.

Mr. ULLMAN. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I take this time to inform the Members, that we will make every effort to take care of this bill in very short order. I am going to ask unanimous consent that all Members may have permission to revise and extend their remarks. There are a couple of amendments that I think can be handled expeditiously, and I hope the Members will cooperate.

AMENDMENT OFFERED BY MRS. SMITH OF NEBRASKA

Mrs. SMITH of Nebraska. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mrs. SMITH of Nebraska: Page 16, line 1, strike out "January 1, 1979," and all that follows down through line 3 and insert in lieu thereof "January 1, 1979.".

Mrs. SMITH of Nebraska. Mr. Chairman, this amendment simply strikes the termination date—December 31, 1988—from the bill.

In essence this date is a sunset clause. No one is stronger for the sunset principle in Federal programs than I am, but this is the wrong type of program to which to attach a specific termination date.

The legislation does not create a new Federal agency. It does not expand the bureaucracy or make a commitment for annual appropriations.

It deals primarily with cattle cycles and the procedure to be followed in seeing that consumers have a dependable, stable supply of red meat. The 10-year period between 1978 and 1988 covers only one cattle cycle. If the act ends at the conclusion of this cycle, the efforts of our producers to solve their long-term problem will be undermined.

Faced with such a limitation, cattlemen would be encouraged to reduce their herds. This reduction in the red meat supply would be felt at the meat counter where consumers could be faced with high prices.

Anything that upsets livestock production in this country and causes a decrease in domestic output, plays right into the hands of foreign importers who have no compunction about undermining the production of red meat in the United States.

Mr. Chairman, sunset clauses certainly have their place in legislation, but it is obvious that such a clause is not required in this particular bill. It does more harm than good.

The bill will be just as strong without it and certainly our livestock producers will be a lot better off without it. They can go ahead with their long-range plans and the Nation's housewives can be assured of a constant supply of fresh, wholesome meat.

I respectfully urge my colleagues to adopt the amendment to strike the unnecessary termination date.

Mr. ULLMAN. Mr. Chairman, will the gentlewoman yield?

Mrs. SMITH of Nebraska. I am glad to yield to the gentleman from Oregon.

Mr. ULLMAN. Mr. Chairman, I would agree with the gentlewoman from Nebraska (Mrs. SMITH), and I wish to assure her that the members of the Committee on Ways and Means will carefully monitor this matter. I see no need for this termination date or for the sunset provision, and I hope the gentlewoman's amendment is adopted.

Mrs. SMITH of Nebraska. Mr. Chairman, I thank the gentleman.

Mr. VANIK. Mr. Chairman, will the gentlewoman yield?

Mrs. SMITH of Nebraska. I am glad to yield to the gentleman from Ohio.

Mr. VANIK. Mr. Chairman, the sunset provision provides for a "review mechanism" at the end of a complete cattle cycle—10 years—to determine what changes, if any, are desirable to obtain further improvements. It must be remembered that all of the formulas which were considered are based on USDA estimates of domestic commercial cattle production for the next 10 years. The Department of Agriculture has indicated that these projections, although based on the best indicators currently available to us, are subject to some degree of error. To insure that we have a review procedure at the conclusion of a full cattle cycle to enable us to fully judge the effectiveness of the law is, in my opinion, an extremely important point and I urge that this provision remain in the bill.

Mr. STEIGER. Mr. Chairman, will the gentlewoman yield?

Mrs. SMITH of Nebraska. I yield to the gentleman from Wisconsin.

Mr. STEIGER. Mr. Chairman, I appreciate the gentlewoman's yielding.

This is an amendment offered by our colleague, the gentleman from Minnesota. I must say that I do not have the strong feelings that the gentleman from Ohio (Mr. VANIK) has raised on this, and I think we can let the committee work its will.

The point that the chairman of the Committee on Ways and Means, the gentleman from Oregon (Mr. ULLMAN), made is the one that I really think is fundamental, and that is that the subcommittee and the full committee clearly will monitor this program with great care regardless of whether or not there is a sunset provision in it.

So, Mr. Chairman, I would say to my friend, the gentleman from Ohio (Mr. VANIK) that I do not think it is the end of the world if this amendment is adopted.

Mrs. SMITH of Nebraska. Mr. Chairman, I thank the gentleman.

Ms. KEYS. Mr. Chairman, will the gentlewoman yield?

Mrs. SMITH of Nebraska. I yield to the gentlewoman from Kansas.

Ms. KEYS. Mr. Chairman, I thank the gentlewoman for yielding.

Mr. Chairman, I support the gentlewoman's amendment. I opposed this provision in the Committee on Ways and Means, and I think it is a ridiculous amendment. As the gentlewoman has said so accurately, this does not add any bureaucracy or any agency. The whole purpose of the bill is to provide a stability of supply.

Mr. Chairman, the gentlewoman's amendment should be adopted, and I urge my colleagues to support it.

Mrs. SMITH of Nebraska. Mr. Chairman, I thank the gentlewoman, and I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentlewoman from Nebraska (Mrs. SMITH).

The amendment was agreed to.

AMENDMENT OFFERED BY MR. FINDLEY

Mr. FINDLEY. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. FINDLEY: Page 15 between lines 11 and 12 insert the following:

"(h) The President may suspend any proclamation made under subsection (f), increase the amount of any total quantity proclaimed under such subsection, or increase the amount of any total quantity established under subsection (g), if—

"(1) during a period of national emergency declared under section 201 of the National Emergencies Act of 1976, he determines and proclaims that such action is required by overriding national security interests of the United States, or

"(2) he determines and proclaims that the supply of articles of the kind to which the limitation would otherwise apply will be inadequate, because of a natural disaster, to meet domestic demand at reasonable prices.

Any such suspension shall be for such period, and any such increase shall be in such amount, as the President determines and proclaims to be necessary to carry out the purposes of this subsection. The effective period of any such suspension or increase made pursuant to paragraph (1) may not extend beyond the termination, in accordance with the provisions of section 202 of the National Emergencies Act of 1976, of such period of national emergency, notwithstanding the provisions of section 202(a) of that Act.

Redesignate subsections (h), (i) and (j) accordingly.

Mr. FINDLEY (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. FINDLEY. Mr. Chairman, this amendment has the support of the gentleman from Florida (Mr. GIBBONS), who spoke for several amendments last Friday. It has the support of the National Cattlemen's Association. I think it has great merit because it does establish in the law flexibility the President may find necessary to use.

It does just two things. It permits the President to set aside the limitations in the Meat Import Act if there are circumstances of overriding national interest or if a supply problem develops which is caused by natural disaster.

Frankly, I know of no opposition to the amendment, and I hope it can be accepted.

Mr. ULLMAN. Mr. Chairman, will the gentleman yield?

Mr. FINDLEY. I yield to the gentleman from Oregon.

Mr. ULLMAN. Mr. Chairman, I commend the gentleman for his work, and also the gentleman from Florida (Mr. GIBBONS), in putting the amendment together. It does, I think, satisfy the basic requirements. It is acceptable to the people in the cattle industry. It should be adopted unanimously.

Mr. FOLEY. Mr. Chairman, will the gentleman yield?

Mr. FINDLEY. I yield to the gentleman from Washington.

Mr. FOLEY. Mr. Chairman, I want to join the distinguished chairman of the Committee on Ways and Means in complimenting the gentleman from Illinois (Mr. FINDLEY) and the gentleman from Florida (Mr. GIBBONS) on this amendment.

Mr. STEIGER. Mr. Chairman, will the gentleman yield?

Mr. FINDLEY. I yield to the gentleman from Wisconsin.

Mr. STEIGER. Mr. Chairman, this amendment is a good amendment. I urge its adoption. It is acceptable to all on our side, as well.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Illinois (Mr. FINDLEY).

The amendment was agreed to.

● Mr. DE LA GARZA. Mr. Chairman, I rise in support of H.R. 11545.

My area of Texas is one of the major beef producing areas in the United States. Most, if not all the cattlemen are my friends, and I know from personal knowledge of their plight. The last few years have been hard on them. The elements have played havoc with their herds, as well as the actions of the market for many other reasons. This is a modest attempt to assist them. Just giving the consumers of this Nation some stability in the supply of beef will merit our support, and this measure will help to do so, and at the same time give the cattlemen some needed protection from imports. I urge all my colleagues to join with us and support this measure.●

● Mr. ALEXANDER. Mr. Chairman, as the representative of a district and State that includes a relatively large number of beef producers, I am keenly aware of the problems that our beef producers have encountered in keeping their heads above water in recent years. Present meat import quotas provide for an increase in beef imports as domestic production increases and for reduced imports as domestic supplies decline. This simply does not make sense. As a result, it is the beef consumer who has had to bear the brunt of this "roller coaster" effect in beef prices at the supermarket. And the beef producer is faced with an uncertain return on his labors.

In the last session I introduced legislation to make basically three changes in the Meat Import Quota Act of 1964 (Public Law 88–482). Included in my proposal were provisions to change the definition of meat to include all imports of beef under the act, no matter how processed; reduce the trigger for imposition of quotas from 110 to 100 percent of the quotas set in the act; and to give the President the authority to suspend quotas and reduce the amount of imports coming in each year.

Since that time, my colleague, Mr.

POAGE of Texas introduced, and I cosponsored, the legislation before us to correct these and other negative aspects of Public Law 88–482 by providing for a varying quota designed to be countercyclical to the U.S. meat cycle.

As the Senate has already acted on legislation introduced by Senator BENTSEN that is similar to H.R. 11545, I am hopeful that we can adopt this needed legislation, immediately resolve differences with the Senate version and send this bill to the President for signature. I believe beef producers and consumers alike will applaud such an initiative. I urge my colleagues to support this bill.●

The CHAIRMAN. Are there further amendments? If not, the question is on the committee amendment in the nature of a subtitute, as amended.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The CHAIRMAN. Under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker, having resumed the chair, Mr. FITHIAN, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 11545) to modify the method of determining quantitative limitations on the importation of certain articles of meat and meat products, to apply quantitative limitations on the importation of certain additional articles of meat, meat products, and livestock, and for other purposes, pursuant to House Resolution 1343, he reported the bill back to the House with an amendment adopted by the Committee of the Whole.

The SPEAKER. Under the rule, the previous question is ordered.

Is a separate vote demanded on any amendment to the committee amendment in the nature of a substitute adopted by the Committee of the Whole? If not, the question is on the amendment.

The amendment was agreed to.

The SPEAKER. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER. The question is on the passage of the bill.

The question was taken; and on a division (demanded by Mr. ROUSSELOT) there were—yeas 154, nays 9.

Mr. ROUSSELOT. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 289, nays 66, not voting 75, as follows:

[Roll No. 907]

Mr. Clay with Mr. Tucker.
Mr. Hannaford with Mr. Howard.
Mr. Diggs with Mr. Meeds.
Miss Jordan with Mr. Leggett.
Mr. Milford with Mr. Harrington.

Messrs. MURPHY of Pennsylvania, BOB WILSON, and RUPPE changed their vote from "nay" to "yea."

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. PICKLE. Mr. Speaker, I ask unanimous censent that all Members may have

5 legislative days in which to revise and extend their remarks on the bill H.R. 11545, just passed.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

CONFERENCE REPORT ON H.R. 12467, COMPREHENSIVE REHABILITATION SERVICES AMENDMENTS OF 1978.

Mr. BRADEMAS submitted the following conference report and statement on the bill (H.R. 12467) to amend the Rehabilitation Act of 1973 to extend certain programs established in such Act, to establish a community service employment program for handicapped individuals, to provide for independent living rehabilitation services for the severely handicapped, and for other purposes.

CONFERENCE REPORT (H. REPT. NO. 95-1780)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the amendments of the Senate to the bill (H.R. 12467) to amend the Rehabilitation Act of 1973 to extend certain programs established in such Act, to establish a community service employment program for handicapped individuals, to provide for independent living rehabilitation services for the severely handicapped, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the amendment of the Senate to the text of the bill and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the House amendment insert the following:

That (a) this Act may be cited as the "Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978".

TITLE I—AMENDMENTS TO THE REHABILITATION ACT OF 1973

VOCATIONAL REHABILITATION SERVICES; AUTHORIZATION OF APPROPRIATIONS; ALLOTMENTS

SEC. 101. (a) Section 100(b) of the Rehabilitation Act of 1973 is amended—

(1) in subsection (b)(1), by adding at the end the following: "There is further authorized to be appropriated for such purpose $808,000,000 for the fiscal year ending September 30, 1979, and the amount determined under subsection (c) for the three succeeding fiscal years, but in no event shall the amount appropriated be greater than $880,000,000 for the fiscal year ending September 30, 1980, $945,000,000 for the fiscal year ending September 30, 1981, and $972,000,000 for the fiscal year ending September 30, 1982.";

(2) by amending subsection (b)(2) to read as follows:

"(2) For the purpose of allotments under section 120(a)(1), there are authorized to be appropriated $45,000,000 for the fiscal year ending September 30, 1979, $50,000,000 for the fiscal year ending September 30, 1980, $55,000,000 for the fiscal year ending September 30, 1981, and $60,000,000 for the fiscal year ending September 30, 1982. There are further authorized to be appropriated for such purpose for each such year such additional sums as the Congress may determine to be necessary."; and

(3) by adding at the end the following new paragraph:

"(3) For the purpose of making grants to Indian tribes under part D of this title, there are authorized to be appropriated for the fiscal year ending September 30, 1979, and for each of the three fiscal years thereafter, in addition to any other amounts authorized to be appropriated under this section, such sums as may be necessary for such fiscal year, but not more than an amount equal to 1 percent of the amount appropriated for that fiscal year under paragraph (1) of this subsection.".

(b) Section 100 of the Rehabilitation Act of 1973 is amended by adding at the end the following new subsection:

"(c)(1) No later than November 15 of each fiscal year (beginning with the fiscal year 1979), the Secertary of Labor shall publish in the Federal Register the percentage change in the price index published for October of the preceding fiscal year and October of the fiscal year in which such publication is made.

"(2)(A) If in any fiscal year the percentage change published under paragraph (1) indicates an increase in the price index, then the amount authorized to be appropriated under subsection (b)(1) for the subsequent fiscal year is the amount authorized to be appropriated for the fiscal year in which the publication is made under paragraph (1) increased by such percentage change.

"(B) If in any fiscal year the percentage change published under paragraph (1) does not indicate an increase in the price index, then the amount authorized to be appropriated under subsection (b)(1) for the subsequent fiscal year is the amount authorized to be appropriated for the fiscal year in which the publication is made under paragraph (1).

"(3) For purposes of this subsection, the term 'price index' means the Consumer Price Index for All Urban Consumers, published monthly by the Bureau of Labor Statistics.".

(c) Section 110(a) of the Rehabilitation Act of 1973 is amended to read as follows:

"SEC. 110. (a)(1) For each fiscal year beginning before October 1, 1978, each State shall be entitled to an allotment of an amount bearing the same ratio to the amount authorized to be appropriated under section 100(b)(1) for allotment under this section as the product of (A) the population of the State, and (B) the square of its allotment percentage, bears to the sum of the corresponding products for all the States.

"(2)(A) For each fiscal year beginning on or after October 1, 1978, each State shall be entitled to an allotment in an amount equal to the amount such State received under paragraph (1) for the fiscal year ending September 30, 1978, and an additional amount determined pursuant to subparagraph (B) of this paragraph.

"(B) For each fiscal year beginning on or after October 1, 1978, each State shall be entitled to an allotment, from any amount authorized to be appropriated for such fiscal year under section 100(b)(1) for allotment under this section in excess of the amount appropriated under section 100(b)(1) for the fiscal year ending September 30, 1978, in an amount equal to the sum of—

"(i) an amount bearing the same ratio to 50 percent of such excess amount as the product of the population of the State and the square of its allotment percentage bears to the sums of the corresponding products for all the States; and

"(ii) an amount bearing the same ratio to 50 percent of such excess amount as the product of the population of the State and its allotment percentage bears to the sum of the corresponding products for all the States.

"(3) The sum of the payment to any State (other than Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands) under this subsection for any fiscal year which is less than one-third of 1 percent of the amount appropriated under section 100(b)(1), or $3,000,000, whichever is greater, shall be increased to that amount, the total of the increases thereby required being derived by proportionately reducing the allotment to each of the remaining such States under this subsection, but with such adjustments as may be necessary to prevent the sum of the allotments made under this subsection to any such remaining State from being thereby reduced to less than that amount.".

(d) Section 110(b) of the Rehabilitation Act of 1973 is amended by inserting "(1)" after "(b)", by striking out the last sentence, and by adding at the end thereof the following new paragraphs:

"(2) If a State receives as its Federal share under section 111(a) for any fiscal year, as a result of the maintenance of effort provisions of such section, less than 80 percent of the expenditure of such State for vocational rehabilitation services under the plan for such State approved under section 101 (including any amount expended by such State for the administration of the State plan but excluding any amount expended by such State from non-Federal sources for construction under such plan), such State shall be entitled to an additional payment for such fiscal year, subject to the same terms and conditions applicable to other payments under this part, equal to the difference between such payment under section 111(a) and an amount equal to 80 percent of such expenditure for vocational rehabilitation services.

"(3) Any payment attributable to the additional payment to a State under this subsection shall be made only from appropriations specifically made to carry out this subsection, and such additional appropriations are hereby authorized.".

(e)(1) The second sentence of section 120(a)(1) of the Rehabilitation Act of 1973 is amended by striking out "three" and inserting in lieu thereof "five".

(2) The first sentence of section 121(b) of the Rehabilitation Act of 1973 is amended by striking out "September 30, 1979" and inserting in lieu thereof "September 30, 1982".

STATE PLANS

SEC. 102. (a) Section 101(a) of the Rehabilitation Act of 1973 is amended—

(1) by striking out "For each fiscal year in which" and all that follows through the dash and inserting in lieu thereof the following: "In order to be eligible to participate in programs under this title, a State shall submit to the Commissioner a State plan for vocational rehabilitation services for a three-year period and, upon request of the Commissioner, shall make such annual revisions in the plan as may be necessary. Each such plan shall—";

(2) in paragraph (5)(A) by inserting after "handicaps" the first place it appears the following: "and a description of the method to be used to utilize existing rehabilitation facilities to the maximum extent feasible";

(3) in paragraph (6) by inserting "(A)" after "(6)", by inserting "and" after the semicolon the second place it appears, and by adding at the end the following new subparagraph:

"(B) provide satisfactory assurances that facilities used in connection with the delivery of services assisted under the plan will comply with the Act of August 12, 1968, commonly known as the Architectural Barriers Act of 1968;";

(4) in paragraph (7) by striking out "and" at the end of clause (A), and by inserting before the semicolon at the end thereof a comma and the following: "and (C) provisions relating to the establishment and maintenance of minimum standards to assure the availability of personnel, to the maximum

extent feasible, trained to communicate in the client's native language or mode of communication";

(5) in clause (C) of paragraph (9) by striking out "under section 401" and inserting in lieu thereof "under section 13";

(6) in paragraph (11) by inserting before the semicolon the following: "(specifically including arrangements for the coordination of services to individuals eligible for services under this Act, the Education of the Handicapped Act, and the Vocational Education Act)";

(7) in paragraph (12) by inserting "(A)" after "(12)", by inserting after the semicolon "and", and by adding at the end the following new subparagraph:

"(B) provide (as appropriate) for entering into agreements with the operators of rehabilitation facilities for the provision of services for the rehabilitation of handicapped individuals;";

(8) in paragraph (15) by striking out "(including the State's needs for rehabilitation facilities)" and inserting in lieu thereof "(including the capacity and condition of rehabilitation facilities, plans for improving such facilities, and policies for the use thereof by the State agency)";

(9) in paragraph (18) by inserting "personnel" before "working in the field of vocational rehabilitation" and by striking out "and" at the end thereof;

(10) in paragraph (19) by striking out the period and by inserting in lieu thereof a semicolon; and

(11) by adding at the end thereof the following new paragraphs:

"(20) provide satisfactory assurances to the Commissioner that, except as otherwise provided in section 130, the State shall provide vocational rehabilitation services to handicapped American Indians residing in the State to the same extent as the State provides such services to other significant segments of the population of handicapped individuals residing in the State;

"(21) provide that the State agency has the authority to enter into contracts with profitmaking organizations for the purpose of providing on-the-job training and related programs for handicapped individuals under part B of title VI upon a determination by such agency that such profitmaking organizations are better qualified to provide such rehabilitation services than nonprofit agencies and organizations; and

"(22) provide for the establishment and maintenance of information and referral programs (the staff of which shall include, to the maximum extent feasible, interpreters for the deaf) in sufficient numbers to assure that handicapped individuals within the State are afforded accurate vocational rehabilitation information and appropriate referrals to other Federal and State programs and activities which would benefit them.".

(b) Section 101(c) of the Vocational Rehabilitation Act of 1973 is amended—

(1) by inserting "(1)" after "(c)";

(2) by striking out "(1)" before "the plan" and inserting in lieu thereof "(A)";

(3) by striking out "(2)" and inserting in lieu thereof "(B)"; and

(4) by adding at the end the following new paragraph:

"(2) The Commissioner may, in accordance with regulations the Secretary shall prescribe, disburse any funds withheld from a State under paragraph (1) to any public or nonprofit private organization or agency within such State or to any political subdivision of such State submitting a plan meeting the requirements of subsection (a). The Commissioner may not make any payment under this paragraph unless the entity to which such payment is made has provided assurances to the Commissioner that such entity will contribute, for purposes of carrying out such plan, the same amount as the State would have been obligated to contribute if the State received such payment.

(c) Section 101(d) of the Rehabilitation Act of 1973 is amended to read as follows:

"(d)(1) Any State which is dissatisfied with a final determination of the Commissioner under subsection (b) or (c) may file a petition for judicial review of such determination in the United States Court of Appeals for the circuit in which the State is located. Such a petition may be filed only within the thirty-day period beginning on the date notice of such final determination was received by the State. The clerk of the court shall transmit a copy of the petition to the Commissioner or to any officer deisgnated by him for that purpose. In accordance with section 2112 of title 28, United States Code, the Commissioner shall file with the court a record of the proceeding on which he based the determination being appealed by the State. Until a record is so filed, the Commissioner may modify or set aside any determination made under such proceedings.

"(2) If, in an action under this subsection to review a final determination of the Commissioner under subsection (b) or (c), the petitioner or the Commissioner applies to the court for leave to have additional oral submissions or written presentations made respecting such determination, the court may, for good cause shown, order the Commissioner to provide within thirty days an additional opportunity to make such submissions and presentations. Within such period, the Commissioner may revise any findings of fact, modify or set aside the determination being reviewed, or make a new determination by reason of the additional submissions and presentations, and shall file such modified or new determination, and any revised findings of fact, with the return of such submissions and presentations. The court shall thereafter review such new or modified determination.

"(3)(A) Upon the filing of a petition under paragraph (1) for judicial review of a determination, the court shall have jurisdiction (i) to grant appropriate relief as provided in chapter 7 of title 5, United States Code, except for interim relief with respect to a determination under subsection (c), and (ii) except as otherwise provided in subparagraph (B), to review such determination in accordance with chapter 7 of title 5, United States Code.

"(B) Section 706 of title 5, United States Code, shall apply to the review of any determination under this subsection, except that the standard for review prescribed by paragraph (2)(E) of such section 706 shall not apply and the court shall hold unlawful and set aside such determination if the court finds that the determination is not supported by substantial evidence in the record of the proceeding submitted pursuant to paragraph (1), as supplemented by any additional submissions and presentations filed under paragraph (2).".

INDIVIDUALIZED WRITTEN REHABILITATION PROGRAM

SEC. 103. Section 102 of the Rehabilitation Act of 1973 is amended—

(1) in subsection (b) by inserting "and agree to" after "redevelop"; and

(2) by adding at the end the following new subsection:

"(d)(1) The Director of any designated State unit shall establish procedures for the review of determinations made by the rehabilitation counselor or coordinator under this section, upon the request of a handicapped individual (or, in appropriate cases, his parents or guardians). Such procedures shall include a requirement that the final decision concerning the review of any such determination be made in writing by the Director. The Director may not delegate his responsibility to make any such final decision to any other officer or employee of the designated State unit.

"(2) Any handicapped individual (or, in appropriate cases, his parent or guardian) who is not satisfied with the final decision made under paragraph (1) by the Director of the designated State unit may request the Secretary to review such decision. Upon such request the Secretary shall conduct such a review and shall make recommendations to the Director as to the appropriate disposition of the matter. The Secretary may not delegate his responsibilities under this paragraph to any officer of the Department of Health, Education, and Welfare who is employed at a position below that of an Assistant Secretary.".

SCOPE OF SERVICES; TELECOMMUNICATIONS SERVICES

SEC. 104. (a) Section 103(a)(1) of the Rehabilitation Act of 1973 is amended by inserting "mental or" before "emotional".

(b) Section 103(b) of the Rehabilitation Act of 1973 is amended—

(1) in paragraph (1) by striking out "and" after the semicolon;

(2) in paragraph (2) by (A) inserting "(including services offered at rehabilitation facilities)" after "services" and (B) striking out the period and inserting in lieu thereof "; "; and

(3) by adding at the end the following new paragraphs:

"(3) the use of existing telecommunications systems (including telephone, television, satellite, radio, and other similar systems) which have the potential for substantially improving service delivery methods, and the development of appropriate programing to meet the particular needs of handicapped individuals; and

"(4) the use of services providing recorded material for the blind and captioned films or video cassettes for the deaf.".

CLIENT ASSISTANCE

SEC. 105. Section 112(a) of the Rehabilitation Act of 1973 is amended—

(1) by striking out "section 304" in each place it appears and inserting in lieu thereof "section 310";

(2) by striking out "up to $1,500,000" and all that follows through "dispersed regions" and inserting in lieu thereof "no less than $3,500,000 for the fiscal year ending September 30, 1979, and for each of the three succeeding fiscal years, to establish in geographically dispersed regions"; and

(3) by inserting before the period at the end of the first sentence the following: ", including assistance in pursuing legal, administrative, or other appropriate remedies to insure the protection of the rights of such individuals under this Act".

AMERICAN INDIAN VOCATIONAL REHABILITATION SERVICES

SEC. 106. Part D of title I of the Rehabilitation Act of 1973 is amended to read as follows:

"PART D—AMERICAN INDIAN VOCATIONAL REHABILITATION SERVICES

"VOCATIONAL REHABILITATION SERVICES GRANTS

"SEC. 130. (a) The Commissioner, in accordance with the provisions of this part, may make grants to the governing bodies of Indian tribes located on Federal and State reservations to pay 90 percent of the costs of vocational rehabilitation services for handicapped American Indians residing on such reservations.

"(b)(1) No grant may be made under this part for any fiscal year unless an application therefor has been submitted to and approved by the Commissioner. The Commissioner may not approve an application unless the application—

"(A) is made at such time, in such man-

ner, and contains such information as the Commissioner may require;

"(B) contains assurances that the rehabilitation services provided under this part to handicapped American Indians residing on a reservation in a State shall be, to the maximum extent feasible, comparable to rehabilitation services provided under this title to other handicapped individuals residing in the State; and

"(C) contains assurances that the application was developed in consultation with the designated State unit of the State.

"(2) The provisions of sections 5, 6, 7 and 102(a) of the Indian Self-Determination and Education Assistance Act shall be applicable to any application submitted under this part. For purposes of this paragraph, any reference in any such provision to the Secretary of Health, Education, and Welfare or to the Secretary of the Interior shall be considered to be a reference to the Commissioner.

"(3) Any application appproved under this part shall be effective for not less than twelve months except as determined otherwise by the Commissioner pursuant to prescribed regulations. The State shall continue to provide vocational rehabilitation services under its State plan to American Indians residing on a reservation whenever such State includes any such American Indians in its State population under section 110(a)(1)."

"(d) For the purpose of computing the allotment of any State under section 110(a), the number of American Indians residing on a reservation to be served by a grant under this part shall be subtracted from the population used for such State in section 110(a)(1) as follows:

"(1) 33 percent of such American Indians in the first fiscal year during which such Indians are served by grants under this part;

"(2) 66 percent of such American Indians in the second fiscal year during which such Indians are served by grants under this part; and

"(3) 100 percent of such American Indians in the third fiscal year during which such Indians are served by grants under this part.

"(e) The term 'reservation' includes Indian reservations, public domain Indian allotments, former Indian reservations in Oklahoma, and land held by incorporated Native groups, regional corporations, and village corporations under the provisions of the Alaska Native Claims Settlement Act.

"EVALUATION

"SEC. 131. Not less than thirty months after the date of the enactment of the Rehabilitation, Comprehensive Services and Developmental Disabilities Amendments of 1978, the Secretary shall submit to the Congress an evaluation of the programs conducted under this part. Such evaluation shall be conducted by persons other than persons immediately responsible for administration of such programs. Such evaluation shall include—

"(1) an examination of the comparability of vocational rehabilitation services provided under this part to services provided to other handicapped individuals under section 101; and

"(2) An assessment of the extent to which governing bodies of Indian tribes receiving grants under this part have made services under such grants available to all handicapped American Indians residing on reservations served by such grants."

DECLARATION OF PURPOSE

SEC. 107. Section 200 of the Rehabilitation Act of 1973 is amended to read as follows:

"DECLARATION OF PURPOSE

"SEC. 200. The purpose of this title is to—

"(1) provide for a comprehensive and coordinated approach to the administration and conduct of research, demonstration projects, and related activities for the rehabilitation of handicapped individuals, including programs designed to train persons who provide rehabilitation services and persons who conduct research, by authorizing Federal assistance in accordance with a plan for rehabilitation research developed under this title;

"(2) facilitate the distribution of information concerning developments in rehabilitation procedures, methods, and devices to rehabilitation professionals and to handicapped individuals to assist such individuals to live more independently;

"(3) improve the distribution of technological devices and equipment for handicapped individuals by providing financial support for the development and distribution of such devices and equipment; and

"(4) increase the scientific and technological information presently available in the field of rehabilitation.".

RESEARCH AUTHORIZATION

SEC. 108. Section 201(a) of the Rehabilitation Act of 1973 is amended to read as follows:

"SEC. 201. (a) There are authorized to be appropriated—

"(1) for the purpose of providing for the expenses of the National Institute of Handicapped Research under section 202, other than expenses to carry out section 204, such sums as may be necessary for the fiscal year ending September 30, 1979, and for each of the three succeeding fiscal years; and

"(2) for the purpose of carrying out section 204, $50,000,000 for the fiscal year ending September 30, 1979, $75,000,000 for the fiscal year ending September 30, 1980, $90,000,000 for the fiscal year ending September 30, 1981, and $100,000,000 for the fiscal year ending September 30, 1982.".

NATIONAL INSTITUTE OF HANDICAPPED RESEARCH

SEC. 109. The Rehabilitation Act of 1973 is amended—

(1) by repealing section 304 and redesignating section 305 as section 313;

(2) by transferring section 203 to title III and redesignating such section as section 304;

(3) by repealing section 204 and redesignating section 202 as section 204; and

(4) by inserting after section 201 the following new sections:

"NATIONAL INSTITUTE OF HANDICAPPED RESEARCH

"SEC. 202. (a) In order to promote and coordinate research with respect to handicapped individuals and to more effectively carry out the programs under section 204, there is established within the Department of Health, Education, and Welfare a National Institute of Handicapped Research (hereinafter in this title referred to as the 'Institute'), which shall be headed by a Director (hereinafter in this title referred to as the 'Director'). In the performance of his functions, the Director shall be directly responsible to the Secretary or to the same Under Secretary or Assistant Secretary of the Department of Health, Education, and Welfare to whom the Commissioner is responsible under section 3(a) of this Act.

"(b) The Director, through the Institute, shall be responsible for—

"(1) administering the programs described in section 204;

"(2) disseminating information acquired through research funded by the Institute to other Federal, State, and local public agencies and to private organizations engaged in research relating to rehabilitation or providing rehabilitation services;

"(3) coordinating, through the Interagency Committee established by section 203 of this Act, all Federal programs and policies relating to research in rehabilitation;

"(4) disseminating educational materials to primary and secondary schools, institutions of higher education, and to public and private entities concerning how the quality of life of handicapped individuals may be improved;

"(5) conducting an education program to inform the public about ways of providing for the rehabilitation of handicapped individuals, including information relating to family care and self care;

"(6) conducting conferences, seminars, and workshops (including in-service training programs) concerning research and engineering advances in rehabilitation pertinent to the problems of handicapped individuals;

"(7) taking whatever action is necessary to keep the Congress fully and currently informed with respect to the implementation and conduct of programs and activities carried out under this title; and

"(8) producing, in conjunction with the Department of Labor, the National Center for Health Statistics, the Bureau of the Census, the Social Security Administration, and other Federal departments and agencies, as may be appropriate, statistical reports and studies on the employment, health, income, and other demographic characteristics of handicapped individuals and disseminating such reports and studies to rehabilitation professions and others to assist in the planning and evaluation of vocational and other rehabilitation services for the handicapped.

"(c)(1) The Director of the Institute shall be appointed by the President, by and with the advice and consent of the Senate. The Director shall be compensated at the rate payable for level V of the Executive Schedule under section 5316 of title 5, United States Code. In carrying out any of his functions under this section, the Director shall be guided by general policies of the National Council on the Handicapped established in title IV. The Director shall not delegate any of his functions to any officer who is not directly responsible to him.

"(2) There shall be a Deputy Director of the Institute (hereinafter in this section referred to as the 'Deputy Director') who shall be appointed by the Secretary. The Deputy Director shall be compensated at the rate provided for grade GS–17 of the General Schedule under section 5332 of title 5, United States Code, and shall act for the Director during the absence or disability of the Director, exercising such powers as the Director may prescribe. In the case of any vacancy in the office of the Director, the Deputy Director shall serve as Director until a Director is appointed under paragraph (1). The position created by this paragraph shall be in addition to the number of positions placed in grade GS–17 of the General Schedule under section 5108 of title 5, United States Code.

"(3) The Director, subject to the approval of the President, may appoint, for terms not to exceed three years, without regard to the provisions of title 5, United States Code, governing appointment in the competitive service, and may compensate, without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, such technical and professional employees of the Institute as the Director deems necessary to accomplish the functions of the Institute and also appoint and compensate without regard to such provisions in a number not to exceed one-fifth of the number of full-time, regular technical and professional employees of the Institute.

"(4) The Director may obtain the services of consultants, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service.

"(d) The Director, pursuant to regulations which the Secretary shall prescribe, may establish and maintain fellowships with such stipends and allowances, including travel and subsistence expenses provided for under title 5, United States Code, as the Director considers necessary to procure the assistance of highly qualified research fellows from the United States and foreign countries.

"(e) The Director shall, pursuant to regulations which the Secretary shall prescribe, provide for scientific review of all research grants and programs over which he has authority by utilizing, to the maximum extent possible, appropriate peer review groups established within the Institute and composed of non-Federal scientists and other experts in the rehabilitation field.

"(f) Not less than 90 percent of the funds appropriated under paragraph (2) of section 201(a) to carry out section 204 shall be expended by the Director to carry out such section through grants or contracts with qualified public or private agencies and individuals.

"(g) The Director shall develop and submit to appropriate committees of the Congress within eighteen months after the effective date of this section a long-range plan for rehabilitation research which shall—

"(1) identify any research which should be conducted respecting the problems encountered by handicapped individuals in their daily activities, especially problems related to employment;

"(2) determine the funding priorities for research activities under this section and explain the basis for such priorities, including a detailed description of any new types of research recommended under this paragraph for funding; and

"(3) specify appropriate goals and timetables for activities to be conducted under this section.

The plan required by this subsection shall be developed by the Director in consultation with the Commissioner, the National Council on the Handicapped established under title IV, the Commissioner of Education, officials responsible for the administration of the Developmental Disabilities Assistance and Bill of Rights Act, the Interagency Committee established by section 203, and any other persons or entities the Director considers appropriate. Such plan shall be reviewed at least once every three years and may be revised at any time by the Director to the extent he considers necessary.

"(h) In order to promote cooperation among Federal departments and agencies conducting research programs, the Director shall consult with the administrators of such programs, and with the Interagency Committee established by section 203, regarding the design of research projects conducted by such entities and the results and applications of such research.

"(i)(1) The Director shall take whatever actions he considers appropriate to provide for a comprehensive and coordinated research program under this title. In providing such a program, the Director may undertake joint activities with other Federal entities engaged in research and with appropriate private entities. Any Federal entity proposing to establish any research project related to the purposes of this Act shall consult, through the Interagency Committee established by section 203, with the Director in his role of Chairman of such Committee and provide the Director with sufficient prior opportunity to comment on such project.

"(2) Any person responsible for administering any program of the National Institutes of Health, the Veterans' Administration, the National Science Foundation, the National Aeronautics and Space Administration, the Bureau of Education for the Handicapped, or of any other Federal entity, shall through the Interagency committee established by section 203, consult and cooperate with the Director in carrying out such program if the program is related to the purposes of this section.

"INTERAGENCY COMMITTEE

"SEC. 203. (a)(1) In order to promote coordination and cooperation among Federal departments and agencies conducting rehabilitation research programs, there is established within the Federal Government an Interagency Committee on Handicapped Research (hereinafter in this section referred to as the 'Committee'), chaired by the Director and comprised of such members as the President may designate, including the following (or their designees): the Director, the Commissioner, the Commissioner of Education, the Administrator of Veterans' Affairs, the Director of the National Institutes of Health, the Administrator of the National Aeronautics and Space Administration, the Secretary of Transportation, and the Director of the National Science Foundation.

"(2) The Committee shall meet not less than four times each year.

"(b) The Committee shall identify, assess, and seek to coordinate all Federal programs, activities, and projects, and plans for such programs, activities, and projects with respect to the conduct of research related to rehabilitation of handicapped individuals.

"(c) The Committee, not later than eighteen months after the date of enactment of this section, and annually thereafter, shall submit to the President and to the appropriate committees of the Congress a report making such recommendations as the Committee deems appropriate with respect to coordination of policy and development of objectives and priorities for all Federal programs relating to the conduct of research related to rehabilitation of handicapped individuals.".

RESEARCH BY PRIVATE ORGANIZATIONS

SEC. 110. Section 204(a) of the Rehabilitation Act of 1973 (as so redesignated by section 109(3) of this Act) is amended—

(1) by striking out "The Secretary, through the Commissioner, and in coordination with other appropriate programs in the Department of Health, Education, and Welfare, is authorized to" and inserting in lieu thereof "The Director may";

(2) by striking out "public or nonprofit" and inserting in lieu thereof "public or private";

(3) by striking out "provision of vocational rehabilitation services" and inserting in lieu thereof "provision of vocational and other rehabilitation services";

(4) by inserting after "restorative techniques" the following: ", including basic research where related to rehabilitation techniques or services"; and

(5) by inserting ", psychiatric" after "social".

RESEARCH AND TRAINING CENTERS

SEC. 111. Section 204(b) of the Rehabilitation Act of 1973 (as so redesignated by section 109(3) of this Act) is amended—

(1) by striking out "the Secretary, through the Commissioner, and in coordination with other appropriate programs in the Department of Health, Education, and Welfare, is authorized to" and inserting in lieu thereof "the Director may";

(2) by amending paragraph (1) to read as follows:

"(1) Establishment and support of Rehabilitation Research and Training Centers to be operated in collaboration with institutions of higher education for the purpose of (A) providing training (including graduate training) to assist individuals to more effectively provide rehabilitation services, (B) providing coordinated and advanced programs of research in rehabilitation, and (C) providing training (including graduate training) for rehabilitation research and other rehabilitation personnel. The research to be carried out at each Center shall be determined on the basis of the particular needs of handicapped individuals in the geographic area served by the Center, and may include basic or applied medical rehabilitation research, research regarding the psychological and social aspects of rehabilitation, and research related to vocational rehabilitation. The Centers shall be encouraged to develop practical applications for the findings of their research. Grants may include funds for services rendered by such a center to handicapped individuals in connection with such research and training activities.";

(3) in clause (A) of paragraph (2) by inserting "psychiatric," before "psychological"; and

(4) by adding at the end the following new paragraphs:

"(6) Conduct of a research program concerning the use of existing telecommunications systems (including telephone, television, satellite, radio, and other similar systems) which have the potential for substantially improving service delivery methods, and the development of appropriate programing to meet the particular needs of handicapped individuals.

"(7) Conduct of a program of joint projects with the National Institutes of Health, the Health Services Administration, the Administration on Aging, the National Science Foundation, the Veterans' Administration, the Office of Education, the National Aeronautics and Space Administration, other Federal agencies, and private industry in areas of joint interest involving rehabilitation.

"(8) Conduct of a program of research related to the rehabilitation of handicapped children and of handicapped individuals who are aged sixty or older.

"(9) Conduct of a research program to develop and demonstrate innovative methods to attract and retain professionals to serve in rural areas in the rehabilitation of handicapped and severely handicapped individuals.

"(10) Conduct of a model research and demonstration project designed to assess the feasibility of establishing a center for producing and distributing to deaf individuals captioned video cassettes providing a broad range of educational, cultural, scientific, and vocational programing.

"(11) Conduct of a model research and demonstration program to develop innovative methods of providing services for preschool age handicapped children, including the following: (A) early intervention, parent counseling, infant stimulation, early identification, diagnosis, and evaluation of severely handicapped children up to the age of five, with a special emphasis on severely handicapped children up to the age of three; (B) such physical therapy, language development, pediatric, nursing, and psychiatric services as are necessary for such children; and (C) appropriate services for the parents of such children, including psychiatric services, parent counseling, and training.

"(12) Conduct of a model research and training program under which model training centers shall be established to develop and use more advanced and effective methods of evaluating and developing the employment

potential of handicapped individuals, including programs which—

"(A) provide training and continuing education for personnel involved with the employment of handicapped individuals;

"(B) develop model procedures for testing and evaluating the employment potential of handicapped individuals;

"(C) develop model training programs to teach handicapped individuals skills which will lead to appropriate employment;

"(D) develop new approaches for job placement of handicapped individuals, including new followup procedures relating to such placement; and

"(E) provide information services regarding education, training, employment, and job placement for handicapped individuals.".

AUTHORIZATIONS FOR REHABILITATION FACILITIES AND VOCATIONAL TRAINING

SEC. 112. (a)(1) The first sentence of section 301(a) of the Rehabilitation Act of 1973 is amended by striking out "for the fiscal years ending June 30, 1974, June 30, 1975, June 30, 1976, September 30, 1977, and September 30, 1978" and inserting in lieu thereof "for each fiscal year ending before October 1, 1982".

(2) The last sentence of section 301(a) of the Rehabilitation Act of 1973 is amended by striking out "October 1, 1983".

(b) Section 302(a) of the Rehabilitation Act of 1973 is amended to read as follows:

"SEC. 302. (a) For the purpose of making grants and entering into contracts under this section, there are authorized to be appropriated such sums as may be necessary for each fiscal year ending before October 1, 1982.".

LOAN GUARANTEES

SEC. 113. Section 303 of the Rehabilitation Act of 1973 is amended to read as follows:

"LOAN GUARANTEES FOR REHABILITATION FACILITIES

"SEC. 303. (a) It is the purpose of this section to assist and encourage the provision of needed facilities for programs for handicapped individuals primarily served by State rehabilitation programs.

"(b) The Commissioner may, in accordance with this section and subject to section 306, guarantee the payment of principal and interest on loans made to nonprofit private entities by non-Federal leaders and by the Federal Financing Bank for the construction of rehabilitation facilities, including equipment used in their operation.

"(c) In the case of a guarantee of any loan to a nonprofit private entity under this section, the Commissioner shall pay, to the holder of such loan and for and on behalf of the project for which the loan was made, amounts sufficient to reduce by 2 percent per annum the net effective interest rate otherwise payable on such loan. Each holder of a loan which is guaranteed under this section shall have a contractual right to receive from the United States interest payments required by the preceding sentence.

"(d) The cumulative total of the principal of the loans outstanding at any time with respect to which guarantees have been issued, or which have been directly made, may not exceed $100,000,000.

"(e)(1) The Commissioner may not approve a loan guarantee for a project under this section unless he determines that (A) the terms, conditions, security (if any), and schedule and amount of repayments with respect to the loan are sufficient to protect the financial interests of the United States and are otherwise reasonable, including a determination that the rate of interest does not exceed such per centum per annum on the principal obligation outstanding as the Commissioner determines to be reasonable, taking into account the range of interest rates prevailing in the private market for similar loans and the risks assumed by the United States, and (B) the loan would not be available on reasonable terms and conditions without the guarantee under this section.

"(2)(A) The United States shall be entitled to recover from the applicant for a loan guarantee under this section the amount of any payment made pursuant to such guarantee, unless the Commissioner for good cause waives such right of recovery. Upon making any such payment, the United States shall be subrogated to all of the rights of the recipient of the payments with respect to which the guarantee was made.

"(B) To the extent permitted by subparagraph (C), any terms and conditions applicable to a loan guarantee under this section (including terms and conditions imposed under paragraph (1)) may be modified by the Commissioner to the extent he considers consistent with the interests of the United States.

"(C) Any loan guarantee made by the Commissioner under this section shall be incontestable (i) in the hands of an applicant on whose behalf such guarantee is made unless the applicant engaged in fraud or misrepresentation in securing such guarantee, and (ii) as to any person (or his successor in interest) who makes or contracts to make a loan to such applicant in reliance thereon unless such person (or his successor in interest) engaged in fraud or misrepresentation in making or contracting to much such loan.

"(D) Guarantees of loans under this section shall be subject to such further terms and conditions as the Commissioner considers necessary to assure that the purposes of this section will be achieved.

"(f)(1) There is established in the Treasury a loan guarantee fund (hereinafter in this subsection referred to as the 'fund') which shall be available to the Commissioner without fiscal year limitation, in such amounts as may be specified from time to time in appropriation Acts—

"(A) to enable him to discharge his responsibilities under loan guarantees issued by him under this section; and

"(B) for payment of interest under subsection (c) on loans guaranteed under this section.

There are authorized to be appropriated such amounts as may be necessary to provide the sums required for the fund. There shall also be deposited in the fund amounts received by the Commissioner in connection with loan guarantees under this section and other property or assets derived by him from his operations respecting such loan guarantees, including any money derived from the sale of assets.

"(2)(A) If at any time the sums in the fund are insufficient to enable the Commissioner—

"(i) to make payments of interest under subsection (c); or

"(ii) to otherwise comply with guarantees under this section of loans to nonprofit entities;

he is authorized to issue to the Secretary of the Treasury notes or other obligations in such forms and denominations, bearing such maturities, and subject to such terms and conditions, as may be prescribed by the Commissioner with the approval of the Secretary of the Treasury.

"(B) Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States of comparable maturities during the month preceding the issuance of the notes or other obligations.

"(C) The Secretary of the Treasury shall purchase any notes and other obligations issued under this paragraph, and for that purpose he may use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act. The purposes for which securities may be issued under that Act are extended to include any purchase of such notes and obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this paragraph. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as a public debt transaction of the United States.

"(D) Sums borrowed under this paragraph shall be deposited in the fund and redemption of such notes and obligations shall be made by the Commissioner from the fund.".

TRAINING

SEC. 114. Section 304 of the Rehabilitation Act of 1973 (as so redesignated by section 109(2) of this Act) is amended—

(1) in subsection (a)—

(A) by striking out "The Secretary, through the Commissioner, in coordination with other appropriate programs in the Department of Health, Education, and Welfare, is authorized to" and inserting in lieu thereof "The Commissioner may";

(B) by inserting ", medical, social and psychological rehabilitation" after "vocational"; and

(C) by striking out "and" before "in performing" and inserting in lieu thereof the following: ", including personnel specially trained in providing employment assistance to handicapped individuals through job development and job placement services, and personnel trained";

(2) in subsection (b)—

(A) by inserting ", rehabilitation psychiatry" after "work"; and

(B) by inserting after "blind and deaf individuals," the following: "specialized personnel in providing job development and job placement services for handicapped individuals,"; and

(3) by adding at the end the following new subsections:

"(c) The Commissioner shall evaluate the impact of the training programs conducted under this section, shall determine training needs for personnel necessary to provide services to handicapped individuals, and shall develop a long-term rehabilitation manpower plan designed to target resources on areas of personnel shortage.

"(d)(1) For the purpose of training a sufficient number of interpreters to meet the communications needs of deaf individuals, the Secretary, through the Office of Information and Resources for the Handicapped, may award grants under this section to any public or private nonprofit agency or organization to establish interpreter training programs or to provide financial assistance for ongoing interpreter training programs. Not more than twelve programs shall be established or assisted by grants under this section. The Secretary shall award grants for programs in such geographic areas throughout the United States as the Secretary considers appropriate to best carry out the purpose of this section. Priority shall be given to public or private nonprofit agencies or organizations with existing programs that have demonstrated their capacity for providing interpreter training services.

(2) No grant shall be awarded under this section unless the applicant has submitted an application to the Secretary in such form, and in accordance with such procedures, as the Secretary may require. Any such application shall—

"(A) describe the manner in which an interpreter training program would be developed and operated during the five-year period following the award of any grant under this section;

"(B) demonstrate the applicant's capacity or potential for providing training for interpreters for deaf individuals;

"(C) provide assurances that any interpreter trained or retrained under such program shall meet such minimum standards of competency as the Secretary may establish for purposes of this section;

"(D) provide assurances that (i) to the extent appropriate, the applicant shall provide for the training or retraining (including short-term and in-service training) of teachers who are involved in providing instruction to deaf individuals but who are not certified as teachers of deaf individuals, and (ii) funds for such in-service training shall be provided under this section only through funds appropriated under the Education for All Handicapped Children Act; and

"(E) contain such other information as the Secretary may require.

"(d) There are authorized to be appropriated to carry out this section $34,000,000 for the fiscal year ending September 30, 1979, $40,000,000 for the fiscal year ending September 30, 1980, $45,000,000 for the fiscal year ending September 30, 1981, and $50,000,000 for the fiscal year ending September 30, 1982. There are further authorized to be appropriated for each such fiscal year such additional sums as the Congress may determine to be necessary to carry out this section.".

COMPREHENSIVE CENTERS

SEC. 115. (a) The Rehabilitation Act of 1973 is amended by inserting after section 304 the following new section:

"COMPREHENSIVE REHABILITATION CENTERS

"SEC. 305. (a) (1) In order to provide a focal point in communities for the development and delivery of services designed primarily for handicapped persons, the Commissioner may make grants to any designated State unit to establish and operate comprehensive rehabilitation centers. The centers shall be established in order to provide a broad range of services to handicapped individuals, including information and referral services, counseling services, and job placement, health, educational, social, and recreational services, as well as to provide facilities for recreational activities.

"(2) To the maximum extent practicable, such centers shall provide, upon request, to local governmental units and other public and private nonprofit entities located in the area such information and technical assistance (including support personnel such as interpreters for the deaf) as may be necessary to assist those entities in complying with this Act, particularly the requirements of section 504.

"(b) No grant may be made under this section unless an application therefor has been submitted to and approved by the Commissioner. The Commissioner may not approve an application for a grant unless the application—

"(1) contains assurances that the designated State unit will use funds provided by such grant in accordance with subsections (c) and (d); and

"(2) contains such other information, and is submitted in such form and in accordance with such procedures, as the Commissioner may require.

"(c) (1) The designated State unit may—

"(A) in accordance with subsection (e) make grants to units of general purpose local government or to other public or nonprofit private agencies or organizations and may make contracts with any agency or organization to pay not to exceed 80 percent of the cost of—

"(i) leasing facilities to serve as comprehensive rehabilitation centers;

"(ii) expanding, remodeling, or altering facilities to the extent necessary to adapt them to serve as comprehensive rehabilitation centers;

"(iii) operating such centers; or

"(iv) carrying out any combination of the activities specified in this subparagraph; and

"(B) directly carry out the activities described in subparagraph (A), except that not more than 80 percent of the costs of providing any comprehensive rehabilitation center may be provided from funds under this section.

"(3) Funds made available to any designated State unit under this section for the purpose of assisting in the operation of a comprehensive rehabilitation center may be used to compensate professional and technical personnel required to operate the center and to deliver services in the center, and to provide equipment for the center.

"(d) (1) The designated State unit may approve a grant or enter into a contract under subsection (c) only if the application for such grant or contract meets the requirements specified in paragraphs (1), (2), (4), and (5) of section 306(b) and if the application contains assurances that any facility assisted by such grant for contract shall be in reasonably close proximity to the majority of individuals eligible to use the comprehensive rehabilitation center.

"(2) Any designated State unit which directly provides for comprehensive rehabilitation centers under subsection (c) (1) (B) shall use funds under this section in the same manner as any other grant recipient is required to use such funds.

"(e) If within 20 years after the completion of any construction project for which funds have been paid under this section—

"(1) the owner of the facility ceases to be a public or nonprofit private agency or organization, or

"(2) the facility ceases to be used for the purposes for which it was leased or constructed (unless the Commissioner determines, in accordance with regulations, that there is good cause for releasing the applicant or other owner from the obligation to do so),

the United States shall be entitled to recover from the grant recipient or other owner of the facility an amount which bears the same ratio to the value of the facility (or so much thereof as constituted an approved project or projects) at the time the United States seeks recovery as the amount of such Federal funds bore to the cost of renovating the facility under subsection (c) (1) (A) (ii). Such value shall be determined by agreement of the parties or by action brought in the United States district court for the district in which such facility is situated.

"(f) The requirements of section 306 shall not apply to funds allotted under this section, except that subsections (g) and (h) of such section shall be applicable with respect to such funds.

"(g) There are authorized to be appropriated to carry out this section such sums as may be necessary for the fiscal year ending September 30, 1979, and for the three succeeding fiscal years.".

(b) Section 306(a) of the Rehabilitation Act of 1973 is amended by inserting in the first sentence before the period ", except as otherwise provided in section 305(g)".

SPECIAL FEDERAL RESPONSIBILITIES

SEC. 116. Title III of the Rehabilitation Act of 1973 is amended—

(1) by inserting after the title heading the following:

"PART A—CONSTRUCTION AND TRAINING PROGRAMS

and

(2) by adding after section 306 the following new part:

"PART B—SPECIAL PROJECTS AND SUPPLEMENTARY SERVICES

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 310. (a) For the purpose of carrying out this part (other than section 313), there are authorized to be appropriated such sums as may be necessary for each fiscal year ending before October 1, 1982.

"(b) Of the amounts appropriated for any fiscal year under subsection (a), 5 percent of such amount shall be available in such fiscal year only for the purpose of making grants under section 312. There is further authorized to be appropriated for each such fiscal year such additional amount as may be necessary to equal, when added to the amount made available for the purpose of making grants under section 312, an amount of $5,000,000 for each such fiscal year.

"SPECIAL DEMONSTRATION PROGRAMS

"SEC. 311. (a) Subject to the provisions of section 306, the Commissioner may make grants to States and to public or nonprofit agencies and organizations to pay part or all of the costs of special projects and demonstrations (including related research and evaluation) for—

"(1) establishing programs and, where appropriate, constructing facilities for providing vocational rehabilitation services, which hold promise of expanding or otherwise improving rehabilitation services to handicapped individuals (especially those with the most severe handicaps), including individuals with spinal cord injuries and blind or deaf individuals, irrespective of age or vocational potential, who can benefit from comprehensive services;

"(2) applying new types or patterns of services or devices for handicapped individuals (including programs for providing handicapped individuals, or other individuals in programs servicing handicapped individuals), with opportunities for new careers; and

"(3) operating programs and, where appropriate, renovating and constructing facilities to demonstrate methods of making recreational activities fully accessible to handicapped individuals.

"(b) Any project or demonstration assisted by a grant under this section which provides services to individuals with spinal cord injuries shall—

"(1) establish, on an appropriate regional basis, a multidisciplinary system of providing vocational and other rehabilitation services, specifically designed to meet the special needs of individuals with spinal cord injuries, including acute care as well as periodic inpatient or outpatient followup and services;

"(2) demonstrate and evaluate the benefits to individuals with spinal cord injuries served in, and the degree of cost effectiveness of, such a regional system;

"(3) demonstrate and evaluate existing, new, and improved methods and equipment essential to the care, management, and rehabilitation of individuals with spinal cord injuries; and

"(4) demonstrate and evaluate methods of community outreach for individuals with spinal cord injuries and community education in connection with the problems of such individuals in areas such as housing, transportation, recreation, employment, and community activities.

"MIGRATORY WORKERS

"SEC. 312. The Commissioner, subject to the provisions of section 306, is authorized to make grants to any State agency desig-

nated pursuant to a State plan approved under section 101, or to any local agency participating in the administration of such a plan, to pay up to 90 per centum of the cost of projects or demonstrations for the provision of vocational rehabilitation services to handicapped individuals, as determined in accordance with rules prescribed by the Secretary of Labor, who are migratory agricultural workers or seasonal farmworkers, and to members of their families (whether or not handicapped) who are with them, including maintenance and transportation of such individuals and members of their families where necessary to the rehabilitation of such individuals. Maintenance payments under this section shall be consistent with any maintenance payments made to other handicapped individuals in the State under this Act. Such grants shall be conditioned upon satisfactory assurance that in the provision of such services there will be appropriate cooperation between the grantee and other public or nonprofit agencies and organizations having special skills and experience in the provision of services to migratory agricultural workers, seasonal farmworkers, or their families. This section shall be administered in coordination with other programs serving migrant agricultural workers and seasonal farmworkers, including programs under title I of the Elementary and Secondary Education Act of 1965, section 311 of the Economic Opportunity Act of 1964, the Migrant Health Act, and the Farm Labor Contractor Registration Act of 1963.

"HELEN KELLER NATIONAL CENTER

"Sec. 313. (a) The purpose of this section is to provide for the establishment and operation of the Helen Keller National Center for Deaf-Blind Youths and Adults. Any funds appropriated under this part for construction of the Center shall remain available until expended.

"(b) In order—

"(1) to demonstrate methods of (A) providing the specialized intensive services, and other services, needed to rehabilitate handicapped individuals who are both deaf and blind, and (B) training the professional and allied personnel needed adequately to staff facilities specifically designed to provide such services and training to such personnel who have been or will be working with deaf-blind individuals;

"(2) to conduct research in the problems of, and ways of meeting the problems of rehabilitating, deaf-blind individuals; and

"(3) to aid in the conduct of related activities which will expand or improve the services for or help improve public understanding of the problems of deaf-blind individuals;

the Secretary, subject to the provisions of section 305, is authorized to enter into an agreement with any public or nonprofit agency or organizations for payment by the United States of all or part of the costs of the establishment and operation, including construction and equipment, of a center for vocational rehabilitation of handicapped individuals who are both deaf and blind, which center shall be known as the Helen Keller National Center for Deaf-Blind Youths and Adults.

"(c) Any agency or organization desiring to enter into such agreement shall submit a proposal therefor at such time, in such manner, and containing such information as may be prescribed in regulations by the Secretary. In considering such proposals the Secretary shall give preference to proposals which (1) give promise of maximum effectiveness in the organization and operation of the Helen Keller National Center, and (2) give promise of offering the most substantial skill, experience, and capability in providing a broad program of service, research, training, and related activities in the field of rehabilitation of deaf-blind individuals.

"(d) To the extent feasible the Helen Keller National Center for Deaf-Blind Youths and Adults shall seek to recover from States, private insurers, and other participating public and private agencies the costs of services and provided to individuals by the Center.

"(e) There are authorized to be appropriated to carry out this section such sums as may be necessary for each fiscal year beginning before October 1, 1982.

"READER SERVICES FOR THE BLIND

"Sec. 314. (a) The Commissioner may award grants to States or to private nonprofit agencies or organizations of national scope (as so determined by the Commissioners) to—

"(1) provide reading services to blind persons who are not otherwise eligible for such services through other State or Federal programs; and

"(2) expand the quality and scope of reading services available to blind persons, and to assure to the maximum extent possible that the reading services provided under this Act will meet the reading need of blind persons attending institutions providing elementary, secondary, or post-secondary education, and will be adequate to assist blind persons to obtain and continue in employment.

Any State which receives a grant under this section shall administer the reading services for which such grant is awarded through the designated State unit of the State.

"(b) No grant shall be awarded under this section unless the applicant has submitted an application to the Secretary in such form, at such time, and containing such information as the Secretary may require.

"(c) For purposes of this section, the term 'reading services' means—

"(1) the employment of persons who, by reading aloud, can afford blind persons ready access to printed information;

"(2) the transcription of printed information into braille or sound recordings if such transcription is performed pursuant to individual requests from blind persons for such services;

"(3) the storage and distribution of braille materials and sound recordings;

"(4) the purchase, storage, and distribution of equipment and materials necessary for the production, duplication, and reproduction of braille materials and sound recordings;

"(5) the purchase, storage, and distribution of equipment to blind persons to provide them with individual access to printed materials by mechanical or electronic means; and

"(6) radio reading services for blind persons.

"INTERPRETER SERVICES FOR THE DEAF

"Sec. 315. (a) The Commissioner may make grants to designated State units to establish within each State a program of interpreter services (including interpreter referral services) which shall be made available to deaf individuals and to any public agency or private nonprofit organization involved in the delivery of assistance or services to deaf individuals.

"(b) No grant may be made under this section unless an application therefor, is submitted to the Commissioner in such form, at such times, and in accordance with such procedures as the Commissioner may require. Such application shall—

"(1) provide assurances that the program to be conducted under this section will be operated in areas within the State which are specifically selected to provide convenient locations for the provision of services to the maximum number of deaf individuals feasible;

"(2) include a plan which describes, in sufficient detail, the manner in which interpreter referral services will be coordinated with the information and referral programs required under section 101(a)(22);

"(3) provide assurances that the program will seek to enter into contractual or other arrangements, to the extent appropriate, with private nonprofit organizations comprised of primarily hearing-impaired individuals (or private nonprofit organizations which have the primary purpose of providing assistance or services to hearing-impaired individuals) for the operation of such programs;

"(4) provide that any interpreter participating in the program shall be required to meet minimum standards established by the Commissioner; and

"(5) contain such other information as the Secretary may require.

"(c) Any designated State unit receiving funds under this section may provide interpreter services, without cost, for a period of not to exceed one year to any public agency or private nonprofit organization which provides assistance to deaf individuals. At the end of such period, agencies or organizations receiving such services through referrals shall reimburse the designated State unit for the costs of such services. Funds may also be used for the purchase or rental of equipment necessary to provide assistance or services to deaf individuals.

"(d) Funds provided to any designated State unit for any program under this section shall not be used for any administrative or related costs, nor shall such funds be used for assistance to deaf individuals who are receiving rehabilitation services under any other provision of this Act.".

"SPECIAL RECREATIONAL PROGRAMS

"Sec. 316. The Commissioner, subject to the provisions of section 306, shall make grants to State and public nonprofit agencies and organizations for paying part or all of the cost of initiation of recreation programs to provide handicapped individuals with recreational activities to aid in the mobility and socialization of such individuals. The activities authorized to be assisted under this section may include, but are not limited to, scouting and camping, 4-H activities, sports, music, dancing, handicrafts, art, and homemaking. No grant may be made under the provisions of this section unless the agreement with respect to such grant contains provisions to assure that, to the extent possible, existing resources will be used to carry out the activities for which the grant is to be made, and that with respect to children the activities for which the grant is to be made will be conducted after school.

NATIONAL COUNCIL ON THE HANDICAPPED

Sec. 117. The Rehabilitation Act of 1973 is amended by striking out title IV and inserting in lieu thereof the following new title:

"TITLE IV—NATIONAL COUNCIL ON THE HANDICAPPED

"ESTABLISHMENT OF NATIONAL COUNCIL ON THE HANDICAPPED

"Sec. 400. (a) There is established within the Department of Health, Education, and Welfare a National Council on the Handicapped (hereinafter in this title referred to as the 'National Council'), which shall be composed of fifteen members appointed by the President, by and with the advice and consent of the Senate. The members of the National Council shall be appointed so as to be representative of handicapped individuals, national organizations concerned with the handicapped, providers and administrators of services to the handicapped, individuals engaged in conducting medical or scientific research relating to handicapped individuals, business concerns, and labor organizations. At least five members of the National Council shall be handicapped individuals, or parents or guardians of handicapped individuals.

"(b)(1) Members of the National Council shall be appointed to serve for terms of three

years, except that of the members first appointed—

"(A) five shall serve for terms of one year,

"(B) five shall serve for terms of two years, and

"(C) five shall serve for terms of three years,

as designated by the President at the time of appointment.

"(2) Members may be reappointed and may serve after the expiration of their terms until their successors have taken office.

"(3) Any member appointed to fill a vacancy occurring before the expiration of the term for which his predecessor was appointed shall be appointed only for the remainder of such term.

"(c) The President shall designate the Chairman from among the members appointed to the National Council. The National Council shall meet at the call of the Chairman, but not less often than four times each year.

"(d) Eight members of the National Council shall constitute a quorum and any vacancy in the National Council shall not affect its power to function.

"DUTIES OF NATIONAL COUNCIL

"SEC. 401. The National Council shall—

"(1) establish general policies for, and review the operation of, the National Institute of Handicapped Research;

"(2) provide advice to the Commissioner with respect to the policies of and conduct of the Rehabilitative Services Administration;

"(3) advise the Commissioner, the appropriate Assistant Secretary of the Department of Health, Education, and Welfare, and the Director of the National Institute of Handicapped Research on the development of the programs to be carried out under this Act;

"(4) review and evaluate on a continuing basis all policies, programs, and activities concerning handicapped individuals, and persons with developmental disabilities conducted or assisted by Federal departments and agencies, including programs established or assisted under this Act or under the Developmental Disabilities Assistance and Bill of Rights Act, in order to assess the effectiveness of such policies, programs, and activities in meeting the needs of handicapped individuals;

"(5) make recommendations to the Secretary, the Commissioner, and the Director of the National Institute of Handicapped Research respecting ways to improve research concerning handicapped individuals, the admiration of services for handicapped individuals, and the methods of collecting and disseminating the findings of such research, and make recommendations for facilitating the implementation of programs based upon such findings; and

"(6) submit not later than March 31 of each year (beginning in 1980) an annual report to the Secretary, the Congress, and the President, containing (A) a statement of the current status of research concerning the handicapped in the United States, (B) a review of the activities of the Rehabilitation Services Administration and the National Institute of Handicapped Research, and (C) such recommendations respecting the items described in clauses (A) and (B) as the National Council considers appropriate.

"COMPENSATION OF NATIONAL COUNCIL MEMBERS

"SEC. 402. (a) Members of the National Council shall be entitled to receive compensation at a rate equal to the rate of basic pay payable for grade GS–18 of the General Schedule under section 5332 of title 5, United States Code, including traveltime, for each day they are engaged in the performance of their duties as members of the National Council.

"(b) Members of the National Council who are full-time officers or employees of the United States shall receive no additional pay on account of their service on the National Council except for compensation for travel expenses as provided under subsection (c) of this section.

"(c) While away from their homes or regular places of business in the performance of services for the National Council, members of the National Council shall be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in the Government service are allowed expenses under section 5703 of title 5, United States Code.

"STAFF OF NATIONAL COUNCIL

"SEC. 403. (a) The National Council may appoint, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, or the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, up to seven technical and professional employees to assist the National Council to carry out its duties.

"(b) The National Council may procure temporary and intermittent services to the same extent as is authorized by section 3109 (b) of title 5, United States Code (but at rates for individuals not to exceed the daily equivalent of the annual rate of basic pay payable for grade GS–18 of the General Schedule under section 5332 of title 5, United States Code).

"(c) The Administrator of General Services shall provide to the National Council on a reimbursable basis such administrative support services as the Council may request.

"ADMINISTRATIVE POWERS OF NATIONAL COUNCIL

"SEC. 404. (a) The National Council may prescribe such bylaws and rules as may be necessary to carry out its duties under this title.

"(b) The National Council may hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence as it deems advisable.

"(c) The National Council may appoint advisory committees to assist the National Council in carrying out its duties. The members thereof shall serve without compensation.

"(d) The National Council may use the United States mails in the same manner and upon the same conditions as other departments and agencies of the United States.

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 405. There are authorized to be appropriated to carry out this title such sums as may be necessary.".

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

SEC. 118. (a)(1) Section 502(a) of the Rehabilitation Act of 1973 is amended to read as follows:

"SEC. 502. (a)(1) There is established within the Federal Government the Architectural and Transportation Barriers Compliance Board (hereinafter referred to as the 'Board') which shall be composed as follows:

"(A) Eleven members shall be appointed by the President from among members of the general public of whom five shall be handicapped individuals.

"(B) The remaining members shall be the heads of each of the following departments or agencies (or their designee whose positions are executive level IV or higher):

"(i) Department of Health, Education, and Welfare.

"(ii) Department of Transportation.

"(iii) Department of Housing and Urban Development.

"(iv) Department of Labor.

"(v) Department of the Interior.

"(vi) Department of Defense.

"(vii) Department of Justice.

"viii) General Services Administration.

"(ix) Veterans' Administration.

"(x) United States Postal Service.

The President shall appoint the first Chairman of such Board who shall serve for a term of not more than two years; thereafter, the Chairman shall be elected by a vote of a majority of the Board for a term of one year.

"(2) The term of office of each appointed member of the Board shall be three years; except that (i) the members first taking office shall serve, as designated by the President at the time of appointment, four for a term of one year, four for a term of two years, and three for a term of three years, and (ii) any member appointed to fill a vacancy shall serve for the remainder of the term for which his predecessor was appointed.

"(3) If any appointed member of the Board becomes a Federal employee, such member may continue as a member of the Board for not longer than the sixty-day period beginning on the date he becomes such an employee.

"(4) No individual appointed under paragraph (1)(A) of this subsection who has served as a member of the Board may be reappointed to the Board more than once unless such individual has not served on the Board for a period of two years prior to the effective date of such individual's appointment.

"(5)(A) Members of the Board who are not regular full-time employees of the United States shall, while serving on the business of the Board, be entitled to receive compensation at rates fixed by the President, but not to exceed the daily rate prescribed for GS–18 under section 5332 of title 5, United States Code, including traveltime, for each day they are engaged in the performance of their duties as members of the Board; and shall be entitled to reimbursement for travel, subsistence, and other necessary expenses incurred by them in carrying out their duties under this section.

"(B) Members of the Board who are employed by the Federal Government shall serve without compensation, but shall be reimbursed for travel, subsistence, and other necessary expenses incurred by them in carrying out their duties under this section.".

(b)(1) Section 502(b)(1) of the Rehabilitation Act of 1973 is amended to read as follows: "(1) insure compliance with the standards prescribed pursuant to the Act of August 12, 1968, commonly known as the Architectural Barriers Act of 1968 (including the application of that Act to the United States Postal Service) including but not limited to enforcing all standards under that Act, and insuring that all waivers and modifications of standards are based upon findings of fact and are not inconsistent with the provisions of such Act and this section;".

(2) Section 502(b)(2) of the Rehabilitation Act of 1973 is amended by inserting "communication," before "and attitudinal", and by inserting "telecommunication devices," before "public buildings"; and

(3) Section 502(b) of the Rehabilitation Act of 1973 is amended by striking out "and" at the end of clause (5), by striking out the period at the end of clause (6) and inserting in lieu thereof a semicolon, and by adding at the end thereof the following new clauses: "(7) establish minimum guidelines and requirements for the standards issued pursuant to the Act of August 12, 1968, as amended, commonly known as the Architectural Barriers Act of 1968; and (8) insure that public conveyances, including rolling stock, are readily accessible to, and usable by, physically handicapped persons.".

(c)(1) The first sentence of section 502(d) of the Rehabilitation Act of 1973 is amended by striking out "or contracts with"

and by inserting after "organizations" "or contracts with private nonprofit or for-profit organizations".

(2) The second sentence of section 502(d) of the Rehabilitation Act of 1973 is amended by striking out "The" and inserting in lieu thereof "Except as provided in paragraph (3) of subsection (e), the".

(3) The last sentence of section 502(d) of the Rehabilitation Act of 1973 is amended by inserting "or public conveyance or rolling stock" after "building" and by striking out "prescribed pursuant to the Act cited in subsection (b) of this section 55 and inserting in lieu thereof "enforced under this section".

(4) Section 502(d) of the Rehabilitation Act of 1973 is amended by adding at the end thereof the following new sentences: "Pursuant to chapter 7 of title 5, United States Code, any complainant or participant in a proceeding under this subsection may obtain review of a final order issued in such proceeding.

(5) Section 502(a) of the Rehabilitation Act of 1973 is further amended by inserting "(1)" after the subsection designation and by adding at the end thereof the following new paragraphs:

"(2) The executive director is authorized, at the direction of the Board—

"(A) to bring a civil action in any appropriate United States district court to enforce, in whole or in part, any final order of the Board under this subsection; and

"(B) to intervene, appear, and participate, or to appear as amicuscuriae, in any court of the United States or in any court of a State in civil actions which related to this section or to the Architectural Barriers Act of 1968.

Except as provided in section 518(a) of title 28, United States Code, relating to litigation before the Supreme Court, the executive director may appear for and represent the Board in any civil litigation brought under this section.".

"(3) The Board, in consultation and coordination with other concerned Federal departments and agencies and agencies within the Department of Health, Education, and Welfare, shall develop standards and provide appropriate technical assistance to any public or private activity, person, or entity affected by regulations prescribed pursuant to this title with respect overcoming to architectural, transportation, and communication barriers. Any funds appropriated to any such department or agency for the purpose of providing such assistance may be transferred to the Board for the purpose of carrying out this paragraph. The Board may arrange to carry out its responsibilities under this paragraph through such other departments and agencies for such periods as the Board determines is appropriate. In carrying out its technical assistance responsibilities under this paragraph, the Board shall establish a procedure to insure separation of its compliance and technical assistance responsibilities under this section.".

(d) Section 502(e) of the Rehabilitation Act of 1973 is amended by inserting "(1)" after the subsection designation and by adding at the end thereof the following new paragraphs:

"(2) The Executive Director shall exercise general supervision over all personnel employed by the Board (other than hearing examiners and their assistants). The Executive Director shall have final authority on behalf of the Board, with respect to the investigation of alleged noncompliance in the issuance of formal complaints before the Board, and shall have such other duties as the Board may prescribe.

"(3) For the purpose of this section, an order of compliance issued by a hearing examiner shall be deemed to be an order of the Board and shall be the final order for the purpose of judicial review.".

(e) Section 502 of the Rehabilitation Act of 1973 is amended by striking out subsection (h) and inserting in lieu thereof the following new subsections:

"(h)(1) Within one year following the enactment of this subsection, the Board shall submit to the President and the Congress a report containing an assessment of the amounts required to be expended by States and by political subdivisions thereof to provide handicapped individuals with full access to all programs and activities receiving Federal assistance.

"(2) The Board may make grants to, or enter into contracts with, public or private organizations to carry out its duties under subsections (b) and (c). The Board may also make grants to any designated State unit for the purpose of conducting studies to provide the cost assessments required by paragraph (1). Before including in such report the findings of any study conducted for the Board under a grant or contract to provide the Board with such cost assessments, the Board shall take all necessary steps to validate the accuracy of any such findings.

"(i) There are authorized to be appropriated for the purpose of carrying out the duties and functions of the Board under this section such sums as may be necessary for each fiscal year ending before October 1, 1982, but in no event shall the amount appropriated for any one fiscal year exceed $3,000,000.".

NONDISCRIMINATION UNDER FEDERAL PROGRAMS AND ACTIVITIES

SEC. 119. Section 504 of the Rehabilitation Act of 1973 is amended—

(1) in the section heading by inserting "and programs" after "grants"; and

(2) by striking out the period at the end thereof and inserting in lieu thereof "or under any program or activity conducted by any Executive agency or by the United States Postal Service. The head of each such agency shall promulgate such regulations as may be necessary to carry out the amendments to this section made by the Rehabilitation, Comprehensive Services, and Developmental Disabilities Act of 1978. Copies of any proposed regulation shall be submitted to appropriate authorizing committees of the Congress, and such regulation may take effect no earlier than the thirtieth day after the date on which such regulation is so submitted to such committees.".

NONDISCRIMINATION PROVISIONS; INTERAGENCY COUNCIL; SECRETARIAL DUTIES

SEC. 120. (a) Title V of the Rehabilitation Act of 1973 is amended by adding at the end thereof the following new sections:

"REMEDIES AND ATTORNEYS' FEES

"SEC. 505. (a)(1) The remedies, procedures, and rights set forth in section 717 of the Civil Rights Act of 1964 (42 U.S.C. 2000e–16), including the application of sections 706(f) through 706(k) (42 U.S.C. 2000e–5(f) through (k)), shall be available, with respect to any complaint under section 501 of this Act, to any employee or applicant for employment aggrieved by the final disposition of such complaint, or by the failure to take final action on such complaint. In fashioning an equitable or affirmative action remedy under such section, a court may take into account the reasonableness of the cost of any necessary work place accommodation, and the availability of alternatives therefor or other appropriate relief in order to achieve an equitable and appropriate remedy.

"(2) The remedies, procedures, and rights set forth in title VI of the Civil Rights Act of 1964 shall be available to any person aggrieved by any act or failure to act by any recipient of Federal assistance or Federal provider of such assistance under section 504 of this Act.

"(b) In any action or proceeding to enforce or charge a violation of a provision of this title, the court, in its discretion, may allow the prevailing party, other than the United States, a reasonable attorney's fee as part of the costs.

"SECRETARIAL RESPONSIBILITIES

"SEC. 506. (1) The Secretary may provide directly or by contract with State vocational rehabilitation agencies or experts or consultants or groups thereof, technical assistance—

"(A) to persons operating rehabilitation facilities; and

"(B) with the concurrence of the Board established by section 502, to any public or nonprofit agency, institution, or organization;

for the purpose of assisting such persons or entities in removing architectural, transportation, or communication barriers. Any concurrence of the Board under this paragraph shall reflect its consideration of the cost studies carried out by States under section 502(c)(1).

"(2) Any such experts or consultants, while serving pursuant to such contracts, shall be entitled to receive compensation at rates fixed by the Secretary, but not exceeding the daily equivalent of the rate of basic pay payable for grade GS–18 of the General Schedule, under section 5332 of title 5, United States Code, including traveltime, and while so serving away from their homes or regular places of business, they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently.

"(3) The Secretary, with the concurrence of the Board and the President may provide, directly or by contract, financial assistance to any public or nonprofit agency, institution, or organization for the purpose of removing architectural, transportation, and communication barriers. No assistance may be provided under this paragraph until a study demonstrating the need for such assistance has been conducted and submitted under section 502(h)(2) of this title.

"(4) In order to carry out this section, there are authorized to be appropriated such sums as may be necessary.

"INTERAGENCY COORDINATING COUNCIL

"SEC. 507. There shall be established an Interagency Coordinating Council (hereinafter referred to in this section as the 'Council') composed of the Secretary of Health, Education, and Welfare, the Secretary of Labor, the Attorney General, the Chairman of the United States Civil Service Commission, the Chairman of the Equal Employment Opportunity Commission, and the Chairman of the Architectural and Transportation Barriers Compliance Board. The Council shall have the responsibility for developing and implementing agreements, policies, and practices designed to maximize effort, promote efficiency, and eliminate conflict, competition, duplication, and inconsistencies among the operations, functions, and jurisdictions of the various departments, agencies, and branches of the Federal Government responsible for the implementation and enforcement of the provisions of this title, and the regulations prescribed thereunder. On or before July 1 of each year, the Council shall transmit to the President and to the Congress a report of its activities, together with such recommendations for legislative or administrative changes as it concludes are desirable to further promote the purposes of this section. Nothing in this section shall impair any responsibilities assigned by any Executive order to any Federal department, agency, or instrumentality to act as a lead Federal agency with respect to any provisions of this title.".

APPLICATION OF OTHER LAWS

SEC. 121. The Rehabilitation Act of 1973 is amended by inserting after section 10 the following new section:

"APPLICATION OF OTHER LAWS

"SEC. 11. The provisions of the Act of December 5, 1974 (Public Law 93-510) and of title V of the Act of October 15, 1977 (Public Law 95-134) shall not apply to the administration of the provisions of this Act or to the administration of any program or activity under this Act.".

MISCELLANEOUS AND TECHNICAL AMENDMENTS

SEC. 122. (a) The Rehabilitation Act of 1973 is amended—

(1) by amending section 2 to read as follows:

"DECLARATION OF PURPOSE

"SEC. 2. The purpose of this Act is to develop and implement, through research, training, services, and the guarantee of equal opportunity, comprehensive and coordinated programs of vocational rehabilitation and independent living.".

(2) in section 3(a) by inserting "and part A of title VI" after "titles IV and V", and by inserting at the end thereof the following: "Any reference in this Act to duties to be carried out by the Commissioner shall be considered to be a reference to duties to be carried out by the Secretary acting through the Commissioner. In carrying out any of his functions under this Act, the Commissioner shall be guided by general policies of the National Council on the Handicapped established under title IV of this Act.";

(3) by striking out section 3(b) and redesignating section 3(c) as 3(b);

(4) in section 7(3) by striking out "and the initial equipment" and all that follows through the period and inserting in lieu thereof "and may include such additional equipment and staffing as the Commissioner considers appropriate.";

(5) in section 7(4)(B) by inserting after "medical" a comma and the word "psychiatric";

(6) in section 7(6)—

(A) by striking out "The term" and inserting in lieu thereof: "(A) Except as otherwise provided in subparagraph (B), the term";

(B) by striking out "(A)" after "individual who" and inserting in lieu thereof "(i)" and by striking out "(B)" after "and" and inserting in lieu thereof "(ii)"; and

(C) by striking out the last sentence and by adding at the end the following new subparagraph:

"(B) Subject to the second sentence of this subparagraph, the term 'handicapped individual' means, for purposes of titles IV and V of this Act, any person who (i) has a physical or mental impairment which substantially limits one or more of such person's major life activities, (ii) has a record of such an impairment, or (iii) is regarded as having such an impairment. For purposes of sections 503 and 504 as such sections relate to employment, such term does not include any individual who is an alcoholic or drug abuser whose current use of alcohol or drugs prevents such individual from performing the duties of the job in question or whose employment, by reason of such current alcohol or drug abuse, would constitute a direct threat to property or the safety of others.";

(7) in section 7(10)—

(A) by inserting "psychiatric" after "medical" in subparagraph (A) thereof; and

(B) by inserting "psychiatric," before "psychological" in subparagraph (B) thereof;

(8) in section 7 by (A) redesignating paragraphs (3) through (14) as paragraphs (4) through (15), respectively, and (B) inserting after paragraph (2) the following new paragraph:

"(3) The term 'designated State unit' means (A) any State agency unit required under section 101(a)(2)(A) of this Act, or (B) in cases in which no such unit is so required, the State agency described in section 101(a)(B)(i) of this Act.";

(10) in section 10 by inserting before the period at the end thereof the following: ", except that this section shall not be construed to limit or reduce fees for services rendered by rehabilitation facilities";

(11) by adding after section 11 (as added by section 121 of this Act) the following new sections:

"ADMINISTRATION OF THE ACT

"SEC. 12. (a) In carrying out the purposes of this Act, the Commissioner may—

"(1) provide consultative services and technical assistance to public or nonprofit private agencies and organizations;

"(2) provide short-term training and technical instruction;

"(3) conduct special projects and demonstrations;

"(4) collect, prepare, publish, and disseminate special educational or informational materials, including reports of the projects for which funds are provided under this Act; and

"(5) provide staff and other technical assistance to the National Council on the Handicapped.

"(b) In carrying out his duties under this Act, the Commissioner may utilize the services and facilities of any agency of the Federal Government and of any other public or nonprofit agency or organization, in accordance with agreements between the Commissioner and the head thereof, and may pay therefor, in advance or by way of reimbursement, as may be provided in the agreement.

"(c) The Commissioner may promulgate such regulations as he considers appropriate to carry out his duties under this Act.

"(d) There are authorized to be appropriated to carry out this section such sums as may be necessary.

"REPORTS

"SEC. 13. Not later than one hundred and twenty days after the close of each fiscal year, the Commissioner shall prepare and submit to the President for transmittal to to the Congress a full and complete report on the activities carried out under this Act. Such annual reports shall include statistical data reflecting services and activities provided individuals during the preceding fiscal year.

"EVALUATION

"SEC. 14. (a) The Secretary shall evaluate the impact of all programs authorized by this Act, their general effectiveness in achieving stated goals, and their effectiveness in relation to their cost, their impact on related programs, and their structure and mechanisms for delivery of services, including, where appropriate, comparisons with appropriate control groups composed of persons who have not participated in such programs. Evaluations shall be conducted by persons not immediately involved in the administration of the program or project evaluated.

"(b) In carrying out evaluations under this section, the Secretary shall, whenever possible, arrange to obtain the opinions of program and project participants about the strengths and weaknesses of the programs and projects.

"(c) The Secretary shall annually publish summaries of the results of evaluative research and evaluation of program and project impact and effectiveness, the full contents of which shall be available to the Congress and the public.

"(d) The Secretary shall take the necessary action to assure that all studies, evaluations, proposals, and data produced or developed with Federal funds shall become the property of the United States.

"(e) Such information as the Secretary may deem necessary for purposes of the evaluations conducted under this section shall be made available to him, upon request, by the departments and agencies of the executive branch.

"(f) There are authorized to be appropriated to carry out this section such sums as may be necessary.

"INFORMATION CLEARINGHOUSE

"SEC. 15. (a) The Secretary may establish a central clearinghouse for information and resource availability for handicapped individuals which shall provide information and data regarding (1) the location, provision, and availability of services and programs for handicapped individuals, (2) research and recent medical and scientific developments bearing on handicapping conditions (and their prevention, amelioration, causes, and cures), and (3) the current numbers of handicapped individuals and their needs. The clearinghouse shall also provide any other relevant information and data which the Secretary considers appropriate.

"(b) The Commissioner may assist the Secretary to develop within the Department of Health, Education, and Welfare a coordinated system of information and data retrieval, which will have the capacity and responsibility to provide information regarding the information and data referred to in subsection (a) of this section to the Congress, public and private agencies and organizations, handicapped individuals and their families, professionals in fields serving such individuals, and the general public.

"(c) Any office established to carry out the provisions of this section shall be known as the 'Office of Information and Resources for the Handicapped'.

"(d) There are authorized to be appropriated to carry out this section such sums as may be necessary.

"TRANSFER OF FUNDS

"SEC. 16. No funds appropriated under this Act for any research program or activity may be used for any purpose other than that for which the funds were specifically authorized.".

(b) Title I of the Rehabilitation Act of 1973 is further amended—

(1) in parts A through C by striking out "Secretary" in each place it appears and inserting in lieu thereof "Commissioner"; and

(2) in section 121(a) by inserting after the first sentence the following new sentence: "Payments may also be made under this section for the costs of the construction of facilities to be used in providing services under such State plan if provision for such construction is included in such State plan.".

(c) Title III of the Rehabilitation Act of 1973 is further amended—

(1) in section 300—

(A) by adding before the semicolon in paragraph (1) the following: "and authorize such staffing as the Commission deems appropriate";

(B) by striking out paragraph (4); and

(C) by redesignating paragraph (5) as paragraph (4);

(2) in section 301 by striking out "initial" each place it appears and by striking out "Secretary" in each place it appears and inserting in lieu thereof "Commissioner";

(3) in section 302 by striking out "Secretary" in each place it appears and inserting in lieu thereof "Commissioner";

(4) in subsections (a), (c), (e), (f), and (i) of section 306 by striking out "Secretary" in each place it appears and inserting in lieu thereof "Commissioner";

(5) by amending paragraph (3) of section 306(b) to read as follows:

"(3) provide that the agency or organization receiving Federal funds under this title will make an annual report to the Commissioner, which the Commissioner shall submit to the Secretary for inclusion (in summarized form) in the annual report submitted to the Congress under section 13;";

(6) in paragraph (4) of section 306(b) by

striking out "Secretary" where it first occurs and inserting in lieu thereof "Commissioner"; and

(7) by striking out "SPECIAL FEDERAL RESPONSIBILITIES" in the title heading and inserting in lieu thereof "SUPPLEMENTARY SERVICES AND FACILITIES".

(d) Title V of the Rehabilitation Act of 1973 is further amended—

(1) in section 503(a), by striking out "as defined in section 7(6)" and inserting in lieu thereof "as defined in section 7(7)"; and

(2) in section 504, by striking out "as defined in section 7(6)" and inserting in lieu thereof "as defined in section 7(7)".

(e) Section 412 of the Energy Conservation and Production Act is amended by striking out "as defined in section 7(6)" and inserting in lieu thereof "as defined in section 7(7)".

(f) Section 1904 of title 38, United States Code, is amended—

(1) by striking out "section 202(b)(2)" and inserting in lieu thereof "and section 204(b)(2)"; and

(2) by striking out ", and section 405" and all that follows through "activities)".

(g) The table of contents for the Rehabilitation Act of 1973 is amended—

(1) by inserting after the item relating to section 10 the following new items:

"Sec. 11. Application of other laws.
"Sec. 12. Administration of the Act.
"Sec. 13. Reports.
"Sec. 14. Evaluation.
"Sec. 15. Information clearinghouse.
"Sec. 16. Transfer of funds.";

(2) by striking out the items relating to part D of title I and section 130 and inserting in lieu thereof the following:

"PART D—AMERICAN INDIAN VOCATIONAL REHABILITATION SERVICES

"Sec. 130. Vocational rehabilitation services grants.
"Sec. 131. Evaluation.";

(3) by striking out the items relating to titles II and III and to sections 200 through 204 and 300 through 306 and inserting in lieu thereof the following:

"TITLE II—RESEARCH

"Sec. 200. Declaration of purpose.
"Sec. 201. Authorization of appropriations.
"Sec. 202. National Institute of Handicapped Research.
"Sec. 203. Interagency committee.
"Sec. 204. Research.

"TITLE III—SUPPLEMENTARY SERVICES AND FACILITIES

"PART A—MISCELLANEOUS PROGRAMS

"Sec. 300. Declaration of purpose.
"Sec. 301. Grants for construction of rehabilitation facilities.
"Sec. 302. Vocational training services for handicapped individuals.
"Sec. 303. Loan guarantees for rehabilitation facilities.
"Sec. 304. Training.
"Sec. 305. Comprehensive rehabilitation centers.
"Sec. 306. General grant and contract requirements.

"PART B—SPECIAL PROJECTS

"Sec. 310. Authorization of appropriations.
"Sec. 311. Special demonstration programs.
"Sec. 312. Migratory workers.
"Sec. 313 Helen Keller National Center.
"Sec. 314. Reader services for the blind.
"Sec. 315. Interpreter services for the deaf."
"Sec. 316. Special Recreational Programs.";

(4) by striking out the items relating to title IV and sections 400 through 407 and inserting in lieu thereof the following:

"TITLE IV—NATIONAL COUNCIL ON THE HANDICAPPED

"Sec. 400. Establishment of National Council on the Handicapped.
"Sec. 401. Duties of National Council.
"Sec. 402. Compensation of National Council members.
"Sec. 403. Staff of National Council.
"Sec. 404. Administrative powers of National Council.
"Sec. 405. Authorization of appropriations.";

and

(5) by adding at the end of the items relating to title V the following new items:

"Sec. 505. Remedies and attorneys' fees.
"Sec. 506. Secretarial responsibilities.
"Sec. 507. Interagency Coordinating Council.".

TITLE II—COMMUNITY SERVICE PILOT PROGRAMS; PROJECTS WITH INDUSTRY

ESTABLISHMENT OF PROGRAMS

SEC. 201. The Rehabilitation Act of 1973 is amended by adding at the end thereof the following new title:

"TITLE VI—EMPLOYMENT OPPORTUNITIES FOR HANDICAPPED INDIVIDUALS

"SHORT TITLE

"SEC. 601. This title may be cited as the 'Employment Opportunities for Handicapped Individuals Act'.

"PART A—COMMUNITY SERVICE EMPLOYMENT PILOT PROGRAMS FOR HANDICAPPED INDIVIDUALS

"ESTABLISHMENT OF PILOT PROGRAMS

"SEC. 611. (a) In order to promote useful opportunities in community service activities for handicapped individuals who have poor employment prospects, the Secretary of Labor (hereinafter in this part referred to as the 'Secretary') is authorized to establish a community service employment pilot program for handicapped individuals. For purposes of this part, the term 'eligible individuals' means persons who are handicapped individuals (as defined in section 7(7) of this Act) and who are referred to programs under this part by designated State units.

"(b)(1) The Secretary may enter into agreements with public or private nonprofit agencies or organizations, including national organizations, agencies of a State government or a political subdivision of a State (having elected or duly appointed governing officials), or a combination of such political subdivisions, or tribal organizations in order to carry out the pilot program referred to in subsection (a). Such agreements may include provisions consistent with subsection (c) for the payment of the costs of projects developed by such organizations and agencies in cooperation with the Secretary. No payment shall be made by the Secretary toward the cost of any such project unless the Secretary determines that:

"(A) Such project will provide employment only for eligible individuals, except that if eligible individuals are not available to serve as technical, administrative, or supervisory personnel for a project then such personnel may be recruited from among other individuals.

"(B) Such project will provide employment for eligible individuals in the community in which such individuals reside, or in nearby communities.

"(C) Such project will employ eligible individuals in services related to publicly owned and operated facilities and projects, or projects sponsored by organizations, other than political parties, exempt from taxation under section 501(c)(3) of the Internal Revenue Code of 1954, except for projects involving the construction, operation, or maintenance of any facility used or to be used as a place for sectarian religious instruction or worship.

"(D) Such project will contribute to the general welfare of the community in which eligible individuals are employed under such project.

"(E) Such project (i) will result in an increase in employment opportunities over those opportunities which would otherwise be available, (ii) will not result in any displacement of currently employed workers (including partial displacement, such as a reduction in the hours of nonovertime work or wages or employment benefits), and (iii) will not impair existing contracts or result in the substitution of Federal funds for other funds in connection with work that would otherwise be performed.

"(F) Such project will not employ any eligible individual to perform work which is the same or substantially the same as that performed by any other person who is on layoff from employment with the agency or organization sponsoring such project.

"(G) Such project will utilize methods of recruitment and selection (including the listing of job vacancies with the State agency units designated under section 101(a)(2)(A) to administer vocational rehabilitation services under this Act) which will assure that the maximum number of eligible individuals will have an opportunity to participate in the project.

"(H) Such project will provide for (i) such training as may be necessary to make the most effective use of the skills and talents of individuals who are participating in the project, and (ii) during the period of such training, a reasonable subsistence allowance for such individuals and the payment of any other reasonable expenses related to such training.

"(I) Such project will provide safe and healthy working conditions for any eligible individual employed under such project and will pay any such individual at a rate of pay not lower than the rate of pay described in paragraph (2).

"(J) Such project will be established or administered with the advice of (i) persons competent in the field of service in which employment is being provided, and (ii) persons who are knowledgeable with regard to the needs of handicapped individuals.

"(K) Such project will pay any reasonable costs for work-related expenses, transportation, and attendant care incurred by eligible individuals employed under such project in accordance with regulations prescribed by the Secretary.

"(L) Such project will provide appropriate placement services for employees under the project to assist them in locating unsubsidized employment when the Federal assistance for the project terminates.

"(2) The rate of pay referred to in subparagraph (I) of paragraph (1) is the highest of the following:

"(A) the prevailing rate of pay for persons employed in similar occupations by the same employer.

"(B) The minimum wage which would be applicable to the employee under the Fair Labor Standards Act of 1938 if such employee were not exempt from such Act under section 13 thereof.

"(C) The State or local minimum wage for the most nearly comparable covered employment.

The Department of Labor shall not issue any certificate of exemption under section 14(c) of the Fair Labor Standards Act of 1938 with respect to any person employed in a project under this section.

"(c)(1) The Secretary may pay not to exceed 90 percent of the cost of any project which is the subject of an agreement entered into under subsection (b). Notwithstanding the preceding sentence, the Secretary may pay all of the costs of any such project which is (A) an emergency or disaster project, or (B) a project located in an economically depressed area, as determined by the Secretary in consultation with the Secretary of Commerce and the Director of the Community Services Administration.

"(2) The non-Federal share of any project under this part may be in cash or in kind. In

determining the amount of the non-Federal share, the Secretary may attribute fair market value to services and facilities contributed from non-Federal sources.

"(d) Payments under this part may be made in advance or by way of reimbursement, and in such installments as the Secretary may determine.

"ADMINISTRATION

"SEC. 612. (a) In order to effectively carry out the provisions of this part, the Secretary shall, through the Commissioner of the Rehabilitation Services Administration, consult with any designated State unit with regard to—

"(1) the localities in which community service projects of the type authorized by this part are most needed;

"(2) the employment situations and types of skills possessed by eligible individuals in such localities; and

"(3) potential projects suitable for funding in such localities.

"(b) The Secretary shall coordinate the pilot program established under this part with programs authorized under the Emergency Jobs and Unemployment Assistance Act of 1974, the Comprehensive Employment and Training Act of 1973, the Community Services Act of 1974, and the Emergency Employment Act of 1971. Appropriations under this part may not be used to carry out any program under the Acts referred to in the preceding sentence.

"(c) In carrying out this part, the Secretary may, with the consent of any other Federal, State, or local agency, use the services, equipment, personnel, and facilities of such agency with or without providing such agency with reimbursement and may use the services, equipment, and facilities of any other public or private entity on a similar basis.

"(d) Within one hundred and eighty days after the effective date of this part, the Secretary shall issue and publish in the Federal Register such regulations as may be necessary to carry out this part.

"(e) The Secretary shall not delegate any function of the Secretary under this part to any other department or agency of the Federal Government.

"PARTICIPANTS NOT FEDERAL EMPLOYEES

"SEC. 613. (a) Eligible individuals who are employed in any project funded under this part shall not be considered to be Federal employees as a result of such employment and shall not be subject to the provisions of part III of title 5, United States Code.

"(b) No contract shall be entered into under this part with a contractor who is, or whose employees are, under State law, exempted from operation of any State workmen's compensation law generally applicable to employees, unless the contractor shall undertake to provide for persons to be employed under such contract, through insurance by a recognized carrier or by self-insurance authorized by State law, workmen's compensation coverage equal to that provided by law for covered employment.

"(c) No part of the wages, allowances, or reimbursement for transportation and attendant care costs made available to an eligible individual employed in any project funded under this part shall be treated as income or benefits for the purpose of any other program or provision of State or Federal law, unless the Secretary makes a case by case determination that disallowance of such income or benefits is inequitable or does not carry out the purposes of this title.

"INTERAGENCY COOPERATION

"SEC. 614. (a) The Secretary shall consult with, and obtain the written views of, the Commissioner of the Rehabilitation Services Administration before establishing rules or general policy in the administration of this part.

"(b) The Secretary shall consult and cooperate with the Director of the Community Services Administration, the Secretary of Health, Education, and Welfare, and the heads of other Federal agencies carrying out related programs, in order to achieve maximum coordination between such programs and the programs established under this part. Each Federal agency shall cooperate with the Secretary in diseminating information relating to the availability of assistance under this part and in identifying individuals eligible for employment in projects assisted under this part.

"EQUITABLE DISTRIBUTION OF ASSISTANCE

"SEC. 615. (a)(1) Preference in awarding grants or contracts under this part shall be given to organizations of proven ability in providing employment services to handicapped individuals under this program and similar programs. The Secretary, in awarding grants and contracts under this section, shall, to the extent feasible, assure an equitable distribution of activities under such grants and contracts among the States, taking into account the needs of underserved States.

"(2) The Secretary shall allot for projects within each State the sums appropriated for any fiscal year under section 617 so that each State will receive an amount which bears the same ratio to such sums as the population of the State bears to the population of all the States.

"(b) The amount allotted for projects within any State under subsection (a) for any fiscal year which the Secretary determines will not be required for such year shall be reallotted, from time to time and on such dates during such year as the Secretary may fix, to projects within other States in proportion to the original allotments to projects within such States under subsection (a) for such year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Secretary estimates that projects within such State need and will be able to use for such year. The total of such reductions shall be similarly reallotted among the States whose proportionate amounts were not so reduced. Any amount reallotted to a State under this subsection during a year shall be deemed part of its allotment under subsection (a) for such year.

"(c) The amount apportioned for projects within each State under subsection (a) shall be apportioned among areas within each such State in an equitable manner, taking into consideration (1) the proportion which eligible individuals in each such area bears to the total number of such individuals, respectively, in that State, and (2) the relative distribution of such individuals residing in rural and urban areas within the State.

"DEFINITIONS

"SEC. 616. For purposes of this part—

"(1) the term 'community service' means social, health, welfare, and educational services, legal and other counseling services and assistance, including tax counseling and assistance and financial counseling, and library, recreational, and other similar services; conservation, maintenance, or restoration of natural resources; community betterment or beautification; antipollution and environmental quality efforts; economic development; and such other services essential and necessary to the community as the Secretary, by regulation, may prescribe;

"(2) the term 'pilot program' means the community service employment program for handicapped individuals established under this part; and

"(3) the term 'attendant care' means interpreter services for the deaf, reader services for the blind, and services provided to assist mentally retarded individuals to perform duties of employment.

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 617. There are authorized to be appropriated to carry out the purposes of this part $35,000,000 for the fiscal year ending September 30, 1979, $50,000,000 for the fiscal year ending September 30, 1980, $75,000,000 for the fiscal year ending September 30, 1981, and $100,000,000 for the fiscal year ending September 30, 1982.

"PART B—PROJECTS WITH INDUSTRY AND BUSINESS OPPORTUNITIES FOR HANDICAPPED INDIVIDUALS

"PROJECTS WITH INDUSTRY

"SEC. 621. (a)(1) The Commissioner, in consultation with the Secretaries of Labor and Commerce and with designated State units, may enter into agreements with individual employers and other entities to establish jointly financed projects which—

"(A) shall provide handicapped individuals with training and employment in a realistic work setting in order to prepare them for employment in the competitive market;

"(B) shall provide handicapped individuals with such supportive services as may be required to permit them to continue to engage in the employment for which they have received training under this section; and

"(C) shall, to the extent appropriate, expand job opportunities for handicapped individuals by providing for (i) the development and modification of jobs to accommodate the special needs of such individuals, (ii) the distribution of special aids, appliances, or adapted equipment to such individuals, (iii) the establishment of appropriate job placement services, and (iv) the modification of any facilities or equipment of the employer which are to be used primarily by handicapped individuals.

"(2) Any agreement under this subsection shall be jointly developed by the Commissioner, the prospective employer, and, to the extent practicable, the appropriate designated State unit and the handicapped individuals involved. Such agreements shall specify the terms of training and employment under the project, provide for the payment by the Commissioner of part of the costs of the project (in accordance with subsection (c)), and contain the items required under subsection (b) and such other provisions as the parties to the agreement consider to be appropriate.

"(b) No payment shall be made by the Commissioner under any agreement with an employer entered into under subsection (a) unless such agreement—

"(1) provides assurances that handicapped individuals placed with such employer shall receive at least the applicable minimum wage;

"(2) specifies that the Commissioner, together with the designated State unit, has the right to review any termination of employment, and that, in the event such termination occurs less than three years after the date of the commencement of employment of the handicapped individual involved, the Commissioner shall be entitled to require the repayment of a portion of the funds made available to the employer if such termination is without reasonable cause, as determined by the Commissioner in consultation with such designated State unit; and

"(3) provides assurances that any handicapped individual placed with such employer shall be afforded terms and benefits of employment equal to those which are afforded to other employees of such employer, and that such handicapped individuals shall not be unreasonably segregated from other employees.

"(c) Payments under this section with respect to any project may not exceed 80 per centum of the costs of the project.

"BUSINESS OPPORTUNITIES FOR HANDICAPPED INDIVIDUALS

"SEC. 622. The Commissioner, in consultation with the Secretarys of Labor and Commerce, may make grants to, or enter into contracts with, handicapped individuals to enable them to establish or operate commercial or other enterprises to develop or market their products or services. Within ninety days after the effective date of this section, the Commissioner shall promulgate regulations to carry out this section, including regulations specifying (1) the maximum amount of money which may be provided under this section to any participant, and (2) procedures for certification, by designated State units, of individuals eligible to participate in any program under this section.

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 623. There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this part for each fiscal year beginning before October 1, 1982."

CONFORMING AMENDMENTS

SEC. 202. (a) The table of contents for the Rehabilitation Act of 1973, as amended by section 120(c)(6), is further amended by adding at the end thereof the following:

"TITLE VI—EMPLOYMENT OPPORTUNITIES FOR HANDICAPPED INDIVIDUALS

"Sec. 601. Short title.

"PART A—COMMUNITY SERVICE EMPLOYMENT PROGRAMS FOR HANDICAPPED INDIVIDUALS

"Sec. 611. Establishment of program.
"Sec. 612. Administration.
"Sec. 613. Participants not Federal employees.
"Sec. 614. Interagency cooperation.
"Sec. 615. Equitable distribution of assistance
"Sec. 616. Definitions.
"Sec. 617. Authorization of appropriations.

"PART B—PROJECTS WITH INDUSTRY AND BUSINESS OPPORTUNITIES FOR HANDICAPPED INDIVIDUALS

"Sec. 621. Projects with industry.
"Sec. 622. Business opportunities for handicapped individuals.
"Sec. 623. Authorization of appropriations."

TITLE III—COMPREHENSIVE SERVICES FOR INDEPENDENT LIVING

COMPREHENSIVE SERVICES

SEC. 301. The Rehabilitation Act of 1973, as amended by section 201 of this Act, is further amended by adding at the end the following new title:

"TITLE VII—COMPREHENSIVE SERVICES FOR INDEPENDENT LIVING

"PART A—COMPREHENSIVE SERVICES

"PURPOSE

"SEC. 701. The purpose of this title is to authorize grants (supplementary to grants for vocational rehabilitation services under title I) to assist States in providing comprehensive services for independent living designed to meet the current and future needs of individuals whose disabilities are so severe that they do not presently have the potential for employment but may benefit from vocational rehabilitation services which will enable them to live and function independently.

"ELIGIBILITY

"SEC. 702. Services may be provided under this title to any individual whose ability to engage or continue in employment, or whose ability to function independently in his family or community, is so limited by the severity of his disability that vocational or comprehensive rehabilitation services appreciably more costly and of appreciably greater duration than those vocational or comprehensive rehabilitation services required for the rehabilitation of a handicapped individual are required to improve significantly either his ability to engage in employment or his ability to function independently in his family or community. Priority of services under this part shall be given to individuals not served by other provisions of this Act.

"(b) For purposes of this title, the term 'comprehensive services for independent living' means any appropriate vocational rehabilitation service (as defined under title I of this Act) and any other service that will enhance the ability of a handicapped individual to live independently and function within his family and community and, if appropriate, secure and maintain appropriate employment. Such services may include any of the following: counseling services, including psychological, psychotherapeutic, and related services; housing incidental to the purpose of this section (including appropriate accommodations to and modifications of any space to serve handicapped individuals); appropriate job placement services; transportation; attendant care; physical rehabilitation; therapeutic treatment; needed prostheses and other appliances and devices; health maintenance; recreational activities; services for children of preschool age, including physical therapy, development of language and communication skills, and child development services; and appropriate preventive services to decrease the needs of individuals assisted under the program for similar services in the future.

"ALLOTMENTS

"SEC. 703. (a)(1) From sums made available for each fiscal year for the purposes of allotments under this subpart, each State whose comprehensive services plan has been approved under section 705 shall be entitled to an allotment of an amount bearing the same ratio to such sums as the population of the State bears to the population of all States. Except as provided in paragraph (2), the allotment to any State under the preceding sentence shall be not less than $200,000 or one-third of 1 percent of the sums made available for the fiscal year for which the allotment is made, whichever is greater, and the allotment of any State under this section for any fiscal year which is less than $200,000 or one-third of 1 percent of such sums shall be increased to the greater of the two amounts.

"(2) For purposes of this subsection, Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands shall not be considered as States and shall each be allotted not less than one-eighth of 1 percent of the amounts made available for purposes of this subpart for the fiscal year for which the allotment is made.

"(b) Amounts necessary to increase the allotments of States under paragraph (1) or to provide allotments under paragraph (2) shall be derived by proportionately reducing the allotments of the remaining States under paragraph (1), but with such adjustments as may be necessary to prevent the allotment of any such remaining States from being thereby reduced to less than the greater of $200,000 or one-third of 1 percent of the sums made available for purposes of this subpart for the fiscal year for which the allotment is made.

"(c) Whenever the Commissioner determines that any amount of an allotment to a State for any fiscal year will not be utilized by such State in carrying out the purposes of this title, he shall make such amount available for carrying out the purposes of this section to one or more of the States which he determines will be able to use additional amounts during such year for carrying out such purposes. Any amount made available to a State for any fiscal year pursuant to the preceding sentence shall, for the purposes of this section, be regarded as an increase in the State's allotment (as determined under the preceding provisions of this section) for such year.

"PAYMENTS TO STATES FROM ALLOTMENTS

"SEC. 704. (a) From each State's allotment for a fiscal year under section 703, the State shall be paid the Federal share of the expenditudes incurred during such year under its State plan approved under section 705. Such payments may be made (after necessary adjustments on account of previously made overpayments or underpayments) in advance or by way of reimbursement, and in such installments and on such conditions as the Commissioner may determine.

"(b)(1) The Federal share with respect to any State for any fiscal year shall be 90 percent of the expenditures incurred by the State during such year under its State plan approved under section 705.

"(2) The non-Federal share of the cost of any project assisted by an allotment under this subpart may be provided in kind.

"(3) For the purpose of determining the Federal share with respect to any State, expenditures by a political subdivision of such State shall, subject to regulations prescribed by the Commissioner, be regarded as expenditures by such State.

"STATE PLANS

"SEC. 705. (a) In order to be eligible for grants under this part, a State shall submit to the Commissioner a State plan for a three-year period for providing comprehensive services for independent living to severely handicapped individuals, and, upon request of the Commissioner, shall make such annual revisions in the plan as may be necessary. Each such plan shall—

"(1) designate the designated unit of such State as the agency to administer the programs funded under this part;

"(2) demonstrate that the State has studied and considered a wide variety of methods for providing comprehensive services to severely handicapped individuals (such as regional and community centers, halfway houses, and patient-release programs) and that the State will provide, to the maximum extent feasible, meaningful alternatives to institutionalization;

"(3)(A) describe the quality, scope, and extent of the comprehensive services for independent living to be provided to handicapped individuals under this part, and specify the State's goals and plans with respect to the distribution of funds received under part B of this title; and

"(B) provide satisfactory assurances that facilities used in connection with the delivery of services assisted under this part and part B of this title will comply with the Act of August 12, 1968, commonly known as the Architectural Barriers Act of 1968;

"(4) provide assurances that (A) an individualized written rehabilitation program meeting the requirements of section 102 will be developed for each handicapped individual eligible for independent living services under this part; (B) such services will be provided in accordance with such program; and (C) that such program be coordinated with the individualized written rehabilitation plan, or education program for such individual required under section 102 of this Act, section 112 of the Developmental Disabilities Services and Facilities Construction Act, and sections 612(4) and 614(a)(5) of the Education for All Handicapped Children Act of 1975, respectively;

"(5) provide assurances that the State will conduct periodic reviews of the progress of individuals assisted under this title to determine whether services provided to such individuals should be continued, modified, or discontinued;

"(6) provide assurances that special efforts will be undertaken to provide technical assistance to urban and rural poverty areas with respect to the provision of com-

prehensive services for severely handicapped individuals and describe such efforts;

"(7) provide assurances that handicapped individuals shall have a substantial role in developing the State plan;

"(8) provide assurances that not less than 20 percent of the funds received by a State under this part shall be used to make grants to local public agencies and private nonprofit organizations for the conduct of independent living services except that the Commissioner may waive the requirement of this clause if the Commissioner determines, on the basis of evidence submitted by the State, that such State cannot feasibly use the funds required to be expended under this section for the purposes of this clause; and

"(9) contain such other information, and be submitted in such form and in accordance with such procedures, as the Commissioner may require.

"(b) As soon as practicable after receiving a State plan submitted under subsection (a), the Commissioner shall approve or disapprove such plan. The Commissioner shall approve any State plan which he determines meets the requirements and purposes of this section. The provisions of subsections (b), (c), and (d) of section 101 of this Act shall apply to any State plan submitted to the Commissioner pursuant to this section, except that for purposes of this section, all references in such subsections to the Secretary shall be deemed to be references to the Commissioner.

"PART B—CENTERS FOR INDEPENDENT LIVING

"GRANT PROGRAM ESTABLISHED

"SEC. 711. (a) The Commissioner may make grants to any designated State unit which administers the State plan under section 705 to provide for the establishment and operation of independent living centers, which shall be facilities offering the services described in subsection (c)(2).

"(b) No grant may be made under this section unless an application therefor has been submitted to and approved by the Commissioner. The Commissioner may not approve an application for a grant unless the application—

"(1) contains assurances that the designated State unit will use funds provided by such grant in accordance with subsection (c); and

"(2) contains such other information, and is submitted in such form and in accordance with such procedures, as the Commissioner may require.

"(c) An application by a public or nonprofit agency or organization for such grant shall—

"(1) provide assurances that handicapped individuals will be substantially involved in policy direction and management of such center, and will be employed by such center;

"(2) contain assurances that the independent living center to be assisted by such grant shall offer handicapped individuals a combination of independent living services, including, as appropriate—

"(A) intake counseling to determine the client's need for specific rehabilitation services;

"(B) referral and counseling services with respect to attendant care;

"(C) counseling and advocacy services with respect to legal and economic rights and benefits;

"(D) independent living skills, counseling, and training, including such programs as training in the maintenance of necessary equipment and in job-seeking skills, counseling on therapy needs and programs, and special programs for the blind and deaf;

"(E) housing and transportation referral and assistance;

"(F) surveys, directories, and other activities to identify appropriate housing and accessible transportation, and other support services;

"(G) health maintenance programs;

"(H) peer counseling;

"(I) community group living arrangements;

"(J) education and training necessary for living in the community and participating in community activities;

"(K) individual and group social and recreational activities;

"(L) other programs designed to provide resources, training, counseling, services, or other assistance of substantial benefit in promoting the independence, productivity, and quality of life of handicapped individuals;

"(M) attendant care and training of personnel to provide such care; and

"(N) such other services as may be necessary and not inconsistent with the provisions of this title; and

"(3) contain such other information, and be submitted in such form and in accordance with such procedures, as the Commissioner may require.

"(d) If, within six months after the date in each fiscal year on which the Commissioner begins to accept applications from designated State units under this section, a designated State unit in a State has not submitted such an application, the Commissioner may accept applications for grants under this section from local public agencies or private nonprofit organizations within such State. After the receipt of such applications, the Commissioner may make grants to such agencies or organizations for the purpose of establishing independent living centers to provide the services described in subsection (c)(2).

"PART C—INDEPENDENT LIVING SERVICES FOR OLDER BLIND INDIVIDUALS

"SERVICE PROGRAM ESTABLISHED

"SEC. 721. (a) The Commissioner may make grants to any designated State unit to provide independent living services to older blind individuals. Such services shall be designed to assist an older blind individual to adjust to his blindness by becoming more able to care for his individual needs. Such services may include—

"(1) services to help correct blindness such as (A) outreach services, (B) visual screening, (C) surgical or therapeutic treatment to prevent, correct, or modify disabling eye conditions and (D) hospitalization related to such services;

"(2) the provision of eyeglasses and other visual aids;

"(3) the provision of services and equipment to assistant an older blind individual to become more mobile and more able to care for himself;

"(4) mobility training, Braille instruction, and other services and equipment to help an older blind individual adjust to blindness;

"(5) guide services, reader services, and transportation; and

"(6) any other appropriate services designed to assist a blind person in coping with daily living activities, including supportive services or rehabilitation teaching services.

"(b) No grant may be made under this section unless an application therefor, containing such information as the Commissioner may require, has been submitted to and approved by the Commissioner. The Commissioner may not approve any application for a grant unless the application contains assurances that the designated State unit will seek to incorporate any new methods and approaches relating to the services described in subsection (a) into its State plan for independent living services under section 705 of this title.

"(c) Funds received under this section by any designated State unit may be used to make grants to public or private nonprofit agencies or organizations to—

"(1) conduct activities which will improve or expand services for older blind individuals and help improve public understanding of the problems of such individuals; and

"(2) provide independent living services to older blind individuals in accordance with the provisions of subsection (a).

"(d) For purposes of this section, the term 'older blind individual' means an individual aged fifty-five or older whose severe visual impairment makes gainful employment extremely difficult to attain but for whom independent living goals are feasible.

"PART D—GENERAL PROVISIONS

"PROTECTION AND ADVOCACY OF INDIVIDUAL RIGHTS

"SEC. 731. (a) The Commissioner may make grants to States to establish systems to protect and advocate the rights of severely handicapped individuals. In order to be eligible for a grant under this section, a State shall provide the Commissioner with assurances that any system established with grants made under this section shall have the authority to pursue legal, administrative, and other appropriate remedies to insure the protection of the rights of such individuals receiving services under this title within the State. A State must provide that such system will be independent of any designated State unit that provides services under this part to such individuals.

"(b) No grant may be made under this section unless an application therefor has been submitted to the Commissioner containing such information and in such form and in accordance with such procedures as the Commissioner may, by regulation, prescribe.

"EMPLOYMENT OF HANDICAPPED INDIVIDUALS

"SEC. 732. As a condition of providing assistance under this title, the Secretary shall require that each recipient of assistance take affirmative action to employ and advance in employment qualified handicapped individuals on the same terms and conditions required with respect to the employment of such individuals under the provisions of this Act which govern employment (1) by State rehabilitation agencies and rehabilitation facilities, and (2) under Federal contracts and subcontracts.

"PART E—AUTHORIZATIONS

AUTHORIZATION OF APPROPRIATIONS

"SEC. 731. (a) For the purpose of carrying out the provisions of parts A, B, and C of this title, there are authorized to be appropriated $80,000,000 for the fiscal year ending September 30, 1979, $150,000,000 for the fiscal year ending September 30, 1980, $200,000,000 for the fiscal year ending September 30, 1981, and such sums as may be necessary for the fiscal year ending September 30, 1982.

"(b) From the amounts authorized to be appropriated under this section, an amount shall be made available for the purpose of carrying out the provisions of Part C of this title in an amount not in excess of 10 percent of the amount made available for carrying out the provisions of subpart 1 of part A of this title.".

"(c)(1) For the purpose of carrying out Part D of this title, there are authorized to be appropriated such sums as may be necessary for the fiscal year ending September 30, 1979, and for each of the three succeeding fiscal years, but in no event shall such sums exceed $6,000,000 for the fiscal year ending September 30, 1979, $7,500,000 for the fiscal year ending September 30, 1980, and $9,000,000 for the fiscal year ending September 30, 1981.

"(2) The provisions of section 1913 of title 18 of the United States Code shall be applicable to all moneys authorized under the provisions of this subsection."

CONFORMING AMENDMENT

SEC. 302. The table of contents for the Rehabilitation Act of 1973, as amended in section 120 (c)(6) and section 202 (b), is

further amended by adding at the end thereof the following:

"TITLE VII—COMPREHENSIVE SERVICES FOR INDEPENDENT LIVING

"PART A—COMPREHENSIVE SERVICES

"Sec. 701. Purpose.
"Sec. 702. Eligibility.
"Sec. 703. Allotments.
"Sec. 704. Payments to States from allotments.
"Sec. 705. State plans.

"PART B—INDEPENDENT LIVING CENTERS

"Sec. 711. Grant program established.

"PART C—INDEPENDENT LIVING SERVICES FOR OLDER BLIND INDIVIDUALS

"Sec. 721. Service program established.

"PART D—GENERAL PROVISIONS

"Sec. 731. Protection and advocacy of individual rights.
"Sec. 732. Employment of handicapped individuals.

"PART E—AUTHORIZATIONS

"Sec. 731. Authorization of appropriations."

TITLE IV—SPECIAL STUDIES AND MISCELLANEOUS PROVISIONS

RESEARCH AND DEMONSTRATIONS PROJECTS

SEC. 401. (a) The Secretary of Health, Education, and Welfare is authorized to make grants to, and to enter into contract with, public and nonprofit private agencies and organizations for the purpose of research and demonstration projects specifically designed to address the multiple and interrelated service needs of handicapped individuals, the elderly, and children, youths, adults, and families. A report evaluating each project funded under this section shall be submitted to appropriate committees of the Congress within four months after the date each such project is completed.

(b) There are authorized to be appropriated to carry out this section such sums as may be necessary.

No funds other than those appropriated pursuant to this subsection can be used for the conduct of research specifically authorized by this section.

(c) Within one year after the date appropriations are made under subsection (b) for purposes of research and demonstration projects under subsection (a), the Secretary shall prepare and transmit to the Congress a study concerning the impact of vocational rehabilitation services provided under the Rehabilitation Act of 1973 on recipients of disability payments under titles II and XVI of the Social Security Act. The study shall examine the relationship between the vocational rehabilitation services provided under the Rehabilitation Act of 1973 and the programs under sections 222 and 1615 of the Social Security Act, and shall include—

"(1) an analysis of the savings in disability benefit payments under titles II and XVI of the Social Security Act as a result of the provision of vocational rehabilitation services under the Rehabilitation Act of 1973;

"(2) a specification of the rate of return to the active labor force by recipients of services under sections 222 and 1615 of the Social Security Act;

"(3) a specification of the total amount of expenditures, in the five fiscal years preceding the date of submission of the report, for vocational rehabilitation services under the Rehabilitation Act of 1973 and under sections 222 and 1615 of the Social Security Act, and recommendations for the coordinated presentation of such expenditures in the Budget submitted by the President pursuant to section 201 of the Budget and Accounting Act, 1921; and

"(4) recommendations to improve the coordination of services under the Rehabilitation Act of 1973 with programs under sections 222 and 1615 of the Social Security Act, including recommendations for increasing savings in disability benefits payments and the rate of return to the active labor force by recipients of services under sections 222 and 1615 of the Social Security Act.".

SPECIAL STUDY CONCERNING HANDICAPPED INDIVIDUALS LIVING IN RURAL AREAS

SEC. 402. The Secretary, after consultation with the Commissioner of the Rehabilitation Services Administration, Commissioner of Education, the Director of the National Institute on Handicapped Research, and other appropriate officials, organizations, and individuals, shall conduct a study of the special problems and needs of handicapped individuals who reside in rural areas in the United States. Upon the completion of such study, but not later than eighteen months after the date of enactment of this Act, the Secretary shall submit the results of such study, together with such recommendations as he deems appropriate to the President, and to the appropriate committees of the Congress.

SPECIAL STUDY CONCERNING DISINCENTIVES TO EMPLOYMENT

SEC. 403. In consultation with appropriate Federal departments and agencies, the Secretary shall conduct a study of possible ways to structure Federal programs providing benefits to handicapped individuals in order to eliminate any disincentives for individuals receiving benefits under such programs to obtain and continue in employment. Upon the completion of such study, but not later than twenty-four months after the date of enactment of this Act, the Secretary shall submit the results of such study, together with such recommendations as the Secretary deems appropriate to the President and the Congress.

PROHIBITION ON CERTAIN PROGRAMS

SEC. 404. No funds appropriated under the Rehabilitation Act of 1973, the Older Americans Act of 1965, or the Child Abuse Prevention and Treatment Act may be obligated or expended for research, demonstration, or evaluation programs or projects which are not directly managed and monitored by the office charged by law with direct responsibility for carrying out such research, demonstration, or evaluation programs or projects under such Acts and which are not specifically authorized in full by one or more such Acts.

LIMITATIONS ON AUTHORIZATIONS

SEC. 405. No authorization of appropriations in this Act (except for title V) shall be effective for any fiscal year beginning before October 1, 1978. Notwithstanding any other provision of this Act, no new borrowing authority or authority to enter into contracts under this Act (except for title V) shall be effective except to such extent or in such amounts as are provided in advance in appropriations Acts.

TITLE V—AMENDMENTS TO THE DEVELOPMENTAL DISABILITIES SERVICES AND FACILITIES CONSTRUCTION ACT

REFERENCE TO ACT

SEC. 501. Whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Developmental Disabilities Services and Facilities Construction Act.

SHORT TITLE; FINDINGS AND PURPOSES

SEC. 502. Part A is amended by striking out section 101 and inserting in lieu thereof the following sections:

"SHORT TITLE

"SEC. 100. This title may be cited as the 'Developmental Disabilities Assistance and Bill of Rights Act'.

"FINDINGS AND PURPOSES

"SEC. 101. (a) The Congress finds that—

"(1) there are more than two million persons with developmental disabilities in the United States;

"(2) individuals with disabilities occurring during their developmental period are more vulnerable and less able to reach an independent level of existence than other handicapped individuals who generally have had a normal developmental period on which to draw during the rehabilitation process;

"(3) persons with developmental disabilities often require specialized lifelong services to be provided by many agencies in a coordinated manner in order to meet the persons' needs;

"(4) general service agencies and agencies providing specialized services to disabled persons tend to overlook or exclude persons with developmental disabilities in their planning and delivery of services; and

"(5) it is in the national interest to strengthen specific programs, especially programs that reduce or eliminate the need for institutional care, to meet the needs of persons with developmental disabilities.

"(b)(1) It is the overall purpose of this title to assist States to assure that persons with developmental disabilities receive the care, treatment, and other services necessary to enable them to achieve their maximum potential through a system which coordinates, monitors, plans, and evaluates those services and which ensures the protection of the legal and human rights of persons with developmental disabilities.

"(2) The specific purposes of this title are—

"(A) to assist in the provision of comprehensive services to persons with developmental disabilities, with priority to those persons whose needs cannot be covered or otherwise met under the Education for All Handicapped Children Act, the Rehabilitation Act of 1973, or other health, education, or welfare programs;

"(B) to assist States in appropriate planning activities;

"(C) to make grants to States and public and private, non-profit agencies to establish model programs, to demonstrate innovative habilitation techniques, and to train professional and paraprofessional personnel with respect to providing services to persons with developmental disabilities;

"(D) to make grants to university affiliated facilities to assist them in administering and operating demonstration facilities for the provision of services to persons with developmental disabilities, and interdisciplinary training programs for personnel needed to provide specialized services for these persons; and

"(E) to make grants to support a system in each State to protect the legal and human rights of all persons with developmental disabilities.".

DEFINITIONS AND SPECIAL REPORT

SEC. 503. (a) Section 102(1) is amended by inserting "the Northern Mariana Islands," after "Guam,".

(b)(1) Paragraph (7) of section 102 is amended to read as follows:

"(7) The term 'developmental disability' means a severe, chronic disability of a person which—

"(A) is attributable to a mental or physical impairment or combination of mental and physical impairments;

"(B) is manifested before the person attains age twenty-two;

"(C) is likely to continue indefinitely;

"(D) results in substantial functional limitations in three or more of the following areas of major life activity: (i) self-care, (ii) receptive and expressive language, (iii) learning, (iv) mobility, (v) self-direction, (vi) capacity for independent living, and (vii) economic self-sufficiency; and

"(E) reflects the person's need for a combination and sequence of special, interdisciplinary, or generic care, treatment, or other

services which are of lifelong or extended duration and are individually planned and coordinated.".

(2) The Secretary of Health, Education, and Welfare shall submit to Congress, not later than January 15, 1981, a special report concerning the impact of the amendment of the definition of "developmentally disabled" made by paragraph (1) This report shall include—

(A) an analysis of the impact of the amendment on each of the categories of persons with developmental disabilities receiving services under the Developmental Disabilities Assistance and Bill of Rights Act before the date of enactment of this Act, and for the fiscal year ending on September 30, 1979 and for the succeeding fiscal year, including—

(i) the number of persons with developmental disabilities in each category served before and after such date of enactment; and

(ii) the amounts expended under such Act for each such category of persons with developmental disabilities before and after such date of enactment; and

(B) an assessment, evaluation, and comparison of services provided to persons with developmental disabilities provided before the date of enactment of this Act and for the fiscal year ending September 30, 1979 and for the succeeding fiscal year.

(c) Paragraph (8) of section 102 is amended—

(1) by inserting "(A)" after "(8)";

(2) by striking out "means specialized services" and all that follows through "such term includes" and inserting in lieu thereof the following: "means priority services (as defined in subparagraph (B)), and any other specialized services or special adaptations of generic services for persons with developmental disabilities, including in these services the"; and

(3) by adding at the end thereof the following new subparagraphs:

"(B) The term 'priority services' means case management services (as defined in subparagraph (C)), child development services (as defined in subparagraph (D)), alternative community living arrangement services (as defined in subparagraph (E)), and nonvocational social-developmental services (as defined in subparagraph (F)).

"(C) The term 'case management services' means such services to persons with developmental disabilities as will assist them in gaining access to needed social, medical, educational, and other services; and such term includes—

"(i) follow-along services which ensure, through a continuing relationship, lifelong if necessary, between an agency or provider and a person with a developmental disability and the person's immediate relatives or guardians, that the changing needs of the person and the family are recognized and appropriately met; and

"(ii) coordination services which provide to persons with developmental disabilities support, access to (and coordination of) other services, information on programs and services, and monitoring of the persons' progress.

"(D) The term 'child development services' means such services as will assist in the prevention, identification, and alleviation of developmental disabilities in children, and includes (i) early intervention services, (ii) counseling and training of parents, (iii) early identification of developmental disabilities, and (iv) diagnosis and evaluation of such developmental disabilities.

"(E) The term 'alternative community living arrangement services' means such services as will assist persons with developmental disabilities in maintaining suitable residential arrangements in the community, and includes in-house services (such as personal aides and attendants and other domestic assistance and supportive services), family support services, foster care services, group living services, respite care, and staff training, placement, and maintenance services.

"(F) The term 'nonvocational social-developmental services' means such services as will assist persons with developmental disabilities in performing daily living and work activities.".

(d) Paragraph (9) of section 102 is amended to read as follows:

"(9) The term 'satellite center' means an entity which is affiliated with one or more university affiliated facilities and which functions as a community or regional extension of such university affiliated facility or facilities in the delivery of services to persons with developmental disabilities, and their families, who reside in geographical areas where adequate services are not otherwise available.".

(e) Paragraph (10) of section 102 is amended by striking out "and which aids" and all that follows through the end thereof and inserting in lieu thereof the following: "and which provides for at least the following activities:

"(A) Interdisciplinary training for personnel concerned with developmental disabilities.

"(B) Demonstration of the provision of exemplary services relating to persons with developmental disabilities.

"(C)(i) Dissemination of findings relating to the provision of services to persons with developmental disabilities, and (ii) providing researchers and government agencies sponsoring service-related research with information on the needs for further service-related research.".

(f) Section 102 is amended by inserting after paragraph (11) the following new paragraph:

"(12) The term 'State Planning Council' means a State Planning Council established under section 137.".

REPEAL OF NATIONAL ADVISORY COUNCIL ON SERVICES AND FACILITIES OF THE DEVELOPMENTALLY DISABLED

SEC. 504. (a) Section 108 is repealed.

(b)(1) Section 110(a) is amended by striking out ", in consultation with the National Advisory Council on Services and Facilities for the Developmentally Disabled,".

(2) Section 145(a) is amended by striking out ", after consultation with the National Advisory Council on Services and Facilities to the Developmentally Disabled,".

(3) Section 145(e) is amended by striking out "(after consultation with the National Advisory Council on Services and Facilities to the Developmentally Disabled)".

REGULATIONS

SEC. 505. The text of section 109 is amended to read as follows:

"SEC. 109. The Secretary, not later than 180 days after the date of enactment of any Act amending the provisions of this title, shall promulgate such regulations as may be required for the implementation of such amendments.".

SEC. 506. (a) Section 110(a) is amended—

(1) by striking out "within two years of" and all that follows through "Bill of Rights Act develop" in the first sentence and inserting in lieu thereof "develop, not later than October 1, 1979,";

(2) by striking out "Within six months after the development of such a system, the" in the second sentence and inserting in lieu thereof "The";

(3) by striking out "the receipt of assistance under this title, that such State" in the second sentence and inserting in lieu thereof "a State's receipt of assistance on and after October 1, 1980, under this title, that the State";

(4) by striking out "Within two years after the date of the development of such a system, the" in the third sentence and inserting inserting in lieu thereof "The"; and

(5) by striking out "the receipt of assistance under this title, that each State" in the third sentence and inserting in lieu thereof "a State's receipt of assistance on and after October 1, 1982, under this title, that the State."

(b) Subsection (c) of section 110 is amended to read as follows:

"(c) Upon development of the evaluation system described in subsection (b), the Secretary shall submit to Congress a report on the system, which report shall include an estimate of the costs to the Federal Government and the States of developing and implementing such a system.".

(c) Section 110 is amended by striking out subsection (d).

RIGHTS OF THE DEVELOPMENTALLY DISABLED

SEC. 507. Section 111 is amended by adding at the end thereof the following new sentence:

"The rights of persons with developmental disabilities described in findings made in this section are in addition to any constitutional or other rights otherwise afforded to all persons.".

PROTECTION AND ADVOCACY OF INDIVIDUAL RIGHTS

SEC. 508. (a) Section 113(a) is amended—

(1) by striking out "The Secretary shall require" and all that follows through "such system will (A)" and inserting in lieu thereof "In order for a State to receive an allotment under part C, (1) the State must have in effect a system to protect and advocate the rights of persons with developmental disabilities, (2) such system must (A)";

(2) by striking out "State" in clause (2)(B);

(3) by striking out "and (B)" and inserting in lieu thereof "(B) not be administered by the State Planning Council, and (C)";

(4) by inserting before the period at the end of the first sentence the following: ", and (3) the State must submit to the Secretary in a form prescribed by the Secretary in regulations (A) a report, not less often than once every three years, describing the system, and (B) an annual report describing the activities carried out under the system and any changes made in the system during the previous year"; and

(5) by striking out the last sentence thereof.

(b) Section 113(b)(1) is amended—

(1) by inserting "(A)" after "(b)(1)";

(2) by amending the second sentence to read as follows: "Allotments and reallotments of such sums shall be made on the same basis as the allotments and reallotments are made under the first sentence of subsections (a)(1) and (d) of section 132, except that no State (other than Guam, the Northern Mariana Islands, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands) in any fiscal year shall be allotted an amount under this subparagraph which is less than the greater of $50,000 or the amount of the allotment to the State under this paragraph for the previous fiscal year."; and

(3) by adding at the end the following new subparagraph:

"(B) Notwithstanding subparagraph (A), if the aggregate of the amounts of the allotments for grants to be made in accordance with such subparagraph for any fiscal year exceeds the total of the amounts appropriated for such allotments under paragraph (2), the amount of a State's allotment for such fiscal year shall bear the same ratio to the amount otherwise determined under such subparagraph as the total of the amounts appropriated for that year under paragraph (2) bears to the aggregate amount required to make an allotment to each of the States in accordance with subparagraph (A).".

(c) Paragraph (2) of section 113(b) is amended (1) by striking out "and" after "1977,", and (2) by adding before the period the following: ", $9,000,000 for the fiscal year ending September 30, 1979, $12,000,000 for the fiscal year ending September 30, 1980, and $15,000,000 for the fiscal year ending September 30, 1981. The provisions of section 1913 of title 18, United States Code, shall be applicable to all moneys authorized under the provisions of this section".

GRANT AUTHORITY, APPLICATIONS, AND AUTHORIZATION OF APPROPRIATIONS FOR UNIVERSITY AFFILATED FACILITIES

SEC. 509. Part B is amended to read as follows:

"PART B—UNIVERSITY AFFILIATED FACILITIES

"GRANT AUTHORITY

"SEC. 121. (a) From appropriations under section 123, the Secretary shall make grants to university affiliated facilities to assist in the administration and operation of the activities described in section 102(10).

"(b) The Secretary may make one or more grants to a university affiliated facility receiving a grant under subsection (a) to support one or more of the following activities:

"(1) Conducting a feasibility study of the ways in which it, singly or jointly with other university affiliated facilities which have received a grant under subsection (a), can establish and operate one or more satellite centers which would be located in areas not served by a university affiliated facility. Such a study shall be carried out in consultation with the State Planning Council for the State in which the facility is located and where the satellite center would be established.

"(2) Assessing the need for trained personnel in providing assistance to persons with developmental disabilities.

"(3) Provision of service-related training to practitioners providing services to persons with developmental disabilities.

"(4) Conducting an applied research program designed to produce more efficient and effective methods (A) for the delivery of services to persons with developmental disabilities, and (B) for the training of professionals, para-professionals, and parents who provide these services.

The amount of a grant under paragraph (1) may not exceed $25,000.

"(c) The Secretary may make grants to pay part of the costs of establishing satellite centers and may make grants to satellite centers to pay part of their administration and operation costs. The Secretary may approve an application for a grant under this subsection only if the feasibility of establishing or operating the satellite center for which the grant is applied for has been established by a study assisted under this section.

"APPLICATIONS

"SEC. 122. (a) Not later than six months after the date of the enactment of the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978, the Secretary shall establish by regulation standards for university affiliated facilities. These standards for facilities shall reflect the special needs of persons with developmental disabilities who are of various ages, and shall include performance standards relating to each of the activities described in section 102(10).

"(b) No grant may be made under section 121 unless an application therefor is submitted to, and approved by, the Secretary. Such an application shall be submitted in such form and maner, and contain such information, as the Secretary may require. Such an application shall be approved by the Secretary only if the application contains or is supported by reasonable assurances that—

"(1) the making of the grant will (A) not result in any decrease in the use of State, local, and other non-Federal funds for services for persons with developmental disabilities and for training of persons to provide such services, which funds would (except for such grant) be made available to the applicant, and (B) be used to supplement and, to the extent practicable, increase the level of such funds; and

"(2)(A) the applicant's facility is in full compliance with the standards established under subsection (a), or

"(B)(i) the applicant is making substantial progress toward bringing the facility into compliance with such standards, and (ii) the facility will, not later than three years after the date of approval of the initial application or the date standards are promulg ted under subsection (a), whichever is later, fully comply with such standards.

"(c) The Secretary shall establish such a process for the review of applications for grants under section 121 as will ensure, to the maximum extent feasible, that each Federal agency that provides funds for the direct support of the applicant's facility reviews the application.

"(d)(1) The amount of any grant under section 121(a) to a university affiliated facility shall not be less than $150,000 for any fiscal year.

"(2) The amount of any grant under section 121(c) to a satellite center which has received a grant under section 121(b) (as in effect before the date of the enactment of the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978) for the fiscal year ending September 30, 1978, shall not be less than $75,000 for any fiscal year.

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 123. (a) For the purpose of making grants under section 121, there are authorized to be appropirated $12,000,000 for the fiscal year ending September 30, 1979, $14,000,000 for the fiscal year ending September 30, 1980, and $16,000,000 for the fiscal year ending September 30, 1981.

"(b) Of the sums appropriated under subsection (a), not less than—

"(1) $9,000,000 for the fiscal year ending September 30, 1979,

"(2) $10,000,000 for the fiscal year ending September 30, 1980, and

"(3) $11,000,000 for the fiscal year ending September 30, 1981,

shall be made available for grants under subsections (a) and (c) of section 121 to qualified applicants which received grants under section 121 during the fiscal year ending September 30, 1978. The remainder of the sums appropriated for such fiscal years shall be made available as the Secretary determines, except that not less than 40 percent of such remainder shall be made available for grants under subsections (b) and (c) of section 121.".

AUTHORIZATION AND ALLOTMENTS FOR STATES

SEC. 510. (a) Section 131 is amended (1) by striking out "and" after "1977,", and (2) by inserting before the period the following: ", $55,000,000 for the fiscal year ending September 30, 1979, $65,000,000 for the fiscal year ending September 30, 1980, and $75,000,000 for the fiscal year ending September 30, 1981.".

(b) Section 132(a) is amended—

(1) by striking out subparagraph (B) of paragraph (1) and paragraphs (2), (3) and (4);

(2) by striking out "and facilities" each place it appears in subsection (a)(1);

(3) by striking out "(A)" in paragraph (1)(A) and by redesignating clauses (i) through (iii) of such paragraph as subparagraphs (A) through (C), respectively; and

(4) by inserting at the end thereof the following new paragraphs:

"(2) For any fiscal year, the allotment under paragraph (1)—

"(A) to each of American Samoa, Guam, the Virgin Islands, the Northern Mariana Islands, or the Trust Territory of the Pacific Islands may not be less than $100,000, and

"(B) to any other State may not be less than the greater of $250,000, or the amount of the allotment (determined without regard to subsection (d)) received by the State for the fiscal year ending September 30, 1978.

"(3) In determining, for purposes of paragraph (1)(B), the extent of need in any State for services for persons with developmental disabilities, the Secretary shall take into account the scope and extent of the services described, pursuant to section 133(b)(2)(B), in the State plan of the State.".

STATE PLANS FOR PROVISION OF SERVICES

SEC. 511. (a) Subsection (b) of section 133 is amended to read as follows:

"(b) In order to be approved by the Secretary under this section, a State plan for the provision of services for persons with developmental disabilities must meet the following requirements:

"State Planning Council and Administration of Plan

"(1)(A) The plan must provide for the establishment of a State Planning Council, in accordance with section 137, for the assignment to the Council of personnel in such numbers and with such qualifications as the Secretary determines to be adequate to enable the Council to carry out its duties under that section, and for the identification of the personnel so assigned.

"(B) The plan must designate the State agency or agencies which shall administer or supervise the administration of the State plan and, if there is more than one such agency, the portion of such plan which each will administer (or the portion the administration of which each will supervise).

"(C) The plan must provide that each State agency designated under subparagraph (B) will make such reports, in such form and containing such information, as the Secretary may from time to time reasonably require, and will keep such records and afford such access thereto as the Secretary finds necessary to verify such reports.

"(D) The plan must provide for such fiscal control and fund accounting procedures as may be necessary to assure the proper disbursement of and accounting for funds paid to the State under this part.

"Description of Objectives and Services

"(2) The plan must—

"(A) set out the specific objectives to be achieved under the plan and a listing of the programs and resources to be used to meet such objectives:

"(B) describe (and provide for the review annually and revision of the description not less often than once every three years) (i) the extent and scope of services being provided, or to be provided, to persons with developmental disabilities under such other State plans for Federally assisted State programs as the State conducts relating to education for the handicapped, vocational rehabilitation, public assistance, medical assistant, social services, maternal and child health, crippled children's services, and comprehensive health and mental health, and under such other plans as the Secretary may specify, and (ii) how funds alloted to the State in accordance with section 132 will be used to complement and augment rather than duplicate or replace services for persons with developmental disabilities which are eligible for Federal assistance under such other State programs;

"(C) for each fiscal year, assess and describe the extent and scope of the priority services (as defined in section 102(8)(B)) being or to be provided under the plan in the fiscal year; and

"(D) establish a method for the periodic evaluation of the plan's effectiveness in meeting the objectives described in subparagraph (A).

"Use of Funds

"(3) The plan must contain or be supported by assurances satisfactory to the Secretary that—

"(A) the funds paid to the State under section 132 will be used to make a significant contribution toward strengthening services for persons with developmental disabilities through agencies in the various political subdivisions of the State;

"(B) part of such funds will be made available by the State to public or nonprofit private entities;

"(C) such funds paid to the State under section 132 will be used to supplement and to increase the level of funds that would otherwise be made available for the purposes for which Federal funds are provided and not to supplant such non-Federal funds; and

"(D) there will be reasonable State financial participation in the cost of carrying out the State plan.

"Provision of Priority Services

"(4)(A) The plan must—

"(i) provide for the examination not less often than once every three years of the provision, and the need for the provision, in the State of the four different areas of priority services (as defined in section 102(8)(B)); and

"(ii) provide for the development, not later than the second year in which funds are provided under the plan after the date of the enactment of the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978, and the timely review and revision of a comprehensive statewide plan to plan, financially support, coordinate, and otherwise better address, on a statewide and comprehensive basis, unmet needs in the State for the provision of at least one of the areas of priority services, such area or areas to be specified in the plan, and (at the option of the State) for the provision of an additional area of services for the developmentally disabled, such area also to be specified in the plan.

"(B)(i) Except as provided in clause (iii), the plan must provide that not less than $100,000 or 65 percent of the amount available to the State under section 132, whichever is greater, will be expended, as provided in clause (ii), for service activities in the areas of services specified in the plan under subparagraph (A)(ii).

"(ii) For any year in which the sums appropriated under section 131 do not exceed—

"(I) $60,000,000, not less than $100,000 or 65 percent of the amount available to the State under section 132, whichever is greater, must be expended for service activities in no more than two of the areas of services specified in the plan under subparagraph (A)(ii), and

"(II) $90,000,000, not less than $100,000 or 65 percent of the amount available to the State under section 132, whichever is greater, must be expended for service activities in no more than three of the areas of services specified in the plan under subparagraph (A)(ii).

"(iii) A State, in order to comply with clause (i) for a fiscal year beginning before January 1, 1980, is not required to reduce the amount which is available to it under section 132 and which is expended for planning activities below the amount so expended for planning activities in the preceding fiscal year, if substantially the remainder of the amount available to the State, which is expended for other than administration, is expended for service activities in the areas of services specified in the plan under subparagraph (A)(ii). For purposes of this clause, expenditures for planning activities do not include any expenditures for service activities (as defined in clause (iv)).

"(iv) For purposes of this subparagraph, the term 'service activities' includes, with respect to an area of services, provision of services in the area, model service programs in the area, activities to increase the capacity of institutions and agencies to provide services in the area, coordinating the provision of services in the area with the provision of other services, outreach to individuals for the provision of services in the area, the training of personnel to provide services in the area, and similar activities designed to expand the use and availability of services in the area.

"(C) Notwithstanding subparagraph (B), upon the application of a State, the Secretary, pursuant to regulations which the Secretary shall prescribe, may permit the portion of the funds which must otherwise be expended under the State plan for service activities in a limited number of areas of services to be expended for service activities in additional areas of services if he determines that the expenditures of the State on service activities in the initially specified areas of services has reasonably met the need for those services in the State in comparison to the extent to which the need for such additional area or areas of services has been met in such State. Such additional areas shall, to the maximum extent feasible, be areas within the areas of priority services (as defined in section 102(8)(B)).

"(D) The plan must provide that special financial and technical assistance shall be given to agencies or entities providing services for persons with developmental disabilities who are residents of geographical areas designated as urban or rural poverty areas.

"Standards for Provision of Services and Protection of Rights of Recipients of Services

"(5)(A)(i) The plan must provide that services furnished, and the facilities in which they are furnished, under the plan for persons with developmental disabilities will be in accordance with standards prescribed by the Secretary in regulations.

"(ii) The plan must provide satisfactory assurances that buildings used in connection with the delivery of services assisted under the plan will meet standards adopted pursuant to the Act of August 12, 1968 (42 U.S.C. 4151–4157) (known as the Architectural Barriers Act of 1968).

"(B) The plan must provide that services are provided in an individualized manner consistent with the requirements of section 112 (relating to habilitation plans).

"(C) The plan must contain or be supported by assurances satisfactory to the Secretary that the human rights of all persons with developmental disabilities (especially those persons without familial protection) who are receiving treatment, services, or habilitation under programs assisted under this title will be protected consistent with section 111 (relating to rights of the developmentally disabled).

"(D) The plan must provide assurances that the State has undertaken affirmative steps to assure the participation in programs under this title of individuals generally representative of the population of the State, with particular attention to the participation of members of minority groups.

"Professional Assessment and Evaluation Systems

"(6) The plan must provide for—

"(A) an assessment of the adequacy of the skill level of professionals and paraprofessionals serving persons with developmental disabilities in the State and the adequacy of the State programs and plans supporting training of such professionals and paraprofessionals in maintaining the high quality of services provided to persons with developmental disabilities in the State; and

"(B) the planning and implementation of an evaluation system (in accordance with section 110(a)).

"Utilization of VISTA Personnel; Effect of Deinstitutionalization

"(7)(A) The plan must provide for the maximum utilization of all available community resources including volunteers serving under the Domestic Volunteer Service Act of 1973 (Public Law 93–113) and other appropriate voluntary organizations, except that such volunteer services shall supplement, and shall not be in lieu of, services of paid employees.

"(B) The plan must provide for fair and equitable arrangements (as determined by the Secretary after consultation with the Secretary of Labor) to protect the interests of employees affected by actions under the plan to provide alternative community living arrangement services (as defined in section 102(8)(E)), including arrangements designed to preserve employee rights and benefits and to provide training and retraining of such employees where necessary and arrangements under which maximum efforts will be made to guarantee the employment of such employees.

"Additional Information and Assurances Required by Secretary

"(8) The plan also must contain such additional information and assurances as the Secretary may find necessary to carry out the provisions and purposes of this part.".

(b) Section 133(d)(1) is amended by striking out "for such purpose" and inserting in lieu thereof "for the total expenditures for such purpose by all of the State agencies designated under subsection (b)(1)(B) for the administration or supervision of the administration of the State plan".

(c) Section 133(d)(2) is amended by striking out "during the fiscal year ending June 30, 1975" and inserting in lieu thereof "during the previous fiscal year".

STATE PLANNING COUNCILS

SEC. 512. (a) Subsection (a) of section 137 is amended to read as follows:

"(a)(1) Each State which receives assistance under this part shall establish a State Planning Council which will serve as an advocate for persons with developmental disabilities (as defined in section 102(7)). The members of the State Planning Council of a State shall be appointed by the Governor of the State from among the residents of that State. The Governor of each State shall make appropriate provisions for the rotation of membership on the Council of his respective State. Each State Planning Council shall at all times include in its membership representatives of the principal State agencies, higher education training facilities, local agencies, and nongovernmental agencies and groups concerned with services to persons with developmental disabilities in that State.

"(2) At least one-half of the membership of each such Council shall consist of persons who—

"(A) are persons with developmental disabilities or parents or guardians of such persons, or

"(B) are immediate relatives or guardians of persons with mentally impairing developmental disabilities,

who are not employees of a State agency which receives funds or provides services under this part, who are not managing employees (as defined in section 1126(b) of the Social Security Act) of any other entity which receives funds or provides services under this part, and who are not persons with an ownership or control interest (within the meaning of section 1124(a)(3) of the Social Security Act) with respect to such an entity.

"(3) Of the members of the Council described in paragraph (2)—

"(A) at least one-third shall be persons with developmental disabilities, and

"(B)(i) at least one-third shall be individuals described in subparagraph (B) of paragraph (2), and (ii) at least one of such

individuals shall be an immediate relative or guardian of an institutionalized persons with a developmental disability.".

(b) Section 137(b) is amended to read as follows:

"(b) Each State Planning Council shall—

"(1) develop jointly with the State agency or agencies designated under section 133(b)(1)(B) the State plan required by this part, including the specification of areas of services under section 133(b)(4)(A)(ii);

"(2) monitor, review, and evaluate, not less often than annually, the implementation of such State plan;

"(3) to the maximum extent feasible, review and comment on all State plans in the State which relate to programs affecting persons with developmental disabilities; and

"(4) submit to the Secretary, through the Governor, such periodic reports on its activities as the Secretary may reasonably request, and keep such records and afford such access thereto as the Secretary finds necessary to verify such reports.".

(c) Section 137 is amended by striking out subsection (c).

SPECIAL PROJECT GRANTS

SEC. 13. (a) Section 145 is amended—

(1) by inserting "(particularly priority services)" after "otherwise improving services" in subsection (a)(1);

(2) by striking out ", including programs" and all that follows through the semicolon at the end of paragraph (1) of subsection (a) and inserting in lieu thereof "; and";

(3) by striking out "subsection (d)" in subsections (e) and (f) and inserting in lieu thereof "subsection (f)" each place it appears;

(4) by redesignating subsections (b) through (f) as subsections (d) through (h), respectively;

(5) by inserting after paragraph (1) of subsection (a) the following (and redesignating paragraphs (2) through (9) of subsection (a) as paragraphs (1) through (8), respectively):

"(2) demonstrations (and research, training, and evaluation in connection therewith) for establishing programs which hold promise of expanding or otherwise improving protection and advocacy services related to the state protection and advocacy system (described in section 113).

"(b) Grants provided under subsection (a) shall include grants for—"; and

(6) by inserting before subsection (d), as so redesignated, the following new subsection:

"(c) The Secretary shall establish procedures to insure participation of persons with developmental disabilities and their parents or guardians in determining priorities to be utilized by the Secretary in making grants under this section.".

(b) Section 145(b), as amended by subsection (a) of this section, is amended (1) by striking out "and" at the end of paragraph (7), (2) by striking out the period at the end of paragraph (8) and inserting in lieu thereof "; and", and (3) by adding at the end thereof the following new paragraph:

"(9) developing or demonstrating innovative methods to attract and retain professionals to serve in rural areas in the habilitation of persons with developmental disabilities.".

(c) Section 145(f), as so redesignated, is amended (1) by striking out "and" after "1977,", and (2) by inserting before the period the following: ", $20,000,000 for the fiscal year ending September 30, 1979, $22,000,000 for the fiscal year ending September 30, 1980, and $26,000,000 for the fiscal year ending September 30, 1981".

TECHNICAL AND CONFORMING AMENDMENTS

SEC. 514. (a) Section 112 is amended—

(1) by striking out "after September 30, 1976," in subsection (a):

(2) by striking out "Such" in subsection (b)(3) and inserting in lieu thereof "The"; and

(3) by striking out "an" before "objective criteria" in clause (B) of subsection (b)(3).

(b) Section 134 is amended—

(1) by striking out "CONSTRUCTION," in its heading,

(2) by striking out "(a)" in subsection (a), and

(3) by striking out subsection (b).

(c) Section 135 is amended—

(1) by striking out "CONSTRUCTION," in its heading;

(2) by striking out "(a)" in subsection (a); and

(3) by striking out subsection (b).

(d) The heading to part C is amended to read as follows:

"PART C—GRANTS FOR PLANNING AND PROVISION OF SERVICES FOR PERSONS WITH DEVELOPMENTAL DISABILITIES".

EFFECTIVE DATE

SEC. 515. The amendments made by this title shall apply to payments under title I of the Mental Retardation Facilities and Community Mental Health Centers Construction Act for fiscal years beginning on and after October 1, 1978.

And the Senate agree to the same.

That the Senate recede from its disagreement to the amendment of the House to the amendment of the Senate to the title of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment insert: "An Act to amend the Rehabilitation Act of 1973 to extend certain programs established in such Act, to establish a community service employment program for handicapped individuals, and to provide comprehensive services for independent living for handicapped individuals, to amend the Developmental Disabilities Services and Facilities Construction Act to revise and extend the programs under that Act, and for other purposes.".

And the Senate agree to the same.

For consideration of titles I through IV of the House amendments to the Senate amendments only:

CARL D. PERKINS,
JOHN BRADEMAS,
EDWARD P. BEARD,
GEORGE MILLER,
DALE E. KILDEE,
CEC HEFTEL,
AUGUSTUS F. HAWKINS,

RICHARD S. SCHWEIKER,

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the House to the amendments of the Senate to the bill (H.R. 12467) to amend the Rehabilitation Act of 1973 to extend certain programs established in such Act, to establish a community service employment program for handicapped individuals, to provide for independent living rehabilitation services for the severely handicapped, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The House amendment struck out all of the Senate amendment to the text of the bill and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House to the amendment of the Senate with an amendment which is a substitute for both versions. The differences between the Senate amendment, the House amendment to the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

TITLE I—VOCATIONAL REHABILITATION SERVICES

PART A—GENERAL PROVISIONS

VOCATIONAL REHABILITATION SERVICES; AUTHORIZATION OF APPROPRIATIONS

House bill

Section 101 of the House bill authorized funds to be appropriated for the basic State vocational rehabilitation programs as follows:

[In millions]

	Fiscal year—				
	1979	1980	1981	1982	1983
Basic State grants	$808	(1)	(1)	(1)	(1)
Expansion authority		$50	$50	$50	$50
Innovation and expansion	100	100	100	100	100
Indian tribes:					
(a) Demonstration grants	(2)	(2)	(2)	(2)	(2)
(b) General programs	(3)	(3)	(3)	(3)	(3)

[1] Authorization based upon Consumer Price Index (CPI).
[2] Authorization not to exceed 1 percent of the amount appropriated for basic State program.
[3] Such sums.

Senate amendment

The Senate amendment authorized funds to be appropriated for the basic State vocational rehabilitation program as follows:

[In millions]

	Fiscal year—		
	1979	1980	1981
Basic State grants	$813	$880	$945
Expansion authority			
Innovation and expansion	45	50	55
Indian tribes	(1)	(1)	(1)

[1] Authorization not to exceed 1 percent of the amount appropriated for basic State program.

Conference agreement

The conference agreement authorizes appropriations as follows:

[In millions]

	Fiscal year—			
	1979	1980	1981	1982
Basic State grants	$808	CPI	CPI	CPI
Innovation and expansion	45	$50	$55	$60

The conference agreement is a substitute which authorizes appropriations of $808 mil-

lion for fiscal year 1979. The substitute also provides that authorizations in each of the following three fiscal years shall be determined in accordance with the Consumer Price Index provisions, and that appropriations shall not exceed $880 in fiscal year 1980, $945 in fiscal year 1981 and $972 million in fiscal year 1982.

The conference agreement also deletes the authority for demonstration grants for Indians provided in the House bill.

STATE PLANS

1. Planning Cycle

House bill

Section 102 of the House bill provided that State plans for vocational rehabilitation shall be required to be submitted every three years, and, upon request of the Commissioner, shall be revised annually to make such minor annual revisions as may be necessary to ensure the provision of accurate and current information.

Senate amendment

No provision.

Conference agreement

Senate recedes with an amendment striking the word "minor" in reference to annual revisions and striking the phrase "to ensure the provision of accurate and current information."

2. Rehabilitation Facilities

House bill

The House bill required that State plans must provide a description of methods to be utilized in existing rehabilitation facilities; provide for entering into agreements with such facilities for the provisions of services for the rehabilitation of handicapped individuals; and provide assurances that such facilities be evaluated.

Senate amendment

No provision.

Conference agreement

The Senate recedes with an amendment adding that "as appropriate" in referring to agreements with rehabilitation facilities.

3. Architectural Barriers

House bill

No provision.

Senate amendment

The Senate amendment required assurances in the State plan that rehabilitation facilities comply with the Architectural Barriers Act.

Conference agreement

The House recedes.

4. Profitmaking

House bill

The House bill required State plan assurances of authority to contract for on-the-job training with profitmaking organizations.

Senate amendment

No provision.

Conference agreement

The Senate recedes with an amendment restricting the authority to those profitmaking organizations whose applications demonstrate clear superiority with respect to the quality of services proposed under the contract. The conferees agree that the grant and contracting authority to profitmaking organizations is not to be extended to organizations making excessive profits. However this restriction is not intended to discourage the funding to profitmaking organizations.

5. Information and Referral

House bill

The House bill provided for the establishment of information and referral programs (the staff of which shall include interpreters for the deaf) in sufficient numbers to assure that handicapped individuals within the State are afforded accurate vocational rehabilitation information and appropriate referrals to other Federal and State programs and activities which would benefit them.

Senate agreement

No provision.

Conference agreement

The Senate recedes with an amendment specifying that the staff of such programs shall include interpreters only to the maximum extent feasible.

6. Withholding Funds

House bill

The House bill provided for the withholding of funds for noncompliance with State plan provisions until a final order is issued. It also authorized the Commissioner to bypass a State not in compliance and disburse funds to other public or private agencies submitting a plan meeting the State plan requirements.

Senate amendment

No provision.

Conference agreement

The Senate recedes with an amendment striking the provision relating to withholding of funds pending a final court order.

7. Judicial Review

House bill

The House bill provided specific criteria for judicial review of a Commissioner's final determination relating to a State's compliance with the State plan requirement. It provided that a State dissatisfied with such a determination may file a petition for judicial review of such determination which the United States Court of Appeals for the circuit in which the State is located. Such a petition may be filed only within the thirty-day period beginning on the date such final determination was made.

Senate amendment

No provision.

Conference agreement

The Senate recedes with an amendment specifying that the thirty-day period for the filing of petitions shall commence on the date the State receives notice of the Commissioner's final determination.

PROCEDURAL SAFEGUARDS

House bill

No provision.

Senate amendment

The Senate amendment provided that any individual served under the Act is guaranteed procedural safeguards in regard to his complaints over the initiation, modification or termination of vocational rehabilitation services. Included is a listing of procedures, the rights to be accorded to any party to any hearing conducted because of a complaint, provisions for appeal of the findings and decision of such hearing to a three-man arbitration panel, and provision for subsequent civil action for such relief as the court may determine is appropriate. No civil action could be brought under this section for monetary damages.

Conference agreement

The conference agreement is a substitute which amends the present law relating to the individualized written rehabilitation program provisions. The substitute provides that the director of the State vocational rehabilitation agency shall establish procedures for the review, upon the request of the handicapped individual (or, in appropriate cases, his parents or guardians), of determinations made by the rehabilitation counselor or coordinator. Such procedures shall include a requirement that the final decision concerning the review of any such determination be made in writing by the director of the State agency. Such director may not delegate his responsibility to make any such final decision to any other officer or employee of the State agency.

The substitute additionally provides that any handicapped individual (or, in appropriate cases, his parents or guardians) who is not satisfied with the final decision made by the director of the State agency may request the Secretary to review such decision. The Secretary shall review such decision and make recommendations to the State director as to the appropriate disposition of the matter. The Secretary is authorized to delegate this responsibility to the level of Assistant Secretary or higher.

SCOPE OF SERVICES

1. Rehabilitation Facilities

House bill

The House bill expanded the definition of vocational rehabilitation services, when provided for the benefit of groups of handicapped individuals, to permit such services to be offered at rehabilitation facilities.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

2. Communication Media

House bill

The House bill expanded the definition of vocational rehabilitation services to groups of handicapped persons to include the use of services providing recorded material for the blind and captioned films or video cassettes for the deaf.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

PART B—BASIC VOCATIONAL REHABILATATION SERVICES

STATE ALLOTMENTS

House bill

No provision.

Senate amendment

The Senate amendment directed the Secretary, pursuant to regulations which he shall prescribe, to make such adjustments in State allotments as is appropriate to reflect State efforts with respect to rehabilitating handicapped individuals.

Conference agreement

The Senate recedes with an amendment providing that, of the amounts appropriated in excess of the amounts appropriated in Fiscal Year 1978 for basic State vocational rehabilitation grants in each fiscal year, fifty percent shall be allocated to the states on the basis of the present formula without squaring the state per capita income factor. All other funds are allocated on the present formula.

CLIENT ASSISTANCE

House bill

The House bill deleted the limitation on the number of client assistance projects which may be established. It also increased the authorizations from $1.5 million to not less than $3.5 million for each fiscal year. It also required client assistance projects to help handicapped persons in pursuing legal, administrative, or other appropriate remedies to ensure the protection of their rights under this Act.

Senate amendment

The Senate amendment removed the numerical limits on the client assistance projects.

Conference agreement

The Senate recedes.

PART C—INNOVATION AND EXPANSION GRANTS

1. Independent Living

House bill

No provision.

Senate amendment

The Senate amendment provided that no less than twenty-five percent of the sums appropriated for innovation and expansion grants for fiscal year 1979, and 30 per centum of such sums appropriated for fiscal years 1980 and 1981, shall be available for independent living programs.

Conference agreement

The Senate recedes.

2. Project Duration

House bill

The House bill raises from three to five years the total period of time in which a project may receive funds for innovation and expansion.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

PART D—AMERICAN INDIAN VOCATIONAL REHABILITATION SERVICES

DEMONSTRATION GRANTS

House bill

The House bill authorized the Commissioner to make grants to Indian tribes for demonstration projects under which the tribes shall develop the capacity to administer vocational rehabilitation services for handicapped American Indians residing on or near to Indian reservations.

Senate amendment

No provision.

Conference agreement

The House recedes.

REHABILITATION SERVICES GRANTS

House bill

The House bill authorized the Commissioner to make grants to Indian tribes to provide vocational rehabilitation services to handicapped Indians residing on or near reservations, which services would be administered by the tribes as a substitution for the services previously administered by the State (unless the State chooses to continue to offer additional services). Any State which ceased to offer vocational rehabilitation services to tribes receiving grants would have its allotment for basic State vocational rehabilitation services under section 110 reduced proportionately. Appropriations made available for this program would be distributed equitably among the tribes. These grants could have covered up to 100 percent of the costs of services.

Senate amendment

The Senate amendment authorized the Secretary to make grants to tribal organizations of Indian tribes located on Federal and State reservations to pay 90 per centum of the costs of vocational rehabilitation services for handicapped American Indians residing on such reservations. The term "reservation" included Indian reservations, public domain Indian allotments, former Indian reservations in Oklahoma, and land held by incorporated Native groups, regional corporations, and village corporations under the provisions of the Alaska Native Claims Settlement Act. The amendment further provided a method of computing the allotment of any State under section 110(a) with regard to American Indians to be served under this part and that the State shall continue to provide vocational rehabilitation services under its State plan to American Indians residing on a reservation whenever such State includes any such American Indians in its State population under section 110(a)(1).

The Senate amendment further required that the application be developed in consultation with the appropriate State agency.

Provision is also made for an evaluation of the programs conducted under this part not less than 30 months after the date of enactment.

Conference agreement

The House recedes the following amendments: (1) grants shall be made to "governing bodies" of Indian tribes, rather than tribal organizations; (2) appropriations made available are to be distributed equitably among approved applicants; (3) application of certain sections of the Indian Self-Determination Act are added; and (4) other clarifying amendments are made.

TITLE II—RESEARCH

NATIONAL INSTITUTE OF HANDICAPPED RESEARCH

1. Director

House bill

The House bill provided that the Director of the National Institute of Handicapped Research shall be appointed by the President with the advice and consent of the Senate.

Senate amendment

The Senate amendment authorized the Secretary to appoint the Director.

Conference agreement

The Senate recedes.

2. Reassignment of Director's Responsibilities

House bill

No provision.

Senate amendment

The Senate amendment provided that the Secretary, after consultation with appropriate committees of the Congress, could determine that the Director be directly responsible to and report to an individual other than the Secretary or Under Secretary or Appropriate Assistant Secretary if the Secretary finds that the purposes of this title would thereby be more effectively carried out.

Conference agreement

The Senate recedes.

3. Compensation of Director

House bill

The House bill provided compensation payable under level V of the Executive Schedule for the Director.

Senate amendment

The rate of compensation for the Director under the Senate amendment is the rate payable for grade GS–18.

Conference agreement

The Senate recedes.

4. Deputy Director

House bill

The House bill provided that the Deputy Director shall be appointed by the President.

Senate amendment

The Senate amendment provided that the Deputy Director shall be appointed by the Secretary.

Conference agreement

The House recedes.

5. Administration of Research

House bill

The House bill gave the Institute responsibility for administering the programs described in sections 203, relating to research, as well as the Helen Keller National Center for Deaf-Blind Youths and Adults.

Senate amendment

The Senate amendment gave the Institute's Director responsibility in overseeing all programs and activities carried out under this title.

Conference agreement

The Senate recedes with an amendment retaining present administrative responsibility for the Helen Keller Center.

6. Long-Range Research Plan

House bill

The House bill required the Director to develop within one year a long-range plan on research activities affecting handicapped individuals. Consultation with other officials is required in developing this plan.

Senate amendment

The Senate amendment was similar, except that it required the plan to be developed in 18 months and with the specific consultation of the Commissioner of Education, appropriate officials responsible for the administration of the Development Disabilities Services and Facilities Construction Act, and the Interagency Committee on Handicapped Research.

Conference agreement

The conference agreement requires the plan to be developed within 18 months and in consultation with the officials and agencies listed in the Senate provisions.

7. Information to Congress

House bill

No provision.

Senate amendment

The Senate amendment required the Institute's Director to take whatever action is necessary to keep the Congress fully and currently informed with respect to the implementation and conduct of programs and activities carried out under this title.

Conference agreement

The House recedes.

8. Consultants

House bill

No provision.

Senate amendment

The Senate amendment authorized the services of consultants to be obtained.

Conference agreement

The House recedes.

INTERAGENCY COMMITTEE

House bill

The House bill authorized the Director to promote cooperation among Federal departments and agencies conducting research programs affecting handicapped individuals.

Senate amendment

The Senate amendment established within the Federal government an Interagency Committee on Handicapped Research in order to promote cooperation among Federal departments and agencies conducting rehabilitation research programs.

The Committee, not later than 18 months after the date of enactment of this section, and annually thereafter, shall submit to the Office of Management and Budget and appropriate committees of Congress a report making recommendations.

Conference agreement

The conference agreement accepts both House and Senate provision with an amendment clarifying that the purpose of the Committee is to promote coordination in such research activities and that the Committee shall submit its report to the President rather than the Office of Management and Budget.

INTERAGENCY COOPERATION

House bill

The House bill provided that any Federal entity proposing to establish any research project related to the purpose of this Act shall consult with the Director before establishing the project and provide the Director with sufficient opportunity to comment on the project.

It also provided that any person responsible for administering any program of the National Institutes of Health, the Veterans' Administration, the National Science Foun-

dation, the National Aeronautics and Space Administration, the Bureau of Education for the Handicapped, or of any other Federal entity, shall consult and cooperate with the Director in carrying out such program if the program is related to the purposes of this section.

Senate amendment

No provision.

Conference agreement

The Senate recedes with an amendment referring to the Director, as "Chairman of the Interagency Coordinating Committee."

GRANTS AND CONTRACTS

1. Rehabilitation Techniques

House bill

The House bill provided for basic research related to rehabilitation techniques or services.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

2. Research and Training Centers

House bill

The House bill provided that the National Institute of Handicapped Research rather than the Commissioner, is responsible for establishing and supporting research and training centers. These centers would provide training (including graduate training) to assist individuals to more effectively provide rehabilitation services; provide coordinated and advanced programs of research in rehabilitation; and provide training (including graduate training) for rehabilitation research personnel. The research to be carried out at each center would be determined on the basis of the particular needs of handicapped individuals in the geographic area served by the center, and may include basic or applied medical rehabilitation research, research regarding the psychological and social aspects of rehabilitation, and research related to vocational rehabilitation. The centers would be encouraged to develop practical applications for the findings of their research. Grants could include funds for services rendered by such a center to handicapped individuals in connection with such research and training activities.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

3. Model Preschool Centers and Employment Projects

House bill

No provision.

Senate amendment

The Senate amendment provided for special research and demonstration projects in preschool activities for handicapped children and in employment training activities. These model projects were contained under the Senate's proposed comprehensive services title.

Conference agreement

The House receded with an amendment transferring responsibility for these model projects to the National Institute of Handicapped Research.

Conference agreement

The House recedes.

4. Joint Projects

House bill

The House bill authorized a program of joint projects with the National Institutes of Health, the Health Services Administration, the Administration on Aging, the National Science Foundation, the Veterans' Administration, the Office of Education, the National Aeronautics and Space Administration, other Federal agencies, and private industry in areas of joint interest involving rehabilitation.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

5. Age-Related Research

House bill

The House bill authorized the Director to conduct a program of research related to the rehabilitation of handicapped children and of handicapped adults who are aged sixty or older.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

6. Fellowships

House bill

The House bill authorized a research fellowship program.

Senate amendment

No provision.

Conference agreement

The conference agreement provided the Director with authority to conduct a research fellowship program.

7. Video Cassettes

House bill

The House bill authorized a model research and demonstration project designed to assess the feasibility of establishing a center for producing and distributing to deaf individuals captioned video cassettes providing a broad range of education, cultural, scientific, and vocational programming.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

8. Rural Areas

House bill

No provision.

Senate amendment

The Senate amendment authorized a research program to develop and demonstrate innovative methods to attract and retain professionals to serve in rural areas in the rehabilitation of handicapped and severely handicapped individuals.

Conference agreement

House recedes.

SET-ASIDE FOR ENGINEERING CENTERS

House bill

The House bill struck the current set-aside of appropriations for rehabilitation engineering centers.

Senate amendment

The Senate amendment retained the set-aside.

Conference agreement

The Senate recedes.

TRAINING

House bill

No provision.

Senate amendment

The Senate amendment gave the Director of the Institute authority "in overseeing all programs and activities carried out under this title." This would have included training activities presently under Section 203 of the Act.

Conference agreement

The Senate recedes.

AUTHORIZATIONS

House bill

The House bill provided authorizations for administrative purposes for the National Institute of Handicapped Research at such sums as may be necessary for fiscal year 1979, and for each of the succeeding fiscal years. It also provided $75 million for fiscal year 1979, $85 million for fiscal year 1980, $95 million for fiscal year 1981, $100 million for fiscal year 1982, and $125 million for fiscal year 1983 for research grants and contracts.

Senate amendment

The Senate amendment only authorized appropriations for research activities at $38 million for fiscal year 1979, $44 million for fiscal year 1980 and $51 million for fiscal year 1981.

Conference agreement

The conference agreement is a substitute which authorizes for each of the next four fiscal years such sums as necessary for the Institute's administrative activities and $50 million, $75 million, $90 million and $100 million over the next four years respectively for research activities.

TITLE III—SUPPLEMENTARY SERVICES AND FACILITIES

REHABILITATION FACILITY CONSTRUCTION

House bill

The House bill extended authorizations of appropriations for rehabilitation facility construction under section 301 for five fiscal years at such sums as necessary for each year.

Senate amendment

The Senate amendment extended authorizations for rehabilitation facility construction for three fiscal years at such sums as necessary for each year.

Conference agreement

The conference agreement extends authorizations for four fiscal years.

VOCATIONAL TRAINING

House bill

For the purpose of making grants and entering into contracts under section 302 for vocational training, the House bill authorized to be appropriated such sums as may be necessary for each of the next five fiscal years.

Senate amendment

The Senate amendment is identical, except that appropriations are authorized for only three fiscal years.

Conference agreement

The conference agreement extends authorizations for four fiscal years.

SPECIAL PROJECTS AND DEMONSTRATIONS

1. Deaf and Blind Projects

House bill

The House bill authorized demonstration projects to improve rehabilitation services for the deaf and blind regardless of age or vocational potential.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

2. Interpreter Services for the Deaf

House bill

The House bill authorized the Commissioner to establish through designated State vocational rehabilitation agencies a program of interpreter referral services in each State. Any interpreter providing services under such programs would be required to meet minimum standards established by the Commissioner.

Senate amendment

The Senate amendment authorized the Secretary to establish interpreter information and referral centers for deaf individuals in each State. Funds would be allotted to States on the basis of the relative population of deaf individuals.

Applications from States would be required. These applications must provide as-

surances that funds would be contracted to private nonprofit agencies comprised of deaf individuals or organizations which provide assistance to deaf individuals. Funds could be used for equipment needed for deaf persons. Any interpreter participating in the program would be required to meet minimum standards established in the Registry for Interpreters for the Deaf.

The Senate amendment authorized $12 million for fiscal year 1979, $13 million for fiscal year 1980, and $14 million for fiscal year 1981 for these programs.

Conference agreement

The conference agreement is a substitute which deletes the State formula grant provision, the specific certification of interpreters by the Registry for Interpreters for the Deaf and the specific and separate authorizations.

3. Reader Services for the Blind

House bill

The House bill authorized the Commissioner to make grants to State vocational rehabilitation agencies for expanding reader services to blind persons not otherwise eligible for such services.

Senate amendment

The Senate amendment contained a provision similar to the House bill except that it authorized grants as well to existing private nonprofit national agencies or organizations.

In addition the Senate amendment contained a State formula grant program administered by State vocational rehabilitation agencies which meet certain State plan requirements relating to administrative structure. This Senate provision contained a definition of "reading services" and provided specific authorizations of $4 million in fiscal year 1979, $6 million in fiscal year 1980, and $8 million in fiscal year 1981.

Conference agreement

The conference agreement provides specific authority under present authority but eliminates the provisions relating to State administration. Separate authorizations are also eliminated.

4. Facilities Construction and Renovation

House bill

The House bill amended section 304(b)(1) to permit special project grants to be used where appropriate for constructing facilities.

Senate amendment

The Senate amendment allowed these special project grants to be used for the renovation and construction of facilities, where appropriate.

Conference agreement

The House recedes.

5. Recreation

House bill

No provision.

Senate amendment

The Senate amendment authorized grants to State and public nonprofit agencies and organizations for paying part or all of the cost of initiating recreation programs for handicapped individuals.

Conference agreement

The House recedes.

6. Authorizations

House bill

For the purpose of making grants under section 304 for special projects and demonstration (and for research and evaluation connected therewith), the House bill authorized to be appropriated such sums as may be necessary for each of the next five fiscal years.

Senate amendment

The Senate amendment is identical, except that authorizations are extended for three fiscal years.

Conference agreement

The conference agreement is a substitute which extends authorizations for four fiscal years.

THE HELEN KELLER CENTER

House bill

The House bill provided that the Center will seek to recover from States, private insurers, and other participating public and private agencies the cost of services it provides to handicapped individuals. It also transfers the administration to the Director of the National Institute of Handicapped Research. It also extends for five years, through fiscal year ending prior to October 1, 1983, the authorization of appropriations for the Center.

Senate amendment

The Senate amendment authorized appropriations for the Center for three years.

Conference agreement

The conference agreement deletes transfer of administrative responsibility for the Center to the National Institute of Handicapped Research. The Center's authorizations are extended for four fiscal years at such sums as necessary for each year.

COMPREHENSIVE REHABILITATION CENTERS

House bill

The House bill authorized grants to State vocational rehabilitation agencies to establish and operate comprehensive rehabilitation centers. Such centers would provide a broad range of services to handicapped persons, including information and referral services, counseling services, and job placement, health, educational, social, and recreational services, as well as facilities for such activities. They would provide to local governmental units and to nonprofit entities such information and technical assistance (including interpreters for the deaf) as may be necessary to assist those entities in complying with the Act. From funds received under this program State vocational rehabilitation agencies may make grants to agencies or organizations to construct and operate such centers, or such State agencies may directly provide for the construction and operation of such centers.

Senate amendment

No provision.

Conference agreement

The Senate recedes with an amendment deleting construction authority.

LOAN GUARANTEES

House bill

The House bill amended section 303 of the act by removing the current provisions relating to mortgage insurance for rehabilitation facilities and substituting provisions which guarantee the payment of principal and interest on loans made to nonprofit private entities by non-Federal lenders and by the Federal Financing Bank for the construction of rehabilitation facilities. It provided that the Commisisoner could pay to the holder of such loans amounts sufficient to reduce by 3 percent per year the net effective interest rate otherwise payable on any such loan. The total of the principal of the loans outstanding at any time with respect to which guarantees could be issued shall not exceed $200 million.

Senate amendment

No provision.

Conference agreement

The Senate recedes with an amendment changing from three to two percent the net effective interest rate reduction to be achieved by these mortgage loans and reducing the total maximum amount of outstanding loans to $100 million.

TRAINING

1. General Training

House bill

The House bill provided that the Commissioner would administer all professional training activities under the Act. It authorized the training of personnel specializing in job development and job placement for handicapped individuals. It provided that grants could be made available to train personnel in the fields of medical, social, and psychological rehabilitation. It authorized the Commissioner to provide grants to undergraduate schools of medicine to support programs in rehabilitation medicine in order to orient medical students to the care of handicapped individuals. It required the Commissioner to develop a long-term rehabilitation manpower plan designed to target resources of areas of personnel shortages.

Senate amendment

The Senate amendment required the Secretary to measure the impact as well as evaluate training programs.

Conference agreement

The Senate recedes on all training activities, except those relating to undergraduate programs in rehabilitation medicine where the House recedes.

2. Deaf Interpreter Training Progams

House bill

The House bill authorized the Secretary to establish 12 programs for training interpreters for deaf individuals. It also required that persons trained meet minimum standards established by the Secretary.

Senate amendment

The Senate amendment was similar except that it authorized the Secretary, through the Office of Information and Resources for the Handicapped to administer the programs.

Additionally, the Senate amendment provided that interpreters who provide services required under the Education of the Handicapped Act may be trained solely through funds for in-service training drawn from appropriations under the Education of the Handicapped Act, and that any interpreter trained should meet minimum standards established by the Registry for Interpreters for the Deaf.

The Senate amendment also named six specific institutions which will receive these training funds.

Conference agreement

The House recedes with an amendment which deletes mention of certification by Registry of Interpreters for the Deaf and requests that the Secretary be given authority to set minimum standards, deletes provisions relating to satellite centers which actually provide interpreter services. These services could be provided under other provisions in both bills and nothing would bar a training institution from entering into a contract with a State agency to provide such interpreter services.

The House amendment also deletes the specific citation of the following six institutions which would receive funding: Gallaudet College in Washington, District of Columbia; Saint Paul Technical Vocational Institute in Saint Paul, Minnesota; California State University in Northbridge, California; Seattle Central Community College in Seattle, Washington; Delgado College in New Orleans, Louisiana; and the National Technical Institute for the Deaf in Rochester, New York. The conferees wish to make clear that the striking of references to these intitutions should not be interpreted in any way to reflect adversely on the efforts of these institutions. Indeed, the conferees would encourage these institutions to compete for training grants and would urge that these institutions, as well as other institutions with ongoing programs of proven worth in the training of qualified interpreters, to be given priority consideration for such training grants rather than the establishment of new training programs.

3. Authorizations

House bill

The House bill authorized $35 million for fiscal year 1979, $40 million for fiscal year 1980, $45 million for fiscal year 1981, $55 million for fiscal year 1982, $65 million for fiscal year 1983, and for each such fiscal year such additional sums as may be necessary.

Senate bill

The Senate amendment authorized $34 million for fiscal year 1979, $44 million for fiscal year 1980 and $51 million for fiscal year 1981.

It also authorized $8 million for each of the next three fiscal years for training interpreters for deaf individuals.

Conference agreement

The conference agreement is a substitute which authorizes $34 million for fiscal year 1979, $40 million for fiscal year 1980, $45 million for fiscal year 1981, $50 million for fiscal year 1982 and such additional sums as may be necessary for each of the four fiscal years.

TITLE V—NATIONAL COUNCIL ON THE HANDICAPPED

1. Number of Members

House bill

The House bill established within the Department of Health, Education and Welfare a 20-member National Council on the Handicapped.

Senate amendment

The Senate amendment created a 15-member Federal Council on Handicapped Individuals within the Federal government.

Conference Agreement

The Senate recedes with an amendment limiting the number of Council members to 15.

2. Composition

House bill

The House bill provided that at least 5 members of the Council be handicapped individuals. In addition, the House bill required at least 5 members responsible for administering State vocational rehabilitation programs, at least 5 members engaged in rehabilitation research, and the remaining members knowledgeable about problems of disabled people.

Senate amendment

The Senate amendment required that members of the Council, in addition to handicapped individuals, be representatives of consumer organizations, service providers, business and labor.

Conference agreement

The House recedes with an amendment adding representation for researchers; administrators of services to the handicapped; representatives of the handicapped including parents or guardians. Handicapped individuals includes the developmentally disabled (as defined in this law), as well as all types of handicapped individuals as defined in this Act.

3. Vacancies

House bill

The House bill required vacancies on the Council to be filled by Presidential appointment with Senate confirmation.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

4. Compensation

House bill

The House bill established compensation rates for Council members.

Senate amendment

The Senate amendment was comparable, except that the Senate amendment excludes regular full-time employees of the United States from receiving compensation other than travel, subsistence, and other necessary expenses incurred in the performance of their duties.

Conference agreement

The House recedes.

5. Meetings

House bill

The House bill required that the National Council shall meet at the call of the Chairman, but not less often than six times a year.

Senate amendment

The Senate amendment was comparable except that the Senate required the Council to meet at least 4 times a year. In addition, the Senate amendment designates the Secretary of Health, Education, and Welfare as an ex officio member of the Council.

Conference agreement

The House recedes.

6. Quorum

House bill

The House required a quorum of 11 members for the Council.

Senate amendment

The Senate amendment sets the quorum at 8 members.

Conference agreement

The House recedes.

7. General Duties

House bill

The House bill required the Council to (1) establish general policies for and review the activities of RSA and NIHR and, (2) advise and make recommendations to the Commissioner, the Secretary of Health, Education, and Welfare, and the Director of NIHR on program authorized by the Rehabilitation Act.

Senate amendment

The Senate amendment required the Council to advise the President on matters relating to the special needs of severely handicapped individuals. It also required the Council to review and evaluate on a continuing basis all policies, programs, and activities concerning handicapped individuals, severely handicapped individuals, and persons with developmental disabilities conducted or assisted by all Federal departments and agencies, including programs established or assisted under the Rehabilitation Act of 1973, the Comprehensive Services for Severely Handicapped Individuals Act of 1978, and the Developmental Disabilities Service and Facilities Construction Act, with a view toward determining the effectiveness of all Federal policies, programs and activities in meeting the needs of handicapped and severely handicapped individuals.

Conference agreement

The conference agreement strikes "severely" in reference to handicapped individuals and provides that the Council shall establish general policies of the Institute and advise with respect to the policies of the Rehabilitation Services Administration and the National Institute of Handicapped Research.

Further the Council would review and evaluate all policies, programs and activities concerning handicapped individuals conducted or assisted by the Federal government, including the Rehabilitation Act of 1973, and the Developmental Disabilities Services and Facilities Construction Act.

8. Policy Guidance

House bill

The House bill provided that in "carrying out any of his functions under the Act, the Commissioner shall be governed by general policies of the National Council on the Handicapped established under title IV of this Act."

Senate amendment

No provision.

Conference agreement

The Senate recedes with an amendment striking the word "governed" and inserting in lieu thereof "guided."

9. Project Application Review

House bill

The House bill required the Council to review and make recommendations regarding applications for client assistance project, Indian demonstration projects, research and training and supplementary services.

Senate amendment

No provision.

Conference agreement

The House recedes.

10. Ombudsman

House bill

No provision.

Senate amendment

The Senate amendment required the Council to serve as an ombudsman for the severely handicapped individuals.

Conference agreement

The Senate recedes.

11. Public Information

House bill

No provision.

Senate amendment

The Senate amendment required the Council to provide public information on the needs of the handicapped.

Conference agreement

The Senate recedes.

12. Public Forums

House bill

No provision.

Senate amendment

The Senate amendment required the Council to provide public forums on the problems of the handicapped.

Conference agreement

The Senate recedes.

13. Reports

House bill

The House bill required the Council to submit a report annually to the Secretary, the Congress, and the President, containing (A) a statement of the current status of research affecting the handicapped in the United States, (B) an analysis of the activities of the Rehabilitation Services Administration and the National Institute of Handicapped Research, and (C) such recommendations respecting these actiivties as the National Council considers appropriate.

Senate amendment

The Senate amendment was comparable, except that the Senate amendment required interim reports in addition to an annual report and required the President to transmit the report to Congress with comments and recommendations.

Conference agreement

The Senate recedes with an amendment requiring the Council to "review" rather than analyze the activities of the Rehabilitation Services Administration and the National Institute of Handicapped Research.

14. Application Reviews

House bill

The House bill required that no application subject to Council review may be approved without its recommendation.

Senate amendment

No provision.

Conference agreement

The House recedes.

15. Staff

House bill

The House bill specifically provided for the appointment of a staff director and at least seven technical and professional employees.

Senate amendment

The Senate amendment provided that the Secretary shall make available to the Council such staff, information, and other assistance as it may require to carry out its activities.

Conference agreement

The Senate recedes with an amendment striking the specific reference to the appointment of a staff director.

16. Temporary Staff

House bill

The House bill authorizes the Council to hire temporary staff.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

17. Support Services

House bill

The House bill authorized the Administrator of General Services Administration to provide to the National Council on a reimbursable basis such administrative support services as the Council may request.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

18. Securing Federal Information

House bill

The House bill authorized the Council to secure information from other Federal agencies.

Senate amendment

No provision.

Conference agreement

The House recedes.

19. Hearings

House bill

The House bill authorized the Council to hold hearings.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

20. Advisory Committees

House bill

The House bill authorized the Council to appoint its own advisory committees.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

21. Use of Mails

House bill

The House bill authorized the Council to use the mails as any other Federal agency.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

22. Authorizations

House bill

The House bill authorized such sums as may be necessary for the Council for each of the five fiscal years.

Senate amendment

The Senate amendment provided annual authorizations of $1.2 million through October 1, 1981.

Conference agreement

The conference agreement is a substitute authorizing such sums as may be necessary for each of the next four fiscal years.

TITLE V—MISCELLANEOUS

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

1. Title

House bill

The House bill added "Communication" to the title of the Architectural and Transportation Barriers Compliance Board.

Senate amendment

No provision.

Conference agreement

The House recedes.

2. Federal Members

House bill

The House bill designated the heads of nine Federal agencies as members of the Board.

Senate amendment

The Senate amendment was similar but included a representative of the Department of Justice.

Conference agreement

The House recedes.

3. Public Members

House bill

The House bill required the appointment of 9 handicapped individuals who are knowledgeable about architectural barriers and not Federal employees.

Senate amendment

The Senate amendment required the appointment of 6 public members, 5 of whom must be handicapped.

Conference agreement

The Conference agreement is a substitute which requires the appointment of 11 public members, 8 of whom must be handicapped.

4. Chairman

House bill

The House bill required the President to appoint the Chairman of the Board from among its members.

Senate amendment

The Senate amendment required that the first Chairman of the Board would be appointed by the President, from among the public members who are handicapped individuals, and would serve for a term of not more than 2 years; thereafter, the Chairman shall be elected by a vote of a majority of the Board for a term for 1 year.

Conference agreement

The House recedes with an amendment to eliminate the requirement that the Chairman be a handicapped individual.

5. Terms

House bill

The House bill set the terms of office for the Board members at 6 years.

Senate amendment

The Senate amendment set the terms of office of each appointed member of the Board at 3 years, with certain exceptions.

Conference agreement

The House recedes.

6. Reappointment

No provision.

Senate amendment

The Senate amendment provides that no individual appointed as a general public member of the Board would be reappointed to the Board more than once unless such individual has not served on the Board for a period of 2 years prior to the effective date of such individual's appointment.

Conference agreement

The House recedes.

7. Federal Employment

House bill

The House bill provided that if an appointed member of the Board becomes a Federal employee, such member would be allowed to continue as a member of the Board for not longer than sixty days from the date of such employment.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

8. Compensation for Public Members

House bill

No provision.

Senate amendment

The Senate amendment included provisions for compensation of members of the Board who are not regular full-time employees of the United States, and for travel, subsistence, and other necessary expenses incurred by them, and by members of the Board who are employed by the Federal government, in carrying out their duties.

Conference agreement

The House recedes.

9. Compensation of Federal Members

House bill

No provision.

Senate amendment

The Senate amendment provided that members who are Federal employees would not be so compensated but would be reimbursed for travel and other expenses.

Conference agreement

The House recedes.

10. Voting

House bill

No provision.

Senate amendment

The Senate amendment provided for any matter calling for a vote, each member from the general public shall have one vote, and each member from Federal departments or agencies shall have one-half of one vote.

Conference agreement

The Senate recedes. The conferees intend that each member shall have one vote.

11. Architectural Barriers Act

House bill

The House bill required the Board to establish minimum guidelines and requirements for standards under the Act of August 12, 1968 (hereinafter in this section referred to as the Architectural Barriers Act of 1968), to enforce all standards prescribed by any Federal entity under such Act, to insure that any waiver or other modification of any standard is based upon findings of fact and is not arbitrary and capricious.

Senate amendment

The Senate amendment provided that a function of the Board is to insure compliance with the standards prescribed pursuant to the Architectural Barriers Act of 1968, (including the application of that act to the U.S. Postal Service) including but not limited to enforcing all standards under that Act, and insuring that all waivers and modifications of standards are based upon findings of fact and are not inconsistent with the provisions of such Act and of section 502 of this Act.

Conference agreement

The conference agreement blends the two provisions.

12. Communication Barriers

House bill

The House bill included communications within the scope of the Board's authority.

Senate amendment

No provision.

Conference agreement

The Senate recedes. The conferees acknowledge that communication barriers adversely affect visually impaired individuals and expects the Board to give its attention to these problems.

13. Section 504

House bill

The House bill required the Board to make final determinations with regard to compliance with section 504 of this Act regarding architectural, transportation, and communication barriers confronting handicapped individuals.

Senate amendment

No provision.

Conference agreement

The House recedes. The conferees however would like to express the opinion that common standards should be applied by all Federal agencies and would encourage the use of the expertise that might reside on the Board and rely upon its recommendations.

14. Report on Accessibility Costs.

House bill

The house bill required the Board to submit a report to the President and the Congress within twelve months after the effective date containing an assessment of the amount required to be expended by each state to provide handicapped individuals access to all programs and activities receiving Federal assistance.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

15. Technical Assistance

House bill

The House bill authorized the Board to provide technical assistance to any person or entity for the purpose of assisting such person or entity in complying with the act or with the accessibility standards under the Architectural Barriers Act of 1968.

Senate amendment

The Senate amendment is comparable except that the Senate amendment limits technical assistance to architectural and transportation barriers accessibility. In addition, the Senate amendment authorizes the Board to conduct technical assistance in cooperation with other Federal agencies.

Conference agreement

The conference agreement would specify that technical assistance shall include the removal of communication barriers; that the Board shall develop common standards, and that to "the extent practicable" shall provide technical assistance to public or private activities, persons or entities.

16. Profit-making Organizations

House bill

The House bill authorized the Board to make grants to, or enter into contracts with, public or private organizations.

Senate amendment

The Senate amendment authorized the Board to enter into contracts but not grants with private organizations.

Conference agreement

The Senate recedes to the House provision with an amendment restricting the authority to those profit-making organizations whose applications demonstrate clear superiority with respect to the quality of services proposed under the contract. The conferees agree that the grant and contracting authority to profit-making organizations is not to be extended to organizations making excessive profits. However, nothing stated herein is intended to discourage the use of profit-making organizations.

17. Accessibility Cost Studies

House bill

The House bill authorized the Board to make grants to state vocational rehabilitation agencies to study the costs of removing barriers.

Senate amendment

No provision.

Conference agreement

The Senate recedes. The conferees wish to express that these studies are to be used in determining reasonable expenditures for the financial assistance in barrier removal authorized elsewhere under Title V of this Act. Until such studies are completed, assistance should not be extended for such purposes.

18. Suits on Final Orders

House bill

No provision.

Senate amendment

The Senate amendment gave the executive director of the Board the authority (at the direction of the Board) to bring suit to enforce a final order of the Board.

Conference agreement

The House recedes.

19. Authorizations

House bill

The House bill authorized to be appropriated for the Board's activities such sums as may be necessary through October 1, 1983.

Senate amendment

The Senate amendment authorized $3 million for each fiscal year before October 1, 1981.

Conference agreement

The conference agreement is a substitute which authorized such sums as may be necessary for each of the next four fiscal years, but in no event to exceed $3 million for each fiscal year.

NONDISCRIMINATION PROVISIONS

1. Applicability of Section 504 to the Federal Government

House bill

The House bill provided that Section 504 applies as well to any program or activity conducted by any Executive agency. It also provided that the head of such an agency shall promulgate such regulations as may be necessary to carry out this section. Copies of such proposed regulations would be submitted to appropriate authorizing committees of the Congress, and such regulations could take effect no earlier than the thirtieth day after the date on which such regulations are so submitted to such committees.

Senate amendment

No provision.

Conference agreement

The Senate recedes with an amendment adding coverage of the provision covered by Section 501(b).

2. Attorneys' Fees and Remedies

House bill

The House bill added a new section 505 to title V of the Act to provide that in any action to enforce section 501, section 503, or section 504 of the Act, the court may allow the prevailing party, other than the United States, a reasonable attorneys' fee as part of the costs.

Senate amendment

The Senate amendment provided that the remedies, procedures, and rights set forth in section 717 of the Civil Rights Act of 1964 (42 U.S.C. 2000e–16), including the application of section 706 (f) through (k) (42 U.S.C. 2000e–5 (f) through (k), shall be available, with respect to any complaint under section 501 of this Act, to any employee or applicant for employment aggrieved by the final disposition of such complaint, or by the failure to take final action on such complaint.

The Senate amendment also provided that in fashioning an equitable or affirmative action remedy under such section, a court may take into account the reasonableness of the cost of any necessary workplace accommodation, and the availability of alternatives thereof or other appropriate relief.

It further provided that the remedies, procedures, and rights set forth in title VI of the Civil Rights Act of 1964 would be available to any person aggrieved by any act or failure to act by any recipient of Federal assistance or Federal provider of such assistance under section 504 of this Act, and that in any action or proceeding to enforce or charge a violation of a provision of title V, the court, in its discretion, may allow the prevailing party, other than the United States, a reasonable attorney's fee as part of the costs.

Conference agreement

The House recedes with amendments clarifying that in fashioning an equitable or affirmative action remedy under section 501, a court may take into account the reasonableness of the cost of any necessary work place accommodation, and the availability of alternatives therefor or other appropriate relief in order to achieve an appropriate and equitable remedy.

3. Interagency Coordinating Council

House bill

No provision.

Senate amendment

The Senate amendment established an Interagency Coordinating Council in the Federal government to develop consistent policies among Federal agencies responsible for enforcing title V of the Rehabilitation Act. This Council would be composed of the Secretary of Health, Education and Welfare, the Secretary of Labor, the Attorney General, the Chairman of the U.S. Civil Service Commission, and the Chairman of the Architectural and Transportation Barriers Compliance Board. Such Council would have responsibility for developing and implementing agreements, policies, and practices designed to maximize effort, promote efficiency, and eliminate conflict, competition, duplication, and inconsistencies among the operations, functions and jurisdictions of the various departments, agencies, and branches of the Federal Government responsible for the implementation and enforcement of the provisions of this title, and the regulations prescribed thereunder. A report would be transmitted to the President and to the Congress on or before July 1 of each year, containing a report of the Council's activities, together with such recommendations for legislative or administrative changes as it concludes are desirable.

Conference agreement

The House recedes with an amendment specifying that nothing in these provisions would impair the responsibilities assigned to any Federal agency by Executive Order, and clarifying that the Equal Employment Opportunity Commission is to be a member of the Council.

4. Secretarial responsibilities for barrier removal

House bill

The House bill authorized the Secretary to provide technical assistance for the removal of architectural, transportation, communication barriers. It also permitted the Secretary to provide financial assistance for such purposes, if the application for such assistance is approved by the Architectural and Transportation Barriers Compliance Board.

Senate amendment

No provision.

Conference agreement

The Senate recedes with an amendment specifying that the President must also approve financial assistance for barrier removal and that such assistance shall be made available only after the state studies on accessibility costs authorized under Section 502 are completed and assessed.

PART A—COMMUNITY SERVICES EMPLOYMENT PROGRAMS

1. Program established

House bill

The House bill added a new title to the act entitled "Employment Opportunities for Handicapped Individuals." Part A of the new title provided for a community service employment program, administered by the Secretary of the Department of Labor, to provide full- or part-time community service employment to handicapped persons referred to the program by State vocational rehabilitation agencies. Such employment would pay at least the minimum wage and would not result in the displacement of other currently employed workers. The Secretary shall administer the program under Part A by entering into agreements with public or private nonprofit entities (including governmental units) under which the Secretary shall provide for not to exceed 90 percent of the costs of carrying out employment projects specified in the agreement. The Secretary may enter into such agreements only if the conditions specified in Part A are satisfied. Projects funded by the Secretary shall offer appropriate placement services to handicapped employees to assist them in obtaining unsubsidized employment when the project ends.

Senate amendment

No provision.

Conference agreement

The Senate recedes with a technical amendment limited to pilot projects and programs.

2. Authorizations

House bill

The House bill authorized $80 million for fiscal year 1979, $100 million for fiscal year 1980, $125 million for fiscal year 1981, $150 million for fiscal year 1982, and $175 million for fiscal year 1983.

Senate amendment

No provision.

Conference agreement

The conference agreement is a substitute which provides authorizations for four fiscal years at the following amounts: $35 million, $50 million, $75 million and $100 million.

PART B—PROJECTS WITH INDUSTRIES; BUSINESS OPPORTUNITIES

1. Program Established

House bill

The House bill established under Part B of the new title two programs. The first authorizes the Commissioner to enter into jointly financed projects with industry for the purpose of providing handicapped individuals with on-the-job training and employment under agreements in a realistic work setting. Such projects shall be established under agreements entered into by the Commissioner and the prospective employer (with the advice of State vocational rehabilitation agencies). Under the agreements the Commissioner may pay for not more than 80 percent of the costs of any project, including costs for the distribution of special aids or equipment and for modification of any facilities of the employer if used primarily by handicapped persons. The employer must pay handicapped employees under the project the applicable minimum wage and provide benefits comparable to those afforded other employees.

The second program authorized the Commissioner to make grants to handicapped persons to enable them to operate commercial or other enterprises and to develop or market their services and products.

Senate amendment

No provision.

Conference agreement

The Senate recedes with an amendment which requires the Commissioner to consult with the Secretary of Commerce and the Secretary of Labor.

2. Authorizations

House bill

The House bill authorizes $25 million for fiscal year 1979, $25 million for fiscal year 1980, $30 million for fiscal year 1981, $35 million for fiscal year 1982, and $40 million for fiscal year 1983.

Senate amendment

No provision.

Conference agreement

The conference agreement is a substitute which authorizes such sums as necessary for each of the next four fiscal years.

TITLE VII—COMPREHENSIVE SERVICES FOR INDEPENDENT LIVING

STATE GRANTS FOR COMPREHENSIVE SERVICES FOR INDEPENDENT LIVING

House bill

The House bill added a new title VII to the Act, under which State vocational rehabilitation agencies could provide, in accordance with a 3-year plan, rehabilitation services to handicapped persons who need extensive services to develop their employment potential. Such persons, who may not be ready for vocational rehabilitation, would receive services to assist them in living more independently in their communities. Such services could include a wide range of services including health services, homemaker services, and attendant care. A handicapped person would apply for such services at an office of his or her State vocational rehabilitation agency. The agency would develop an individualized service plan for the handicapped person, would review his progress, and would seek to prepare each client for gainful employment.

Senate amendment

The Senate amendment had a similar provision but provided for an annual plan and a long-range plan. It is also permitted a State agency other than the designated State vocational rehabilitation agency to administer the program if the governor so chooses and the Secretary concurs.

Conference agreement

The Senate recedes with amendments to the State plan requirements. These amendments provide for annual revisions when necessary, and require the State plan—

(1) to describe the quality, scope, and extent of the comprehensive services being provided to severely handicapped individuals and specify the State's goals and plans with respect to the distribution of grants pursuant to the independent living and service programs under the title;

(2) to provide satisfactory assurances that facilities used in connection with the delivery of services assisted under this title will comply with the Architectural Barriers Act of 1968; and

(3) to provide that special efforts will be undertaken to provide technical assistance to poverty areas with respect to the provision of comprehensive services for handicapped individuals and describe such efforts.

The amendment further provides that priority shall be given to those handicapped individuals now unserved by other provisions of the Rehabilitation Act or the Developmental Disabilities Services and Facilities Construction.

The amendment further provides that up to 20 percent of a State's allotment for comprehensive services for independent living, under Part A, must be passed along to private nonprofit organizations, but that the Commissioner is authorized to waive this provision.

Centers for Independent Living

House bill

The House bill established a program of grants to State vocational rehabilitation agencies for centers for independent living.

Senate amendment

The Senate amendment provided that State agencies could make grants to establish and operate centers for independent living.

Conference agreement

The Senate recedes with an amendment providing that if a State does not apply within 6 months for grants for centers for independent living, under Part B, the Commissioner may provide grants directly to private nonprofit organizations for establishing and operating such centers. Furthermore, the conference agreement requires that centers for independent living include attendant care and training of personnel to provide such care; referral and counseling services with respect to attendant care; community group living arrangements; and surveys, directories, and other activities to identify appropriate housing and accessible transportation and provide housing referral, transportation and other support services.

Independent Living Services for Older Blind Persons

House bill

No provision.

Senate amendment

The Senate amendment provided for a separate program for older blind persons and established a State entitlement program with funds allocated to States on the basis of their share of the national population. To be eligible for grants a State would be required to meet certain state vocational rehabilitation agency administrative requirements.

Conference agreement

The conference agreement is a substitute, which makes services to the blind a part of this title and authorizes the Commissioner to make grants to any State vocational rehabilitation agency unit which qualifies for payments under the independent living program to develop and demonstrate new approaches in providing independent living services to older blind individuals. Such services may include, but are not limited to, any goods or services necessary to assist an older blind person to adjust to blindness and to render such person more capable of caring for his individual needs.

The Commissioner may not approve an application for a grant unless the application contains assurances that the State will seek to incorporate the new methods and approaches to developed into its State plan for independent living services.

The separate authorization is eliminated.

Protection and Advocacy

House bill

No provision.

Senate amendment

The Senate amendment required States to establish a system to protect and advocate the rights of severely handicapped individuals as a condition to a State receiving an allotment for comprehensive services for independent living. Such system (1) would have the authority to pursue legal, administrative, and other appropriate remedies to insure the protection of the rights of such individuals who are receiving services within such State, and (2) shall be independent of any agency that provides services under this title to such individuals.

Provision was also made to insure coordination of the system to advocate and protect

the rights of such individuals with the system to protect and advocate the rights of persons with developmental disabilities required under the Developmental Disabilities Services and Facilities Construction Act.

Conference agreement

The House recedes with an amendment authorizing grants to states to establish systems to protect and advocate the rights of severely handicapped individuals provided for only in this title, and authorizing appropriations of such sums as may be necessary for the fiscal years 1979–1982, except that such appropriations may not be greater than $6 million for FY '79, $7.5 million for FY '80, and $9 million for FY '81 for establishing such systems.

Employment Requirements

House bill

No provision.

Senate amendment

The Senate amendment requires affirmative action in the employment of handicapped individuals among programs receiving funds for comprehensive services for severely handicapped individuals.

Conference agreement

The House recedes.

State Councils on Severely Handicapped Individuals

House bill

No provision.

Senate amendment

The Senate amendment requires each State to establish a State Council on Severely Handicapped Individuals which will serve as an advocate for severely handicapped individuals in order to receive funds for comprehensive services for independent living.

Conference agreement

The Senate recedes.

AUTHORIZATIONS

House bill

The House bill authorized $80 million for fiscal year 1979, $130 million for fiscal year 1980, $180 million for fiscal year 1981, and such sums as necessary for each of the next two fiscal years for state grants for independent living services.

The House bill further authorized $50 million for fiscal year 1979, $80 million for fiscal year 1980, $110 million for fiscal year 1981 and such sums as necessary for each of the following two years for grants to centers for independent living.

Senate amendment

The Senate amendment authorized grants to States to assist in developing and implementing comprehensive services for severely handicapped individuals. For this purpose the following amounts are authorized: $90 million for the fiscal year ending September 30, 1979; $110 million for the fiscal year ending September 30, 1980; and $150 million for the fiscal year ending September 30, 1981.

Authorizations to carry out the Senate's proposed protection and advocacy systems were as follows: $6 million for the fiscal year 1979, $7.5 million for fiscal year 1980, and $9 million for fiscal year 1981.

The Senate amendment further authorized $8 million in fiscal year 1979, $10 million in fiscal year 1980, and $12 million in fiscal year 1981 for State grants for providing services for older blind persons.

Conference agreement

The conference agreement is a substitute authorizing appropriations for State grants for comprehensive services for independent living, centers for independent living, and independent living services for older blind persons of $80 million, $150 million, $200 million and such sums as necessary over the next fiscal year.

The conference agreement also provides that an amount not to exceed 10 percent of what is appropriated for comprehensive services for independent living, under Part A, may be used for providing independent living services to older blind persons.

DEMONSTRATION AND MODEL PROGRAMS

House bill

No provision.

Senate amendment

The Senate amendment authorized financial assistance with public agencies or private nonprofit institutions for the development and demonstration of models for centers and the provision of services to meet the special needs of severely handicapped individuals. Such models would include (1) centers to create and utilize the best methods of appraising and developing the employment potential of severely handicapped individuals; (2) models for independent living and community service centers for severely handicapped individuals; and (3) models for preschool age severely handicapped children. The amendment authorized appropriations for the programs as follows: $50 million for fiscal year 1979; $55 million for fiscal year 1980; and $65 million for fiscal year 1981.

Conference agreement

The conference agreement is a substitute which strikes the projects described in parenthesis (2) and includes the other projects under the authority of the National Institute of Handicapped Research.

Research, Training and Evaluation

House bill

No provision.

Senate amendment

The Senate amendment authorized grants for research, training and evaluation for comprehensive services for severely handicapped individuals.

Conference agreement

The Senate recedes.

MISCELLANEOUS

INTERAGENCY RESEARCH AND DEMONSTRATION AUTHORITY

House bill

Title IV of the House bill authorized the Secretary of the Department of Health, Education and Welfare to conduct research and demonstration projects concerns with the interrelated needs of handicapped individuals, elderly, children, youth, adults and families. Such sums as necessary were authorized to be appropriated for these projects.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

SPECIAL STUDY ON DISABILITY PROGRAMS

House bill

The House bill mandated the Institute to undertake a study of the special problems and needs of handicapped individuals who reside in rural areas. In addition, the Institute was directed to undertake a study of the way in which Federal programs providing benefits to handicapped individuals might be restructured so as to eliminate any disincentives for persons receiving benefits under such programs. The study is required to be submitted 24 months after effective date of this Act.

Senate amendment

The Senate amendment required the Secretary to conduct a study of the impact of vocational rehabilitation on the recipients of disability payments under the Social Security Act.

Conference agreement

The conference agreement adopts all this authority but places it under the authority of the Secretary outside the Rehabilitation Act.

TRANSFER OF FUNDS

House bill

The House bill prohibited research funds appropriated under this Act from being used for purposes other than those authorized.

Senate amendment

Title V of the Senate amendment provided that no funds appropriated under the Rehabilitation Act of 1973, the Older Americans Act of 1965, or the Child Abuse Prevention and Treatment Act may be obligated or expended for research, demonstration, or evaluation programs or projects which are not directly managed and monitored by the office charged by law with the direct responsibility for carrying out such research, demonstration or evaluation programs or projects under such Acts and which are not specifically authorized in full by one or more such Acts.

Conference agreement

The House recedes.

DECLARATION OF PURPOSE

House bill

The House bill amends the Declaration of Purpose to provide that, "The purpose of this Act is to develop and implement, through research, training, services, and the guarantee of equal opportunity, comprehensive and coordinated programs of vocational and independent living rehabilitation."

Senate amendment

No provision.

Conference agreement

The Senate recedes with a technical amendment.

DEFINITIONS

1. Establishment of Rehabilitation Facility

House bill

The House bill amends section 7(3) to strike "initial" in each place it appears in referring to equipment and staffing expenses reimbursable in establishing rehabilitation facilities.

Senate amendment

No provision.

Conference agreement

The Senate recedes with an amendment clarifying that funds may be provided for ongoing staffig and equipment as the Commissioner may determine.

2. Alcoholics and Drug Abusers

House bill

The House bill provides that for the purpose of sections 503 and 504, the term handicapped individual does not include an individual "who is an alcoholic or who is a drug abuser in need of rehabilitation."

Senate amendment

The Senate amendment provides that the term handicapped individual does not include an alcoholic or drug abuser whose condition of alcoholism or drug abuse renders that individual not qualified for employment by preventing him from performing the essential functions of the job in question.

Conference agreement

The conference substitute clarifies that only those active alcoholics or drug abusers who cannot perform the essential functions of a job in question or who present a danger to life and property are not covered by the employment provisions of sections 503 and 504.

3. Independent Living

House bill

The House bill defines "independent living services" under a new title VII, Comprehensive Services for Independent Living.

Senate amendment

The Senate amendment defines "independent living programs" for the purposes of title I activities within "Innovation and Expansion".

Conference agreement

The Senate recedes.

APPLICATION OF OTHER LAWS

House bill

The House bill exempts the Rehabilitation Act from the provisions of the Joint Funding Simplification Act and the provision of Public Law 95–134 allowing the transfer of programs among agencies in the territories.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

TECHNICAL AMENDMENT

House bill

The House bill amends title I of the Act to incorporate provisions previously contained in title IV of the Act.

Senate amendment

The Senate amendment extends the existing title IV authorities.

Conference agreement

The Senate recedes.

REFERENCE AMENDMENTS

House bill

The House bill changes all references in title I and several in title III from the Secretary to the Commissioner. It also changes those references to the Secretary in the present title IV provisions relating to reports, the information clearing house, and administration of the Act of the Commissioner. It retains Secretarial references in regard to present title IV evaluation.

Senate amendment

No provision.

Conference agreement

The Senate recedes with an amendment retaining references to the Secretary in regard to the information clearinghouse authority under the present title IV and specifying that this clearinghouse shall be referred to as "The Office of Information and Resources for the Handicapped."

Authorization for information

CLEARINGHOUSE ACTIVITIES

House bill

The House bill authorizes such sums as necessary for each of the next five fiscal years for the information clearinghouse activities presently under section 405(d) of the Act.

Senate amendment

The Senate amendment authorizes to be appropriated for carrying out the information clearinghouse activities, $600,000 for each fiscal year ending prior to October 1, 1981.

Conference agreement

The conference substitute authorizes such sums as necessary for each of the next four fiscal years. The conferees expect that the clearinghouse, heretofore referred to as the Office for Handicapped Individuals and which will henceforth be referred to as the Office of Information and Resources for the Handicapped, will receive no less funding than it received in fiscal year 1978. It is further intended that personnel presently serving in the Office for Handicapped Individuals be transferred to the new Office of Information and Resources for the Handicapped.

AMENDMENTS TO DEVELOPMENTAL DISABILITIES SERVICES AND FACILITIES CONSTRUCTION ACT

Short Title

House amendment

The House amendment designated the short title as the "Developmental Disabilities Act."

Senate amendment

The Senate amendment designated the short title as the "Developmental Disabilities Assistance and Bill of Rights Act."

Conference agreement

The House recedes.

Declaration of Objectives

House amendment

The House amendment contained a statement of findings and objectives for the Developmental Disabilities Act.

Senate amendment

No provision.

Conference agreement

The Senate recedes, with an amendment deleting objectives relating to development of a national plan.

Definition of a State

House amendment

The House amendment defined a State to include the Northern Mariana Islands.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

Definition of a Developmental Disability

House amendment

The House amendment defined a developmental disability as a severe, chronic disability which is attributable to mental retardation, cerebral palsy, epilepsy, autism or dyslexia, or to any other condition similar to those conditions because it results in similar impairment of general intellectual functioning or adaptive behavior and requires similar treatment and services; which is manifest before age 22; which is likely to continue indefinitely; which results in substantial functional limitations in certain specified areas; and which reflects the need for lifelong, individually planned services.

Senate amendment

The Senate amendment defined a developmental disability as a severe, chronic disability which is attributable to a mental or physical impairment or combination of mental and physical impairments; which is manifested before age 22; which is likely to continue indefinitely; which results in substantial functional limitations in certain specified areas; and which reflects the need for lifelong, individually planned services.

Conference agreement

The House recedes. The conferees stress, however, that the definition agreed to is intended to cover everyone currently covered under the definition and is also intended to add other individuals with similar characteristics. In this definition, individuals with the conditions currently listed in the law—autism, cerebral palsy, dyslexia, epilepsy, or mental retardation—would be included if they meet the following criteria: manifestation prior to age 22, expectation of continuing indefinitely, substantial functional limitation, and need for multiple services for an extended period. It is not the intent to exclude anyone who legitimately should have been included under the definition in current law.

The conferees further wish to make clear their intent that the services provided under the Developmental Disabilities Assistance and Bill of Rights Act to individuals already receiving service should not be diminished as a result of the revised definition, although it is intended that the planning process and provision of services will immediately address all disability groups covered by the functional definition. In addition, as funding increases, it is expected that a reasonable proportion of any new funding will be directed to meeting the needs of developmentally disabled individuals with those disabilities named in the existing law.

Study of the Impact of Modification of the Definition of a Developmental Disability

House amendment

No provision.

Senate amendment

The Senate amendment required the Secretary to make a special report to the Congress concerning the impact of the modification of the definition of a developmental disability within 30 months of the date of enactment.

Conference agreement

The House recedes with an amendment setting a date certain for the report of January 15, 1981, and making clarifying changes.

Establishment of Priority Services

House amendment

The House amendment established four priority services for the developmentally disabled: case management services, child development services, alternative community living arrangement services, and nonvocational social developmental services.

The House amendment required that for so long as appropriations under Section 131 for State allotments do not exceed $60 million, each State plan must provide that not less than $100,000, or 70 percent of the funds available to the State through State allotments under Section 132, whichever is greater, will be expended on no more than two areas of service, at least one of which must be an area selected from the priority service areas established in the Act. The second area of service may either be a priority service area or an area of service designated by the State. (The limit on the number of allowed service areas in which 70 percent must be spent increases to three when appropriations exceed $60 million but are less than $90 million).

Senate amendment

No provision.

Conference agreement

The Senate recedes, with the following amendments:

(a) the definition of one of the priority service areas, nonvocational social-developmental services, is amended to eliminate the limitation on services to those over 18 years of age

(b) the proportion of funds required to be spent on the limited areas of designated services at least one of which must be a priority service area is reduced from 70 percent to 65 percent (or $100,000, whichever is higher).

(c) provision for a waiver of the requirement that 65 percent of funds be expended on no more than two service areas. Upon application by a State, the Secretary may permit a State to designate additional areas of service if he determines that the expenditures for the originally designated two areas of service can reasonably meet the need for those services in the State in comparison to the extent to which the need for the additional area or areas of services the State wishes to designate has been met in the State. The additional areas of services to be designated are to be areas within the areas of priority services defined in the Act, to the maximum extent feasible.

In adopting the waiver provision, the conferees were addressing the particular situation which occurs in states like the State of California, which both because of its sizeable state allotment (which makes it feasible to devote 65 percent of the expenditures to more than two areas of service while still allowing a substantial commitment to each designated area), and its particular situation regarding its use of area boards to identify regional service gaps and priorities, which might be disrupted by the limitation, justified allowing some flexibility in the general standard.

Consolidation of Requirements for State Plans

House amendment

The House amendment consolidated and reorganized the requirements of current law

concerning State plans, and eliminates certain requirements that are now obsolete or unnecessary.

Senate amendment

No provision.

Conference agreement

The Senate recedes, with an amendment restoring the requirements of current law relating to (a) use of funds so as not to duplicate or replace services, (b) maximum utilization of all available community resources including volunteers serving under the Domestic Volunteer Services Act of 1973 and other voluntary organizations, and (c) provision for fair and equitable arrangements to protect employees affected by deinstitutionalization efforts.

Additional Requirements for State Plans

House amendment

No provision.

Senate amendment

The Senate amendment required State plans to include (a) assurance that facilities used in connection with the delivery of services assisted under the plan comply with the standards established pursuant to the Architectural Barriers Act of 1968, and (b) assurances that the State has undertaken affirmative steps to assure participation of individuals representative of the population, with particular attention to the participation of members of minority groups.

Conference agreement

The House recedes. The conferees note that it is their intent that a State undertake affirmative steps to assure the participation in programs for the developmentally disabled of individuals generally representative of the population of the State covered by the Act, with particular attention to the participation of members of minority groups, because they believe it is important that all citizens of a State be given equitable consideration under this Act. It is further intended that the American Indian population, whether residing on or off the reservation, be included in the planning and services under the Act.

Authorization for State Allotments

House amendment

The House amendment authorized $60 million for FY 1979, $75 million for FY 1980, and $90 million for FY 1981, for State allotments under Section 132, and established a minimum grant to American Samoa, Guam, the Virgin Islands, the Northern Mariana Islands, or the Trust Territory of the Pacific Islands of $100,000, and for all other States, not less than the higher of $250,000 or the allotment received by the State in FY 1978.

Senate amendment

The Senate amendment authorized $45 million for FY 1979, $50 million for FY 1980, and $55 million for FY 1981, for State allotments under Section 132.

Conference agreement

The Senate recedes with an amendment authorizing $55 million for FY 1979, $65 million for FY 1980, and $75 million for FY 1981.

State Planning Council role in the development of the State plan

House amendment

The House amendment provided that the State planning council develop the State plan.

Senate amendment

The Senate amendment provided that the State planning council advise regarding the State plan, and supervise its development.

Conference agreement

The Senate recedes, with an amendment providing that the State planning council jointly develop the plan with the designated State agency. The conferees note that the State council is intended to have the major role in setting broad policy, including development of the priorities for services required to be specified in the State plan.

The conferees intend that the public, and consumers of services for the developmentally disabled, have input into development of the State plan to the maximum extent that is both possible and appropriate.

Consumer Membership of State Planning Councils

House amendment

The House amendment provided that at least one-sixth of the Council members shall be persons with developmental disabilities or with a milder form of such disability, and at least one-sixth shall be immediate relatives or guardians of persons with mentally impairing developmental disabilities (with one of these a relative or guardian of an institutionalized developmentally-disabled person).

Senate amendment

The Senate amendment provided that at least one-half of the membership of the Council shall be persons with developmental disabilities or parents or guardians of such persons.

Conference agreement

The conference agreement provides that at least one-half of the membership of the Council shall be persons with developmental disabilities as defined in the Act, or their parents or guardians; and further specifies that of that one-half, at least one-third shall be persons with developmental disabilities, and at least one-third shall be immediate relatives or guardians of persons with mentally impairing developmental disabilities (with one of these a relative or guardian of an institutionalized developmentally-disabled person).

Limitation on Consumer Membership

House amendment

The House amendment provided that a person shall not be considered to fill one of the State planning council membership slots designated for the developmentally disabled (or their parents or guardians) if he is a managing employee of a State agency or any other entity receiving funds or providing services under this part, or a person with an ownership or control interest in the entity.

Senate amendment

The Senate amendment provided that a person shall not be considered to fill one of the State planning council membership slots designated for the developmentally disabled (or their parents or guardians) if he is an officer or employee of any State agency or any entity which receives funds or provides services under this part.

Conference agreement

The Senate recedes, with an amendment specifying that any employee of a State agency receiving funds under the title shall not be considered a consumer member.

National Advisory Council

House amendment

The House amendment provided for certain changes in the membership and role of the National Advisory Council on Services and Facilities for the Developmentally Disabled.

Senate amendment

The Senate amendment repealed the National Advisory Council on Services and Facilities for the Developmentally Disabled.

Conference agreement

The House recedes. The conferees note that the National Advisory Council on Services and Facilities for the Developmentally Disabled is abolished to avoid unnecessary duplication and overlap with the National Council on the Handicapped. However, it is intended that the developmentally disabled, and the parents or guardians of developmentally disabled individuals who are unable to represent themselves, be included in the membership of the National Council on the Handicapped, and that the National Council include within its functions concern with the needs of the developmentally disabled and advice on programs carried out under the Developmental Disabilities Assistance and Bill of Rights Act.

Minimum Grants for Protection and Advocacy Systems

House amendment

The House amendment established a minimum grant to each State of $50,000 or the amount of the allotment to the State in the previous fiscal year for protection and advocacy systems.

Senate amendment

No provision.

Conference agreement

The Senate recedes, with an amendment providing that the minimum grant does not apply to any of territories except Puerto Rico.

Ban on Lobbying by Protection and Advocacy Systems

House amendment

No provision.

Senate amendment

The Senate amendment affirms the applicability of section 1913 of title 18 of the United States Code to protection and advocacy systems funded under this title.

Conference agreement

The House recedes.

Authorizations for Protection and Advocacy Systems

House amendment

The House amendment authorized $9 million for FY 1979, $12 million for FY 1980, and $15 million for FY 1981 for protection and advocacy systems.

Senate amendment

The Senate amendment authorized $8 million for FY 1979, $10 million for FY 1980, and $11 million for FY 1981 for protection and advocacy systems.

Conference agreement

The Senate recedes.

Definition and Tasks of University-Affiliated Facilities

House amendment

The House amendment clarified and made more specific the functions of university-affiliated programs, and specified additional functions which they may legitimately undertake if application for funding to support the additional functions is approved by the Secretary.

Senate amendment

No provision.

Conference agreement

The Senate recedes, with an amendment restoring the term "university-affiliated facilities" in place of "university-affiliated programs", restoring their primary functions by deleting specification of technical assistance and the conduct of service-related research as basic functions, and making other minor changes.

Satellite Centers

House amendment

The House amendment deleted any specific reference to satellite centers and substitutes a description of their role, i.e., promotion of services to developmentally disabled persons in geographical areas where adequate services are not available.

Senate amendment

No provision. The Senate amendment left current law relating to satellite centers intact.

Conference agreement

The House recedes, with an amendment clarifying the definition of a satellite center

to emphasize the mission of providing services to developmentally disabled persons in geographical areas where adequate services are not available. The conferees note that although the agreement provides that university-affiliated facilities may continue to apply for funding to conduct feasibility studies for satellite centers, the conferees expect that priority would be given to funding satellite centers which have been determined to be feasible before further feasibility studies are carried out. Further, it is intended that once a satellite center has been demonstrated to be feasible through a feasibility study, even if funding for its development and operation does not immediately ensue, an additional feasibility study would not generally be required, except in highly unusual circumstances where over three years had passed since the feasibility study was done or major changes had occurred in the area.

Standards for University-Affiliated Facilities

House amendment

The House amendment provided that the Secretary shall establish standards for university-affiliated facilities within six months after enactment of this Act, and that in order to receive funding a university-affiliated facility must either be in compliance with the standards established or be making substantial progress toward complying with the standards and be able to achieve full compliance within three years of the date its initial application is approved or the standards are promulgated, whichever is later.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

Authorization Levels and Minimum Grant for University-Affiliated Facilities

House amendment

The House amendment authorized $15 million for FY 1979, $18 million for FY 1980, and $21 million for FY 1981 for university-affiliated facilities. It further provided that of the amounts appropriated, not less than $9 million in FY 1979, $10 million in FY 1980, and $11 million in FY 1981 is to be made available to qualified applicants which received grants under section 121(a) during FY 1978, for the purposes of carrying out the functions specified in the definition of university-affiliated facilities. A minimum grant of $150,000 was established for this purpose.

Senate amendment

The Senate amendment authorized $8 million in FY 1979, $10 million in FY 1980, and $12 million in FY 1981 for university-affiliated facilities.

Conference agreement

The Senate recedes, with an amendment which (a) authorizes $12 million in FY 1979, $14 million in FY 1980, and $16 million in FY 1981 for university-affiliated facilities, (b) includes funding for satellite centers which received a grant in FY 1978 within the reserved funds of $9 million, $10 million, and $11 million set aside in the House amendment for fiscal years 1979, 1980, and 1981, respectively, and (c) establishes a minimum grant of $75,000 for existing satellite centers.

The conferees emphasize that although the minimum grant concept for university-affiliated programs is retained, it is not intended that this be a guarantee of a $150,000 grant for each of the next three fiscal years for all applicants funded in or prior to FY 1978. The conferees expect that only facilities which can document substantial progress each year toward meeting the standards established by the Secretary, so that there is clear evidence the facility can reasonably be expected to be in full compliance with the standards by the three-year deadline, should be funded; further, each facility should be required to meet the standards at the earliest possible date it can do so; the three year deadline is not meant to excuse facilities from progressing as rapidly as is feasible. Additionally, it is not the intention of the conferees that grants to UEF's which currently exceed $150,000 be reduced to provide funds to meet the minimum grant for other institutions; sufficient funds have been authorized so that this should not occur.

Evaluation System

House amendment

The House amendment provided that the Secretary must develop a comprehensive system for evaluation of services provided to persons with developmental disabilities through programs assisted under this Title not later than October 1, 1979, that a State must have a time-phased plan for implementation of the evaluation system by October 1, 1980, and must have the plan in place by October 1, 1982.

Senate amendment

No provision.

Conference agreement

The Senate recedes.

Contract Authority for Special Projects

House amendment

The House amendment added contract authority to the Secretary's existing authority to use grants for special projects.

Senate amendment

No provision.

Conference agreement

The House recedes.

Additional Special Project Authority

House amendment

The House amendment provided the Secretary authority to fund special projects for determining the service needs of persons who have mental or physical impairments manifest before age 22 requiring specialized services who are not developmentally disabled as defined by this Act.

Senate amendment

The Senate amendment provided the Secretary authority to fund special projects to develop or demonstrate innovative methods to attract and retain professionals to serve in rural areas in the habilitation of persons with developmental disabilities.

Conference agreement

The House recedes. The special project authority provided in the House amendment is not necessary since the functional definition of a developmental disability has been adopted.

Authorizations for Special Projects

House amendment

The House amendment authorized $25 million in FY 1979, $28 million in FY 1980, and $31 million in FY 1981 for contracts and grants for special projects.

Senate amendment

The Senate amendment authorized $20 million for FY 1979, $22 million for FY 1980, and $26 million for FY 1981 for grants for special projects.

Conference agreement

The House recedes.

REORGANIZATION PLAN NO. 4 (ERISA ADMINISTRATION)

Mr. BROOKS. Mr. Speaker, I ask unanimous consent for the immediate consideration of the resolution (H. Res. 1308) to disapprove Reorganization Plan No. 4 transmitted by the President on August 10, 1978.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

The Clerk will report the resolution.

The Clerk read the resolution, as follows:

H. RES. 1308

Resolved, That the House of Representatives does not favor Reorganization Plan Numbered 4 transmitted to the Congress by the President on August 10, 1978.

The SPEAKER. The Chair recognizes the gentleman from Texas (Mr. BROOKS).

Mr. BROOKS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Resolution 1308 is a resolution to disapprove Reorganization Plan No. 4 of 1978. This resolution, as in previous cases is introduced under the Reorganization Act to give Congress an opportunity to vote on all reorganization plans submitted by the President. Reorganization Plan No. 4 was considered carefully by the Committee on Government Operations and our recommendation is that the House vote down House Resolution 1308 and permit Reorganization Plan No. 4 to go into effect.

The reorganization plan will remedy administrative problems created under the Employee Retirement Income Security Act of 1974 (ERISA) which resulted from the dual jurisdiction given by that

act to the Treasury Department and the Labor Department. The plan will eliminate most of the duplications by making transfers of functions between the two Departments. It would give statutory authority for minimum standards and the responsibility for funding participation and vesting of benefit rights to the Treasury Department. The Labor Department will have authority over fiduciary obligations and have the oversight of fiduciary conduct.

The plan caused some difficulties for the Ways and Means Committee because it gave the Secretary of Labor the right to veto a revocation of tax exemption for a pension plan, thereby bringing an additional Government agency into the making of tax decisions. This problem has been worked out with the administration and Representative JAKE PICKLE, who brought it to our attention, has received a letter from OMB Director Jim McIntyre which he and other members of Ways and Means consider a satisfactory resolution of that problem. This correspondence has been included in our report.

Another problem was caused by the date incorporated in the plan of April 30, 1980, by which time the President will submit to Congress legislative recommendations on long-term revisions of ERISA administration. Some of us felt that this would leave insufficient time for Congress to act during that year. Accordingly, the administration agreed to change that date to January 31, 1980, and has sent up an amendment to this effect which has been incorporated into the plan.

It is our opinion that the reorganization is a major improvement and will be beneficial to Government, business, and to the millions of participants in pension plans who look to ERISA for security. The administration of ERISA provided for will serve adequately until Congress makes permanent changes in the implementation of that important act.

I recommend a "no" vote on the resolution.

Mr. HORTON. Mr. Speaker, will the gentleman yield?

Mr. BROOKS. I yield to the distinguished gentleman from New York.

Mr. HORTON. Mr. Speaker, the President's fourth reorganization plan of 1978 is a disappointment in many ways, but at least it takes a small step forward in the battle to remedy the administrative problems created by the Employee Retirement Income Security Act of 1974. My disappointment stems from the fact that this reorganization plan, like virtually every reorganization plan submitted during the 95th Congress, simply does not do much. It does not go far enough. So while this is a modest beginning, we should not lose sight of the problems that we must still solve if we ever are to reduce the bureaucratic confusion, jurisdictional overlap, excessive and unnecessary paperwork, and just plain abuse of the current system.

Every Member of this House knows that ERISA is a tough, complex issue and effective change will not be easy to accomplish. Nevertheless, I am committed to a comprehensive reorganization of ERISA, not just a modest beginning. So while I will support Reorganization Plan No. 4, it is not because I am happy or satisfied or even impressed with it. I support it simply because it is a step in the right direction.

Reorganization Plan No. 4 will transfer from the Labor Department to the Treasury Department most responsibilities for setting minimum standards for funding, participation, and vesting of benefits in private pension plans. The Labor Department, however, will retain some authority to disapprove certain minimum standards that substantially affect collectively bargained plans.

The plan transfers to Labor the responsibility for fiduciary or trust standards and prohibited transactions, which guard against conflicts of interest and regulate the granting of exemptions from prohibited transactions. It retains the current enforcement responsibilities of both Labor and Treasury.

The plan also provides that the Office of Management and Budget and the Departments of Labor and Treasury will jointly evaluate the extent to which the plan alleviates the problems in administering ERISA. It stipulates that the President will, by January of 1980, submit to the Congress the results of the evaluation and make specific legislative recommendations for a long-term administrative structure under ERISA. In other words, Reorganization Plan No. 4, by the administration's own admission and design, is simply an interim, short-term attack at ERISA's many problems.

Mr. Speaker, because I feel that even a small step is better than none at all, I support Reorganization Plan No. 4 and I urge my colleagues to support it by rejecting House Resolution 1308.

Mr. ERLENBORN. Mr. Speaker, will the gentleman yield?

Mr. BROOKS. I yield to the distinguished gentleman from Illinois.

Mr. ERLENBORN. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise in opposition to the resolution of disapproval.

This reorganization plan will put in place a reorganization of the administration of ERISA. It has the support of all the members of our committee, I believe. It is only, I think, a temporary and a partial solution; but within the plan is the promise of this administration that they will come up in January of 1980 with recommendations for a final legislative resolution of the administrative problems of ERISA.

Mr. Speaker, because of that, I support the plan and ask for a vote against the resolution of disapproval.

Mr. BROOKS. Mr. Speaker, I move the previous question on the resolution of disapproval.

The previous question was ordered.

The SPEAKER. The question is on the resolution.

The resolution was rejected.

GENERAL LEAVE

Mr. BROOKS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the disapproval resolution just considered.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

SHIPPING ACT AMENDMENTS OF 1978

Mr. MURPHY of New York. Mr. Speaker, I ask unanimous consent to take from the Speaker's desk the bill (H.R. 9518) to amend the Shipping Act, 1916 to strengthen the provisions prohibiting rebating practices in the U.S. foreign trades, with a Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Strike out all after the enacting clause and insert:

That this Act may be cited as the "Shipping Act Amendments of 1978".

SEC. 2. Section 16 of the Shipping Act, 1916 is amended, by striking "$5,000" in the sixth paragraph, and inserting, in lieu thereof, "$25,000".

SEC. 3. Section 18(b) of the Shipping Act, 1916 is amended by deleting subsection (6) thereof and by adding the following new language in lieu thereof:

"(6) Whoever violates any provision of this section, other than subsection (b)(3) hereof involving rebates or refunds shall be subject to a civil penalty of not more than $5,000 for each day such violation continues.

"(7) Whoever violates subsection (b)(3) hereof by means of rebates or refunds, shall be subject to a civil penalty of not more than $25,000 for each shipment on which a rebate or refund was paid and to suspension by the Commission of any or all tariffs filed by or on behalf of such carrier, or suspension of that carrier's right to utilize any or all tariffs of conferences of which that carrier may be a member, for a period not to exceed twelve months. Any carrier whose tariffs or rights of use thereof have been suspended pursuant to this paragraph and who accepts cargo for carriage during the suspension period which cargo otherwise would have been governed by the provisions of the suspended tariff(s) shall be subject to a civil penalty of not more than $50,000 for each shipment so accepted.

"For purposes of this subsection and section 22(c) of this Act, a shipment shall mean all of that cargo, the carriage of which is evidenced by a single bill of lading.".

SEC. 4. Section 21 of the Shipping Act, 1916 is amended by designating the existing two paragraphs as subsection "(a)" and by adding a new subsection (b) as follows:

"(b) The Commission shall require the chief executive officer of every vessel operating common carrier by water in foreign commerce and to the extent it deems feasible, may require any shipper, consignor, consignee, forwarder, broker, other carrier or other person subject to this Act, to file a periodic, written certification under oath with the Commission attesting to—

"(1) a policy prohibiting the payment, solicitation, or receipt of any rebate which is unlawful under the provisions of this Act;

"(2) the fact that such policy has been promulgated recently to each owner, officer, employee, and agent thereof;

"(3) the details of the efforts made, within the company or otherwise, to prevent or correct illegal rebating; and

"(4) full cooperation with the Commission in its investigation of illegal rebating or refunds in United States foreign trades, and in its efforts to end such illegal practices.

The Commission may by regulation prescribe the form and content of any certification required under the authority of this subsection. Failure to file any such certification shall result in a civil penalty of not more than $5,000 for each day such violation continues.".

SEC. 5. Section 22 of the Shipping Act, 1916 is amended as follows:

(a) designate the two existing paragraphs as "(a)" and "(b)", respectively;

(b) amend subsection (b), as designated by this Act, by deleting therefrom the phrase "except as to orders for the payment of money,"; and

(c) immediately after subsection (b), as designated by this Act, insert the following:

"(c)(1) In addition to, and without limiting the authority granted to the Commission by subsections (a) and (b) hereof, the Commission may, on its own motion, institute an adjudicatory investigation into possible violations of section 16 (other than paragraphs First and Third) involving rebates or refunds in foreign commerce or violations of section 18(b)(3) involving rebates or refunds, with the powers set forth in subsection (c)(2) hereof in addition to those already contained in sections 27, 43, and other sections of this Act.

"(2) Failure on the part of any person, respondent to a proceeding instituted pursuant to subsection (c)(1), or any other person directly or indirectly controlling, controlled by, or under common control with such respondent, to comply with any subpena or any duly issued order compelling an answer to interrogatories or to designated questions propounded by deposition or compelling production of documents in relation to any investigation conducted under subsection (c)(1), shall authorize the Commission to issue an order to show cause why any or all tariffs filed pursuant to section 18(b) of this Act, by or on behalf of a respondent carrier, or any or all rights of a respondent carrier to utilize such tariffs in the case of conference tariffs, should not be suspended until that carrier or any person directly or indirectly controlling, controlled by, or under common control with such carrier, has fully responded to the pertinent deposition, interrogatory, production request or motion, or subpena, and after such proceeding, and after consultation with the Secretary of State, to suspend those tariffs or the respondent carrier's right to utilize such tariffs. Any carrier whose tariff(s) or rights of use thereof have been suspended pursuant to this subparagraph and who accepts cargo for carriage during the suspension period which cargo otherwise would have been governed by the provisions of the suspended tariff(s) shall be subject to a civil penalty of not more than $50,000 for each shipment so accepted.

"(3) The Secretary of State shall take appropriate steps to negotiate a regime of cooperation with other maritime nations engaged in United States foreign trades to secure compliance with the Commission's requirements for information. He shall issue a report to the President and the Congress within one hundred and eighty days after enactment of this Act on the results of those negotiations. If the President deems that the steps taken provide saisfacory Commission access to such information, he shall so certify to the Congress within thirty days after receipt of the Secretary's report. If such certification is not made, the penalties prescribed in paragraph (c)(2) for failure to comply with information requests shall be mandatory.

"(4) Before any tariff suspension ordered pursuant to paragraph (c)(2) becomes effective, it shall be immediately submitted to the President who may, within ten days after receiving it, disapprove any such order if he finds that disapproval is required for reasons of the national defense or the foreign policy of the United States.".

SEC. 6. Section 23 of the Shipping Act, 1916 is amended by deleting therefrom the language ", other than for the payment of money,".

SEC. 7. Section 27 of the Shipping Act, 1916 is amended by deleting from subsection (b) thereof the phrase "other than for the payment of money".

SEC. 8. Section 29 of the Shipping Act, 1916 is amended by deleting therefrom the phrase "other than an order for the payment of money,".

SEC. 9. Section 30 of the Shipping Act, 1916 is amended in the initial and final paragraphs thereof by deleting the phrase "for the payment of money" and by inserting, in lieu thereof, the phrase "for the payment of reparation".

SEC. 10. Section 32 of the Shipping Act, 1916 is amended by inserting at the end thereof the following new subsections:

"(d) No penalty shall be imposed on any person for conspiracy after August 29, 1972: (1) to rebate or refund in violation of the initial paragraph or paragraph Second of section 16, or under section 18(b)(3) of this Act; or (2) to defraud the Commission by concealment of such rebates or refunds in any manner.

"(e) Notwithstanding any other provision of law, the Commission shall have authority to assess or compromise all civil penalties provided in this Act: *Provided, however,* That, in order to assess such penalties a formal proceeding under section 22 of this Act shall be commenced within five years from the date when the violation occurred.".

SEC. 11. The provisions of this Act, including the amendments made by this Act, shall become effective immediately upon its date of enactment.

Mr. MURPHY of New York (during the reading). Mr. Speaker, I ask unanimous consent to dispense with the reading of the Senate amendment and that it be printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from New York?

Mr. RUPPE. Mr. Speaker, reserving the right to object, does the bill contain the language by the House?

Mr. MURPHY of New York. Mr. Speaker, if the gentleman will yield, it is identical to the House language.

Mr. RUPPE. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from New York (Mr. MURPHY) to dispense with reading the Senate amendments?

There was no objection.

Mr. MURPHY of New York. Mr. Speaker, this bill passed the House on March 22, 1978, by a vote of 390 to 1.

When the Senate took up this bill on the Senate floor, an amendment was proposed which was amended by substituting the House language as originally passed. Therefore, the bill which we now have before us, technically amended, is the House bill.

The Senate amendments also contain an amended title which was inadvertently included in the bill and should not have been contained in it. The correct title should read:

A bill to amend the Shipping Act, 1916 to strengthen the provisions prohibiting rebating practices in the United States foreign trades.

We are accepting the Senate amended title only because of the lateness of the session and our concern with insuring passage of this much-needed legislation.

This bill for the first time provides for equality of treatment of foreign-flag carriers and U.S. carriers on the high seas. It will assist the Federal Maritime Commission in carrying out its statutory responsibility to prevent discrimination in our foreign commerce through illegal rebating.

The SPEAKER. Is there objection to the initial request of the gentleman from New York (Mr. MURPHY)?

There was no objection.

A motion to reconsider was laid on the table.

INTERNATIONAL MARITIME SATELLITE TELECOMMUNICATIONS ACT

Mr. VAN DEERLIN. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 11209) to provide for the establishment, ownership, operation, and governmental oversight and regulation of international maritime satellite telecommunications services with a Senate amendment thereto, recede from disagreement to the Senate amendment, and concur therein with an amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Strike out all after the enacting clause and insert:

That this Act may be cited as the "International Maritime Satellite Telecommunications Act".

SEC. 2. The Communications Act of 1934, as amended (47 U.S.C. 151 et seq.), is further amended by adding at the end thereof the following new title:

"TITLE VII—INTERNATIONAL MARITIME SATELLITE TELECOMMUNICATIONS

"DECLARATION OF POLICY AND PURPOSE

"SEC. 701. (a) The Congress hereby declares that it is the policy of the United States to provide for the participation of the United States in an organization which is established or empowered to develop and operate an international maritime satellite telecommunications system (hereinafter in this title referred to as 'the organization'). Such participation shall be in either the International Maritime Satellite Organizatiton or another international maritime satellite telecommunications organization. Such system shall have facilities and services which will serve maritime commercial and safety needs of the United States and foreign countries.

"(b) It is the purpose of this title to provide that the participation of the United States in the organization specified in subsection (a) of this section shall be through the Communications Satellite Corporation, which constitutes a private entity operating for profit, and which is not an agency or establishment of the Federal Government.

"DEFINITIONS

"SEC. 702. For purposes of this title—

"(1) the term 'common carrier' has the meaning given it in section 3(h) of this Act;

"(2) the term 'corporation' means the Communications Satellite Corporation incorporated on February 1, 1963, under section 301 of the Communications Satellite Act of 1962;

"(3) the term 'satellite earth terminal station' means a complex of communications equipment located on land, operationally interconnected with one or more terrestrial communications systems, and capable of transmitting telecommunications to, or receiving telecommunications from, the space segment;

"(4) the term 'space segment' means any satellite or capacity on a satellite maintained under the authority of the organization, for the purpose of providing international maritime telecommunications services and the tracking, telemetry, command, control, monitoring, and related facilities and equipment required to support the operation of such satellite or capacity;

"(5) the term 'State' means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States; and

"(6) the term 'person' includes an individual, partnership, association, joint stock company, trust, or corporation.

"DESIGNATED OPERATING ENTITY

"SEC. 703. (a)(1) The Communications Satellite Corporation is hereby designated as the sole operating entity of the United States for participation, for the purpose of providing international maritime satellite telecommunications services, in the organization.

"(2) The corporation may participate in and is hereby authorized to sign the operating agreement or other like instruments of the organization as the sole designated operating entity of the United States.

"(b) The corporation—

"(1) subject to the provisions of subsection (d) of this section, shall be the sole owner and operator of any satellite earth terminal station in the United States; and

"(B) shall interconnect such stations, and the maritime satellite telecommunications provided by such stations, with the facilities and services of United States domestic common carriers and international common carriers, other than any common carrier, system, or other entity in which the corporation has any ownership interest, as authorized by the Commission; and

"(2) may establish, own, and operate the United States share of the jointly owned international space segment and associated ancillary facilities.

"(C) The corporation shall be responsible for fulfilling any financial obligation placed upon the corporation as a signatory to the operating agreement or other pertinent instruments, and any other financial obligation which may be placed upon the corporation as the result of a convention or other instrument establishing the organization. The corporation shall be the sole United States representative in the managing body of the organization.

"(d) Any person, including the United States Government or any agency thereof, may be authorized, in accordance with paragraph (1) or (2) of this subsection, to be the sole owner or operator, or both, of any satellite earth terminal station if such station is used for the exclusive purposes of training personnel in the use of equipment associated with the operation and maintenance of such station, or in carrying out experimentation relating to maritime satellite telecommunications services: Provided, That—

"(1) if such person is the United States Government or any agency thereof, such satellite earth terminal station shall have been authorized to operate by the executive department charged with such responsibility; or

"(2) in all other cases, such satellite earth terminal station shall have been authorized by the Commission.

"(e) The Commission shall determine the operational arrangements under which the corporation shall interconnect its satellite earth terminal station facilities and services with United States domestic common carriers and international common carriers, other than any common carrier, system, or other entity in which the corporation has any ownership interest, for the purpose of extending maritime satellite telecommunications services within the United States and beyond. The initial determination shall be made by the Commission no later than 6 months after the date of the enactment of this title, and the Commission shall thereupon transmit to the Congress a report relating to such determination.

"(f) Notwithstanding any provision of State law, the articles of incorporation of the corporation shall provide for the continued ability of the board of directors of the corporation to transact business under such circumstances of national emergency as the President or his delegate may determine would not permit a prompt meeting of the number of directors otherwise required to transact business.

"IMPLEMENTATION OF POLICY

"SEC. 704. (a) The Secretary of Commerce shall—

"(1) exercise such supervision over the corporation as may be necessary to insure that the activities of the corporation are consistent with the national interest of the United States;

"(2) coordinate the activities of Federal agencies with responsibilities in the field of telecommunications (other than the Commission), so as to ensure that there is full and effective compliance with the provisions of this title;

"(3) take all necessary steps to ensure the availability and appropriate utilization of the telecommunications services provided by the organization for general governmental purposes, except in any case in which a separate telecommunications system is required to meet unique governmental needs or is otherwise required in the national interest; and

"(4) exercise his authority in a manner which seeks to obtain coordinated and efficient use of the electromagnetic spectrum and orbital space, and to ensure the technical compatibility of the space segment with existing communications facilities in the United States and in foreign countries.

"(b) The President is authorized to issue instructions to the corporation in connection with its relationships and activities with foreign governments and international entities and other organizations (including the organization) as may be necessary to ensure that such relationships and activities are consistent with the foreign policy of the United States.

"(c) The Commission shall—

"(1) institute such proceedings as may be necessary to carry out the provisions of sections 703(b) and 703(e) of this title;

"(2) make recommendations to—

"(A) the Secretary of Commerce, for the purpose of assisting the Secretary in supervising the corporation pursuant to subsection (a)(1) of this section; and

"(B) the President, to assist the President in his issuance of instructions to the corporation pursuant to subsection (b) of this section;

"(3) grant such authorizations as may be necessary under title II and title III of this Act to enable the corporation—

"(A) to provide to the public, pursuant to section 703(b)(1)(B) of this title, space segment channels of communication obtained from the organization; and

"(B) to construct and operate such satellite earth terminal stations in the United States as may be necessary to provide sufficient access to the space segment;

"(4) establish procedures to provide for the continuing review of the telecommunications activities of the corporation as the United States signatory to the operating agreement to other like instruments; and

"(5) prescribe such rules as may be necessary to carry out the provisions of this title.

"(d) The Commission is authorized to issue such instructions to the corporation with respect to regulatory matters within the jurisdiction of the Commission.

"STUDY OF STRUCTURE AND ACTIVITIES OF COMMUNICATIONS SATELLITE CORPORATION

"SEC. 705. (a) The Commission shall conduct a study of the corporate structure and operating activities of the corporation, with a view toward determining whether any changes are required to ensure that the corporation is able to fulfill its obligations and carry out its functions under this title, this Act, and the Communications Act of 1962.

"(b) The Commission shall transmit a report to the Congress no later than 12 months after the date of the enactment of this title relating to the study of the corporation conducted under subsection (a) of this section. Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the Commission related to such findings and conclusions, and any recommendations of the Commission for such legislative or other action as the Commission considers necessary or appropriate.

"STUDY OF PUBLIC MARITIME COAST STATION SERVICES

"SEC. 706. (a) The Commission shall conduct a study of public maritime coast station services, as that term is defined in 47 CFR Part 81, with particular emphasis on high seas services, with a view toward determining whether the rules and regulations of the Commission and the assignment of licenses and radio frequencies in effect on the date of the enactment of this title should be subject to any alteration in order to establish a systematic approach for the provision of modern and effective maritime telecommunications systems.

"(b) The Commission shall transmit a report to the Congress no later than 18 months after the date of the enactment of this title relating to the study of public maritime coast station services conducted under subsection (a) of this section. Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the Commission related to such findings and conclusions, and any recommendations of the Commission for such legislative or other action as the Commission considers necessary or appropriate.

"STUDY OF RADIO NAVIGATION SYSTEMS

"SEC. 707. (a) The President, in conjunction with Government agencies which will or may be affected by the development of a Government-wide radio navigation plan, shall conduct a study of all Government radio navigation systems to determine the most effective manner of reducing the proliferation and overlap of such systems. The objective of such study shall be the development of such a plan.

"(b) The President shall transmit a report to the Congress no later than 12 months after the date of the enactment of this title relating to the study conducted under subsection (a) of this section. Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the President related to such findings and conclusions, and any recommendations of the President for such legislative or other action as the President

considers necessary or appropriate for implementation of a Government-wide radio navigation plan.".

The Clerk read the House amendment to the Senate amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

That the Communications Satellite Act of 1962 is amended by adding at the end thereof the following new title:

"TITLE V—INTERNATIONAL MARITIME SATELLITE TELECOMMUNICATIONS

"SHORT TITLE

"SEC. 501. This title may be cited as the 'International Maritime Satellite Telecommunications Act'.

"DECLARATION OF POLICY AND PURPOSE

"SEC. 502. (a) The Congress hereby declares that it is the policy of the United States to provide for the participation of the United States in the International Maritime Satellite Organization (hereinafter in this title referred to as 'INMARSAT') in order to develop and operate a global maritime satellite telecommunications system. Such system shall have facilities and services which will serve maritime commercial and safety needs of the United States and foreign countries.

"(b) It is the purpose of this title to provide that the participation of the United States in INMARSAT shall be through the Communications Satellite Corporation, which constitutes a private entity operating for profit, and which is not an agency or establishment of the Federal Government.

"DESIGNATED OPERATING ENTITY

"SEC. 503. (a)(1) The Communications Satellite Corporation is hereby designated as the sole operating entity of the United States for participation in INMARSAT, for the purpose of providing international maritime satellite telecommunications services.

"(2) The corporation also shall have authority to participate in any other maritime satellite telecommunications system on an interim basis to serve the maritime commercial and safety needs of the United States through an interim operating arrangement in accordance with subsection (b).

"(3) The corporation may participate in and is hereby authorized to sign the operating agreement or other pertinent instruments of INMARSAT as the sole designated operating entity of the United States.

"(b)(1) The corporation may participate in any maritime satellite telecommunications system under subsection (a)(2) only if—

"(A) the corporation signs the operating agreement of INMARSAT before beginning such participation;

"(B) such participation is in the nature of an interim operating arrangement remaining in effect only until INMARSAT begins its operations; and

"(C)(i) in the case of participation which may be undertaken only pursuant to a treaty or executive agreement, such treaty or executive agreement is in effect; or

"(ii) in any case in which participation does not require any treaty or executive agreement, the President does not disapprove such participation during the period of 60 calendar days after the corporation notifies the President of such proposed participation.

"(2) If the corporation participates in an interim operating arrangement with a maritime satellite telecommunications system under this subsection, the provisions of this title relating to participation of the corporation in INMARSAT also shall apply to such interim participation.

"(3) Any disapproval by the President under paragraph (1)(C)(ii) shall be published in the Federal Register as soon as practicable after the date of such disapproval.

"(c) The corporation—

"(1) may own and operate satellite earth terminal stations in the United States;

"(2) shall interconnect such stations, and the maritime satellite telecommunications provided by such stations, with the facilities and services of United States domestic common carriers and international common carriers, other than any common carrier or other entity in which the corporation has any ownership interest, as authorized by the Commission;

"(3) shall interconnect such stations and the maritime satellite telecommunications provided by such stations, with the facilities and services of private communications systems, unless the Commission finds that such interconnection will not serve the public interest; and

"(4) may establish, own, and operate the United States share of the jointly owned international space segment and associated ancillary facilities.

"(d) The corporation shall be responsible for fulfilling any financial obligation placed upon the corporation as a signatory to the operating agreement or other pertinent instruments, and any other financial obligation which may be placed upon the corporation as the result of a convention or other instrument establishing INMARSAT. The corporation shall be the sole United States representative in the managing body of INMARSAT.

"(e)(1) Any person, including the Federal Government or any agency thereof, may be authorized, in accordance with paragraph (2) or paragraph (3), to be the sole owner or operator, or both, of any satellite earth terminal station if such station is used for the exclusive purposes of training personnel in the use of equipment associated with the operation and maintenance of such station, or in carrying out experimentation relating to maritime satellite telecommunications services.

"(2) If the person referred to in paragraph (1) is the Federal Government or any agency thereof, such satellite earth terminal station shall have been authorized to operate by the executive department charged with such responsibility.

"(3) In any other case, such satellite earth terminal station shall have been authorized by the Commission.

"(f) The Commission may authorize ownership of satellite earth terminal stations by persons other than the corporation at any time the Commission determines that such additional ownership will enhance the provision of maritime satellite services in the public interest.

"(g) The Commission shall determine the operational arrangements under which the corporation shall interconnect its satellite earth terminal station facilities and services with United States domestic common carriers and international common carriers, other than any common carrier, system, or other entity in which the corporation has any ownership interest, and private communications systems when authorized pursuant to subsection (c)(3) for the purpose of extending maritime satellite telecommunications services within the United States and in other areas. The initial determination of operational arrangements shall be made by the Commission no later than 6 months after the effective date of this title, and the Commission shall thereupon transmit to the Congress a report relating to such determination.

"(h) Notwithstanding any provision of State law, the articles of incorporation of the corporation shall provide for the continued ability of the board of directors of the corporation to transact business under such circumstances of national emergency as the President or his delegate may determine would not permit a prompt meeting of the number of directors otherwise required to transact business.

"IMPLEMENTATION OF POLICY

"SEC. 504. (a) The Secretary of Commerce shall—

"(1) coordinate the activities of Federal agencies with responsibilities in the field of telecommunications (other than the Commission), so as to ensure that there is full and effective compliance with the provisions of this title;

"(2) take all necessary steps to ensure the availability and appropriate utilization of the maritime satellite telecommunications services provided by INMARSAT for general governmental purposes, except in any case in which a separate telecommunications system is required to meet unique governmental needs or is otherwise required in the national interest;

"(3) exercise his authority in a manner which seeks to obtain coordinated and efficient use of the electromagnetic spectrum and orbital space, and to ensure the technical compatibility of the space segment with existing communications facilities in the United States and in foreign countries; and

"(4) take all necessary steps to determine the interests and needs of the ultimate users of the maritime satellite telecommunications system and to communicate the views of the Federal Government on utilization and user needs to INMARSAT.

"(b) The President shall exercise such supervision over, and issue such instructions to, the corporation in connection with its relationships and activities with foreign governments, international entities, and INMARSAT as may be necessary to ensure that such relationships and activities are consistent with the national interest and foreign policy of the United States.

"(c) The Commission shall—

"(1) institute such proceedings as may be necessary to carry out the provisions of section 503 of this title;

"(2) make recommendations to the President for the purpose of assisting him in his issuance of instructions to the corporation;

"(3) grant such authorizations as may be necessary under title II and title III of the Communications Act of 1934 to enable the corporation—

"(A) to provide to the public, in accordance with section 503(c)(2) of this title, space segment channels of communication obtained from INMARSAT; and

"(B) to construct and operate such satellite earth terminal stations in the United States as may be necessary to provide sufficient access to the space segment;

"(4) grant such other authorizations as may be necessary under title II and title III of the Communications Act of 1934 to carry out the provisions of this title;

"(5) establish procedures to provide for the continuing review of the telecommunications activities of the corporation as the United States signatory to the operating agreement or other pertinent instruments; and

"(6) prescribe such rules as may be necessary to carry out the provisions of this title.

"(d) The Commission is authorized to issue instructions to the corporation with respect to regulatory matters within the jurisdiction of the Commission. In the event an instruction of the Commission conflicts with an instruction of the President pursuant to subsection (b), the instructions issued by the President shall prevail.

"STUDY OF STRUCTURE AND ACTIVITIES OF COMMUNICATIONS SATELLITE CORPORATION

"SEC. 505. (a) The Commission shall conduct a study of the corporate structure and operating activities of the corporation, with a view toward determining whether any changes are required to ensure that the corporation is able to effectively fulfill its obligations and carry out its functions under this Act and the Communications Act of 1934.

"(b) The Commission shall transmit a report to the Congress not later than 18 months after the effective date of this title relating to the study of the corporation conducted under subsection (a). Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the Commission related to such findings and conclusions, and any recommendations of the Commission for such legislative or other action as the Commission considers necessary or appropriate.

"STUDY OF PUBLIC MARITIME COAST STATION SERVICES

"SEC. 506. (a) The Commission shall conduct a study of public maritime coast station services, with particular emphasis on high seas services, with a view toward determining whether the rules and regulations of the Commission and the assignment of licenses and radio frequencies in effect on the effective date of this title should be subject to any alteration in order to establish a systematic approach for the provision of modern and effective maritime telecommunications systems.

"(b) The Commission shall transmit a report to the Congress not later than 12 months after the effective date of this title relating to the study of public maritime coast station services conducted under subsection (a). Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the Commission related to such findings and conclusions, and any recommendations of the Commission for such legislative or other action as the Commission considers necessary or appropriate.

"STUDY OF RADIO NAVIGATION SYSTEMS

"SEC. 507. (a) The President, in conjunction with Government agencies which will or may be affected by the development of a Government-wide radio navigation plan, shall conduct a study of all Government radio navigation systems to determine the most effective manner of reducing the proliferation and overlap of such systems. The objective of such study shall be the development of such a plan.

"(b) The President shall transmit a report to the Congress no later than 12 months after the effective date of this title relating to the study conducted under subsection (a) of his section. Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the President related to such findings and conclusions, and any recommendations of the President for such legislation or other action as the President considers necessary or appropriate for implementation of a Government-wide radio navigation plan.

"DEFINITIONS

"SEC. 508. For purposes of this title—

"(1) the term 'person' includes an individual, partnership, association, joint stock company, trust, or corporation;

"(2) the term 'satellite earth terminal station' means a complex of communications equipment located on land, operationally interconnected with one or more terrestrial communications systems, and capable of transmitting telecommunications to, or receiving telecommunications from, the space segment;

"(3) the term 'space segment' means any satellite (or capacity on a satellite) maintained under the * * *

Mr. VAN DEERLIN (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendment and the House amendment to the Senate amendment be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from California?

Mr. BAUMAN. Mr. Speaker, reserving the right to object, could the gentleman from California (Mr. VAN DEERLIN) assure us that as far as this entire transaction is involved, there are no nongermane amendments?

Mr. VAN DEERLIN. Mr. Speaker, if the gentleman will yield, I can assure the gentleman there are none, and the chairman of the Committee on Merchant Marine and Fisheries is here to make the same assurance, as will the minority members of both committees on the gentleman's side.

Mr. BAUMAN. Mr. Speaker, I am triply assured, and I appreciate the gentleman's response.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. VAN DEERLIN. Mr. Speaker, H.R. 11209, the International Maritime Satellite Telecommunications Act, is a bill which provides for the establishment, ownership, operation, and Government oversight and regulation of international maritime satellite telecommunications services for the United States.

This bill was originally introduced on February 28, 1978, and passed the House on May 15, 1978, by a unanimous vote. We have before us today an amendment to the Senate amendment to the House bill, which reflects months of negotiations between the House and Senate. This proposed amendment is a compromise which preserves most of the concepts contained in the original House bill:

First. Interconnection. Section 503(c)(3) preserves the right of private communications systems; that is, noncommon carrier systems—to interconnect with the satellite Earth terminal stations and the maritime satellite telecommunications provided by such stations.

The proposed compromise amendment language avoids an approach taken by the Senate which was a major concern of the Department of Justice which was expressed to the Committee on Interstate and Foreign Commerce on July 14, 1978. The Department was concerned "that users be afforded some right to access the system directly" as opposed to requiring "users to contract for satellite service through one of the * * * carriers. * * * The threat that customers may switch their business to other suppliers, or vertically integrate to satisfy their individual requirement, ordinarily has a beneficial restraining influence on the prices their suppliers charge, and can also spur suppliers to providing service more responsively."

The language in the proposed amendment preserves this right for the users which was originally proposed by the House.

Second. Satellite Earth stations. Section 503(f) authorizes international common carriers, domestic common carriers, and private communications systems (in addition to Comsat) to own all or any portion of satellite Earth terminal stations if such ownership will enhance the provision of maritime satellite services in the public interest. It is expected that the Federal Communications Commission would not authorize any construction, ownership, and operation of a satellite Earth terminal station by any applicant, including Comsat, if such authorization would not enhance the provision of maritime satellite services.

The proposed compromise amendment continues to protect the concerns of the House and the Department of Justice that the legislation "imposes certain restrictions on Comsat as the designated Inmarsat participant regarding vertical integration into the ownership of Earth terminals and interconnection with commonly owned communications systems interfacing with the Inmarsat system."

The proposed language would allow the user to integrate his communications system into his ownership of satellite Earth terminal stations to satisfy the users' own individual requirements. The language allows other common carriers to own and construct satellite Earth terminal stations; it is expected that this provision will enable the non-COMSAT carriers to prevent COMSAT from monopolizing the ownership of such stations.

Third. Navigation study. The House agreed to the inclusion of the study in section 507 after the agreement of the Senate to recede from its request (Senate Report 95–1036, p. 17) that the study give "serious consideration" to encouraging INMARSAT "to meet commercial navigation and safety needs through the INMARSAT space segment." The House has found no basis whatsoever for such a recommendation. All responsible outside input to the House has indicated that such a navigation service would be a financial loss for INMARSAT.

Fourth. Interim system. Section 503(b) allows for COMSAT to participate in an interim maritime satellite telecommunications system to follow after its present MARISAT system and to proceed with the operations of INMARSAT. The proposed compromise amendment language allows for the President to disapprove such interim participation. While the House does not object to the rumored Hughes/Comsat hybrid system offering its service to INMARSAT, it hopes the President will prevent such a system from offering service in such a manner as to interfering with the creation and operation of INMARSAT.

I recommend that the Members of the House unanimously agree to this proposed compromise amendment and send this legislation to the Senate for their approval.

Mr. MURPHY of New York. Mr. Speaker, I rise in support of this legislation.

This bill is a compromise measure between the House and Senate passed bills. It is an amendment to the Senate amendment to the House bill. More importantly, H.R. 11209 does not require an authorization for an appropriation of U.S. funds.

The House bill, H.R. 11209, unanimously passed this body on May 15, 1978 by a vote of 350 to 0. The Senate passed the House bill on August 7, 1978 by a voice vote.

The legislation provides for the participation of the United States in the

International Maritime Satellite Organization (INMARSAT).

The purpose of the INMARSAT organization is to develop and operate a global satellite telecommunications system for the maritime community.

For more than 10 years the International Maritime Consultative Organization (IMCO), which is an agency of the United Nations, has been conducting meetings in an effort to improve maritime communications. After two drafts, a convention and operating agreement were completed and opened for signature on September 3, 1976. The convention provides that INMARSAT will be ratified 60 days after the documents have been signed by nations representing 95 percent of the investment shares in INMARSAT. The deadline for signature is July 3, 1979, or the INMARSAT documents would become null and void.

Mr. Speaker, this technology is the communication medium of the future for the maritime industry. Prior to the advent of satellite systems, communications techniques were limited to VHF, MF, and HF radio. Now, the problems of communicating with this conventional radio; namely, frequency congestion, blackouts, interference, and fading, will be relieved with the use of satellite systems. Moreover, satellites permit automatic operation round the clock.

With rapid and reliable communication at hand, health and safety of life at sea, efficient and economical management of ships, and maritime public correspondence services will be greatly improved. Not since the introduction of the Marconi wireless has the maritime community seen such a significant breakthrough in global telecommunications.

One aspect of the INMARSAT system that is of paramount concern to the Merchant Marine and Fisheries Committee is the promotion of maritime safety.

The capability for continuous worldwide ship-to-shore communication could revolutionize maritime search and rescue operations. Therefore, this committee is interested in the inclusion of a satellite distress relay function in the space segment of the INMARSAT system.

Presently, maritime voice and record communications service to the U.S. Navy and to commercial maritime users is provided through the MARISAT system. This is a system of three synchronous satellites, owned and operated as a joint venture by a consortium of four U.S. common carriers, and is the first application of satellite technology to maritime communications. Commercial voice and telex services began in the summer of 1976; there are currently over 100 shipboard terminals accessing the MARISAT system.

Briefly, this compromise bill, which preserves most of the concepts contained in the original House bill:

First. Declares that it is the intent of the Congress that the United States participate in INMARSAT through a private entity that operates for a profit, and is not an agency or establishment of the Federal Government;

Second. Designates the Communications Satellite Corporation (COMSAT) as the U.S. entity to provide maritime satellite telecommunications;

Third. States COMSAT may own and operate satellite Earth terminal stations. Persons other than COMSAT may own and operate satellite Earth terminal stations if the Federal Communications Commission determines that the ownership will enhance the provision of maritime satellite services in the public interest;

Fourth. Requires COMSAT to serve as a participating common carrier and connect its facilities with other domestic and international common carriers, or private communications systems unless the Federal Communications Commission finds that the interconnection will not serve the public interest;

Fifth. Authorizes the Secretary of Commerce to supervise the implementation of the act;

Sixth. Authorizes the President to issue instructions to COMSAT as the U.S. representative to INMARSAT with regard to our national interest and foreign policy;

Seventh. Provides that the President shall conduct a study of all Government radio navigation systems to determine the most effective manner of reducing the proliferation and overlap of such systems; and

Eighth. Authorizes the Federal Communications Commission to issue instructions to COMSAT as the U.S. representative to INMARSAT with respect to regulatory matters; and further authorizes the Commission to study the structure and activities of COMSAT and public maritime coast station services.

Specifically, section 503(c)(3), the interconnection section, preserves the right of private communications systems, that is, the maritime user to interconnect with the satellite Earth terminal stations and the maritime satellite telecommunications provided by such stations. It is the view of the House that the maritime user should have the most flexibility possible in designing a communications network that may better serve his needs in terms of both technology and cost.

On satellite Earth stations—503(f)—under the original House-passed bill, COMSAT, or any U.S. domestic common carrier, international common carrier, or private communication system could construct, own, and operate all or any portion of the Earth station facility. In the original Senate-passed bill COMSAT was provided with 100 percent ownership in the Earth station facilities. While the House-Senate compromise permits COMSAT to be an owner and operator of satellite Earth terminal stations in the United States, ownership by other parties including the maritime user will be authorized by the Federal Communications Commission upon a showing that the additional ownership will enhance maritime satellite service in the public interest. The House-Senate compromise allows Common Carriers and Users, in addition to COMSAT, to own and construct satellite Earth stations; in this manner the House expects the Federal Communications Commission to be mindful of the House and Executive branch in granting such authorization, so as to prevent COMSAT from monopolizing the ownership of such stations. While the House realizes that present maritime satellite telecommunications necessitate very few such stations, it is quite possible that future growth in INMARSAT services will provoke a desire for more numerous and less costly stations.

The House-Senate compromise provides for the President, in conjunction with appropriate executive branch agencies and the Federal Communications Commission to conduct a study of Government provision of radio navigation systems, and to report back to Congress within 12 months. While the House feels that this interagency study should be helpful in developing a government-wide radio navigation plan, the House believes that the future commercial maritime navigation and safety needs should not be made through the INMARSAT space segment.

The House is particularly pleased that the Senate agreed to section 504(A)(4) which states that the Secretary of Commerce will "take all necessary steps to determine the interests and needs of the ultimate users of the maritime satellite telecommunications system and to communicate the Government's views on utilization and user needs to INMARSAT."

Mr. Speaker, this bill allows the United States to participate in a new generation of maritime communications. This is in keeping with the "declaration of policy" set forth in the Merchant Marine Act, 1936, which states, as part of its purpose:

To further the development and maintenance of an adequate and well-balanced merchant marine. (D) composed of the best-equipped, safest, and most suitable types of vessels . . .

This bill does not require an authorization of appropriated funds. Moreover, the policies in this bill do not impact Intelsat or its relationship with U.S. carriers.

This bill reflects many months of negotiations between the House and Senate. It is legislation that establishes an organizational structure and operating arrangement that best serves the public interest.

I recommend that the Members of the House unanimously agree to this proposed compromise amendment and send this legislation to the Senate for their approval.

The SPEAKER. Is there objection to the initial request of the gentleman from California (Mr. VAN DEERLIN)?

There was no objection.

A motion to reconsider was laid on the table.

OIL POLLUTION LIABILITY AND COMPENSATION ACT OF 1978

Mr. MURPHY of New York. Mr. Speaker, I ask unanimous consent to take from the Speaker's desk the bill (H.R. 6803) to establish a uniform and comprehensive legal regime governing liability and compensation for damages and cleanup costs caused by oil pollution, and for other purposes, with Senate amendments thereto and concur in the Senate amendments with amendments.

The Clerk read the title of the bill.

The Clerk read the Senate amendments as follows:

Strike out all after the enacting clause and insert:

That this Act may be cited as the "Oil Pollution Liability and Compensation Act of 1978".

DEFINITIONS

SEC. 2. For the purposes of this Act—

(1) the terms "oil", "discharge", "vessel", "public vessel", "United States", "owner or operator", "remove" or "removal", "contiguous zone", "onshore facility", "offshore facility", "barrel", and "hazardous substance" shall have the meaning provided in section 311(a) of the Federal Water Pollution Control Act;

(2) the terms "State", "person", "navigable waters", and "territorial seas" shall have the meaning provided in section 502 of the Federal Water Pollution Control Act;

(3) the term "act of God" means an unanticipated grave natural disaster or other natural phenomenon of an exceptional, inevitable, and irresistible character the effects of which could not have been prevented or avoided by the exercise of due care or foresight;

(4) the term "claim" means a request, made in writing for a sum certain, for compensation for damages or removal costs resulting from a discharge of oil or a hazardous substance;

(5) the term "claimant" means any person who presents a claim for compensation under this Act;

(6) the term "damages" means damages for economic loss or the loss of natural resources as specified in section 3(a)(2) of this Act;

(7) the term "Fund" means the Oil Spill Liability Fund established under section 4 of this Act;

(8) the term "guarantor" means any person, other than the owner or operator, who provides evidence of financial responsibility for an owner or operator under this Act or section 311(p) of the Federal Water Pollution Control Act;

(9) the term "natural resources" includes land, fish, wildlife, biota, air, water, and other such resources belonging to, managed by, held in trust by, appertaining to, or otherwise controlled by the United States (including the resources of the fishery conservation zone established by the Fishery Conservation and Management Act of 1976), any State or local government, or any foreign government;

(10) the term "refinery" means a terminal which receives oil for the purpose of refinement; and

(11) the term "terminal" means any permanently situated onshore or offshore facility which receives oil in bulk directly from any vessel, offshore production facility, offshore port facility, or any pipeline including the pipeline constructed under the Trans-Alaska Pipeline Authorization Act.

LIABILITY FOR DAMAGES AND REMOVAL COSTS

SEC. 3. (a) Except where an owner or operator of a vessel or an onshore or offshore facility can prove that a discharge was caused solely by (i) an act of God, (ii) an act of war, (iii) negligence on the part of the United States Government, or (iv) an act or omission of a third party without regard to whether any such act or omission was or was not negligent, and notwithstanding any other provision or rule of law, such owner or operator of a vessel or an onshore or offshore facility from which oil or a hazardous substance is discharged in violation of section 311(b)(3) of the Federal Water Pollution Control Act shall be jointly, severally, and strictly liable for—

(1)(A) all costs of removal incurred by the United States Government or a State under subsection (c), (d), (e), (b)(2)(B)(v), or (f)(4) of section 311 of the Federal Water Pollution Control Act or under the Intervention on the High Seas Act or section 18 of the Deepwater Port Act of 1974, and

(B) any other costs or expenses incurred by any person to remove oil or a hazardous substance as the terms "remove" or "removal" are defined in section 311(a)(8) of the Federal Water Pollution Control Act; and

(2) all damages for economic loss or loss of natural resources resulting from such a discharge, including:

(A) any injury to, destruction of, or loss of any real or personal property;

(B) any loss of use of real or personal property;

(C) any injury to, destruction of, or loss of natural resources, including the reasonable costs of assessing such injury, destruction, or loss;

(D) any loss of use of any natural resources, without regard to the ownership or management of such resources;

(E) any loss of income or profits or impairment of earning capacity resulting from injury to or destruction of real or personal property or natural resources, without regard to the ownership of such property or resources; and

(F) any direct or indirect loss of tax, royalty, rental, or net profits share revenue by the Federal Government or any State or political subdivision thereof, for a period of not to exceed one year.

(b) In the case of an injury to, destruction of, or loss of natural resources under subsection (a)(2)(C) of this section, liability shall be to the United States Government and to any State for natural resources within the State or belonging to, managed by, controlled by, or appertaining to such State. The President, or the authorized representative of any State, shall act on behalf of the public as trustee of such natural resources to recover for such damages. Sums recovered shall be available for use to restore, rehabilitate, or acquire the equivalent of such natural resources by the appropriate agencies of the Federal Government or the State government, but the measure of such damages shall not be limited by the sums which can be used to restore or replace such resources.

(c)(1) The liability of an owner or operator of a vessel or an onshore or offshore facility for damages and removal costs under this section, and inclusive of the limits of liability established under section 311(f) of the Federal Water Pollution Control Act, for each discharge or incident shall not exceed—

(A) $300 per gross ton or $500,000, whichever is greater, of any vessel carrying oil or hazardous substances in bulk or in commercial quantities as cargo;

(B) $300 per gross ton of any other vessel;

(C) the total of all costs of removal under subsection (a)(1) of this section plus $50,000,000 for any offshore facility operated under the authority of or subject to the Outer Continental Shelf Lands Act;

(D) $50,000,000 for any deepwater port subject to the Deepwater Port Act of 1974 (including the liability of the licensee for a discharge from any vessel moored at such port, in any case where $50,000,000 exceeds $300 per gross ton of such vessel); or

(E) $50,000,000 for any other onshore or offshore facility.

(2) Notwithstanding the limitations of paragraph (1) of this subsection, the liability of the owner or operator of a vessel or an onshore or offshore facility under subsection (a) of this section shall be the full and total damages and removal costs not offset by any removal costs incurred on behalf of such owner or operator, if (A) the discharge of oil or a hazardous substance was the result of willful misconduct or gross negligence within the privity and knowledge of the owner or operator or of a gross or willful violation (within the privity and knowledge of the owner or operator) of applicable safety, construction, or operating standards or regulations; or (B) the owner or operator fails or refuses to provide all reasonable cooperation and assistance requested by a responsible official in connection with removal activities under the contingency plan established under section 311(c) of the Federal Water Pollution Control Act.

(3) Notwithstanding the limitations of paragraph (1) of this subsection or the exceptions or defenses of subsection (a) of this section, all costs of removal incurred by the United States Government or any State or local official or agency in connection with a discharge of oil from any offshore facility operated under the authority of or subject to the Outer Continental Shelf Lands Act or a vessel carrying oil as cargo from such a facility shall be borne by the owners and operator of the offshore facility or vessel from which the discharge occurred.

(4) If the President determines that a level of liability established by paragraph (1) above or a level of financial responsibility required by section 6 of this Act will have either a significant adverse impact on small business enterprises or a significant anti-competitive impact, the President may adjust such levels of liability or financial responsibility by rule or regulations as follows:

(A) The limit of liability or financial responsibility for facilities subject to subparagraphs 3(c)(1)(D), to no less than $35,000,000;

(B) The level of liability for facilities subject to subparagraph 3(c)(1)(C) to the total of all removal costs under subsection 3(a)(1) and an amount for all damages to no less than $35,000,000, or, the level of financial responsibility for such facilities to no less than $35,000,000.

Before publishing said proposed rule or regulation the President shall notify the Committee on Environment and Public Works and the Committee on Commerce, Science and Transportation of the United States Senate and the Committee on Merchant Marine and Fisheries and the Committee on Public Works and Transportation of the United States House of Representatives of his intention to propose said rule or regulation. The notice shall state with particularity the President's justification for said rule or regulation and shall include a statement of the views of the Federal Trade Commission on whether the liability or financial responsibility limit sought to be changed has significant anti-competitive or small business impacts.

(d) In any case where the owner or operator of a vessel or an onshore or offshore facility can prove that a discharge was caused solely by an act or omission of a third party (or solely by such an act or omission in combination with an act of God, an act of war, or negligence on the part of the United States Government), such third party shall be liable under this section as if such third party were the owner or operator of a vessel or onshore or offshore facility from which the discharge actually occurred. Where the owner or operator of a vessel carrying oil or hazardous substances as cargo or an onshore or offshore facility which handles or stores oil or hazardous substances in bulk or commercial quantities, from which oil or a hazardous substance is discharged, alleges that such discharge was caused solely by an act or omission of a third party, such owner or operator shall promptly pay to the United States Government, and any other claimant, the costs of removal or damages claimed and shall be entitled by subrogation to all rights of the United States Government or other claimant to recover such costs of removal or damages from such third party under this subsection.

(e) The President is authorized to establish by regulation, with respect to any class or category of onshore or offshore facility subject to subsection (c)(1)(E) of this section, a maximum limit of liability under this section of less than $50,000,000 but not less than $8,000,000.

(f) A discharge of oil or a hazardous substance in or on the territorial sea, internal waters, or adjacent shoreline of a foreign nation shall be deemed to be a discharge in

violation of section 311(b)(3) of the Federal Water Pollution Control Act for purposes of this section, and claims for compensation for damages and removal costs may be made under this Act by any citizen of a foreign nation or by any foreign nation, if such damages or removal costs, resulted from a discharge of oil, or threat of a discharge of oil, from—

(1) a facility located in the United States or subject to the jurisdiction of the United States;

(2) a vessel incident occurring in the navigable waters of the United States; or

(3) a vessel carrying oil as cargo between two ports subject to the jurisdiction of the United States.

(g) The owner or operator of a vessel shall be liable in accordance with this section and section 311 of the Federal Water Pollution Control Act as provided under section 7 of this Act notwithstanding any provision of the Act of March 3, 1851 (46 U.S.C. 183ff).

LIABILITY FUND ESTABLISHMENT

SEC. 4. (a)(1) There is hereby established in the Treasury of the United States an Oil Spill Liability Fund, not to exceed $200,000,000, except that such limitation shall be increased to the extent necessary to permit any moneys recovered or collected which are referred to in subsection (b) (2) and (3) of this section being paid into such Fund. The Fund shall be administered by the President and the Secretary of the Treasury, as specified in this section. The Fund may sue and be sued in its own name.

(2) There is hereby established in the Treasury of the United States a Hazardous Substances Liability Fund. After the completion of the study required under subsection (f) of this section and the effective date of any fee on hazardous substances established by the Congress to be placed in such fund, such fund shall repay to the Oil Spill Liability Fund all sums expended out of the Fund pursuant to section 5 of this Act in connection with discharges of hazardous substances, together with interest at a rate equal to that paid on notes or obligations issued under subsection (e) of this section.

(b) The Fund shall be constituted from—

(1) all fees collected pursuant to subsection (c);

(2) all moneys recovered on behalf of the Fund under section 5;

(3) all moneys recovered or collected under section 311(b)(2)(B) of the Federal Water Pollution Control Act.

(c)(1) Beginning ninety days after the enactment of this Act, the Secretary of the Treasury shall collect from the owners of refineries receiving crude oil, and from the owners of terminals receiving any oil for export from or entry into the United States whether for import or transfer to a foreign country, a fee, not to exceed 3 cents per barrel of oil received. Oil upon which a fee has been levied under this paragraph shall not be subject to subsequent levy hereunder. The person who owns such oil shall be responsible for assuring the payment of such fee and shall be obligated to reimburse the owner of such refinery or terminal, as the case may be, the full amount of the fee levied on the oil of that person and paid by the owner of the refinery or terminal.

(2) The Secretary of the Treasury, after consulting with appropriate Federal agencies, may promulgate rules and regulations relating to the collection of the fees authorized by paragraph (1) and, from time to time, the modification thereof. Modifications shall become effective on the date specified therein, but no earlier than the ninetieth day following the date the modifying regulation is published in the Federal Register. Any modification of the fee shall be designed to assure that the Fund is maintained at a level not less than $150,000,000 and not more than $200,000,000. No regulation that modifies fees, nor any modification of such a regulation, whether or not in effect, may be stayed by any court pending completion of judicial review of that regulation or modification.

(3)(A) Any person who fails to collect or pay fees as required by the regulation promulgated under paragraph (2) shall be liable for a civil penalty not to exceed $10,000, to be assessed by the Secretary of the Treasury, in addition to the fees required to be collected or paid and the interest on those fees at the rate the fees would have earned if collected or paid when due and invested in special obligations of the United States in accordance with subsection (d)(2). Upon the failure of any person so liable to pay any penalty, fee, or interest upon demand, the Attorney General shall, at the request of the Secretary of the Treasury bring an action in the name of the Fund against that person for such amount.

(B) Any person who falsifies records or documents required to be maintained under any regulation promulgated under this subsection shall be subject to prosecution for a violation of section 1001 of title 18, United States Code.

(4) The Secretary of the Treasury may, by regulation, designate the reasonably necessary records and documents to be kept by persons from whom fees are to be collected pursuant to paragraph (1) of this subsection, and the Secretary of the Treasury and the Comptroller General of the United States shall have access to such required material for the purpose of audit and examination.

(d)(1) The President shall determine the level of funding required for immediate access in order to meet potential obligations of the Fund.

(2) The Secretary of the Treasury may invest any excess in the Fund, above the level determined under paragraph (1), in interest-bearing special obligations of the United States. Such special obligations may be redeemed at any time in accordance with the terms of the special issue and pursuant to regulations promulgated by the Secretary of the Treasury. The interest on, and the proceeds from the sale of, any obligations held in the Fund shall be credited to and form a part of the Fund.

(e) If at any time the moneys available in the fund are insufficient to meet the obligations of the Fund, the President shall issue to the Secretary of the Treasury notes or other obligations in the forms and denominations, bearing the interest rates and maturities and subject to such terms and conditions as may be prescribed by the Secretary of the Treasury. Redemption of these notes or obligations shall be made by the President from moneys in the Fund. These notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding marketable obligations of comparable maturity. The Secretary of the Treasury shall purchase any note or other obligations issued hereunder and, for that purpose, is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act. The purpose for which securities may be issued under that Act are extended to include any purchase of these notes or obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this subsection. All redemptions, purchases, and sales by the Secretary of the Treasury of these notes or other obligations shall be treated as public debt transactions of the United States. The authority of the President to issue notes or other obligations under this subsection shall be subject to such amounts as are provided in appropriation acts.

(f) The President shall establish an interagency task force to investigate all appropriate aspects of requiring a fee on hazardous substances to be collected and placed in the Hazardous Substance Liability Fund established by subsection (a)(2) of this section and the appropriate level at which such fund shall be maintained. Such task force shall also consider whether liability of a discharger or compensation from the Fund ought to be provided for personal injury resulting from discharges of oil or hazardous substances. The report of such investigation, together with legislative recommendations, shall be submitted to the Congress not later than eighteen months after the enactment of this Act.

(g) The Administrator of the Environmental Protection Agency, the Commandant of the Coast Guard, and the Comptroller General shall undertake a study of possible incentives to safer operation of vessels and facilities to reduce the potential of discharges of oil or hazardous substances, and generally of measures to prevent or avoid the occurrence of such discharges. Such study shall address (1) the feasibility of a variable fee for replenishment of the Fund under subsection (c) of this section which takes into account the likelihood of a discharge and the operational experience of individuals or classes, and (2) whether current practices in the insurance and banking industries provide any incentives or disincentives to reducing the potential for discharges of oil or hazardous substances. Such study shall be conducted in consultation with other appropriate Federal and State agencies, the affected industries, and other interested parties. A first report of such study, together with legislative recommendations, if any, shall be submitted to the Congress not later than July 1, 1979, and as appropriate thereafter.

USE OF LIABILITY FUND

SEC. 5. (a) The President shall use the money in the Fund for the following purposes:

(1) payment of any claim for costs of removal or damages in excess of the amount for which the owner or operator of the vessel or onshore or offshore facility from which oil or a hazardous substance is discharged is liable under section 3 of this Act;

(2) payment of any claim for costs of removal or damages where the source of the discharge of oil or a hazardous substance is not known or cannot be identified;

(3) payment of any claim for costs of removal or damages in any case where the claim has not been satisfied in accordance with subsection (b) of this section;

(4) all removal costs or expenses or other costs of carrying out the national contingency plan established under section 311(c) of the Federal Water Pollution Control Act, including removal costs incurred by any person and approved under such national contingency plan;

(5) subject to such amounts as are provided in appropriation Acts, the costs of providing equipment and similar overhead, related to the purposes of this Act and section 311 of the Federal Water Pollution Control Act, and of establishing and maintaining damage assessment capability, for any Federal agency involved in strike forces, emergency task forces, or other response teams under such national contingency plan;

(6) the costs of assessing both short-term and long-term injury to, destruction of, or loss of any natural resources resulting from a discharge of oil or a hazardous substance;

(7) the costs of Federal or State efforts in the restoration, rehabilitation, or replacement or acquiring the equivalent of any natural resources injured, destroyed, or lost as a result of any discharge of oil or a hazardous substance;

(8) reimbursement to any State for the payment of any claims for costs of removal or damages payable under this Act which such State has paid with funds under the control of such State pursuant to the national contingency plan or to a delegation under subsection (b) of this section;

(9) subject to such amounts as are provided in appropriation Acts, not to exceed $10,000,000 per fiscal year, the costs of research related to the purposes of this Act and section 311 of the Federal Water Pollution Control Act, to be performed by Federal agencies including the Environmental Protection Agency, the Fish and Wildlife Service, and the National Oceanic and Atmospheric Administration, as directed by the ocean pollution research coordinating committee established under the Environmental Research, Development, and Demonstration Act of 1978. Such research shall include, but not be limited to (A) development and refinement of protocols to determine the type and extent of short and long term injury or loss of natural resources, (B) development and refinement of the best available procedures to identify the value of injured or lost resources, (C) laboratory or field research on the effects of oil and hazardous substances on living and nonliving resources that will provide additional scientific basis for damage assessments, and (D) research on minimizing the damage caused by spill control, dispersal and removal operations. Responsibility under the preceding sentence shall be assigned in accordance with the assessment responsibilities established under subsection (e)(2) of this section and officials responsible for such assessments shall be consulted before proposal of any research plan or appropriation request under the preceding sentence; and

(10) subject to such amounts as are provided in appropriation Acts, the administrative and personnel costs of administering the Fund and this Act.

(b)(1) The President is authorized to promulgate regulations designating one or more Federal officials who may obligate money in the Fund in accordance with subsection (a) of this section or portions thereof. The President is also authorized to delegate authority to obligate money in the Fund or to settle claims to officials of a State with an adequate program operating under a cooperative agreement with the Federal Government.

(2) The President is authorized to delegate the administration of his duties and authorities under this Act to the heads of those Federal departments, agencies, and instrumentalities which the President determines appropriate.

(3)(A) The President shall promulgate, and may from time to time amend, regulations for the presentation, filing, processing, settlement, and adjudication of claims for costs of removal or damages resulting from the discharge of oil or a hazardous substance under this Act.

(B) Whenever the President receives information from any person alleging they have incurred costs of removal or damages resulting from the discharge of oil or a hazardous substance for which the owner or operator of a vessel or onshore or offshore facility is liable under section 3 of this Act, he shall notify the owner, operator, and guarantor of such vessel or onshore or offshore facility of such allegation. Such owner or operator or guarantor, may, within five days after receiving such notification or presentation of any claim by a claimant, deny such allegations, or deny liability for damages for any of the reasons set forth in subsections (a) of section 3 of this Act.

(C) The owner and operator of any vessel or onshore or offshore facility from which oil or a hazardous substance has been discharged shall provide notice to all potential injured parties.

(D) All claims shall be presented in the first instance to the owner, operator, or guarantor of the vessel, or onshore or offshore facility from which oil or a hazardous substance has been discharged. In any case where the claim has not been satisfied in accordance with this paragraph, the claimant may elect to commence an action in court against such owner, operator, or guarantor or to present the claim for payment from the Fund under this section.

(E) No claim may be presented nor may an action be commenced for damages under this Act unless that claim is presented or action commenced within six years from the date of the discharge or the date of the discovery of the loss, whichever is later.

(c)(1) Payment of any claim by the Fund under this section shall be subject to the United States Government acquiring by subrogation all rights of the claimant to recover the costs of removal or damages from the person responsible for such discharge.

(2) Any person, including the Fund, who pays compensation pursuant to this Act to any claimant for damages or costs of removal resulting from a discharge of oil or a hazardous substance shall be subrogated to all rights, claims, and causes of action for such damages and costs of removal such claimant has under this Act or any other law.

(3) Upon request of the President, the Attorney General shall commence an action on behalf of the Fund to recover any compensation paid by the fund to any claimant pursuant to this Act, and, without regard to the limitation of liability provided for in section 3(c), all costs incurred by the Fund by reason of the claim, including interest, administrative and adjudicative costs, and attorney's fees. Such an action may be commenced against any owner, operator, or guarantor, or against any other person who is liable, pursuant to any law, to the compensated claimant or to the Fund, for the damages or costs of removal for which the compensation was paid.

(d) The Fund shall not be available to pay any claim for costs of removal or damages to the extent the discharge or the damages had been caused by the gross negligence or willful misconduct of that particular claimant.

(e)(1)(A) The President, acting through the Administrator of the National Oceanic and Atmospheric Administration, the Administrator of the Environmental Protection Agency, and the Director of the Fish and Wildlife Service, not later than two years after the enactment of this Act, shall promulgate regulations for the assessment of damages for injury to, destruction of, or loss of natural resources resulting from a discharge of oil or a hazardous substance, for the purpose of section 3(a)(2) (C) and (D) of this Act, section 5(a)(7) of this Act, and section 311(f) (4) and (5) of the Federal Water Pollution Control Act.

(B) Such regulations shall specify (i) standard procedures for simplified assessments requiring minimal field observation, including establishing measures of damages based on units of discharge or units of affected area, and (ii) alternative protocols for conducting assessments in individual cases to determine the type and extent of short and long term injury, destruction, or loss. Such regulations shall identify the best available procedures to determine such damages, including both direct and indirect injury, destruction, or loss and shall take into consideration factors including, but not limited to, replacement value, use value, and ability of the ecosystem or resource to recover.

(C) Such regulations shall be reviewed and revised as appropriate every two years.

(2) In accordance with such regulations, damages for injury to, destruction of, or loss of natural resources resulting from a discharge of oil or a hazardous substance, for the purposes of section 3(a)(2) (C) and (D) and section 5(a)(7) of this Act and section 311(f) (4) and (5) of the Federal Water Pollution Control Act, shall be assessed by (A) the Director of the Fish and Wildlife Service for living natural resources and their supporting ecosystems over which such Service has management or construction authority, (B) the Administrator of the National Oceanic and Atmospheric Administration for other natural resources in the marine environment beyond the baseline of the territorial sea, and (C) the Administrator of the Environmental Protection Agency for all other natural resources. Such officials shall act for the President as trustee under section 3(b) of this Act and section 311(f)(5) of the Federal Water Pollution Control Act.

(3) Any determination or assessment of damages for injury to, destruction of, or loss of natural resources for the purposes of section 3(a)(2) (C) and (D) and section 5(a)(7) of this Act and section 311(f) (4) and (5) of the Federal Water Pollution Control Act shall have the force and effect of a rebuttable presumption on behalf of any claimant (including a trustee under section 3(b) of this Act or a Federal agency) in any judicial or adjudicatory administrative proceeding under this Act or section 311 of the Federal Water Pollution Control Act.

(f) The Comptroller General shall provide an audit review team to audit all payments, obligations, reimbursements, or other uses of the Fund, to assure that the Fund is being properly administered and that claims are being appropriately and expeditiously considered. The Comptroller General shall submit to the Congress an interim report one year after the establishment of the Fund and a final report two years after the establishment of the Fund. The Comptroller General shall thereafter provide such auditing of the Fund as is appropriate. Each Federal agency shall cooperate with the Comptroller General in carrying out this subsection.

(g) The Comptroller General, in consultation with the Administrator of the Environmental Protection Agency, shall investigate the necessity for providing assistance in emergencies caused by the release into the environment of any pollutant or other contaminant which presents or may reasonably be anticipated to present an imminent and substantial danger to the public health or welfare, and shall report to the Congress not later than April 1, 1979, on the results of such investigation together with a recommendation on the appropriate level and source of funding for section 504(b) of the Federal Water Pollution Control Act.

FINANCIAL RESPONSIBILITY

SEC. 6. (a)(1) The owner or operator of any vessel over three hundred gross tons (except a non-self-propelled barge that does not carry oil or hazardous substances as cargo or fuel) using any port or place in the United States or the navigable waters or any offshore facility shall establish and maintain in accordance with section 311(p) of the Federal Water Pollution Control Act evidence of financial responsibility sufficient to meet the liability to which the owner or operator of such vessel could be subjected under section 3(c)(1) of this Act. The provisions of paragraphs (3), (4), (5), and (6) of such section 311(p) shall apply to any vessel, or the owner or operator thereof, subject to this section. This subsection shall take effect October 1, 1978.

(2) Any vessel subject to the requirements of this subsection which is found in the navigable waters without the necessary evidence of financial responsibility shall be subject to seizure by the United States of any oil or hazardous substances carried as cargo.

(b)(1) The owner or operator of any offshore facility shall establish and maintain evidence of financial responsibility sufficient to meet the liability to which the owner or operator of such facility could be subject under section 3(c)(1) of this Act or $50,000,000, whichever is less. Such evidence of financial responsibility shall be established according to regulations prescribed by the President and comparable to that required under section 311(p) of the Federal Water Pollution Control Act. This subsection shall

take effect one hundred and eighty days after enactment of this Act.

(2) The owner or operator of any offshore facility subject to this subsection who fails to comply with this subsection or the regulations prescribed thereunder shall be subject to a fine of not more than $10,000 per day of violation.

STATE LAWS AND PROGRAMS

SEC. 7. Nothing in this Act shall be construed or interpreted as preempting any State from imposing any additional liability or requirements with respect to the discharge of oil or hazardous substances within such State.

CONFORMING AMENDMENTS

SEC. 8. (a) TRANS-ALASKA PIPELINE AUTHORIZATION ACT.—(1) Section 204(b) of the Trans-Alaska Pipeline Authorization Act (87 Stat. 586) is amended, in the first sentence—

(A) by inserting after the words "any area" the words "in the State of Alaska";

(B) by inserting after the words "any activities" the words "related to the Trans-Alaska Oil Pipeline"; and

(C) by inserting at the end of the subsection the following new sentence: "This subsection shall not apply to removal costs covered by the Oil Spill Liability Fund and Compensation Act of 1978".

(2)(A) Section 204(c) of the Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1653 (c)) is hereby repealed. The Trans-Alaska Pipeline Liability Fund is hereby abolished. All assets of that fund, as of the effective date of this section, shall be transferred to the Oil Spill Liability Fund established by section 4 of this Act. The Oil Spill Liability Fund shall assume any and all liability incurred by the Trans-Alaska Pipeline Liability Fund under the terms of section 204(c) of the Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1653(c)).

(B) The Secretary of the Interior shall certify to the Secretary of the Treasury the total amount of the claims outstanding against the Trans-Alaska Pipeline Liability Fund at the time the transfer of assets required under paragraph (A) is made. If the Secretary finds that—

(i) the total amount of the assets so transferred is greater than the total amount of the outstanding claims so certified, subject to subparagraph (D) of this paragraph the difference between the amount of the assets so transferred and the amount of the outstanding claims so certified shall constitute an advance payment toward payment of the fee due under section 4(c) of this Act on barrels of oil, and the Secretary may remit such fee until such time as the total amount of the fees so remitted equals the difference between the amount of the assets so transferred and the amount of the outstanding claims so certified; or

(ii) the total amount of the assets so transferred is less than the total amount of the outstanding claims so certified, the Secretary of the Treasury shall increase by 2 cents per barrel the fee imposed under section 4 on barrels of oil until such time as the total amount of the 2-cent-per-barrel increase so collected equals the difference between the amount of the certified outstanding claims and the amount of the transferred assets.

(C) In the event that the total amount of the actual claims settled is less than the total amount of the outstanding claims certified, the difference between these amounts shall be rebated by the Secretary of the Treasury directly to the operator of the trans-Alaska oil pipeline for payment, on a pro rata basis, to the owners of the oil at the time it was loaded on the vessel.

(D) If an owner of oil (as that term is used in section 204(c)(5) of the Trans-Alaska Pipeline Authorization Act) who prior to enactment of this Act paid fees to the operator of the pipeline for transfer to the Trans-Alaska Pipeline Liability Fund receives the benefit of an advance payment under subparagraph (B)(i) of this paragraph for the collection or payment of fees established under section 4(c) of this Act, such owner of oil shall compute, based upon accepted accounting procedures, what the oil production tax and what the royalty paid to the State of Alaska would have been had payments not been made to the Trans-Alaska Pipeline Liability Fund in the amount of fees remitted. The difference between the amounts so computed and amounts actually paid to the State of Alaska shall be paid by each such owner to the State of Alaska. Such owner shall make such payment to the State of Alaska during such time the collection of payment of fees under section 4(c) of this Act is remitted.

(E) For purposes of paragraph (B), the term "barrels of oil" means only barrels of oil which would, but for the repeal made by this paragraph, be subject to the fee imposed under section 204(c)(5) of the Trans-Alaska Pipeline Authorization Act. The term "Secretary" means the Secretary of the Treasury.

(b) INTERVENTION ON THE HIGH SEAS ACT.—Section 17 of the Intervention on the High Seas Act (88 Stat. 10) is amended to read as follows:

"SEC. 17. The Fund established under section 4 of the Oil Spill Liability Fund and Compensation Act of 1978 shall be available to the Secretary for actions taken under section 5 of this Act.".

(c) FEDERAL WATER POLLUTION CONTROL ACT.—Section 311 of the Federal Water Pollution Control Act is amended as follows:

(1) Clause (H) of paragraph (2) of subsection (c) is amended by inserting after the words "of this section" the words "or the fund established under section 4 of the Oil Spill Liability Fund and Compensation Act of 1978, as appropriate,".

(2) Subsection (f) is amended, in the last sentence of paragraph (1), by inserting a comma after the word "vessel" and by adding immediately thereafter "or against any guarantor of an owner's or operator's liability under the Oil Spill Liability and Compensation Fund Act of 1978,".

(3) Subsection (g) is amended, by inserting in the last sentence, after the word "party" the words "or against any guarantor of an owner's or operator's liability under the Oil Spill Liability and Compensation Fund Act of 1978".

(4) Any sums appropriated prior to the enactment of this Act under subsection (k) of such section 311 shall be transferred to the Fund established under section 4 of this Act.

(d) DEEPWATER PORT ACT.—The Department Port Act of 1974 (88 Stat. 2126) is amended as follows:

(1) In section 4(c)(1) strike "section 18 (1) of this Act;" and insert in lieu thereof "section 6 of the Oil Spill Liability and Compensation Fund Act of 1978,".

(2) Subsections (b), (d), (e), (f), (g), (h), (i), (j), (l), (n), and clause (1) of subsection (m) of section 18 are deleted.

(3) Clause (3) of subsection (c) of section 18 is amended by striking "Deepwater Port Liability Fund established pursuant to subsection (f) of this section.", and inserting in lieu thereof "fund established under section 4 of the Oil Spill Liability and Compensation Fund Act of 1978".

(4) Subsections (c), (k), and (m) of section 18 are redesignated (b), (c), and (d), respectively, and clauses (2), (3), and (4) of subsection (m) are redesignated (1), (2), and (3), respectively.

(e) OUTER CONTINENTAL SHELF LANDS ACT AMENDMENTS.—Title III of the Outer Continental Shelf Lands Act Amendments of 1978 is hereby repealed.

(f) Any expenditure under section 5(a) of this Act, other than those (1) under the authority of section 311(c) of the Federal Water Pollution Control Act involving the balance of the contingency fund established under section 311(K) of such Act and transferred to the Fund under section 8(c)(4) of this Act, or (2) involving the balance of the Trans-Alaska Pipeline Liability Fund transferred to the Fund under section 8(a)(2) of this Act, shall be made after October 1, 1978, for any claim arising before such date and after the date of enactment of this Act.

Amend the title so as to read: "An Act to provide for compensation for damages and cleanup costs caused by discharges of oil and hazardous substances, to establish a liability fund, and for other purposes.".

The SPEAKER. The Clerk will report the House amendments to the Senate amendments.

The Clerk read the House amendments to the Senate amendments as follows:

In lieu of the matter proposed to be inserted by the Senate amendments, insert the following:

That this Act may be cited as the "Comprehensive Oil Pollution Liability and Compensation Act".

TITLE I—DOMESTIC OIL POLLUTION LIABILITY, COMPENSATION, AND FUND

DEFINITIONS

SEC. 101. For the purposes of this title, the term—

(a) "Secretary" means the Secretary of Transportation;

(b) "funds" means the fund established by section 102;

(c) "person" means an individual, firm, corporation, association, partnership, consortium, joint venture, or governmental entity;

(d) "incident" means any occurrence or series of occurrences, involving one or more vessels, facilities, or any combination thereof; which causes, or poses an imminent threat of, oil pollution;

(e) "vessel" means every description of watercraft or other artificial contrivance used, or capable of being used, as a means of transportation on water;

(f) "public vessel" means a vessel which—

(1) is owned or chartered by demise, and operated by (A) the United States, (B) a State or political subdivision thereof, or (C) a foreign government, and

(2) is not engaged in commercial service;

(g) "ship" means either of the following types of vessels carrying oil in bulk as cargo:

(1) a self-propelled vessel, or

(2) a non-self-propelled vessel which is certificated to operate outside the internal waters of the United States;

(h) "inland oil barge" means a non-self-propelled vessel, carrying oil in bulk as cargo and certificated to operate only on the internal waters of the United States while operating in such waters;

(i) "facility" means a structure, or group of structures (other than a vessel or vessels), used for the purpose of transporting, drilling for, producing, processing, storing, transferring, or otherwise handling oil;

(j) "onshore facility" means any facility, other than an offshore facility, located in, on, or under any land within the United States;

(k) "offshore facility" means any facility located in, on, or under the navigable waters or, if the facility is subject to the jurisdiction of the United States, the high seas;

(l) "terminal" means a permanently situated facility, located within the territorial limits of the United States and not owned by any agency of the Federal Government, which receives oil in bulk directly from any vessel, offshore production facility, offshore port facility, onshore pipeline, or a pipeline

constructed under the provisions of the Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1651 et seq.);

(m) "refinery" means a terminal which receives crude oil for the purpose of refinement;

(n) "oil pollution" means—

(1) the presence of oil, either in an unlawful quantity or which has been discharged at an unlawful rate—

(A) in or on the navigable waters or their connecting or tributary waters within the United States, or on land or waters within the United States immediately adjacent thereto; or

(B) in or on the waters of the contiguous zone established by the United States under Article 24 of the Convention on the Territorial Sea and the Contiguous Zone (15 UST 1606); or

(2) the presence of oil in or on the waters of the high seas outside the territorial limits of the United States—

(A) when discharged in connection with activities conducted under the Outer Continental Shelf Lands Act, as amended (43 U.S.C. 1331 et seq.) or the Deepwater Port Act of 1974, as amended by this Act (33 U.S.C. 1501 et seq.);

(B) causing injury to or loss of natural resources belonging to, appertaining to, or under the exclusive management authority of, the United States; or

(C) when such oil was discharged from a ship which received oil at the terminal facilities of the pipeline authorized by the Trans-Alaska Pipeline Authorization Act, as amended by this Act (43 U.S.C. 1651 et seq.), for transportation to a port in the United States, and was discharged from such ship prior to being brought ashore in such a port; or

(3) the presence of oil in or on the territorial sea, internal waters, or adjacent shoreline, of a foreign country, in a case where damages are recoverable by a foreign claimant under this title;

(o) "navigable waters" means those waters of the United States (including the territorial sea) the general character of which is navigable and which, either by themselves or by uniting with other waters, form a continuous waterway on which vessels may navigate or travel between two or more States or to or from any foreign nation;

(p) "United States claimant" means any person residing in the United States, the Government of the United States or an agency thereof, or the government of a State or a political subdivision thereof, who asserts a claim;

(q) "foreign claimant" means any person residing in a foreign country, the government of a foreign country, or any agency or political subdivision thereof, who asserts a claim;

(r) "United States" and "State" include the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Canal Zone, Guam, American Samoa, the United States Virgin Islands, the Commonwealth of the Northern Marianas, the Trust Territory of the Pacific Islands, and any other territory or possession over which the United States has jurisdiction;

(s) "oil" means petroleum, including crude oil or any fraction or residue therefrom;

(t) "cleanup costs" means costs of reasonable measures taken, after an incident has occurred, to prevent, minimize, or mitigate oil pollution from that incident;

(u) "person in charge" means the individual immediately responsible for the operation of a vessel or facility;

(v) "claim" means a demand in writing for a sum certain;

(w) "discharge" means any emission, intentional or unintentional, and includes spilling, leaking, pumping, pouring, emptying, or dumping;

(x) "owner" means any person holding title to, or, in the absence of title, any other indicia of ownership of, a vessel or facility, but does not include a person who, without participating in the management or operation of a vessel or facility, holds indicia of ownership primarily to protect his security interest in the vessel or facility;

(y) "operator" means—

(1) in the case of a vessel, a charterer by demise or any other person, except the owner, who is responsible for the operation, manning, victualing, and supplying of the vessel, or

(2) in the case of a facility, any person, except the owner, responsible for the operation of the facility by agreement with the owner;

(z) "property" means littoral, riparian, or marine property;

(aa) "removal costs" means—

(1) cost incurred under subsection (c), (d), or (l) of section 311 of the Federal Water Pollution Control Act, as amended by this Act, section 5 of the Intervention on the High Seas Act, or subsection (b) of section 18 of the Deepwater Port Act of 1974 as amended by this Act; and

(2) cleanup costs, other than the costs described in clause (1);

(bb) "guarantor" means the person, other than the owner or operator, who provides evidence of financial responsibility for an owner or operator;

(cc) "internal waters of the United States" means those waters of the United States lying inside the base line from which the territorial sea is measured and those waters outside such base line which are a part of the Gulf Intracoastal Waterway;

(dd) "gross ton" means a unit of one hundred cubit feet for the purpose of measuring the total unit capacity of a vessel;

(ee) "barrel" means forty-two United States gallons at 60 degrees Fahrenheit; and

(ff) "natural resources" includes fish, wildlife, biota and other such resources belonging to, managed by, held in trust by, appertaining to, or otherwise controlled by the United States (including the resources of the fishery conservation zone established by the Fishery Conservation and Management Act of 1976), any State or local government, or any foreign government.

FUND ESTABLISHMENT, ADMINISTRATIVE, AND FINANCING

SEC. 102. (a) There is hereby established in the Treasury of the United States a Comprehensive Oil Spill Liability Fund, not to exceed $200,000,000, except that such limitation shall be increased to the extent necessary to permit any moneys recovered or collected which are referred to in subsection (b) (2) and (3) of this section being paid into such fund. The fund shall be administered by the Secretary and the Secretary of the Treasury, as specified in this section. The fund may sue and be sued in its own name.

(b) The fund shall be constituted from—

(1) all fees collected pursuant to subsection (d);

(2) all moneys recovered on behalf of the fund under section 108;

(3) all other moneys recovered or collected on behalf of the fund, under this title.

(c) In addition to the processing and settlement of claims under section 107, the fund shall be immediately available for the removal costs described in section 101(aa)(1), and the Secretary is authorized to promulgate regulations designating the person or persons who may obligate available money in the fund for such purposes. In addition, the moneys in the fund shall also be available, subject to such amounts as are provided in appropriation acts, as follows:

(1) not to exceed $10,000,000 per fiscal year, for research related to the purposes of this title, such research to be performed as directed by the President and to include, but not be limited to, (A) development and refinement of protocols to determine the type and extent of short and long term injury or loss of natural resources, (B) development and refinement of the best available procedures to identify the value of injured or lost resources, (C) laboratory or field research on the effects of oil on living and nonliving resources that will provide additional scientific basis for damage assessments, and (D) research on minimizing the damage caused by spill control, dispersal and removal operations; and

(2) not to exceed $5,000,000 per fiscal year, for administrative and personnel costs necessary to administer the fund and this title, other than the provisions of section 112.

(d)(1) Subject to the provisions of section 202(b), the Secretary of the Treasury shall collect from the owners of refineries receiving crude oil, and from the owners of terminals receiving any oil for export or entry into the United States, whether for import or transfer to a foreign country, a fee, not to exceed three cents per barrel of oil received. Oil upon which a fee has been levied under this paragraph shall not be subject to subsequent levy hereunder. The person who owns such oil shall be obligated to reimburse the owner of such refinery or terminal, as the case may be, the full amount of the fee levied on the oil of that person and paid by the owner of the refinery or terminal.

(2) The Secretary of the Treasury, after consulting with the Secretary, may promulgate reasonable rules and regulations relating to the collection of the fees authorized by paragraph (1) and, from time to time, the modification thereof. Modifications shall become effective on the date specified therein, but no earlier than the ninetieth day following the date the modifying regulation is published in the Federal Register. Any modification of the fee shall be designed to insure that the fund is maintained at a level not less than $150,000,000 and not more than $200,000,000. No regulation that modifies fees, nor any modification of such a regulation, whether or not in effect, may be stayed by any court pending completion of judicial review of that regulation or modification. No modified fees paid by any owner of a refinery or a terminal pending completion of judicial review of the modified fee regulation shall be repaid to such owner notwithstanding the final judicial determination.

(3)(A) Any person who fails to collect or pay fees as required by the regulations promulgated under paragraph (2) shall be liable for a civil penalty not to exceed $10,000, to be assessed by the Secretary of the Treasury, in addition to the fees required to be collected or paid and the interest on those fees at the rate the fees would have earned if collected or paid when due and invested in special obligations of the United States in accordance with subsection (e)(2). Upon the failure of any person so liable to pay any penalty, fee, or interest upon demand, the Attorney General may, at the request of the Secretary of the Treasury, bring an action in the name of the fund against that person for such amount.

(B) Any person who falsifies records or documents required to be maintained under any regulation promulgated under this subsection shall be subject to prosecution for a violation of section 1001 of title 18, United States Code.

(4) The Secretary of the Treasury may, by regulation, designate the reasonably necessary records and documents to be kept by persons from whom fees are to be collected pursuant to paragraph (1) of this subsection, and the Secretary of the Treasury and the Comptroller General of the United States shall have access to such required

material for the purpose of audit and examination.

(e)(1) The Secretary shall determine the level of funding required for immediate access in order to meet potential obligations of the fund.

(2) The Secretary of the Treasury may invest any excess in the fund, above the level determined under paragraph (1), in interest-bearing special obligations of the United States. Such special obligations may be redeemed at any time in accordance with the terms of the special issue and pursuant to regulations promulgated by the Secretary of the Treasury. The interest on, and the proceeds from the sale of, any obligations held in the fund shall be credited to and form a part of the fund.

(f) If at any time the moneys available in the fund are insufficient to meet the obligations of the fund, the Secretary shall issue to the Secretary of the Treasury notes or other obligations in the forms and denominations, bearing the interest rates and maturities and subject to such terms and conditions as may be prescribed by the Secretary of the Treasury. Redemption of these notes or obligations shall be made by the Secretary from moneys in the fund. These notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding marketable obligations of comparable maturity. The Secretary of the Treasury shall purchase any notes or other obligations issued hereunder and, for that purpose, he is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act. The purpose for which securities may be issued under that Act are extended to include any purchase of these notes or obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this subsection. All redemptions, purchases, and sales by the Secretary of the Treasury of these notes or other obligations shall be treated as public debt transactions of the United States.

(g) The Comptroller General shall provide an audit review team to audit all payments, obligations, reimbursements, or other uses of the fund, to assure that the fund is being properly administered and that claims are being appropriately and expeditiously considered. The Comptroller General shall submit to the Congress an interim report one year after the establishment of the fund and a final report two years after the establishment of the fund. The Comptroller General shall thereafter provide such auditing of the fund as is appropriate. Each Federal agency shall cooperate with the Comptroller General in carrying out this subsection.

DAMAGES AND CLAIMANTS

SEC. 103. (a) Claims for damages for economic loss, discovered on or after the effective date of this section and arising out of or directly resulting from oil pollution, may be asserted for—

(1) removal costs;

(2) injury to, or destruction of, real or personal property;

(3) loss of use of real or personal property;

(4) injury to, or destruction of, natural resources, including the reasonable costs of determining the extent of such injury or destruction;

(5) loss of use of natural resources;

(6) loss of profits or impairment of earning capacity due to injury or destruction of real or personal property or natural resources; and

(7) loss of tax revenue for a period of one year due to injury to real or personal property.

(b) A claim authorized by subsection (a) may be asserted—

(1) under item 1, by any claimant: *Provided,* That the owner or operator of a vessel or facility involved in an incident may assert such a claim only if he can show that he is entitled to a defense to liability under section 104(e)(1) or 104(e)(2) or, if not entitled to such a defense to liability, that he is entitled to a limitation of liability under section 104: *Provided further,* That where he is not entitled to such a defense to liability but entitled to such a limitation of liability, such claim may be asserted only as to the removal costs incurred in excess of that limitation;

(2) under items 2, 3, and 5, by any United States claimant, if the property involved is owned or leased, or the natural resource involved is utilized, by the claimant;

(3) under item 4, by the President, as trustees for natural resources over which the United States Government has sovereign rights or exercises exclusive management authority, or by any State for natural resources within the boundary of the State belonging to, managed by, controlled by, or appertaining to the State: *Provided,* That compensation paid under this item shall be used only for the restoration of the natural resources damaged or for acquisition of equivalent resources;

(4) under item 6, by any United States claimant if the claimant derives at least 25 per centum of his earnings from activities which utilize the property or natural resource;

(5) under item 7, by any State or political subdivision thereof;

(6) under items 2 through 7, by a foreign claimant to the same extent that a United States claimant may assert a claim if—

(A) the oil pollution occurred (1) in the navigable waters or (2) in or on the territorial sea or adjacent shoreline of a foreign country of which the claimant is a resident;

(B) the claimant is not otherwise compensated for his loss;

(C) the oil was discharged from a facility or from a vessel located adjacent to or within the navigable waters or was discharged in connection with activities conducted under the Outer Continental Shelf Lands Act, as amended (43 U.S.C. 1331 et seq.) or the Deepwater Port Act of 1974, as amended by this Act (33 U.S.C. 1501 et seq.); and

(D) recovery is authorized by a treaty or an executive agreement between the United States and the foreign country involved, or if the Secretary of State, in consultation with the Attorney General and other appropriate officials, certifies that such country provides a comparable remedy for United States claimants: *Provided, however,* That condition (C) shall not apply where the claim is asserted by a resident of Canada and where the oil pollution involves oil that has been transported through the pipeline authorized under the Trans-Alaska Pipeline Authorization Act, as amended, has been loaded on a ship for transportation to a port in the United States, and is discharged from the ship prior to being brought ashore in that port; and

(7) under any item, by the Attorney General, on his own motion or at the request of the Secretary, on behalf of any group of United States claimants who may assert a claim under this subsection, when he determines that the claimants would be more adequately represented as a class in asserting their claims.

(c) If the Attorney General fails to take action under clause (7) of subsection (b) within sixty days of the date on which the Secretary designates a source under section 106 any member of a group may maintain a class action to recover damages on behalf of that group. Failure of the Attorney General to take action shall have no bearing on any class action maintained by any claimant for damages authorized by this section.

(d) If the number of members of a class in an action brought under subsection (b)(7) or subsection (c) exceeds one thousand, publication of notice of such action in local newspapers of general circulation in the areas in which the damaged persons reside shall be deemed to fulfill the requirement for public notice established by rule 23(c)(2) of the Federal Rules of Civil Procedure.

LIABILITY

SEC. 104(a) Subject to the provisions of subsections (b), (c), (d), and (e), the owner and operator of a vessel other than a public vessel, or of a facility, which is the source of oil pollution, or poses a threat of oil pollution in circumstances which justify the incurrence of the type of costs described in section 101(aa)(1) of this title, shall be jointly, severally, and strictly liable for all damages for which a claim may be asserted under section 103.

(b) Except when the incident is caused primarily by willful misconduct or gross negligence, within the privity or knowledge of the owner or operator; or is caused primarily by a violation, within the privity or knowledge of the owner or operator, of applicable safety, construction, or operating standards or regulations of the Federal Government; or except when the owner or operator fails or refuses to provide all reasonable cooperation and assistance requested by the responsible Federal official in furtherance of cleanup activities, the total of the liability under subsection (a) and any removal costs incurred by, or on behalf of, the owner or operator shall be limited to—

(1) in the case of a vessel other than a ship or other than an inland oil barge, $150 per gross ton;

(2) in the case of an inland oil barge, $150,000 or $150 per gross ton, whichever is greater;

(3) in the case of a ship, $300,000 or $300 per gross ton (up to a maximum of $50,000,000), whichever is greater;

(4) in the case of a deepwater port subject to the Deepwater Port Act of 1974 (including the liability of the owner or operator of such deepwater port for a discharge from a ship moored at such port), $50,000,000;

(5) in the case of an offshore facility operated under authority of the Outer Continental Shelf Lands Act, the total of removal costs plus $50,000,000; or

(6) in the case of a facility other than one described in clause (4) or (5), $50,000,000 or such lesser limit as is established under subsection (d).

The Secretary shall, from time to time, report to Congress on the desirability of adjusting the monetary limitation of liability specified in subsection (b).

(c) Notwithstanding the provisions of clauses (4) and (5) of subsection (b) hereof, the Secretary may reduce the limits of liability for facilities subject to those clauses, if he determines that the limits of liability established under subsection (b) will have either a significant adverse impact on small business enterprises or a significant anticompetitive impact, such reduction in liability limits to be made as follows:

(1) the limit of liability for facilities subject to clause (4) to be reduced to a level of not less than $35,000,000; and

(2) the limit of liability for facilities subject to clause (5) to be reduced to the total of all removal costs under section 103(a)(1) plus a level of not less than $35,000,000.

Before publishing said proposed rule or regulation the Secretary shall notify the Committee on Environment and Public Works and the Committee on Commerce, Science and Transportation of the United States Senate and the Committee on Merchant Marine and Fisheries and the Committee on Public Works and Transportation of the United States House of Representatives of his intention to propose said rule or regulation. The notice shall state with particularity the Secretary's justification for said rule or regulation and shall include a

statement of the views of the Federal Trade Commission on whether the liability or financial responsibility limit sought to be changed has significant anti-competitive or small business impacts.

(d) The Secretary shall issue regulations establishing limits of liability, up to $50,000,000, for various classes of facilities other than those described in clauses (4) and (5) of subsection (b). These regulations shall take into account the size, type, location, oil storage and handling capacity, and other matters relating to the likelihood of incidents involving those classes. Such limits shall, to the extent practicable, be comparable to those limits established under clause (3) of subsection (b), taking into account the relative potential threat of oil pollution.

(e) There shall be no liability under subsection (a)—

(1) where the incident is caused primarily—

(A) by an act of war, hostilities, civil war, or insurrection; or

(B) by a natural phenomenon of an exceptional, inevitable, and irresistible character, which could not have been prevented or avoided by the exercise of due care or foresight;

(2) to the extent that the incident is caused by an act or omission of a person other than—

(A) the claimant,

(B) the owner or operator,

(C) an employee or agent of the claimant, the owner, or the operator, or

(D) one whose act or omission occurs in connection with a contractual relationship with the claimant, the owner, or the operator;

(3) as to a particular claimant, where the incident or the economic loss is caused, in whole or in part, by the gross negligence or willful misconduct of that claimant; or

(4) as to a particular claimant, to the extent that the incident or economic loss is caused by the negligence of that claimant.

(f)(1) Subject to the provisions of paragraph (2) hereof, the fund shall be liable, without any limitation, for all damages for which a claim may be asserted under section 103, to the extent that the loss is not otherwise compensated.

(2) Except for the removal costs specified in clause (1) of section 101(aa), there shall be no liability under paragraph (1) hereof—

(A) where the incident is caused primarily by an act of war, hostilities, civil war, or insurrection;

(B) as to a particular claimant, where the incident or economic loss is caused, in whole or in part, by the gross negligence or willful misconduct of that claimant; or

(C) as to a particular claimant, to the extent that the incident or economic loss is caused by the negligence of that claimant.

(g)(1) In addition to the damages for which claims may be asserted under section 103, and without regard to the limitation of liability provided in section 104, the owner, operator, or guarantor shall be liable to the claimant for interest on the amount paid in satisfaction of the claim for the period from the date upon which the claim was presented to such person to the date upon which the claimant is paid, inclusive, less the period, if any, from the date upon which the owner, operator, or guarantor shall offer to the claimant an amount equal to or greater than that finally paid in satisfaction of the claim to the date upon which the claimant shall accept that amount, inclusive. However, if the owner, operator, or guarantor shall offer to the claimant, within sixty days of the date upon which the claim was presented, or of the date upon which advertising was commenced pursuant to section 106, whichever is later, an amount equal to or greater than that finally paid in satisfaction of the claim, the owner, operator, or guarantor shall be liable for the interest provided in this paragraph only from the date the offer was accepted by the claimant to the date upon which payment is made to the claimant, inclusive.

(2) The interest provided in paragraph (1) shall be calculated at the average of the highest rate for commercial and finance company paper of maturities of one hundred and eighty days or less obtaining on each of the days included within the period for which interest must be paid to the claimant, as published in the Federal Reserve Bulletin.

(h) No indemnification, hold harmless, or similar agreement shall be effective to transfer from the owner or operator of a facility, to any other person, the liability imposed under subsection (a) hereof, other than as specified in this title: *Provided*, That this provision does not preclude an agreement whereby the holder of a leasehold interest for the exploration of oil agrees to indemnify for, or hold harmless from, such liability, the owner or operator of a vessel or facility which is, by contract or other agreement, engaged in activity on behalf of the holder of the leasehold interest.

(i) Nothing in this title, including the provisions of subsection (h) hereof, shall bar a cause of action that an owner or operator, subject to liability under subsection (a), or a guarantor, has or would have, by reason of subrogation or otherwise, against any person.

(j) To the extent that they are in conflict with, or otherwise inconsistent with, any other provisions of law relating to liability or the limitation thereof, the provisions of this section shall supersede all such other provisions of law, including those of section 4283(a) of the Revised Statutes, as amended (46 U.S.C. 183(a)).

FINANCIAL RESPONSIBILITY

SEC. 105. (a)(1) The owner or operator of any vessel (except a non-self-propelled barge that does not carry oil as fuel or cargo), over three hundred gross tons, which uses an offshore or onshore facility or the navigable waters, shall establish and maintain, in accordance with regulations promulgated by the President, evidence of financial responsibility sufficient to satisfy the maximum amount of liability to which the owner or operator of such vessel would be exposed in a case where he would be entitled to limit his liability in accordance with the provisions of section 104 of this title and the provisions of subsection (f) and (g) of section 311 of the Federal Water Pollution Control Act, as amended. Financial responsibility may be established by any one, or any combination, of the following methods, acceptable to the President: evidence of insurance, guarantee, surety bond, or qualification as a self-insurer. Any bond filed shall be issued by a bonding company authorized to do business in the United States. In cases where an owner or operator owns, operates, or charters more than one vessel subject to this subsection, evidence of financial responsibility need be established only to meet the maximum liability applicable to the largest of such vessels.

(2) The Secretary of the Treasury shall withhold or revoke the clearance required by section 4197 of the Revised Statutes of the United States to any vessel, subject to this subsection, which does not have certification furnished by the President that the financial responsibility provisions of paragraph (1) of this subsection have been complied with.

(3) The Secretary, in accordance with regulations promulgated by him, shall (A) deny entry to any port or place in the United States or navigable waters to, and (B) detain at the port or place in the United States from which it is about to depart for any other port or place in the United States, any vessel subject to this subsection which, upon request, does not produce certification furnished by the President that the financial responsibility provisions of paragraph (1) of this subsection have been complied with.

(b) The owner or operator of a facility which (1) is used for drilling for, producing, or processing oil, or (2) has the capacity to transport, store, transfer, or otherwise handle more than one thousand barrels of oil at any one time, shall establish and maintain, in accordance with regulations promulgated by the Secretary, evidence of financial responsibility sufficient to satisfy the maximum amount of liability to which the owner or operator of the facility would be exposed, in a case where he would be entitled to limit his liability, in accordance with the provisions of section 104 of this title, or $50,000,000, whichever is less.

(c) Any claim authorized by section 103(a) may be asserted directly against any guarantor providing evidence of financial responsibility as required under this section. In defending such claim, the guarantor shall be entitled to invoke all rights and defenses which would be available to the owner or operator under this title. He shall also be entitled to invoke the defense that the incident was caused by the willful misconduct of the owner or operator, but shall not be entitled to invoke any other defense which he might have been entitled to invoke in proceedings brought by the owner or operator against him.

NOTIFICATION, DESIGNATION, AND ADVERTISEMENT

SEC. 106. (a) The person in charge of a vessel or facility, which is involved in an incident, shall immediately notify the Secretary of the incident, as soon as he has knowledge thereof. Notification received pursuant to this subsection or information obtained by the exploitation of such notification shall not be used against any such person or his employer in any criminal case, other than a case involving prosecution for perjury or for giving a false statement.

(b)(1) When the Secretary receives information, pursuant to subsection (a) or otherwise, of an incident which involves oil pollution, the Secretary shall, where possible, designate the source or sources of the oil pollution and shall immediately notify the owner and operator of such source, and the guarantor, of that designation.

(2) When a source designated under paragraph (1) is a vessel or a facility, and the owner, operator, or guarantor fails to inform the Secretary, within five days after receiving notification of the designation, of his denial of such designation, such owner, operator, or guarantor, as required by regulations promulgated by the Secretary, shall advertise the designation and the procedures by which claims may be presented to him. If advertisement is not otherwise made in accordance with this paragraph, the Secretary shall, as he finds necessary, and at the expense of the owner, operator, or guarantor involved, advertise the designation and the procedures by which claims may be presented to that owner, operator, or guarantor.

(c) In a case where—

(1) the owner, operator, and guarantor all deny a designation in accordance with paragraph (2) of subsection (b),

(2) the source of the discharge was a public vessel or

(3) the Secretary is unable to designate the source or sources of the discharge under paragraph (1) of subsection (b),

the Secretary shall advertise or otherwise notify potential claimants of the procedures by which claims may be presented to the fund.

(d) Advertisement under subsection (b) shall commence no later than fifteen days from the date of the designation made thereunder to continue for a period of no less than thirty days.

CLAIMS SETTLEMENT

SEC. 107. (a) Except as provided in subsection (b), all claims shall be presented to the owner, operator, or guarantor.

(b) All claims shall be presented to the fund—

(1) where the Secretary has advertised or otherwise notified claimants in accordance with section 106(c), or

(2) where the owner or operator may recover under the provisions of section 103(b)(1).

(c) In the case of a claim presented in accordance with subsection (a), and in which—

(1) the person to whom the claim is presented denies all liability for the claim, for any reason, or

(2) the claim is not settled by any person by payment to the claimant within sixty days of the date upon which (A) the claim was presented, or (B) advertising was commenced pursuant to section 106(b)(2), whichever is later,

the claimant may elect to commence an action in court against the owner, operator, or guarantor, or to present the claim to the fund, that election to be irrevocable and exclusive.

(d) In the case of a claim presented in accordance with subsection (a), where full and adequate compensation is unavailable, either because the claim exceeds a limit of liability invoked under section 104 or because the owner, operator, and guarantor are financially incapable of meeting their obligations in full, a claim for the uncompensated damages may be presented to the fund.

(e) In the case of a claim which has been presented to any person, pursuant to subsection (a), and which is being presented to the fund, pursuant to subsection (c) or (d), such person, at the request of the claimant, shall transmit the claim and supporting documents to the fund. The Secretary may, by regulation, prescribe the documents to be transmitted and the terms under which they are to be transmitted.

(f) In the case of a claim presented to the fund, pursuant to subsection (b), (c), or (d), and in which the fund—

(1) denies all liability for the claim, for any reason, or

(2) does not settle the claim by payment to the claimant within sixty days of the date upon which (A) the claim was presented to the fund or (B) advertising was commenced pursuant to section 106(c), whichever is later,

the claimant may submit the dispute to the Secretary for decision in accordance with section 554 of title 5, United States Code. However, a claimant who has presented a claim to the fund pursuant to subsection (b) may elect to commence an action in court against the fund in lieu of submission of the dispute to the Secretary for decision, that election to be irrevocable and exclusive.

(g)(1) The Secretary shall promulgate regulations which establish uniform procedures and standards for the appraisal and settlement of claims against the fund.

(2) Except as provided in paragraph (3), the Secretary shall use the facilities and services of private insurance and claims adjusting organizations or State agencies in processing claims against the fund and may contract to pay compensation for those facilities and services. Any contract made under the provisions of this paragraph may be made without regard to the provisions of section 3709 of the Revised Statutes, as amended (41 U.S.C. 5), upon a showing by the Secretary that advertising is not reasonably practicable. The Secretary may make advance payments to a contractor for services and facilities, and the Secretary may advance to the contractor funds to be used for the payment of claims. The Secretary may review and audit claim payments made pursuant to this subsection. A payment to a claimant for a single claim in excess of $100,000, or two or more claims aggregating in excess of $200,000, shall be first approved by the Secretary. When the services of a State agency are used in processing and settling claims no payment may be made on a claim asserted on or behalf of that State or any of its agencies or subdivisions unless the payment has been approved by the Secretary.

(3) To the extent necessitated by extraordinary circumstances, where the services of such private organizations or State agencies are inadequate, the Secretary may use Federal personnel to process claims against the fund.

(h) Without regard to subsection (b) of section 556 of title 5, United States Code, the Secretary is authorized to appoint, from time to time for a period not to exceed one hundred and eighty days, one or more panels, each comprised of three individuals, to hear and decide disputes submitted to the Secretary pursuant to subsection (f). At least one member of each panel shall be qualified in the conduct of adjudicatory proceedings and shall preside over the activities of the panel. Each member of a panel shall possess competence in the evaluation and assessment of property damage and the economic losses resulting therefrom. Panel members may be appointed from private life or from any Federal agency except the staff administering the fund. Each panel member appointed from private life shall receive a per diem compensation, and each panel member shall receive necessary traveling and other expenses while engaged in the work of a panel. The provisions of chapter 11 of title 18, United States Code, and of Executive Order 11222, as amended, regarding special government employees, apply to panel members appointed from private life.

(i)(1) Upon receipt of a request for decision from a claimant, properly made, the Secretary shall refer the dispute to (A) an administrative law judge, appointed under section 3105 of title 5, United States Code, or (B) a panel appointed under subsection (h).

(2) The administrative law judge and each member of a panel to which a dispute is referred for decision shall be a resident of the United States judicial circuit within which the damage complained of occurred, or, if the damage complained of occurred within two or more circuits, of any of the affected circuits, or, if the damage occurred outside any circuit of the nearest circuit.

(3) Upon receipt of a dispute, the administrative law judge or panel shall adjudicate the case and render a decision in accordance with section 554 of title 5, United States Code. In any proceeding subject to this subsection, the presiding officer may require by subpena any person to appear and testify or to appear and produce books, papers, documents, or tangible things at a hearing or deposition at any designated place. Subpenas shall be issued and enforced in accordance with procedures in subsection (d) of section 555 of title 5, United States Code, and rules promulgated by the Secretary. If a person fails or refuses to obey a subpena, the Secretary may invoke the aid of the district court of the United States where the person is found, resides, or transacts business in requiring the attendance and testimony of the person and the production by him of books, papers, documents, or any tangible things.

(4) A hearing conducted under this subsection shall be conducted within the United States judicial district within which, or nearest to which, the damage complained of occurred, or, if the damage complained of occurred within two or more districts, in any of the affected districts, or, if the damage occurred outside any district, of the nearest district.

(5) The decision of the administrative law judge or panel under this subsection shall be the final order of the Secretary, except that the Secretary, in his discretion and in accordance with rules which he may promulgate, may review the decision upon his own initiative or upon exception of the claimant or the fund.

(6) Final orders of the Secretary made under this subsection shall be reviewable pursuant to section 702 of title 5, United States Code, in the district courts of the United States.

(j)(1) In any action brought against an owner, operator, or guarantor, both the plaintiff and defendant shall serve a copy of the complaint and all subsequent pleadings therein upon the fund at the same time those pleadings are served upon the opposing parties.

(2) The fund may intervene in the action as a matter of right.

(3) In any action to which the fund is a party, if the owner, operator, or guarantor admits liability under this title, the fund upon its motion shall be dismissed therefrom to the extent of the admitted liability.

(4) If the fund receives from either the plaintiff or the defendant notice of such an action, the fund shall be bound by any judgment entered therein, whether or not the fund was a party to the action.

(5) If neither the plaintiff nor the defendant gives notice of such an action to the fund, the limitation of liability otherwise permitted by section 104 of this title is not available to the defendant, and the plaintiff shall not recover from the fund any sums not paid by the defendant.

(k) In any action brought against the fund, the plaintiff may join any owner, operator, or guarantor, and the fund may implead any person who is or may be liable to the fund under any provision of this title.

(l) No claim may be presented, nor may an action be commenced for damages recoverable under this title, unless that claim is presented to, or that action is commenced against, the owners, operators, or guarantor, or against the fund, as to their respective liabilities, within three years from the date of discovery of the economic loss for which a claim may be asserted under section 103(a), or within six years of the date of the incident which resulted in that loss, whichever is earlier.

SUBROGATION

SEC. 108. (a) Any person or governmental entity, including the fund, who shall pay compensation to any claimant for an economic loss, compensable under section 103, shall be subrogated to all rights, claims, and causes of action which that claimant has under this title.

(b) Upon request of the Secretary, the Attorney General may commence an action, on behalf of the fund, for the compensation paid by the fund to any claimant pursuant to this title. Such an action may be commenced against any owner, operator, or guarantor, or against any other person or governmental entity, who is liable, pursuant to any law, to the compensated claimant or to the fund, for the damages for which the compensation was paid.

(c) In all claims or actions by the fund against any owner, operator, or guarantor, pursuant to the provisions of subsections (a) and (b), the funds shall recover—

(1) for a claim presented to the fund (where there has been a denial of source designation) pursuant to section 107(b)(1), or (where there has been a denial of liability) pursuant to section 107(c)(1)—

(A) subject only to the limitation of lia-

bility to which the defendant is entitled under section 104(b), the amount the fund has paid to the claimant, without reduction;

(B) interest on that amount, at the rate calculated in accordance with section 104(g)(2), from the date upon which the claim was presented by the claimant to the defendant to the date upon which the fund is paid by the defendant, inclusive, less the period, if any, from the date upon which the fund shall offer to the claimant the amount finally paid by the fund to the claimant in satisfaction of the claim against the fund to the date upon which the claimant shall accept that offer, inclusive; and

(C) all costs incurred by the fund by reason of the claim, both of the claimant against the fund and the fund against the defendant, including, but not limited to, processing costs, investigating costs, court costs, and attorneys' fees; and

(2) for a claim presented to the fund pursuant to section 107(c)(2)—

(A) in which the amount the fund has paid to the claimant exceeds the largest amount, if any, the defendant offered to the claimant in satisfaction of the claim of the claimant against the defendant—

(i) subject to dispute by the defendant as to any excess over the amount offered to the claimant by the defendant, the amount the fund has paid to the claimant;

(ii) interest, at the rate calculated in accordance with section 104(g)(2), for the period specified in clause (1) of this subsection; and

(iii) all costs incurred by the fund by reason of the claim of the fund against the defendant, including, but not limited to, processing costs, investigating costs, court costs, and attorneys' fees; or

(B) in which the amount the fund has paid to the claimant is less than or equal to the largest amount the defendant offered to the claimant in satisfaction of the claim of the claimant against the defendant—

(i) the amount the fund has paid to the claimant, without reduction;

(ii) interest, at the rate calculated in accordance with section 104(g)(2), from the date upon which the claim was presented by the claimant to the defendant to the date upon which the defendant offered to the claimant the largest amount referred to in this subclause: *Provided*, That if the defendant tendered the offer of the largest amount referred to in this subclause within sixty days of the date upon which the claim of the claimant was either presented to the defendant or advertising was commenced pursuant to section 106, the defendant shall not be liable for interest for that period; and

(iii) interest from the date upon which the claim of the fund against the defendant was presented to the defendant to the date upon which the fund is paid, inclusive, less the period, if any, from the date upon which the defendant shall offer to the fund the amount finally paid to the fund in satisfaction of the claim of the fund to the date upon which the fund shall accept that offer, inclusive.

(d) The fund shall pay over to the claimant that portion of any interest the fund shall recover, pursuant to clause (1) and subclause (A) of clause (2) of subsection (c), for the period from the date upon which the claim of the claimant was presented to the defendant to the date upon which the claimant was paid by the fund, inclusive, less the period from the date upon which the fund offered to the claimant the amount finally paid to the claimant in satisfaction of the claim to the date upon which the claimant shall accept that offer, inclusive.

(e) The fund is entitled to recover for all interest and costs specified in subsection (c) without regard to any limitation of liability to which the defendant may otherwise be entitled.

JURISDICTION AND VENUE

SEC. 109. (a) The United States district courts shall have exclusive original jurisdiction over all controversies arising under this title, without regard to the citizenship of the parties or the amount in controversy.

(b) Venue shall lie in any district wherein the injury complained of occurred, or wherein the defendant resides, may be found, or has his principal office. For the purposes of this section, the fund shall reside in the District of Columbia.

RELATIONSHIP TO STATE LAW

SEC. 110. (a) Except as provided in this title—

(1) no person shall be required to contribute to any fund by any Federal, State, or other law, the purpose of which is to pay compensation for any loss which may be compensated for under this title;

(2) no owner or operator of a facility or vessel, who establishes and maintains evidence of financial responsibility in accordance with this title, shall be required under any State law, rule, or regulation to establish any other evidence of financial responsibility in connection with liability for the discharge of oil from such facility or vessel, and evidence of compliance with the financial responsibility requirements of this title shall be accepted by a State in lieu of any other requirement of financial responsibility imposed by such State, in connection with the liability for the discharge of oil from such facility or vessel; and

(3) subject to the provisions of subsection (b) hereof, no action may be brought in any court of the United States or of any State or political subdivision thereof, for damages for an economic loss described in section 103 of this title.

(b) A claimant, other than a governmental entity, has the election of pursuing his remedy for damages for an economic loss described in section 103 under any applicable State law or under the provisions of this Title and, once having made that election, shall be precluded from submitting a claim or pursuing a remedy under the alternative procedure: *Provided*, That in any case where the owner or operator of a vessel or facility is required to respond to claims under laws of one or more States and to pay compensation pursuant to such laws which would result, together with claims presented under this title for loss caused by the same incident, in payments which in the aggregate are in excess of the liability of that owner or operator under section 104 of this title, shall be compensated by the fund established under section 102 hereof for any such excess.

(c) Except as specifically provided otherwise herein, this title shall not be interpreted to preempt the field of liability; nor interpreted to preclude any State from imposing a tax or fee upon any person or upon oil in order to finance the purchase or prepositioning of oil discharge cleanup equipment or other preparation for the cleanup of an oil discharge which affects such State; nor to preclude any State from imposing additional requirements or liability for damages, including cleanup costs, within the jurisdiction of such State, resulting from a discharge of oil.

PENALTIES

SEC. 111. (a)(1) Any person who fails to comply with the requirements of section 105, the regulations promulgated thereunder, or any denial or detention order, shall be subject to a civil penalty of not more than $10,000.

(2) Such penalty may be assessed and compromised by the President or his designee, in connection with section 105(a)(1), and by the Secretary, in connection with section 105(a)(3) and section 105(b). No penalty shall be assessed until notice and an opportunity for hearing on the alleged violation have been given. In determining the amount of the penalty or the amount agreed upon in compromise, the demonstrated good faith of the party shall be taken into consideration.

(3) At the request of the official assessing the penalty, the Attorney General may bring an action in the name of the fund to collect the penalty assessed.

(b) Any person in charge, subject to the jurisdiction of the United States, who fails to give the notification required by section 106(a) shall, upon conviction, be fined not more than $10,000, or imprisoned for not more than one year, or both.

STUDIES

SEC. 112. (a) The President is authorized and directed to conduct a study to determine (1) whether adequate private oil pollution insurance protection is available on reasonable terms and conditions to the owners and operators of vessels, onshore facilities, and offshore facilities subject to liability under section 104, and (2) whether the market for such insurance is sufficiently competitive to assure purchasers of features such as a reasonable range of deductibles, co-insurance provisions and exclusions. The President shall submit the results of his study, together with his recommendations, to the Congress within one year of the date of enactment of this Act, and shall submit an interim report on his study within three months of the date of enactment of this Act.

(b) The President is authorized and directed to establish an interagency task force to study methods and procedures for implementing a uniform law providing liability and compensation for cleanup costs and damages from hazardous substance spills from any source. The study shall give particular attention to methods of adjudicating and settling claims as rapidly, economically, and equitably as possible. The study shall also review the availability of insurance and whether liability or compensation ought to be provided for personal injury. The report of such investigation, together with legislative recommendations, shall be submitted to the Congress within eighteen months after the enactment of this Act.

(c) The President is authorized and directed to undertake a study of the methodology for the assessment of damages for injury to, destruction of, or loss of natural resources resulting from a discharge of oil or a hazardous substance. Such study shall specify (1) standard procedures for simplified assessments requiring minimal field observation, including establishing measures of damages based on units of discharge or units of affected area, and (2) alternative interagency agreements for conducting assessments in individual cases to determine the type and extent of short- and long-term injury, destruction, or loss. Such study shall identify the best available procedures to determine such damages, including both direct and indirect injury, destruction, or loss and shall take into consideration factors including, but not limited to, replacement value, use value, and ability of the ecosystem or resource to recover. The report of the study shall be submitted to the Congress within two years after the enactment of this Act.

(d) The Comptroller General, in consultation with the Administrator of the Environmental Protection Agency, shall study the necessity for providing assistance in emergencies caused by the release into the environment of any pollutant or other contaminant which presents or may reasonably be anticipated to present an imminent and substantial danger to the public health or welfare, and shall report to the Congress within one year after the enactment of this

Act, on the results of such study, together with a recommendation on the appropriate level and source of funding for section 504 (b) of the Federal Water Pollution Control Act, as amended.

APPROPRIATIONS

SEC. 113. (a) There are hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of section 112.

(b) The Secretary is hereby authorized to incur indebtedness on behalf of the United States, as provided in section 102(f), to the extent provided, in appropriation Acts, for that purpose.

ANNUAL REPORT

SEC. 114. Within six months after the end of each fiscal year, the Secretary shall submit to the Congress (1) a report on the administration of the fund during such fiscal year, and (2) his recommendations for such legislative changes as he finds necessary or appropriate to improve the management of the fund and the administration of the liability provisions of this title.

TITLE II—EFFECTIVE DATES; CONFORMING AMENDMENTS

SEC. 201. (a) This section, section 101, subsection (d) of section 105, section 203, and all provisions of title I authorizing the delegation of authority or the promulgation of regulations shall be effective on the date of enactment of this Act.

(b) All other provisions of title I, the regulations applicable thereto, and section 202 shall be effective on the one hundred and eightieth day after the date of enactment of this Act: *Provided*, That the penalty authorized by section 111 for failure to comply with the requirements of section 105 or the regulations promulgated thereunder shall not be effective until the ninetieth day after the promulgation of such regulations or the two hundred and seventieth day after the date of enactment of this Act, whichever is earlier.

SEC. 202. (a) Subsection (b) of section 204 of the Trans-Alaska Pipeline Authorization Act (87 Stat. 586) is amended, in the first sentence, by inserting after "any area", the words "in the State of Alaska"; by inserting after "any activities", the words "related to the trans-Alaska oil pipeline", and by inserting at the end of the subsection a new sentence to read as follows: "This subsection shall not apply to removal costs resulting from oil pollution as that term is defined in section 101(n) of the Comprehensive Oil Pollution Liability and Compensation Act.".

(b)(1) Subsection (c) of section 204 of the Trans-Alaska Pipeline Authorization Act is hereby repealed. The Trans-Alaska Pipeline Liability Fund is hereby abolished. All assets of that fund, as of the effective date of this section, shall be transferred to the Comprehensive Oil Spill Liability Fund established by section 102 of this Act. The Comprehensive Oil Spill Liability Fund shall assume any and all liability incurred by the Trans-Alaska Pipeline Liability Fund under the terms of subsection (c) of section 204 of the Trans-Alaska Pipeline Authorization Act, and shall also assume any and all liability incurred by the officers or trustees in the execution of their duties involving the Trans-Alaska Pipeline Liability Fund, other than the liability of such officers or trustees for gross negligence or willful misconduct.

(2) The Secretary of the Interior shall certify to the Secretary the total amount of the claims outstanding against the Trans-Alaska Pipeline Liability Fund at the time the transfer of assets required under paragraph (1) is made. If the Secretary finds that—

(A) the total amount of the assets so transferred is greater than the total amount of the outstanding claims so certified, subject to paragraph (4) of this subsection, the difference between the amount of the assets so transferred and the amount of the outstanding claims so certified shall constitute an advance payment toward payment of the fee due under section 102(d) of this Act on barrels of oil, and the Secretary may waive such fee until such time as the total amount of the fees so waived equals the difference between the amount of the assets so transferred and the amount of the outstanding claims so certified; or

(B) the total amount of the assets so transferred is less than the total amount of the outstanding claims so certified, the Secretary shall increase by 2 cents per barrel the fee imposed under such section 102(d) on barrels of oil until such time as the total amount of the 2-cent-per-barrel increase so collected equals the difference between the amount of the certified outstanding claims and the amount of the transferred assets.

(3) In the event that the total amount of the actual claims settled is less than the total amount of the outstanding claims certified, the difference between these amounts shall be rebated by the Secretary directly to the operator of the trans-Alaska oil pipeline for payment, on a pro rata basis, to the owners of the oil at the time it was loaded on the vessel.

(4) If an owner of oil (as that term is used in section 204(c)(5) of the Trans-Alaska Pipeline Authorization Act) who prior to enactment of this Act paid fees to the operator of the pipeline for transfer to the Trans-Alaska Pipeline Liability Fund receives the benefit of an advance payment under paragraph (2) of this subsection for the collection or payment of fees established under section 102(d) of this Act, such owner of oil shall compute, based upon accepted accounting procedures, what the oil production tax and what the royalty paid to the State of Alaska would have been had payments not been made to the Trans-Alaska Pipeline Liability Fund in the amount of fees waived. The difference between the amounts so computed and amounts actually paid to the State of Alaska shall be paid by each such owner to the State of Alaska. Such owner shall make such payment to the State of Alaska during such time as the collection of payment of fees under section 102(d) of this Act is waived.

(5) For purposes of paragraphs (2) and (3):

(A) the term "barrels of oil" means only barrels of oil which would, but for the repeal made by paragraph (1), be subject to the fee imposed under section 204(c)(5) of the Trans-Alaska Pipeline Authorization Act;

(B) the term "Secretary" means the Secretary of the Treasury.

(c) Section 17 of the Intervention on the High Seas Act (88 Stat. 10) is amended to read as follows:

"SEC. 17. The fund established under section 102 of the Comprehensive Oil Pollution Liability and Compensation Act shall be available to the Secretary for actions and activities, relating to oil pollution, taken under section 5 of this Act, and the revolving fund established under section 311(k) of the Federal Water Pollution Control Act, as amended, shall be available for other actions and activities taken under section 5 of this Act.".

(d) Section 311 of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1321) is further amended as follows:

(1) Subsection (a) is amended by replacing the period at the end of clause (16) thereof with a semicolon and adding a new clause (17) to read as follows:

"(17) 'person in charge' means the individual having immediate operational responsibility.".

(2) Paragraph (5) of subsection (b) is amended in the last sentence, by inserting after the word "person", the words "or his employer".

(3) Paragraph (6) of subsection (b) is amended—

in the first and second sentences, by striking the phrase "or person in charge" each time it appears and inserting in lieu thereof "person in charge, or employer of such person in charge,"; and

in the third sentence, by striking "the owner or operator" and inserting in lieu thereof "whoever being".

(4) Clause (H) of paragraph (2) of subsection (c) is amended by inserting after the words "of this section" the words "or the fund established under section 102 of the Comprehensive Oil Pollution Liability and Compensation Act, as appropriate,".

(5) Subsection (d) is amended by striking the last sentence and inserting in lieu thereof "Any expense incurred under this subsection or under the Intervention on the High Seas Act (or the Convention as defined in section 2(3) thereof) shall be reimbursed from the fund established under subsection (k) of this section or the fund established under section 102 of the Comprehensive Oil Pollution Liability and Compensation Act, as appropriate. Any expense incurred thereunder for which reimbursement may be had from the fund established under subsection (k) of this section shall be recoverable from the owner or operator of the vessel in accordance with subsection (f) of this section.".

(6) Paragraph (5) of subsection (b) and subsections (f), (g), (h), (i), and (o) are amended by inserting after the word "oil" wherever it appears the words "(other than petroleum, crude oil, or any fraction or residue therefrom)".

(7) Subsection (f) is further amended, in the last sentence of paragraph (1), by inserting a comma after the word "vessel" and by adding immediately thereafter "or against the person furnishing financial responsibility under section 15 of the Comprehensive Oil Pollution Liability and Compensation Act,".

(8) Subsection (g) is further amended, by inserting in the last sentence, after the word "party" the words "or against the person providing financial responsibility for that party under section 105 of the Comprehensive Oil Pollution Liability and Compensation Act,".

(9) Subsection (k) is amended to read as follows:

"(k) There is hereby authorized to be appropriated to a revolving fund to be established in the Treasury such sums as may be necessary to maintain such fund at a level of $35,000,000 to carry out the provisions of subsections (c), (d), (i), and (l) of this section respecting discharges or imminent discharges of oil (other than petroleum, crude oil, or any fraction or residue therefrom) and hazardous substances. Any other funds received by the United States under this section respecting such discharges shall also be deposited in this fund for these purposes. All sums appropriated to, or deposited in, the fund shall remain available until expended.".

(10) Subsection (l) is amended by deleting the period at the end of the second sentence and by inserting in lieu thereof the words "respecting discharges or imminent discharges of oil (other than petroleum, crude oil, or any fraction or residue therefrom).".

(11) Subsection (p) is hereby repealed and subsections (q) and (r) are redesignated subsection (p) and (q), respectively.

(e) The Deepwater Port Act of 1974 (88 Stat. 2126) is amended as follows:

(1) In section 4(c)(1), strike "section 18 (l) of this Act;" and insert in lieu thereof "section 105 of the Comprehensive Oil Pollution Liability and Compensation Act;".

(2) Subsections (b), (d), (e), (f), (g), (h), (i), (j), (l), and (n) of section 18 are deleted.

(3) Clause (3) of subsection (c) of section

18 is amended by striking "Deepwater Port Liability Fund established pursuant to subsection (f) of this section." and inserting in lieu thereof "fund established under section 102 of the Comprehensive Oil Pollution Liability and Compensation Act.".

(4) Subsection (k) of section 18 is amended to read as follows:

"(k) This section shall not be interpreted to preclude any State from imposing additional requirements, not inconsistent with the provisions of the Comprehensive Oil Pollution Liability and Compensation Act, for any discharge of oil from a deepwater port or a vessel with any safety zone.".

(5) Subsections (c), (k), and (m) of section 18 are redesignated (b), (c), and (d), respectively.

(f) Title III of the Outer Continental Shelf Lands Act Amendments of 1978 (Public Law 95-372) Is hereby repealed.

OIL AND HAZARDOUS SUBSTANCE LIABILITY

SEC. 203. (a) Section 311(a)(2) of the Federal Water Pollution Control Act is amended by inserting before the semicolon at the end thereof the following: ", but excludes (A) discharges in compliance with a permit under section 402 or 404 of this Act, (B) discharges resulting from circumstances identified and reviewed and made a part of the public record with respect to a permit issued or modified under section 402 or 404 of this Act, and (C) discharges from a point source, designated in a permit or permit application under section 402 or 404 of this Act, which are caused by events occurring within the scope of relevant operating or treatment systems;".

(b) Section 311(b)(2)(E) of such Act is amended to read as follows:

"(B)(i) The owner, operator, or person in charge of any vessel, onshore facility, or offshore facility from which there is discharged a hazardous substance in violation of paragraph (3) of this subsection shall (subject to the defenses to liability provided in subsection (f) of this section) be assessed a civil penalty by the Administrator based on consideration of the size of the business of the owner or operator, the effect on the ability of the owner or operator to continue in business, the gravity of the violation, and the nature, extent, and degree of success of any efforts made by the owner, operator, or person in charge to minimize or mitigate the effects of such discharge. The amount of the penalty shall not exceed $50,000, except that where the United States can show that such discharge was the result of willful negligence or willful misconduct within the privity and knowledge of the owner, operator, or person in charge, such owner, operator, or person shall be assessed a civil penalty by the Administrator, based upon the gravity of the violation, in any amount not exceeding $250,000. No penalty shall be assessed unless the owner, operator, or person in charge shall have been given notice and opportunity for a hearing on the charge. Each violation is a separate offense. Any such civil penalty may be compromised by the Administrator. Civil penalties shall not be assessed under both this section and section 309 for the same discharge.

"(ii) In addition to establishing a penalty for the discharge of a hazardous substance, the Administrator may act to mitigate the damage to the public health or welfare caused by such discharge. The cost of such mitigation shall be deemed a cost insurred under subsection (c) of this section for the removal of such substance by the United States Government.".

(c) Section 311(b)(3) of such Act is amended by striking out "in harmful quantities" and inserting in lieu thereof "in such quantities as may be harmful".

(d) Section 311(b)(4) of such Act is amended to read as follows:

"(4) The President shall by regulation determine for the purposes of this section those quantities of oil and any hazardous substances the discharge of which may be harmful to the public health or welfare of the United States, including but not limited to fish, shellfish, wildlife, and public and private property, shorelines, and beaches.".

(e) Section 311(b)(6) of such Act is amended by striking out "or a hazardous substance" each place it appears.

SEC. 204. If any provision of this Act or the applicability thereof is held invalid, the remainder of this Act shall not be affected thereby.

Amend the title so as to read: "To provide a comprehensive system of liability and compensation for oil spill damage and removal costs, and for other purposes.".

Mr. MURPHY of New York (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendments and the House amendments to the Senate amendments be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from New York?

Mr. TREEN. Mr. Speaker, reserving the right to object, I do this simply to inquire of the chairman of the committee if the language contained in the legislation is the language which was agreed upon today between the majority and the minority?

Mr. MURPHY of New York. Mr. Speaker, if the gentleman will yield, this is the language that was agreed upon between the majority and minority in both committees.

Mr. TREEN. And no changes have been made in that language this afternoon?

Mr. MURPHY of New York. There have been no changes other than as contained in the final agreement with the gentleman.

Mr. TREEN. Mr. Speaker, I thank the gentleman, and I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from New York?

Mr. ASHBROOK. Mr. Speaker, reserving the right to object, can my colleague assure us that there is nothing in the bill on the Senate side that is nongermane?

Mr. MURPHY of New York. Mr. Speaker, if the gentleman will yield, there is nothing on the Senate side that is nongermane. In fact, we still have to go back to the Senate with the language that we have agreed upon.

Mr. ASHBROOK. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from New York?

There was no objection.

The SPEAKER. Is there objection to the initial request of the gentleman from New York?

There was no objection.

A motion to reconsider was laid on the table.

FURTHER MFSSAGE FROM THE SENATE

A further message from the Senate, by Mr. Sparrow, one of its clerks, announced that the Senate agrees to the amendment of the House with amendments to a bill of the Senate of the following title:

S. 791. An act to authorize additional appropriations for the acquisition of lands and interests in lands within the Sawtooth National Recreation Area in Idaho.

IN TRIBUTE TO RALPH H. METCALFE

(Mr. ANDERSON of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ANDERSON of California. Mr. Speaker, on Tuesday, the Nation lost one of its truly outstanding leaders. We who have had the pleasure to work with Ralph Metcalfe have lost a remarkable colleague, and a good friend. The people of the First Congressional District of Illinois have lost a man of integrity and leadership who will not easily be replaced.

I first met Ralph at the finish line of the 100-meter sprint in the 1932 Olympics in Los Angeles where he had just come in second, thus winning an Olympic silver medal. I was at the finish line because I had the privilege of working for Fox News at the Olympic games.

In those days we did not have televisions, we only had newsreels. At the time, my "business" was fast motorcycles and motorcycle racing, and it was my job with Fox to get the news films from the finish line to the film laboratory in the shortest time possible after each event. After the films were developed they were sent to movie houses throughout the country for people to see the latest news events.

I have also had the privilege to serve with Ralph on the Merchant Marine and Fisheries Committee for the past 8 years. During that time he worked hard to insure the future of the American merchant marine, and as chairman of the Subcommittee on the Panama Canal, Ralph worked diligently to maintain the safe operation and maintenance of the Panama Canal.

Ralph has always strived to be the best and do the most thorough job in everything, starting as a medalist in those 1932 and 1936 Olympics, as a member of the Chicago City Council from 1955-70, and as a Member of the House since 1970.

Little did I dream, when I first congratulated Ralph back in 1932, that we would one day be serving together in the U.S. House of Representatives. Ralph and I often reminisced about our first meeting on that memorable day in 1932.

In this time of sorrow for the entire Nation, my wife Lee and I would like to extend our sympathy to those who will miss Congressman Metcalfe most; his wife Madalynne and son Ralph Jr. They should know that the thoughts of all of us in this Chamber are with them in their hours of grief. For indeed, speaking for the Nation and as individuals, we share in that grief, and will miss Ralph Metcalfe greatly.

INTERIM REGULATIONS ISSUED BY CIVIL SERVICE COMMISSION TO IMPLEMENT TITLE IV OF PUBLIC LAW 95-390

(Mr. SOLARZ asked and was given permission to address the House for 1

minute and to revise and extend his remarks.)

Mr. SOLARZ. Mr. Speaker, I have received a copy of the interim regulations issued by the Civil Service Commission to implement title IV of Public Law 95-390. This is the law that provides for the adjustment of work schedules for religious observances. I am gratified with the promptness with which the Commission has responded in issuing these interim regulations.

It is my hope that the Commission will move as expeditiously in issuing final regulations giving full effect to the intent of Congress that the accommodation made possible by title IV be available to all Federal employees in executive agencies and military departments as those terms are defined in sections 105 and 102 of title 5, United States Code.

I trust that agencies in the judicial and legislative branches, as well as the Government of the District of Columbia, will proceed with the same expedition to insure that their employees will have the benefits provided by title IV of this legislation.

Mr. Speaker, I request that this copy of the Civil Service Commission interim regulations be printed in the RECORD as an extension of my remarks.

U.S. CIVIL SERVICE COMMISSION,
Washington, D.C., October 2, 1978.

Subject: Adjustment of Work Schedules for Religious Observances.

To: Heads of Departments and Independent Establishments.

1. The President signed the Federal Employees Flexible and Compressed Work Schedules Act of 1978 into law on September 29, 1978 (Public Law 95-*). Title IV of this Act, entitled "Adjustment of Work Schedules for Religious Observances," amends title 5, United States Code, to provide that a Federal employee may elect to work compensatory overtime for the purpose of taking time off without charge to leave when personal religious beliefs require that the employee abstain from work during certain periods of the workday or workweek. Under this law, any employee who elects to work compensatory overtime for this purpose shall be granted (in lieu of overtime pay) an equal amount of compensatory time off (hour for hour) from his or her scheduled tour of duty. However, the law also provides that under appropriate regulations an employee's election to work compensatory overtime or to take compensatory time off to meet his or her religious obligations may be disapproved by an agency if such modifications in work schedules interfere with the efficient accomplishment of an agency's mission. (Note: Title IV is permanent legislation and bears no relation to the 3-year experimental program of flexible and compressed workweeks otherwise authorized by the Act.)

2. The Civil Service Commission plans to promulgate further regulations for implementing title IV of the Act for Executive agencies. (Note: The statute requires agencies cited in subparagraphs (C) through (G) of section 5541(1) of title 5, United States Code, to prescribe their own regulations for implementing title IV of this Act.) Because of the immediacy of certain days of religious observance for some Federal employees which occur in early October and fall on normal workdays, and in view of the requirement that Commission regulations be issued within 30 days of enactment, Executive agencies shall be governed by the following interim regulations:

PART 550—PAY ADMINISTRATION
(General)

SUBPART J—ADJUSTMENT OF WORK SCHEDULES FOR RELIGIOUS OBSERVANCES

550.1001 Coverage.

This subpart applies to each employee in or under an Executive agency as defined by section 105 of title 5, United States Code.

550.1002 Compensatory Time Off for Religious Observances.

(a) These interim regulations are issued pursuant to title IV of Public Law 95-* enacted September 29, 1978. Under the law and these regulations, an employee whose personal religious beliefs require the abstention from work during certain periods of time may elect to engage in overtime work for time lost for meeting those religious requirements.

(b) To the extent that such modifications in work schedules do not interfere with the efficient accomplishment of an agency's mission, the agency shall in each instance afford the employee the opportunity to work compensatory overtime and shall in each instance grant compensatory time off to an employee requesting such time off for religious observations when the employee's personal religious beliefs require that the employee abstain from work during certain periods of the workday or workweek.

(c) For the purpose stated in (b) above, the employee may work such compensatory overtime before or after the grant of compensatory time off. A grant of advanced compensatory time off should be repaid by overtime work within a reasonable amount of time. Compensatory overtime shall be credited to an employee on an hour for hour basis or authorized fractions thereof. Appropriate records will be kept of compensatory overtime earned and used.

(d) The premium pay provisions for overtime work in subpart A of part 550 of title 5, Code of Federal Regulations, and section 7 of the Fair Labor Standards Act of 1938, as amended, do not apply to compensatory overtime work performed by an employee for this purpose.

(e) These interim regulations shall remain in effect until superseded by further regulations on this subject by the Civil Service Commission.

(Note: An agency is expected to accommodate to an employee's request to work compensatory overtime. If no productive overtime is available to be worked by the employee at such time as he or she may initially request, alternative times should be arranged for the performance of the compensatory overtime work.)

Agencies are reminded of their obligation under E.O. 11491, as amended, to notify and consult or negotiate, as appropriate, with recognized unions.

4. A copy of title IV of Public Law 95- is attached.

By direction of the Commission:

RAYMOND JACOBSON,
Executive Director.

Attachment.

[Title IV of Public Law 95-390, enacted September 29, 1978]

ADJUSTMENT OF WORK SCHEDULES FOR RELIGIOUS OBSERVANCES

Compensatory Time Off For Religious Observances

SEC. 401. (a) Subchapter V of chapter 55 of title 5, United States Code, is amended by adding at the end thereof the following new section:

"§ 5550a. Compensatory time off for religious observances

"(a) No later than 30 days after the date of the enactment of this section, the Civil Service Commission shall prescribe regulations providing for work schedules under which an employee whose personal religious beliefs require the abstention from work during certain periods of time, may elect to engage in overtime work for time lost for meeting those religious requirements. Any employee who so elects such overtime work shall be granted equal compensatory time off from his scheduled tour of duty (in lieu of overtime pay) for such religious reasons, notwithstanding any other provision of law.

"(b) In the case of any agency described in subparagraphs (C) through (G) of section 5541(1) of this title, the head of such agency (in lieu of the Commission) shall prescribe the regulations referred to in subsection (a) of this section.

"(c) Regulations under this section may provide for such exceptions as may be necessary to efficiently carry out the mission of the agency or agencies involved."

(b) The analysis for chapter 55 of title 5, United States Code, is amended by adding after the item relating to section 5550 the following:

"5550a. Compensatory time off for religious observances."

GENERAL LEAVE FOR EXTENSION OF REMARKS UNTIL PUBLICATION OF LAST EDITION OF CONGRESSIONAL RECORD

Mr. PANETTA. Mr. Speaker, I ask unanimous consent that all Members of the House shall have the privilege, until the last edition authorized by the Joint Committee on Printing is published, to extend and revise their own remarks in the CONGRESSIONAL RECORD on the subject of one or more retiring Members, if they so desire, and may also include therein such short quotations as may be necessary to explain or complete such extensions of remarks.

The SPEAKER. Is there objection to the request of the gentleman from California?

There was no objection.

IRS RACE QUOTAS: FIRST STEP TOWARD TOTAL FEDERAL CONTROL OF PRIVATE EDUCATION

(Mr. ASHBROOK asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. ASHBROOK. Mr. Speaker, between 80 and 90 percent of the American people oppose both racial hiring quotas and busing. As I pointed out to this House last month. Dr. James Coleman, whose study and testimony a decade ago was the basis of racial quotas which are the excuse for busing, has declared racial quotas to be a complete failure. Now the Internal Revenue Service is moving to require both racial quotas and minority hiring quotas in private schools throughout America. It is difficult to imagine a more callous or unconstitutional action.

We all know what will be the next steps after racial guidelines have been imposed on private schools by the Federal Government. We have seen every vestige of local and State autonomy taken away from State and local schools in the name of fighting racism, then sexism, and then religion. It will not be long before the Federal bureaucracy is scrutinizing the textbooks and teaching of each

private school for alleged sexism and for teaching religion. In a very short time, if these regulations go through, our private schools will be treated precisely as are schools receiving direct public support.

For years I have warned that Federal aid meant Federal control of State and local schools. Many of the school officials who thought JOHN ASHBROOK was an alarmist at the time have since faced an annual nightmare of Federal paperwork and Federal interference which has taken much if not most of the joy out of teaching. If they thought I was an alarmist then, what would they have thought had I predicted over a decade ago that Federal aid to education would mean they would have to try to hire professors because of their skin color, or that their cheerleaders would be required to cheer equally for male and female basketball teams, all by Federal decree? With this experience before our eyes, there is nothing more absurd than to think that the Internal Revenue Service's proposed racial hiring and student quotas are the last step that will be taken toward Federal control of private education.

The education establishment in Washington must destroy meaningful private education in this country for one reason: private education is doing too good a job. Like any other bloated monopolist, the Federal education establishment fears competition above all else. They cannot continue to use the public school system to teach life adjustment and propaganda to the children if parents are offered an alternative. The educational bureaucrats cannot continue to turn out an ever-increasing number of functional illiterates with high school diplomas if a healthy private school system continues in the present private school drive toward teaching reading, writing, arithmetic, and American values. For the Washington educational establishment to continue the 15-year educational disaster in this country as it wishes to do, it must destroy meaningful private education in this country. To do this, it will never have a better tool than the Carter administration.

It has not been the will of the people, but rather the will of the Washington educational establishment led by the National Education Association, which has dictated the policy of the Carter administration. If the NEA wants a Department of Education, a Department of Education becomes Carter policy. A taxpayer revolt begins with an overwhelming victory in the largest State in the Union. The voice of the people speaks loud and clear on the subject of blind governmental spending, with a special emphsis on education. But Mr. Carter hears not a whisper of it. Within weeks of the passage of proposition 13, the administration pushes through an increase in the 5-year authorization for every Federal education program which has been part of the 15-year disaster in education in this country. The people may shout, but Carter hears only the NEA and the Washington education bureaucracy.

There may be someone in this country naive enough to believe that the Washington educational establishment, whose unswerving aim is to eliminate competition in education, is not behind this proposed action by the Internal Revenue Service. But such naivete is not suitable for a Member of the U.S. Congress.

In 1964, I warned that the Civil Rights Act of that year would be used to enforce busing. Liberals, moderates, and even conservatives told me that I was being an alarmist, and pointed to the explicit prohibition in that act against the use of withholding Federal funds to enforce racial balance in public schools. As I predicted, the bureaucracy simply ignored that prohibition. It is difficult for me to believe that we can continue to live in a dream world where the educational bureaucracy is supposed to be interested only in preventing racial or sexist abuse. That is not and never has been the real aim of racial quotas and preferential hiring requirements embraced by the Washington educational establishment. The purpose is control over local, State, and now private schools.

The proposed Internal Revenue Service race quotas represent the beginning of the end for meaningful private education in America. If they are allowed to take effect, it will mark the closing of the last means by which parents can escape the suffocating power of the Washington educational establishment over education in this country.

The proposed change in the law will occur before Congress is able to do a single thing to stop this agency unless we act this week. The IRS quietly issued these regulations on August 22 (Federal Register No. 43, No. 163), and specified that public comment could not be submitted after October 23.

I urge my colleagues to write letters to: Commissioner of Internal Revenue, attention: EEO, Washington, D.C. 20224. I submit herein a copy of my own letter for the record so that my colleagues may see the rationale upon which I base my objections.

Re: IRS Notification of Proposed Rulemaking, Federal Register, No. 43, August 22, 1978

(To Jerome Kurtz, Commissioner, IRS)

This regulation will, if promulgated, set a dangerous precedent in this country. The imposition of IRS minority quota standards for private schools will create a new regulatory network which amounts to nothing less than legislation by decree.

When Section 501(c)(3) was added to the Internal Revenue Code, the legislative branch considered that tests for tax exempt status would revolve around a small not-for-profit educational standard. At no time did the Congress consider the imposition of specific regulations as to hiring practices or student recruitment in the private schools. The 501 exemption speaks to organizations operated for education purposes, in which no part of the net earnings accrues to a private shareholder or individual, and in which there is no substantial influence upon legislation, and no participation in political campaigns.

Under no circumstances did the Congress authorize the promulgation of operational standards for educational institutions which qualify under the 501(C)3 treatment. It was not the intent of Congress to structure an I.R.S. policing system to dictate policies for the private schools to ensure that they:

Are hiring racial minority teachers

Are actively recruiting minority students

Have established scholarships for racial minorities

Are increasing the proportion of racial minority students

Have as a bare minimum, as a percentage of minority students of the proper school age in the respective community: 20%.

It is my suggestion that you rescind entirely these proposed regulations. If you do not choose to do this, then it would be the recommendation of this Member of Congress that you at a bare minimum, permit both Houses of the Congress to conduct oversight hearings on the basis upon which you propose these regulations before you act.

Because you have set October 23 as the cutoff date for public comment, it would now be impossible for the Congress to conduct such inquiries. It would serve the best interest of good government to delay further action on this matter until the Ninety-sixth Congress has convened, and has taken the opportunity to examine carefully the proposed regulations.

Sincerely,

JOHN M. ASHBROOK.

LOU FREY

The SPEAKER. Under a previous order of the House, the gentleman from Florida (Mr. BENNETT) is recognized for 30 minutes.

● Mr. BENNETT. Mr. Speaker, I and many other Members of Congress pay tribute today to LOU FREY who has represented Winter Park, Fla., area beginning in 1969; and who retires from the House this year. LOU FREY has had a distinguished career in the House and it was preceded by distinction before he came here.

He graduated cum laude from Colgate University in 1955, enlisted in the U.S. Navy in that same year and served until he was discharged in 1958 as lieutenant (j.g.). He graduated from the University of Michigan Law School with honors in 1961 with a J.D. degree. He is married to the former Marcia Turner and Mr. and Mrs. Frey have five children: Julie, Lynn, Louis III, Lauren, and Chris. He practiced law in Orlando, Fla., until coming to Congress.

Here in Congress he was elected chairman of the Republican Research Committee in his third term and re-elected chairman thereafter. He was honored by Time magazine as "one of the Young Leaders in America in 1974." His work on the Science and Technology Committee and the Committee on Interstate and Foreign Commerce has been outstanding, as well as his other legislative achievements here in Congress.

There are few men in Congress who have had the universal appreciation by all Members of Congress which LOU enjoys. His going from Congress will be a real loss for all of us; and a loss to the advancement of good legislation, because he has authored and passed many excellent measures for our country and for mankind. We will miss you LOU.●

GENERAL LEAVE

Mr. BENNETT. Mr. Speaker, I ask unanimous consent that all Members may revise and extend their remarks in reference to the gentleman from Florida (Mr. FREY).

The SPEAKER. Is there objection to the request of the gentleman from Florida?

There was no objection.

● Mr. YOUNG of Florida. Mr. Speaker, it is with mixed emotions that I join in this special order to honor my close friend and colleague, LOU FREY, Congressman from the Ninth District of Florida. I am very pleased to have had the opportunity to work with him in the Florida delegation, but I also feel a personal loss at his retirement after his five terms of service.

LOU was elected to Congress one term before I was so he and I have had many similar experiences as part of the Republican Party contingent in the Florida delegation. Although LOU has only been a Member for 10 years, his has been a distinguished record of public service on behalf of the citizens of the Ninth District, the State of Florida and the Nation. LOU has been a valuable and contributing member of the Interstate and Foreign Commerce Committee and is the ranking minority member of the Subcommittee on Communications. He is also a member of the Science and Technology Committee and has made many contributions to the U.S. space program which has had so many successful projects that began in his own district which includes Cape Canaveral.

LOU's accomplishments, talents and potential have not gone unnoticed outside his district and State as he was cited by Life magazine as a "Hope for Congress" in 1972 and also by Time magazine in 1974 as one of the "200 young leaders in America." His legislative work, constituent service and personal leadership characteristics show that he is the type of private individual and public servant who will be sorely missed by his constituents, his fellow members of the Florida delegation and the Nation.

Having worked with LOU throughout my entire service in Congress, I feel a special kinship for him and I will miss his friendship, advice and counsel and the special contributions that he has made to the Congress. I look forward to our continued association for many years to come.●

● Mr. LEHMAN. Mr. Speaker, I will miss LOU FREY very much when he retires from Congress. It has been a pleasure to know him since I came to Congress in 1973, and I have enjoyed working with him as a fellow member of the Florida delegation.

LOU FREY has epitomized the kind of Congressman we need here in Washington. He came to serve in his job, not to be served by it. His vitality, spirit, and personal independence has inspired us all.

All his friends wish him well in the future, and we hope that he will not stay away from public life where he can still do so much good.●

● Mr. DERWINSKI. Mr. Speaker, I would like to join with my colleagues in paying a well-deserved tribute to LOU FREY, who will be leaving the Congress at the close of this session. We have been fortunate to have LOU as a colleague and to benefit from his extraordinary ability.

During his 10 years in Congress, LOU has served the people of the Florida's Ninth Congressional District with dedication and distinction and he may step down from his duties here in Congress knowing that he has served well and contributed significantly to the legislative process.

LOU FREY has distinguished himself as a man of integrity and ability and has been an asset to the State of Florida, Congress, and to the Nation. His work on both the Science and Technology and Interstate and Foreign Commerce Committees has gained him a reputation as a energetic, conscientious, hard-working public servant.

My wife, Pat joins me in wishing LOU and Marcia and their family, health, happiness, and good luck in the years ahead. LOU will be greatly missed by all his friends in the House, but I hope that his future brings only the best and that he will remain in public service.●

● Mr. FASCELL. Mr. Speaker, I would like to take this opportunity to express my personal respect for our colleague, LOUIS FREY, JR., who will be leaving the House of Representatives at the conclusion of his present term.

LOU has admirably represented the Ninth Congressional District of Florida since his initial election in 1968.

Although we come from different sides of the political aisle, I have always liked and respected LOU FREY. As a member of the House Committee on Science and Technology, and Interstate and Foreign Commerce, he has worked diligently for his legislative objectives.

LOU's ability and dedication are well-known among his peers, and his traits of character have won him high esteem among all of us. He is one of the most personable Members of the House.

Because of his admirable qualities, LOU has accomplished a great deal during his congressional tenure. I will miss LOU's presence but hope that his future pursuits will prove enjoyable and productive.

I would like to extend to LOU, and to his family, my best wishes for personal success and happiness in the years ahead.●

● Mr. WAGGONNER. Mr. Speaker, as we take time to honor our colleagues who have chosen not to seek reelection I would like to pay tribute to LOU FREY.

LOU has been an excellent example to each and every Member of Congress of just how capable and dedicated the young men of this great country are. For several years LOU and I served together on the Science and Astronautics Committee and it became evident that he was one who tackled any problem head-on and met each challenge with enthusiasm.

I am sure that LOU views his departure with mixed emotions, as does each Member who is retiring. Although his wisdom and leadership and friendship will be missed by his colleagues in the Congress, the people of Florida can be justly proud of the way in which LOU has represented them.

In 1974 LOU was chosen by Time magazine as one of the "Young Leaders in America" and rightly so. He has set an example which challenges each young American; that of working on a fulltime basis for the freedom which our Founding Fathers worked so hard to establish.

I wish LOU and his young family the very best in all their future endeavors and have no doubt that LOU will continue to be one of the top "Young Leaders in America."●

● Mr. CORMAN. Mr. Speaker, I commend the gentleman from Florida for taking this time so that those who have had the privilege of working with LOU FREY also have the opportunity for a proper sendoff.

Although we could often be found on opposing sides of an issue, his fairness and integrity have been highly regarded. LOU has been very active in Republican Party affairs, notably service as chairman of their Research Committee. His dedicated efforts to improve the GOP are commendable.

As a conscientious member of the Science and Technology Committee, he has strived to keep America on the leading edge of innovation and discovery. As a former member of the predecessor committee to Science and Technology, I know the importance of the space program for stimulating the imagination and innovativeness of the American people. Representing both Cape Kennedy and Disney World will keep LOU ever bold and inquisitive.

LOU's departure was because of his ambition to greater serve the people of Florida. I am confident that wherever good fortune will lead, LOU's interest in serving the public will follow.●

● Mr. ZABLOCKI. Mr. Speaker, I join our colleagues in wishing Representative LOU FREY a happy and fulfilling retirement from the House of Representatives and success in his future endeavors.

Representative LOU FREY is a hard-working, energetic man who will certainly be missed by this body. His expertise in law and his responsiveness to Members of the House were exceptional assets during his service.

Representative FREY graduated with honors from the University of Michigan Law School and was subsequently admitted to the Florida Bar. After a successful career in law he was elected by members of the Ninth District of Florida to the U.S. House of Representatives in 1968. He was reelected to every Congress afterwards, and in 1976 swept the district with a 78.2 percent plurality.

Mr. Speaker, I believe that whatever LOU FREY chooses to pursue, he will put forth every effort and do a good job. I join our colleagues and friends in wishing him the best for a happy and fulfilling future.●

● Mr. ROGERS. Mr. Speaker, I join my colleagues in wishing LOU FREY every success as he leaves the House at the end of this 95th Congress.

I have enjoyed working with LOU, both in the Commerce Committee on which we served together, and as a member of the Florida delegation.

LOU has been a hard worker on behalf of the people of his district, of Florida, and of the Nation.

I know he has played a major role, and had a profound effect on the development of the communication law of our

country. I am sure Chairman VAN DEERLIN joins me in thanking LOU for his hard work and cooperation.

LOU FREY has also been a voice of reason in the consideration of many bills before our committee and the House.

It has been an enjoyable and rewarding association. May I join my colleagues in wishing LOU FREY every success in the future.●

● Mr. MICHEL. Mr. Speaker, I welcome this opportunity to honor our good friend and distinguished colleague LOU FREY.

It is customary on these occasions to pay tribute to the legislative ability of the Member who is retiring. I join with all of my colleagues on both sides of the aisle in saying that for 10 years we have had the benefit of LOU's dedication, his ability, and his hard work.

But there are times you get to know a lot about a colleague by what he does outside his legislative duties. Such is the case with LOU FREY. As you know, one of the most difficult positions to play in baseball is shortstop. You have to be able to go to either side, go deep and throw accurately, come in on the ball and make the double play. A shortstop is the player who serves as the "glue" that holds together a team. In many ways he is the player around whom a team is built.

For years I have watched LOU play shortstop in the congressional ball game. He can field and throw with the best of them and you might say that his qualities as shortstop are exactly those of a good legislator: the ability to be able to cover a wide area and still get the job done; the flexibility to move combined with the firmness and sense of balance necessary to be consistent; and the courage to face problems head-on whether it is a runner sliding into the base or a tough political decision.

It is my hope that LOU is only on the "temporarily disabled" list and that we will have once again the benefit of his ability, his courage, his friendship, and his integrity—not to mention his ability to go into the hole and make the long, accurate throw.●

● Mr. DE LA GARZA. Mr. Speaker, I rise today to salute the third of three great Congressmen from Florida who shall be leaving at the end of this session. Today is LOU FREY's day in the sun, and there are few Members who deserve it more.

Ever since LOU joined the House in 1969, he has represented Florida's Ninth District with diligence and integrity. In the relatively short time LOU's been in Congress, he has become a fixture of the House—outspoken in committee, on the floor, anywhere he is called upon to defend the rights and promote the views of his constituents.

LOU's departure leaves me with mixed emotions. On the one hand, the House will be darkened by the loss of one of its brightest candles. On the other hand, Florida will be warmed by his presence—and, after a couple of cold winters, perhaps that is what Florida needs.

Mr. Speaker, LOU FREY has my very best wishes for success in his future endeavors, and I know I speak for the entire House when I wish him well.●

● Mr. MANN. Mr. Speaker, LOU FREY and I were both elected to Congress in 1968, and arrived here when it was still fashionable for freshmen to be seen but not heard. In a sense, it was a blessing in disguise. Since nothing much was expected of us during our first 2 years, we were able to spend a good deal of time learning the ropes together—even though assigned to different committees.

Of course, the situation changed with the 92d and subsequent Congresses, as both of us became more deeply involved in the business of our respective committees. While LOU, as a member of the House Interstate and Foreign Commerce Committee and the Science and Technology Committee, was spearheading a major review of the Communications Act, and working on legislation related to cable TV, public broadcasting and space technology, I was busy with matters of concern to the House Judiciary Committee, District of Columbia Committee and a couple of select committees involved in the study of crime and drug abuse.

Although we have not seen as much of one another as we did in the beginning, the friendship and mutual respect that we established as freshmen has endured, and we have learned and benefited from the expertise that each has developed in our respective fields of endeavor.

I might add that LOU's interests and expertise extended beyond the scope of his committee work as he sought to improve the lot of the handicapped and veteran pensioners, and to promote the development of alternate energy sources and solutions to the problems of drug abuse.

In all of his legislative pursuits, LOU has demonstrated a capacity for hard work, an ability to get to the root of a tangled web of problems and a tendency to stay cool when under pressure—qualities which have earned him the recognition and respect of his colleagues on both sides of the aisle.

Although I am sure he will be missed—I cannot say that will apply to both sides of the aisle when the annual congressional baseball game rolls around. Rumor has it that the odds are in favor of the Democrats now that the Republicans are losing the best shortstop that their team has ever had—a man who won the most valuable player award three times in the past 10 years.

It may be that LOU is ready for the big league. But, whatever his plans, I know that he still has a lot to offer to society and that he will be equal to the task regardless of the dimensions of the undertaking.●

● Mr. FLOWERS. Mr. Speaker, when I count the blessings that have come my way in the last 10 years while being privileged to serve here in the "People's House"—the House of Representatives—right at the top of the list are the close, personal friendships that have developed with other Members. We may come from different places with widely different backgrounds, but there is surely something special here that allows a depth of friendship which is hard to find.

If anything, my feeling of friendship for the gentleman from Florida, LOU FREY, is extra special. It was destined to be so from our very first day in Congress, January 3, 1969, when we moved into offices adjoining each other in the Longworth Building. We have shared many wonderful experiences together—we have traveled half way around the world and we have collided at second base. Together we have fought the "enemy" many times—sometimes for real, sometimes imaginary. We have laughed and had fun and we have pushed and shoved each other on the paddle ball court. And we were both taken to the woodshed by the voters of our respective States at about the same time last month.

But I have a certain knowledge that the sun will always rise and shine for the "Kid" on each tomorrow, as I know it will on the friendship and admiration I have for him.

Who knows? Maybe we will figure out a way to get our offices next to each other again * * *.

LOU FREY has my best wishes for every success and happiness in the years ahead.●

● Mr. MONTGOMERY. Mr. Speaker, LOU FREY was elected to the House of Representatives 2 years after my own service began and since that time I have come to know him as a person of deep personal commitment to our legislative process and serving the people of Florida's Ninth District.

LOU FREY's leadership abilities have been recognized by many including Time magazine which chose him as a "Young Leader in America" in 1974 and the Republican Research Committee, which chose him to serve as its chairman for two terms. But more importantly, his abilities have been recognized by his colleagues as they have often sought his advice on legislation coming from the Interstate and Foreign Commerce and Science and Technology Committees.

I am particularly mindful of LOU's deep and sincere interest in the well-being of our Nation's veterans. He has long sought to improve the lot of America's former servicemen and servicewomen. I can assure you that his interest has been of immense help to me in formulating worthwhile programs in the House Veterans Affairs Committee.

Mr. Speaker, in addition to my association with LOU FREY as a fellow member of the House, I also consider him to be one of my closest personal friends. I am grateful for the fact that even though our association in the Congress will end, our friendship will not.●

● Mr. ERLENBORN. Mr. Speaker, when the Congress adjourns sine die, we will lose the talent and wit of my good friend LOU FREY.

He will be returning to the sunny climes of Florida after spending the better part of 10 years in the often chilly weather of Washington.

When LOU was chairman of the Republican Research Committee, he provided those of us on this side of the aisle with clear, concise reports on the issues facing us. He was in that position during some of the most difficult days our party has

ever faced, and helped us get through those days.

Mr. Speaker, we will miss LOU FREY. He represented the people of Florida and the country well.●

● Mr. CHAPPELL. Mr. Speaker, I rise this afternoon to pay tribute to one of the members of Florida's delegation here in the House—a gentleman who, unfortunately, will be leaving Washington when the 95th Congress adjourns, my distinguished colleague, LOU FREY.

LOU FREY has been one of the ablest members of the Florida delegation since coming to the Congress 10 years ago. He and I came to the House together, as freshmen in the 91st Congress. For that 10 years, the Ninth District of Florida has enjoyed the very capable and dedicated representation that LOU FREY has so conscientiously given. His party will lose a clear and respected voice here on the Hill.

Not only were LOU and I sharing the common experience of House Membership during the week, on weekends we saw a great deal of each other as "shipmates"—fellow Naval Reservists, who carried out our weekend warrior assignments at the Naval Air Reserve training unit in Jacksonville. Our time in the Naval Reserve gave us a shared, firsthand perspective on naval and defense issues that we would not otherwise have had.

Through five times in the House, LOU and I have often worked together on issues of concern to the State of Florida. Perhaps the most significant of these was the successful effort to designate the Canaveral area as a National Seashore. The Fourth and Ninth Districts share a common boundary, which divides the Canaveral shoreline. Throughout the struggle to bring the legislation to enactment, I knew I could count on LOU whenever help was needed. Many of our colleagues may have discovered that it is not always easy or perhaps even possible to work with fellow Members of the opposite party, even when pursuing a common goal. I believe that LOU and I proved that cooperation can take place despite differing political affiliation, to produce benefits to the citizens of both districts.

Suffice it to say, Mr. Speaker, I view the retirement of LOU FREY with mixed emotions. The Florida delegation will lose an able and dedicated legislator—but the Republican baseball team will also lose a sticky-fingered and entirely too effective shortstop.

I ask my colleagues on both sides of the aisle to join with me in recognizing the many contributions and accomplishments of our fellow Member, LOU FREY, as we approach the end of this fifth term in the House of Representatives.●

● Mr. VAN DEERLIN. Mr. Speaker, it is a special pleasure to join in this tribute to LOU FREY, one of my closest associates in the House membership.

LOU is ranking Republican on the House Communications Subcommittee, which I chair. Together we drafted and submitted H.R. 13015, the proposed Communications Act rewrite which would change completely the rules for Federal regulation of television, radio, telephone, cable TV, and other telecommunications systems.

This landmark legislation has stirred much debate and controversy in the 4 months since it was introduced, and for that LOU can take much of the credit. It was at LOU's instigation that we decided to embark on this project 2 years ago. He saw before I did that the old 1934 Communications Act had become badly dated, and was therefore a poor vehicle for dealing with modern communications technologies.

At times, when a broadcaster or public interest advocate complains about our bill, I am tempted to say, "Go tell LOU FREY. He's the one who thought it up."

Of course, the bill has drawn such opposition because it would alter the status quo for many established interests. But it would also open up new opportunities for communications industries and the public by ending much of the Federal regulation that we have found to be both ineffective and inhibiting.

LOU, a fine baseball player who has been a fixture at shortstop for the House GOP team, also was a staunch champion of the antiblackout law that allowed local television stations to carry pro football games if they were sold out 72 hours in advance.

Despite his easy-going and informal style, he is among the most energetic Members of the House, a can-do sort who sticks with a job until it is done.

LOU FREY is still a young man. Based on his fine record here, I know he will succeed in whatever he undertakes in the future.●

CONGRESSMAN JAMES J. DELANEY WILL RETIRE AFTER 34 YEARS IN HOUSE OF REPRESENTATIVES

The SPEAKER. Under a previous order of the House, the gentleman from New York (Mr. ADDABBO) is recognized for 60 minutes.

Mr. ADDABBO. Mr. Speaker, at the end of this session, the House will lose one of its most senior Members with the retirement of JAMES J. DELANEY of Queens. The New York congressional delegation will miss his presence in the new Congress more than anyone but his departure will be a sad one for all who have known and worked with JIM DELANEY.

There is much we can say about JIM DELANEY and some of it is even good. He maintains that because he has lived long enough to outlive the majority of his enemies and to have most of his sinful ways forgotten in the dust of past years that he ought to be remembered as the resident saint of the House. Well, for anyone who knows this son of Ireland, that is probably too much to swallow, even at most charitable.

Nevertheless, we can say this: There is only one JIMMY DELANEY. The mold has been broken and none like him will come our way again.

In 34 years of service in the House, a man has many triumphs as well as many defeats. JIM served on the House Rules Committee, rising to become its chairman, and he has felt the warmth of victory and the wrath of loss more times than he can remember. He has had Speakers of the House and Presidents of the United States seek his advice and counsel and he has endured when they did not like what they heard. Throughout all of the years, up and until today, he has never varied from the course he felt was right, no matter what pressures were brought to bear against him.

And during the last 2 years, at a time when he had at last climbed the pinnacle that so long had eluded him—the chairmanship of the Committee on Rules—this stalwart man who had said no to Truman and Eisenhower, who had said no to Kennedy and Johnson and Nixon and Ford and Carter—this man who had stood firm against the railings of Sam Rayburn and John McCormack; in these last 2 years when the chairmanship was his and his alone to wield, this giant of a man answered his call to duty with a heroic slogan that echoes still today:

"Yes, Tippy, Yes, Tippy."

Yes, it has been true that during the last 2 years, Chairman DELANEY has given more rules to more legislation that affects more people and creates more rollcalls than has ever been the case before. It is also true that because of those rules, this Congress has put together a record for hard work and dedication that will be hard to equal in Congresses to come.

But it is not the office that we honor nor is it the title that we cherish. Our affection is for the man who has moved among us in this House for three and a half decades of the most unbelievable change this Nation has ever endured.

For me, it is the human elements I shall miss. There has never been a better storyteller in this House than JIMMY DELANEY unless it might have been our former colleague Manny Celler of New York. Their impromptu contests of "Can You Top This" used to be one of the most rewarding hours a person could spend, and I look back over the years and I can recall JIMMY DELANEY stories that illustrate almost every point a man would want to make. JIMMY DELANEY sometimes appears to be a national repository of ethnic humor, the kind of humor that is funny because it pinpoints human foibles rather than cutting at nationalities. I and my Italian-American heritage have often been the butt of his humor and time after time I have gone away saying to myself that he understands the heritage of Italians, especially those who made that fearful trek to a new and foreign land, so far better than I who grew up in it.

And that brings us to what is essentially the best part of JIM DELANEY. He has spent his years on Earth looking and listening well. So many of us look and we do not really see. He sees everything and he hears everything because he cares about people so deeply it has to be felt rather than expressed.

And because he cared so much for those around him, people throughout his life have looked to him for support and leadership. In his youth, he was a poor man who worked with his hands so that he might become a member of the bar. In his youth, he was an outstanding ath-

lete who was good at any game he played, and in his youth, he was filled with that bursting desire to experience life that drew to him the friendship of the famous and the infamous.

And in his middle and his later years he rejoiced in his family and his work. He served nearly a decade in the Queens district attorney's office, and he practiced law in New York City with some of the giants of that field. He ran for Congress and won in 1944, and he was turned out of office 2 years later, and returned to office again in 1948. He lost the 1946 election because he refused to compromise an unpopular stand at a time when everyone around him was running for cover.

And then there were the years of sorrow and agony. Those were the years when arthritis nearly immobilized him, where every moment was painful. Those were the years of personal sadness as well: 11 years in an unsuccessful battle against the cancer that eventually took his beloved wife.

But he endured. He was among the first who underwent the then-radical hip replacement operations. Eventually, he would undergo two of those operations but he would emerge from that battle at last freed from the continuous pain that had nagged him for so long. Today, at 77, JIM DELANEY sets off all the alarm buttons at security stations at airports when he goes through, but he moves around easily and well again.

And through it all, his Irish wit has carried him through. Those of us who have lived so closely with JIMMY through the years know that along with the Irish wit and beauty comes the Irish temper. And is there one of us in this Chamber who has not been exposed at least once to even portions of wrath and wit? Sometimes within the same minute?

There is no explaining JIMMY DELANEY, no way of putting him down on paper in black and white. Any Irishman whose birthday comes 2 days after St. Patrick's Day must be endured to be believed and understood. We here in this House have endured—and enjoyed—and pleasured in the company of JIM DELANEY for years and years. We have shared him amongst ourselves, and now it is time for him to leave these halls and go forth upon an unsuspecting world.

Go well, JIM. Go in good health and our best wishes, and watch out, world. You have got a tiger coming your way.

● Mr. BIAGGI. Mr. Speaker, it is sad to say goodbye to good friends and colleagues with whom we have shared so much time and experience. And I have been fortunate, like many of you here now, to have worked alongside JIM and under his direction for many years. He is my good friend. At times he has been very much like a father to me. We have represented neighboring constituencies in Queens County, N.Y. And we have shared like brothers a special bond of love and commitment to the great city of New York.

But we really do not say goodbye to a guy like JIM DELANEY. A man of his character and distinction who has served in this great body for 32 years is a part of this institution, and will remain so for many years to come. And JIM DELANEY is very much a part of who we are and what we are working to accomplish.

JIM DELANEY's representation in Congress had very special meaning for New York. He came to these Halls to begin the 79th Congress, having won election to the area of Queens which is now the Ninth Congressional District on November 7, 1944. He was elected again on November 2, 1948, to the 81st Congress, and has won reelection ever since to each succeeding Congress. He is leaving us at a time after which he has achieved and established two very significant positions to provide service and leadership for New York and our Nation.

He is leaving us as the chairman of the House Rules Committee. No Member of this body could deny that any of the legislation of this 95th Congress would have been possible without the talents and leadership of JIM DELANEY.

He also leaves us as the chairman and dean of the New York State congressional delegation. It was always personally gratifying for me to work under his tutelage. Many years ago I was a detective lieutenant in the 114th precinct, and it was my pleasure to have him under my friendly surveillance—'nuff said. And I welcomed the confidence he placed in me through my appointment as chairman of the task force for the renewal of the New York City Federal loan financing legislation. We won a great victory. But it was the lasting support of JIM DELANEY which made that victory possible. He was greatly responsible for saving New York City.

I will miss the person and figure of JIM DELANEY in Congress. His bearing and demeanor are trademarks around here. These hallowed halls will long echo with the strains of his bursts of laughter and outrage. I enjoyed his good sense of humor as one who is close to him can do. And it was also my privilege at times to enjoy his great warmth and compassion. He is a man who was the friend of Presidents. He had their confidence because of his political acumen and integrity.

JIM DELANEY is a loving family man. I know my colleagues will join me in wishing for him and his family that the years ahead in Key Biscayne bring him happiness, good health, and peace of mind.●

● Mr. GREEN. Mr. Speaker, I want to join with those of my colleagues who are speaking in tribute to Congressman JAMES DELANEY, who is retiring after 34 years of service in the House.

As chairman of the House Rules Committee, JIM DELANEY skillfully helped direct the national agenda for Congress and those of us from New York will sorely miss his leadership as the senior member of our delegation.

I mention his contributions to consumer protection in fighting dangerous chemical additives to food and drugs and his efforts to bring tax-relief to hard-pressed families through tuition tax credits, as only two of JIM DELANEY's recent interests which I believe typify his ability to represent the needs of his district and the needs of our Nation with equal vigor.

I am proud to have had the opportunity to serve in Congress with JIM DELANEY. I know I am expressing the feelings of the rest of my colleagues in saluting him for a job well done and wishing him all possible future success and happiness.●

● Mr. RODINO. Mr. Speaker, I want to take this opportunity to pay tribute to a great Congressman and a great American. Rules Committee Chairman JAMES J. DELANEY is an institution in this House and I have been proud to serve with him since I entered Congress in 1949.

JAMES DELANEY's personal concern for people and his special wit has been well appreciated by those of us who have shared all or part of his three decades in Congress. During that time, the people of the Ninth District in New York could not have had a better or more loyal Representative than JAMES J. DELANEY. His attention has never waivered from the needs of his constituents and the best interests of our Nation. All Americans should be grateful to him for his fight for the passage of the Delaney amendment prohibiting the sale of drugs known to produce cancer in animals. It has saved countless lives. His stewardship of the Rules Committee has been a great service to the country during a time when the committee has had to consider an awesome amount of legislation. In all his work, JAMES J. DELANEY has performed admirably and memorably.

Mr. Speaker, I will miss my friend from New York as he leaves Congress, but I am happy that his long career provides so many fond memories of his proud record.●

● Mr. DOWNEY. Mr. Speaker, when Congressman JAMES J. DELANEY first stepped foot into this Chamber, I was not even an idea. I speak today of someone I know as Mr. Chairman and dean of the New York delegation and someone I respect as a legislator of accomplishment.

As a man of Congress, JIM DELANEY has helped guide our Nation for more than three decades. As a man of New York, he has helped to sustain the greatest city in the world throughout the postwar era and, especially, in its time of greatest need.

Foresight and legislative skill have been the hallmarks of his career. His early work to protect the Nation's food supply from pesticides on the farm and dangerous additives in the factory was truly a project of vision. He has left us with a body of law which continues to protect the health of our people and which exemplifies, in every sense of the phrase, that what we do here affects the lives of all Americans.

Congressman DELANEY's legislative skills have been applied to many of the great domestic issues of the day. In an era of limited energy resources, his leadership provided us with a Federal aid to mass transit program. In an era of cynicism, he has run the Rules Committee in an open and aboveboard way.

Mr. Speaker, the people of Queens and the city of New York will miss JIM DELANEY, and as we wish him well in his future endeavors, I would like to join a certain gentleman from Boston in

lamenting the fact that the caucus of silver-haired Irishmen in the U.S. House of Representatives will be without one of its most steadfast Members in the 96th Congress.●

● Mr. ANNUNZIO. Mr. Speaker, I rise in tribute to the Honorable JAMES J. DELANEY, chairman of the House Rules Committee, who is retiring at the close of the 95th Congress as the dean of the New York congressional delegation to Congress. It has been a truly rewarding personal experience for me to have known him as a colleague and I am honored to have served with him during the 14 years I have been in the House of Representatives.

JIM was first elected to the 79th Congress, and then to the 81st Congress, and was reelected to every succeeding Congress until the present 95th Congress, and he has proven himself a capable legislator and fully worthy of the trust and confidence of his constituents of the Ninth New York Congressional District.

This admiration for his leadership is not confined to the citizens of New York, for he is respected by every Member of Congress. Having served for over three decades with outstanding dedication to high standards, JIM DELANEY has compiled a splendid record of excellence and achievement, and his inspiring example will be missed here in the House.

Seldom does one find a man of JIM DELANEY's stature, a man so wholeheartedly dedicated and responsive to the needs of the people he served, and his contributions have made America a better country. I extend my warmest best wishes to JIM for a healthy and happy retirement.●

● Mr. RHODES. Mr. Speaker, for the past 3½ decades, JIM DELANEY has been a hard-working Member of Congress. His name is known nationwide as author of an amendment that has had far-reaching effects in the food and drug industries.

His amendment was adopted with the aim of protecting the American people from one of our major killer diseases—cancer.

I have been his colleague in the Congress for a major part of JIM's service, and I know how dedicated he has been to the cause of better health for our people.

We certainly will miss his many years of experience, and I join my colleagues in wishing him the very best for the future.●

● Mr. RUSSO. Mr. Speaker, I do not know how you can really pay full tribute to a gentleman who has served for over 30 years in Congress. His battles, his accomplishments, his legislation—so much would have to be said to do justice to the congressional career of Representative JIM DELANEY.

It is remarkable to consider that this gentleman was here making his mark as an advocate of protection of the public from harmful substances in our food, long before we could grasp the magnitude of the problem and while some of us here were just learning to ride a tricycle, or not even around yet.

Representative JIM DELANEY has served with dedication and the people of New York have been ably represented. But he has worked for the common good for all of us, and Congress and the country owe him thanks.

It has been a pleasure to serve with JIM, and I want to wish him continued success and great happiness.●

● Mr. BINGHAM. Mr. Speaker, I welcome the opportunity to participate in this special order in honor of our departing colleague, the dean of the New York delegation and chairman of the great Committee on Rules, the Honorable JAMES J. DELANEY.

JIM DELANEY was one of the elder statesmen of the House already when I arrived here some 14 years ago and I looked upon him with nothing less than awe. However, as the years went by and I got to know JIM, he became for me, as for so many of our colleagues, an object of affection, rather than awe.

In fact getting to know this colorful character from Queens County has been one of the great experiences of my years in the House, and I hope to see a lot more of him.

There is no question that JIM DELANEY has been a stalwart friend of the city and State of New York. When our long-time dean, Mannie Celler, left the House, JIM DELANEY took his place as dean of the New York delegation. As such, working with our former colleague and the present mayor of New York City, Ed Koch, JIM brought a disparate group of Members together as an effective, working delegation. Moreover, as one who presided over our delegation meetings with his inimitable brand of humor, he often made enjoyable delegation meetings that might otherwise have been routine. All of us benefited from his sometimes needling wit.

All in all, JIM DELANEY has been a memorable colleague and dean. We shall miss him very much.●

● Mr. ZABLOCKI. Mr. Speaker, like many of my colleagues, I was saddened to learn that my good friend, Representative JAMES J. DELANEY, had announced his retirement at the conclusion of the 95th Congress.

Having served 16 terms as a dedicated and responsible Member of Congress from the Ninth Congressional District of New York, JIM DELANEY will long be remembered for his important contribution as Chairman of the important House Rules Committee. In this capacity our retiring colleague has been instrumental in expediting to the floor bills which have required skillful expertise to insure a well-balanced debate. I believe this is the result of Representative DELANEY's illustrious law career, having previously practiced law in all the courts in the State of New York.

Undeniably, one of Chairman DELANEY's major contributions which will have a lasting impact on all our lives is his tireless efforts in the field of consumer health. We are all familiar with the Delaney amendment to the Food Additives Act of 1958 which prohibits the use of any chemicals known to induce cancer in animals or humans.

As early as 20 years ago, Representative DELANEY was actively fighting on behalf of the consumer, and as chairman of the Select Committee to Investigate the Use of Chemicals in Food and Cosmetics, he brought to public attention the hazards of chemical additives as well as the danger of pesticides. Needless to say, JIM DELANEY was the catalyst for countless investigations which have led to an increased awareness of the health hazards of modern technology.

On the subject of tax reform, I will sorely miss my political ally, as on many occasions we united in our attempts to provide tax relief to the lower- and middle-income taxpayer who has carried the full weight of the tax burden for many years. As a further indication of his commitment to improving the quality of life for the less fortunate, JIM DELANEY has consistently voted for responsible legislation to give the unemployed jobs and provide assistance to the poor.

Mr. Speaker, while I am sorry to see Chairman DELANEY leave the legislative branch, I join with my colleagues here on the floor of the House of Representatives in extending every best wish for continued good health and success in every one of his future endeavors.●

● Mr. FREY. Mr. Speaker, I would like to join with his many friends in wishing JIM DELANEY well. He has served this country long and well. JIM has been one of the best liked Members of Congress, effectively working for the legislation he believes in. I am delighted that JIM will be living part time in Florida, bringing a great deal of credit to our State. The State of New York and the people of this country are losing a fine Member of Congress. JIM can look back on a career that he leaves with pride and know that over the years he has gained the respect and friendship of all in the House.

Good luck and God speed.●

● Mr. QUILLEN. Mr. Speaker, I would like to take this opportunity to congratulate Congressman JAMES J. DELANEY on his many years of outstanding service in the House of Representatives.

The tremendous work he has done in serving his constituents and our Nation is a shining example for others to follow, and his efforts will long be remembered. His record of accomplishments shows a great deal of dedication and ability, as well as determination and personal integrity.

As ranking minority member of the House Rules Committee, I have enjoyed working with Congressman DELANEY, and his chairmanship has been very effective and decisive—he has made many important contributions to this country.

I know he will continue his high level of service as he retires from the Congress. We will all miss him, but I am sure the future holds many more wonderful things in store.

I am confident that all of my colleagues join with me in paying tribute to JAMES J. DELANEY and extend to him our sincere best wishes for the years that lie ahead.●

● Mr. DE LA GARZA. Mr. Speaker, today I rise with feelings of respect, admiration, and amazement to join in the special order for the distinguished Congressman from New York's Ninth District, JAMES J. DELANEY.

JIM is most definitely a Member we all hold in respect, for as chairman of the Committee on Rules, he has exerted his judicious and firm hand over every bill and resolution which came to the floor. For more than 30 years, JIM DELANEY has been a force to be reckoned with in the House—and I do not think anyone will doubt that the country is in better shape now that it would be without JIM.

Admiration is the word I think most appropriately describes my true feelings for this exceptional gentleman. To each and every task he faces, JIM applies his fine qualities of honesty, dedication, and fairness—and he has done so consistently over the years.

Mr. Speaker, amazement is the way I would characterize my reaction when I first contemplate the House without JIM. It is like a day without sunshine, or a bill without a rule. Mr. Speaker, the Congress will be poorer without the richness which is JIM DELANEY, but he has earned his vacation.

Thanks, JIM, for all you have done. I think I speak for all the Members when I sincerely wish you the very best in the future.●

● Mr. DERWINSKI. Mr. Speaker, for the past 34 years, the citizens of the Ninth District of New York have been ably represented here in Congress by our distinguished colleague, JAMES J. DELANEY.

Serving as chairman of the Rules Committee, JIM has made many conscientious contributions to our legislative process and in the implementation of important and responsible legislative policy.

Over the years, JIM has served the people of the Nation, as well as the people of his district, with outstanding ability. And it is with great pleasure that I join with my colleagues today to wish him the very best in the years ahead. JIM may, indeed, take pride in his accomplishments in the House, and we will certainly miss his wise counsel and leadership.●

● Mr. BRINKLEY. Mr. Speaker, with the adjournment of the 95th Congress, the Honorable JIM DELANEY of New York will retire from the U.S. Congress after 34 years of service.

Dedicating one's life to serving the public is an action to be highly commended. JIM DELANEY's years in Congress have made him a respected Member of the House of Representatives, and his ability and dedication will be missed by all of us.
